

## REVIEW OF THE EU TAXONOMY CLIMATE AND ENVIRONMENTAL DELEGATED ACT

### [Review of the EU Taxonomy Climate Delegated Act](#)

### [Review of the EU Taxonomy Environmental Delegated Act](#)

#### **Information Note**

The European Commission is seeking public feedback on draft revisions to the EU Taxonomy's technical screening criteria.

The proposed changes aim to make the framework simpler and easier to use. The draft revisions streamline language, clarify how to show compliance and reflect recent legislative as well as technological updates. They cover activities under the Climate and Environmental Delegated Acts, including sectors like forestry, manufacturing, energy, transport, construction and environmental protection. These Delegated Acts focus on targeted adjustments that can be addressed on the basis of existing evidence and implementation experience. The inclusion of new economic activities, as well as more substantial revisions to the technical screening criteria that require further technical analysis or policy consideration, will be addressed in subsequent initiatives.

The feedback will inform the final revision of the criteria that is planned for adoption by summer 2026.

#### **Submission of comments**

The deadline for submitting comments is **14 April 2026**.

Stakeholders should send their contributions through an online questionnaire available on the *European Commission* website for the [Climate Delegated Act](#) and for the [Environmental Delegated Act](#).

Likewise, please send a copy of your answers to the CNMV to the following email address: [documentosinternacional@cnmv.es](mailto:documentosinternacional@cnmv.es)
