Nota: Las principales eliminaciones se producen: a) por las ventas que TESA realiza a la Prensa Regional y a ABC, b) por los ingresos derivados de la distribución de Beralán. Las cifras están redondeadas a la unidad de miles más cercana.

La evolución de la rentabilidad de los Regionales se ve fuertemente afectada por la publicidad, en especial la print (-11.691 miles de euros), en menor medida por el margen de imprentas y distribución que desciende en -1.024 miles de euros y, con signo contrario, por los ahorros de costes de personal y comerciales, entre otros, que impactan en +6.851 miles de euros.

Por su parte, el EBITDA comparable de ABC está impactado por la caída de la publicidad (-2.806 miles de euros, concentrándose en print un 95% del total de la caída) y en menor medida por la caída en el margen tanto de difusión (-1.125 miles de euros), como de la actividad de impresión (-834 miles de euros).

Cabe destacar el número de suscriptores de los modelos de pago ON+ que tras aumentar en un +39% vs 2019 se sitúa en cerca de 55.000. En octubre, ABC ha lanzado su modelo de pago, previamente se había alcanzado una base de c.1m de usuarios registrados, de los que un 23% ya navegan de manera logada.

Por último, el EBITDA comparable de Suplementos y Revistas mejora en 824 miles de euros frente a los 9M19 gracias a los ahorros de costes.

La disminución del EBITDA del área se explica principalmente por la caída de los ingresos de publicidad en TDT, en gran parte causada por las circunstancias extraordinarias actuales.

Los ingresos del área están impactados por la desconsolidación del portal Infoempleo en 2019 (ingresos pro-forma 9M20 -14,7%). En cuanto a la operativa del negocio, el entorno ha sido especialmente adverso para los clasificados de motor (efecto por la caída de ventas de automóviles y descenso de concesionarios anunciantes) y de inmobiliario (por la caída de ventas de viviendas y actividad). Cabe destacar la mejora en sus KPIs (audiencia online y número de clientes) respecto del periodo preCOVID, reflejando la estrategia seguida de apuesta por mejora del ARPA y cuota de clientes, y desarrollar nuevos servicios.

Cabe destacar que si se compara la evolución anual del EBITDA comparable en 2T20 vs 3T20 la caída ha pasado del -83,6% al -19,5%.

Nota: las cifras están redondeadas a la unidad de miles más cercana.

El EBITDA comparable de la división de Gastronomía se ve afectado por la celebración de menos eventos respecto del mismo período del año anterior.

En octubre se ha celebrado Gastronomika San Sebastián en un nuevo formato virtual repetible, con un gran éxito de asistencia (21.000 asistentes registrados) y de repercusión internacional (asistentes de 103 países). Siguiendo el objetivo del Grupo de reforzar las áreas de negocio de diversificación, VOCENTO ha adquirido la compañía Mateo&Co, consultora estratégica de marca, marketing y comunicación, especializada en gastronomía y alimentación en España. Mateo&Co es líder en su sector en España.

Además, en su estrategia de incrementar su posición como actor principal en gastronomía, VOCENTO ha llegado a un acuerdo con la Universidad Pontificia de Comillas para un proyecto académico único de Formación en gastronomía, cuyo objetivo es la formación de máximo nivel nacional e internacional, y que uniría las carreras universitarias de ingeniería agrícola y agroambiental, con la de administración de empresas y la de gastronomía.

En cuanto a la división de Agencias y Otros, se han alcanzado unos ingresos en 9M20 de 6.649 miles de euros, +5.364 miles de euros respecto 9M19, debido principalmente al impacto de consolidación de las agencias que acumula en los últimos 12 meses una facturación de 11.443 miles de euros. El EBITDA comparable en este periodo es positivo por 309 miles de euros.

Destacar el esfuerzo de diversificación tanto a través de la incorporación de nuevos clientes (sectores farma o alimentación), el crecimiento en digital (proyectos de e-commerce) y el menor peso de la actividad de trade marketing (acciones de marketing en puntos de venta de hostelería) a favor de proyectos de creatividad y estrategia de comunicación.

Anexo I: Medidas Alternativas del Rendimiento

CNMV notificó el 20 de octubre de 2015 su intención de cumplir con las "Directrices sobre Medidas Alternativas del Rendimiento" publicadas por La Autoridad Europea de Valores y Mercados (ESMA) el 30 de junio de 2015 y emitidas al amparo del artículo 16 del Reglamento (EU) Nº 1095/2010 del Parlamento Europeo y del Consejo, de 24 de noviembre de 2010. En este contexto, se incluyen las Medidas Alternativas del Rendimiento utilizadas.

La descripción de dichas Medidas Alternativas de Rendimiento, utilizadas en este informe, que no han cambiado sobre lo presentado en los anteriores Resultados es:

EBITDA significa, el resultado neto del ejercicio antes de ingresos financieros, gastos financieros, otros resultados de instrumentos financieros, impuesto sobre beneficios, amortizaciones, depreciaciones, deterioro y resultado por enajenación de inmovilizado material e intangible, deterioro de fondos de comercio para el periodo en cuestión sin tomar en consideración (a) el resultado neto de la enajenación de activos financieros corrientes; y (b) el Resultado de Sociedades por el método de participación.

EBITDA comparable significa ajustar al EBITDA todos aquellos ingresos y gastos excepcionales no recurrentes que facilitan la comparación entre los EBITDA entre los periodos en cuestión. En este sentido, se han considerado como gastos excepcionales no recurrentes los importes de las indemnizaciones por despido devengadas en cada periodo.

EBIT significa, restar al EBITDA las amortizaciones y depreciaciones y el deterioro y resultado por enajenación de inmovilizado material e intangible.

Deuda financiera neta (DFN) significa el endeudamiento a largo y corto plazo con coste financiero explícito, bien sea con entidades financieras bien con otros terceros, más las deudas derivadas de la emisión de bonos, pagarés, obligaciones convertibles en acciones o instrumentos financieros de naturaleza similar más las garantías o contragarantías en relación con endeudamiento con coste financiero que puedan prestar a favor de terceras partes y no contabilizadas en el pasivo como obligaciones de pago menos la tesorería más el valor de mercado (mark to market) de aquellos instrumentos de cobertura que se suscriban distintos de las Operaciones de Cobertura. A estos efectos se entenderá por tesorería el efectivo y otros medios líquidos, más otros activos financieros corrientes y no corrientes, que se mantengan bien con entidades financieras o bien con terceros. En este sentido, el importe de las "Deudas con entidades de crédito" corresponde al valor nominal de las mismas, y no a su coste amortizado; es decir, no incluye el impacto del diferimiento de los gastos de apertura. No se incluyen dentro de deuda financiera neta los Avales Económicos y los Avales Técnicos.

Deuda financiera neta (DFN) comparable significa ajustar la DFN por todos aquellos cobros y pagos excepcionales no recurrentes que facilitan la comparación entre la DFN de los periodos en cuestión.

Generación de caja ordinaria significa la diferencia entre la DFN del inicio y el final de periodo ajustada por todos aquellos cobros y pagos excepcionales no recurrentes que facilitan la comparación entre la DFN de los periodos en cuestión incluyendo pagos por indemnizaciones.

Intangible assets

The decrease by -5,126 thousand euros is mainly the result of the write-down of goodwill.

Property, plant and equipment

The total amount fell by -2,098 thousand euros as a result, among other factors, of a greater increase in depreciation than in capex and the transfer of the land belong to El Diario Vasco to an asset held for sale.

Other current assets

Because of a fall in inventories, and in particular in the balance from clients because of lower levels of activity, there was a decrease of -14,126 thousand euros in other current assets.

Gross financial debt consisted of debt with financial institutions of 34,903 thousand euros (current liabilities of 29,532 thousand euros and non-current of 5,371 thousand euros), current commercial paper with a balance of 34,000 thousand euros, another debt with a cost of 594 thousand euros, and IFRS16 leases of 21,356 thousand euros.

In 9M20 debt of 15,745 thousand euros was recognized as a result of the leasing contract for the new offices in Madrid and to a lesser degree of the El Correo offices in Bilbao. It should be noted that the level of NFD excluding IFRS16 leases was similar in 9M20 to the level at the end of 2019. Cash and cash equivalents totaled 19,173 thousand euros. Credit lines of 46,000 thousand euros are available.

In 9M20, the Group generated positive operating cash flow of 7,438 thousand euros. Apart from EBTIDA, the major contribution was a +4,665 thousand variation in working capital, due mainly to receivables from clients and a lower level of inventories.

Analysis of variation in Net Financial Debt 2019-9M20

Note 1: including advance revenues, net financial expenses, dividends to minority interest, taxes.

The non-recurring cash flows, excluding compensation payments, is mainly a result of earn out payments for prior acquisitions, non-recurring capex for the new offices of ABC and El Correo, and the share buyback programme.

Note: The main eliminations are the result of: a) sales from TESA to the Regional Press and ABC, and b) distribution revenues at Beralán. Numbers are rounded to the nearest thousand euros.

The profitability of Regionals was heavily impacted by the fall in advertising, especially in print (down -11,691 thousand euros), and to a lesser degree by the margin from the print plants and from distribution, which fell by -1,024 thousand euros. Conversely, savings in personnel and commercial expenses and others totaled +6,851 thousand euros.

For its part, the comparable EBITDA of ABC was affected by the drop in advertising (-2,806 thousand euros, 95% of which occurred in print advertising), and to a lesser degree by the fall in the margin on circulation (-1,125 thousand euros) and on printing (-834 thousand euros).

The number of subscribers to the ON+ paid subscription service increased by +39% from 2019 to stand at around 55,000. In October, ABC launched its paid service, having achieved a registered user base of c. 1 million, of whom 23% browse while logged in.

Finally, the comparable EBITDA of Supplements and Magazines improved by 824 thousand euros vs 9M19 thanks to cost savings.

Revenues in this area were affected by the divestment of Infoempleo in 2019 (proforma revenues 9M20 -14.7%). In terms of operations, conditions were exceptionally challenging for automotive classified advertising (because of the fall in car sales and in advertisements from dealers) and for real estate (with falling housing sales and activity). There was an improvement in KPIs (online audience and client numbers) from the pre-Covid period, reflecting the strategy of increasing ARPA and market share, and developing new services.

The YoY decrease in comparable EBITDA in 3Q20 improved to -19.5% from -83.6% in 2Q20.

Comparable EBITDA at Gastronomy was impacted by the reduction in the number of events compared with last year.

October saw the Gastronomika San Sebastián event held in a new and replicable format, with significant success achieved in terms of attendance (21,000 registered guests) and international scope (representatives from 103 countries). In line with the Group's strategy of strengthening its diversified areas, VOCENTO acquired Mateo&Co, a strategic branding, marketing and communications agency, specializing in gastronomy and food and drink in Spain. Mateo&Co is the leader of its sector in Spain.

Furthermore, to reinforce its position as a major player in gastronomy, VOCENTO finalized an agreement with the Universidad Pontificia de Comillas to launch a gastronomical training project. The initiative will combine university courses from agricultural and agronomy with business administration and gastronomy, providing the highest national and international level of training.

At the Agencies and Others division, revenues increased by +5,364 thousand euros to 6,649 thousand euros from 9M19, reflecting the consolidation of the agencies, which contributed 11,443 thousand euros of revenues in the last 12 months. Comparable EBITDA in the period was a positive 309 thousand euros.

There has been a significant effort made in diversification, including the incorporation of new clients (in the pharma and food sectors), growth in digital (e-commerce projects) and a reduction in the weight of trade marketing (marketing actions at points of sales in the hostelry sector) in favour of projects focused on communications strategy and creativity.

Appendix I: Alternative Performance Measurements

On 20 October 2015, the CNMV stated its intention to comply with the Guidelines on Alternative Performance Measures published by the European Securities and Market Authority (ESMA) on 30 June 2015 in accordance with Article 16 of EU Regulation 1095/2010 of the European Parliament and Council.

The APMs used in this report include the following:

EBITDA represents the net result of the period before financial income and expenses, other results from financial instruments, tax on profits, amortization, depreciation, the impairment and sale of fixed and non-fixed assets, the write-down of goodwill in the period, excluding (a) the net result from the sale of current financial assets and (b) the results from equity-accounted subsidiaries

Comparable EBITDA is the adjustment of EBITDA for all non-recurring exceptional revenues and costs, in order to facilitate the comparison between EBITDA in different periods.
Exceptional non-recurring costs include the costs of compensation for dismissals incurred in each period.

EBIT is EBITDA less amortization and depreciation and the result from the impairment or sale of fixed and non-fixed assets.

Net Financial Debt (NFD) represents long-term and short-term debt with an explicit financial cost, either with financial institutions or other third parties, plus debt from the issue of bonds, commercial paper, securities convertible into shares or similar financial instruments plus the collateral or guarantees provided to third parties as part of the debt with a financial cost and which are not recorded as liabilities with payment obligations, minus cash plus the mark-to-market value of any hedging instruments apart from hedging for trading. Cash includes cash and other liquid equivalents, plus other current and non-current financial assets held either at financial institutions or with other third parties. The amount of the item of 'debt with credit institutions' is the nominal value and not its amortized cost, i.e. it does not include the impact of deferred arrangement costs. Guarantees of technical and financial capacity are not included in Net Financial Debt.

Comparable Net Financial Debt (NFD) is NFD adjusted for exceptional and non-recurring receivables and payables for comparative purposes.

Ordinary cash generation represents the difference between the NFD at the beginning and end of the period, adjusted for non-recurring and exceptional receivables and payables for comparative purposes
