8 PERFORMANCE OF REFERENCE ASSET(S) OR OTHER VARIABLE, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT AND ASSOCIATED RISKS AND OTHER INFORMATION CONCERNING THE REFERENCE ASSET(S) AND/OR OTHER UNDERLYING

Past and future performance of the Index can be obtained from various internationally recognised published or electronically available news sources, for example, Bloomberg.

Investors should note that historical performance should not be taken as an indication of future performance.

The Notes do not explicitly reference a derivative.

The Notes are linked to the performance of the Index. Investors should note that the Final Cash Settlement Amount payable on settlement is dependent on the official closing levels of the Index on the Valuation Date relative to the official closing levels of the Index on the Strike Date. In certain circumstances, including the event that the Notes are subject to cancellation, the amount paid to Noteholders on settlement may be less than their original investment. Investors should form their own views on the merits of an investment related to the Index based on their own investigation thereof.

If the official closing level of the Index on the Valuation Date is less than or equal to the official closing levels of the Index on the Strike Date, then the Notes will be redeemed at 100% minus the performance of the Index from the official closing level of the Index on the Strike Date to the official closing level of the Index on the Valuation Date up to a maximum of 10%. Therefore, if the Index has fallen by 10% or more since the Strike Date, 10% of the investment will be lost and the Notes will be redeemed at 90%.

If the official closing level of the Index on the Valuation Date is more than the official closing level of the Index on the Strike Date, then the Notes will be redeemed at 100% plus any positive performance of the Index from the official closing level of the Index on the Strike Date to the official closing level of the Index on the Valuation Date up to a maximum of 30%. Therefore, the maximum redemption for the Notes will be 130%.

12. SPECIFIC COUNTRY TAX INFORMATION - SPAIN

General tax information

The following is a description of certain Spanish tax considerations relevant to a Noteholder. This statement must not be understood to be tax advice. It is based on the Spain tax laws and their interpretation in effect on the date of this prospectus that may be subject to changes. Such changes may negatively affect the tax treatment as described below. This description does not purport to be complete with respect to the tax information that may be relevant for the Noteholder due to his personal circumstances. Prospective buyers of the note are advised to consult their professional tax advisor regarding the tax consequences of the purchase, ownership, disposal, redemption or transfer of the Note.

Taxation of a Spanish tax resident individual

According to article 25 of the Spanish Personal Income Tax Act, positive and negative income obtained by Spanish Tax resident individuals from the Notes would be considered as yields from moveable capital.

In case of transfer or cash settlement, the yield obtained by the investor would be the difference between the amount received (reduced in the expenses related to the transfer) and the acquisition cost or subscription value (incremented in the costs related to the acquisition).

According to legislation into force, income and losses from moveable capital will be included as "saving part" of the taxable income being taxed on a net basis at a flat rate of 19% to the income that does not exceed 6,000 euros, and 21% to the income higher than 6,000 euros.

Positive yields obtained will be subject to withholding tax at a rate of 19%. Withholdings are creditable against the investor's final tax liability, being, as a general rule, the depository entity resident in Spanish territory (or a Spanish permanent establishment of a non resident entity) obliged to withhold taxes.

Taxation of a Spanish tax resident company

According to article 10.3 of the Spanish Corporate Income Tax Act, income obtained by a Spanish entity from the investment in the Notes will be included in the taxable base of the said entities in accordance to the accounting standards being taxed at the rate corresponding to the Noteholder (generally 30%).

As long as the Notes are represented by book entries and are traded on the Madrid and Barcelona Stock Exchanges, no withholding tax obligation would arise.

As the Corporate Income Tax base is calculated on the accounting P&L outcome, any change in the accounting standards affecting this type of instruments could impact the Notes tax treatment.

Taxation of Non Spanish Resident

Non Spanish residents would only be taxed in Spain on income obtained from the Notes in case they act in Spain through a Permanent Establishment to which the Notes are allocated. In this latter case, these Non Spanish residents would be taxed as explained for the Spanish tax resident companies.
