

ESMA UPDATES ITS CFI VALIDATIONS FOR MIFID II

27 December 2017

The CNMV informs about ESMA's recent publication regarding the update of the CFI validation rules relevant for instrument reference data reporting under MIFIR.

Introduced updates are applicable to the financial instruments with specific CFI codes for which either the fixed rate or strike price is considered a volatile attribute.

The CFI validation document will be kept up to date on ongoing basis.
