Watch for scams! Illegal financial activities: Consob blocks 5 websites

As part of its efforts to combat financial fraud, Consob has ordered the blocking of **5 websites** that were unlawfully providing investment services and activities relating to financial instruments. Below is the list of websites ordered to be blocked:

- "**mibinvestcfd.com**" (*website* <https://mibinvestcfd.com> and page <https://client.mibinvestcfd.com>);
- "**Omenyxgroup.com**" (website <https://omenyxgroup.com> and associated page <https://inv.omenyxgroup.com>);
- "**Nexus Ai Group Limited**" (website <https://nexusaigrouplimited.io> and associated page <https://cfd.nexusaigrouplimited.io>);
- "**Pendoxa**" (*website* <https://pendoxa.com> and related page <https://webtrader.pendoxa.com>);
- "**Novate-cfd**" (website <https://novate-cfd.com> and related page <https://wt.novate-cfd.com>).

This brings the total number of websites blocked by Consob since July 2019 – that is, since the Authority was granted the power to order the blocking of websites belonging to unauthorised financial intermediaries – to **1,723**. Of these, **204** relate to crypto-asset-related activities.

The Authority has exercised the powers deriving from the "[Growth Decree](#)" to block the websites of unauthorised financial intermediaries. The measures adopted by Consob can be consulted on the website www.consob.it. Internet service providers operating in Italy are currently carrying out the blocking of these sites. For technical reasons, the actual blocking may take a few days.

It is important that savers exercise the utmost diligence in making fully informed investment choices, adopting common-sense behaviour, which is essential for safeguarding their savings: among these, prior verification, for websites offering investment services and crypto-assets, that the operator through which one is investing is authorised and, for offers of financial products and crypto-assets, that the prospectus or *white paper* has been published.

Consob also draws attention to the evolution of deceptive practices that exploit *the internet* to steal users' money and personal data: there has been an increase in the use of new tools, such as *emails* and 'cloned' *websites*, fake profiles of politicians and celebrities, and content generated using artificial intelligence systems – such as images, voices or videos – with the aim of inducing savers to make harmful investment choices.

To this end, Consob invites investors to consult the dedicated [information sheet](#) containing advice on how to protect themselves from financial fraud in the age of artificial intelligence and reminds them that its website features the '[Watch for scams!](#)' section, where useful information is available to warn investors against abusive financial schemes.
