representante, a efectos de notificaciones

## **BERKELEY ENERGIA LIMITED**

**NEWS RELEASE | 31 July 2019**

### **Quarterly Report June 2019**

#### **Highlights:**

- **Strategy Change:**

The Company's primary focus continues to be on progressing the approvals required to commence construction of the Salamanca mine and bring it into production

The Company is now in the process of setting up its head office in Madrid and will ultimately seek to recruit a suitably qualified Spanish National for the Managing Director and CEO role

Following on from the Company's successful listing on the Spanish Stock Exchanges in 2018, these initiatives are aimed at further enhancing the Company's strong engagement with its key stakeholders in Spain

- **Management Changes:**

Subsequent to the end of quarter, Mr Paul Atherley resigned as Managing Director and CEO to concentrate on his other investments in the resource sector

Mr Robert Behets, Non-Executive Director, has now assumed the role of Acting Managing Director on an interim basis and will be assisted in Spain by Mr Francisco Bellón, the Company's Chief Operations Officer

- **Exploration:**

The Company will continue to advance the recently announced battery and EV metals exploration strategy which includes an initial six-hole drill programme in licence areas indicated to be prospective for the battery and EV metals lithium, cobalt, tin, tungsten and rare earth elements

- **Permitting Update:**

The Company continues to await the Express Resolution on the award of the Urbanism Licence from the local municipality

The Company has provided the Nuclear Safety Council with all requested documentation and continues to await their recommendation report, the timing of which remains uncertain

- **Uranium Market:**

The uranium price weakened during the quarter due to uncertainty surrounding President Trump's decision on the Section 232 Petition

However subsequent to the quarter, a decision by the President to decline issuing quotas for US domestic uranium production was announced

The decision is expected to contribute to improved market conditions moving forward, as US utilities, in particular, continue their recontracting cycle

***Strategy and Management Changes***

Subsequent to the quarter, the Company advised shareholders that Mr Paul Atherley had resigned as Managing Director and CEO of the Company to concentrate on his other investments in the resource sector.

Mr Atherley had been Managing Director and CEO of Berkeley Energia since June 2015 and had been instrumental in its growth and development.

The Company's focus continues to be on progressing the approvals required to commence construction of the Salamanca mine and bring it into production, as well as advancing the recently announced battery and EV metals exploration strategy.

The Company will now establish a head office in Madrid and ultimately seek to recruit a suitably qualified Spanish National for the Managing Director and CEO role.

Following on from the Company's successful listing on the Spanish Stock Exchanges in 2018, these initiatives are aimed at further enhancing the Company's strong engagement with its key stakeholders in Spain.

While the recruitment process for a suitable candidate for the Managing Director and CEO position takes place, Mr Robert Behets, Non-Executive Director, has assumed the role of Acting Managing Director and will be assisted in Spain by Mr Francisco Bellón, the Company's Chief Operations Officer.

***Drill programme for critical battery and EV metals***

During the quarter, the Company announced the commencement of its initial (six hole) drill programme to test for critical battery and EV metals across its large licence holding in Western Spain.

The targets have been generated through detailed exploration for a wide range of minerals over the past two years and further refined by the use of the innovative Ionic Leach programme.

the results from this drill programme will be fed back into the database and more refined targets interpreted which will allow for further analysis of the mineral and metal endowment across the Company's large licence holding in this mineral rich province.

The Company was awarded with three new licenses during the quarter covering an area of 266 km<sup>2</sup>, located 40 km from Retortillo.

Previous geochemical analysis using ionic leach methodology has shown the licence areas to be prospective for the battery and EV metals lithium, cobalt, tin, tungsten and rare earth elements.

In addition to the new licences recently announced, the Company has been awarded a 31 km<sup>2</sup> licence which includes some former lithium and titanium operations and is adjacent to one of the areas being drilled in the current programme.

### ***Permitting Update***

The Company has resubmitted its Urbanism Licence application to the local municipality following the resolution of two outstanding items and continues to await the Express Resolution on the award of the licence.

The Company has provided the Nuclear Safety Council with all requested documentation and continues to await their recommendation report, the timing of which remains uncertain.

The Salamanca mine is being developed to the highest international standards and the Company's commitment to the environment remains a priority. It holds certificates in Sustainable Mining and Environmental Excellence which were awarded by AENOR, an independent Spanish government agency. The Company has been re-awarded both certificates following a consultation process with the agency. The Company holds the relevant status for best practices on Health and Safety at the Salamanca mine.

### ***Uranium market***

The uranium price weakened during the quarter due to uncertainty surrounding President Trump's decision on the Section 232 Petition.

However subsequent to the end of the quarter, a decision by the President to decline issuing quotas for US domestic uranium production was announced.

The decision is expected to contribute to improved market conditions moving forward, as US utilities, in particular, continue their recontracting cycle.

The Company has 2.75 million pounds of U<sub>3</sub>O<sub>8</sub> under contract for the first six years, with a further 1.25 million pounds of optional volume, at an average price above US\$42.

The Company will continue to progressively build its offtake book and has granted the Oman sovereign wealth fund the right to match any future long-term offtake transactions.

### ***Commitment to the community***

The Company has invested more than €80 million developing the Salamanca mine over the past decade and plans to invest an additional €250 million over the life of the project.

The Company has signed Cooperation Agreements with the highly supportive local municipalities, demonstrating its commitment to fostering positive relationships with these communities.

To date, through these agreements, the Company has provided Wifi networks for local villages, built play areas for children, repaired sewage water plants, upgraded sports facilities, and sponsored various sporting events and local festivals.

The Company has worked tirelessly over the past decade to develop positive and mutually beneficial relationships with the local communities and will continue to do so as construction ramps up.

### **Balance Sheet**

The Company is in a strong financial position with A\$97 million in cash.

### **Forward Looking Statements**

Statements regarding plans with respect to Berkeley's mineral properties are forward-looking statements. There can be no assurance that Berkeley's plans for development of its mineral properties will proceed as currently expected. There can also be no assurance that Berkeley will be able to confirm the presence of additional mineral deposits, that any mineralisation will prove to be economic or that a mine will successfully be developed on any of Berkeley mineral properties. These forward-looking statements are based on Berkeley's expectations and beliefs concerning future events. Forward looking statements are necessarily subject to risks, uncertainties and other factors, many of which are outside the control of Berkeley, which could cause actual results to differ materially from such statements. Berkeley makes no undertaking to subsequently update or revise the forward-looking statements made in this announcement, to reflect the circumstances or events after the date of that announcement.

### **Appendix 1: Summary of Mining Tenements**

As at 30 June 2019, the Company had an interest in the following tenements:

Location	Tenement Name	Percentage Interest	Status
<b>Spain</b>			
<u>Salamanca</u>	D.S.R Salamanca 28 (Alameda)	100%	Granted
	D.S.R Salamanca 29 (Villar)	100%	Granted
	E.C. Retortillo-Santidad	100%	Granted
	E.C. Lucero	100%	Pending
	I.P. Abedules	100%	Granted
	I.P. Abetos	100%	Granted
	I.P. Alcornoques	100%	Granted
	I.P. Alisos	100%	Granted
	I.P. Bardal	100%	Granted
	I.P. Barquilla	100%	Granted
	I.P. Berzosa	100%	Granted
	I.P. Campillo	100%	Granted
	I.P. Castaños 2	100%	Granted
	I.P. Ciervo	100%	Granted
	I.P. Dehesa	100%	Granted
I.P. El Águlia	100%	Granted	

	I.P. El Vaqueril	100%	Granted
	I.P. Espinera	100%	Granted
	I.P. Horcajada	100%	Granted
	I.P. Lis (partial)	100%	Granted
	I.P. Mailleras	100%	Granted
	I.P. Mimbre	100%	Granted
	I.P. Oñoro	100%	Granted
	I.P. Pedreras	100%	Granted
	E.P. Herradura	100%	Granted
	I.P. Conchas	Application	Pending
	I.P. Úrsulas	Application	Pending
	I.P. Lazarillo	Application	Pending
	I.P. Anaya	Application	Pending
	I.P. Dueñas	Application	Pending
	I.P. Dominicos	Application	Pending
	I.P. Rúa	Application	Pending
<b>Cáceres</b>	I.P. Almendro	100%	Granted
	I.P. Ibor	100%	Granted
	I.P. Olmos	100%	Granted
<b>Badajoz</b>	I.P. Don Benito Este	100%	Granted
	I.P. Don Benito Oeste	100%	Granted

Investigation/Exploration Permits for El Vaqueril, Lis (partial) and Herradura were granted and Investigation Permit Halcón was disposed of during the quarter ended 30 June 2019. Applications for Investigation Permits for Calixto, Melibeá, Clerecía and Clavero were denied during the quarter ended 30 June 2019. There were no other changes to beneficial interest in any mining tenements due to farm-in or farm-out agreements. No beneficial interest in farm-in or farm-out agreements were acquired or disposed during the quarter.

### Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
