

Call for Entries for the Eighth Edition of the Finanzas para Todos Awards of the Financial Education Plan

23 May 2023

Call for entries for the eighth edition of the Finanzas para Todos Awards of the Financial Education Plan, sponsored by the Spanish National Securities Market Commission (CNMV), the Bank of Spain, and the Spanish Ministry for Economic Affairs and Digital Transformation.

These awards aim to promote excellence in financial education initiatives taken in Spain, acknowledging the work of those institutions or persons who have shown exceptional dedication and commitment in this area.

The Finanzas para Todos Awards have two categories: for the best financial education initiative and, on the other hand, the award for collaborators in the development of the Financial Education Plan.

The first category is open to any natural or legal person not collaborating in the Financial Education Plan, who may have launched, after 1 January 2022, financial education initiatives which, due to their novelty or social outreach, are deemed relevant.

The second category is open to institutions considered to be collaborators of the Financial Education Plan and which may have stood out for promoting and disseminating the national financial education strategy.

The winners of the Finanzas para Todos Awards will be selected on 20 September 2023 by a panel formed by representatives of the Bank of Spain, the CNMV, and the Spanish Ministry for Economic Affairs and Digital Transformation. The Awards will be handed out on 2 October 2023, within the context of the Financial Education Day.

The period to submit applications will be from 23 June to 8 September 2023, both inclusive.
