Where a claim relating to the information contained in the Base Prospectus is brought before a court, the plaintiff investor might, under the national legislation of the member states of the European Economic Area and the United Kingdom, have to bear the costs of translating the Base Prospectus before the legal proceedings are initiated. Civil liability attaches only to those persons who have tabled the summary, including any translation thereof, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of the Base Prospectus or if it does not provide, when read together with the other parts of the Base Prospectus, key information in order to aid investors when considering whether to invest in the Notes. <b>Events of default</b>

(a) a default is made for more than 14 days in the payment of any principal (including any Instalment Amount(s)) due in respect of any of the Notes or 30 days or more in the payment of any interest or other amount due in respect of any of the Notes; or	
(b) a default is made in the performance by the Issuer or the Guarantor of any other obligation under the provisions of the Notes or under the provisions of the Guarantee relating to the Notes and such default continues for more than 60 days following service by a Noteholder on the Issuer and the Guarantor of a notice requiring the same to be remedied; or	
(c) the occurrence of various bankruptcy related events with respect to the Issuer or Guarantor.	
<b>C.1.4</b>	<b>Ranking of the Notes in the Issuer's capital structure upon insolvency</b>
The Notes will constitute direct, unconditional, unsecured and unsubordinated obligations and will rank <i>pari passu</i> among themselves, with all other outstanding, unsecured and unsubordinated obligations of the Issuer present and future, but, in the event of insolvency, only to the extent permitted by applicable laws relating to creditor's rights.	
<b>C.1.5</b>	<b>Restrictions on free transferability of the Notes</b>
There are no restrictions on the free transferability of the Notes. However, selling restrictions apply to offers, sales or transfers of the Notes under the applicable laws in various jurisdictions.	
<b>C.2</b>	<b>Where will the Notes be traded</b>
Application has been made for the Notes to be admitted to trading on AIAF	
<b>C.3</b>	<b>What are the key risks that are specific to the Notes?</b>
There are a number of risks associated with an investment in the Notes. These risks include:	
<ul style="list-style-type: none"> <li>• The Notes may not be a suitable investment for all investors. The Notes are complex financial instruments and may entail significant risks not associated with investments in conventional securities such as debt or equity.</li> <li>• There are specific risks relating to Equity Linked Notes.</li> <li>• A Noteholder does not have rights of ownership in the Reference Item(s) and potential investors in Equity Linked Notes may receive less return than expected.</li> <li>• There are specific risks relating to Reference Item Linked Notes. The Reference Item Linked Notes are securities which do not provide for predetermined redemption amounts and/or interest payments and the amounts payable (whether in respect of principal and/or interest) or deliverable will be dependent upon the performance of the Reference Item, or a combination of Reference Items, which themselves may contain substantial credit, interest rate, foreign exchange, correlation, time value, political and/or other risks.</li> <li>• The past performance of a Reference Item is not indicative of future performance and the range of, or trends in, fluctuations in the Reference Item that may occur in the future. It is therefore possible that future performance of a Reference Item may differ from, and be worse than, such past performance.</li> <li>• Investors may lose the original invested amount due to various reasons including without limitation: (a) possible insolvency proceedings or some other event impairing the ability of the Issuer and the Guarantor to meet its obligations under the Notes; (b) the fact that the terms of the relevant Notes do not provide for full repayment of the initial purchase price upon final</li> </ul>	

maturity and/or mandatory early redemption of such Notes and the relevant Reference Item(s) perform in such a manner that the final redemption amount and/or mandatory early redemption amount is less than the initial purchase price; (c) the fact that the purchaser seeks to sell the relevant Notes prior to their scheduled maturity, and the sale price of the Notes in the secondary market is less than the purchaser's initial investment; and (d) the fact that the Notes are subject to certain adjustments in accordance with the terms and conditions of such Notes that may result in the scheduled amount to be paid or asset(s) to be delivered upon redemption being reduced to or being valued at an amount less than a purchaser's initial investment.

- As the Notes include the right of the Issuer to redeem, subject to the fulfilment of a particular condition, the Notes at their maturity by delivering shares to the investor, the investor may receive such shares, rather than a monetary amount upon maturity. Holders will, therefore, be exposed to the issuer of such shares, and the risks associated with such shares. Noteholders should not assume that they will be able to sell such shares, for a specific price after the redemption of the Notes, and in particular not for the purchase price of the Notes. The Noteholders will be exposed to any decline in the value of such shares between the Redemption Valuation Date and the Maturity Date. Under certain circumstances the shares, may only have a very low value or may, in fact, be worthless. Holders may also be subject to certain documentary or stamp taxes in relation to the delivery and/or disposal of such shares.

- In order to receive the Entitlement in respect of a Note settled by way of Physical Delivery, the holder of such Note must deliver or send to the relevant Clearing System or Principal Paying Agent (as applicable) a duly completed Asset Transfer Notice on or prior to the relevant time on the Cut-off Date and pay the relevant Expenses

- Holders of Notes subject to Physical Delivery must pay all taxes and expenses relating to delivery of such Notes. As defined in the Terms and Conditions of the Notes, "Expenses" includes all costs, taxes, duties and/or expenses including stamp duty, stamp duty reserve tax, transfer tax and/or other costs, duties or taxes arising from the delivery of the Entitlement.

- Credit ratings assigned to the Issuer, the Guarantor or any Notes may not reflect all the risks associated with an investment in those Notes. Should the credit ratings of the Issuer, the Guarantor or any Notes be revised, suspended or withdrawn this could result in increased interest and other expenses on the Issuer's and the Guarantor's future borrowings and, therefore, have a material adverse effect on the Guarantor's business, results of operations, and financial condition.

- The Calculation Agent, which will generally be the Guarantor or an affiliate of the Guarantor, has broad discretionary powers which may not take into account the interests of the Noteholders. Potential conflicts of interest may exist between the Calculation Agent and the holders of the Notes, including with respect to the exercise of the very broad discretionary powers of the Calculation Agent.

<b>C.4</b>	<b><i>Is there a guarantee attached to the Notes?</i></b>
------------	---

<b>C.4.1</b>	<b><i>Nature and scope of the guarantee</i></b>
--------------	---

The Notes will be unconditionally and irrevocably guaranteed by the Guarantor. The obligations of the Guarantor under its guarantee will be direct, unconditional and unsecured obligations of the Guarantor and will rank pari passu with all other unsecured and unsubordinated obligations of the Guarantor.

<b>C.4.2</b>	<b><i>Description of the Guarantor, including LEI</i></b>
--------------	---

The Guarantor is a limited liability company (a sociedad anónima or S.A.) and was incorporated under the Spanish Corporations Law on 1 October 1988. It has its registered office at Plaza de San Nicolás 4, Bilbao, Spain, 48005, and operates out of Calle Azul 4, 28050, Madrid, Spain. The LEI of the Guarantor is K8MS7FD7N5Z2WQ51AZ71.

**C.4.4** *Risk factors relating to the Guarantor*

- Macroeconomic Risks and Geopolitical Risks:** The Group is sensitive to the deterioration of economic conditions or the alteration of the institutional environment of the countries in which it operates, and especially Spain, Mexico and Turkey. The global economy is undergoing significant changes, driven in part by the policies of the U.S. administration. Uncertainty surrounding the consequences of such changes is exceptionally high, substantially increasing geopolitical, economic and financial risks. The increase in U.S. tariffs on imports from its trade partners has triggered financial market volatility, reinforcing risks to the global economic outlook. The final level and duration of these tariffs, and the high uncertainty in connection therewith, could negatively impact the world economy, worsening the prospects for the macroeconomic environment. As a result of adopted or announced tariffs, global growth could slow or decline significantly. While fiscal stimulus and monetary easing measures could partially offset the impact of trade protectionism, particularly in the Eurozone, where significant public spending increases have been announced, the impact of higher U.S. tariffs could be amplified by the adoption of retaliatory measures by other countries, sustained uncertainty, weakening confidence levels and financial deterioration, among other factors. Increased tariffs also raise the risk of inflation in the United States and the Eurozone, which could further slow private demand and, at the same time, constrain the Federal Reserve's ("Fed") and the ECB's ability to lower rates if warranted by activity.
- Business Risks:** The Group's businesses are subject to inherent risks concerning borrower and counterparty credit quality, and the value of collateral that strengthens its lending portfolio, particularly in Spain. Adverse changes in the credit quality of the Group's borrowers and counterparties or collateral, or in their behaviour or businesses, may reduce

the value of the Group's assets, and materially increase the Group's write-downs and loss allowances. Climate change, which is resulting in an increase in the intensity and frequency of extreme weather events and environmental degradation, presents short, medium and long-term risks to the Group and its customers and counterparties, with the risks expected to increase over time.

- **Financial Risks:** The Group has a continuous demand for liquidity to finance its activities and the withdrawal of deposits or other sources of liquidity could significantly affect it. In the event of a withdrawal of deposits or other sources of liquidity, especially if it is sudden or unexpected, the Group may not be able to finance its financial obligations or meet the minimum liquidity requirements that apply to it, and may be forced to incur higher financial costs, liquidate assets and take additional measures to reduce their level of leverage.
- **Legal, Regulatory, Tax and Compliance Risks:** The financial services sector is one of the most regulated in the world. The Group is party to a number of legal and regulatory actions and proceedings which may result in a significant increase in operating and compliance costs or even a reduction of revenues, and it is possible that an adverse outcome in any proceedings (depending on the amount thereof, the penalties imposed or the procedural or management costs for the Group) could damage the Group's reputation, **have** significant consequential costs and related implications for the Group or otherwise adversely affect the Group.
- **Operational Risks:** The Group's activities depend to a large extent on its ability to process and report effectively and accurately on a high volume of highly complex transactions with numerous and diverse products and services, in different currencies and subject to different regulatory regimes. The Group relies on highly sophisticated IT systems that may be vulnerable to hardware and software malfunctions, computer viruses or cyber-attacks. Customers and other third parties to which the Group is exposed, including the Group's service providers, face similar risks. Any attack, failure or deficiency that may affect such third parties or the Group could adversely affect the Group's ability to carry out operations or provide services to its clients and could damage the Group's reputation.
