NOTIFICATION OF OTHER RELEVANT INFORMATION

GREENERGY RENOVABLES, S.A.

January 13, 2026

Pursuant to the provisions of Article 17 of Regulation (EU) No. 596/2014 on market abuse and Article 228 of the revised text of the Securities Market Law, approved by Royal Legislative Decree 4/2015, of October 23, and related provisions, the following information regarding GREENERGY RENOVABLES, S.A. (hereinafter, "GREENERGY") is made available to the market:

OTHER RELEVANT INFORMATION

Greenergy secures capacity contracts for 2.1 GWh StandAlone storage projects in Poland.

Greenergy has obtained capacity contracts for 5 StandAlone storage projects in Poland (with a total power of 534 MW) in the latest auction organized by Polskie Sieci Elektroenergetyczne (PSE), the country's electricity system operator.

These capacity contracts will begin providing stability to the electricity grid starting in 2030 and will have a duration of 17 years.

In total, Greenergy has been awarded more than 11% of the total storage capacity offered in this auction.

Starting in January 2030, these services will be remunerated at a fixed price (indexed to CPI) of 465.02 PLN/KW for the 17-year period, ensuring the company a minimum amount of more than 132 million euros.

Capacity revenues form part of the revenue stack projected for each project. These will be complemented by revenues from energy trading, as well as participation in other regulated markets such as ancillary services, which may be structured through tolling agreements.

In addition, Greenergy will receive 34 million PLN (around 8 million euros) in capital grants awarded by the Polish government for other smaller StandAlone projects (136 MWh) that the company expects to be in operation before 2028.

In Madrid, on January 13, 2026.

Mr. David Ruiz de Andrés

Chairman of the Board of Directors and Chief Executive Officer
