Basis of presentation

The consolidated profit and loss accounts at the end of September 2018 and at 2017 year-end, together with the disclosures shown in this Financial Report, are presented in accordance with the accounting standards, principles and criteria defined in Note 1 to the Group's consolidated half-yearly accounts as at 30 June 2018

Pursuant to the Guidelines on alternative performance measures published by the European Securities and Markets Authority on 5 October 2015 (ESMA/2015/1415es), a glossary has been included with the definitions and the reconciliation with the items presented in the financial statements of certain alternative financial measures used in this document. See Glossary of terms on performance measures.

2. Summary

Figures presented on a like-for-like basis: (*)

Net interest income

Net interest income has continued to grow in the quarter, showing an increase of 3.8% due to lower impact of TSB's one-offs. Excluding this impact, net interest income grew by 0.9%. Excluding TSB, net interest income increased by 1.1%, driven by strong volumes growth.

Year-on-year, net interest income grows 0.7% considering a constant exchange rate and 0.8% excluding TSB.

Net fees and commissions

Strong fees and commissions performance continues, growing by 5.9% (1.8% excluding TSB) driven by service fees and lower one-offs at TSB.

Fees and commissions increased year-on-year considering a constant exchange rate of 8.7% (10.8% excluding TSB). Excluding the impact of the waiver of TSB overdraft fees, growth of 9.4% year-on-year.

Operating expenses

Recurrent operating expenses showed a reduction of -1.5% on a quarter-on-quarter basis due to lower TSB costs. At the end of September 2018 they amounted to €-1,985.9 million, a year-on-year increase of 1.5%.

Non-recurrent costs in the year amounted to €-212.8 million, and €-69.6 million in the quarter mainly due to TSB migration and post-migration costs.

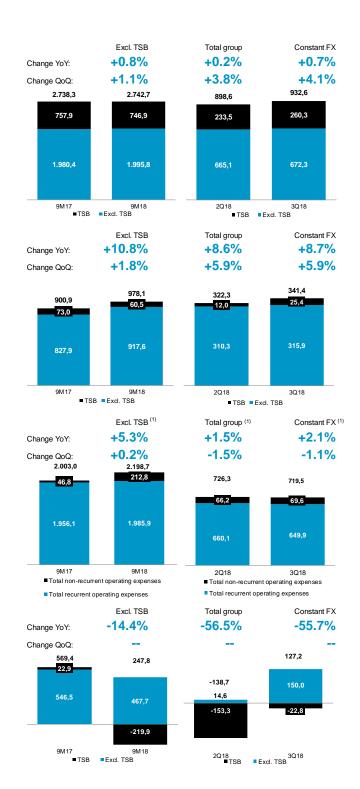

Net profit of the Group

The Group's net profit reached €247.8 million (€467.7 million excluding TSB) at the end of September 2018, impacted by extraordinary items. Excluding TSB extraordinary post-migration impacts and provisions from institutional NPA sales announced in the second quarter, growth considering a constant exchange rate stood at 14.7% year-on-year.

Strong increase in the evolution of the core banking business (net interest income + net fees and commissions), which grew by 2.2% year-on-year and 4.4% quarter-on-quarter.

(*) Excluding SUB, Mediterráneo Vida and the TSB Mortgage Enhancement portfolio.

(1) Variation of total recurrent costs.

Performing loans

Strong volume growth trend confirmed, growing at a constant exchange rate of 1.9% on a year-on-year basis (3.6% excluding TSB). Excluding the impact of the APS NPL run-off⁽¹⁾, showed 3.1% year-on-year growth considering a constant exchange rate (5.4% excluding TSB), driven by the good performance of SMEs and Corporates. During the quarter, slightly decline of -0.3% (0.3% growth excluding TSB). Solid performance of mortgages to individuals, which grew 1.2% on a quarterly basis and by 1.0% year-on-year.

Decrease in TSB lending in the quarter, mainly due to the reduction in core mortgages, due to conscious management actions taken pre and post migration, although balances grew year-on-year.

On-balance sheet customer funds

On-balance sheet customer funds grew at a constant exchange rate, reaching 3.1% (5.3% excluding TBS) on a year-on-year basis and declined slightly by -0.4% (-0.2% excluding TSB) on a quarterly basis. Off-balance sheet funds increased by 4.5% year-on-year and by 0.6% in the quarter, driven by mutual funds.

Problematic assets

Continued problematic assets reduction excluding TSB in the quarter of €-538 million (€-402M in NPLs and €-135M in foreclosed assets). Excluding the institutional NPA sales perimeter, organic reduction of €-244 million in the quarter.

NPL ratio and coverage

Strong reduction in Group NPL ratio to 4.50% (5.44% excluding TSB) and 4.32% (5.20% excluding TSB) considering the institutional NPA sales.

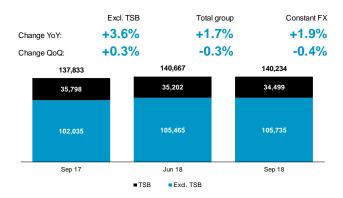

Problematics assets coverage reached 56.6%, whereby the NPL coverage ratio reached 57.4% and the coverage of foreclosed assets reached 55.9%.

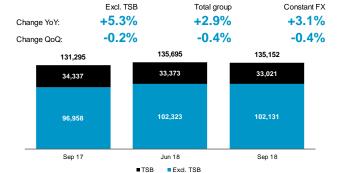

The ratio of net NPAs to total assets ratio stood at 1.7%, considering the institutional NPA sales.

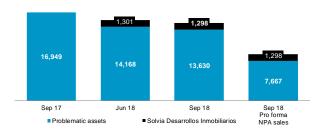

Capital ratio

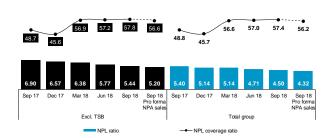

Sound capital position with the CET 1 phase-in ratio standing at 12.1% and the fully-loaded CET 1 ratio at 11.0% at the end of the third quarter of 2018. Pro forma post institutional NPA sales, the CET 1 phase-in stood at 12.3% and fully-loaded at 11.2%.

(1) 80% of the APS problematic exposure, the risk of which is assumed by the DGF, as well as the change in the net loans and receivables account.

3. Performance review

Macroeconomic environment

Global economic, political and financial background

Trade tensions have continued to remain centre of attention over the last few months. In particular, the United States increased the volume of imports from China subject to trade tariffs, whilst China retaliated in the same way, although in a more restrained manner. With regards to Brexit, there is still uncertainty over whether the UK and the EU will reach an agreement, and whether this agreement will be ratified by the British parliament. Both parties insist on their willingness to reach an exit deal, yet they still have not reached an agreement on how to prevent a hard border in Ireland, nor on the way in which the future trade relationship will be developed. In the Euro Zone, the Italian government announced that the fiscal deficit for 2019 will be 2.4% of GDP, above the European Commission's recommendation (2.0%) which has generated unease in European institutions. On a positive note, it is worth highlighting that Greece has completed its international rescue programme.

Lastly, with regards to activity, the United States has continued to show notable strength. GDP growth in 2Q18 has continued to be supported by fiscal stimulus, whilst at the same time, the unemployment rate has continued to remain close to historic minimums. In the Euro Zone, activity has continued to increase at a solid pace, and in 2Q18 GDP grew by 0.4% on a quarterly basis, in the same way as in the previous quarter. Economic sentiment indicators show that in 3Q18 the economy continued growing at a similar rate to that seen in 2Q18.

Economic situation in Spain

The economy has continued growing at a strong pace, although it shows some signs of slow-down. Tourism and higher oil prices are contributing to this slow-down in activity. Thus, after the INE review of the historic series, GDP grew by 0.6% on a quarterly basis in the first two quarters of 2018 (2017 average: 0.8%). In 3Q18 the main activity indicators show a worse performance than that observed in the first half of the year, whilst business sentiment indicators are clearly below the levels reached in the previous year. In this context, Bank of Spain has revised its growth estimations for 2018-2020 downwards.

In terms of the labour market, the unemployment rate in 2Q18 (15.3%) stood at minimum levels since 4Q08, although the rate of affiliations to Social Security has slowed down during 3Q18. In terms of the real estate market, housing purchases have continued to show a positive level of dynamism until May, albeit more moderate than in 2017, whilst house prices have continue to register notable growth rates (2Q18: 6.9% year-on-year).

In terms of government accounts, the government submitted draft budgets for 2019, although it is not clear whether they will be approved in parliament, as the prime minister is governing as a minority.

Economic situation in the United Kingdom

Activity indicators show that GDP could have shown more dynamism in 3Q18 than in the previous quarter (2Q18: 0.4% on a quarterly basis), favoured by a particularly warm climate. In particular, indicators in the retail trade sector stand out positively.

In terms of the labour market, the unemployment rate has continued to decline, reaching minimum levels since March 1975 (4.0%). Furthermore, salaries- in real terms- have increased for the seventh consecutive month in August, after a year of declines.

With regards to inflation, it has remained above the target set by Bank of England (BoE) during 3Q18, influenced by the persistence, to a certain extent, of the effects of the depreciation of the pound due to Brexit. Housing prices continue showing a slowdown in growth, which largely comes from Brexit uncertainty.

With regards to the foreign sector, the UK registered a current account deficit in 2Q18 of 3.9% of GDP, which represents the highest deficit since 2Q17, driven by an increase in the import of goods and investment income in the United Kingdom from non-residents.

Economic situation in Latin America

In Mexico, the economy continued to remain weak. In particular, GDP growth, halfway through the year, has slowed down with regards to the 2017 growth rate. In the meantime, inflation has increased slightly, which has led the central bank of Mexico, in its October meeting, to maintain the official rate at 7.75%, showing a hawkish tone in spite of a less trade uncertainty due to the trilateral agreement reached with the United States and Canada. The bank's prudential stance reflects its concerns regarding inflation dynamics, with a risk balance that is clearly biased upwards. Financial assets in the country have shown a more positive performance. This has been linked to the pragmatic discourse by the new president, and his closer proximity to the business sector.

In South America, financial assets in Argentina have continued to be penalised due to the delicate fiscal situation in the country. In fact, the authorities have requested increased financial help from the IMF, and an advance on the support promised just a few months ago. With regards to Brazil, it is worth mentioning that markets have reacted positively to Bolsonaro's victory in the first round of the presidential elections, mainly due to the fact that the economic programme proposed by his main advisor is orthodox, on the contrary to the more interventionist agenda of his rival F. Haddad. In Colombia, Peru and Chile, data continues to point towards favourable economic dynamics.

Fixed-income markets

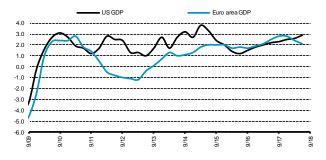

The central banks of the principal developed economies have continued to take steps towards the normalisation of their monetary policies. Thus, the Fed, in its September meeting, hiked official rates again, to the range of 2.00-

2.25%. The central bank no longer considers the current monetary policy stance as accomodative. The ECB has shown to be more positive with regards to inflation. In particular, Draghi, President of the European Central Bank, has said that he sees a "relatively vigorous" increase in prices. Furthermore, the ECB has confirmed that from October onwards it will reduce its monthly asset purchasing programme to €15bn, and reaffirmed that the asset purchase programme will end in December this year. Lastly, BoE, in its August meeting, hiked the benchmark rate up to 25bp, to 0.75%. The central bank reiterated that its monetary policy will continue to be conditioned by the outcome of Brexit, yet that its intention continues to be gradually hiking the interest rate over the next few years.

The long term government debt yields in Germany and the United States ended the quarter at higher levels than in the previous year. Yields was driven upwards due to the more positive tone of the ECB on inflation, the increase in oil prices (which reached maximums since summer 2014) and good economic activity data in the United States. On the contrary, it was dragged by financial tensions in the most vulnerable emerging economies and the uncertainty

regarding Italian budgets. This uncertainty led to an increase in the Italian risk premium and it remained at high levels. For Spain and Portugal, the contagion from Italy was limited and the risk premium of both countries ended the quarter at similar levels to those seen in the previous quarter.

Equity markets

Once again, Japanese equities index, Nikkei, has led earnings during the quarter, with a +8.1% increase during the quarter in yens, although due to the appreciation of the euro, earnings in euros have been reduced to +6.1%. Once again, the S&P 500 has ranked just below the Nikkei, with a +7.2% increase in dollars and +7.8% in euros. With regards to European stock indices, a generally mixed performance has been observed, with the Euro STOXX 50 remaining flat (+0.1% in euros). French CAC has stood out positively, increasing by +3.2%. The DAX has stood out negatively, falling by -0.5% and its worse performance has been associated with periphery indices, with the IBEX 35 falling by -2.4% and the Italian MIB index falling by -4.2%, affected by uncertainty in terms of 2019 government accounts.

Income statement

Highlights:

The Group's net profit reached €247.8 million (€467.7 million excluding TSB) at end September 2018.

Strong increase in the evolution of the core banking business (net interest income + net fees and commissions) which grew by 2.2% year-on-year and 4.4% quarter-onquarter.

This quarter has been impacted by €-87.7 million of TSB post-migration one-offs items, of which €-4.8 million impacted net interest income due to an increase in the Classic Plus account interest rate, €-1.5 million impacted commissions, €-17.7 million impacted other operating income/expense due to fraud losses and €-63.5 million impacted operating expenses due to costs relating to specialists and other resources.

Excluding €-559.6 million of TSB one-offs post-migration impacts and provisions from institutional NPA sales announced in the second quarter, group net profit grew considering a like-for-like basis and a constant exchange rate stood at 14.7% year-on-year.

The EURGBP exchange rate used for this quarter's income statement is 0.8925.

Net profit adjusted by the amount of the Additional Tier I coupons, after tax, recorded under own funds. Accumulated at the end of each quarter, not annualised.

Net interest income:

Net interest income amounted to €2,742.7 million at the end of September 2018, representing a 3.8% increase in the quarter due to lower impact of TSB's one-offs. Excluding those one-offs, net interest income grew by 0.9%. On a likefor-like basis, and considering a constant exchange rate, year-on-year growth amounted to 0.7% and a 4.1% increase in the quarter.

Excluding TSB, net interest income amounted to €1,995.8 million at end September 2018, representing a year-on-year increase of 0.8% on a like-for-like basis. In the quarter, it grew by 1.1%, driven by strong volumes growth.

TSB's net interest income stood at €746.9 million, with a year-on-year decline of -3.8% (remaining stable on a like-for-like basis and considering a constant exchange rate) and growth of 11.5% on a quarterly basis due to lower impact of post-migration one-offs.

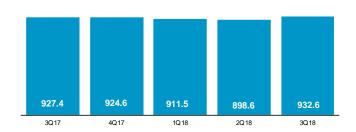

Customer spread and net interest margin:

Excluding TSB's one-offs, customer spread stood at 2.75% (2.77% in the previous quarter) and net interest margin over average total assets stood at 1.71% (1.72% in the previous quarter). Customer spread at the end of the quarter stood at 2.73% and net interest margin over average total assets stood at 1.70%.

Excluding TSB, customer spread at the end of the quarter reached 2.67% (2.72% in the previous quarter) driven by strong volumes in lower yield segments, the downward pressure of the Euribor and higher deposits costs in non euro currency. Net interest income over average total assets stood at 1.57%, remaining stable compared to the previous quarter.

Income from equity method and dividends:

This item amounted to €51.9 million at the end of September 2018, compared to €303.8 million at the end of September of the previous year, which includes the payment of BanSabadell Vida net fee received for the reinsurance contract with Swiss Re Europe. This quarter revenues are mainly due to income from the insurance and pension fund business.

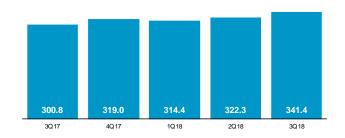

Net fees and commissions:

On a year-on-year basis, commissions grew by 8.1% (10.2% excluding TSB). On a like-for-like basis and considering a constant exchange rate growth of 8.7% (10.8% excluding TSB). The positive performance of service fees as well as asset management fees are particularly noteworthy.

On a quarterly basis growth of 5.9% (1.8% excluding TSB), driven by service fees and lower one-offs in TSB.

Pre-provisions income:

At end September 2018, pre-provisions income amounted to €1,416.5 million (1,529.4 million excluding TSB), representing a year-on-year decline of -32.8% (-24.0% excluding TSB) on a like-for-like basis and considering a constant exchange rate, mainly due to the extraordinary net trading income generated and the payment of BanSabadell Vida net fee received in relation to the reinsurance contract with Swiss Re Europe in the previous year, as well as one-off items related to TSB migration and post-migration incurred during 2018.

Provisions for NPLs and other impairments:

Amounted to €-1,080.5 million at end September 2018 (€-917.6 million excluding TSB) which includes a provision due to TSB customer redress and a provision for institutional NPA sales.

At the end of September in the previous year, it amounted to €-1,967.8 million (€-1,902.5 million excluding TSB).

Gains on sale of assets and other results:

Amounts to €3.3 million at the end of September 2018, whilst at the end of September 2017 it amounted to €384.0 million, including the gains from sale of Sabadell United Bank and Mediterráneo Vida.

Net profit:

The Group's net profit amounted to €247.8 million at the end of September 2018. Excluding TSB extraordinary migration and post-migration impacts and provisions from institutional NPA sales, growth on a like-for-like basis, and considering a constant exchange rate stood at 14.7% year-on-year.

Excluding TSB, the Group's net profit amounted to €467.7 million at the end of September 2018. Excluding the provisions from institutional NPA sales, like-for-like growth of 8.3% year-on-year.

Balance sheet

Highlights:

Strong volume growth trend confirmed, with performing gross loans growing at 1.9% assuming a constant exchange rate on a year-on-year basis (3.6% excluding TSB). Excluding the impact of the APS NPL run-off (1), showed 3.1% year-on-year growth considering a constant exchange rate (5.4% excluding TSB), driven by the good performance of SMEs and Corporates. During the quarter, slightly decline of -0.3% (0.3% growth excluding TSB). Solid performance of mortgages to individuals, which grew 1.2% on a quarterly basis and by 1.0% year-on-year.

On-balance sheet customer funds grew at a constant exchange rate, reaching 3.1% (5.3% excluding TBS) on a year-on-year basis and -0.4% (-0.2% excluding TSB) on a quarterly basis.

Off-balance sheet funds increased by 4.5% year-on-year and by 0.6% in the quarter, driven by mutual funds.

Decrease in TSB lending in the quarter, mainly due to the reduction in core mortgages, due to conscious management actions taken pre and post migration, although balances grew year-on-year. Customer funds declined by -1.1% in the quarter (-0.9% considering a constant exchange rate) mainly due to the decision taken early in 2018 to manage deposits volumes through the 2018 "ISA season" given TSB strong liquidity position.

Deposits with central banks and credit institutions include the following amount of repos: \in 2,268 million at 30.09.17, \in 5,627 million at 30.06.2018 and \in 7,522 million at 30.09.18. The EURGBP exchange rate used for the balance sheet is 0.8873.

Assets:

Total Group assets amounted to €217,751 million, representing a 3.3% increase considering a constant exchange rate, and of 0.8% in the quarter.

Excluding TSB, total assets amounted to €171,547 million, representing a 4.6% increase year-on-year and 1.6% on a quarterly basis.

Loans and advances to customers:

Performing loans ended the third quarter of 2018 with a balance of €140,234 million (€105,735 million excluding TSB) representing year-on-year growth of 1.9% at a constant exchange rate (3.6% excluding TSB). Excluding the impact of the APS NPL run-off ⁽¹⁾, showed 3.1% year-on-year growth considering a constant exchange rate (5.4% excluding TSB), driven by the good performance of SMEs and Corporates. During the quarter, performing loans slightly decline of -0.3% (0.3% growth excluding TSB). Solid performance of mortgages to individuals, which grew 1.2% on a quarterly basis and by 1.0% year-on-year.

Spain and Mexico continue to grow in the quarter, despite seasonality and showed a remarkable performance year-on-year.

In Spain, performing loans excluding APS NPL run-off ⁽¹⁾ grew by 4.5% year-on-year, and 0.1% on a quarterly basis. Mexico recorded 44.9% year-on-year growth and 6.2% in the quarter, which in MXN amounted to 47.0% and 1.1% respectively.

Strong commercial momentum across all products in Spain, once again, with an increase in market shares.

Decrease in TSB lending in the quarter, mainly due to the reduction in core mortgages, due to conscious management actions taken pre and post migration, although balances grew year-on-year.

On 06 April 2018, S&P Global Ratings raised Banco Sabadell's long-term credit rating to BBB from BBB- and its short term credit rating to A-2 from A-3 with a stable outlook. This rating upgrade is based on the improvement of Banco Sabadell's credit quality in a context of lower industrial risks of the Spanish banking system, principally due to its deleveraging, as well as an improvement in investor confidence.

On 19 September 2018, S&P Global Ratings confirmed Banco Sabadell's long-term credit rating of BBB and its short term credit rating to A-2 with a stable outlook.

On 19 September 2018, Moody's Investors Service (Moody's) has confirmed the long term rating of deposits as Baa2 and senior debt as Baa3, as well as the short term rating of deposits as P-2 and Banco Sabadell's senior debt as P-3, and it has changed the rating outlook to stable, from positive.

On 16 July, DBRS Rating Limited raised Banco Sabadell's outlook to Positive (from Stable) and it confirmed Banco Sabadell's long term rating as BBB (High), and it's short term rating as R-1 (low). The upgrade to positive and the confirmation of the rating reflect the solid capitalisation vision of Banco Sabadell Group and the continuous improvement in asset quality and the profitability of the core business in Spain.

Results by business units

This section gives information regarding earnings and other indicators of the Group's business units.

The criteria that Banco Sabadell Group uses to report on results for each segment are:

- There are four separate geographies: Banking Business Spain, Asset Transformation, Banking Business United Kingdom and Other Geographies.
- Each business is allocated 11% of capital divided by its risk-weighted assets and the surplus of own funds is allocated to Banking Business Spain.
- Banking Business United Kingdom includes TSB's contribution to the Group.
- Other Geographies mostly comprises Mexico, overseas branches and representative offices. For the purpose of comparison, changes have been calculated for loans, funds and the income statement, excluding Sabadell United Bank.

The information presented here is based on the separate financial statements of each Group company, with the corresponding disposals and adjustments in the scope of consolidation and the analytical accounting of income and expenses in cases in which a business is spread over one or more legal entities, to enable revenues and costs to be allocated for each customer depending on the business unit to which that customer is assigned.

Each business unit is treated as an independent business, therefore commissioning takes place between businesses for the provision of services involving the distribution of products, services and systems. The overall net impact of commissioning between business units is zero.

Each business unit bears its own direct costs, on the basis of general and analytical accounting, as well as the indirect costs of corporate units.

Key data relating to the segmentation of the Group's activity are given hereafter.

Banking business Spain

Net profit as at September 2018 amounted to €747.3 million, a year-on-year decrease of -42.8% due to lower net trading income compared to the previous year. Excluding Mediterráneo Vida in the previous year and the capital gains generated by Sabadell United Bank and Mediterráneo Vida, the decline stood at 11.8%.

Net interest income stood at €1,830.0 million and declined by -3.9% compared to the same period in 2017. Excluding Mediterráneo Vida, net interest income declined by -2.1%.

Net fees and commissions stood at €880.6 million, 11.2% higher than in the previous year due to the positive performance of service fees and asset management fees.

Net trading income and foreign exchange amounted to €196.3 million, with a decline mainly due to extraordinary net trading income in the previous year and to SAREB subordinated debt impairment in the year.

Operating expenses and amortisation amounted to €-1,343.8 million, a 3.3% increase compared to the same period in the previous year, mainly due to the increase in technology and business digitalisation costs, as well as new regulatory developments.

Provisions and impairments reached €-422.7 million, significantly lower than in the previous year.

Net profit in September 2018 amounted to €53.3 million, a year-on-year decrease of -31.4% due to de lack of contribution of Sabadell United Bank, as well as higher expansion costs in Mexico. Excluding Sabadell United Bank, net profit increased by 5.9%.

Net interest income stood at €183.9 million, showing a -21.8% year-on-year decline. Excluding Sabadell United Bank, growth amounted to 24.7%, mainly driven by growth in Mexico and EMEA OFEX (Paris, London and Casablanca).

Net fees and commissions in the year declined by -8.2% year-on-year mainly due to the lack of contribution of Sabadell United Bank. Excluding SUB, net fees and commissions grew by 4.9%.

Gross operating income amounted to €236.4 million, showing a -16.7% year-on-year decline. Excluding Sabadell United Bank, gross income grew by 24.8% due to the good performance in Mexico, Miami and EMEA OFEX.

Operating expenses and amortisation declined by -13.5% year-on-year. Excluding the sale of Sabadell United Bank, increased of 19.4%, primarily due to expansion costs in Mexico.

Provisions and impairments increased in comparison to the previous year due to provisions associated with the increase in investment in Mexico and Miami and due to increased provisions mainly associated with singular operations.

Banco Sabadell informs of the rating upgrade by DBRS Rating Limited

On 16 July, DBRS Rating Limited has raised Banco Sabadell's outlook to positive (from stable) and affirmed its long-term credit rating to BBB (high) and its short-term rating to R-1 (low). The change of trend to positive and the confirmation of the rating reflect the Banco Sabadell Group's sound capitalisation and continued improvement in asset quality and core profitability in Spain.

Banco Sabadell informs of the transfer of almost all of its real estate exposure to a subsidiary of Cerberus Capital Management L.P.

On 19 July Banco Sabadell has reached an agreement on the date hereof for the transfer of almost the whole of its real estate exposure to an affiliate of Cerberus Capital Management, L.P. ("Cerberus" and the "Transaction"). The real estate assets included in the Transaction have a gross book value, altogether, of circa € 9,100 million and a net book value, altogether, of circa € 3,900 million. The Transaction has been structured through the transfer of two real estate portfolios commercially identified as "Challenger" and "Coliseum" to one or more newly incorporated companies (the "NewCo(s)"), the share capital of which will be contributed and/or transferred so that Cerberus, directly or indirectly, owns a 80% interest in the NewCo(s)'s share capital and Banco Sabadell the remaining 20% interest. Banco Sabadell and Cerberus will enter into a shareholders' agreement to set forth their contractual relationships as partners of the NewCo(s). Solvia Servicios Inmobiliarios, S.L.U., that will remain wholly owned by Banco Sabadell, will continue to service on an exclusive basis the real estate assets included to the Transaction. Closing of the Transaction, that will occur once the relevant authorizations are obtained and the conditions regarding each of the portfolios are complied with, will imply the transfer of the control over the real estate assets included in the Transaction and, hence, their deconsolidation from the balance sheet of Banco Sabadell group. The Transaction contributes positively to enhancing the profitability of Banco Sabadell group, requiring the recognition of additional provisions with a net impact of € 92 million, and will create a positive impact of 13 basis points on the capital ratio of Common Equity Tier 1 (fullyloaded) of Banco Sabadell.

Banco Sabadell has agreed the transfer of a portfolio of credits to Deutsche Bank and Carval Investors.

On 24 July 2018, Banco Sabadell has reached an agreement for the transfer of a portfolio of loans that, in turn, is composed of three sub-portfolios, mostly secured by the relevant mortgages, with an aggregate outstanding balance amounting to approximately EUR 2,295 million to Deutsche Bank and to Carval Investors (the "Transaction"). The Transaction will be closed once the relevant authorizations are obtained and the relevant conditions are fulfilled. The Transaction will create a negative impact of 3 basis points on the capital ratio of Common Equity Tier 1 (fully-loaded) of Banco Sabadell, which will include additional provisions with a net impact of EUR 32 million in the results.

Banco Sabadell informed of the confirmation of the long and short term rating by Moody's Investors Service, as well as the change in outlook.

On 19 September 2018, Moody's Investors Service (Moody's) has confirmed the long term rating of deposits as Baa2 and senior debt as Baa3, as well as the short term rating of deposits as P-2 and Banco Sabadell's senior debt as P-3, and it has changed the rating outlook to stable, from positive.

Banco Sabadell announces to the Board of Directors that it has agreed to distribute an interim dividend

On 25 October 2018 the Board of Directors has resolved to distribute an interim dividend out of the earnings of 2018 amounting to €0.02 (gross) per share, which shall be paid on 28 December 2018.

6. Glossary of terms on performance measures

In its presentation of its results to the market, and for the purpose of monitoring the business and decision-making processes, the Group uses performance measures pursuant to the generally accepted accounting regulations (IFRS-EU), and also uses other non-audited measures commonly used in the banking sector (Alternative Performance Measures, or APMs) as monitoring indicators for the management of assets and liabilities, and the financial and economic situation of the Group, which facilitates its comparison with other entities.

Following the ESMA guidelines on APMs (ESMA/2015/1415es of October 2015), the purpose of which is to promote the use and transparency of information for the protection of investors in the European Union, the Group presents below, for each APM, the reconciliation with items shown in the financial statements (in each section of the report) and its definition and calculation:

		Definition and calculation	Page
ROA	(*) (**)	Consolidated income during the year / ATA. Considering linear annualisation of profit obtained to date and adjusted by contributions to guarantee and resolution funds except year end. Average Total Assets are the moving average of total assets over the last 12 calendar months.	
ROE	(*) (***)	Profit attributed to the Group / average equity. Numerator considers linear annualisation of profit obtained to date and adjusted by contributions to guarantee and resolution funds except year end.	
RORWA	(*)	Profit attributed to the Group / risk-weighted assets (RWA). Numerator considers linear annualisation of profit obtained to date.	
ROTE	(*) (***)	Profit attributed to the Group / average equity. Numerator considers linear annualisation of profit obtained to date and adjusted by contributions to guarantee and resolution funds except year end. Denominator excludes goodwill.	
Cost / income ratio	(*)	Administrative expenses / gross income adjusted. Calculated by adjusting gross income, taking into account the recurrent results from financial transactions with the best group' estimate except for the end of the year, as well as excluding in the year 2017 the commission received for BanSabadell Vida value-in force "VIF" and the income from Mortgage Enhancement of TSB. In addition, the denominator includes the linear accrual of contributions to deposit guarantee fund and resolution fund except year end.	
Other operating income/expense		Comprised of the following accounting items: Other operating income and other operating expense as well as income from assets and expenses on liabilities under insurance or reinsurance contracts	
Total provisions & impairments		Comprised of the following accounting items: impairment of reversal of impairment of investments in joint ventures and associates, impairment or reversal of impairment on non-financial assets, investment properties in the gains or losses on derecognition of non-financial assets, net and profit or loss from non-current assets and disposal groups classified as held for sale not qualifying as discontinued operations excluding the associates, provisions or reversal of provisions and impairment or reversal of impairment on financial assets not measured at fair value through profit or loss.	
Gains on sale of assets and other results		Comprised of the following accounting items: gains or losses on derecognition of non-financial assets, net, excluding the investment properties and associates included in the profit or loss from non-current assets and disposal groups classified as held for sale not qualifying as discontinued operations excluding the associates.	
Pre-provisions income		Comprised of the following accounting items: gross income plus administration and amortisation/depreciation expenses	
Customer spread	(**)	Difference between return and cost of assets and liabilities related to customers, i.e. contribution to net interest income of operations exclusively with customers. Calculated ratio taking into account the difference between the medium rate the bank receives for the customers' loans and the medium rate the bank pays for the customers' deposits. The medium rate of customers' loans is the annualized percentage between the financial income of clients' loans relative to the medium daily amount of clients' loans. The medium rate of customers' funds is the annualized percentage between the financial expenses of customers' funds relative to the medium daily amount of customers' funds.	1
Other assets		Comprised of the following accounting items: Derivatives - Hedge accounting, fair value changes of the hedged items in portfolio hedge of interest rate risk, tax assets, other assets, assets under insurance or reinsurance contracts and non-current assets and disposal groups classified as held for sale.	1
Other liabilities		Comprised of the following accounting items: Derivat ives - Hedge accounting, tax liabilities, fair value changes of the hedged items in portfolio hedge of interest rate risk, other liabilities and liabilities included in disposal groups classified as held for sale.	1
Gross loans to customers		Includes loans and advances to customers excluding value corrections for impairment.	1
Performing gross loans		Includes gross loans to customers excluding repos, NPL and accrual adjustments. Includes customer deposits (ex repos) and other liabilities placed by the branch network (Banco Sabadell non-convertible bonds, promissory notes and	1
On-balance sheet customer funds		others).	2
Off-balance sheet customer funds		Includes mutual funds, asset management, pension funds and third-party insurance products.	2
On-balance sheet funds		Includes accounting sub-headings of customer deposits, debt securities issueds (debt and other tradable securities and subordinated liabilities).	2
Funds under management		Sum of on-balance sheet and off-balance sheet customer funds.	2
NPL coverage ratio - stage 3 (%)		Shows the % of NPLs (stage 3), covered by provisions. Calculated using the ratio between the allowance of loans and advances to customers (including allowances for guarantees granted) / total non-performing exposures (stage 3) (including NPL guarantees granted, (stage 3)).	2
NPL ratio		% of non-performing exposures (stage 3), over total risk assumed by customers. All of the calculation's components correspond to headings or sub-headings in accounting financial statements. Calculation comprised of the ratio between non-performing exposures (stage 3), including guarantees granteds/	2
Non-performing exposures - stage 3		Customer lending and guarantees granteds. See table for the definition of non-performing exposures (stage 3).	
		Sum of accounting items: NPLs (stage 3) loans and advances to customers and non-performing guarantees granted (stage 3).	2
Problematic assets		Sum of non-performing exposures, classified as stage 3, and foreclosed real estate assets.	2
Real estate coverage ratio		Calculation comprised of ratio between allowances for impairment of foreclosed real estate assets / total foreclosed real estate assets. Amount of foreclosed RE assets includes property classified in the non-current asset portfolio and disposable groups of items classed as held-for-trading.	2
Total capital ratio (%)		It is composed of the quotient between total capital and the risk weighted assets. Total capital incorporates the accounting profit assuming a pay-out of 50%, that is different from the regulatory criteria which decrease that amount based on the obligations to fulfil for the rest of the year. The denominator has been made based on the Group's best estimate.	2
Loan-to-deposits ratio		Net loans and receivables over retail funding. Calculated by subtracting mediation loans from the numerator. The denominator considers real estate funding and customer funds, defined in this table.	2
Market capitalisation		Product of the share price and the average number of outstanding shares at the end of the period.	3
Earnings per share		Ratio between net profit attributed to the Group and the average number of outstanding shares at the end of the period. Numerator considers linear annualisation of profit obtained to date adjusted by the Additional Tier I coupon payment, after tax, registered in equity as well as adjusted by contributions to guarantee and resolution funds except year end.	3
Book value per share		Ratio between carrying value / average number of shares at the end of the period. Accounting value is calculated as the sum of equity, considering linear annualisation of profit obtained to date and adjusted by the Additional Tier I coupon payment as well as by contributions to guarantee and resolution funds except year end.	3
TBV per share		Ratio between tangible value / average number of shares at the end of the period. Tangible value is calculated as the sum of equity, considering linear annualisation of profit obtained to date and adjusted by intangible assets and by the Additional Tier I coupon payment as well as by contributions to guarantee and resolution funds except year end.	3
Price / Book value (times)		Ratio between share price / carrying value.	3
Price / Earnings ratio (P/E) (times)		Ratio between share price / earnings per share.	3

^(*) The linear accrual of contributions to guarantee funds and resolution funds have been made based on the Group's best estimates.

(**) Average calculated using average daily balances.

(***) Average calculated using the last positions at the end of December 2017.
