Applus Services, S.A. and Subsidiaries

Consolidated Financial Statements for the year ended 31 December 2021 and Consolidated Directors' Report, together with Independent Auditor's Report

Translation of a report originally issued in Spanish based on our work performed in accordance with the audit regulations in force in Spain and of consolidated financial statements originally issued in Spanish and prepared in accordance with the regulatory financial reporting framework applicable to the Group in Spain (see Notes 2 and 31). In the event of a discrepancy, the Spanish-language version prevails.

Declaration of Responsibility of the Directors of Applus Services, S.A. for the content of the annual financial report for 2021

This declaration is a translation for informative purposes only of the original document issued in Spanish, which has been signed for approval by every Board member. In the event of discrepancy, the Spanishlanguage version prevails.

The members of the Board of Directors of Applus Services, S.A. declare that, to the best of their knowledge, the consolidated financial statements of Applus Services, S.A. and subsidiaries (comprising consolidated statement of financial position, consolidated statement of profit or loss, consolidated statement of comprehensive income, consolidated statement of changes in equity, consolidated statement of cash flows and explanatory notes) for the year ended at 31 December 2021, prepared in accordance with applicable accounting policies and approved by the Board of Directors at its meeting on 24 February 2022, present fairly the equity, financial position and results of Applus Services, S.A. and the subsidiaries included in the scope of consolidation, taken as a whole, and that the management report accompanying such consolidated financial statements includes a fair analysis of the business' evolution, results and the financial position of Applus Services, S.A and the subsidiaries included in the scope of consolidation, taken as a whole, as well as a description of the principal risks and uncertainties they face. All the Directors have signed to certify the above mentioned.

Translation of a report originally issued in Spanish based on our work performed in accordance with the audit regulations in force in Spain and of consolidated financial statements originally issued in Spanish and prepared in accordance with the regulatory financial reporting framework applicable to the Group in Spain (see Notes 2 and 31). In the event of a discrepancy, the Spanish-language version prevails.

INDEPENDENT AUDITOR'S REPORT ON CONSOLIDATED FINANCIAL STATEMENTS

To the Shareholders of Applus Services, S.A.,

Report on the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Applus Services, S.A. (the Parent) and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at 31 December 2021, and the consolidated statement of profit or loss, consolidated statement of comprehensive income, consolidated statement of changes in equity, consolidated statement of cash flows and notes to the consolidated financial statements for the year then ended.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated equity and consolidated financial position of the Group as at 31 December 2021, and its consolidated results and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union (EU-IFRSs) and the other provisions of the regulatory financial reporting framework applicable to the Group in Spain.

Basis for Opinion

We conducted our audit in accordance with the audit regulations in force in Spain. Our responsibilities under those regulations are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report.

We are independent of the Group in accordance with the ethical requirements, including those pertaining to independence, that are relevant to our audit of the consolidated financial statements in Spain pursuant to the audit regulations in force. In this regard, we have not provided any services other than those relating to the audit of financial statements and there have not been any situations or circumstances that, in accordance with the aforementioned audit regulations, might have affected the requisite independence in such a way as to compromise our independence.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Impairment of goodwill and other intangible assets

Description

Notes 4 and 5 to the accompanying consolidated financial statements describe the goodwill and other intangible assets allocated to each of the cash-generating units (CGUs) identified by Group management, amounting to EUR 725.8 million and EUR 420 million, respectively, at 31 December 2021.

Also, the various CGUs identified correspond to the various business units managed by the Group (Energy & Industry, Automotive, IDIADA and Laboratories) in each of the defined geographical areas in which it carries on its activity.

If there are any indications of impairment, and at least at each year-end, Group management tests the assets of the aforementioned CGUs for impairment using discounted cash flow-based valuation techniques to determine the recoverable amount thereof.

Procedures applied in the audit

Our audit procedures to address this matter included, mainly, the evaluation of the reasonableness of the cash flow projections and of the discount rates used in the impairment tests by conducting a critical analysis of the key assumptions of the models used. In particular, we compared the revenue growth rates with the latest approved strategic plans and budgets and reviewed them for consistency with both historical information and the current market situation. Also, we evaluated management's historical accuracy in the budgeting process.

In connection with the assumptions used by the Group in the estimation process, we evaluated the reasonableness of the discount rates applied for each business and geographical area, taking into consideration the cost of capital of the Group and of comparable organisations, as well as perpetuity growth rates, among other factors.

Impairment of goodwill and other intangible assets

Description

The performance of this impairment test was considered to be a key matter in our audit, given the magnitude of these assets and that management's assessment in this respect is an estimation process that includes a high level of judgements and assumptions, such as the determination of the growth rates for sales and expenses that the various CGUs are expected to show, investments in non-current and current assets and other assumptions obtained from the Group's strategic plan. Also, a discount rate is determined by taking into account the economic situation in general and that of each CGU in particular, on the basis of the risks specific to the various countries and to the business carried on.

Procedures applied in the audit

In addition, we evaluated the sensitivity analyses, stressing those assumptions to which the impairment test is most sensitive, i.e., those with the greatest effect on the determination of the recoverable amount of the assets.

We also involved our internal business valuation experts in order to evaluate the reasonableness of the models and key assumptions used by the Applus Group.

Lastly, we evaluated whether Notes 3-d, 4, 5 and 6 to the accompanying consolidated financial statements contained the disclosures required by the applicable accounting regulations relating to the impairment tests on those assets and, in particular, the detail of the main assumptions used, and a sensitivity analysis of changes in the key assumptions used in the tests performed.

Recovery of deferred tax assets

Description

Note 20-c to the accompanying consolidated financial statements details the deferred tax assets amounting to EUR 61 million that are recognised in the consolidated statement of financial position at 2021 year-end, corresponding to tax losses, tax credits and temporary differences amounting to EUR 23 million, EUR 12.9 million and EUR 25.1 million, respectively, generated in the various tax jurisdictions in which the Group operates.

In addition, as indicated in Note 20-c, the Group has unrecognised deferred tax assets corresponding to tax losses and tax credits amounting to EUR 114.6 million and EUR 52.3 million, respectively.

At the end of each reporting period, Group management assesses the recoverability of the tax assets recognised based on projections of future taxable profits considering as reasonable a timeframe of no more than ten years, taking into account the legislation of each tax jurisdiction in which the Group operates, legislative changes and the most recent business plans approved for the various business divisions and geographical areas. We identified this matter as key in our audit, since the assessment of the recoverability of these assets requires a significant level of judgement, largely in connection with the projections of business performance.

Procedures applied in the audit

Our audit procedures to address this matter included, among others, the evaluation of the methodology and assumptions applied by the Group and verification of the consistency of the assumptions taking into account both historical information and the market situation and the tax legislation applicable in each jurisdiction, involving internal tax experts in those geographical areas in which the Group has the most significant amounts of deferred tax assets. We also reviewed the consistency of the models with the financial information used by Group management in performing the impairment test on goodwill and other intangible assets and the sensitivity analyses, stressing those assumptions that have the greatest effect on determining the recoverable amount of the tax assets.

Furthermore, we analysed the historical accuracy of management in the process of preparing projections of tax bases, comparing the actual figures for the year with the projections made in the preceding year.

We also analysed the historical accuracy of management in the process of preparing projections of future taxable profits for the purpose of analysing the recovery of tax losses, comparing the actual figures for the year with the projections made in the preceding year.

Recovery of deferred tax assets

Description

Procedures applied in the audit

Lastly, we evaluated whether the disclosures required by the applicable accounting regulations in connection with this matter were included in Notes 3-p and 20 to the accompanying consolidated financial statements.

Provisions for taxes and litigation

Description

The Group operates in multiple tax and legal jurisdictions worldwide and, therefore, is subject to a wide variety of specific, sometimes complex, laws and regulations.

Note 17 to the accompanying consolidated financial statements includes a detail of the specific provisions for taxes, legal matters, litigation and claims recognised at 31 December 2021, together with other disclosures related to these items.

Procedures applied in the audit

Our audit procedures to address this matter included, among others, the obtainment, through direct confirmation processes, of the assessment carried out by the Group's external advisers for each significant lawsuit or claim in process, the obtainment of the assessment by the Group's legal and tax departments and the obtainment of all available information relating to each significant lawsuit or claim. In the course of our work, we evaluated, for all significant lawsuits and claims, the reasonableness of the provisions recognised by involving our experts in each subject matter and in each applicable jurisdiction.

Lastly, we also evaluated whether the disclosures required by the applicable accounting regulations were included in Notes 3-j, 17, 20-f and 27 to the accompanying consolidated financial statements.

Provisions for taxes and litigation

Description

At the end of each reporting period Group management assesses the need for, and sufficiency of, the aforementioned provisions, taking into consideration the available information and the circumstances prevailing at any given time. In this process, Group management has the support of external advisers engaged for this purpose, for the most significant lawsuits and claims. The determination of the amounts recognised and the disclosures included in the notes to the consolidated financial statements involve a high level of estimation, judgements and assumptions due to uncertainties about the range of possible resolutions of the litigation and claims in process and, therefore, this was considered to be a key matter in our audit.

Procedures applied in the audit

Accounting for the business combination effected in the year

Description

The Group performed several business combinations in 2021, as described in Note 2-b.e.1.1 to the accompanying consolidated financial statements as at 31 December 2021.

Procedures applied in the audit

Our audit procedures included, among others, obtaining and analysing the contractual documentation relating to these business combinations, placing particular emphasis on the transfer of the risks associated with the businesses acquired in order to determine the timing of recognition of the transactions.

Accounting for the business combination effected in the year

Description

The accompanying consolidated financial statements include the initial accounting for the fair value of the assets acquired and the liabilities assumed as a result of the business combinations performed, with the acquisitions of the IMA Materialforschung und Anwendungstechnik GmbH, Soil and Foundation Company Limited and Enertis Solar, S.L.U. groups, with a total acquisition cost of approximately EUR 111 million, being the most significant.

These acquisitions are complex transactions which include contractual agreements the recognition of which in the consolidated financial statements requires the Parent's directors to make significant judgements and estimates.

Significant judgements and estimates must also be made in order to provisionally determine the acquisition-date fair value of the assets acquired and the liabilities assumed, and of the goodwill arising, and, therefore, the Group was assisted by experts engaged by it for this purpose.

In this connection, current legislation allows the allocation of fair value to be reestimated during a period of one year from the respective acquisition dates.

Consequently, the analysis of these transactions was a key audit matter in our audit.

Procedures applied in the audit

In addition, for each business combination, we obtained the provisional analysis performed by the Group to determine the fair value of the assets acquired and liabilities assumed, and we verified the clerical accuracy of the calculations performed and the reasonableness of the main assumptions considered therein.

To this end, we analysed the consistency of the future cash flow forecasts considered in the analysis performed with the assumptions obtained from the business plan relating to the businesses acquired. In addition, we evaluated the reasonableness of the key assumptions considered (such as revenue growth, cost inflation and the discount rate), and performed a sensitivity analysis of those key assumptions.

With regard to the external experts engaged by the Group, we evaluated their competence, capability and objectivity, and obtained an understanding of their work as experts and of the adequacy of that work for use as audit evidence.

Also, we involved our internal valuation experts in order to evaluate, mainly, the methodology employed by the Group in the analysis conducted, the discount rates considered and the terminal value, expressed in perpetuity growth terms, of the projected future cash flows.

Accounting for the business combination effected in the year

Description

Procedures applied in the audit

Lastly, we evaluated whether the disclosures included in Notes 2-b.e.1.1, 4 and 5 to the accompanying consolidated financial statements in connection with this matter were in conformity with those required by the applicable accounting regulations.

Other Information: Consolidated Directors' Report

The other information comprises only the consolidated directors' report for 2021, the preparation of which is the responsibility of the Parent's directors and which does not form part of the consolidated financial statements.

Our audit opinion on the consolidated financial statements does not cover the consolidated directors' report. Our responsibility relating to the consolidated directors' report, in accordance with the audit regulations in force, consists of:

- a) Solely checking that the consolidated non-financial information statement, certain information included in the Annual Corporate Governance Report and the Annual Director's Remuneration Report, to which the Spanish Audit Law refers, have been furnished as provided for in the applicable legislation and, if this is not the case, reporting this fact.
- b) Evaluating and reporting on whether the other information included in the consolidated directors' report is consistent with the consolidated financial statements, based on the knowledge of the Group obtained in the audit of those consolidated financial statements, as well as evaluating and reporting on whether the content and presentation of this section of the consolidated directors' report are in conformity with the applicable regulations. If, based on the work we have performed, we conclude that there are material misstatements, we are required to report that fact.

Based on the work performed, as described above, we observed that the information described in section a) above was furnished as provided for in the applicable legislation and that the other information in the consolidated directors' report was consistent with that contained in the consolidated financial statements for 2021 and its content and presentation were in conformity with the applicable regulations.

Responsibilities of the Directors and Audit Committee of the Parent for the Consolidated Financial Statements

The Parent's directors are responsible for preparing the accompanying consolidated financial statements so that they present fairly the Group's consolidated equity, consolidated financial position and consolidated results in accordance with EU-IFRSs and the other provisions of the regulatory financial reporting framework applicable to the Group in Spain, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Parent's directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Parent's audit committee is responsible for overseeing the process involved in the preparation and presentation of the consolidated financial statements.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the audit regulations in force in Spain will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

A further description of our responsibilities for the audit of the consolidated financial statements is included in Appendix I to this auditor's report. This description, which is on pages 12 and 13 of this document, forms part of our auditor's report.

Report on Other Legal and Regulatory Requirements

European Single Electronic Format

We have examined the digital files in European Single Electronic Format (ESEF) of Applus Services, S.A. and subsidiaries for 2021, which comprise the XHTML file including the consolidated financial statements for 2021 and the XBRL files with the tagging performed by the entity, which will form part of the annual financial report.

The directors of Applus Services, S.A. are responsible for presenting the annual financial report for 2021 in accordance with the format and markup requirements established in Commission Delegated Regulation (EU) 2019/815 of 17 December 2018 ("ESEF Regulation").

Our responsibility is to examine the digital files prepared by the Parent's directors, in accordance with the audit regulations in force in Spain. Those regulations require that we plan and perform our audit procedures in order to ascertain whether the content of the consolidated financial statements included in the aforementioned digital files corresponds in full to that of the consolidated financial statements that we have audited, and whether those consolidated financial statements and the aforementioned files were formatted and marked up, in all material respects, in accordance with the requirements established in the ESEF Regulation.

In our opinion, the digital files examined correspond in full to the audited consolidated financial statements, and these are presented and have been marked up, in all material respects, in accordance with the requirements established in the ESEF Regulation.

Additional Report to the Parent's Audit Committee

The opinion expressed in this report is consistent with the content of our additional report to the Parent's audit committee dated 24 February 2022.

Engagement Period

The Annual General Meeting held on 28 May 2021 appointed us as the Group's auditors for a period of one year from the year ended 31 December 2020, i.e., for 2021.

Previously, we were designated pursuant to a resolution of the General Meeting for the period of one year and have been auditing the financial statements uninterruptedly since the year ended 31 December 2007 and, therefore, since the year ended 31 December 2014, the year in which the Parent became a Public Interest Entity.

DELOITTE, S.L. Registered in ROAC under no. S0692

Ana Torrens Borrás Registered in ROAC under no. 17762

24 February 2022

Appendix I to our auditor's report

Further to the information contained in our auditor's report, in this Appendix we include our responsibilities in relation to the audit of the consolidated financial statements.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

As part of an audit in accordance with the audit regulations in force in Spain, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Parent's directors.
- Conclude on the appropriateness of the use by the Parent's directors of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the Parent's audit committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Parent's audit committee with a statement that we have complied with relevant ethical requirements, including those regarding independence, and we have communicated with it to report on all matters that may reasonably be thought to jeopardise our independence, and where applicable, on the related safeguards.

From the matters communicated with the Parent's audit committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters.

We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter.

Applus Services, S.A. and Subsidiaries

Consolidated Financial Statements for the year ended 31 December 2021 and Consolidated Director's Report together with Independent Auditor's Report

Translation of consolidated financial statements originally issued in Spanish and prepared in accordance with the regulatory financial reporting framework applicable to the Group (see Notes 2 and 31). In the event of a discrepancy, the Spanish-language version prevails.

Applus Services, S.A. and Subsidiaries

Notes to the Consolidated Financial Statements for the year ended 31 December 2021

1. Group activities

Applus Services, S.A. (formerly Applus Technologies Holding, S.L. hereinafter -"the Parent" or "the Company"-) has been the Parent of the Applus Group ("Applus Group" or "the Group") since 29 November 2007. The Parent Company has its registered office in calle Campezo 1, edificio 3, Parque Empresarial Las Mercedes, in Madrid (Spain).

The Parent's Company purpose is as follows:

- To provide services in relation to the transport sector and vehicle and highway safety (engineering processes, design, testing, approval and certification of used cars), as well as technical inspections in sectors other than the automotive sector, with a blanket exclusion of activities that are covered by special legislation.
- The technical audits of all types of installations for technical inspection or control of vehicles located anywhere in Spain or abroad, as well as any other type of technical inspection other than vehicles.
- The production and execution of studies and projects in relation to the previously mentioned activities: economic, industrial, property, information technology, market surveys and research, as well as the supervision, direction and provision of services and advice in the execution thereof. Provision of services, advice, administration, operation and management, whether technical, fiscal, legal or commercial.
- Business intermediation services, both locally and abroad.
- To provide all types of inspection services and quality and quantity control, regulatory inspection, collaboration with administration, consultancy, audit, certification, approval, personnel training and qualification, and technical assistance in general in order to improve the organization and management of quality, safety and environmental aspects.
- To carry out studies, works, measurements, tests, analyses and controls, in laboratories or in situ, and such other professional methods and actions considered necessary or advisable, in particular those related to manufacturing materials, equipment, products and installations, in the fields of mechanics, electricity, electronics and information technology, transport and communications, administrative organization and office automation, mining, food, environment, construction and civil works, performed during the stages of design, planning, manufacturing, construction and assembly and commissioning, maintenance and production for all types of companies and entities, both public and private, as well as before the Central State Administration, the Administrations of Autonomous Communities, Provinces and Municipalities, and all types of agencies, institutions and users, whether within the country or abroad.

The purchase, holding and administration, whether direct or indirect, of shares, corporate interests, quota shares and any other form of holding or interest in the capital and/or securities granting right to the obtaining of shares, corporate interests, quota shares, or other holdings or interests in companies of any type, with or without legal personality, established in accordance with Spanish law or any other applicable legislation, in accordance with Article 108 of the Law 27/2014, of 27 November 2014, on Corporate Income Tax, or by such legislation as may replace it, as well as the administration, management and guidance of such companies and entities, whether directly or indirectly, by means of the membership, attendance and holding of positions on any governing and management bodies of such companies or entities, carrying out the described advisory, management and guidance services making use of the corresponding organization of material and personnel means. An exception is made for those activities expressly reserved by law for Collective Investment Institutions, as well as for that expressly reserved by the Securities Market Act for investment service companies.

The activities may be carried out either directly by the Company or through the ownership of shares or equity interest in other companies with an identical or related purpose, including the carrying out of all its activities in an indirect manner, therefore acting solely as a holding company.

All activities for which the law establishes special requirements that cannot be carried out by the Company are excluded from the corporate purpose. Should legal provisions require a professional qualification, administrative authorization, or registration with a public registry to be able to perform any of the activities included in the corporate purpose, such activities must be performed by persons who hold such professional qualifications, and such tasks shall not be able to commence until the administrative requirements have been met.

The Parent's shares have been listed on the stock market since 9 May 2014.

The subsidiaries and associates directly or indirectly owned by the Parent included in the scope of consolidation are shown in Appendix I.

The subsidiaries and associates directly or indirectly owned by the Parent excluded from the scope of consolidation either because they are dormant companies or because effective control over them is not exercised by the shareholders of the Applus Group are shown in Appendix II.

In view of the business activities carried out on by the Parent Company and its subsidiaries, they do not have any environmental liability, expenses, assets, provisions or contingencies that might be material with respect to its equity, financial position or results. Therefore, no specific disclosures relating to environmental issues are included in the notes to the consolidated financial statements (see Note 23).

2. Basis of presentation and basis of consolidation

2.a. Basis of presentation of the consolidated financial statements

a) Basis of presentation

These consolidated financial statements for 2021 were authorized for issue by the Parent's Directors at the Board of Directors Meeting held on 24 February 2022. The 2021 consolidated financial statements of the Group and the 2021 financial statements of the Group companies have not yet been approved by their shareholders at the respective Annual General Meetings. The Parent's Board of Directors considers that these financial statements will be approved without any changes. The Group's consolidated financial statements for 2020 were approved by the shareholders at the Parent's Annual General Meeting of 28 May 2021 and were filed at the Madrid Mercantile Register.

The Parent's Directors have prepared the Applus Group's consolidated financial statements in accordance with International Financial Reporting Standards as adopted by the European Union (EU-IFRSs), in conformity with Regulation (EC) no. 1606/2002 of the European Parliament and of the Council, taking into account all the mandatory accounting principles and rules and measurement bases and the Spanish Commercial Code, the Spanish Companies Act and other Spanish corporate law applicable to the Group.

These consolidated financial statements for 2021 were prepared from the separate accounting records of the Parent and of each of the subsidiaries (detailed in Appendix I) and, accordingly, they present fairly the consolidated equity, the consolidated financial position, the consolidated results of the Group, the changes in consolidated equity and the consolidated cash flows under EU-IFRSs and the other rules contained in the regulatory financial reporting framework applicable to the Group.

The accounting policies used to prepare these consolidated financial statements comply with all the EU-IFRSs in force at the date of their preparation. The EU-IFRSs provide for certain alternatives regarding their application. The alternatives applied by the Group are described in Notes 2 and 3.

b) Comparative information

The information relating to 2021 contained in these notes to the consolidated financial statements is presented, for comparison purposes, with information relating to 2020.

In 2021 the Group completed the review of the initial recognition of the QPS Evaluation Services, Inc. business combination described in Note 2.b.e.3.1. Following the review performed, the Group recognised adjustments to the initial recognition relating to the estimate of the earn-out payable to the vendor, which was carried out on a retroactive basis, effective from the acquisition date. Consequently, "Goodwill" and "Other Current Liabilities" in the consolidated statement of financial position as at 31 December 2020 were increased by EUR 10,113 thousand with respect to the disclosure contained in the Group's consolidated financial statements as at 31 December 2020. No impacts arose in the consolidated statement of profit or loss for 2020 as a consequence of this review.

c) Responsibility for the information and use of estimates

The Parent's Directors are responsible for the information included in these consolidated financial statements in accordance with the applicable regulatory financial reporting framework (see section a) above) and for the internal control measures that they consider necessary to ensure the consolidated financial statements do not have any material misstatement.

In the Group's consolidated financial statements for 2021 estimates were made by the Group Management, later ratified by their Directors, in order to quantify certain of the assets, liabilities, income, expenses and obligations reported herein. These estimates relate mainly to the following:

- The measurement of goodwill (see Notes 3.a and 4).
- The impairment losses on certain assets (see Notes 3.d and 6).
- The recovery of deferred tax assets (see Note 20).
- The right-of-use assets and obligations under leases (see Note 26).
- The useful life of the property, plant and equipment and intangible assets (see Notes 3.b and 3.c).
- The assumptions used in measuring the recoverable amount of the financial instruments and the assets and liabilities in the business combinations (see Notes 3.e and 3.k).
- Income from pending to be billed services (see Note 3.q).
- Provisions and contingent liabilities (see Notes 3.j, 17 and 27).
- Corporate income tax and deferred tax assets and liabilities (see Note 20).
- The identification and measurement of the assets and liabilities included in business combinations (see Notes 2.b.e and 5).

Although these estimates were made on the basis of the best information available as of 31 December 2021 on the events analysed, events that may take place in the future might make it necessary to change these estimates (upwards or downwards) in the coming years. Changes in accounting estimates would be applied prospectively in accordance with the requirements of IAS 8, recognising the effects of the change in the related consolidated statement of profit or loss or consolidated statement of changes in equity, as appropriate.

d) Financial situation and going concern assumption

The Directors and Management of the Group monitor constantly the economic cycle evolution in the short and long term in order to address any possible risks, both financial and non-financial, that could arise from the pandemic situation of COVID-19 or any other situations, in order to minimize possible impacts to the Group.

In the first half of 2021 a malware attack was detected that interrupted for a short period of time the vehicle roadworthiness testing activities in eight US states in which the Group operates through its subsidiary Applus Technologies, Inc. (which represents around 2% of the Group revenue). The Group increased the security and cyberprotection measures and, during 2021, operations were progressing normally and the vehicle roadworthiness testing activities in the US have been fully restored. The Parent's Directors consider that the aforementioned event was an isolated event from which no significant liabilities will arise and that the abovementioned risk did not have a significant impact on the Group.

The Directors and Management of the Group continue to constantly monitor the evolution of this situation in order to address any possible risks, both financial and non-financial, that could arise.

Considering all the aforementioned factors alongside with the economic projections in the markets in which the Group operates, the three year Strategic Plan announced in November 2021 and the liquidity position, that at 31 December 2021 amounts EUR 588 million, the Group's Directors consider that the conclusion on the application of the going concern basis of accounting remains valid.

e) Presentation and functional currency

These consolidated financial statements are presented in thousands of euros, since this is the currency of the Parent and of the main economic area in which the Group operates. Foreign operations are recognised in accordance with the policies described in Note 3.o.

f) Changes in accounting policies

In preparing the accompanying consolidated financial statements no changes in accounting policies were identified that would have made it necessary to restate the amounts included in the consolidated financial statements for 2020.

g) Materiality

When determining the information to be disclosed in these notes to the consolidated financial statements on the various line items in the consolidated financial statements or on other matters, the Group took into account the materiality principle.

2.b. Basis of consolidation and changes in the scope of consolidation

a) Subsidiaries

Subsidiaries are those entities over which the Applus Group directly or indirectly controls the financial and operating policies, exercises power over the relevant activities, maintains exposure, or rights, to variable returns from involvement with the investee; and the ability to use power over the investee to affect the amount of the investor's returns. The subsidiaries are consolidated from the date on which control is transferred to the Applus Group and are excluded from consolidation on the date that control ceases to exist. Appendix I discloses the most significant information about these entities.

The financial statements of the subsidiaries are fully consolidated with those of the Parent following the full consolidation method. Accordingly, all balances and effects of the transactions between consolidated companies are eliminated on consolidation.

Where necessary, adjustments are made to the financial statements of the subsidiaries to adapt the accounting policies used to those applied by the Group.

The businesses acquired are recognised using the acquisition method so that the assets, liabilities and contingent liabilities of a subsidiary are measured at their acquisition-date fair values. Any excess of the cost of acquisition over the fair values of the identifiable net assets acquired is recognised as goodwill (see Notes 3.a and 4). Any deficiency of the cost of acquisition below the fair values of the identifiable net assets acquired is credited to profit or loss on the acquisition date. The interest of non-controlling shareholders is stated at their proportion of the net assets and liabilities recognised of the acquired company.

The share of non-controlling interests is reflected in:

- The equity of their subsidiaries, which is presented within the Group's equity under "Non-Controlling Interests" in the consolidated statement of financial position (see Note 13).
- The profit for the year of their subsidiaries, which is presented under "Profit/Loss Attributable to Non-Controlling Interests" in the consolidated statement of profit or loss (see Note 13).

Also, in accordance with standard practice, the accompanying consolidated financial statements do not include the tax effects that might arise as a result of the inclusion of the results and reserves of the consolidated companies in those of the Parent, since it is considered that no transfers of reserves will be made that are not taxed at source and that such reserves will be used as means of financing at each company.

b) Associates

Associates are companies over which the Parent is in a position to exercise significant influence, but not control or joint control. Normally this capacity exists because the Group holds -directly or indirectly- between 20% and 50% of the voting power of the subsidiary.

At 31 December 2021, the Group only held, as an associate, an ownership interest of 30% in the investee Velosi (B) Sdn Bhd, domiciled in Brunei, the assets, liabilities, revenue and profit or loss of which were not significant (see Note 28).

In the consolidated financial statements, investments in associates are accounted for using the equity method, i.e. at the Group's share of net assets of the subsidiary, after taking into account the dividends received therefrom and other equity eliminations. In the case of transactions with an associate, the related profits and losses are eliminated to the extent of the Group's interest in the associate.

If as a result of losses incurred by an associate its equity was negative, the investment should be presented in the Group's consolidated statement of financial position with a zero value, unless the Group is obliged to give it financial support.

c) Changes in accounting policies and in disclosures of information effective in 2021

In 2021 new accounting standards came into force and were therefore taken into account when preparing the accompanying consolidated financial statements. The following standards were applied in these consolidated financial statements but did not have a significant impact on the presentation hereof or the disclosures herein:

New standards, amenda	Obligatory application in annual reporting periods beginning on or after:								
Approved for the use in the European Union									
Amendments and/or interpretations:	Amendments and/or interpretations:								
Interest Rate Benchmark Reform-Phase 2 (Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16) (issued in August 2020).	Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 relating to the interest rate benchmark reform (second phase).	1 January 2021							
Amendments to IFRS 4 Extension of the temporary exemption from applying IFRS 9 (issued in June 2020)		1 January 2021							
Rent Concessions (Amendments to IFRS 16) (issued in March 2021)	Amendments to extend the time period over which the practical expedient of IFRS 16 is available for use in relation to COVID-19-related rent concessions.	1 April 2021							

d) Accounting policies issued but not yet in force in 2021

At the date of preparation of these consolidated financial statements, the following standards and interpretations had been published by the International Accounting Standards Board (IASB) but had not yet come into force, either because their effective date is subsequent to the date of these consolidated financial statements or because they had not yet been adopted by the European Union (EU-IFRSs):

New standards, amend	Obligatory application in annual reporting periods beginning on or after:							
Approved for the use in the European Union								
Amendments and/or interpretations:								
Reference to the Conceptual Framework (Amendments to IFRS 3) (issued in May 2020)	IFRS 3 is updated to align the definitions of an asset and a liability in a business combination with those contained in the Conceptual Framework. Also, certain clarifications are introduced in relation to the recognition of contingent assets and liabilities.	1 January 2022						
Property, Plant and Equipment— Proceeds before Intended Use (Amendments to IAS 16) (issued in May 2020)	The amendments prohibit deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while the entity is bringing that asset to the location and condition necessary for its intended use. The proceeds from selling any such items (samples), and the cost of producing those items, must be recognised in profit or loss.	1 January 2022						
Onerous Contracts-Cost of Fulfilling a Contract (Amendments to IAS 37) (issued in May 2020)	These amendments explain that the cost of fulfilling a contract comprises the incremental costs of fulfilling that contract and an allocation	1 January 2022						

	of other costs that relate directly to fulfilling the contract.	
Annual Improvements to IFRS Standards 2018–2020 (issued in May 2020)	Minor amendments to IFRS 1, IFRS 9, IFRS 16 and IAS 41.	1 January 2022
Not yet approved for use in the Europea	n Union	
New standards:		
IFRS 17, Insurance Contracts and Amendments to IFRS 17 (issued in May 2017)	Supersedes IFRS 4 and establishes principles for the recognition, measurement, presentation and disclosure of insurance contracts issued, the objective being to ensure that entities provide relevant and reliable information that gives a basis for users of the financial information to assess the effect that insurance contracts have on the financial statements.	1 January 2023
Amendments and/or interpretations:		
Classification of Liabilities as Current or Non-current (Amendments to IAS 1) (issued in January 2020)	Clarifications relating to the presentation of liabilities as current or non-current.	1 January 2023
Disclosure of Accounting Policies (Amendments to IAS 1) (issued in February 2021)	Amendments that enable entities to appropriately identify the information on material accounting policies that should be disclosed in the financial statements.	1 January 2023
Definition of Accounting Estimates (Amendments to IAS 8) (issued in February 2021)	Amendments and clarifications of the definition of a change in accounting estimate.	1 January 2023
Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12) (issued in May 2021)	Clarifications on how entities should recognise deferred taxes arising in transactions such as leases and obligations in relation to the dismantling assets.	1 January 2023
Amendments to IFRS 17, Insurance Contracts— Initial Application of IFRS 17 and IFRS 9 — Comparative Information (issued in June 2020)	Amendments to the transitional requirements in IFRS 17 for insurers applying IFRS 17 and IFRS 9 simultaneously for the first time.	1 January 2023

The Parent's Directors have not considered the early application of the standards and interpretations detailed above and, in any event, application thereof will be considered by the Group once they have been approved, as the case may be, by the European Union.

In any case, the Parent's Directors are assessing the potential impact of applying these standards in the future and consider that their entry into force will not have a material effect on the Group's consolidated financial statements.

e) Changes in the scope of consolidation

e.1. Inclusions in the scope of consolidation in 2021:

The companies included in the scope of consolidation in 2021 are as follows:

- Companies acquired in 2021:
 - Adícora Servicios de Intermediación de Ingeniería, S.L.U.
 - Ingeniería, Estudio y Construcciones, S.A.U.
 - IMA Materialforschung und Anwendungstechnik GmbH
 - WIAM GmbH
 - SWM Struktur und Werkstoffmechanikforschung Dresden gemeinnützige GmbH
 - Soil and Foundation Company Limited
 - Geotechnical and Environmental Company Limited
 - Soil and Foundation Company Limited Egypt
 - Enertis Solar, S.L.U.
 - Enertis UK Limited
 - Enertis Solar, Inc.
 - Enertis Mexico S.A. de C.V.
 - Enertis Colombia S.A.S.
 - Enertis Chile, SpA
 - Enertis S.A.S
 - Enertis South Africa (PTY) Ltd
 - Enertis AM Chile, SpA
- Companies incorporated during 2021:
 - Applus Iteuve Mexico, S.A. de C.V.
 - Shanghai Reliable Analysis Scientific Testing Co., Ltd.
 - Applus Organismo de Control, S.L.U.

e.1.1. Companies acquired in 2021

• IMA Group acquisition

On 26 May 2021, the Applus Group acquired IMA Materialforschung und Anwendungstechnik GmbH, WIAM GmbH and SWM Struktur - und Werkstoffmechanikforschung Dresden gemeinnützige GmbH for an initial cost of EUR 30 million. Additionally, the agreement includes an earn-out tied to certain financial targets which the acquirees would have to achieve in 2021, 2022 and 2023. The Group considers that the conditions will be met for an earn-out amount of approximately to EUR 8 million and, accordingly, this amount was considered when determining the acquisition cost. The companies have been integrated into the Applus+ Laboratories division.

In the provisional amounts recognised in accounting for this business combination, the intangible assets identified relating to trademark and accreditations amounting to EUR 11.9 million were measured at fair value in line with the projections used when they were acquired. The Group made a provisional allocation with the help of an independent expert (see Note 5).

The revenue attributable to IMA Group amounts to EUR 25 million per year. The revenue attributable to the business combination from the date of acquisition to 2021 year-end amounted to EUR 18.5 million.

SAFCO Group acquisition

On 3 June 2021, the Applus Group acquired Soil and Foundation Company Limited, Geotechnical and Environmental Company Limited and Soil and Foundation Company Limited Egypt (SAFCO Group), for an initial cost of USD 30 million (approximately EUR 25 million at the acquisition date). Additionally, the agreement includes an earn-out tied to certain financial targets which the acquirees would have to achieve in 2020, 2021 and 2022. The Group considers that the conditions will be met for an earn-out amount of USD 22 million (EUR 18 million at the acquisition date) and, accordingly, this amount was considered when determining the acquisition cost. The companies have been integrated into the Applus+ Energy & Industry division.

In the provisional amounts recognised in accounting for this business combination, the intangible assets identified relating to customer portfolio amounting to EUR 17.3 million were measured at fair value in line with the projections used when they were acquired. The Group made a provisional allocation with the help of an independent expert (see Note 5).

The revenue attributable to SAFCO Group amounts to EUR 24 million per year. The revenue attributable to the business combination from the date of acquisition to 2021 year-end amounted to EUR 19.4 million.

• Enertis Group acquisition

On 2 July 2021, the Applus Group acquired Enertis Solar, S.L.U. and its subsidiaries for an initial cost of EUR 21.2 million. Additionally, the agreement includes an earn-out tied to certain financial targets which the acquirees would have to achieve in 2021, 2022 and 2023. The Group considers that the conditions will be met for the earn-out amount approximately to EUR 5.7 million and, accordingly, this amount was considered when determining the acquisition cost. The company has been integrated into the Applus+ Energy & Industry division.

In the provisional amounts recognised in accounting for this business combination, the intangible assets identified relating to customer portfolio amounting to EUR 9.5 million were measured at fair value in line with the projections used when they were acquired. The Group made a provisional allocation with the help of an independent expert (see Note 5).

The revenue attributable to Enertis Group amounts to EUR 18.9 million by year. The revenue attributable to the business combination from the date of acquisition to 2021 year-end amounted to EUR 11.9 million.

Other acquisitions in 2021

On 2 March 2021, the Applus Group acquired Adícora Servicios de Intermediación de Ingeniería, S.L.U. and Ingeniería, Estudio y Construcciones, S.A.U., for an initial cost of EUR 4.8 million. The goodwill resulting from the difference between the fair value of the assets and liabilities assumed, and the cost of the business combination amounts, provisionally, to EUR 3.4 million. There are no significant differences between the fair values of the net assets acquired included in the detail below related to the respective carrying amounts at which they had been previously recognised. The companies have been integrated into the Applus+ Energy & Industry division.

The provisional registration of these acquisitions includes a detail of the acquired net assets and of the provisional goodwill at the acquisition date (in thousands of euros):

	Adícora Servicios Ingeniería, S.L.	Ingeniería, Estudio y Construcciones, S.A.	IMA Materialfor- schung und Anwendung- stechnik, GMbH (Group)	Soil and Foundation (Group)	Enertis Solar, S.L.U. (Group)	Total

Goodwill (Note 4)	1,073	2,325	11,161	26,183	15,421	56,163

At the date of authorisation for issue of these consolidated financial statements, the process to measure at fair value the assets and liabilities related to these acquisitions had not been completed and, accordingly, the value of the related goodwill is provisional. The Parent's Directors consider that the process to measure the assets and liabilities and to allocate the goodwill will be completed in 2022, and that any adjustment will be applied retrospectively in accordance with IFRS 3, Business Combinations.

e.2. Exclusions from the scope of consolidation in 2021:

In January 2021, the company Velosi Engineering Projects Pte. Ltd. has been liquidated, which did not give rise to any significant impacts on the consolidated statement of profit or loss.

In March 2021, the company Applus Aerospace UK Limited has been liquidated, which did not give rise to any significant impacts on the consolidated statement of profit or loss.

In April 2021, Applus Velosi Czech Republic s.r.o. and VAIL Consultancy Services DMCC had been liquidated, which did not give rise to any significant impacts on the consolidated statement of profit or loss.

In May 2021, the company Velosi Angola Prestação de Serviços, Limitada has been liquidated, which did not give rise to any significant impacts on the consolidated statement of profit or loss.

In June 2021, the company Technical Inspection Services, Ltd has been liquidated, which did not give rise to any significant impacts on the consolidated statement of profit or loss.

e.3. Inclusions in the scope of consolidation in 2020:

The companies included in the scope of consolidation in 2020 were as follows:

- Companies acquired in 2020:
 - Iteuve Canarias, S.L.
 - Iteuve Canarias XXI, S.L.
 - Iteuve Canarias Aeropuerto el Matorral, S.L.
 - ZYX Metrology, S.L.U.
 - Reliable Analysis, Inc.
 - Shanghai Reliable Auto Analysis Testing, Ltd.
 - Liuzhou Reliable Auto Analysis Testing, Ltd.
 - Shanghai Reliable Testing Technology Ltd.
 - Besikta Bilprovning i Sverige Holding AB
 - Besikta Bilprovning i Sverige AB
 - ClearCar AB
 - QPS Evaluation Services, Inc.
 - QPS America, Inc
 - QPS Europe B.V.
- Companies incorporated during 2020:
 - Applus Senegal SURL
 - Libertytown RE, S.A.
 - Iteuve India Private Limited
 - CRpplus Services Costa Rica S.A.
 - Applus Ingenieria y Consultoria, SAS

e.3.1. Companies acquired in 2020

Reliable Analysis, Inc. acquisition

On 30 September 2020, the Applus Group acquired Reliable Analysis, Inc. for USD 78 million (approximately EUR 67 million at the acquisition date). In addition, the agreement included an earn-out provision tied to certain financial targets which the acquiree would have to achieve in 2021, 2022 and 2023. At the year end the Group considered that conditions would not prevail for a significant earn-out. The company was integrated into the Applus+ Laboratories division.

In the provisional amounts recognised in accounting for this business combination, the intangible assets identified relating to the awards granted by various automotive industry manufacturers to test the quality of the components of the suppliers of those manufacturers were measured. Per the projections used, the fair value was EUR 21.4 million. The Group made a provisional allocation with the help of an independent expert (see Note 5). In 2021 the Group completed the accounting for the assets acquired and no significant changes were met (see Note 4).

The revenue attributable to Reliable Analysis, Inc. amounts to EUR 24 million per year. The revenue attributable to the business combination from the date of acquisition to 2020 year-end amounted to EUR 5.4 million. The margin of the adjusted operating profit attributable to the business combination is higher than the one of the division where it was integrated.

Besikta Bilprovning i Sverige Holding AB acquisition

On 20 October 2020, the Applus Group acquired Besikta Bilprovning i Sverige Holding AB for an initial cost of SEK 1,050 million (approximately EUR 101 million at the acquisition date). The company was integrated into the Applus+ Automotive division.

In the provisional amounts recognised in accounting for this business combination, the intangible assets identified relating to the Besikta trademark amounting EUR 31.9 million and to customer relationship portfolios amounting EUR 3.8 million were measured at fair value in line with the projections used when they were acquired. The Group made a provisional allocation with the help of an independent expert (see Note 5). In 2021 the Group completed the accounting for the assets acquired and no significant changes were met (see Note 4).

The revenue attributable to Besikta Bilprovning i Sverige Holding AB amounts to EUR 62 million per year. The revenue attributable to the business combination from the date of acquisition to 2020 year-end amounted to EUR 9.3 million. The EBITDA margin (before IFRS 16 application) attributable to the business combination is around 18%.

· QPS Evaluation Services, Inc. acquisition

On 1 December 2020, the Applus Group acquired QPS Evaluation Services Inc. for an initial cost of CAD 65 million (approximately EUR 41 million at the acquisition date). In addition, the agreement included an earn-out provision tied to certain financial targets which the acquiree would have to achieve in 2021, 2022 and 2023. The Group completed the recognition of the acquisition in 2021 and has considered that conditions would prevail for the earn-out to amount to CAD 18.3 million (approximately EUR 11.8 million at the acquisition date) and, accordingly, this amount was taken into account when determining the acquisition cost of the ownership interest. The company was integrated into the Applus+ Laboratories division.

In the provisional amounts recognised in accounting for this business combination, the intangible assets identified relating to the certifications amounting to EUR 24.2 million were measured at fair value in line with the projections used when they were acquired. The Group made a provisional allocation with the help of an independent expert (see Note 5). Also, as indicated in Note 2.a.b, in 2021 the Group completed the accounting for the assets acquired. The following table shows the adjusted data in accordance with the aforementioned Note 2.a.b.

The revenue attributable to QPS Evaluation Services, Inc. amounts to EUR 16 million per year. The revenue attributable to the business combination from the date of acquisition to 2020 year-end amounted to EUR 1.3 million. The margin of the adjusted operating profit attributable to the business combination is higher than the one of the division where it was integrated.

• Other acquisitions in 2020

On 27 February 2020, the Applus Group acquired Iteuve Canarias, S.L., Iteuve Canarias XXI, S.L. and Iteuve Canarias Aeropuerto el Matorral, S.L. for EUR 8.6 million. The goodwill resulting from the difference between the fair value of the assets and liabilities assumed, and the cost of the business combination amounted, provisionally, to EUR 6.8 million. In 2021 the Group completed the accounting for the assets acquired and no significant changes were met (see Note 4). The companies were integrated into the Applus + Automotive division.

On 2 March 2020, the Applus Group acquired ZYX Metrology, S.L.U. for EUR 1.8 million. The goodwill resulting from the difference between the fair value of the assets and liabilities assumed, and the cost of the business combination amounted, provisionally, to EUR 1 million. In 2021 the Group completed the accounting for the assets acquired and no significant changes were met (see Note 4). The company was integrated into the Applus+ Laboratories division.

In relation to these acquisitions, there are no significant differences between the fair values of the net assets acquired included in the detail below related to the respective carrying amounts at which they had been previously recognised.

The detail of the net assets and goodwill generated by the aforementioned acquisitions at the acquisition date was as follows (in thousands of euros):

	Iteuve Canarias, S.L. (Group)	ZYX Metrology, S.L.U.	Reliable Analysis, Inc. (Group)	Besikta Bilproving i Sverige Holding, AB (Group)	QPS Evaluation Services, Inc. (Group)	Total
Non- current assets	8,465	483	34,557	58,033	25,244	126,782
Inventories	-	11	25	31	-	67
Trade and other receivables	490	58	4,843	4,033	3,244	12,668
Cash and cash equivalents	226	836	4,170	2,361	4,652	12,245
Non- current liabilities	(6,120)	(72)	(8,257)	(31,964)	(558)	(46,971)
Current liabilities	(727)	(243)	(7,741)	(25,535)	(11,243)	(45,489)
Value of assets and liabilities acquired	2,334	1,073	27,597	6,959	21,339	59,302
% of ownership	100%	100%	100%	100%	100%	
Value of assets and liabilities acquired net of minorities	2,334	1,073	27,597	6,959	21,339	59,302
Acquisition cost	9,079	2,148	66,851	83,713	58,784	220,575
Goodwill (Note 4)	6,745	1,075	39,254	76,754	37,445	161,273

According to IFRS 3, the accounting process for acquisitions made in the previous financial year has been completed in 2021.

e.4. Exclusions from the scope of consolidation in 2020:

In February 2020, the dormant company Kurtec Inspection Services Sdn Bhd was liquidated, which did not give rise to any significant impacts on the consolidated statement of profit or loss.

In September 2020, the company Applus Florida Proving Ground Inc was liquidated, which did not give rise to any significant impacts on the consolidated statement of profit or loss.

In November 2020, the company Aerial Photography Services Pty Ltd was liquidated, which did not give rise to any significant impacts on the consolidated statement of profit or loss.

In December 2020, the company RTD Norway, AS was sold.

3. Accounting and valuation policies

The principal accounting policies used in preparing the Group's consolidated financial statements, in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union, were as follows:

a) Goodwill

Goodwill represents the excess of the cost of the combination over the fair value of the interest in the net identifiable assets of a subsidiary, jointly controlled entity or acquired associate at the acquisition date. Goodwill relating to the acquisition of subsidiaries or jointly controlled entities is included in intangible assets and goodwill relating to the acquisition of associates is included in investments accounted for using the equity method.

The cost of a business combination is the aggregate of:

- The acquisition-date fair value of the assets acquired, the liabilities incurred or assumed and the equity instruments issued; and
- The fair value of any contingent consideration that depends on future events or on the fulfilment of certain specified conditions.

The costs incurred to issue equity or debt securities given up in exchange for the items acquired are not included in the cost of a business combination.

In addition, the cost of a business combination does not include the fees paid to legal advisers and other professionals involved in the combination or, clearly, any costs incurred internally in this connection. Such amounts are charged directly to the consolidated statement of profit or loss.

If the business combination is achieved in stages and, therefore, the acquirer already held an equity interest in the acquiree immediately before the acquisition date (the date on which control is obtained), the goodwill or gain on a bargain purchase is the difference between:

- The cost of the business combination, plus the acquisition-date fair value of any equity interest previously held by the acquirer in the acquiree.
- The fair value of the identifiable assets acquired less the fair value of the liabilities assumed, determined as indicated above.

Any gain or loss resulting from the remeasurement at fair value of the previously held equity interest in the acquiree on the date control is obtained, is recognised in the consolidated statement of profit or loss. If the investment in this investee had previously been measured at fair value, any valuation adjustments not yet recognised in profit or loss will be transferred to the consolidated statement of profit or loss. Also, the cost of a business combination is presumed to be the best reference for estimating the acquisition-date fair value of any previously held equity interest.

Goodwill arising on the acquisition of companies with a functional currency other than the euro is measured in the functional currency of the acquiree and is translated to euros at the exchange rates prevailing at the consolidated statement of financial position date.

If, exceptionally, a gain on a bargain purchase arises from the business combination, it is recognised as income in the consolidated statement of profit or loss.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the acquirer shall report in its financial statements provisional amounts for the items for which the accounting is incomplete and the provisional amounts may be adjusted in the period required to obtain the necessary information. However, the measurement period shall not exceed one year from the acquisition date. The effects of the adjustments made in that period are recognised retrospectively and comparative information for prior periods must be revised as needed.

Subsequent changes in the fair value of the contingent consideration are recognised in profit or loss, unless the consideration has been classified as equity, in which case subsequent changes in its fair value are not recognised.

If, subsequent to obtaining control, there are transactions to sell or purchase the shares of a subsidiary without losing control thereof, the impacts of these transactions not leading to a change in control are recognised in equity and the amount of goodwill arising on consolidation is not adjusted.

b) Other intangible assets

The other intangible assets are identifiable assets without physical substance which arise as a result of a legal transaction or which are developed internally by the consolidated companies. Only assets whose cost can be estimated reasonably objectively and from which the consolidated companies consider it probable that future economic benefits will be generated are recognised.

Intangible assets are recognised initially at acquisition or production cost, which includes the allocation of the value of goodwill as a result of the business combinations, where applicable, and are subsequently measured at cost less any accumulated amortisation and any accumulated impairment losses.

Intangible assets are measured and amortised as follows:

- Administrative concessions or similar items that have been acquired by onerous title are amortised on a straight-line basis over the concession term. The initial cost (levy) and, where applicable, the present value of the future payments which are deemed to be necessary when the assets are handed over to the grantor are included in this line item.
- The administrative authorisations relate to vehicle roadworthiness testing services in Spain and abroad which the Group manages under this name. The main administrative authorisations relate to Spain (Catalonia) and Finland (see Note 5). In the case of Catalonia, these administrative authorisations are amortised on a straight-line basis over the authorisation term which ends in 2035. In the case of Finland, although the administrative authorisation has an indefinite useful life, it is estimated that the economic value of this authorisation will be recovered in 10 years and, therefore, it is being amortised over this period, until 2020.
- Trademarks acquired in a business combination are initially measured on the basis of their fair value using the Relief from Royalty method. Trademarks are considered to have a finite useful life and are amortised over 20 to 25 years, with the exception of the trademarks associated with the Velosi Group and IMA Group, which are being amortised over 10 years.
- Customer relationship portfolios acquired in a business combination are initially recognised at fair value using the Multi-Period Excess Earnings method. They are amortised over the estimated useful life (ranging from two to fourteen years) of each portfolio based on historical statistical evidence of the average relationship length.
- Accreditations and awards are granted to the Applus companies by public institutions or companies for the purpose of performing trials on third-party services and products under nationally- or internationally-recognised standards. Those acquired in business combinations are initially recognised at fair value using the Multi-Period Excess Earnings method. They are amortised on a straight-line basis over their estimated finite useful lives (ranging from eight to ten years), calculated on the basis of qualitative factors.
- Asset usage rights relate to machinery and fixtures used by the Group in the performance of its business activity and are subject to reversal. They are amortised over the residual useful life of the assets to which they correspond, from the acquisition date of the right of use, based on an estimate by an independent valuer.
- Computer software is amortised on a straight-line basis. Computer system maintenance costs are charged to the consolidated statement of profit or loss in the year they are incurred.

c) Property, plant and equipment

Property, plant and equipment are recognised at acquisition or production cost.

The companies depreciate their property, plant and equipment using the straight-line method on the basis of the remaining years of estimated useful life of the various items, the detail being as follows:

	Years of
	estimated
	useful life
Buildings	20 to 40
Plant	3 to 12
Machinery and tools	3 to 10
Furniture	2 to 10
Computer hardware	4
Transport equipment	3 to 10

The assets that have to be handed over to the Government at the end of the concession term will have been fully depreciated by this date.

Property, plant and equipment are stated at cost less accumulated depreciation and any recognised impairment losses.

The gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the consolidated statement of profit or loss as other results.

d) Impairment of non-financial assets

Goodwill, intangible assets with an indefinite useful life or intangible assets that cannot be used and are not amortised or depreciated, are tested for impairment annually (or more frequently, where there is an indication of a potential impairment loss). Assets that are amortised or depreciated are tested for impairment whenever an event or a change in circumstances indicates that their carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the carrying amount of the asset exceeds its recoverable amount.

Recoverable amount is the higher of fair value less costs to sell and value in use.

For the purpose of impairment loss assessment, assets are grouped at the lowest levels for which there are largely independent separately identifiable cash inflows (cash-generating units (CGUs)). The cash-generating units defined by the Group are detailed in Notes 4, 5 and 6.

Pursuant to paragraph 81 of IAS 36, when goodwill cannot be allocated to an individual cash-generating unit, it is allocated to groups of cash-generating units that are expected to benefit from the synergies of the combination and that correspond to the lowest level at which the goodwill can be monitored by the Directors for internal management purposes. In these cases, as established in paragraphs 88 and 89 of IAS 36, the individual cash-generating units are tested for impairment whenever there is an indication that the unit may be impaired, or at least annually, when they include intangible assets with indefinite useful lives specifically allocated to them (see Note 6).

In these circumstances, impairment losses could arise on these intangible assets even though the related goodwill associated with a group of CGUs is not impaired.

In order to calculate the impairment test, the future cash flows of the asset analysed (or of the cash-generating unit to which it belongs) are discounted to their present value using a discount rate that reflects market conditions and the risk specific to the asset. Where the recoverable amount of an asset is estimated to be less than its carrying amount, an impairment loss is recognised for the amount of the difference with a charge to the consolidated statement of profit or loss.

The impairment losses on non-financial assets recognised previously (other than goodwill) are reviewed for possible reversal at each reporting date. When an impairment loss subsequently reverses, the carrying amount of the asset could increase to the revised estimate of its recoverable amount, without exceeding the carrying amount existing prior to the recognition of the impairment loss, less any depreciation or amortisation that should have been recognised. The reversal of an impairment loss on an asset is credited to the consolidated statement of profit or loss.

The method used by the Group to test impairment distinguishes between businesses with indefinite and definite lives. Five-year projections and a perpetuity rate of return from the sixth year are used for businesses with indefinite lives. Projections based on the actual term of the related contract are used for assets with finite lives relating to the rendering of services or concessions. In this case, the probability of their renewal is not considered in preparing the related cash flow projections.

In both cases, the projections are based on reasonable and well-founded assumptions and were prepared in accordance with the Group's Strategic Plan prepared by the Directors and Group's Management and presented in November 2021 for the next three years and with the Group's strategy for the following years based on past experience and the best estimates available at the date on which the related impairment tests were carried out using the market information available. The projections envisage the evolution of organic revenue and margins of the business that the Group Executive Committee expects for the coming years. Consequently, the possible changes in the scope of consolidation that might take place in the future were not taken into account in the projections or in the impairment tests performed.

Together with the impairment test on the various cash-generating units carried out at least at each year-end, the Group also performs a sensitivity analysis of the main assumptions affecting the calculation. The main assumptions used by the Group in testing for impairment and the results of the sensitivity analysis are described in Note 6.

e) Financial assets

Following the entry into force of IFRS 9, financial assets are classified into the following categories: financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income (equity) and financial assets at amortised cost.

The classification depends on the nature and purpose of the financial assets and is determined when they are initially recognised.

The Group holds financial assets measured at amortised cost, which give rise on specified dates to cash flows that are solely payments of principal and interest. Any financial assets from which the Group expects to collect both contractual cash flows and cash flows from their sale (such as those which are factored, see Note 14.b) are measured at fair value through other comprehensive income (equity). All other financial assets are measured at fair value through profit or loss.

The effective interest method is used to measure the amortised cost of a financial instrument. The effective interest rate is the discount rate applied to the estimated future cash receipts over the expected life of the financial instrument. However, due to the nature of the assets classified under this heading, they are generally recognised on the basis of original acquisition cost because they mature in less than one year.

The Group derecognises a financial asset when the rights to the cash flows from the financial asset expire or have been transferred and substantially all the risks and rewards of ownership of the financial asset have also been transferred, such as in the case of firm asset sales and non-recourse factoring of trade receivables in which the Group does not retain any credit or interest rate risk.

However, the Group does not derecognise financial assets, and recognises a financial liability for an amount equal to the consideration received, in transfers of financial assets in which substantially all the risks and rewards of ownership are retained, such as in the case of note and bill discounting and recourse factoring.

The Group recognises impairment losses in accordance with an expected credit loss model, according to IFRS 9, for financial assets measured at amortised cost, trade receivables, or financial assets at fair value through other comprehensive income (equity). The measurement of expected credit losses is based on the probability of default, the loss given default (i.e. the magnitude of the loss if there is a predetermined value) and the exposure in the predetermined value. The Group made this estimate taking into consideration, among other matters, the diversity of its customers by type or segment grouping them by country or geographical region, distinguishing them by sector or industry and selecting an appropriate credit spread curve for each of the financial assets, as well as a historical default analysis of the Group.

f) Information on the environment

Environmental assets are considered to be assets used on a lasting basis in the operations of the Group companies whose main purpose is to minimise adverse environment effects and to protect and enhance the environment, including the reduction or elimination of the pollution caused in the future by the Applus Group's operations.

In view of the Group's business activity, at 31 December 2021 and 2020 it did not have any significant assets of this nature.

g) Leases

The Group assesses whether a contract is or contains a lease, at inception of it. The Group recognises a right-of-use asset and a lease liability with respect to all lease agreements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less), leases of low value assets (less than USD 5 thousand) and variable rents. For these exceptions, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the payments that are not executed at the commencement date, discounted by using the implicit rate. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments, less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is presented as a separate line in the consolidated statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Group remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.
- the lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).
- a lease contract is modified, and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Whenever the Group incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under IAS 37. The costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets are presented as a separate line in the consolidated statement of financial position.

The Group applies IAS 36 Impairment of Assets to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in Note 3.d. Variable rents that do not depend on an index or rate are not included in the measurement of the lease liability and the right-of-use asset. The related payments are recognised as an expense in the period in which the event or condition that triggers those payments occurs and are included in the line "Other expenses" in the consolidated statement of profit or loss.

Additionally, IFRS 16 permits a lessee not to separate non-lease components, and instead account for any lease and associated non-lease components as a single arrangement.

h) Inventories

Inventories are stated at weighted average cost, which comprises materials and, where applicable, direct labour costs and other costs that have been incurred in bringing the inventories to their present location and condition.

i) Government grants

Government grants related to property, plant and equipment are treated as deferred income and are taken to income over the expected useful lives of the assets concerned. In addition, the Group accounts for other grants, donations and legacies received as follows:

a) Non-refundable grants, donations or legacies related to assets: these are measured at the fair value of the amount or the asset received, based on whether or not they are monetary grants, and they are taken to income in proportion to the period depreciation taken on the assets for which the grants were received or, where appropriate, on disposal of the asset or on the recognition of an impairment loss, except for grants received from shareholders or owners, which are recognised directly in non-current liabilities and do not give rise to the recognition of any income.

- b) Refundable grants: while they are refundable, they are recognised as a non-current liability.
- c) Grants related to income: grants related to income are credited to income when granted, unless their purpose is to finance losses from operations in future years, in which case they are allocated to income in those years. If grants are received to finance specific expenses, they are allocated to income as the related expenses are incurred.

j) Provisions and contingent liabilities

When preparing the consolidated financial statements the Parent's Directors make a distinction between:

Provisions:

The Group recognises a provision where it has an obligation or liability to a third party arising from past events the settlement of which will give rise to an outflow of economic benefits whose amount and/or timing are not known with certainty but can be reasonably reliably estimated. Provisions are quantified on the basis of the best information available on the event and the consequences of the event and are reviewed and adjusted at the end of each reporting period. The provisions made are used to cater for the specific risks for which they were originally recognised, and are fully or partially reversed when such risks cease to exist or are reduced.

- Contingent liabilities:

Contingent liabilities are all the possible obligations that arise from past events and whose future existence and associated loss are estimated to be unlikely. In accordance with IFRS, the Group does not recognise any provision in this connection. However, as required, the contingent liabilities are disclosed in Note 27.b.

The Group's legal advisers and Directors consider that the outcome of litigation and claims will not have a material effect on the accompanying consolidated financial statements. Provisions are recognised when the Group has a present obligation, whether legal or constructive, as a result of past events with respect to which it is more likely than not to entail an outflow of resources to settle the obligation and when the amount thereof has been estimated reliably.

Provisions are recognised when the unavoidable costs of meeting the obligations under onerous contracts exceed the benefits expected to be received thereunder.

Provisions are measured at the present value of the amount necessary to settle the obligation at the consolidated statement of financial position date based on the best estimate available.

When it is expected that a portion of the disbursement necessary to settle the provision will be reimbursed by a third party, the reimbursed amount is recognised as an independent asset, provided that receipt thereof is virtually assured.

k) Derivative financial instruments and hedge accounting

The Group has previously used to use financial derivatives to eliminate or significantly reduce interest rate and foreign currency risks relating to its assets. The Group does not use derivative financial instruments for speculative purposes.

The Group's use of financial derivatives is governed by and envisaged in its policies, which provide guidelines for their use (see Note 16).

At the end of 2021 and 2020 the Group had no outstanding financial derivative products.

I) Pension obligations, post-employment benefits and other employee benefit obligations

Defined contribution plans

Under defined contribution plans, the Group pays fixed contributions into a separate entity (a fund) and the Group has no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all the benefits to employees.

The Group recognises the contributions to be made to the defined contribution plans as the employees render the related services. The contributions made were recognised under "Staff Costs" in the consolidated statement of profit or loss. The defined contribution liability is recognised as current.

Defined benefit plans

All the post-employment benefit plans that may not be considered as defined contribution plans are benefit plans. These plans may be unfunded or wholly or partially funded by a specific fund.

The defined benefit liability recognised in the consolidated statement of financial position relates to the present value of the defined benefit obligations at the end of the reporting period which are measured annually based on the best estimate possible.

The expense or income relating to the defined benefit plans is recognised under "Staff Costs" in the enclosed consolidated statement of profit or loss. The defined benefit liability is recognised as current or non-current based on the vesting period of the related benefits.

However, the defined benefit obligations are not material (see Note 17.a).

Other employee benefit obligations

The Group has established, with its key personnel, specific remuneration plans based on the following characteristics:

- 1. Annual variable remuneration subject to the achievement of certain financial targets in 2021.
- 2. Annual variable remuneration plan granted to the Executive Directors, certain executives and employees of the Group consisting of the delivery of RSUs (convertible into Parent's shares). This remuneration plan is approved annually and is convertible to shares three years after the date on which they are granted, 30% of which are granted in each of the first two years and the remaining 40% are granted in the third year. At 2021 year-end three plans have been approved and ratified (see Notes 19 and 29).
- 3. "Long-term Incentive" plan granted to the Executive Directors and certain Senior Executives of the Group, that consists of the delivery of Performance Stock Units (PSUs), in the case of the Executive General Director, and Restricted Stock Units (RSUs) and PSUs in the case of the Executive Financial Director and Senior Executives. Both PSUs and RSUs are convertible into Parent's shares within three years of the grant date based on the achievement of certain targets (see Notes 19 and 29).

m) Debts and current/non-current classification

Debts are recognised at their present value and are classified on the basis of their maturity at the reporting date, i.e. debts due to be settled within twelve months are classified as current liabilities and those due to be settled within more than twelve months are classified as non-current liabilities.

n) Financial liabilities

Financial liabilities are classified into the following categories: financial liabilities at fair value through profit or loss and other financial liabilities.

Other financial liabilities (including loans and trade and other payables) are recognised at amortised cost using the effective interest method. It is considered that the fair value of the financial liabilities does not differ significantly from their carrying amount.

Effective interest method

The effective interest method is used to measure the amortised cost of a financial instrument. The effective interest rate is the discount rate applied to the estimated future cash payments over the expected life of the financial instrument. The Group recognises trade payables at their nominal value without explicitly accruing any interest, since they are due in less than one year.

The Group only derecognises financial liabilities when the related obligations are discharged or cancelled or expired. The difference between the carrying amount of the derecognised financial liabilities and the payment made is recognised in the consolidated statement of profit or loss.

o) Transactions in currencies other than the Euro

The Group's presentation currency is the Euro. Therefore, all balances and transactions in currencies other than the Euro are deemed to be "foreign currency transactions".

Balances in foreign currencies are translated to euros in two phases:

- 1. Translation of balances in foreign currencies to the subsidiaries' functional currencies:
 - Monetary assets and liabilities denominated in foreign currencies are translated by applying the exchange rates prevailing at the closing date.
 - Any resulting gains or losses are recognised directly in the consolidated statement of profit or loss
- Translation to euros of the financial statements of the subsidiaries whose functional currency is not the euro:
 - Assets and liabilities are translated by applying the exchange rates prevailing at the closing date.
 - Income, expenses and cash flows are translated at the average exchange rates for the year.
 - Equity is translated at the historical exchange rates.
 - Exchange differences arising as a consequence of the application of this method are presented under "Equity Attributable to Shareholders of the Parent Translation Differences" in the accompanying consolidated statement of financial position.
 - The effect of exchange rate changes on cash and cash equivalents denominated in foreign currency is presented separately in the consolidated statement of cash flows under "Effect of Foreign Exchange Rate Changes".

The detail of the equivalent euro value of the main assets in foreign currency held by the Group at 31 December 2021 and 2020 is as follows (in thousands of euros):

Balances held in:	Foreign currency:	31/12/2021	31/12/2020
110 5 11	High	426 126	105.515

Chinese Yuan	CNY	7.64	7.21	7.87	7.96

Since 2018 to the present day, the Argentine economy was deemed to be hyperinflationary in the terms defined in IAS 29 and, therefore, the financial statements of those companies whose functional currency is the currency of a hyperinflationary economy had to be restated and updated according to local price indices, and presented in terms of the measuring unit current at the end of the reporting period. This standard was applied from 1 January 2018.

Also, in accordance with IAS 21.42, the results and financial position (i.e. assets, liabilities, equity items, income and expenses) of the Argentine subsidiaries are translated into the Group's presentation currency (euro) at the closing rate.

In 2021 an impact arose against reserves arising from the difference, amounting to approximately EUR 1,623 thousand positive between the value of the equity reported at the end of the previous year and the restated value for the same year of the Argentine subsidiaries (2020: EUR 1,852 thousand positive).

As per the application of IAS 29 and IAS 21, the statement of profit or loss has been impacted by a higher financial expense in 2021 of EUR 669 thousand (2020: EUR 1,078 thousand) under "Financial Profit / (Loss) - Gains or Losses on the Net Monetary Position" (see Note 22).

p) Corporate income tax, deferred tax assets and deferred tax liabilities

Tax expense (tax income) comprises current tax expense (current tax income) and deferred tax expense (deferred tax income).

The current corporate income tax expense is the amount payable by the Group as a result of corporate income tax settlements for a given year. Tax credits and other tax benefits, excluding tax withholdings and prepayments, and tax loss carryforwards from prior years effectively offset in the current year reduce the current corporate income tax expense.

The deferred tax expense or income relates to the recognition and derecognition of deferred tax assets and liabilities. These include temporary differences measured at the amount expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities and their tax bases, and tax loss and tax credit carryforwards. These amounts are measured at the corporate tax rates that are expected to apply in the period when the asset is realised or the liability is settled.

Deferred tax liabilities are recognised for all taxable temporary differences, except for those associated with investments in subsidiaries, branches and associates, or with a share in a joint venture, when the Group can control when to revert the temporary difference and it is considered probable that it will not be reverted in the foreseeable future. At the end of 2021 and 2020, no deferred tax liabilities had been recognised in accordance with IAS 12.39, since the Group controls the timing of the reversal of such temporary differences and the temporary difference is unlikely to be reversed in the foreseeable future, or because these liabilities are not significant due to the Group's policy of repatriating the dividends of subsidiaries, branches and associates.

Deferred tax assets are recognised for temporary differences, tax credits for tax losses carry forwards and other tax credits, are only recognised if it is considered probable that the consolidated companies will have sufficient future taxable profits against which they can be utilised.

The deferred tax assets recognised are analysed at the end of each reporting period and the appropriate adjustments are made to the extent that there are doubts as to their future recoverability. Also, unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that they will be recovered through future taxable profits.

Certain Group companies with registered office in Spain file consolidated tax returns as part of Income Tax group 238/08 and VAT group 0036/11 of which Applus Services, S.A. is the Parent.

The Group also files consolidated tax returns in other countries such as the Netherlands, Australia, the US and Germany.

q) Revenue recognition

In general, the Group recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

Certain contracts such as non-destructive testing or engineering and consultancy contracts are performed as projects that envisage the use of labour and/or materials to provide one or more services requested by the customer and give rise to one or more performance obligations. To the extent that these performance obligations can be distinguished in accordance with the criteria defined in IFRS 15, revenue is recognised when (or as) each performance obligation is satisfied on the basis of the costs incurred relative to total costs (input method) through the recognition of "projects in progress to be billed" (contract assets) to the extent that there is an enforceable right to payment for performance completed to date. Also, these contracts may include billings for milestones based on the satisfaction of the performance obligations, although no significant differences were identified between the price determined for each milestone and its fair value.

Additionally, revenue relating to supplier inspections, vehicle roadworthiness testing services and certifications, inter alia, is identified as arising from services provided for which there is a single performance obligation that is satisfied at a specific point in time, the price of which is determined in the contracts with customers. In general, therefore, the recognition of revenue from these activities is not complex and occurs when the aforementioned performance obligation is satisfied.

No costs incurred in winning contracts with customers were capitalised in 2021 and 2020 as the related amounts were not material.

r) Expense recognition

An expense is recognised in the consolidated statement of profit or loss when there is a decrease in the future economic benefit related to a reduction of an asset or an increase in a liability, which can be measured reliably. This means that an expense is recognised simultaneously to the increase of a liability or the reduction of an asset.

An expense is recognised immediately when a disbursement does not give rise to future economic benefits or when the requirements for recognition as an asset are not met.

Also, an expense is recognised when a liability is incurred and no asset is recognised, as in the case of a liability relating to a guarantee.

s) Discontinued operations

A discontinued operation is a business segment that has been decided to be abandoned and/or disposed of in full whose assets, liabilities and net profit or loss can be distinguished physically, operationally and for financial reporting purposes.

Pursuant to IFRS 5, the revenue and expenses of discontinued operations are presented separately in the consolidated statement of profit or loss and the net assets and net liabilities are presented separately in consolidated current assets and consolidated current liabilities, respectively, for the current period only.

The Group did not interrupt nor discontinue any significant operation in 2021 or 2020.

t) Segment information

The Parent's Directors considered the following four operating segments and one Holding in these consolidated financial statements of the Applus Group: Applus+ Energy & Industry, Applus+ Laboratories, Applus+ Automotive, Applus+ IDIADA and Other.

The Parent's Directors identified the operating segments of the Applus Group based on the following criteria:

- They engage in business activities from which they may earn revenue and incur expenses (including revenue and expenses relating to transactions with other components of the same group),
- Their operating results are regularly reviewed by Senior Executives, which takes the operating and management decisions relating to the group in order to decide about resources to be allocated to the segment and to assess its performance; and
- Discrete financial information is available.

The considerations used to identify the operating segments comply with IFRS 8.

u) Consolidated statement of cash flows

The following terms are used in the consolidated statements of cash flows:

- Cash flows: inflows and outflows of cash and equivalent financial assets, which are short-term, highly liquid investments that are subject to an insignificant risk of changes in value.
- Operating activities: the Group's principal revenue-producing activities and other activities that are not investing or financing activities.
- Investing activities: the acquisition and disposal of non-current assets and other investments not included in cash and cash equivalents.
- Financing activities: activities that result in changes in the size and composition of the equity and borrowings of the Group companies that are not operating activities.
- Effect of foreign exchange rate changes: effect of foreign exchange rate changes on cash and cash equivalents.

v) Equity

The share capital is represented by ordinary shares.

The costs relating to the issuance of new shares or options, net of taxes, are recognised directly in equity as a reduction of reserves.

Dividends on ordinary shares are recognised as a decrease in equity when approved by the shareholders of the Parent.

w) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to the Parent by the weighted average number of ordinary shares outstanding in the year, excluding the number of shares held by the Parent.

Diluted earnings per share are calculated by dividing net profit or loss attributable to ordinary shareholders adjusted by the effect attributable to the dilutive potential ordinary shares by the weighted average number of ordinary shares outstanding during the year, adjusted by the weighted average number of ordinary shares that would have been outstanding assuming the conversion of all the potential ordinary shares into ordinary shares of the Parent. For these purposes, it is considered that the shares are converted at the beginning of the year or at the date of issue of the potential ordinary shares, if the latter were issued during the current year.

x) Treasury shares

Acquisitions of treasury shares are recognised at acquisition cost, reducing equity until they are sold. The gains and losses obtained on the disposal of treasury shares are recognised in "Consolidated reserves" in the accompanying consolidated statement of financial position.

4. Goodwill

The detail, by cash-generating unit, of the goodwill at the end of 2021 and 2020 is as follows:

Cash-generating unit	Thousands	of Euros
	31/12/2021	31/12/2020
Auto Spain (*)	179,374	179,374
Energy & Industry Northern Europe	83,921	83,868
Energy & Industry North America	69,630	65,363
IDIADA	23,385	29,627
Energy & Industry Seameap	62,022	33,707
Laboratories	155,554	144,248
Auto Finisterre (*)	17,929	22,929
Energy & Industry Latin America	12,614	13,893
Energy & Industry Spain	30,379	11,564
Auto Denmark	6,843	6,843
Auto US (*)	6,141	6,141
Auto Sweden	76,754	76,754
Other	1,243	1,258
Total goodwill	725,789	675,569

^(*) Includes the aggregate business of various concessions and administrative authorisations (see Notes 3.b and 5).

The changes in 2021 and 2020 were as follows:

	Thousands of Euros
Balance at 1 January 2020	609,245
Changes in the scope of consolidation (Note 2.b.e.3.)	161,273
Impairment	(84,183)
Other changes	(2,000)
Translation differences	(8,766)
Balance at 31 December 2020	675,569
Changes in the scope of consolidation (Note 2.b.e.1.)	52,697
Impairment	-
Other changes	(11,500)
Translation differences	9,023
Balance at 31 December 2021	725,789

The main changes in the scope of consolidation in 2021 relate to the acquisition of the companies Adícora Servicios de Intermediación de Ingeniería, S.L.U., Ingeniería, Estudio y Construcciones, S.A.U., IMA Materialforschung und Anwendungstechnik GmbH, WIAM GmbH, SWM Struktur - und Werkstoffmechanikforschung Dresden gemeinnützige GmbH, Soil and Foundation Company Limited, Geotechnical and Environmental Company Limited, Soil and Foundation Company Limited Egypt, Enertis Solar, S.L.U., Enertis UK Limited, Enertis Solar, Inc., Enertis Mexico S.A. de C.V., Enertis Colombia S.A.S., Enertis Chile, SpA, Enertis S.A.S., Enertis South Africa (PTY) and Ltd and Enertis AM Chile, SpA (see Note 2.b.e.1.1.).

The main changes in the scope of consolidation in 2020 related to the acquisition of the companies Iteuve Canarias, S.L., Iteuve Canarias XXI, S.L., Iteuve Canarias Aeropuerto el Matorral, S.L., ZYX Metrology, S.L.U., Reliable Analysis, Inc. Shanghai Reliable Auto Analysis Testing, Ltd., Liuzhou Reliable Auto Analysis Testing, Ltd., Shanghai Reliable Testing Technology, Ltd., Besikta Bilprovning i Sverige Holding AB, Besikta Bilprovning i Sverige AB, ClearCar AB, QPS Evaluation Services, Inc., QPS America, Inc. and QPS Europe, B.V. (see Note 2.b.e.3.1.).

As indicated in Note 2.a.c, the Group re-estimated the recoverable amount of the non-current assets of certain cash-generating units which include the associated goodwill in 2020. Consequently, the Group recognised in June 2020 an impairment loss of EUR 84,183 thousand under "Impairment and gains and losses on disposals of non-current assets" in the accompanying consolidated statement of profit or loss in relation to the cash-generating units of IDIADA, Energy & Industry Northern Europe and Energy & Industry North America, amounting to EUR 27,870 thousand, EUR 19,123 thousand and EUR 37,190 thousand, respectively. At 2021 and 2020 year-end the Group Management updated the impairment tests for each CGU, which did not give rise to a need to recognise any additional impairment losses. The main assumptions of the impairment tests conducted are detailed in Note 6.

Since the Group has various concessions with a finite useful life and according to the business plan, in order to ensure that at the end of the concession term the carrying amount of the assets is zero, during 2021 the Group has recognised a write-down of EUR 11,500 thousand on goodwill under "Impairment and gains and losses on disposals of non-current assets" in the accompanying consolidated statement of profit or loss in relation to the goodwill of IDIADA and Auto Finisterre cash-generating units, as shown under "Other Changes" in the foregoing table.

Lastly, in 2021 the Group has completed the accounting of the QPS Evaluation Services, Inc. business combination (see Note 2.a.b.). Derived from this fact, the goodwill at 31 December 2020 has increased in EUR 10,113 thousand.

5. Other intangible assets

The changes in 2021 and 2020 in intangible asset accounts and in the related accumulated amortisation and impairment losses were as follows:

			2021 - 7	Γhousands of E	luros

Identification and measurement of intangible assets in business combinations

The initial fair value of the intangible assets identified in the different business combinations of Applus Group are as follows:

	Thousand	s of Euros
	31/12/2021	31/12/2020
Administrative authorisations	259,910	259,910
Trademarks	287,519	286,008
Administrative concessions	193,510	193,510
Customer portfolio	201,861	172,440
Rights of use	57,516	57,516
Trademark licence agreement	16,939	16,939
Acreditations	58,002	45,593
Databases	273	273
Total allocation of goodwill to assets	1,075,530	1,032,189

In 2021, the amortisation charge associated with these revalued assets recognised in the accompanying consolidated statement of profit or loss amounted to EUR 54,060 thousand (2020: EUR 58,394 thousand).

The calculation methods used to measure at fair value the assets identified in the business combinations were as follows:

- The Income Approach method and specifically the Multi-Period Excess Earnings method, whereby the value of the asset is the present value of the projected flows from that asset over the useful life assigned to the related contract, was used to calculate the fair value of administrative authorisations.
- The Royalty Relief method, whereby the value of the asset is the present value of future royalty income from the use of the trademarks by the licensees, was used to calculate the value of the trademarks and trademark licence agreements.
- In order to measure the fair value of the accreditations and awards, the Income Approach, and more specifically the Multi-Period Excess Earnings method, was considered, and the economic benefits attributable to these intangible assets were projected over their years of estimated useful life.
- The Income Approach and specifically the Multi-Period Excess Earnings method, taking into account the useful lives of the customers and the discounted revenue they account for was used to calculate the value of the customer portfolios.
- The Income Approach and specifically the Multi-Period Excess Earnings method, whereby the value of the asset is the present value of the projected flows over the useful life assigned to the related contract, was used to calculate the fair value of administrative concessions and rights of use. The possibility of contract renewals for cash-generating units with finite lives was not considered.

The main intangible assets are as follows:

- Administrative authorisations and concessions:

The administrative authorisations relate to vehicle roadworthiness testing services, managed solely by the Group, in Spain (Catalonia) and Finland. In the case of Catalonia the cost of the authorisation is depreciated over its useful life until 2035 (see Note 27.b). In the case of Finland, although the administrative authorisation has an indefinite useful life, it is estimated that the economic value of this authorisation will be recovered in ten years and, therefore, it is being amortised over this period, until 2020.

Administrative concessions include mainly the operating rights for vehicle roadworthiness testing facilities for a specified period of time. At 31 December 2021 the Applus Group was managing various administrative concessions relating to vehicle roadworthiness testing services, mainly in the US, Spain (Alicante, Aragon, Galicia and the Basque Country), Ireland, Argentina, Chile, Ecuador, Uruguay and Costa Rica. These administrative concessions, which are amortised on the basis of their useful life, expire on various dates until 2030.

Each concession or authorisation is granted through tender specifications or a regulatory agreement. A tender specification or agreement is commonly used for each Autonomous Community in the case of Spain, or at state level in the case of the US.

For the specific case of the CGUs of Auto Spain and Auto US, even though intangible assets classified, on an individual basis, as concessions and administrative authorisations subject to impairment tests measured individually (based on Autonomous Community in Spain, and on states in the United States, respectively), the business synergies relating to the different concessions and authorisations in both countries are also taken into account. In this regard, the goodwill is allocated to the smallest identifiable group of assets that generates cash inflows that are independent of the cash inflows from other assets since, in the Applus+Automotive segment, geographical location is taken into account as the main factor for determining CGUs, since geographical areas involve the same applicable legislation and regulations in a regulated industry, a common currency and macroeconomic variables that are closely linked to the capacity to generate economic flows and, therefore, to growth capacity. In addition, all of the authorisations and concessions managed in the various countries are unified under one single management. The purpose of this unified management is, inter alia, to manage the various risks and relationships with regulators more efficiently and in a more coordinated manner.

- Patents, licences and trademarks:

"Patents, licences and trademarks" includes the Applus, RTD, Velosi, Besikta and IMA trademarks. The five trademarks are considered to have a finite useful life. The first two are being amortised over 25 years, the Velosi and IMA trademarks are being amortised over 10 years and the Besikta trademark over 20 years. The Velosi trademark licence agreement is also being amortised over 10 years.

- Customer portfolio:

The customer portfolio relates to the value of the various contracts entered into by the various Group companies or to customer relationships whose useful life is defined based on historical statistical evidence of the average relationship length. The contracts are being amortised over the estimated useful life between 2 and 25 years.

- Accreditations and awards:

The accreditations relate mainly to the acquiree QPS Evaluation Services, Inc. and were granted by various US, Canadian and European public institutions for the purpose of performing trials in accordance with the pertinent standards. They are amortised over a period of ten years, based on the years of estimated useful life of the accreditations. The awards relate to the Reliable Analysis, Inc. business that was acquired and were granted by various car manufacturers to a small group of companies authorised to test the quality of the components of the suppliers of those manufacturers. IMA's accreditations relate to the railway and aerospace industries. They are amortised over the estimated useful life of these intangible assets (from 7 to 10 years).

Asset usage rights:

These include mainly the carrying amounts of the usage rights transferred by Laboratori General d'Assaig i Investigació (now the Catalonia Autonomous Community Government) on the incorporation of LGAI Technological Center, S.A. and the carrying amount of the assets assigned by Institut d'Investigació Aplicada de l'Automòbil (now the Catalonia Autonomous Community Government) to IDIADA Automotive Technology, S.A., relating basically to machinery and other fixtures. These usage rights are amortised considering the useful life of the assets and the estimated useful life of the licensing agreements.

Intangible assets by cash-generating unit

The detail, by cash-generating unit, of the intangible assets at year-end 2021 and 2020 are as follows:

Impairment of intangible assets

As indicated in Note 2.a.c, in 2020, the Group recognised impairment losses on intangible assets relating to trademarks and customer portfolios recognised in the allocation of the prices paid in business combinations performed in prior years amounting to EUR 66,995 thousand. This impact was recognised under "Impairment and gains or losses on disposals of non-current assets" in the accompanying consolidated statement of profit or loss.

When recognising these impairment losses, the Directors took into account the current degree of inclusion at the moment of the trademarks recognised as intangible assets in prior years within the Applus Group, as well as the impairment of certain customer portfolios recognised as intangible assets in prior years.

At 31 December 2021, the Parent's Directors considered that there were no significant indications of impairment of any of the cash-generating units and, therefore, no significant asset impairment losses were recognised or reversed in 2021, except for the goodwill reductions for those concessions with finite useful life described in Note 4.

The main assumptions used in the impairment tests are detailed in Note 6.

39

Other matters

At 31 December 2021, fully amortised intangible assets in use amounted to EUR 103,537 thousand (31 December 2020: EUR 100,137 thousand). The Group did not have any temporarily idle items at 31 December 2021 or 2020.

At 31 December 2021 and 2020, the Group had no material firm intangible asset purchase commitments.

Certain Group companies have intangible assets that must be handed over to the Government at the end of the related concession terms or at the end of the existing contract, without considering those arisen from the business combination. The detail of the carrying amount of the assets subject to reversion at 31 December 2021 and 2020 is as follows:

6. Impairment of assets

The method used by the Group to test impairment makes a distinction between assets/cash-generating units (CGUs) with indefinite and finite lives. Projections with a five-year horizon and a perpetual return from the sixth year onwards are mainly used for businesses with indefinite lives. Projections adjusted to the actual duration of the arrangement are used for assets related to the performance of services or concessions with a finite useful life.

In both cases, the projections are based on reasonable and well-founded assumptions, which were prepared in accordance with the Applus+ Group's business plan on the basis of past experience and of the best estimates available at the date of the related impairment tests based on the evolution of organic revenue and occasionally improvements in margins that the Management of the Parent projects for the coming years. As a result, the projections and impairment tests do not take into account possible acquisitions or mergers that might occur in the future.

In accordance with IAS 36, the Recoverable Amount of the Group's CGUs was estimated based on the Value in Use

The Value in Use by CGU has been determined based on the present value of the cash flows that will foreseeably be generated in the future. For this purpose, the discounted free cash flow ("DCF") method was applied based on the projections expressed in the currency in which each CGU operates.

The DCF method discounts the present value of the future free cash flows at a discount rate (weighted average cost of capital or "WACC") which reflects the time value of money and the risks associated with the aforementioned expected cash flows.

Impairment test main assumptions

The key assumptions to determine fair value that were used to test for impairment in 2021 and 2020 were as follows:

a) Perpetuity growth rate:

To calculate the terminal value, the value of the CGU must be estimated using the going concern basis of accounting. For this purpose, the Group applies the "Gordon-Shapiro" model, which estimates the residual value as a sustainable, perpetual return with a constant growth rate. The growth envisaged in each industry in the geographical area in which the Group operates will foreseeably be very similar to the expected growth rate in that geographical area, given that the industries in which it operates correspond to the base industries that are most representative of each geographical area and which largely determine the area's performance. The data were obtained from the long-term inflation forecasts.

b) Discount rate:

The WACC method was used to calculate the discount rates, based on the following assumptions:

- The time value of money or risk-free rate of each country or geographical area (weighted average of the main countries in which the Group operates in those geographical areas), which is based on the yield of ten-year sovereign bonds in the respective country (or the weighted average of the geographical area).
- The estimated risk premium, considering the estimated betas of comparable companies in the industries and a market risk premium for each country, which are observable variables both after taxes.
- The average financing structures and conditions of comparable companies in the industry.

The detail of the discount rate ("WACC") and of the perpetuity growth rate in 2021 and 2020 by business and geographical area is as follows:

	2021		2020		
		Perpetuity growth		Perpetuity growth

c) Income and expense projections:

The Group Management prepares and updates a Business Plan by geography and line of business. The main components of this plan are projections on operating income and expenses, investments and working capital. The Business Plan includes the 2022 budget approved by the Board of Directors of the Parent Company together with the expectations integrated in Strategic Plan for 2022-2024 and for the following years.

In order to calculate the recoverable amount of each asset the present value of its cash flows was determined using the budget for 2022 and the Business Plan for the next years prepared by the Group Management.

The Business Plan and the projections of future periods were prepared on the basis of past experience and on the best estimates available. Consequently, revenue and margins reflect best estimates available on the expected trends in the industries in which the Applus Group is present.

The Group Management performs an impairment test on the cash-generating units for which there are no indications of impairment during 2021. The projections for the next five years are based on the Strategic Plan for 2022-2024 and future years, alongside with best estimates of cash flows for each business, considering the gradual recovery of activity and the evolution of the pandemic in each business and geographical area.

In 2020, derived from the COVID-19 crisis, the Group reviewed the five-year projections for each CGUs based on the best available information and identified the need to recognise an impairment loss for those most exposed to the oil and gas and automotive industries. The negative effect of the situation of the oil and gas market in the revised estimates of the Energy & Industry CGUs, and the stop of activity at world level due to COVID-19 crisis reduced the revenue and profitability projected for the coming years, which resulted in a reduction in the estimated recoverable amount of the CGUs of Energy & Industry North America and Energy & Industry Northern Europe. As a consequence, the Group recognised in 2020 impairment losses of EUR 37,190 thousand and EUR 19,123 thousand, respectively, on the goodwill associated with the two CGUs (see Note 4).

Lastly, when determining the recoverable amount of the IDIADA CGU, the Directors also considered a decrease in envisaged revenue and profitability as a consequence of the decrease in design, engineering, testing and certification services provided to the automotive industry as a result of the mobility restrictions due to the COVID-19 crisis. As a consequence, the Directors estimated that recovery is uncertain in the term of the agreement within which this division currently operates and which expires in September 2024. As a consequence, the Group recognised in 2020 impairment losses of EUR 27,870 thousand on the goodwill associated with this CGU (see Note 4).

Sensitivity analysis

The maximum buffer of the key assumptions (percentage decrease in EBITDA, increase in WACC before tax and changes in the perpetuity growth rate) that would make the carrying amount equal to the recoverable amount, based on the impairment tests performed at the end of 2021, is as follows:

Cash-generating unit	Cash Flows reduction	WACC before taxes	Perpetuity growth rate ("g")
Auto Spain	21.4%	12.9%	<0%
Auto Finisterre	52.6%	49.6%	<0%
Auto Denmark	64.4%	24.1%	<0%
Auto Finland	67.7%	26.3%	<0%
Auto USA	71.6%	30.3%	<0%
Auto Sweden	50.9%	13.2%	<0%
Energy & Industry Northern Europe	23.2%	12.6%	<0%
Energy & Industry North America	13.2%	10.2%	0.1%
Energy & Industry Seameap	45.6%	23.8%	<0%
Energy & Industry Spain	32.5%	16.9%	<0%
Energy & Industry Latin America	16.8%	18.3%	<0%
IDIADA	6.4%	16.9%	<0%
Laboratories	29.2%	13.4%	<0%

The Parent's Directors consider that, in view of the existing buffers in 2021 as compared with the values used in prior year tests, a possible future negative impact on the Group's activities would not significantly affect the impairment of the net assets associated with the CGUs.

7. Property, plant and equipment

The changes in 2021 and 2020 in the various property, plant and equipment accounts and in the related accumulated depreciation and provision were as follows:

			2021	- Thousands of E	Euros		
	Balance at 1 January 2021	Changes in the scope of consolidation	Additions or charge for the year	Disposals or reductions	Transfers	Changes in exchange rates and other	Balance at 31 December 2021
Cost:							
Land and buildings	158,323	8,465	4,617	(3,242)	3,095	2,077	173,335
Plant and machinery	349,843	54,638	22,923	(6,815)	7,780	9,427	437,796
Other fixtures, tools and furniture	83,320	2,893	3,270	(951)	1,210	610	90,352
Other items of property, plant and equipment	66,604	8,075	3,823	(13,418)	(73)	2,491	67,502

Other fixtures, tools and furniture	(61,053)	(2,567)	(3,724)	734	(194)	(609)	(67,413)
Other items of property, plant and equipment	(61,581)	(6,383)	(4,044)	9,392	287	(1,989)	(64,318)
Total accumulated depreciation	(437,441)	(56,402)	(42,179)	16,788	1,852	(11,032)	(528,414)
Total impairment	(3,902)	-	(1,750)	889	-	(77)	(4,840)
Total net value	232,578	17,995	9,513	(7,992)	(2,955)	4,635	253,774

		2020 – Thousands of Euros					
	Balance at 1 January 2020	Changes in the scope of consolidation	Additions or charge for the year	Disposals or reductions	Transfers	Changes in exchange rates and other	Balance at 31 December 2020
Cost:							
Land and buildings	162,309	4,363	3,960	(7,437)	(162)	(4,710)	158,323
Plant and machinery	329,408	34,369	16,882	(24,836)	203	(6,183)	349,843
Other fixtures, tools and furniture	82,149	859	3,594	(2,176)	(109)	(997)	83,320
Other items of property, plant and equipment	76,890	600	4,872	(7,157)	(2,923)	(5,678)	66,604
Advances and property, plant and equipment in progress	14,164	138	15,751	(124)	(11,546)	(733)	17,650
Grants	(1,036)	-	8	(791)	-	-	(1,819)
Total cost	663,884	40,329	45,067	(42,521)	(14,537)	(18,301)	673,921
Accumulated depreciation:							
Land and buildings	(70,719)	(724)	(5,913)	3,341	2,545	1,318	(70,152)
Plant and machinery	(233,468)	(22,259)	(23,198)	21,350	8,676	4,244	(244,655)
Other fixtures, tools and furniture	(60,948)	(554)	(3,163)	2,075	691	846	(61,053)
Other items of property, plant and equipment	(67,534)	(414)	(5,717)	6,378	2,335	3,371	(61,581)
Total accumulated depreciation	(432,669)	(23,951)	(37,991)	33,144	14,247	9,779	(437,441)
Total impairment	(4,481)	-	(150)	625		104	(3,902)
Total net value	226,734	16,378	6,926	(8,752)	(290)	(8,418)	232,578

In 2021 the additions are related to the Group's normal course of operations.

The gross value of fully depreciated items of property, plant and equipment in use at 31 December 2021 amounted to EUR 292,044 thousand (31 December 2020: EUR 274,167 thousand). The Group did not have any temporarily idle items at 31 December 2021 nor 2020.

The Group has taken out insurance policies to cover the possible risks to which its property, plant and equipment are subject and the claims that might be filed against it for carrying on its business activities. These policies are considered to adequately cover the related risks.

At 31 December 2021 and 2020, the Group did not have any significant firm property, plant and equipment purchase commitments.

No borrowing costs had been capitalised to property, plant and equipment at the end of 2021 and 2020 and no disbursements made or advances granted at 31 December 2021 or 2020.

Some Group companies have property, plant and equipment that must be handed over to the Government at the end of the related concession term or at the end of the applicable agreement pursuant to the terms and conditions thereof. The detail of the net cost of the assets subject to this reversion at 31 December 2021 and 2020 is as follows:

	2021 - Thousands of Euros			
	Gross cost	Net Cost		
IDIADA Automotive Technology, S.A.	91,957	(57,883)	34,074	
Applus Iteuve Technology, S.L.U.	47,070	(41,401)	5,669	
Applus Iteuve Euskadi, S.A.U.	2,718	(2,365)	353	
Total	141,745	(101,649)	40,096	

	2020 - Thousands of Euros			
	Gross cost	Accumulated depreciation/ Impairment	Net Cost	
IDIADA Automotive Technology, S.A.	80,748	(48,241)	32,507	
Applus Iteuve Technology, S.L.U.	44,720	(41,263)	3,457	
Applus Iteuve Euskadi, S.A.U.	2,377	(2,113)	264	
Total	127,845	(91,617)	36,228	

At 31 December 2021 and 2020, no significant property, plant and equipment were subject to restrictions or pledged as security for liabilities.

8. Non-current financial assets

The changes in the various non-current financial asset accounts in 2021 and 2020 have been as follows:

		2021 – Thousands of Euros				
	Balance at 1 January 2021	Additions or charge for the year	Disposals, transfers or dividend distribution	Change in exchange rate	Balance at 31 December 2021	
Non-current receivables Deposits and guarantees Impairment	19,918 9,571 (14,519)	1,889 - -	778 1,820 (2,859)	1,278 149 (332)	23,863 11,540 (17,710)	
Total	14,970	1,889	(261)	1,095	17,693	

	2020 – Thousands of Euros				
	Balance at 1 January 2020	Additions or charge for the year	Disposals, transfers or dividend distribution	Change in exchange rate	Balance at 31 December 2020
Non-current receivables Deposits and guarantees Impairment	20,398 9,605 (3)	1,842 2,381 (14,967)	(673) (1,761)	(1,649) (654) 451	19,918 9,571 (14,519)
Total	30,000	(10,744)	(2,434)	(1,852)	14,970

The aforementioned financial assets are measured at amortised cost as indicated in Note 3.e.

In 2020, the Group re-estimated the recoverable value of the credits granted to third parties and registered an impairment amounting to EUR 13,577 thousand under "Impairment and gains or losses on disposals of non-current assets" in the accompanying consolidated statement of profit or loss.

Deposits and guarantees

At 31 December 2021, "Deposits and Guarantees" included EUR 7.9 million (2020: EUR 6.1 million) relating to restricted cash deposits to secure certain contracts entered into.

9. Inventories

The detail of the Group's inventories at 31 December 2021 and 2020 is as follows:

	Thousand	ds of Euros	
	31/12/2021 31/12/2020		
Goods held for resale	10,814	8,454	
Raw materials and other supplies	426	460	
Total inventories	11,240	8,914	

These inventories relate mainly to X-Ray material used in non-destructive testing by the Energy & Industry division, reagents, fungibles and chemical compounds used in laboratory or field tests by the Laboratories division and spare parts and items used at the vehicle roadworthiness testing centres of the Automotive division.

The Group estimates that the inventories will be realised in less than twelve months.

The Group does not recognise any inventory write-downs since inventories are derecognised when they are defective or obsolete.

10. Trade receivables for sales and services, trade receivables from related companies and other receivables

The detail of these current asset headings in the accompanying consolidated statement of financial position as at 31 December 2021 and 2020 is as follows:

	Thousand	ds of Euros
	31/12/2021	31/12/2020
Trade receivables for sales and services	301,152	248,676
Work in progress	110,195	95,721
Provision for doubtful debts	(18,249)	(23,027)
Trade receivables for sales and services	393,098	321,370
Trade receivables from related companies (Note 28)	221	253
Other receivables	19,427	14,825
Other accounts receivable from public authorities	6,551	4,679
Total trade and other receivables	419,297	341,127

The Group's average collection period for services rendered is 54 days in 2021 (2020: 51 days).

The Group does not charge interest on receivables maturing within one year. The fair value and the nominal value of these assets do not differ significantly.

The detail of the age of the debt under "Trade receivables for sales and services" is as follows:

	Thousands of Euros	
	31/12/2021	31/12/2020
Not due	212,366	170,122
0-30 days	38,160	31,089
31-90 days	20,580	17,002
91-180 days	11,433	8,303
181-360 days	9,251	7,310
More than 360 days	9,362	14,850
Total trade receivables for sales and services	301,152	248,676
Provision for doubtful debts	(18,249)	(23,027)
Total trade receivables for sales and services, net	282,903	225,649

As indicated in Note 3.q in relation to the recognition of revenue from contracts with customers (IFRS 15), for contracts in which performance obligations are measured over time, the difference between the revenue recognised for services rendered and the amounts actually billed to the customer is analysed systematically on a contract-by-contract basis. If the amount billed is lower than the revenue recognised, the difference is recognised as an asset under "Trade receivables for sales and services - Amounts to be billed for projects in progress" for amounts which the Parent's Directors consider are reasonably certain to be ultimately billed, whereas if the amount of revenue recognised is lower than the amount billed, a liability is recognised under "Trade and other payables" (see Note 19). In 2021 there were no significant changes in the aforementioned line items as a result of business combinations or significant adjustments to the measurement of the stage of completion, transaction prices or the contracts that would have a significant impact on the revenue recognised in the year.

Credit risk

The Group's main financial assets are cash and cash equivalents, trade and other receivables and investments, which represent the Group's maximum exposure to credit risk in relation to its financial assets.

The Group's credit risk is therefore mainly attributable to its trade receivables. The amounts presented in the consolidated statement of financial position are net of allowances for doubtful debts, estimated by Group Management based on prior experience and its assessment of the current economic environment.

The Group does not have a significant concentration of credit risk, with exposure spread over a large number of customers, divisions, markets and geographical areas.

However, the Group's Finance Management considers credit risk to be key to day-to-day management of the business and focuses its efforts on controlling and supervising receivables and doubtful debts.

The Group has established a customer acceptance policy based on the periodic evaluation of liquidity and solvency risks and the establishment of credit limits for its debtors. The Group also periodically analyses the age of its trade receivables in order to cover possible bad debts.

The changes in "Allowance for Doubtful Debts", in accordance with the expected credit loss model, in 2021 and 2020 were as follows:

	Thousands of Euros
Balance at 1 January 2020	24,833
Additions	7,542
Amounts used	(2,298)
Disposals	(5,040)
Effect of exchange rate changes	(2,010)
Balance at 31 December 2020	23,027
Additions	5,483
Amounts used	(4,052)
Disposals	(7,149)
Effect of exchange rate changes	940
Balance at 31 December 2021	18,249

11. Current financial assets, cash and cash equivalents

Current financial assets

At 31 December 2021 the amount included as short-term deposits and guarantees amounting to EUR 2,635 thousand (31 December 2020: EUR 1,769 thousand) and other financial assets of EUR 3,751 thousand (31 December 2020: EUR 829 thousand), whose conversion to cash is expected to be within 12 months.

Cash and cash equivalents

At 31 December 2021 and 2020, the amount classified as "Cash and Cash Equivalents" in the accompanying consolidated statement of financial position related in full to cash, and to financial assets readily convertible into known amounts of cash subject to an insignificant risk of change in value and maturity less than 3 months.

The aforementioned financial assets are measured at amortised cost as indicated in Note 3.e.

12. Equity

a) Share capital

At 31 December 2016, the Parent's share capital was represented by 130,016,755 fully subscribed and paid-up common shares of EUR 0.10 par value each.

On 28 September 2017, the Parent's share capital was increased by EUR 1,300 thousand through the creation of 13,001,675 new shares of EUR 0.10 par value each and with a share premium of EUR 135,866 thousand at

EUR 10.45 per share. The capital increase was carried out by means of monetary contributions for the full amount which totalled EUR 137,166 thousand.

The expenses incurred in relation to the capital increase carried out in 2017 amounted to EUR 1,717 thousand, net of the tax effect, and were recognised with a charge to reserves.

Therefore, at 31 December 2021 and 2020, the Parent's share capital is represented by 143,018,430 fully subscribed and paid-up common shares of EUR 0.10 par value each.

As per the notifications submitted to the Spanish National Securities Market (CNMV), the shareholders owning significant direct or indirect interests in the share capital of the Parent representing more than 3% of the total share capital as of 31 December 2021, were as follows:

	% share
Southeastern Asset Management Inc	5.15%
River & Mercantile Group PLC	5.05%
Threadneedle Asset Management Limited	3.09%
Harris Associates LP	3.03%
Invesco Ltd	3.02%

The Parent's Directors are not aware of any other ownership interests of 3% or more of the share capital or voting rights of the Parents, or of any lower ownership interests that might permit the holder to exercise a significant influence over the Parent.

b) Reserves and share premium

Under the Spanish Companies Act, 10% of net profit for each year must be allocated to the legal reserve until the balance of this reserve reaches at least 20% of the share capital. The legal reserve can be used to increase capital provided that the remaining reserve balance does not fall below 10% of the increased share capital amount, except for that, and until the legal reserve exceeds 20% of share capital, it can only be used to offset losses, provided that sufficient other reserves are not available for this purpose.

At the end of 2021 the balance of this reserve amounts to EUR 2,860 thousand and it had reached the legally required minimum (same amount at the end of 2020).

At 31 December 2021 and 2020, the share premium reserves amounted to EUR 449,391 thousand and it is fully available.

The Spanish Companies Act allows the use of the share premium reserves balance to increase capital and it does not establish specific restrictions on the availability of that balance.

c) Treasury shares

At 31 December 2021, the Group held a total of 408,098 treasury shares at an average cost of EUR 8.40 per share. The value of these treasury shares totalled EUR 3,427 thousand, which is recognised under "Treasury Shares" in the accompanying consolidated statement of financial position as at 31 December 2021 (see Note 3.x).

At 31 December 2020, the Group held a total of 317,809 treasury shares at an average cost of EUR 8.38 per share. The value of these treasury shares totalled EUR 2,664 thousand, which is recognised under "Treasury Shares" in the accompanying consolidated statement of financial position as at December 2020 (see Note 3.x).

In February and March 2021 the Group delivered to the Executive Directors, Senior Executives and certain executives a total of 159,711 shares (226,040 shares during 2020), in accordance with the new incentive plan granted (see Note 29).

d) Profit per share

The profit per share is calculated on the basis of the profit attributable to the shareholders of the Parent divided by the average number of ordinary shares outstanding in the year.

At 31 December 2021 and 2020 the profit per share is as follows:

	2021	2020
Number of shares at year end	143,018,430	143,018,430
Average number of shares during the year	143,018,430	143,018,430
Net consolidated profit attributable to the Parent (thousands of euros)	32,242	(158,239)
Number of treasury shares	408,098	317,809
Number of shares in circulation	142,610,332	142,700,621
Total number of shares	143,018,430	143,018,430
Profit per share (in euros per share)		
- Basic	0.23	(1.11)
- Diluted	0.23	(1.11)

There are no financial instruments that could significantly dilute the profit per share.

e) Foreign currency translation reserve

The detail of "Foreign currency translation reserve" in the consolidated statement of financial position as at 31 December 2021 and 2020 is as follows:

	Thousands of Euros		
	31/12/2021 31/12/2020		
Applus+ Energy & Industry	(16,734)	(21,349)	
Applus+ Laboratories	828	(1,993)	
Applus+ Automotive	(48,794)	(55,635)	
Applus+ IDIADA	662	(754)	
Other	2,722	120	
Total	(61,316)	(79,611)	

f) Capital risk management

The Group manages its capital to ensure that its subsidiaries can continue operating in accordance with the going-concern principle of accounting. The Group is also committed to maintain leverage levels that are consistent with its growth, solvency and profitability objectives.

The data relating to the financial leverage ratios at the end of 2021 and 2020 are as follows:

	Thousands of Euros		
	31/12/2021 31/12/2		
Bank borrowings (Note 14)	771,878	719,387	
Other financial liabilities (Note 15)	25,806	22,469	
Current financial assets (Note 11)	(6,386)	(2,598)	
Cash and cash equivalents (Note 11)	(176,544)	(189,468)	
Net financial debt	614,754	549,790	
Total equity attributable to the shareholders of the Parent	617,631	585,238	
Leverage (Net financial debt / Net debt + Equity attributable to the shareholders of the Parent)	50%	48%	

13. Non-controlling interests

"Non-controlling interests" in the accompanying consolidated statement of financial position reflects the equity of the non-controlling shareholders in the consolidated companies. Also, the balance of "Profit Attributable to Non-Controlling Interests" in the accompanying consolidated statement of profit or loss reflects the share of these non-controlling interests in the consolidated profit or loss for the year.

The detail of the non-controlling interests of the fully consolidated companies in which ownership is shared with third parties in 2021 and 2020 is as follows:

	2021 - Thousands of Euros			
	Share capital	Share capital Profit		
	and reserves (Loss)		Total	
LGAI Technological Center, S.A. subgroup	17,399	1,069	18,468	
IDIADA Automotive Technology, S.A. subgroup	9,231	2,895	12,126	
Arctosa Holding B.V. subgroup	128	466	594	
Velosi S.à r.l subgroup	5,654	2,573	8,227	
Applus Iteuve Technology, S.L.U. subgroup	(1,462)	10,762	9,300	
Total non-controlling interests	30,950	17,765	48,715	

	2020 - Thousands of Euros			
	Share capital	Share capital Profit		
	and reserves (Loss)		Total	
LGAI Technological Center, S.A. subgroup	15,691	1,100	16,791	
IDIADA Automotive Technology, S.A. subgroup	9,738	356	10,094	
Arctosa Holding B.V. subgroup	(156)	(235)	(391)	
Velosi S.à r.l subgroup	7,125	3,684	10,809	
Applus Iteuve Technology, S.L.U. subgroup	(914)	12,246	11,332	
Total non-controlling interests	31,484 17,151 48			

The changes in "Non-Controlling Interests" in 2021 and 2020 are summarised as follows:

	Thousands	s of Euros
	2021	2020
Beginning balance	48,635	48,527
Changes in the scope of consolidation (Note 2.b.e.)	317	(2,070)
Dividends	(20,210)	(13,678)
Translation differences	2,127	(1,393)
Other changes	81	98
Profit for the year	17,765	17,151
Ending balance	48,715	48,635

14. Obligations and bank borrowings

The detail, by maturity, of the obligations and bank borrowings in the accompanying consolidated statement of financial position at 31 December 2021 and 2020 are as follows:

	2021 - Thousands of Euros						
		Short	Long Term Drawn				
	Limit	Term Drawn	2023	2024	2025	2026 onwards	Total

At 31 December 2021, the consolidated Group's debt structure is mainly composed of a portion of syndicated bank borrowings and placed private debt borrowings with US institutional investors. The bank borrowings consist of a multi-currency syndicated loan of EUR 600 million, which comprises a Facility A "Term Loan" of EUR 200 million and a Facility B "Revolving Credit Facility" of EUR 400 million. The total amount of the US private placement debt is EUR 330 million and includes the new US private placement debt of EUR 100 million carried out in 2021, bearing interest at a fixed rate and with final maturity in June 2036.

In relation to the bilateral loan, on 9 April 2021 a grace period of one year was agreed upon, with the first repayment set for April 2022, without altering the final maturity date of April 2023.

On 15 April 2021, the Applus Group entered a sustainability linked credit facility with CaixaBank limited to EUR 100 million maturing in 2023, with a one-year extension option. EUR 32 million was drawn down at 31 December 2021.

The Group had liquidity of EUR 588 million at 31 December 2021, taking into account cash and cash equivalents reflected in the accompanying consolidated statement of financial position and the undrawn balances of the financing lines detailed previously (2020 year-end: EUR 546 million).

a) Syndicated loan and private placement debt

The syndicated loan bears interest at Euribor for tranches in euros and at Libor for tranches in foreign currency (CAD 62 million and USD 9.3 million drawn down at 2021 year-end) plus a spread based on a leverage grid for each Facility.

All the tranches had an initial single maturity at 27 June 2023, which may be extended for a total of two additional years at the end of the first and second years. On 27 June 2019 all tranches were extended to 27 June 2024 and, on 16 June 2020, they were extended to 27 June 2025.

The initial private placement debt was placed from two US institutional investors. The structure includes a tranche of EUR 150 million maturing on 11 July 2025 and a tranche of EUR 80 million maturing on 11 July 2028. On 10 June 2021 a new private placement debt with one US institutional investor has been added with two tranches, each one of EUR 50 million, the first tranche maturing on 10 June 2031 and the second one on 10 June 2036.

The detail of syndicated loan and the private placement debt in 2021 and 2020 is as follows:

2021

	Thousand	ds of Euros	
Tranche	Limit	Amount drawn + interest added to principal	Maturity
Facility A "Term Loan"	200,000	200,000	27/06/2025

Accrued Interests	-	2,772		
Debt arrangement expenses	=	(2,786)		
Total	830,000	655,855		

a.1) Obligations and restrictions relating to the syndicated loan and private debt

Both the syndicated loan and the private placement debt are subject to the achievement of certain financial ratios. The main one is defined as consolidated Net Debt to consolidated EBITDA of the last twelve months lower than 4.0x, tested every six months at 30 June and 31 December.

At 31 December 2021, the ratio, calculated on the basis of the contractually established definitions of Net consolidated Debt and consolidated EBITDA, was 2.7x.

In accordance with the established terms and conditions, the Parent's Directors expect the financial leverage ratio covenant to be met in the following years.

The Group also has to fulfil certain obligations under the syndicated loan and the private placement agreement which relate mainly to disclosure requirements concerning its consolidated financial statements and negative undertakings to not perform certain transactions without the lender's and investor's consent, such as certain mergers or changes of business activity (see Note 27.a).

a.2) Guarantees given:

None of Applus Group subsidiaries have their shares or other assets pledged to secure the financial debt.

b) Credit facilities and other loans

The interest rates on the credit facilities and loans are tied to Euribor and Libor, plus a market spread.

The Group entered into a non-recourse factoring agreement to sell outstanding receivables from customers for up to a maximum of EUR 25 million bearing interest at the market rate, of which EUR 12,429 thousand had been used at 2021 year-end (2020 year-end: EUR 6,441 thousand).

c) Disclosure for currency of obligations and bank borrowings

The detail of the main current and non-current obligations and bank borrowings at 31 December 2021 and 2020, by currency, is as follows:

	2021 - Thousands of Euros						
	Euro	US dollar	Canadian dollar	Colombian Peso	Chilean peso	Others	Total
Syndicated loan	277,185	8,230	42,725	-	-	-	328,140
US Private Placement	330,000	-	-	-	-	-	330,000
Bilateral facilities	50,183	-	-	-	-	-	50,183
CaixaBank credit facility	32,218	-	-	-	-	-	32,218
Others loans	4,157	-	-	-	136	-	4,293
Credit facilities	4,218	20,776	-	1,531	1	178	26,704
Finance leases	103	47	-	-	155	35	340
Total	698,064	29,053	42,725	1,531	292	213	771,878

	2020 - Thousands of Euros						
	Euro	US dollar	Canadian dollar	Malaysian ringgit	Chilean peso	Others	Total
Syndicated loan	379,986	-	45,869	-	-	-	425,855
US Private Placement	230,000	-	-	-	-	-	230,000
Bilateral facilities	50,187	-	-	-	-	-	50,187
Others loans	753	-	-	-	416	192	1,361
Credit facilities	3,680	3,061	-	145	-	273	7,159
Finance leases	32	4,456	-	-	290	47	4,825
Total	664,638	7,517	45,869	145	706	512	719,387

15. Others non-current financial liabilities

The detail at 31 December 2021 and 2020 is as follows:

	Thousands of Euros 31/12/2021 31/12/2020		
Payable due to reversion	22,123	19,074	
Other non-current financial liabilities	3,683	3,395	
Total other non-current financial liabilities	25,806	22,469	

[&]quot;Payable due to reversion" for 2021 and 2020 essentially includes the provisions for the guarantees covering the reversion of land on which certain vehicle roadworthiness testing centres (see Note 27.b). The payment period relating to these guarantees will not be known until the process described in Note 27.b has been completed.

16. Financial risks and derivative financial instruments

Financial risk management policy

The main purpose of the Group's financial risk management activity is to assure the availability of funds for the timely fulfilment of financial obligations and to protect the value in euros of the Group's economic flows and assets and liabilities.

This management activity is based on the identification of risks, the determination of tolerance to each risk, the analysis of the suitability of the hedging of financial risks, and the control of the hedging relationships established.

The Group's policy consists on hedging all significant and intolerable risk exposures as long as there are adequate instruments for this purpose and the hedging cost is reasonable.

The Group's financial risks are managed on a single and integrated basis, which enables it to identify the existence of natural hedges between and within the various lines of business and to thus optimise the arrangement of hedges in markets. All external hedges, including those relating to subsidiaries and those arranged on their behalf, must be authorised and arranged on a centralised basis at Group level.

Following is a description of the main financial risks to which the Group is exposed and the practices established:

a) Foreign currency risk

Group Management, based on activity in countries outside the eurozone, monitors the changes in the various currencies in which it operates and assesses the foreign currency risk that could affect its financial statements. Normally, the operations in each of the countries where the Group operates, both income and expenses are in local currency so foreign currency risk only impacts equity.

To manage foreign currency risk, the Group takes the following measures:

- If the financial market of the country in which the investment is made allows for adequate financing to be
 obtained in terms of timing and cost, hedging is naturally obtained through financing taken in the same
 currency as that of the investment.
- If the above is not possible, the Group determines asset and liability sensitivity to exchange rate fluctuations on the basis of the extent and severity (volatility) of the risk exposure.

In relation to foreign currency risk, the estimated sensitivity in the Group's consolidated statements of profit or loss for 2021 and 2020 to a change of \pm 0 in the exchange rates against the euro of the main currency in which the Group operates, US dollar, would entail approximately a \pm 0.1% variation of the Group's revenues.

[&]quot;Other financial liabilities" includes mainly various loans with favourable terms and conditions that the subsidiaries have been granted by various public bodies. These loans mature between 2022 and 2027.

b) Interest rate risk

Interest rate risk relates to the effect on profit or loss of rises in interest rates that increase borrowing costs. Exposure to this risk is mitigated by the natural hedging offered by businesses in which inflation and/or interest rates are factors which are part of the periodical tariff and price revision process. The other exposure is assessed periodically and, taking into consideration the projected interest rate fluctuations in the main borrowing currencies, the desirable fixed-rate protection levels and periods are determined. The structure thus established is achieved by means of new financing and/or the use of interest rate derivatives.

Net debt at floating rates is generally tied to Euribor for the debt in euros and to Libor for the debt in US dollars.

As part of the debt refinancing process in 2018, a private debt placement was taken at a fixed rate of interest. Private Placement Debt represented 39% of total drawn debt at 31 December 2021 (2020: 32% of total drawn debt).

The detail of the average interest rate and of the average financial debt drawn is as follows:

	2021	2020
Average interest rate	1.79%	1.59%
Average financial debt drawn (thousands of euros)	733,469	727,496

On the basis of the financial debt drawn, the impact on borrowing costs of a change of half a point in the average interest rate would be as follows:

	20	21	2020)
Change in interest rate	+0,5%	-0.50%	+0,5%	-0.50%
Change in borrowing costs (thousands of euros)	2,237	(2,237)	2,487	(2,487)

c) Liquidity risk

Liquidity risk relates to the possibility of adverse situations in the capital markets preventing the Group from financing, at reasonable market prices, its obligations relating to both non-current financial assets and working capital requirements, or of the Group being unable to implement its business plans using stable financing sources.

The Group takes various preventative measures to manage liquidity risk:

- The capital structure of each company is established taking into account the degree of volatility of the cash generated by it.
- Debt repayment periods and schedules are established on the basis of the nature of the needs being financed.
- The Group diversifies its sources of financing through continued access to financing and capital markets.
- The Group secures committed credit facilities for sufficient amounts and with sufficient flexibility.

Hedging instruments arranged

At the end of 2021 and 2020, the Group does not have any hedging instruments arranged.

17. Non-current provisions

The detail of "Non-Current Provisions" in 2021 and 2020 year end is as follows (in thousands of euros):

	31/12/2021	31/12/2020
Long-term employee obligations Other provisions	18,185 16,080	13,310 12,263
Non-Current provisions	34,265	25,573

The changes in "Non-Current Provisions" in 2021 and 2020 are as follows:

	Thousands of Euros
Balance at 1 January 2020	26,900
Changes in the scope of consolidation (Note 2.b.e)	3,798
Additions	5,397
Amounts used	(9,760)
Effect of exchange rate changes	(762)
Balance at 31 December 2020	25,573
Changes in the scope of consolidation (Note 2.b.e)	6,823
Additions	7,686
Amounts used	(6,601)
Effect of exchange rate changes	784
Balance at 31 December 2021	34,265

The recognised provisions constitute a fair and reasonable estimate of the effect on the Group's equity that could arise from the resolution of the lawsuits, claims or potential obligations that they cover. They were quantified by the Group Management and Management of the subsidiaries, with the assistance of their advisers, considering the specific circumstances to each case.

a) Long-term employee obligations:

Long-term employee obligations contain, mainly, benefits to certain employees in the Middle East amounting to EUR 12,631 thousand (2020: EUR 8,423 thousand), Europe amounting to EUR 1,805 thousand (2020: EUR 1,905 thousand) and Spain amounting to EUR 3,382 thousand (2020: EUR 2,698 thousand).

For the Middle East relate to benefits that employees receive at the end of their employment at Applus Group. These benefits are defined by local laws and are very similar between each other. The accrual is updated based on an actuarial valuation basis made by an independent expert, based on discount rate, expected salary increase, death rate and turnover staff rate. The increase in 2021 is due to the benefits of Saudi Arabia businesses acquired during this year. The benefits relate to Saudi Arabia employees are the most significant in the region.

The benefits in Europe relate, mainly, to the companies located in the Netherlands. These plans include the provision to pay one monthly salary payment to current employees upon completing 25 years of service and two monthly salaries payments upon completing 40 years of service.

The benefits in Spain relate to benefits that the employees from Automotive Galicia business receive at the end of their employment at Applus Group. These benefits are determined by Collective Agreement that the

employees of auto stations are subjected, where some compromises from the Company to the employees are established, when some conditions related to seniority and date of termination of employment relation.

b) Other provisions:

Other provisions mainly contain:

	Thousand	ls of Euros
	31/12/2021	31/12/2020
Tax risks	647	1,413
Legal contingencies	2,455	2,455
Other provisions	12,978	8,395
Total	16,080	12,263

"Other provisions" includes provisions related with the Group's reinsurance company, Libertytown RE, S.A., and other provisions, among which, contingent liabilities assumed in business combinations at the date of acquisition of new companies by the Group, detailed in Note 2.b.e.3.

The tax contingencies covered by provisions are described in Note 20.f. Since, at 31 December 2021 no changes had occurred in the estimates made by the Management, these provisions were not re-estimated, and neither were they re-estimated as a result of the adoption of IFRIC 23.

Legal contingencies balance has not changed significantly during last years.

18. Other non-current and current liabilities

The detail of "Other non-current liabilities" and "Other current liabilities" in 2021 and 2020 is as follows (in thousands of euros):

	31/12/2021	31/12/2020
Variable price of the acquisition of ownership interest payable at long term Other non-current liabilities	60,617 14,735	30,780 16,728
Other non-current liabilities	75,352	47,508
Variable price of the acquisition of ownership interest payable at short term Other current liabilities	3,920 4,887	559 5,748
Other current liabilities	8,807	6,307
Total other liabilities	84,159	53,815

"Variable price of the acquisition of ownership interest payable" includes the amounts payable for business combinations performed in 2021 and prior years in relation to contingency payouts and variable payouts (earn outs), which the Parent's Directors consider will comply with the related payment terms and conditions and should therefore be paid. The increases recognised under "Variable price of the acquisition of ownership interest payable at long term" are mainly due to the business combinations described in Note 2.b.e.1. The aforementioned amounts are classified as current and non-current in accordance with the date scheduled for their payment.

In relation to the acquisition of 80% of Inversiones Finisterre, S.L., performed in 2017, there is an agreement where a call and put options are granted for the potential acquisition of the remaining 20% of the Finisterre Group from July 2022, subject to the occurrence of certain events. The Applus Group has recognised a liability for the present value of the estimated amount of this option of EUR 13.4 million (2020: EUR 14.8 million) in "Variable price of the acquisition of ownership interest payable at long term", in accordance with IAS 32.23.

Subsequently to year-end, the Group has received notification from the Autonomous Government of Galicia of the concession extension to perform the vehicle roadworthiness inspections in the Autonomous Community until the end of 2027. The variation of the amount considered as financial liability is due to the update of the variables related to the business plan of the extension.

"Other current liabilities" and "Other non-current liabilities" include mainly other financial payables not related to bank borrowings.

19. Trade and other payables

The detail of trade and other payables in 2021 and 2020 is as follows:

	Thousand	s of Euros
	31/12/2021	31/12/2020
Trade and other payables	226,736	211,270
Trade and other payables with related companies (Note 28.b)	1	-
Remuneration payable	83,867	71,445
Tax payable	68,417	82,431
Total	379,021	365,146

The difference between the reasonable and nominal value does not differ significantly.

In "Tax payable" the Group recognised the amounts payable of value added taxes, social security taxes and personal income tax withholdings (or equivalent taxes in each country).

Disclosures on the payment periods to suppliers. Additional Provision Three. "Disclosure obligation" provided for in Law 15/2010, of 5 July.

The Group companies with tax residence in Spain adapted their payment periods in line with Additional Provision Three "Disclosure Obligation" of Law 15/2010, of 5 July (amended by Final Provision Two of Law 31/2014, of 3 December). Detailed below are the disclosures required by the Spanish Accounting and Audit Institute (ICAC) Resolution of 29 January 2016 to be included in notes to the financial statements in relation to average payment periods to suppliers in commercial transactions.

	2021	2020
	Da	ıys
Average payment period to suppliers	60	64
Ratio of transactions settled	61	66
Ratio of transactions not yet settled	49	52
	Thousand	s of Euros
Total payments made	161,073	143,740
Total payments outstanding	19,610	20,547

The data shown in the table above relates exclusively to the Spanish companies. The data referred to payments to suppliers relate, pursuant to the ICAC Resolution, to commercial transactions relating to goods supplied and services provided since the entry into force of Law 31/2014, of 3 December 2014.

Suppliers, solely for the purpose of disclosing the information provided for in this Resolution, are considered to be trade creditors for the supply of goods and services and are included under "Current liabilities - Trade and other payables" in the accompanying consolidated statement of financial position.

"Average payment period to suppliers" is understood to be the period between the supply of the goods or the provision of the services on the supplier's account and the effective payment of the transaction.

[&]quot;Remuneration payable" mainly relate to ordinary remuneration payable which includes the annual bonus and other remunerations payable such as extra-pay and holidays accruals.

The maximum payment period applicable to the Spanish consolidated companies under Law 3/2004, of 29 December 2004, on combating late payment in commercial transactions, is 30 days. This period may be extended by an agreement between the parties, but under no circumstances should be superior to 60 natural days (same legal period in 2020).

However, most of the payments outstanding by the Spanish consolidated companies at year end has been paid during the first two months of the year 2022.

20. Corporate income tax

20.a Corporate income tax expense recognised in the consolidated statement of profit or loss

The detail of the corporate income tax expense recognised in 2021 and 2020 is as follows (in thousands of euros):

	2021	2020
Current tax:		
For the year	33,128	26,874
	33,128	26,874
Deferred tax:		
For the year	(7,518)	(26,181)
Impact of Royal Decree-Law 3/2016	-	(1,864)
	(7,518)	(28,045)
Corporate Income tax expense/(benefit)	25,610	(1,171)

The detail of the changes in deferred taxes, recognised as corporate income tax expense/(benefit) in the consolidated statement of profit or loss in 2021 and 2020, is as follows (in thousands of euros):

	2021	2020
Tax credits for tax loss carry forwards	3,293	2,310
Withholding taxes and other unused tax credits	(675)	1,654
Temporary differences:		
Amortisation of intangible assets	(12,685)	(30,559)
Impact of Royal Decree-Law 3/2016	-	(1,864)
Others	2,549	414
Deferred corporate income tax expense/(benefit)	(7,518)	(28,045)

The corporate income tax expense is calculated in 2021 and 2020 as follows (in thousands of euros):

	2021	2020
Profit before tax	75,617	(142,259)
Consolidated corporate income tax rate at 25%	18,904	(35,565)
Tax effect of:		
Others	16,400	39,879
Deduction of unrecognised tax assets and others	(9,694)	(5,485)
Corporate income tax expense/(benefit)	25,610	(1,171)

Others include the differences due to corporate income tax rates in different countries and the impact for unrecognized tax losses generated during the year.

Royal Decree-Law 3/2016, of 2 December, adopting tax measures aimed at consolidating public finances and other urgent social measures, was published in the Spanish Official State Gazette on 3 December 2016. Its consequences on the Spanish consolidated tax group finish in 2020, when the last part of the deferred tax reversed for an amount of 1,864 thousand of euros.

20.b Current corporate income tax assets and liabilities

The detail of the current corporate income tax receivables and payables at the end of 2021 and 2020 is as follows (in thousands of euros):

	31/12/2021	31/12/2020
Current corporate income tax assets	17,707	19,424
Corporate income tax prepayments	17,707	19,424
Current corporate income tax liabilities	18,595	18,663
Corporate income tax payables	18,595	18,663

20.c Deferred tax assets

The detail of Deferred tax assets at the end of 2021 and 2020 is as follows:

	Thousands of Euros	
	31/12/2021	31/12/2020
Tax losses of Spanish companies	18,712	22,592
Tax losses of other foreign companies	4,266	3,679
Tax credits for tax loss carry forwards	22,978	26,271
Tax credits of Spanish companies	5,465	5,581
Tax credits and Withholding taxes of foreign companies	7,400	6,609
Withholding taxes and other tax credits	12,865	12,190
Other temporary differences - Spanish companies	7,145	7,424
Temporary differences - foreign companies	13,869	14,129
Temporary differences – IFRS 16	4,167	4,146
Total temporary differences	25,181	25,699
Total deferred tax assets	61,024	64,160

The deferred tax assets indicated above were recognised because the Parent's Directors considered that, based on their best estimate of the Group's future earnings, including certain tax planning measures, it is probable that these assets will be recovered.

At the end of each year the Parent's Directors analyse the recoverability of the deferred tax assets and only recognise those that they consider will probably be recovered.

The factors taken into consideration by the Parent's Directors to recognise as a deferred tax asset, including tax credit for tax loss carry forwards, withholding taxes, and tax credits for temporary differences at 31 December 2021, which support their future recoverability, are as follows:

 In 2021 and 2020 the consolidated tax group in Spain obtained taxable income of EUR 56,929 and EUR 47,644 thousand which enabled it to use unrecognised tax losses from prior years amounting to EUR 281 and EUR 440 thousand, respectively.

The prior years' tax loss carryforwards of the companies at the end of 2021 and 2020 are as follows:

		Thousands of	of Euros	
Year incurred	2021		2020	
1001 1110011100	Recognised	Not recognised	Recognised	Not recognised
2005		9,856	_	9,855
2007	805	17,812	5,205	17,488
2008	474	-	474	-
2009	2,586	-	2,657	153
2010	34,163	7	49,509	143
2011	38,500	199	38,563	270
2012	-	386	-	264
2013	-	231	-	273
2014	-	2,052	87	2,419
2015	27	8,026	6	8,079
2016	2,324	16,119	-	17,251
2017	114	19,460	4	17,386
2018	102	12,045	3	14,952
2019	1,701	10,975	824	15,141
2020	3,956	17,385	7,095	-
2021	6,081	-	-	-
Гotal	90,833	114,553	104,427	103,674

The recognised tax losses from the Spanish consolidated tax group are EUR 74,846 thousand recognised and EUR 27,669 thousand not recognised.

The detail of the Spanish companies' unused tax credits at the end of 2021 and 2020 is as follows:

	Thousands of Euros				
Year	2021		2020		
	Recognised	Recognised Not recognised Recognised		Not recognised	
2006	_	7	_	7	
2007	_	57	_	126	
2008	_	-	_	-	
2009	-	-	_	-	
2010	-	810	-	261	
2011	-	741	-	1,428	
2012	-	1,175	-	2,388	
2013	4,380	6,397	4,380	11,029	
2014	-	6,497	68	6,497	
2015	-	5,790	-	5,790	
2016	-	5,093	260	5,093	
2017	241	5,798	335	5,798	
2018	502	5,029	515	5,022	
2019	-	6,135	23	6,165	
2020	-	5,352	-	5,190	
2021	342	3,439	-	-	
Total	5,465	52,320	5,581	54,794	

Of the total recognised and unrecognised tax credits at 31 December 2021, EUR 11,954 thousand relate to incentives for certain activities (mainly investment in R&D+i expenditure), EUR 45,069 thousand relate to double taxation credits and EUR 762 thousand to the reinvestment of gains. Of the total recognised and unrecognised tax credits at 31 December 2020, EUR 13,400 thousand related to incentives for certain activities (mainly investment in R&D+i expenditure), EUR 46,213 thousand related to double taxation credits and EUR 762 thousand to the reinvestment of gains.

The foreign companies' unused tax credits not recognised in the accompanying consolidated statement of financial position are not significant.

20.d Deferred tax liabilities

"Deferred tax liabilities" on the liability side of the accompanying consolidated statement of financial position as at 31 December 2021 and 2020, includes mainly the following:

	Thousands of Euros	
	31/12/2021	31/12/2020
Temporary differences associated with:		
Recognition at fair value of the identifiable assets in acquisitions of business combinations	86,862	88,925
Depreciation and amortisation and measurement of assets and goodwill	18,714	20,242
Amortisation of goodwill paid in the acquisition of foreign companies by Spanish companies	7,435	6,838
Other deferred tax liabilities	9,439	12,095
Total deferred tax liabilities	122,450	128,100

20.e Corporate Income Tax rates applicable to the Group

Each company calculates its corporate income tax expense in accordance with its respective legislation. The main corporate income tax rates applicable to the Group are as follows:

Country	Tax rate	Country	Tax rate	Country	Tax rate
Spain	25%	UK	19%	Angola	30%
US	21%	Germany	30%	United Arab Emirates	-
China	25%	Australia	30%	Luxembourg	25%
Ireland	12.5%	Italy	24%	Papua	30%
Canada	26.5%	Brazil	34%	Malaysia	24%
Sweden	21%	Argentina	30%	Singapore	17%
Denmark	22%	Chile	27%	Qatar	10%
Netherlands	25%	Colombia	33%	Saudi Arabia	20%
Mexico	30%	Oman	15%	Costa Rica	30%

20.f Years open for review and tax audits

In 2019 tax audits were commenced by the Spanish tax authorities at certain Spanish companies part of the Corporate Income Tax group 238/08 and VAT group 0036/11 in relation to the following taxes: Corporate Income tax (2014 to 2017), VAT (2015 to 2017) and Personal income tax and withholdings (2015 to 2017). In 2020 these tax audits were completed and the tax assessments issued were signed on an uncontested basis and paid, with no significant impact on the Group's equity position. In general, at 2021 year-end, the Spanish companies which belong to Spanish tax group have 2018-2020 years open for review by the tax authorities for the Corporate income tax and 2018-2021 for VAT and the rest of applicable taxes.

The foreign companies have the last few years open for review in accordance with the legislation in force in each of their respective countries and all those ongoing tax audits. The Parent's Directors do not expect any additional significant liabilities to arise in the event of a tax audit.

These notes to the financial statements do not include the information referred to in Article 42 bis of Royal Decree 1065/2007 in relation to persons resident in Spain, whether legal entities that are beneficiaries or holders of accounts abroad or individuals from the Group who are authorised representatives for accounts abroad held by a Group subsidiary non-resident in Spain, since such information is duly recorded and detailed in the Group's accounting records pursuant to Article 42 bis 4.b of Royal Decree 1065/2007.

21. Operating income and expenses

a) Revenue

The Group obtains its income from contracts with customers in which it transfers goods or services according to the following categories, as per Group's managerial structure, and according to the criteria detailed in Note 3.q.

	Thousands of Euros		
	2021	2020	
Applus+ Energy & Industry	942,458	907,335	
Applus+ Laboratories	153,214	92,928	
Applus+ Automotive	456,756	355,847	
Applus+ IDIADA	224,296	201,482	
Others	22	22	
Total	1,776,746	1,557,614	

Substantially all of the Group's revenue relates to contracts with customers which generally include set prices. The revenue of the Automotive division of Applus+ includes mainly revenue from contracts with customers in which the performance obligations are satisfied at a specific point in time (when the technical inspections of the vehicles are conducted), while the revenue of the Applus+ Energy & Industry, Applus+ Laboratories and Applus+ IDIADA divisions also includes contracts in which revenue is recognised over time in relation to the satisfaction of the performance obligations of the various projects performed.

At year-end, there are no significant amounts of outstanding performance obligations since, as a general rule, contracts with customers have an expected initial duration of one year or less.

b) Staff costs

The detail of "Staff costs" in the accompanying consolidated statement of profit or loss in 2021 and 2020, is as follows:

	Thousands of Euros		
	2021	2020	
Wages, salaries and similar expenses	793,007	691,981	
Severances	4,405	7,745	
Employee benefit costs	110,204	101,396	
Other staff costs	94,535	85,113	
Total	1,002,151	886,235	

The wages and salaries expenses have been increased in this exercise by new companies incorporated to the Group, and the less staff cost in 2020 due to the impact of the furlough-type arrangements (ERTEs) approved in Spain and other similar measures adopted in the other geographical areas in which the Group operates as a consequence of COVID-19.

The average number of employees at the Group, by professional category and gender in 2021 and 2020, is as follows:

	Average number of employees					
	2021					
Professional category	Men Women Total					
Top management	98	16	114			
Middle management	302	93	395			
Supervisors	835	207	1,042			
Operational employees & others	18,177	4,452	22,629			
Total	19,412	4,768	24,180			

	Average number of employees					
	2020					
Professional category	Men Women Total					
Top management	155 25					
Middle management	432	115	547			
Supervisors	1,053	249	1,302			
Operational employees & others	16,499	4,101	20,600			
Total	18,139	4,490	22,629			

Also, the distribution of the workforce, by gender and category, at the end of 2021 and 2020, is as follows:

	No. of employees end of year				
		2021			
Professional category	Men	Women	Total		
Top management	77	19	96		
Middle management	279	91	370		
Supervisors	819	192	1,011		
Operational employees & others	19,072 4,729				
Total	20,247	5,031	25,278		
	No. of	employees end of	year		
		2020			
Professional category	Men	Women	Total		
Top management	98	19	117		
Middle management	290	95	385		
Supervisors	791	203	994		
Operational employees & others	17,458	4,433	21,891		
Total	18,637	4,750	23,387		

c) Other results

The detail of the other results for 2021 and 2020 relates mainly to extraordinary termination benefits due to restructuring, start-up costs, costs related to acquisitions and impairment and gains or losses on disposal of non-current assets.

d) Fees paid to auditors

In 2021 and 2020 the fees billed for financial audit and other services provided by the auditor of the Group's consolidated financial statements, Deloitte, S.L., and by firms in the Deloitte organisation, and the fees billed by the auditors of the separate financial statements of the consolidated companies, and by companies related to these auditors as a result of a relationship of control, common ownership or common management, were as follows (in thousands of euros):

2021

Description	Fees for services provided by the principal auditor	Fees charged by other audit firms
Audit services	1,982	315
Other attest services	254	-
Total audit and related services	2,236	315
Tax counselling services	176	
Other services	5	
Total professional services	2,417	

2020

Description	Fees for services provided by the principal auditor	Fees charged by other audit firms
Audit services	1,820	385
Other attest services	260	-
Total audit and related services	2,080	385
Tax counselling services	131	
Other services	16	
Total professional services	2,227	

22. Financial result

The detail by nature of the financial result in 2021 and 2020 is as follows:

	Thousands of	of Euros
	2021	2020
Finance Income:		
Other finance income by third parties	1,746	2,284
Total finance income	1,746	2,284
Finance costs:		
Borrowing costs relating to syndicated loan and US Private Placement	(12,571)	(11,389)
Other finance costs paid to third parties	(5,078)	(5,132)
Interest expense on lease liabilities (Note 26.b)	(7,534)	(7,552)
Exchange differences	(1,775)	(1,972)
Total finance costs	(26,958)	(26,045)
Gains or losses on the net monetary position (Note 3.0)	(669)	(1,078)
Financial result	(25,881)	(24,839)

23. Information on the environment

Climate change offers us opportunities which can result in different types of risk in our business. The Group's fundamental objective is to mitigate such risks and identify any potential opportunities to maximise our value to society, through responsible management of the business, incorporating the interests and expectations of the Parent's stakeholders. In this regard, in 2021, the Board of Directors approved the ESG Policy.

The Group worked in 2021, as in prior years, to assess qualitatively the risks and opportunities arising from climate change, following the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD), will introduce the analysis of scenarios. According to that, we identified the potential impact of the risks and the probability of their occurrence, considering the substantial impacts, based on the following key elements: Governance, Strategy, Risk management, Metrics and objectives, classifying the impact as low, medium and high and defined in three time horizons, short, medium and long term. Following the impact assessment, the probability of the risk occurring should be evaluated. Likewise, we rolled out plans to make the best possible use of the opportunities that climate change may offer us, which will more than compensate for any potential impacts, albeit limited, that may arise.

In view of the business activities carried on by the Group, it does not have any environmental liability, expenses, assets, provisions or contingencies that might be material with respect to its equity, financial position or results. Therefore, no specific disclosures relating to environmental issues are included in these notes to the accompanying consolidated financial statements.

The Group considers that it complies with applicable environmental protection legislation and has procedures designed to ensure such compliance. In 2021 and 2020, the Group did not recognise any provisions to address potential environmental risks as it considered that there were no significant contingencies associated with potential lawsuits, compensation or other items. Lastly, the potential contingencies, compensation and other environmental risks that could be incurred by the Group are sufficiently covered by its third-party liability insurance policies.

24. Proposal of allocation of profit/loss

The proposed allocation of the Parent's net profit, formulated by the Board of Directors that will be presented at the next Parent's Annual General Meeting of the Shareholders, for 2021 is as follows:

	Thousands of Euros
Basis of allocation:	
Profit for the year	41,265
	41,265
Allocation:	
To dividends	21,453
To unrestricted reserves	19,812
Total	41,265

The proposed dividend of EUR 21,453 thousand corresponds to a gross amount of EUR 0.15 per share.

25. Segmented information

At 31 December 2021, the Group operates through four operating divisions and a holding division, each of which is considered to be a segment for financial reporting purposes.

The main operating segments are as follows:

- Applus+ Energy & Industry provides non-destructive testing, quality control and accreditation services, project management, supplier inspection, facility inspection and asset certification and integrity services.
 It also provides qualified staff recruitment and hiring services for the oil and gas, aircraft, energy, mining, telecommunications and construction industries.
- Applus+ Laboratories offers a wide range of laboratory testing, system certification, product development services across various industries and electronic payment systems, including the aerospace and industrial sectors.
- Applus+ Automotive offers mandatory vehicle roadworthiness testing services, verifying vehicles' compliance with safety and emissions regulations in force in the various countries in which it operates.
- Applus+ IDIADA offers design, engineering, testing and certification services mainly to car manufacturers.

a) Financial information by segment

The financial information, by segment, in the consolidated statement of profit or loss for 2021 and 2020 is as follows (in thousands of euros):

2021

	Applus+ Energy & Industry	Applus+ Laboratories	Applus+ Automotive	Applus+ IDIADA	Other	Total
Revenue	942,458	153,214	456,756	224,296	22	1,776,746
Operating expenses	(883,027)	(127,637)	(356,853)	(204,841)	(29,145)	(1,601,503)
Adjusted Operating Profit	59,431	25,577	99,903	19,455	(29,123)	175,243
Amortisation of non-current assets identified in business combinations (Note 5)	(13,043)	(7,356)	(29,346)	(4,315)	1	(54,060)
Other results						(19,685)
Operating Profit					-	101,498

2020

	Applus+ Energy & Industry	Applus+ Laboratories	Applus+ Automotive	Applus+ IDIADA	Other	Total
Revenue	907,335	92,928	355,847	201,482	22	1,557,614
Operating expenses	(865,954)	(83,194)	(273,320)	(189,970)	(26,773)	(1,439,211)
Adjusted Operating Profit	41,381	9,734	82,527	11,512	(26,751)	118,403
Amortisation of non-current assets identified in business combinations (Note 5)	(13,727)	(2,302)	(36,050)	(6,315)	ı	(58,394)
Other results					•	(177,429)
Operating Profit						(117,420)

The Adjusted Operating Profit is the operating profit before the amortisation charge of the intangible assets allocated in the business combinations (PPA) (see Note 5), and other results (see Note 21.c).

The "Other results" are included under "Impairment and gains or losses on disposal of non-current assets" and "Other results" in the consolidated statement of profit or loss.

The "Other" segment includes the financial information corresponding to the Applus Group's holding activity.

The finance costs were allocated mainly to the "Other" segment as it is the Holding division who manages bank borrowings (see Note 14).

The current, non-current assets and liabilities, by business segment, at the end of 2021 and 2020 are as follows (in thousands of euros):

2021

	Applus+ Energy & Industry	Applus+ Laboratories	Applus+ Automotive	Applus+ IDIADA	Other	Total
Goodwill	258,566	155,554	287,041	23,385	1,243	725,789

Total non-current assets	534,373	310,355	659,501	116,036	39,222	1,659,487
Total current assets	404,200	75,174	41,731	103,662	22,231	646,998
Total liabilities	328,323	107,305	265,407	129,981	809,123	1,640,139

2020

	Applus+ Energy & Industry	Applus+ Laboratories	Applus+ Automotive	Applus+ IDIADA	Other	Total
Goodwill	208,395	144,248	292,041	29,627	1,258	675,569
Other intangible assets	104,072	62,364	223,686	24,877	10,811	425,810
Rights of use	40,451	26,004	78,080	33,624	999	179,158
Property, plant and equipment	78,637	30,226	84,114	38,639	962	232,578
Investments accounted for using the equity method	542	-	-	-	-	542
Non-current financial assets	8,333	733	4,913	991	-	14,970
Deferred tax assets	21,535	1,940	9,202	3,210	28,273	64,160
Total non-current assets	461,965	265,515	692,036	130,968	42,303	1,592,787
Total current assets	343,177	57,162	59,524	79,375	35,068	574,306
Total liabilities	277,522	95,800	287,004	123,490	749,404	1,533,220

The additions to intangible assets and also to property, plant and equipment, by business segment, in 2021 and 2020 are as follows (in thousands of euros):

	Applus+ Energy &Industry	Applus+ Laboratories	Applus+ Automotive	Applus+ IDIADA	Other	Total
Capex 2021	19,228	15,022	16,772	9,970	2,085	63,077
Capex 2020	19,812	8,206	15,391	10,156	2,209	55,774

b) Financial information by geographic segment

Since the Group has presence in several countries, the financial information has been grouped geographically.

The sales, by geographical area, in 2021 and 2020, were as follows:

	Thousar	ds of Euros
	2021	2020
Spain	426,284	371,605
Rest of Europe	504,712	398,382
US and Canada	299,04	291,906
Asia and Pacific	205,163	179,542
Middle East and Africa	146,140	150,942
Latin America	195,400	165,237
Total	1,776,740	1,557,614

The non-current assets, by geographical area, in 2021 and 2020, are as follows (in thousands of euros):

Total non-current assets	Spain	Rest of Europe	US and Canada	Asia Pacific	Latin America	Middle East and Africa	Total
31 December 2021	806,432	417,291	199,300	142,373	73,086	21,005	1,659,487
31 December 2020	800,864	394,671	204,325	102,608	75,414	14,905	1,592,787

26. Leases

a) Amounts recognised in the consolidated statement of financial position

The amounts related to operating leases recognised in the consolidated statement of financial position as at 31 December 2021 and 2020 are as follows:

Rights of use

	Thousands	of Euros
	Net v	alue
	31/12/2021	31/12/2020
Rights of use		
Offices	116,242	121,269
Rights of use of facilities (fixed levies)	23,817	27,655
Vehicles	23,248	18,472
Machinery	11,118	6,295
Land	5,600	4,376
Hardware	695	1,091
Total	180,720	179,158

Lease liabilities

	Thousands	of Euros
	31/12/2021	31/12/2020
Maturity analysis - lease-related cash flows (not discounted)		
Within one year	54,509	51,553
Between one and five years	111,134	116,292
More than five years	50,686	50,343
Total lease-related cash flows (not discounted)	216,329	218,188

	Thousands	of Euros
	31/12/2021	31/12/2020
Lease liabilities		
Current	54,510	51,170
Non-current	141,968	144,379
Total	196,478	195,549

b) Amounts recognised in the consolidated statement of profit or loss

At 31 December 2021, the amounts related to leases recognised in the consolidated statement of profit or loss are as follows: amortisation of the right-of-use assets for an amount of EUR 52,400 thousand (2020: EUR 45,307 thousand), basically offices and vehicles; finance costs on lease liabilities for an amount of EUR 7,534 thousand (2020: EUR 7,552 thousand) (Note 22); operating expenses related to leases of low-value assets not considered in a short-term, short-term leases and, variable lease payments not included in the measurement of lease liabilities, for an amount of EUR 62,386 thousand (2020: EUR 44,633 thousand), which correspond, basically, to auto stations' variable rent levies of the Automotive division for an amount of EUR 37,488 thousand (2020: EUR 25,179 thousand); and income amounting to EUR 240 thousand (EUR 78 thousand in 2020) arising from contract modifications, basically as a result of terminations of leases which caused the de-recognition of the related right-of-use asset and lease liability.

In 2021, the consolidated EBITDA impact corresponds to minor operating lease expenses amounting EUR 60,336 thousand (2020: EUR 52,979 thousand).

c) Amounts recognised in the consolidated statement of cash flows

In the period ended at 31 December 2021, the total amount of cash outflows relating to leases amounted to EUR 60,336 thousand (2020: EUR 52,979 thousand).

d) Leases in which the Group acts as lessee

All amounts recognised in the consolidated statement of financial position relate to leases in which the Group acts as lessee.

The main rights of use assets of the Group include two levies of surface rights of Applus+ Laboratories in Bellaterra and Applus+ IDIADA in L'Albornar (Catalonia, Spain) with maturities 2033 and 2024 respectively.

In 2021 and 2020, the Group has not recognised gains or losses arising from sale and leaseback transactions.

Additionally, new lease contracts were registered as additions amounting to EUR 35 million, corresponding mainly to laboratories of companies acquired during 2021 (see Note 2.b.e.), vehicle inspection testing centres and extensions of equipment's and vehicle's contracts.

Lastly, it should be noted that no renegotiations were held that have led to reductions or forgiveness of rent or other economic incentives resulting in a significant positive effect on the consolidated statement of profit or loss.

27. Obligations acquired and contingencies

a) Guarantees and obligations acquired

The Group has guarantees required by the business activities of the Group companies amounting to EUR 114.4 million (31 December 2020: EUR 101.1 million), as shown in the following detail by segment (in millions of euros):

Guarantees provided	Applus+ Energy & Industry	Applus+ Laboratories	Applus+ Automotive	Applus+ IDIADA	Other	Total
31 December 2021	65.8	8.6	31	4.5	4.5	114.4
31 December 2020	58.9	7.3	30.2	4.5	0.2	101.1

There are guarantees included in Applus+ Laboratories, Applus Automotive and Applus+ IDIADA divisions amounting to EUR 18.2 million (31 December 2020: EUR 18.3 million) provided to the Catalonia Autonomous Community Government in connection with the incorporation of the subsidiaries IDIADA Automotive Technology, S.A. and LGAI Technological Center, S.A. and with the management of vehicle roadworthiness testing service.

The guarantees provided by Applus+ Energy & Industry relate mainly to guarantees provided to companies or public-sector agencies as provisional or final guarantees to submit bids or to assume liability for contracts awarded.

The Group also has certain obligations and guarantees under the financing agreement (see Notes 14.a.1 and 14.a.2). These obligations include reporting obligations relating to the Group's financial statements and business plans; the obligation to take certain measures such as guaranteeing accounting closes, refrain from performing certain transactions without the consent of the lender, such as certain mergers, changes of business activity, share redemptions, and the financial obligation to achieve certain financial ratios, among others.

The Parent's Directors do not expect any material liabilities as a result of the transactions described in this Note and in addition to those recognised in the accompanying consolidated statement of financial position.

b) Contingencies

b.1. Auto Catalonia

Current legislation on access to the provision of the vehicle roadworthiness testing activities (ITV) stipulates a quota-bound administrative authorisation system, which was challenged by certain operators on the basis that the Services Directive should be applicable and hence, a free market be set.

In line with the Judgment given by the European Court of Justice (in the Reference for preliminary ruling from the Spanish Supreme Court), which concluded that the Services Directive does not apply to roadworthiness testing activities as those are part of "services in the field of transport" falling within the scope of Title VI of the EU Treaty, the Supreme Court confirmed in its judgments of 21 April and 6 May 2016 that the Catalan ITV regime and the authorisations granted in 2010 to the Group until 2035, were in conformity with applicable law and additionally that restrictions on the maximum market share and minimum distance between roadworthiness testing centres of a single operator were void (as these restrictions to the freedom of establishment were not justified).

By judgment of 25 April 2016, the Supreme Court declared null the call for tender to access the authorisation of new roadworthiness testing centres provided as established under the territorial plan, as it included the

restrictions of maximum market share and minimum distance between vehicle roadworthiness testing centres licensed to the same undertaking, which had been declared void.

In addition, in the referred judgment of May 6, 2016, the Supreme Court declared void the "Disposición Adicional Segunda" of the Decree 30/2010 that provided for the right to use the assets and rights owned by the Administration by those operators who had been originally concessionaires, as well as the Order regulating the economic consideration for the use of such assets (in a judgment of 4 May 2016). As a result, in another litigation opened before the High Court of Justice of Catalonia (TSJC), the latter has issued a judgment on 24 April 2017, declaring void the Instruction of the General Director of Energy, Mines and Industrial Safety defining the criteria set to define the economic consideration for the use of said public assets; this decision was finally upheld by the Supreme Court.

The Parent's Directors believe that the 2016 judgments of the Supreme Court confirmed the validity of the roadworthiness testing activities' regime in Catalonia - quota authorization- as well as the titles upon which Applus operates in that territory, however the Generalitat de Catalunya (Autonomous Government of Catalonia) shall implement the appropriate measures to comply with the Supreme Court judgments referred to above.

As of November 10th 2020 the Catalan Government approved a preliminary report for a draft bill on the automotive inspection services in Catalonia. On November 17th 2020, the Government approved a law-decree 45/2020 on the transitory and extraordinary authorisation to continue the automotive inspection services, which however was finally repealed by the Catalan Parliament on December 3rd. The process for the approval of a draft bill was started, with a public consultation period open and consultation with operators and stakeholders. More recently, the Catalan Parliament passed a Law 2/2021, of 29 December, of fiscal, financial, administrative and public sector measures (published on DOGC the 31 of December 2021) which incorporates an exceptional and transitory allowance for current authorized auto inspection operators so they continue rendering the service in the same conditions, until the reversion processes end and until a new law is passed by the Parliament, whilst potential new authorizations' requests are suspended. Additionally, the law includes a requirement to the Government so that it presents a draft bill in twelve months from the application of the law.

b.2. Other contingencies

Two subsidiaries of the Group are facing a number of lawsuits from former employees regarding the amount of hours of over-time worked. In any case, the impact of these lawsuits would not be significant for the attached consolidated financial statements. The Parent's Directors consider that the outcome of all above proceedings will not entail material additional liabilities to those in the consolidated financial statements at 31 December 2021.

At 2021 year-end, the Parent's Directors were not aware of any significant claims brought by third parties or of any ongoing legal proceedings against the Group that, in their opinion, could have a material impact on these consolidated financial statements.

28. Transactions and balances with related parties

For the purposes of the information in this section, related parties are considered to be:

- The significant shareholders of Applus Services, S.A., are understood to be shareholders holding directly or indirectly 3% or more of the shares, and shareholders which, without being significant, have exercised the power to propose the appointment of a member of the Parent's Board of Directors.
- The Directors and Senior Executive, as well close members of those persons' family. "Director" means a member of the Board of Directors and "Senior Executive" means persons reporting directly to the Board or to the Chief Executive Officer (CEO) of the Group.
- Associates of the Group.

The transactions between the Parent and its subsidiaries were eliminated on consolidation and are not disclosed in this Note.

The transactions between the Group and its related companies disclosed below, are performed at arm's length and in line with market conditions.

Transactions with related companies

In 2021 and 2020 the Parent and its subsidiaries performed the following transactions with related companies:

	Thousands of Euros					
	2021				2020	
	Operating revenue Procurements Other expenses			Operating revenue	Procurements	Other expenses
Velosi (B) Sdn Bhd	40	-	2	69	-	83
Total	40	-	2	69	-	83

The transactions with related companies correspond to commercial transactions.

Balances with related companies

a) Receivables from related companies:

	Thousands of Euros Trade receivables from related companies				
	31/12/2021 31/12/2020				
Velosi (B) Sdn Bhd	221	253			
Total	221	253			

b) Payables to related companies:

	Thousands of Euros Trade and other payables to related companies 31/12/2021 31/12/2020			
Velosi (B) Sdn Bhd	1	-		
Total	1 -			

The transactions and balances between the Applus Group and related parties (Directors and Senior Executives) are detailed in Note 29.

During 2021 and 2020 there have been no transactions and there are no significant amounts outstanding at year end with significant shareholders.

29. Disclosures on the Board of Directors and the Senior Executives

Remuneration and obligations to the Board of Directors

The detail of the remuneration (social benefits included) earned by the Executive Directors and by the different members of the Parent's Board of Directors at 2021 and 2020 year-end is as follows:

a) Annual remuneration:

	Thousands of Euros						
		31/12/2021			31/12/2020		
	Executive Directors Members of the Board of Directors Total		Executive Directors	Members of the Board of Directors	Total		
Fixed remuneration	1,076	-	1,076	999	-	999	
Variable remuneration	812	-	812	382	-	382	
Other items	65	-	65	91	-	91	
Non Executive Chairman and Independent Directors	-	648	648	-	620	620	
Corporate Social Security Committee	-	52	52	-	46	46	
Appointments & Compensation Committee	-	58	58	-	65	65	
Audit Committee	-	90	90	-	83	83	
Total	1,953	848	2,801	1,472	814	2,286	

The fixed remuneration of the Executive Directors includes a portion in the form of RSUs amounting to EUR 58 thousand per year. In February 2019, 2020 and 2021, 5,838, 5,317 and 6,648 RSUs, respectively, were granted. These RSUs will be convertible to shares three years after the date on which they were granted. In February 2021 the Group effected delivery of 2,933 net shares relating to the plan granted in February 2018.

59.51% of the Executive Directors' variable remuneration is given in cash, with the rest comprising RSUs convertible to shares three years after the date on which they are granted, 30% of which are granted in each of the first two years and the remaining 40% are granted in the third year. These RSUs amounted to EUR 329 thousand in the year. At 2021 year-end, three RSU plans were in force, having been granted in March 2019, 2020 and 2021 for 30,607, 34,645 and 17,618 RSUs, respectively. In February 2021 the Group effected delivery of 12,471 net shares.

The plans in force at the end of the year in relation to the RSUs granted in 2019, 2020 and 2021 can be consulted in the Remuneration Report.

b) Long-term incentive ("LTI"):

Under the remuneration policy in force, the Executive Directors shall annually receive PSUs (performance stock units) that are convertible into shares of the Parent three years after the date on which they are granted. The expense recognised in 2021 in this connection amounted to EUR 489 thousand as a result of the fulfilment of the variables established for them. At 2021 year-end, three PSU plans were in force, having been granted in 2019, 2020 and 2021 for 50,874, 46,338 and 57,939 PSUs, respectively. The detail of the PSU plans in force can be consulted in the Remuneration Report. In February 2021 the Group did not effect the delivery of net shares relating to the plan granted in February 2018 due to the non-achievement of the variables established for them.

In 2021, the Executive Directors and the members of the Board of Directors did not earn or receive any termination benefits.

The pension plan benefits earned by the Executive Directors in 2021 amounted to EUR 45 thousand not included in the above table

At 31 December 2021, no loans or advances had been granted to the members of the Parent's Board of Directors.

Applus Services, S.A. took out a third-party liability insurance policy. The insured persons under this policy are the Directors and Executives of the Group companies the Parent of which is Applus Services, S.A. The Parent's Directors are included among the insured persons of this policy. The premium paid in 2021 for this insurance policy amounted to EUR 156 thousand (2020: EUR 89 thousand).

The Parent's Board of Directors at 31 December 2021 is made up of 6 men and 4 women (7 men and 3 women at 31 December 2020).

Information relating to conflicts of interest on the part of the Parent's Directors

It is hereby stated that the Parent's Directors, their individual representatives and the persons related thereto do not hold any investments in the share capital of companies engaging in identical, similar or complementary activities to those of the Group or hold positions or discharge duties thereat, other than those held or discharged at the Applus Group companies, that could give rise to a conflict of interest as established in Article 229 of the Spanish Companies Act.

Remuneration of and obligations to Senior Executives

Senior Executives are considered to be those who make up the Group's Management. For the purposes of information on remuneration the internal auditor is also included, as defined in current accounting legislation and, in particular, in the "Report of the Special Working Group on the Good Governance of Listed Companies" published by the Spanish National Securities Market Commission (CNMV) on 16 May 2006.

The breakdown of the remuneration earned in 2021 and 2020 by the Group's Senior Executives is as follows:

a) Annual remuneration:

	Thousands of Euros	
	2021	2020
Fixed remuneration	3,706	3,730
Variable remuneration	1,742	1,060
Other items	561	477
Termination benefits	1,456	204
Pension plans	85	128
Total	7,550	5,599

The fixed remuneration of certain Senior Executives includes a portion in RSUs amounting to EUR 232 thousand, which are convertible to shares three years after the date on which they are granted. The plans in force at the end of 2021 relate to shares granted in February 2019, 2020 and 2021 for 29,504, 20,370 and 26,473 RSUs, respectively. In February 2021 the Group effected delivery of 11,150 net shares relating to the plan granted in February 2018.

68.2% of the Senior Executives' variable remuneration is given in cash, with the rest comprising RSUs convertible to shares three years after the date on which they are granted, 30% of which are granted in each of the first two years and the remaining 40% are granted in the third year. Additionally, certain members of the Group's Senior Executives have a LTI variable incentive granted on a discretionary basis in February. The RSU plans in force at the end of 2021 relate to the RSUs granted in February 2019, 2020 and 2021 for 79,069, 81,598 and 70,291 RSUs, respectively. In March 2021 the Group effected delivery of 47,595 net shares relating to the plans granted in 2018 (40%), 2019 (30%) and 2020 (30%). EUR 887 thousand were charged to the consolidated statement of profit or loss for 2021 in this connection.

In 2021, EUR 1,456 thousand of termination benefits were registered (EUR 204 thousand in 2020).

b) Multiannual remuneration and long-term incentive in PSUs:

Under the current remuneration policy, certain members of the Group's Senior Executives annually receive PSUs (performance stock units) that are convertible into shares of the Parent three years after the date on which they are granted. The expense recognised in this connection amounted to EUR 333 thousand in 2021 as a result of the

achievement of the variables established for them. The PSU plans in force at the end of 2021 relate to the PSUs granted in February 2019, 2020 and 2021 for 39,507, 30,624 and 30,747 PSUs, respectively. In February 2021 the Group did not effect the delivery of net shares relating to the plan granted in February 2018 due to the non-achievement of the variables established for them.

Also, the Group has life insurance obligations to certain Senior Executives; the related expense is included under "Other Items" in the tables above.

The Group's Senior Executives, not counting the internal auditor, comprised 14 men and 4 women at 31 December 2021 (15 men and 3 women at 31 December 2020).

30. Events after the reporting period

The Board of Directors of the Parent Company has approved on 26th January 2022 to launch a programme to buy back the Company's shares, pursuant to the authorisation granted by the General Meeting of Shareholders of the Company held on 29 May 2020, under item Seventh of its agenda. The Programme shall be carried out with the aim of reducing the Company's share capital by the redemption of the treasury shares acquired under the Programme. Such share capital reduction is expected to be submitted for approval at the Annual General Meeting of Shareholders of 2022. The Share Buyback Programme's maximum net investment amounts to Eur 75,000,000. The maximum number of Company's shares to be acquired under the Share Buyback Programme, is set at 7,150,922 shares, representing 5% of the share capital as of this date. The Share Buyback Programme will start on 1 February 2022, and will remain in force until 31 January 2023, both included. Further details of the terms and conditions of the Programme can be found on the CNMV Inside Information dated 27th January 2022.

The Programme shall be carried out in accordance with the provisions of Regulation (EU) 596/2014 of the European Parliament and of the Council, of 16 April 2014, on market abuse ("Regulation (EU) 596/2014") and of Commission Delegated Regulation (EU) 2016/1052, of 8 March 2016, supplementing Regulation on market abuse with regard to regulatory technical standards for the conditions applicable to buyback programmes and stabilisation measures ("Delegated Regulation (EU) 2016/1052").

31. Explanation added for translation to English

These consolidated financial statements are presented on the basis of the regulatory financial reporting framework applicable to the Group (see Note 2.a). Certain accounting practices applied by the Group that conform to that regulatory framework may not conform to other generally accepted accounting principles and rules.

These consolidated financial statements are a translation of the financial statements originally issued in Spanish. In the event of a discrepancy, the Spanish language version prevails.

INDEPENDENT LIMITED ASSURANCE REPORT ON THE CONSOLIDATED NON-FINANCIAL INFORMATION STATEMENT OF APPLUS SERVICES, S.A. AND SUBSIDIARIES FOR 2021

To the Shareholders of Applus Services, S.A.,

In accordance with Article 49 of the Spanish Commercial Code, we have performed the verification, with a scope of limited assurance, of the Financial and Non-Financial Information (ESG) Report, which contains the Non-Financial Information Statement ("NFIS") for the year ended 31 December 2021 of Applus Services, S.A. and Subsidiaries ("Applus" or "the Group"), which forms part of the Consolidated Directors' Report of Applus.

The Financial and Non-Financial Information (ESG) Report includes information, additional to that required by current Spanish corporate legislation relating to non-financial reporting and by the Global Reporting Initiative Standards for sustainability reporting in their core version ("GRI standards"), that was not the subject matter of our attestation engagement. In this regard, our work was confined solely to verifying the information identified in the "Cross-reference table: GRI and Global Compact" and the "Cross-reference table: Content of Spanish Law 11/2018" of the Financial and Non-Financial Information (ESG) Report.

Responsibilities of the Directors

The preparation and content of the Financial and Non-Financial Information (ESG) Report of Applus are the responsibility of the directors of Applus. The Financial and Non-Financial Information (ESG) Report was prepared in accordance with GRI standards in their core version. The NFIS included in the Financial and Non-Financial Information (ESG) Report was prepared in accordance with the content specified in current Spanish corporate legislation and with the criteria of the selected GRI standards, as well as other criteria described as indicated for each matter in the "Cross-reference table: Content of Spanish Law 11/2018" of the Financial and Non-Financial Information (ESG) Report.

These responsibilities of the directors also include the design, implementation and maintenance of such internal control as is determined to be necessary to enable the Financial and Non-Financial Information (ESG) Report and the NFIS to be free from material misstatement, whether due to fraud or error.

The directors of Applus are also responsible for defining, implementing, adapting and maintaining the management systems from which the information necessary for the preparation of the Financial and Non-Financial Information (ESG) Report and the NFIS is obtained.

Our Independence and Quality Control

We have complied with the independence and other ethical requirements of the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), which is based on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

Our firm applies International Standard on Quality Control 1 (ISQC 1) and, accordingly, maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Our engagement team consisted of professionals who are experts in reviews of non-financial information and, specifically, in information about economic, social and environmental performance.

Our Responsibility

Our responsibility is to express our conclusions in an independent limited assurance report based on the work performed. We conducted our review in accordance with the requirements established in International Standard on Assurance Engagements (ISAE) 3000 Revised, Assurance Engagements other than Audits or Reviews of Historical Financial Information, currently in force, issued by the International Auditing and Assurance Standards Board (IAASB) of the International Federation of Accountants (IFAC), and with the guidelines published by the Spanish Institute of Certified Public Accountants on attestation engagements regarding non-financial information statements.

The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement and, consequently, the level of assurance obtained is also substantially lower.

Our work consisted of making inquiries of management and the various units of Applus that participated in the preparation of the Financial and Non-Financial Information (ESG) Report, which includes the NFIS, reviewing the processes used to compile and validate the information presented in the Financial and Non-Financial Information (ESG) Report, and carrying out the following analytical procedures and sample-based review tests:

- Meetings held with Applus personnel to ascertain the business model, policies and management approaches applied, and the main risks relating to these matters, and to obtain the information required for the external review.
- Analysis of the scope, relevance and completeness of the contents included in the Financial and Non-Financial Information (ESG) Report for 2021 based on the materiality analysis performed by Applus and described in the "Commitment to our stakeholders and materiality" section of chapter 3 of the Financial and Non-Financial Information (ESG) Report, taking into account the contents required under current Spanish corporate legislation.
- Analysis of the processes used to compile and validate the data presented in the Financial and Non-Financial Information (ESG) Report for 2021.
- Review of the information relating to risks and the policies and management approaches applied in relation to the material matters presented in the 2021 NFIS.
- Verification, by means of sample-based review tests, of the information relating to the
 contents identified in the "Cross-reference table: Content of Spanish Law 11/2018" of the
 Financial and Non-Financial Information (ESG) Report for 2021, and the appropriate
 compilation thereof based on the data furnished by information sources
- Obtainment of a representation letter from the directors and management.

Emphasis of Matter

Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment establishes the obligation to disclose how and to what extent a company's activities meet the criteria for environmentally sustainable economic activities in relation to the climate change mitigation and climate change adaptation objectives for the first time for 2021, provided that the non-financial information statement is published on or after 1 January 2022. As a result, the Financial and Non-Financial Information (ESG) Report and the NFIS do not include comparative information in relation to this matter. In addition, information was included in relation to which the directors of Applus have opted to apply the criteria which, in their opinion, best enables them to comply with the new obligation and which are defined in the "European Taxonomy" section of chapter 9 of the Financial and Non-Financial Information (ESG) Report and the NFIS. Our conclusion is not modified in respect of this matter.

Conclusion

Based on the procedures performed in our verification and the evidence obtained, nothing has come to our attention that causes us to believe that:

- a) The non-financial information identified in the "Cross-reference table: GRI and Global Compact" of Applus for the year ended 31 December 2021 was not prepared, in all material respects, in accordance with the GRI standards in their core option.
- b) Applus's NFIS for the year ended 31 December 2021 was not prepared, in all material respects, in accordance with the content specified in current Spanish corporate legislation and in keeping with the criteria of the selected GRI standards, as well as other criteria described as indicated for each matter in the "Cross-reference table: Content of Spanish Law 11/2018" of the Financial and Non-Financial Information (ESG) Report.

Use and Distribution

This report has been prepared in response to the requirement established in corporate legislation in force in Spain and, therefore, it might not be appropriate for other purposes or jurisdictions.

02. LETTER FROM THE CHAIRMAN AND THE CEO

GRI 102-14

Welcome to the Applus+ Financial and Non-Financial Report 2021. We are pleased to present our company's progress to embed sustainable practices across the Applus+ Group's businesses.

The impact of the coronavirus pandemic continued to set challenging conditions in 2021, and we are proud of our professionals' energy to adapt, innovate and deliver critical TIC services for clients in global industry sectors. Through their dedication and the trust of our clients, Applus+ has advanced with our commitment to provide more sustainable services and ESG development.

To drive this momentum, we developed a new strategic plan in 2021 for 2022 to 2024, with a focus on new targets for ESG actions linked to the remuneration of the Group's management. These ambitions for the environment include reducing our Scope 1 and 2 emissions by 30% by 2024, becoming carbon neutral by 2023 and a net-zero company by 2050. These targets are integral to the three major global trends changing the economy and identified in the Group's strategic planning for 2022-2024: energy transition, electrification, and connectivity.

The Group will continue to harness our professionals' talent for technological solutions, bringing innovation and digitalisation in both our divisions' service portfolios and business processes, through continuous organic growth and highly selective acquisitions. These actions will continue to reduce business risks across the Group, while adding resilience to our portfolio of TIC services.

In 2021, the Group had strong year on year financial performance with progressive improvement throughout the year. In addition, leverage, cash flow and liquidity are healthy supporting the investment growth strategy as outlined in the 2022 − 2024 strategic plan. Four acquisitions were made in 2021 of businesses delivering services for renewable energy and sustainable models for transport. Revenue of €1,777 million was generated which was 14% higher than in 2020 and in line with the revenue generated pre-pandemic in 2019. Our financial key performance indicator of adjusted operating profit, was €175 million giving a margin of 9.9%, significantly above the previous year that was impacted by the coronavirus pandemic. The resulting adjusted earnings per share of €0.65 was double the previous year. This strong performance will allow the Board to recommend a dividend payment of 0.15 euros per share at the shareholders AGM on 31st May 2022.

This performance was supported by targeted improvements in our ESG programmes, set within the wide-ranging initiatives. The Group's progress is detailed within the report, and here we would like to highlight some key successes to building in ESG throughout our value chain.

Environmental:

- New sustainable services, such as remote and robotic inspections
- New innovations to reduce our clients' impacts, such as UAV for remote monitoring
- Increased energy efficiency and reduced CO2 emissions at facilities: 40% energy saving in Australia using solar panels and 27% CO2 emissions reduced in Spain.

Social:

 Projects to foster diversity and equality: programmes of female mentoring / shadowing and 60% of workforce represented on diversity and equality councils

- Initiatives to integrate people with different abilities into the Group, such as "Without Limits".
- Training and awareness on keeping our people safe, such as the annual Safety
 Day and Golden Safety Rules
- Achievements in Human Resource management, with 15 awards such as "Best Use of Blended Learning" and "Best Leadership Development Programme"

Governance:

- Continued development of programmes following the UN's Global Compact and commitment with SDGs
- Commitment to equality on the Board of Directors, 40% women in 2021 ahead of target date
- New policies and monitoring procedures to ensure a responsible management, such as new Renumeration Policy linked to ESG targets
- Development of policies, monitoring and training procedures to ensure the
 deployment and fulfilment of our ethical principles at Applus+, and through our supply
 chain, such as our Code of Ethics and annual training
- Acknowledgements through external ESG ratings agencies: MSCI ESG Ratings (AA), Gaïa (71/100), CDP (B) and being included in the FTSE4GoodIBEX as well as a "low-risk" rating in a new acknowledgement by Sustainalytics.

This progress in 2021 demonstrates our managements' strong principles for embedding ESG into the Applus+ Group's services and operations. In fact, this focus directly supports and propels our high-performance business model to create value for all of our stakeholders, wherever we operate.

Thanks to the efforts of the Group's professionals, under the effective Group leadership, to develop better, more sustainable services under the most challenging of conditions in 2021, and with our clients' trust and partners' collaboration, we are confident our company is well-positioned to maximize the opportunities in the newly emerging business and economic environment.

03. OUR COMPANY

Highlights

GOVERNANCE

ECONOMIC/BUSINESS

14%

revenue growth

4

acquisitions in the renewable energy sector and industries with higher added value

47

new patents

SBTI ADHESION

Development of mid-term reduction of emissions targets to limit global temperature rise to 1.5°C, and to be a net zero company by 2050

22%

consumed energy that comes from renewable sources

9%

reduction of our GHG emissions per employee

74%

employees committed to the company, 25% more than in the previous survey

>60%

workforce represented on the Diversity and Equality Committee

15

acknowledgments to our human resources management

20%

reduction in the rate of recordable accidents from the base year (2017)

40%

women on the Board of Directors

100%

employees trained and committed to the *Code of Ethics*

ESG INDICES

maintenance and improvement in our ESG ratings. New recognition, Sustainalytics, with a low-risk rating

Sustainability approach

GRI 102-11

BUSINESS CONTEXT

In 2021, the TIC sector **saw a significant boost** in activities due to global trends, expected to continue in 2022.

The Applus+ Group has identified the three **megatrends** that influence our sector most heavily worldwide, and which represent new short-, medium- and long-term business challenges and opportunities for the company. Accordingly, Applus+ has devised its strategy for the coming years in line with these trends:

1.		2.	2.		
Energy trans	sition	Electrification		Connectivity	
2-3x	Increase investment in renewables to \$500-750bn p.a. (1)	\$100bn	Investment in electrification of the mobility sector from 2020 (5)	\$5.5-12.6trn	Global economic value due to the Internet of Things (IoT) by 2030 (9)
~\$2.2trn	Average annual investment and financing in clean energy 2026-30 (2)	~33%	CAGR 2020-2025 in global electric vehicle sales (6)	\$10.5trn	Global annual costs due to cybercrime by 2025 (10)
\$300bn	Total investments in hydrogen for 2030 (3)	~75%	Market share of electric vehicles in Europe (BEV, PHEV and FCEV), PHEV and FCEV) as % of total by 2030 (7)	~24%	CAGR 2018-2023 in revenues from platforms adapting devices to the Internet of Things and Information Technology (9)
6x	Increased total hydrogen investments by 2025 (4)	20x	Increased battery production capacity in Europe by 2030 (8)	~37%	CAGR 2020-30 of practical applications of the IoT in autonomous vehicles (9)

(1) BP Energy Outlook 2020, Wind and Solar Investment 2020-50 under Rapid and Net Zero scenarios. (2) International Energy Agency, Announced Pledges by 2050 scenario. (3) Hydrogen Council, assumes all announced projects come to fruition. (4) Hydrogen Council, includes Hydrogen Council Members only. (5) McKinsey as of september 2021, includes investments in companies and start-ups working on electrifying mobility, connecting vehicles, and autonomous diving technology. (6) International Energy Association Stated Policies Scenario. (7) McKinsey, expectation under the most likely accelerated scenario. (8) McKinsey, based on announced buildup plans. (9) McKinsey. (10) Cybersecurity Ventures.

These megatrends are supported by long term TIC drivers: an increase in regulations, the complexity of operations in an increasingly globalized context, and outsourcing as an enabler for customers to focus on their core business activities.

The Applus+ Group is approaching these challenges by tailoring its **business strategy** and allocating the necessary human and material resources to **bring our services in line with global needs.** We are aware of our human and business potential for contributing to the transition that society is demanding.

FINANCIAL MANAGEMENT

GRI 207-1 GRI 207-2

The Applus+ Group is committed to **ensuring a financial performance** that continues to deliver profits to our **shareholders**, stability for our **employees** and contributions to **society** in areas such as improvements in knowledge by innovation, enhancements in safety on products, assets and infrastructures and payment of taxes.

The Board of Directors, the Chief Executive Officer (CEO), the Chief Financial Officer (CFO) and the divisional Vice Presidents are responsible for **managing the Applus+ Group's financial performance**.

The **Executive Committee** holds regular meetings to analyse the divisions' information and financial results and the level of compliance with the Group's strategic plan.

We are committed to **keeping all our stakeholders well informed,** both of our financial results and all significant events. All of the available measures are in place to ensure that **financial information** is **reliable and of high quality**.

Applus+ prepares its **consolidated financial statements** in accordance with **International Financial Reporting Standards**, as adopted by the European Union (IFRS-EU), and in accordance with Regulation EC 1606/2002 of the European Parliament and of the European Council.

The Group has an **IFRS Manual and a unique reporting package**, with homogenous charts of accounts, to ensure that all accounting principles, standards and their valuation criteria are applied homogeneously and uniformly in all of our companies.

Furthermore, we have designed and developed an **Internal Control over Financial Reporting System (ICFR)** to ensure the quality and reliability of the information published. The **Board of Directors** is ultimately **responsible** for the existence and maintenance of the **ICFR**, through the **Audit Committee**. The model implemented by the Applus+ Group is fully described in Section F of the **Annual Corporate Governance Report**. In this regard, we voluntarily ask the external auditor to check the correct implementation of the **ICFR**, and these audits have verified **its compliance** since the company was listed on the stock exchange in 2014.

In line with the Applus+ Group's business strategy and values, we are committed to improving control mechanisms and applying best practices in **tax governance** to ensure **responsible compliance with the tax laws** in force in all the countries where we operate.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE (ESG) APPROACH

GRI 102-16

At Applus+, we believe that our corporate responsibility goes beyond the financial performance of our services.

We are keenly aware of our businesses' potential to generate value for our clients, our employees, the communities in which we operate, and the planet as a whole. Consequently, we are firmly committed to giving back to society the best we can offer.

The ESG Policy, built on our core principles, is implemented in all of the Group's regions and divisions and allow us to better manage non-financial risks within a framework of double materiality.

We deploy this *Policy* through **guidelines** related to each of the **five pillars** underpinning it, aligned with the Sustainable Development Goals (SDG) and the United Nations' Global Compact.

OUR PEOPLE

- We promote appropriate working conditions based on effective occupational health and safety programmes, principles of non-discrimination and human and workforce rights.
- We strive for a fair and competitive environment that provides opportunities for professional development and growth while retaining and attracting talented professionals.
- We promote diversity among our employees based on the *Global Anti-Discrimination Policy* and the *Diversity and Equality Policy*.

- We train our professionals to develop their competencies and acquire new skills.
- We work to increase their level of satisfaction and commitment.

CORPORATE GOVERNANCE AND BUSINESS ETHICS

- We are governed by corporate rules, policies and processes that define our corporate governance model.
- We ensure compliance with our corporate governance model through our Board of Directors, ESG Committee and Chief Compliance Officer.
- We ensure the dissemination of our *Code of Ethics* and promote compliance through our divisions, partners and suppliers.
- We manage internal risks with policies in areas such as anti-corruption and others to prevent malpractice, and monitor them through our Internal Audit department.

STAKEHOLDER ENGAGEMENT

- We strive to provide our stakeholders with the best results by operating ethically and responsibly.
- We foster close communication with our customers to enable us to understand and anticipate their needs and meet their expectations.
- We develop a transparent investor relations strategy, managing their expectations and providing a two-way dialogue on their concerns.
- We foster partnerships that create synergies to expand our financial and non-financial performance. We convey our principles to our supply chain.
- We engage with local communities in all the countries that we serve, supporting their development and helping to improve their opportunities.
- We work to improve communication channels to provide fast and effective responses to all our stakeholders.

INNOVATION

- We foster innovation by building ESG principles into the expertise of our professionals and the services we develop.
- We create a working environment that fosters innovation, incorporating digitalisation as an inherent part of any new development, providing the necessary resources.
- We integrate innovation programmes in our different business units, stimulating and organising initiatives to promote innovative thinking among our employees.

SUSTAINABLE PERFORMANCE

- We are involved in the preservation of our environment and firmly committed to the actions to mitigate climate change.
- We apply policies and procedures to manage our operations based on the prevention of potential environmental impacts.
- We define comprehensive controls to ensure compliance with the environmental laws that apply to us in all the countries where we operate.
- We develop innovative services that help reduce the potential environmental impacts of our customers around the world.

ESG ALLIANCES

GRI 102-12 GRI 102-13

We recognise that through partnerships and participation in various initiatives, we can further our ESG commitment.

INSTITUTION/ PROGRAMME	PURPOSE	Applus+ POSITION
United Nations' Global Compact	This initiative seeks to align organisations' strategies with 10 universal principles concerning human rights, labour, the environment, and anti-corruption	Signatory
FORÉTICA	Leading ESG association that certifies the ESG systems of businesses and professionals in Spain and Latin America.	Partner
ADCOR Foundation	Non-profit organisation that supports equal employment opportunities for people with diverse abilities in A Coruña, Spain.	Sponsor
Inclusive Business Network	This Government of Andorra initiative helps people with disabilities to join the job market.	Member since 2021
Prodis Foundation, Down's Syndrome, Aura, Fademga, Asindown, Aspanri, Matamoros Corporation of Colombia and ONCE	Foundations and associations that promote talent with diverse abilities.	Partner
Portalento and Incorpora	Employment platforms that help workers with diverse abilities to find work in companies.	Partner
"Sin Límites" (Without Limits) Programme	This initiative helps people with intellectual disabilities to find jobs.	Partner
European Commission Diversity Charter	European Charter of principles signed by organisations to showcase their commitment to diversity and inclusion in the workplace.	Member (renewal 2021- 2023)
"More Women, Better Businesses"	A Spanish Ministry of the Presidency initiative to encourage equal participation of women and men in decision-making in business and the economy.	Participant in the "Promociona" programme in 2021
Women's Empowerment Principles defined by the United Nations	This UN initiative aims to promote equal opportunities, integration, and non-discrimination within an organisation.	We are adopting the principles

CASE STUDY: INCREASING OUR ESG RATINGS

In 2021 the performance of the Applus+ Group in ESG has received a major boost through a new acknowledgment. **Sustainalytics** has rated the Group's ESG risk level to be 15.6, positioning our company in the "low risk" group of companies. This places the Applus+ Group among the 11% of the world's best-rated companies.

In addition, we have improved **MSCI**'s valuation from 6.2 to 6.7 maintaining the AA rating together with other recognitions such as the B rating in **CDP**, above the sector average or the **Gaïa Rating**, with a valuation of 71 out of 100, which places us in the top 20% of companies best rated by Gaïa Rating.

These achievements, and all the other ESG ratings awarded, encourages our professionals to keep on improving.

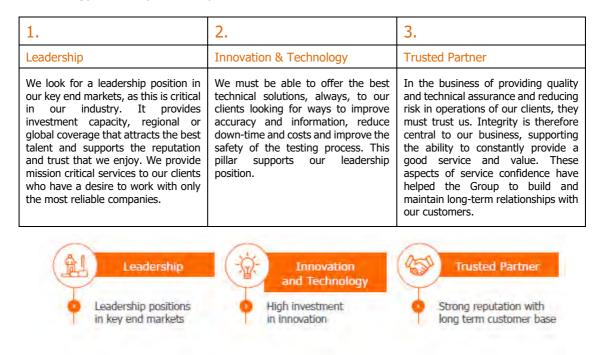

Strategic Plan 2022-2024

GRI 102-16

The new strategy is established within the framework of responsible and sustainable business management that contributes to society.

The strategy is built upon three pillars:

These three pillars combined with market leading Environmental, Social and Governance (ESG) practices and aligning our services to some sustainability megatrends will ensure our long-term relevance to our customers driving good financial performance and sustainable value creation.

OUR THREE-YEAR STRATEGY PLAN 2022-2024

A new three-year plan including financial targets was communicated to the market on the 30th November 2021. The previous three-year strategy plan was for the period 2018-2020 which was met or exceeded in 2018 and 2019 and on track to being achieved in 2020 until the impact of COVID-19 in the first quarter of 2020.

The purpose behind this new plan is "Unlocking Value" for the benefit of our shareholders and other stakeholders. The Group has made material progress over the last 12 months in improving our portfolio mix towards higher growth end markets and at the same time taking actions to further mitigate business risks.

The key tenets to the Plan are:

Towards higher growth end markets and to mitigate business risks

Energy transition, Electrification, Connectivity

2024 targets linked to management remuneration as of 2022

Continuous investment in organic and inorganic growth.

Dividend distribution and share buyback

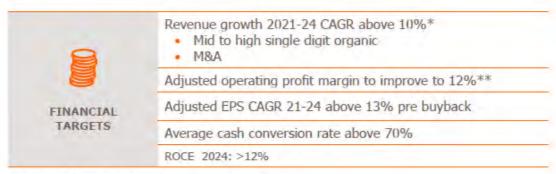

The plan targets superior shareholder return generation through the winning formula of the three strategic pillars whilst evolving the portfolio of businesses towards higher growth end markets to mitigate business risks through both active portfolio management and accelerating growth in structurally attractive segments aligning to the global megatrends of Energy Transition, Electrification and Connectivity. The long-term testing, inspection and certification drivers of increasing regulations, increasing complexity of products and increasing levels of outsourcing from industry to specialised providers like Applus+ support the growth in these markets. And by linking the focus on ESG to management remuneration ensures the full commitment by all to the benefit of the business and all stakeholders. Shareholder returns will be enhanced through these actions and including annual dividend distributions and a share buyback target.

The Energy Transition global megatrend is driving many parts of Applus+ portfolio of businesses from growth in testing and inspection required in the Renewables and Infrastructure sectors to testing and inspection of green vehicles. Electrification and Connectivity are also powerful global drivers of all things electrical from personal transportation and batteries to the cybersecurity risks that ensue from this. All four divisions of the Applus+ Group have significant portions of their businesses aligned to these megatrends and marketing, resources and investment is being directed to those areas that are most likely to benefit.

The active portfolio management includes a target spend of €300 to €400 million for acquisitions of companies over the plan period of 2022 to 2024 whilst also making some divestments. This will result in a more balanced and valuable business.

NEW FINANCIAL TARGETS

The three-year financial targets that result from the strategic plan are as follows:

^{*}Continuining operations

NEW CAPITAL ALLOCATION POLICY

The capital allocation objective is to optimise returns to shareholders by maintaining strong cash flow generation and following a value-additive capital allocation strategy that includes:

^{**} Excluding IDIADA accelerated depreciation (~80bps in 2024)

Sustainability ambitions

GRI 103-2 GRI 103-3

The results in 2021 endorse our ESG performance, successfully meeting the most of ambitions defined for the year.

ESG GOAL	Target	2021
Corporate governance and business ethics		
Uphold the principles of good governance and operate ethically with the best results.	and responsibly to	provide our stakeholders
% Compliance with applicable CNMV recommendations	≥85%	93%
% Employees receiving <i>Code of Ethics</i> training (induction and refresher training) and signatories to their commitment to the Group's <i>Code of Ethics</i>	<u>></u> 98%	100%
Our people Attract a diverse, committed and talented workforce, providing Group's vision of zero accidents.	a safe and health	y workplace under the
Voluntary turnover ratio	≤12%	11.03%
Ratio of internal promotion for vacancies in management positions	≥75%	73.2%
% Employees covered by Diversity and Equality Councils	<u>></u> 50%	>60%
Local employment ratio	≥86%	86%
Ratio of people with diverse capacities in the Applus+workforce	≥1.7%	1.11%
Fatal accidents	0	0
Frequency of all recordable cases (26% reduction since 2017)	≤0.95	1.02
The Environment Minimise our environmental footprint; build resilience to impact environmental impacts of our clients' operations through the se		
% of energy from renewable sources in electricity consumption and reduce the environmental impacts of our customers' operations through the services Applus+ offers		70%
% of reduction in emission-per-employee intensity ratio (Scope 1 and 2) compared to 2019	<u>></u> 7%	9%

Following the experience in the first year, we decided to define targets linked to the new strategic plan, with fewer targets so the company can focus on the most relevant issues. We have also built these targets into our remuneration scheme, thereby extending the level of ESG commitments across the whole organisation.

	VISION	2024 TARGETS
ENVIRONMENT	Contribute to the environment by improvements in our operations and assisting our clients, and mitigate the negative impact of climate change on the Group's businesses.	30% reduction in Scope 1 and 2 emissions relative to 2019 results. Be carbon neutral in Scope 1 and 2 by 2023 Plan to be net zero by 2050 according to SBTi
SOCIAL	Attract diverse, engaged and talented people and empower our professionals to reach their full potential in a safe and fulfilling work environment.	≥ 40% of management positions and positions in Group Corporate Services filled by women 10% reduction in Lost Time Injury Frequency
GOVERNANCE	Respect our principles of good governance and operate ethically and responsibly, with the highest integrity that our stakeholders expect and deserve.	≥ 90% compliance with applicable CNMV recommendations ≥ 98% of professionals completing the course and signing the Code of Ethics commitment

ACKNOWLEDGEMENTS	✓ ✓	MSCI ESG Index (AA) - CDP (B) – Above average	✓	Gaïa (71/100) – Top quintile of its category
	✓	and in the "Management" category Sustainalytics – 15.6 Low risk	✓	FTSE4Good IBEX - Inclusion

Acquisitions and diversification

At Applus+, we continue our growth strategy aimed at diversifying our services towards more sustainable sectors, such as renewables and infrastructures, towards sectors with greater added value, and at enabling the transition towards a development model that responds to the challenges posed by climate change.

March

We acquired **Inecosa and Adícora**, two subsidiaries of the Iberdrola Group, which joined our Energy & Industry Division in Spain.

These companies provide engineering and consulting services focused on electricity generation, transmission and distribution, and develop large construction projects, both industrial and civil.

With this acquisition, we are broadening our scope of activities in the **renewable energy sector**.

May

IMA Dresden is an independent European structural and material testing laboratory for product development, located in Dresden (Germany).

By adding IMA Dresden to our Laboratories Division, we complete the range of services we provide to our clients, enabling the evolution of transportation systems towards more efficient and sustainable models.

July

Enertis is a Spanish company that operates in the photovoltaic solar energy and energy storage sectors. It is present in Spain, the United States and Latin America.

Joining our Energy & Industry Division, this acquisition represents an important reinforcement of Applus+ services, which are aimed at the **renewable energy sector**.

October

The **Instrumentation Area and Metrology Laboratory** of the company **Mipel, S.A.,** located in Leganés (Madrid), is integrated as part of our Laboratories Division.

This acquisition is part of the strategic development plan for the Applus+ Metrology area, and allows us to provide a wider range of services in the **metrology sector** in Spain.

Living with COVID-19

Throughout 2021, the pandemic has continued to condition our daily lives and entrepreneurial activities. At Applus+, we have pursued the implementation of measures in line with our business strategy and ESG commitment, focusing our efforts of action on:

- ✓ protecting our employees' health
- √ adapting our activities and services
- ✓ providing maximum support to society

Protecting our employees' health

- Corporate guidelines and safety protocols defined in line with the pandemic's development at any given time.
- Action plans for the prevention and control of risk of contagion within our workplace, compliant with guidelines and protocols.
- ✓ Follow-up and monitor the impact the pandemic has had through reporting cases via our Governance Risk Compliance (GRC) tool.
- Specific professional training as an essential tool to prevent the virus' transmission while carrying out our activities.
- ✓ Limitation of journeys to respond to the pandemic situation in each geographical region.
- Flexible home working to facilitate conciliation, particularly in the pandemic's most critical moments.
- Periodic Rapid COVID-19 Diagnosis Test Campaigns in the Bellaterra Technological Centre (Spain) and in the IDIADA Division's facilities in Spain.

Adapting our activities and services

- ✓ We have continued to foster digital transformation to develop the way in which we perform our services, and how we interact with our clients.
- ✓ We have further developed remote solutions, such as UAV drone inspections, robotised inspection systems and other automated devices that incorporate state-of-the-art cameras and sensors adapted to the infrastructures requiring inspection.
- ✓ As a certifying and testing body, the Laboratories Division provides standardisation services for hygienic masks. In 2021, we incorporated the new requirements for these masks, as issued by the Spanish Government's Orden-CSM-115-2021.

Providing maximum support to society

- ✓ We provide support in diverse countries to social groups who have suffered from the pandemic's consequences more markedly. For example, in Costa Rica we have:
 - Implemented a voluntary programme at Applus+ that has delivered foodstuffs to families at risk.
 - Installed, through the project entitled "Remanga2", washbasins and disinfection stations in schools to be able to reopen in adherence with the protocols that guarantee student's healthcare safety.

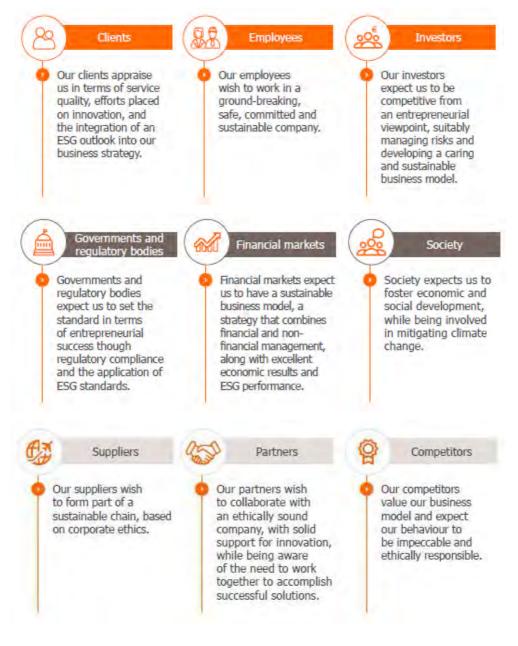

Stakeholder engagement and materiality

GRI 102-40 GRI 102-42 GRI 102-43 GRI 102-44 GRI 102-47 GRI 102-49 GRI 103-1 GRI 203-2 GRI 207-2

BREAKDOWN OF OUR STAKEHOLDERS RELATIONSHIP

The Applus+ Group is fully cognisant of the significance our stakeholders endow us in developing our business, and their **needs and expectations** are at the forefront when defining and deploying our entrepreneurial strategy. This means that by working together we maintain an ongoing **dialogue** grounded on trust, and we **report back to our stakeholders with openness**, so that they can promptly view the results of our endeavours.

Three levels of relationship have been defined, scaled from lesser to greater importance for Applus+: **level 1**, **level 2** and level **3**.

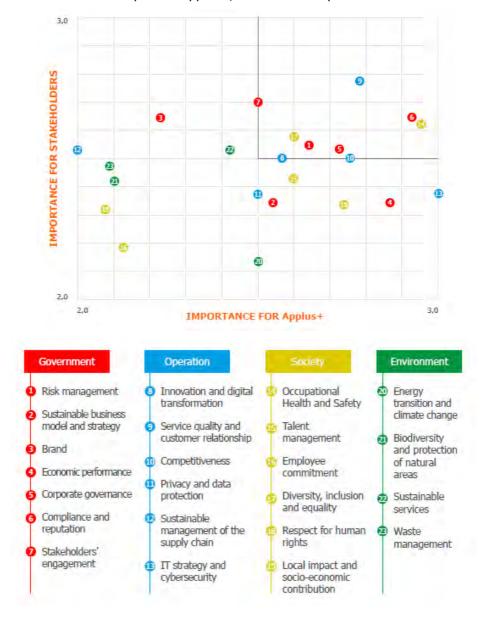

MATERIALITY ANALYSIS

In 2021, we implemented an objective methodology to ascertain which specific **topics** are considered the **most relevant** by our stakeholders.

1. Identification of relevant topics: through analytical and contextual comparison with competitors in the TIC sector and other relevant sectors.

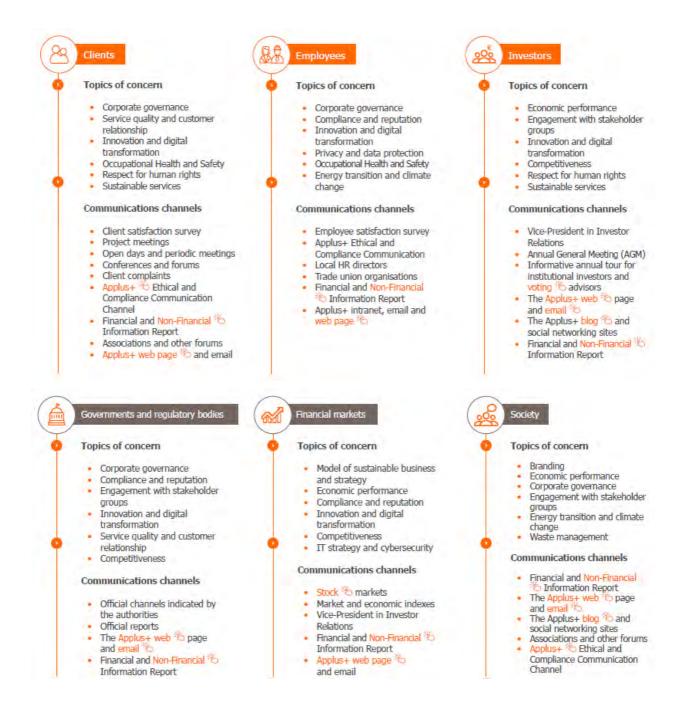

23 topics have been identified and arranged into four areas: **governance**, **operation**, **society** and the environment.

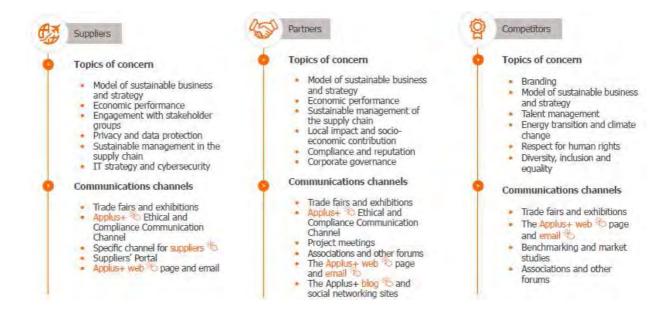

- 2. Through surveys to company executives (divisional and corporate functions) and regional managers of all geographical regions, each topic is appraised according to its importance, considering them from the outlook of Applus+, as well as that of the main stakeholders.
- **3.** The results of the survey produced the new **Materiality Matrix**, which encapsulates the significance of the material topics for Applus+, vis-à-vis the importance for our stakeholders.

DIALOGUE WITH OUR STAKEHOLDERS

We have identified the main **issues of concern,** selecting the six topics obtaining the highest score per stakeholder. To provide greater response with regard to these topics, specific communications channels are provided.

IMPACT ASSESSMENT

GRI 203-2

The company's activities generate certain impacts in the geographical regions where we operate. These impacts, which in many cases are positive, are related to the issues analysed in the materiality analysis.

To analyse the **DIRECT IMPACT** of the Group's activities, **11 material issues** were considered. The methodology used is grounded on the utilisation of **performance indicators** relating to each material issue. Each issue is considered from zero to one hundred percent, using the following criteria:

- Prioritisation of material issues on the part of stakeholders.
- Prioritisation of material issues on the part of the Applus+ Group.

The indicators used are the following:

ISSUE	INDICATORS
Risk management	Risk management system, which integrates economic, social and environmental issues.
Corporate governance	Regulations that govern behaviour
Reputation and Compliance	Fulfilment and commitment with the Ethics Code
Engagement with stakeholder groups	Bi-directional effective communications with stakeholders.
Innovation and digital transformation	Hours devoted to innovations; patents.
Service quality and customer relationship	Clients in the medium- and long-term.
Competitiveness	Ranking in the markets we operate
Occupational Health and Safety	Accident rate, hours devoted to training in Occupational Health and Safety
Diversity, inclusion and equality	Industrial integration programmes, gender split in the Group and executive posts.

Firstly, each value obtained for **each material issue will be considered** according to its importance for Applus+ and stakeholder groups. The expectations of stakeholder groups and the external context are considered as part of the assessment process.

Finally, a value is obtained from 1 to 5 for each indicator, assigning **quantitative or qualitative criteria and** bearing in mind the **performance of our company** within the framework defined through the expectations of stakeholder groups.

The main impacts are as follows:

- 1. Economic Performance
- 2. Innovation and digital transformation
- 3. Compliance and reputation
- 4. Competitiveness
- 5. Quality of service and relationship with clients

Analysing the information in the different blocks, it can be seen that the areas of Governance, Operation and Environment have the **greatest impact** (values >70%), followed by the area of social with a **medium impact** (>60%).

To analyse the **INDIRECT IMPACT** of the Group's activities on our stakeholders, focus is placed on the nine issues that were material in the analysis for 2021

TOPIC	INDIRECT IMPACT		Clients	Investors	Society	Governments and regulatory bodies	Financial markets
Risk management	Our risk management allows the Group to be prepared for a changing context and offer our stakeholders a stable and resilient company .	X	X	X			х
Corporate governance	The rules for ethical and responsible behaviour of which the company's management follow fosters a trust-based relationship with our stakeholders.	The rules for ethical and responsible behaviour of which the company's management follow fosters a trust-based relationship with our		X	X	х	X
Reputation and Compliance	The integrity and responsibility that governs our corporate behaviour, contribute to extending X X these values to our environment.		Х	х	х		
Engagement with stakeholder groups	Permanent dialogue with our stakeholders facilitates the implementation of actions to meet their expectations and decisions, taking into account all points of view .		X	X	х	х	
Innovation and digital transformation	Our intense innovation work boosts development and growth in different fields of knowledge in over 70 countries	n different fields of		X	X		
Service quality and customer relationship	Offering an excellent, tailored service contributes to the development of companies and industrial sectors around the world.		X	X	Х		
Competitiveness	We are able to include in our portfolio of services those that provide enhanced value to our clients.		X				
Occupational Health and Safety	Our health and safety operating policies contribute to create a culture of employee protection all over the world.	X	X		Х	х	
Diversity, inclusion and equality	With the application of diversity, inclusion and equality principles and practices, we are contributing to extending these values in many communities around the world.	X	X		Х		

Supply chain management

GRI 102-9 GRI 103-2 GRI 204-1 GRI 308-1 GRI 414-1

The basic principles of our purchasing processes are **objectivity and independence** in purchasing decisions, and **integrity, transparency**, **ethical and responsible** behaviour in supplier relations.

Our purchasing process comprises:

1.	2.	3.	4.	5.
POLICIES	CONTRACTS	COMMUNICATION	TECHNOLOGY	RISKS
Definition of our supplier-oriented policies, aligned with the objectives of the procurement process.	Management of strategic-supplier corporate contracts to meet the whole company's needs.	Optimisation of our supplier communication mechanisms to continue developing new capabilities that tend to boost value for money.	Rolling out technology that assists in reducing lead times and adds efficiency to our procurement process.	Risk reduction and building successful relationships.

Before suppliers can work with Applus+, all the Group's suppliers undergo an objective evaluation process that includes compliance with international standards for human rights, labour, environmental, business ethics and anti-corruption.

Once approved, suppliers must comply with our policies for **Code of Ethics**, **Anti-Corruption**, **Environment** and **Health and Safety**.

Our **Corporate Procurement Department** is responsible for the process of planning, implementing, assessing and controlling strategic and operational procurement decisions.

- The department strives to ensure our policies are deployed properly in all of the countries where we operate, overseeing the performance of the teams responsible for compliance at divisional, regional and local level.
- The department ensures that the Supplier Policy is applied properly through the QSens tool, which provides pertinent indicators about the qualification of all the Group's suppliers.

HIGHLIGHTS IN 2021

2021 was marked by a **shortage of raw materials and energy crisis**, prompting a global situation and posing major challenges that have forced the Group to seek alternative sources of supply, while always maintaining the standards that define the Applus+ Group's procurement process.

In 2021, we worked on **optimising our supplier communication mechanisms**, through further digitalisation, to better convey our *Code of Ethics*, anti-corruption policies and environment-related commitments.

We expanded the framework of our qualification process to include aspects of **cybersecurity** to guarantee the protection and security of information throughout our supply chain. In addition, to ensure **our data is protected**, our qualification process now features data protection related questions.

Our supply chains around the world is extensive and diverse. This is why in 2021 we focused our efforts on improving the management of our **supplier portfolio** to ensure that our needs in terms of **flexibility and readiness** are met, both at business and **compliance** level.

To this end, we designed **a new supplier-management model** based on new *Ariba*, providing one single, centralised portfolio for the entire Group. This allows new suppliers to be added simply and intuitively, complying with the criteria set out in our procurement policies. The model is being rolled out steadily throughout all of the companies in the Group, and this year, 40% of countries have already started using this new tool.

Applus+ is firmly committed to contributing to the socio-economic development of the countries where we operate, which is why our policy continues to ensure the **preferential use of local suppliers**.

KPI	2020	2021
total expenditure with suppliers (M€)	539	569
% of products and services purchased locally	95%	96%
total number of worldwide suppliers	61,325	44,113
% of new strategic suppliers approved using environmental and social criteria	100%	100%
% of operations with SAP	41%	40%
Relevant incidents related with supplier management		0

Contribution to the Sustainable Development Goals

Applus+ is aligned with the **United Nations' 2030 Agenda for Sustainable Development** in its aim to set countries and their societies on a path to improve the lives of everyone, leaving no one behind.

We contribute to positively impact many of the Sustainable Development Goals (SDGs), and we are specifically committed to the nine most relevant to our activities.

04. VALUE TO COSTUMER

GRI 102-12 GRI 103-2 GRI 103-3 GRI 418-1

Overview and approach

The services Applus+ provides, and the way we deliver them, enable our clients to make their businesses more **productive and efficient** and to offer their own clients a **top-quality service** to tackle new **global challenges**. We support our clients to move towards **sustainability**, protecting their **people**, assets and infrastructure.

Our business strategy is based on excellence in our operations, which is underpinned by a management system governed by international standards and adapted to the diversity of our services. This is delivered within the framework of our **global** *Quality, Prevention and Environment policy*.

Over 80% of our company's operations are covered by certification under ISO 9001 requirements and comply with other accreditation standards with ISO aligned system requirements, such as ISO/IEC 17020 and ISO/IEC 17025. Compliance involves third-party assessment and auditing, which attests to the robustness of our quality management system.

Rigour, **impartiality**, **confidentiality**, **integrity**, and **truthfulness** in all our activities, together with strict compliance with our *Code of Ethics*, are the principles underlying how we deliver our services.

Our **highly specialised and committed technicians** apply their extensive global knowledge to local problem-solving.

Technology-based **innovation** drives our development, which are always in collaboration with customers, partners and suppliers to maximise **synergies**.

Our **third-party acknowledgments** endorse our efforts and achievements and demonstrate our competence in the TIC sector.

Customer satisfaction and our **commitment to sustainable development** drive us to **continuously improve our management and performance.**

We regard **complaints** as an opportunity to improve, and we collect them through our local channels. All complaints are analysed by our teams and respond to the client, and lead us to take action to resolve their causes when necessary. For Applus+, each and every complaint matters, and each is considered carefully, and many complaints prompt us to take improvement actions.

In 2021 we received a total of 565 complaints, 433 of which were closed during the year, while the remainder are in the process of being analysed and resolved.

As is customary, the Applus+ Group joined in the celebration of **World Quality Day** in **2021** to highlight our commitment.

With the slogan "Closer to our clients", in 2021 we encouraged our employees to continue improving our clients' experience by entering into constructive dialogue with them, which is essential for ascertaining their expectations and the extent to which we meet them.

Innovation and Digitalisation

Innovation is at the centre of every aspect of the Applus+ Group's processes and services. Moreover, innovation is integrated into our client relationships and in the working methods of all the Group's professionals.

In 2021, we focused on four relevant aspects:

- Digital transformation is an essential component in internal management processes, and offers new ways of relating to clients to add value to our services. Digitalisation in all areas of society and the economy requires guaranteeing security and interoperability, both for devices and software. Applus+ offers innovative solutions in terms of cybersecurity and functionality of connected systems.
- We contribute to sustainability and the reduction of environmental impacts
 through innovation in diverse sectors, most notably in the transport and energy
 sectors. We work intensively in the field of sustainable, connected vehicles and
 renewable energies to facilitate their development, implementation and management.
- We **offer innovative remote-inspection solutions** that improve our clients' experience and make inspections safer for our technicians. These new ways of working have come into the spotlight, particularly in the context of the coronavirus pandemic.
- We have launched the Applus+ Ventures initiative, our Corporate Venture programme
 to increase our knowledge, together with other leading companies in technology and
 digitalisation.

Furthermore, we continue to increase our patent portfolio, mainly in the fields of non-destructive testing and composite materials processing. We always innovate with our clients as a reference, seeking to offer solutions to their challenges and assisting in their processes for development and technological transformation.

RESULTS IN 2021

897 people involved in and contributing to innovation projects, dedicating 313,380 hours.

Our teams worked on 178 projects for research, development and innovation.

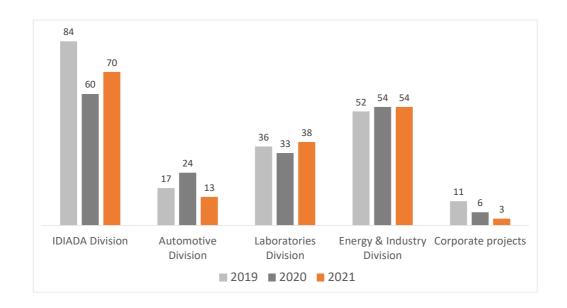

We have increased our intellectual property portfolio by 47 patents from 9 different families.

At present, we hold a total of 146 patents in force and 34 active patent families.

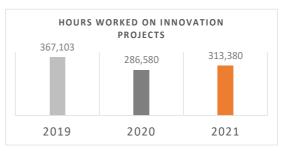

To promote our work in innovation, we initiated and collaborated on many types of activities and forums:

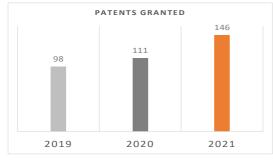

64 agreements with external bodies, 60 oral contributions to technical events, 49 technical publications, and 96 training sessions.

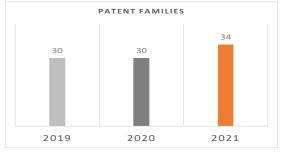

NUMBER OF INNOVATION PROJECTS PER YEAR AND DIVISION

SUSTAINABLE, CONNECTED AND AUTONOMOUS MOBILITY

Applus+ participates in innovation projects to achieve more sustainable transport systems in collaboration with the main bodies and companies at a European level. We work alongside other companies in the sector to advance new technological improvements for **electric, connected and autonomous vehicles,** guaranteeing their functionality and safety.

Standout examples include the European projects from the IDIADA Division, **ASSURED**, whose goal is to develop smart fast-charging solutions for heavy duty vehicles, and **ENSEMBLE**, in which we have developed the technologies that have made the **first platoon of multi-brand trucks connected** along European motorways possible. Furthermore, the Division has joined forces with **S2A** to investigate the aerodynamics of real driving events.

Thanks to its technological excellence, the IDIADA Division has been designated as a **Technical Service for Regulation No. 155 of the United Nations on Automobile Cybersecurity**, an increasingly critical aspect in the new connected and autonomous vehicles. In addition, the Division has been selected by the US National Highway Traffic Safety Administration (NHTSA) to conduct dynamic rollover tests in the New Car Assessment Programme (**NCAP**).

In the field of electric-vehicle testing, the Laboratories Division has designed and built innovative test benches to validate electric motors in its different laboratories. The Division is also expanding its capacities for **testing batteries and large vehicles**, such as electric buses or heavy duty vehicles.

The Automotive Division, with its project demonstrating the ability of standard on-board diagnostic (OBD) readers to access on-board fuel consumption metering (OBFCM) data in new Euro VI D vehicles, has achieved that **statutory vehicles inspections be considered as a viable means for collecting emissions data by the General Directorate of the Environment of the European Commission**, now being included in the new Regulation 2021/392 approved in February 2021. With this milestone, statutory vehicle inspections not only contribute to vehicle safety and pollution control at the local level, but go one step further to become a **relevant mean in the worldwide fight against global warming**.

CASE STUDY: ENVIRONMENTAL TESTING FACILITIES FOR HIGHLY-AUTOMATED VEHICLES

The IDIADA Division contributes to the design of automated driving systems and conducts tests to ensure that these systems will function in the different possible driving conditions.

Within this context, the Division has signed an **agreement with Mitsubishi Heavy Industries (MHI)** to collaborate on **developing facilities for controlled environmental testing of highly automated vehicles (AV).** The project is developing a test scenario with a combination of virtual and physical configurations to simulate controlled climatic and lighting conditions, such as snow, fog, rain and glare.

With the data obtained, information will be available to speed up the operational design time and **improve the safety and reliability** of this type of vehicle.

The implementation of the work agreed with MITSUBISHI will provide the automotive industry with unique facilities for environmental tests under controlled conditions. This development will also improve safety in the field of mobility through verification systems using advanced digital technologies.

RENEWABLE ENERGIES

The Energy & Industry Division enjoys more than 20 years of global experience in the renewable energy industry, and we are fully involved in projects based on all of the key renewable technologies: **wind, solar, energy-storage solutions and green hydrogen**. This includes services for all of the generation and distribution stages, as well as the operation and maintenance phases.

For the solar **photovoltaic industry**, Applus+ specialises in property engineering, which includes vendor surveillance and engineering services, along with quality control and supervision during the construction and commissioning phases. In 2021, the incorporation of Enertis to the Group added, alongside knowledge in photovoltaic solar energy, extensive experience in innovation based on digital solutions, including machine learning and data science.

All of this experience drives our professionals to innovate in those fields in which we have expertise and can add value for our clients. For example, with regard to **wind energy**:

✓ The laboratories in Spain and Germany, part of the Laboratories Division, are testing materials to assess their suitability in the manufacture of wind turbine blades and their components, as well as carrying out structural tests on the systems for fixing the blades to the turbine.

✓ Our specialists from the Energy & Industry Division in Northern Europe have developed a **specific installation** to **test tungsten tubes**, which are part of wind turbines at pressures of 500 bar and elevated temperatures.

For **green hydrogen** and energy-storage projects, we participated in the first forerunner projects being developed in Spain for the main clients in the sector, such as the construction of a **green hydrogen generation plant in Barcelona**.

Renewables are a globalised sector, comprised of highly specialised local markets. This is why at Applus+ we are able to provide an international outlook, while at the same time adapting to the situation of each country. To further this in 2021, Applus+ joined different associations around the world that support the common goal of sustainability, and we participated in presentations contributing our knowledge of inspection and verification in the renewable energy industry.

CASE STUDY: INSPECTION AND TESTING AT PHOTOVOLTAIC PLANTS USING ADVANCED TOOLS

The comprehensive management of photovoltaic plants is an essential issue for their owners and managers, who seek solutions to improve the efficiency of operations and to have information on their maintenance more interactively and timely.

Over many years, the Energy & Industry Division has facilitated the management of electrical installations and equipment through **TRAZA+**, a tool adapted to new technological requirements and clients' needs, and which has expanded its scope to include wind farms and photovoltaic plants. However, photovoltaic plants require a sizeable array of tasks that entail the recording of vast amounts of data in a systematic way, which makes the analysis process and subsequent diagnostic issuance difficult.

With the development of **BELENUS**, the aim is to incorporate advanced tools that help to improve the efficiency in the analysis of the data, as well as offering the client, and the manager of photovoltaic plants, a management system offering enhanced added value.

With these innovative solutions, we contribute to the operational improvement of renewable energy facilities and their maintenance and availability, extending their useful life.

OPTIMISATION Decrease in execution times owing to the digitalisation of the processes of registration, storage and exploitation of information. GREATER ADDED VALUE The client can access historical records, analyse the evolution of the plant and get help for decision making from the traza+ platform. IMPROVED QUALITY Shorter response times in sending information and fewer errors through the introduction of validation processes. COMPETITIVE ADVANTAGE Positions Applus+ as a reference in photovoltaic testing. ELIMINATES ACCESS BARRIERS The trend in technical specifications for PES and PV maintenance is to establish the need for an information

exchange platform.

REMOTE INSPECTION AND MONITORING SYSTEMS

In recent years, the Energy & Industry Division has been developing remote inspection solutions, such as inspections with drones, robotic inspection vehicles and other automated devices that incorporate cameras and sensors depending on the types of elements and infrastructures being inspected. Through these developments, we have helped our clients maintain their operations despite the coronavirus pandemic, thereby saving time and reducing risks.

Through the **ATR (Applus+ Remote Technical Assistant) system**, Applus+ has successfully carried out the remote inspection of a 500-tonne crane in the United Arab Emirates. The ATR system, which incorporates augmented reality, has allowed this critical operation to be carried out by a single inspector at the inspection site, communicating with the other team members in real time. Through this remote system, **remote supervision tests** have been carried out in an agile and precise way for one of the main electricity companies in Spain.

Our technicians use of **drones** for the **remote monitoring** of the dismantling of a **thermal power plant** is another example of remote work made possible thanks to new technologies. We have also developed semi-intelligent 3D-modelling projects of industrial facilities using BIM (Building Information Modelling), based on real data obtained from aerial inspections, which makes it easier for our clients to make reliable decisions.

Collaborative work with experts from other European countries has been fruitful in the **PAV-DT project**, which is funded by the European Union. This project offers a predictive tool based on an advanced algorithm and a cloud platform, which ensures continuous monitoring of the condition of a pavement, and can be installed in any type of vehicle. Similarly, in the field of transport infrastructures, our Group, **in collaboration with Calsens** (experts in monitoring using **fibre optic technology**), **monitors bridges on the Valencian Community's rail network** using sensors to send data in real time via fibre optics.

CASE STUDY: REMOTE VENDOR SURVEILLANCE

Supplier inspection and surveillance services require specialist technicians, and confirmation of product conformity may require multiple disciplines in the same or at different stages of assembly. **The coordination of the inspection stages** adds logistical challenges, especially at a time of pandemic-related mobility restrictions.

Based on previous knowledge on the use of video and audio technological devices for use in restricted access situations, a methodology was developed to carry out **verification inspections and remote surveillance**, **in collaboration with clients and suppliers**. This methodology has been refined by reducing face-to-face inspection teams and allowing remote access for experts, meaning that **several stakeholders could confirm compliance in real time**.

The auditable video footage is also used as a learning resource and forms the basis for continuous training of new inspectors.

Remote inspections in multiple disciplines and verification techniques have been completed in accordance with project delivery requirements, positioning Applus+ as a trusted partner for companies that need solutions to control operations remotely in unexplored regions.

Far away in a facility on the other side of the world, photo and video footage are captured in HD via mobile device.

An individual remotely views the footage in real time performing essentially a visual inspection/witnessing.

DIGITAL TRANSFORMATION

In addition to the implementation of digital technologies in our innovation projects, which give rise to new state-of-the-art services with high added value, we constantly look for ways **to improve our clients' experience** through innovative solutions, while taking advantage of the potential of digitalisation.

For clients to be able to actively participate in the monitoring and control of tests from their workplace, the Laboratories and IDIADA Divisions had already developed solutions in previous years, such as **e-testing**, **Life Streaming and remote assistance solutions**. These have continuously been evolved to add more functionalities by taking advantage of technological progress.

We facilitate the **relationship between clients and suppliers through portals,** both for communication and data-access purposes, as well as for the provision of advanced services. Examples include the vehicle proving ground and supplier portals at the IDIADA Division, and **IRIS**, the IDIADA Division's *Regulatory Information System*, which brings together the knowledge of the homologation experts for the current and future regulation of automotive vehicles internationally, and makes the regulatory data available to the client through an online platform.

At Applus+, we design and implement advanced digital solutions to **improve the efficiency of our internal processes**. This covers all areas of the company, from management to testing, inspection and engineering processes, and we seek new ways of working that **improve the employee experience**, such as **Virtual 3D Learning** from the Automotive Division.

In the increasingly digitised and interconnected environment, ensuring **interoperability** becomes essential. The Information Technology testing team at the Laboratories Division, in collaboration with Discover® Global Network, have developed a test tool to verify **contactless mobile payment applications**. Both companies are already working on a new adaptation of the "Discover Cloud Payment" testing software to validate mobile payment solutions with QR.

CASE STUDY: aSeller+, THE APPLUS+ SOLUTION TO DIGITALISE STATUTORY VEHICLE INSPECTION

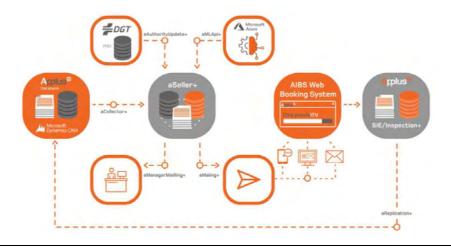

The Automotive Division has digitalised its statutory-vehicle-inspection stations to continue improving the efficiency of the management of the centres, as well as the gathering, processing, transfer and traceability of inspection data.

aSeller+ is an innovative tool that centralises all information related to customers, integrates with all our applications and programmes, and allows our technicians to understand, analyse, segment and streamline all inspection processes. Our proprietary aSeller+ tool manages notifications and notices to customers, commercial actions, the appointment, the payment and the inspection itself until the reporting, placing the client at the centre of our business.

Thanks to aSeller+, the inspection process is now **more efficient and safer** because the tool minimises interaction in the centres, a fundamental aspect within the context of a pandemic.

The **digital transformation of inspection processes** is another example of the company's commitment to innovate and pursue excellence in our services, adapting at all times to our clients' needs.

APPLUS+ VENTURES

The rapid evolution of technology, digitalisation and the energy transition are transforming all sectors. Within this backdrop, entrepreneurship ecosystems are an increasingly relevant source of innovation.

In 2021, we launched **Applus+ Ventures**, the *corporate venturing* programme, with the aim of complementing the Group's innovation, sustainability and corporate growth strategy through **collaboration with entrepreneurship ecosystems**.

Collaboration and co-creation with start-up companies, technology centres, technology companies, universities and innovation hubs will strengthen our sources of innovation and our technological development to continue offering the highest standard solutions to the market. This cooperation will also allow us to be connected with the most innovative talent to respond to present and future challenges.

Applus+ Ventures will test new technological advancements and business models that contribute to creating a more sustainable future in several areas:

- 1. Technology and solutions with use cases in the technical inspection of vehicles.
- 2. Technology, solutions and new business models in the field of testing and certification.
- 3. New solutions in renewable energies and in the transport and distribution of electrical energy.
- 4. Innovative developments in the field of the hydrogen and connected vehicles.

For collaborations with start-up companies, Applus+ Ventures will provide strategic, technical and financial support, in addition to the possibility of taking advantage of the global reach of the Group, and the initiative will integrate sustainable business practices in the Group's operations and value chain.

ADVANTAGES OF COLLABORATING WITH ENTREPRENEURIAL ECOSYSTEMS

- Gain greater flexibility and agility in the development of innovation projects.
- Access new market segments.
- Implement disruptive products and technologies for the TIC sector.
- Initiate activity in the entrepreneurial ecosystems to further strengthen our position as an innovative company.
- 5. Stay connected with the most innovative talent.

TYPE OF COLLABORATING COMPANIES

Relationship with clients

GRI 103-2 GRI 103-3

Applus+ regards **actively listening** to **our clients'** opinions as a key activity. Constant dialogue allows us know exactly what our clients need and expect, in order to develop and improve our services.

We give preference to **direct, personal contact at frequent meetings,** both in the design and planning phase of our services, and throughout their execution and review of results until completion.

Other channels of communication enable us to contact and gather the information we need to provide better services. These sources of information range from open days, road shows or conferences to other more formal channels, such as emails or the Group's website.

The **recognition** Applus+ receives from our clients gives us great satisfaction and encourages our professionals to keep on working harder and better in the future. In 2021, Applus+ received a variety of recognitions, with highlights as follows:

- In Canada, the International Institute of Welding awarded our team the "Henry Granjon Prize" in the "Design and Structural Integrity" category, for our commitment to ongoing R&D in the field of welding engineering.
- We were recognised at the UK-Spain Business Awards in the "Driving Innovation" category, a distinction awarded by the International Trade Department of the British Embassy in Spain for helping to strengthen trade relationships between Spain and the UK through innovation, partnership and entrepreneurship.
- In the UK, Applus+ received the "Construction line Gold Award", and Applus+ are now recognised as a pre-qualified contractor to provide services to the UK's construction industry.

Sustainable services

Many of our services contribute to reducing the environmental repercussion of our clients' activities, while also controlling environmental and safety risks for their assets, products and services.

REDUCTION AND EMISSION CONTROL

Statutory vehicle inspection

- Regulatory vehicle inspections.
 New independent technology for emissions tests.
 New independent procedures for validating controls of vehicle pollutants.

Aerospace

- Compliance with international standards and regulations
- Incorporating new composites materials into manufacturing systems.

Industry, energy, oil and gas and public administrations

- Compliance with international standards and regulations.
 Incorporating new composites materials into manufacturing systems.

- Testing and automotive engineering
 Technology for new engines.
 Use of alternative fuels.
 Promotion of hybrid and electric vehicle uptake
 - Investigation of alternative systems for electric vehicles.

Construction and civil infrastructure
Improvement of the machinery in park management.

- Industry, oil and gas and mining
 Technologies for efficient non-destructive testing (NDT).
 Preliminary assessments of soil contamination.
 Studies for the remediation of contaminated soils.
 Environmental Risks Analysis.

CERTIFICATION AND VERIFICATION OF MANAGEMENT MODELS

Companies in any sector

- Advice for compliance with applicable national and international standards and regulations.
 Implementation of Environmental Management Systems.
 Application of good environmental practices in facilities and offices.

- Conducting Environmental Risk Analysis.
 Design of environmental indicators.
- Authorised control body of a large number of public administrations.
- Verification and validation of clean development projects (CDMs).

Organisations and public administrations

- Advice to the public administrations to develop regulations and the design of guides to facilitate their application.
- Design of environmental indicators.

OPTIMISATION OF ENERGY AND WATER CONSUMPTION

Companies of any sector and public administrations

- Energy audits.
- . ESE (Energy Services Company) design and proposal of measures for energy saving.
- Energy-efficiency solutions.
- Water footprint design.
- Technologies for efficient non-destructive testing (NDT).

Electrical and electronic equipment

- Equipment design and products with lower energy consumption.
- . Obtaining the energy-efficiency certificate for products.

Construction

Sustainable certifications: BREEAM, LEED and GREENLIGHT.

- Analysis of products/services life-cycle. Design and implementation of integrated waste-management systems. Packaging declarations and packaging waste

- Bectrical and electronic equipment
 Analysis of the equipment life-cycle.
 Design and implementation of integrated waste-management systems.
 Application of restrictions on the use of certain dangerous substances in the manufacture of equipment.

- Construction and waste audits.

- Plans for the waste management and minimisation.
 Asbestos detection audits and processes for its controlled management.
 Physical and chemical testing on construction materials to ensure environmental standards.

Organisations and public administrations :

Design and development of joint plans for circular-economy strategy implementation.

BIODIVERSITY AND ECOSYSTEMS PROTECTION

Energy and telecommunications

- Environmental monitoring of electrical networks.
 Landscape integration studies.
- Environmental Impact Assessments.

Organisations and public administrations

Strategic Environmental Assessments.

industry and oil & gas

mnovative technologies for efficient non-destructive testing (NDT).

Civil infrastructure and mining

- . Testing, process engineering and production optimisation by applying criteria. for sustainability.
- Environmental Impact Assessments.
- Plans and programmes for environmental monitoring (throughout infrastructure) operation and environment restoration work).
- Land surveying services.
- Restoration plans.

Some examples of the sustainable services that we developed in 2021 are described next.

Non-destructive testing (NDT) for a company specialising in geothermal energy in Hawaii (United States)

Applus+ provides services to geothermal energy operations in Hawaii, United States, through undertaking ultrasonic testing of guided waves, high-temperature corrosion mapping (thermal scanning) and pulse parasitic current testing.

The guided wave ultrasonic testing (GUL) uses effective technology for the fault detection on pipelines, capable of assessing damaged areas of extended lengths during inspections for pipeline integrity. The technology used is devised to leave a minimum footprint in terms of sensors and gages, so that the integrity inspection of assets may cover areas otherwise hampered due to isolation or insufficient access.

The Foucault (or Eddy) current (PEC) offers reliable means of inspecting pipelines and ferrous containers through thermal isolation and protective coverings. The system patented by Applus+, RTD INCOTEST ™, is a flagship tool for prioritising corrosion during insulation inspections.

NDT allows for pipelines to be inspected, thus avoiding the generation of residues and land affectation. Furthermore, the services provided in Hawaii mean we contribute to the development of installations that generate energy using renewable sources.

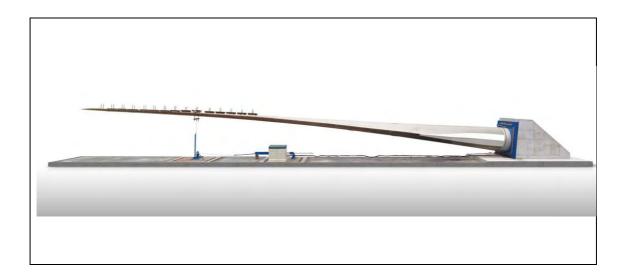

Optimisation and improvements to wind power's efficiency and competitiveness

The Laboratories Division is engaged alongside one of the main manufacturers of wind turbines in the optimisation of large-scale blades. The laboratories are testing diverse materials and compositions to appraise their suitability in the manufacture of blades and their components.

Thanks to the special capacity of the structural laboratories located in Barcelona (Spain) and Dresden (Germany), wholescale solutions are being tested, both for the actual blade and the fastener system attaching them to the turbine.

This project will make major strides in terms of decarbonisation.

Official Green NCAP Laboratory

The main aim of the Green NCAP project is to aid consumers to choose a car that is respectful toward the environment.

Placing the onus on the consumers, Green NCAP provides understandable, unbiased and reliable information on vehicles available on the market, thus being able to identify the most efficient in terms of fuel consumption / energy, along with the least polluting.

The consortium is formed by European governments, motor clubs, independent testing laboratories and consumer groups who provide wide-ranging experience and knowledge in the automation field from different perspectives. Green NCAP works alongside independent testing laboratories in Europe, amongst which is the Group's IDIADA Division.

This initiative will further encourage manufacturers to develop ecological vehicles. With the Green NCAP project, we contribute to preserving the environment by reducing local and global pollution.

CASE STUDY: DEVELOPMENT OF ELECTRIC VEHICLES

The Laboratories Division is making a major investment to spearhead the testing of electric vehicles and their components.

We boast unrivalled facilities located in Silverstone (United Kingdom) for batteries, engines and heavy vehicles. We have devised and built specific testing benches for trials of electric vehicles in our different laboratories. We have expanded the testing capacity of all our laboratories, as well as our electric vehicle facilities in China.

In addition to the importance of capacity, of the utmost importance is to optimise the process and the client's integration into the testing procedures. To this aim, we have devised an inhouse system of assistance and remote monitoring of testing so that clients may take part from their workstations.

With these initiatives, the Laboratories Division continues to deploy its strategy to bolster its positioning and foster the development of electric vehicles.

Strategic alliances

GRI 102-13

AUTOMOTIVE

ASOCIATION	POSITION	HIGHLIGHTED IN 2021
CITA	The Automotive Division is a member of the Permanent Bureau. It takes part in several working groups, chairing WG5 (information systems), as well as in regional advisory groups (RAG).	Webinar presented by Applus+ together with CITA in September: "New approaches to vehicle emissions inspections –pt2". Participated in the CITA "Hybrid conference: electric vehicles", organised by CITA together with the European Commission.
earpa	The IDIADA Division participates in four Foresight Groups.	Participated in creating the position paper "Connectivity, Automation, Safety - Using new tools and technologies supporting road safety and greening and their interaction".
UNECE	The IDIADA Division participates in GRVA-Safety and Connectivity, GRRF-Regulatory Proposals on Automation, GRPB-Noise Reporting Group.	In the GRPB, Applus+ has contributed to several sessions concerning sound-level limit related studies, giving technical support to the automotive industry and to the harmonisation of the regulatory framework.
Sociedad de Técnicos de Automoción	The IDIADA Division participates in several of the STA's technical working groups and chairs the STA Board of Directors.	Applus+ has proposed the work plan for current topics, such as driving automation, all types of electric vehicles or cybersecurity.

INFORMATION SECURITY

ASOCIATION	POSITION	HIGHLIGHTED IN 2021
GLOBALPLATFORM	Laboratories Division's IT Labs is member of this association, which encourages its members to offer new accredited functional and security testing services.	the trustCB SESIP scheme. Use of the SESIP mark with TrustCB is subject to a

STANDARDIZATION

ASOCIATION	POSITION	HIGHLIGHTED IN 2021
CENELEC	Applus+ is a member of several working groups and technical committees of the European Committee for Standardisation (CEN), in a wide range of fields of operation, and we collaborate with identified standard work programmes.	Our experts from all over the world have taken part in technical committees e.g. non-destructive testing (NDT) and fire and gas testing, protective clothing for motorcyclists.
COUNCIL. Maryanian him of Time	The TIC Council is an international association representing independent testing, inspection and certification companies. Applus+ is a full member.	Applus+ participates in technical committees such as the "Industrial Life-Cycle Services" committee, in horizontal committees such as "Accreditation and Standardisation" and "Ethics and Legal", and in the "Anti-Counterfeiting" committee to prevent the proliferation of products with counterfeit certification marks.
43117	Applus+ is a member of ASTM , a forum that develops and publishes voluntary consensus technical standards for a wide range of materials, products, systems and services.	Applus+ experts from around the world continued to take part in various subcommittees in 2021. We have contributed to the modification of various ASTM standards and methods in non-destructive testing (NDT) technologies, and taken part in subcommittees developing standards on plastics materials and measurement of thermal properties of materials.

CASE STUDY: ALLIANCES TO BOOST RENEWABLE ENERGIES

In 2021, Applus+ joined several of the world's renewable-energy and energy-efficiency field operator associations who are committed to sustainable energy production and management among them:

In the **United States,** we joined the **American Clean Power Association** which works alongside its members to draw up policies to help remove barriers and quicken the growth of the renewable energy industry.

In **Australia**, we have joined the **Clean Energy Council**, which aims to speed up the pace at which Australia's energy system is turned into a smarter, cleaner system.

Finally, Applus+ is also a member of the **Middle East Solar Industry Association**, whose mission is to empower solar energy in the Middle East and North Africa by facilitating teamwork among solar-energy industry professionals.

Leveraging on our international presence and extensive global knowledge of the renewable energy industry, we are committed to joining organisations that address the challenge of sustainability and the generation and use of renewable energy from a local perspective.

ALLIANCES TO BOOST RENEWABLE ENERGIES

Applus+ is firmly committed to the development green hydrogen, and our broad service portfolio enables us to contribute throughout the entire value chain of this renewable resource.

In 2021, we sponsored **Energyear H2**, the green hydrogen event, and contributed with the presentation "**Safety commitments for new green hydrogen facilities**".

In 2021, Applus+ joined the **Spanish Hydrogen Association** (AeH2), which represents around 300 members across the hydrogen value chain. Since its creation in 2002, the association has been encouraging, promoting and fostering the technological and industrial development of hydrogen technologies in Spain to ensure that the sector positively impacts Spanish society and economy.

05. GOVERNANCE

Corporate governance

GRI 102-16 GRI 405-1

Ethics and transparency are the guiding principles overseeing the management of the Applus+ Group. Our **corporate governance model** guarantees the fulfilment of our long-term objectives, responding to the expectations of our stakeholders.

The corporate governance framework of Applus+ has been developed and updated taking into account the Act 5/2021 of 12th April 2021, which amends the Spanish Companies Act, (approved through Royal Legislative Decree 1/2010 of 2nd July), and other financial regulations, regarding the promotion of long-term involvement of shareholders in listed companies (LSC);the Good Governance Code for listed companies (CBG) of the National Securities Market Commission (CNMV); and the **best internationally accepted practices**, while also incorporating feedback from our stakeholders.

The development, review and continuous improvement of this good governance framework are the pillars of our strategy and our corporate governance model, which is implemented through basic rules and specific policies.

In 2021, as a result of the amendment of the LSC, as well as its plan for continuous improvement in good governance, the Board of Directors and the Shareholders' Meeting of Applus+ modified some of the existing documents and the *Approval Procedure for Related-Party Transactions* has also been drafted.

Applus+ drafts an **Annual Corporate Governance Report** (IAGC) and an **Annual Report on Directors' Remuneration**. Both are published on the Group's website.

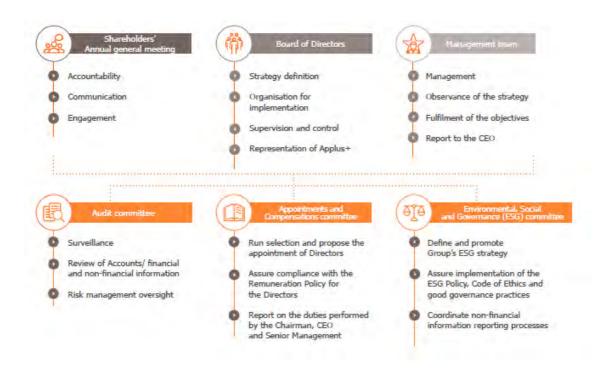

We have an **effective compliance rate of 93%** in accordance with the **recommendations of the CNMV**. Out of a total of 64recommendations, 55 apply to the Applus+ Group, of which we can affirm that 51 are fully met and 4 are partially met.

HIGHLIGHTS IN 2021

- 1. Amendment of the company's Articles of Association to include remote meetings.
- 2. Amendment of the Board's Regulations, approved in February and May 2021, to allow meetings to be held remotely.
- 3. Amendment of the Regulations of the General Shareholders' Meeting.
- 4. Amendment of the Internal Code of Conduct in the Securities Markets.
- **5.** Annual corporate governance roadshow.
- **6.** General Shareholders' Meeting held by entirely telematic means with the largest participation (attendance quorum) obtained to date.
- 7. Re-election of Ms Cristina Henríquez de Luna Basagoiti as an independent director.
- 8. 13 sessions of the Board of Directors.
- 9. Selection process after the resignation of two independent directors and appointment of two new independent directors, one of them female, reaching the 40% representation target one year ahead of schedule.
- 10. Evaluation of the Board of Directors by an external third-party, following the CBG recommendation.

GOVERNING BODIES

The governing bodies at Applus+ consist of the **Board of Directors** and its **three committees**, which focus on specific relevant areas to assist the Board in its supervisory function. All three committees report quarterly to the Board of Directors, at the very least, and provide a yearly report on the progress of the respective committees' duties.

The ESG strategic lines, and the targeted actions deployed based on these, are monitored through specific **key performance indicators** (**KPIs.**) These indicators provide the Group's management with useful quantitative information about the Group's ESG performance in order to take management and operational decisions for improvements.

In 2021, these indicators had a major bearing on the Group due to the **adoption of ESG objectives**, and because they have been detailed in our communications with investors.

Consistent with the level of commitment acquired, the Appointments and Remuneration Committee is working on the proposal of a **new** *Remuneration Policy*, which considers ESG factors as part of the remuneration, and which will be submitted for approval to the General Shareholders' Meeting in 2022.

BOARD OF DIRECTORS

GRI 102-18

The Board's composition of a vast majority of independent Directors is pivotal to the good governance of the Applus+ Group:

- Eight out of ten directors are non-executive and 7 are independent.
- An independent Chair heads the Board, with separation from the CEO function.
- Independent directors chair all committees.
- In 2021, the CEO resigned from the ESG Committee, in line with the good governance recommendations. With this change, this committee is comprised solely of independent directors.
- Likewise, the three committees are comprised solely of non-executive directors.

The Group's *Director Selection Policy* aims to define the principles that govern the selection of candidates to achieve an **adequate balance** in the Board of Directors, ensuring that the selection processes foster **diversity in terms of gender**, **experience and knowledge**. In particular, therein including the target of reaching **at least 40%** of the Board represented by female directors by no later than 2022.

In 2021, the Applus+ Group made **changes to its Board of Directors**, which continue to strengthen the **diversity** and the **skills**, **knowledge** and **experience** within the Board. With these changes, **the Board has reached the goal of 40% female representation established in its policy** one year ahead of schedule.

The selection process, launched as a result of the resignation of an independent director for health reasons, has scrupulously followed the guidelines in the Directors' *Selection Policy*, and in accordance with the defined skills matrix. The departure of an independent director opened the possibility to successfully complete the selection of two new independent directors, who contribute to the diversity of the Board.

2021 is the final year of validity for the *Directors' Remuneration Policy*, which covers the period **2019-2021.** The policy regulates the remuneration received by the members of the Board of Directors, as well as the specific remuneration and contractual elements that apply to directors who perform executive functions. These are all in line with market practices and follow international standards. The new *Remuneration Policy* will be proposed for approval at the next General Shareholders' Meeting and will incorporate ESG criteria, amongst other changes.

7 /10 Directors are independent4 /10 Directors are women

4 /10 Directors come from outside Spain, reflecting the Group's international presence

SEPARATION OF CHAIRMAN AND CEO POSITIONS

Board of Directors

Christopher Cole Non-Executive Chairman of the Board and Chairman of the ESG and Appointments and Remuneration Committee

Board Member: 2014 onwards

Educational qualifications:

Holds a degree in Environmental Engineering from South Bank University, London.

Previous experience:

Founder of WSP Group
PLC, and currently Chief
Executive Officer. NonExecutive Chairman of WSP
Global Inc. and Tracsis plc.
Non-Executive Chairman at
Ashtead for 12 years.

Fernando Basabe Chief Executive Office (CEO)

Board Member: 2011 onwards

Educational qualifications:

Law Graduate from Universidad Complutense in Madrid, MBA from the IESE Business School of Barcelona.

Previous experience: For 15 years, he held different senior management positions at SGS, SA, where he became Chief Operating Officer for Western Europe. He began his career in the corporate banking division Manufacturers Hanover Trust Co. (JP Morgan & Co.).

Joan Amigó Chief Financial Officer (CFO)

Previously, he was a partner at Pérez-Llorca Abogados and worked at Uría Menéndez in Spain and Chile. Professor at several universities and regular speaker at conferences.

More information regarding the profiles of the Board of Directors can be consulted at web

Integrity and Compliance

GRI 102-12 GRI 102-16 GRI 102-17 GRI 103-2 GRI 103-3 GRI 205-2 GRI 412-2

At Applus+, our *Code of Ethics* outlines the **principles, values and codes of conduct** underpinning our operations and activities. The *Code* establishes the guidelines governing our conduct, anywhere in the world, of which the cornerstones are: **integrity, transparency, impartiality, and independence and responsibility**.

Our *Code of Ethics* is available to all of our stakeholders in 21 **languages**, both on the Applus+ website and on the Group's Global Intranet.

The *Code* is deployed through **the Applus+ Group's Compliance Model policies**, and is implemented by the Board of Directors, through the ESG Committee and the Chief Compliance Officer (CCO), who ensure that ethical behaviour is present across our business units, geographic areas and operations.

A priority for Applus+ is to ensure that **all of our employees are familiar with and embrace** the Group's *Code of Ethics*, the *Global Anti-Corruption Policy and Procedure* and policies associated with the compliance model.

The annual online **training** is a powerful tool which conveys the importance the company gives to the policies and standards of behaviour that should govern our actions. Furthermore, the Group's annual training course on the *Code of Ethics* allows each of our professionals to update their commitment to compliance and its values, ratified with their signature.

When employees first join Applus+, they also sign a commitment to the *Code of Ethics* and its related policies as part of their employment contract.

Applus+ ensures that the **third parties with whom we work** know, understand and comply with the principles included in our *Code of Ethics*.

Everyone who acts on behalf of Applus+ undergoes a strict approval process, which includes knowing and agreeing to comply with our *Code of Ethics* and *Global Anti-Corruption Policy and Procedure*, as well as undergoing reputation and integrity testing before entering into any type of relationship with us.

Our suppliers, as well as our partners in any consortium coordinated by Applus+, must sign a certificate of compliance stating their commitment to the *Code* and its associated policies. In 2021, the mobility restrictions related to the coronavirus pandemic remained in force, albeit to a lesser extent than in 2020, which led us to adapt how the Group performs the relevant compliance investigations, in particular the interviews.

The follow up meeting regarding the Compliance model implementation have been performed on line in most cases instead of the face-to-face meetings, usually held with the different functional areas of all our businesses to monitor the implementation of the different policy and procedure requirements, regular meetings were held online with the different area managers.

All of the Group's professionals, as well as any third parties (clients, suppliers and business partners), can use the Applus+ **Ethics and Compliance Communications Channel** to submit queries or report any indication or reasonable suspicion of non-compliance with the policies.

This channel is based on the principles of **good faith, confidentiality and lack of retaliation**, and the Chief Compliance Officer (CCO) manages the channel.

Number of notifications	Number of investigations	Number of investigations resolved in 2021	Breaches of the Code of Ethics 27	Correction or disciplinary action
reported 121	initiated 96	Number of investigations in process		

^{*}We pursue those notifications that have enough information to develop the investigation.

ORIGIN OF THE	NOTIFICATIONS	F	RECEPTION CHANNEL	S
Internal sources of the Group	External sources	Formal channels	Management team	Audit processes

COMPLIANCE MANAGEMENT SYSTEM

The **Applus+ Group's Compliance Management System for Criminal Risks (CMS)** allows the company to manage possible criminal offences under the Spanish Criminal Code, UK Bribery Act and the US Foreign Corrupt Practices Act.

This CMS is based on the *Code of Ethics* and *Global Anti-Corruption Policy and Procedure*. In addition, the CMS also draws on other internal policies such as the *Global Conflicts of Interest Policy*, the *Procurement Policy*, the *Suppliers Policy* and/or the *Policy on the Use of the Company's Resources*.

The **Chief Compliance Officer** (CCO), overseen by the **ESG Committee**, is responsible for the course of action devised to raise awareness among all Applus+ professionals and for monitoring compliance with our CMS. Certain CMS issues also fall within the scope of the periodic controls carried out by the Internal Audit Department.

Throughout 2021, the Applus+ Compliance Department focused its international efforts on consolidating the implementation of the CMS policies in all divisions and countries, placing special emphasis on the acquired companies which joined the Group, seeking to resolve any potential issues and ensure effective implementation.

The **CORE Compliance** document, which outlines the basic principles of the compliance controls at Applus+, is a highly consolidated compliance framework. In 2021, the department focused on the effective implementation of other policies and procedures, contributing to the development and rollout of the *Internal Control Guide*. This has allowed the Group to broaden the scope of application of the CORE model.

Our *Internal Control Guide* comprises other policies and procedures such as the *Global Expenses* and *Travel Policy*, the *Group Treasury Policy*, the *Sanctions and Export Control Policy* and the *Competition Policy*.

Accordingly, we have adapted and improved the **internal control model**, making it more efficient and simpler, to ensure that all managers comply with the applicable compliance requirements. All of our compliance controls are defined in the Applus+ Group's internal policies and procedures that are part of our CMS. Finally, members of senior management are required to sign a declaration each year to confirm the correct implementation of these requirements.

CORRUPTION AND BRIBERY

The **Applus+** *Global Anti-Corruption Policy and Procedure* serves to prevent, detect, investigate and remediate any acts of corruption within the Group. Our key commitments are:

- To do business legally, ethically and professionally worldwide by complying with the anticorruption laws relevant in the countries where the Group does business; and to ensure that Applus+ professionals and third parties conduct their business in the same way.
- Fight against bribery, kickbacks, improper or illegal payments, gifts or contributions, and any other improper method of seeking favourable treatment.

The divisional Executive Vice-Presidents, under the leadership of the CCO, are responsible for monitoring compliance with the *Policy and Procedure*.

The *Global Anti-Corruption Procedure* regulates both our professionals' behaviour and relations with third parties, as well as any mergers and acquisitions to **prevent any potential issues related to corruption.**

In 2021, the Group contributed €65,685 to foundations and non-profit entities, always in accordance with the provisions of our *Global Anti-Corruption Procedure*. In line with our *Policy*, no donations were made to any political party.

MARKET COMPETITION

GRI 206-1

The Applus+ *Code of Ethics* foresees compliance with antitrust and competition laws. The *Competition Policy* and the *Bids and Tenders* Policy set out the criteria for ensuring such compliance.

The Group has specific lines of internal review and approval for public **bidding processes**, **consortiums** or **trade association membership**, ensuring the involvement of the Applus+Group's Legal Department as required.

In **2021**, no legal proceeding was initiated against the Applus+ Group. The company has not been served with **any claim for unfair or monopolistic competition practices**, nor has any financial or other kind of **penalty** been imposed, due to the aforementioned practices.

Data privacy and cybersecurity

Applus+ is committed to **protecting privacy and personal data** and **strengthening cybersecurity**.

The Group is fully committed to comply with the different **data protection laws** in force in each of the **countries where we operate. In addition,** we ensure that all our employees are aware of the importance to comply with these rules.

Applus+ maintains, implements and oversees the effective application of the *Data Protection Policy*, the *Individual Rights Management Policy and* Protocol and the *Data Security Breach Policy*. With this regulatory framework, the Group can ensure compliance with the requirements of the European Union's General Data Protection Regulation (GDPR).

In 2021, along with other courses of action, the Group began implementing processes and policies in our subsidiaries in China to comply with the Personal Information Protection Law that recently came into force in the country.

We also safeguard **information security** through the Applus+ Group's **Policy on the use of IT Resources**, and the **confidentiality clauses** included in the **contracts** signed with our **employees** and **clients** (confidentiality clauses and non-disclosure agreements) and subsequent internal processes. The **IDIADA Division** also applies the specific **General Information Technology Policy.**

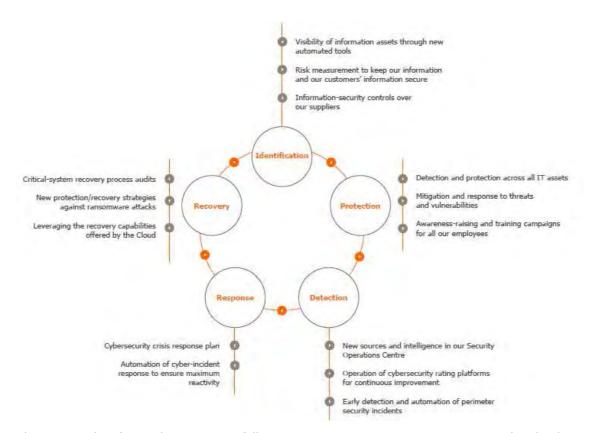

The Applus+ Group has a **data protection coordination team, which includes a divisional or country manager**, who is responsible for ensuring the implementation and compliance with the GDPR and the handling of any GDPR-related queries. This team holds regular meetings with the corporate Legal Department, which coordinates the responsible managers and draws up appropriate action plans.

The Group has ensured closer **oversight** of data-protection risk management by including it in the **Risk Map** as a **priority risk**, and adding data-protection risk assessment to the programme of regular internal audits carried out in the different subsidiaries and businesses.

In **2021**, we had **no material disclosure, theft or loss of** personal data information, and Applus+ responded to **approximately** 34,000 **enquiries on exercising data-privacy rights in Spain.** This was a sizeable increase year-on-year because in 2021 we provided a more accessible and direct channel to exercise such rights. As in other years, these enquiries were mostly related to our -vehicle-inspection stations.

We endeavour to **prevent and** detect any threat to our information system, which we regard as a key business development tool safeguarding both our intellectual property, and our clients' and employees' data.

In 2021, Applus+ has focused on strengthening the security measures rolled out in previous years, and on further improvement in the five areas defined by the cybersecurity framework of the National Institute of Standards and Technology (NIST): **identification, protection, detection, response and recovery**. We have worked on specific lines in relation to each of these areas.

The action plan for each NIST area follows a continuous improvement process that leads to periodic assessments for each of the framework's controls.

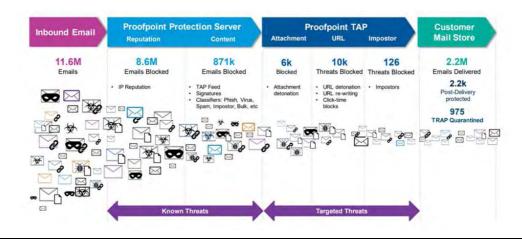

CASE STUDY: PROOFPOINT SECURE-EMAIL GATEWAY

In 2021, the IT Department at Applus+ implemented a new platform to protect the Group's email system against all current email threats (phishing, ransomware, viruses, OAX, BEC, Spam).

Following the platform's development and roll out, our mail is considerably more secure.

The results are very insightful. For example, in July 2021, 81% of all Applus+ incoming mail was discarded because it contained some kind of threat.

Risk management

GRI 102-15 GRI 103-2 GRI 103-3 GRI 201-2 GRI 207-2

At Applus+, we are aware that risk is inherent in all businesses, which is why we strive to understand and manage risk to reduce threats and take advantage of opportunities.

By identifying and effectively managing financial and non-financial risks, we can implement effective measures to minimise the adverse effects of any identified risk, and ultimately achieve the defined strategic objectives.

The **Risk Map** is the Group's tool for identifying and quantifying the main risks that could impact the Group's strategic objectives, following the *Risk Management Policy and Procedure*. Our analysis includes all factors which we consider critical to our business activities, from a **strategic** (which incorporates risks related to sustainability and in which climate change is included), **operational, financial, legal and compliance** perspective.

The Group's risk management **responsibilities are clearly defined**.

Board of Directors Audit Committee	Ensure the Group has appropriate strategies and indicators in place to mitigate the negative impact of risk.	
Executive Committee Head of risk and internal control	Identify risks and drive the implementation of established mitigating measures throughout the Group.	
	The functional members provide the more specialist view and the divisional vice-presidents provide the knowledge from each geographical region.	
	Regularly update the Risk Map to align with any changes in the internal and external context.	
ESG Committee	Oversee management of Environmental, Social and Governance Responsibility related risks.	
Remuneration and Appointments Committee	Oversee the management of people-management related risks, such as talent retention.	

The Risk Map and associated action plans are reviewed twice a year by the Audit Committee and annually by the Board of Directors.

Applus+ has implemented an effective risk management model.

- We identify and assess risks by applying "Impact and Likelihood" criteria to determine whether the level of risk is "High, Medium or Low". RTSK MAP
- We define KEY RISK INDICATORS (KRIs) and determine tolerance thresholds.
- We design ACTION PLANS to mitigate risks that have been found to be significant or relevant.
- We monitor the implementation of the action plans and the results of the indicators.
- We periodically submit, our Risk Map UPDATE REPORT to the Audit Committee and the Board of Directors.

The Group's risk management model allows us identify and effectively manage **emerging risks** such as climate change, natural disasters, cybersecurity attacks, or the impact of a pandemic such as COVID-19 on our business through business continuity plans.

We consider climate risk as one of the most important non-financial risks to manage. To mitigate it, we are adopting the recommendations of the Task Force on Climaterelated Financial Disclosures (TCFD).

Applus+ also protects itself against legal and compliance risks through our Criminal Risk Management and Crime Prevention System Manual and our Compliance Management System (CMS).

In 2021, we focused on managing the most relevant or significant risks resulting from the year's assessment. We have defined and implemented different courses of action to mitigate the main strategic, operational, financial and legal/compliance risks.

STRATEGIC

- Close monitoring of businesses based on long-term and finite life contracts (concessions in the statutory-vehicle-inspection business in Spain, Europe and America, or the IDIADA Division businesses providing services worldwide to the main automotive manufacturers).
- Diversification strategy to mitigate risk stemming from certain levels of exposure to trends on some markets, such as the Oil and Gas and Automotive sectors.
- Close monitoring of the formal terms and quality of all services provided on the basis of accreditations granted.
- Retention of key personnel and talent management.
- Achievement of ESG and climate change objectives.

FINANCIAL

- Management of the Group's liquidity risk and debt level, as well as working capital management, which are essential to achieving the strategic objectives.
- Risk of certain significant assets being overvalued, such as goodwill, intangible assets generated through inorganic growth, as well as tax assets.

OPERATIONAL

- Action plan to protect risks involving cybersecurity and the disclosure of sensitive information.
- Monitoring of service quality and customer perception.

LEGAL AND COMPLIANCE

- Tracking of legislative and compliance issues to avoid criminal sanctions or significant business losses resulting from non-compliance with the Criminal Risk Management and Crime Prevention System.
- 11. Data Protection related risk management.

06. VALUE TO PEOPLE

GRI 102-8 GRI 102-12 GRI 102-16 GRI 102-41 GRI 103-2 GRI 103-3 GRI 402-1 GRI 403-1 GRI 403-2 GRI 403-3 GRI 403-4 GRI 403-5 GRI 403-6 GRI 403-7 GRI 403-9 GRI 405-1

Perspective and approach: culture and management

At Applus+, we are **committed to** the **work-life balance** of all of our people, and we provide flexibility strategies to ensure the balance between work and personal life.

We facilitate **geographical and functional mobility**, which ensures we have highly motivated professionals who are committed to developing their potential and who endeavour to contribute to the Group's success every day.

We also **adapt work conditions** for personnel with disabilities, women during pregnancy, mothers breastfeeding, or other special conditions or requirements, in accordance with current legislation, collective agreements and best-practice programmes.

Thanks to this approach, we have a low **absenteeism** rate, which **in 2021** stood at 2.4% of hours worked, considering the total number of employees this year.

The *Remuneration Policy* is based on objectivity, external competitiveness and internal equity criteria. Our remuneration-setting process always conforms to the legal provisions applicable in each country. In those countries where this is required by law or cultural practice, the process includes the cooperation and opinion of workers' representatives.

We strive to promote and ensure **equal pay for women and men** within the organisation. Our efforts to meet these commitments for equality and anti-discrimination are set out in the Group's *Code of Ethics* and *Global Anti-Discrimination Policy*.

We comply with the **right to disconnect from work.** In addition, where a job allows it and the same level of productivity is maintained, we give our employees the **option of telecommuting**, always on a voluntary basis and with the right to reverse their decision.

We respect the right to **collective bargaining** and work alongside our workers' representatives, freely elected in accordance with the labour legislation in force in each country, to promote **freedom of association**. We foster a culture of dialogue and negotiation with our employees' representatives and social partners through our communication channels.

At Applus+, we are aware of the importance of ensuring a positive work-life balance, and therefore we want our employees and managers to make full use of their holidays and breaks. We have launched the *Annual Leave Policy* to define a standardised process. In addition, and to ensure that all employees are aware of and implement this policy, we have put in place actions such as:

- All regions and countries have developed their own leave policy based on the global policy, written in the local language and including country-specific legal conditions.
- Internal communications are tailored to each country.
- We perform holiday and break audits.

Our COVID-19 risk management procedure also includes the full use of holidays and breaks. We have **information and consultation mechanisms** that comply with existing labour legislation in each country where we operate. Any employee can report queries or suspicions of non-compliance through our **Ethics and Compliance Communications Channel**, which always guarantees the claimant's protection and lack of reprisals. We respect statutory minimumnotice periods when notifying any significant operational changes in line with local working practices.

Human rights

Applus+ is aware of our responsibility to ensure respect for human rights in the countries where we operate. We share this responsibility with all of our employees through annual training courses, and we communicate our principles to our supply chain.

The Group's commitment to respect human rights is reflected in the **policies and protocols in place**. These include our *Diversity and Equality Policy*, as well as our *ESG Policy*, *Code of Ethics*, *Global Anti-Discrimination Policy*, *Supplier Policy*, *Global Anti-Corruption Policy and Procedure*, and *Quality*, *Prevention and Environment Policy*.

In 2021, we **published** via the Group's website a list of all our **human rights** related commitments, in accordance with the United Nations Guiding Principles on Business and Human Rights, the Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises, the International Finance Corporation (IFC) Performance Standards and the ten principles of the United Nations' Global Compact.

All of our employees are required to report any breaches of our commitments and policies through the Ethics & Compliance Communications Channel. In 2021, the Group received **no complaints regarding human rights violations**.

Our professionals' engagement

Each year, we launch our organisation-wide **commitment survey** to understand our employees' needs and to adapt to a constantly changing environment.

In a new action in 2021, we collected further information through pulse surveys that give us a quick, almost real-time overview of our professionals' needs, and assist us to more accurately realign action plans in place. These surveys have highlighted vulnerable group's needs during the pandemic in countries such as Spain, Costa Rica, Colombia, Czech Republic, India, China and the United States.

Safety (85/100), **Ethics** (80/100) and **Diversity** (80/100) are the **best rated dimensions** at Applus+ in the commitment survey conducted in 2021.

Seventy-four percent 74% of Applus+ employees regard themselves as being **committed or very committed** to the company. This represents a 25% improvement on the previous survey's score, due to the improvement plans in place and which our employees helped to design.

All of the results provide valuable information for further improvement.

Diversity, equity and inclusion

Applus+ is committed to diversity and inclusion. Our human capital is spread across over 70 countries, covering a wide range of nationalities, cultures and religions. Combined with our gender and age diversity, this approach creates a diverse identity that contributes greatly to the success of our business.

For Applus+, each person is unique. We want them to be treated fairly and to be able to contribute to the best of their abilities. We are committed to being a reflection of a diverse society, and work to promote a change in attitudes towards stereotypes of all kinds. The values of diversity, inclusion and equal opportunities are integral to the company's day-to-day operations.

In 2021, we brought in unconscious bias training, as unconscious bias can interfere with hiring practices and relationship dynamics within the company.

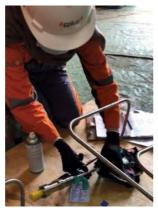

Each year at Applus+, we review our diversity, equity and inclusion **strategy plan** and publish our goals and targets. Integrated policies have generated synergies and helped us to meet several goals at the same time. Achieving gender equality is not only an essential goal per se, but also a driver for other goals to achieve a sustainable future for everyone.

To formalise our commitment to equality, cultural diversity, social inclusion and human rights, Applus+ has renewed our membership of the European Commission's Diversity Charter for the period 2021-2023.

PROMOTION OF WOMEN IN MANAGEMENT POSITIONS

We have launched several measures to increase the number of women in jobs that are predominantly held by men:

- > Shadowing with a female manager is a programme based on identifying female talent to carry out day-to-day tasks with an Applus+ senior manager, providing other female employees with valuable experiential learning.
- > We apply **monitoring indices** to gauge gender equality in the company's main governance bodies. We have improved our statistics to obtain regular and appropriate gender data for comprehensive monitoring.
- ➤ **Internal communication** through different channels. Diversity is a topic discussed at monthly Management Committee meetings. All internal processes benefit from two-way communication. Our in-house magazine *Appeople* frequently publishes diversity-related news.
- > The Board of Directors has approved that part of the management team's **variable remuneration** in 2022 will depend on the achievement of four ESG objectives, tied to the results of the implementation of the decarbonisation, **diversity**, health and safety, and ethics strategy.
- **Technical training** for **women** to make it easier for them to move into jobs with a strong male presence, and encourage them to make headway in these positions.

CASE STUDY: DIVERSITY AND EQUALITY COUNCILS

These **forums** are used to express diversity, equity and inclusion-related **interests**, **concerns**, **needs and barriers**, which form the basis for devising action plans and proposed improvements. Each Council appoints a representative to convey the results and proposals to the Human Resources Department and Group Management.

In 2021, **more than >60% of our workforce** is represented on these Councils, with a presence in Spain, Colombia, Chile, Germany, the Netherlands, Norway, the United Kingdom, Finland, Ireland and Sweden. In 2021, we implemented many of the proposals made, for example, those aimed at protecting mental health and measures related to teleworking practice.

CASE STUDY: "WHAT OTHERS DON'T SEE"

In Spain, in 2021 Applus+ and some of the foundations and associations with which we collaborate (Prodis, Aspanri, Aura, Down Syndrome Foundation and Plena Inclusión) held **several talks** for everyone involved in our selection processes, with a view to **favouring the hiring of people with disabilities**.

In 2021, we met our **target of people with disabilities representing 1.11%** of our global workforce. And we are firmly **committed** to continue moving forward to create diverse teams who are a true reflection of society.

PARTICIPATION IN DIVERSITY EVENTS

In 2021, Applus+ extended our commitment to take part in **holding national and international diversity events**, in line with the socio-cultural context of each country or region.

This included taking part in the International Women's Day, Cultural Diversity Day, LGTBI+ Day, Black Ethnicity Day, Independence Day in some of the countries where we operate, Tolerance Day, Disability Day, as well as celebrating various local traditions.

Digital transformation

In line with the strategy at Applus+, 2020 and 2021 were critical for the digital transformation of the HR function. We have boosted HR team networking through innovation, streamlining collaboration and facilitating the processes involved in our core operations.

Our fields of work are:

Internal capability development. Digital transformation calls for talent and training. Once we have the talent, we build the teams by training them to use programs that bring us brand new technology like the Power BI tool, designed to model and analyse different data sources to provide interactive business intelligence displays.

Robotisation. Our Human Resources Department has revamped our processes through Robotic Process Automation (RPA) in a controlled environment. These robots replicate interactions with employees engaged in personnel administration, working cross-functionally. One example is the recruitment process, where we have automated contract drafting, signing and management of associated documentation, as well as the issuing of notices and communications with everyone involved in the process.

Pulse satisfaction survey. One of the company's main concerns is to keep abreast of our employees' opinions and their degree of satisfaction, which lets us act in time to boost their level of commitment. To do so, we support our traditional surveys with pulse survey software to discover their opinions more often and measure possible changes.

Talent acquisition changes. In 2021, we implemented **asynchronous interviews** as part of our recruitment process. In video-taped sessions, anyone applying for a position answers predefined questions, and this makes our selection process more efficient, optimising the efforts of our professionals.

Online training. Applus+ regards training as a cornerstone of our professionals' career development, and technology is essential for optimising training. Over the last two years, we have made great progress in this regard.

- Induction courses for new employees on business ethics and occupational risk prevention are now held online.
- We have used different technological tools to replace much of our classroom training with online training.
- Our Virtual Classroom enables trainers and attendees to log on synchronously and remotely.
- Our Workday software allows all employees use the same platform to access training.

Workday now in use in Spain, Portugal and Italy. Applus+ has started rolling out Workday, the Human Resources comprehensive management software tool, to fully digitalise its people management processes. In 2021, Applus+ rolled out Workday simultaneously in three countries (Spain, Italy and Portugal).

RECOGNITION OF OUR PEOPLE-MANAGEMENT FOCUS

Our drive to create an innovative work environment has been globally recognised by a number of **international organisations**:

Awards in Culture and Talent Management:

✓ Awarded bronze in the Stevie Awards in the categories of "Best Leadership Development Programme" and "Best Use of Blended Learning".

- ✓ Silver in the category of "Inspiring Employer Brand" from the Inspiring Workplace Awards.
- ✓ Bronze in the categories of "Best Unique or Innovative L&D Initiative" and "Best Use of Blended Learning" from the HCM Excellence Awards.
- ✓ Bronze in the "Best Employee Experience" category from the Employer Brand Management Awards.
- ✓ Chosen among the 8 best companies within the categories of "Best International Organisation for Business Culture" and "Building a Culture of Innovation Initiative" from the Business Culture Awards.

More information about these awards here:

Awards in Digital Transformation:

- ✓ Silver in the category of "Most Innovative Use of HR Technology During the Pandemic" from the Business Excellence Awards Globee Awards.
- ✓ Bronze in the category of "Achievement in HR Technology" from the Stevie Awards.
- ✓ Platinum and two Gold awards at the AVA Digital Awards.
- ✓ Chosen among the 5 best companies within the category of "Innovation in HR Technology" from the HRO Today Association Awards.
- ✓ Among the top 10 companies in the "Brilliance in Innovative Use of Technology" category from the HR Brilliance Awards.
- ✓ Among the 4 best companies in the "Best Use of Technology in Recruitment" category, and among the top 3 companies in the "Best Business Partnership" category from the TIARA Awards.
- ✓ Among the top 5 companies in the "Best Digital Transformation Initiative" category from the Business Culture Awards.
- ✓ Selected one of the 3 best companies in Spain by the ABB Ability Digital Awards.

Read more about these awards here:

Diversity and Equality Awards: among the 7 best companies in the European Diversity Awards in the "Best Company of the Year" category.

Further information can be found here:

Brand Management Awards: silver in the Transform Awards, where Applus+ was recognised in three categories: "Best Internal Communication during a brand development project", "Best Brand Architecture Solution" and "Best localisation of an International Brand".

Further information can be found here:

Training and development

At Applus+, we believe that training our professionals allows us to respond to new challenges. Our training programmes are tailored to each country, to our employees' needs, their skills and environments, and offer them the chance to keep their knowledge up to date and develop their skills. **Developing the best talent** is both vital to our business and a challenge in today's dynamic labour market.

That is why we give our employees real opportunities to **grow both personally and professionally**, through specific training and mentoring, and to learn about other operating models and non-operational areas, and the chance to lead new innovation projects.

In 2021, our employees completed 568,700 hours of training, an average of 23 hours per employee.

We have online training tools such as ApplusNet, which allow us to reach all the locations where we provide services and increase our capacity to act, supplementing locally-provided training. We use ApplusNet to perform global assessments and controls to optimise our team training activities.

Our other training platforms are tailored to our specific needs, both in terms of content and geographical scope, such as Workday, Linkedin Learning, Social Selling - LinkedIn, Ascent, Seduo e-learning or GoFluent to promote language learning.

We have launched a Workday-based **pilot project** that fully integrates an employee's performance objective with development plans, with direct links to relevant learning materials.

CASE STUDY: AUTOMOTIVE DIVISION TRAINING PROJECTS

In 2021, the **Auto Division launched several pathbreaking training projects**, using digital tools to continue fostering training courses, boosting internal talent, and ensuring agile and effective training for new recruits.

The Automotive Talent University training itineraries and the specific training courses for vehicle inspectors facilitate the exchange of experience and knowledge within the Automotive Division worldwide. These courses were devised and given by the Division's own employees, all of whom have a high level of performance, experience and proven success in the industry.

Automotive Talent University's remit is to develop current and future leaders and highpotential individuals. Once the University has identified the participating profiles, it designs a **personalised training itinerary**, based on using new technologies to drive digitalisation projects in the sector.

To adapt to the pandemic, we have turned **vehicle inspectors' theoretical training courses** into **a digital training course**, and more than 450 people have now completed and passed the course.

The **3D training tool** simulates a vehicle inspection, and lets users practice inspection methodology, assess possible faults and learn on their own. As a result, teams of people from different departments, in different regions and countries, have been able to work together and share their points of view.

Wellbeing programmes

We have various social and economic benefit programmes to promote our employees' wellbeing, which are tailored to the specific features of the countries and regions where we operate. The Group's wellbeing objectives are based on promoting a **healthier lifestyle** and dynamic social activities and offering essential amenities.

We promote people's health through initiatives involving their **physical**, **psychological** and **emotional** wellbeing, as well as activities that can enrich them personally and make them feel part of a group, beyond the working relationship.

CASE STUDY: FAMILY DAYS

Applus+ holds family days in different parts of the world.

At these events, our employees get the chance to bond and interact socially with one another, which promotes a better working environment and personal satisfaction.

Our employees' families also benefit from these events by finding out about Applus+ activities and how we contribute value to society.

CASE STUDY: BH, STEP CHALLENGE AND EAP PROGRAMMES

Our online and app-based wellbeing programmes serve to provide **calm and peace of mind** through:

- 1. Individual programmes to boost wellbeing in aspects such as time management, healthy lifestyle habits and relaxation techniques, amongst others.
- 2. Individual and personalised coaching to develop different abilities for dealing with personal and professional challenges.
- 3. Unlimited emotional assistance through video calls with expert psychologists, who provide support to cope with personal or professional challenges.

Keeping safe

MANAGEMENT SYSTEM

The Applus+ Group's strategy consists of going beyond the legal requirements, and we pursue the objective of zero injuries. The protection of our employees is a priority defined at the highest level.

We have established a framework in which to operate and provide our services in a safe environment, through **our policy of** *Corporate Quality, Health and Safety and the Environment*. The policy bolsters our **integrated management system**, which has a **preventive approach** and complies, among others, with ISO 45001. We promote a **culture based on prevention** to **ensure the health and safety of our employees** and all of those working with us.

As a complement to the *Corporate Health and Safety policy* and guidelines, we have established the **Applus+ Golden Safety Rules**. This sets 11 rules conceived to eliminate or reduce the risks associated with the activities that historically have had the largest impact on the Applus+ Group's claims.

We have local **health and safety management systems** in place in each legal entity and/or division, certified by third parties in accordance with the international occupational health and safety standard ISO 45001, covering 44% of our operations.

To ensure the fulfilment of these requirements, Applus+ performs audits, supervisions and/or inspections of safety conditions at work, both by line management and preventive resources.

During 2021, there were 91,338 in situ audits and inspections.

1.9 inspections and audits every 1,000 hours worked.

CASE STUDY: IDIADA DIVISION CERTIFIED AS A SAFE AND HEALTHY WORKPLACE

The IDIADA Division in Spain and Germany has obtained the ISO 45001 certification for Occupational Health and Safety Management Systems at the end of 2021. This prestigious international standard, required by many of our clients, recognizes the company's efforts to minimize risks and provide a safe and healthy working environment.

This external certification is added to those carried out periodically by the Spanish administration. It also confirms the robustness of the health and safety management system at the IDIADA Division and highlights the continuous effort to ensure the safety of all of us.

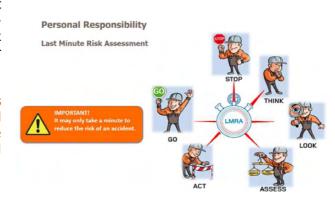

IDENTIFICATION OF HAZARDS AND RISK ASSESSMENT

We identify and assess risks in health and safety for all of our activities. Making use of the control hierarchy as a systematic approach, we establish the preventive and corrective measures for the elimination, reduction and/or control of the assessed risk. The risk assessments are reviewed regularly when changes occur in working conditions or when safety incidents occur.

Through the **coordination of business activities** with our clients or owners of the facilities where we carry out the work, our assessments include risks that might affect Applus+. In the same way, we work with our suppliers to assess and control any risks associated with the work carried out by third parties at our facilities.

As a final part of the risk assessment process, employees perform **precheck** or **last-minute risk assessments** before starting a job or task.

Before starting work, our employees check for any on-site risks associated with the task to be performed and the surroundings, and make sure that all risks are under control.

47,175 pre-checks in 2021. 1 pre-check for each hour worked.

In addition to the performance of pre-checks, employees are encouraged to **report incidents and/or unsafe situations**, so that by correcting the causes their reporting contributes to preventing accidents before they lead to injuries.

To facilitate this communication, the Group uses a propriety tool, Applus+IncidentA to notify cases by computer or smartphone.

15,834 communications in 2021.

0.35 for every 1000 hours worked.

All incidents are investigated in a systematic way to ascertain the root cause of the problem and to define action plans to prevent its reoccurrence. We share the **lessons learned** with the entire organisation of such accidents, where the actual or potential consequences are relevant.

HEALTH SURVEILLANCE

Applus+ has implemented health surveillance programmes to assess the physical fitness of our employees through **specific medical check-ups** in respect of the job position and the risks to which they are exposed, both by the activity itself and by the facilities of the client where the work is carried out. Collectively, we carry out **epidemiological studies** to identify incidents on health that could be related to the work.

To deliver these programmes, we use **external medical services**, which, in accordance with the regulations of each country and the General Data Protection Regulation (GDPR), take custody and safeguard the confidentiality of the employees' personal data, solely bringing in an aptitude assessment relating to the job position.

Moreover, through different programmes and initiatives at the local level, Applus+ facilitates access to medical services among its employees.

TRAINING IS KEY FOR APPLUS+

Employee participation is essential to pursue the objective of zero accidents, and to this aim, **health and safety training and awareness campaigns** are essential elements to foster a **safety culture** that allows us to achieve this goal.

The training of all employees on health and safety issues is an essential aspect of the company's training programmes when employees join, and regularly during their employment. The Group has established a compulsory basic training programme for new employees, which is complemented locally with specific programmes.

These programmes have a common element referring to how health and safety is managed at Applus+, which is complemented with their specific training needs in each job profile or position, such as mechanical risks, working at heights, working in confined spaces, electrical hazards, etc.

CASE STUDY: SAFETY DAY

This annual event sees the entire global workforce participate, and we also invite our clients and contractors to join the Safety Day's events.

Material translated into 13 languages.

100% of countries where Applus+ operates.

In 2021, we focused on promoting health, especially on **mental health** and the impact caused by the pandemic.

In 2021, we had an internationally recognised specialist to talk on mental wellbeing and provide our employees with emotional management tools. This activity has been highly valued by our employees, as reflected in the comments on the event's **social wall at our Global Intranet**.

THE CORONAVIRUS PANDEMIC

In 2021, we continued to develop our **action plans** to **prevent and control the risk of contagion** in our activities' environments, establishing corporate directives and safety protocols based on the situation of the pandemic at any given time.

We have **monitored the impact** of the pandemic at Applus+, gathering data using our GRC tool.

COVID-19 training continues to be fundamental tool to raise prevent awareness and transmission of the virus during the development of our activities.

In 2021, we maintained the specific COVID-19 course and preventive measures at work as part of the initial training programme in health and safety.

11,027 new employees have been trained in this course.

Introduction

How can we protect others and ourselves?

Maintain social distancing, that is, leave at least a safe distance between yourself and other people.

In some countries, like Colombia and India, we have promoted vaccination campaigns, and carried out voluntary diagnostic tests in Spain, both preventively using some of our larger facilities, and reactively based on confirmed cases among employees in a given centre.

The number of confirmed cases in 2021 (including guarantines) amounted to a total of 2,164 cases from 32 countries. The large majority of the cases were mild, and the source of contagion came from outside the Group.

FOLLOW-UP AND RESULTS

To monitor the performance of health and safety and the Group's safety culture, we have a reporting procedure that applies to the Group's overall activities at a worldwide level. This process includes **proactive indicators that are precursor of incidents**, and help measure the Group's safety culture and reactive indicators that refer to the Group's performance in health and safety.

The local representatives for QHSE are responsible for reporting accident data using the Governance Risk Compliance (GRC) tool and for sending the training reports to the corporate department for QHSE. The corporate department reviews and consolidates the data, performs a quantitative and qualitative analysis of the information, and prepares the related reports for forwarding to the management team and the Board of Directors as part of their regular review of the process.

The accident indicators for the last three years are as follows.

HEALTH AND SAFETY INDICATORS	2019	2020	2021
Working hours (in thousands)	47,065	43,376	48,383
Fatalities	0	2	0
Fatality rate	0.00	0.01	0.00
Number of high-consequence work-related injuries	0	0	0
Rate of high-consequence work-related injuries	0.00	0.00	0.00
Recordable cases	240	165	247
Total recordable cases frequency (TRCF)	1.02	0.76	1.02
Total recordable cases frequency (TRCF) Female rate	0.08	0.08	0.09
Total recordable cases frequency (TRCF) Male rate	0.94	0.68	0.93
Lost working days	5,759	4,368	6,880
Severity	0.12	0.10	0.14
Severity Female rate	0.01	0.01	0.02
Severity Male rate	0.11	0.09	0.12
Professional illness	1	0	0
Professional illness Female	1	0	0
Professional illness Male	0	0	0

In some countries where we operate, musculoskeletal disorders are classified as accidents as opposed to professional illnesses. As a consequence, we adopted this criterion globally for data consistency. Therefore, any cases of musculoskeletal disorders have been included as accidents in the calculations.

We analysed the data by comparing 2021 with 2019, considering the limited representativeness of the figures in 2020 due to the pandemic. In 2021, the TRCF continues the downward trend, while the severity increased slightly.

The main causes of the accidents in the Group in 2021 were, as in prior years, slips and trips and over-exertion.

In the analysis, for the contribution-by-gender to the accident rates in relation to the proportion of our employees, any bias or significant differences regarding the exposure to hazards and their consequences are observed.

^{*}Carpal tunnel syndrome with 10 lost workdays, which is a professional illness according to the Spanish law.

07. ENVIRONMENT

GRI 102-11 GRI 102-12 GRI 102-15 GRI 201-2 GRI 302-1 GRI 302-3 GRI 303-1 GRI 303-2 GRI 303-3 GRI 305-1 GRI 305-2 GRI 305-3 GRI 305-4 GRI 306-3 GRI 308-1

Our environmental strategy

At Applus +, we actively work to avoid and limit the possible adverse effects our activities have on the environment. The Group has policies and management systems in place that are based on internationally recognised standards, and which transcend mere compliance with environmental legislation.

Corporate Quality, Prevention and Environment Policy governs our operating rationale to achieve the preservation of the environment.

- Prioritising the preventive approach over the corrective measures, the Applus+ Group's management reinforces its commitment to promote the process of continuous improvement in our environmental management, providing the most suitable human and financial resources.
- ✓ All employees, and those working on behalf of Applus+, are aware of the policy and are duty bound to comply with it.

We develop our policy through **Environmental Management Systems (EMS)**, based on the continuous improvement cycle defined by the international standard **ISO 14001**. The Group's EMS is audited by third parties periodically, which allows us to maintain our certificates over time.

More than 54% of our operations are certified according to this standard.

Our main **environmental aspects** are related to energy consumption, its associated greenhouse gas (GHG) emissions, water consumption and to a much lesser extent, waste generation.

	Environmenta	Aspects	
Energy	Emissions	Water	Waste
The energy consumption derived from our operations is due to the consumption of electricity and fuels¹ such as petrol, diesel or natural gas.	Our carbon footprint is the result of GHG emissions, due to the Group's energy consumption. Most of our emissions come from the use of fuel in our fleet of vehicles, employees' travel and commuting, purchased goods and services and electricity usage.	At our facilities, water is mainly used for sanitation and the largest consumption is concentrated at the 2 sites with vehicle test tracks.	The Group's waste generation and management activities are basically concentrated in our testing activities.
Our management strategy is based on reducing consumption, choosing renewable sources and offsetting residual emissions.		At Applus+, we make a conscious decision to reduce water use implementing reuse processes whenever possible to develop our activities.	At our facilities, we are moving towards the implementation of the pillars of the circular economy, the 7R model.

The activities of the Applus+ Group do not generate direct impacts on biodiversity; and the location of our facilities does not pose any risk for the natural areas of the countries where the Group operates.

¹Petrol, diesel, biodiesel, natural gas, propane, liquid natural gas, compressed natural gas and liquid propane are the fuels consumed within the Group.

During the supplier approval process, the **mandatory QHSE requirements are duly** integrated. Our suppliers must understand and adhere to the *Corporate Quality, Health & Safety and Environmental Policy*. Furthermore, we foster the implementation of environmental management systems (EMS), positively assessing the certification according to the ISO 14001 Standard or the European EMAS regulation.

Spending on suppliers adhering to the QHSE policy. **71%**

CDP Climate Change

Applus+ presents its commitment to transparency by disclosing its environmental performance through the annual CDP questionnaire, a non-profit organisation whose aim is to encourage a sustainable economy amongst investors, companies, cities and governments to measure and act on environmental impacts, recognising those that are the most active in the world in the fight against climate change.

For the fourth consecutive year, the organisation has awarded the Applus+ Group a **"B" rating** for our actions to address the global challenge of climate change.

This recognition is the reward for the strident efforts made by the Group to integrate climate issues into our management.

Due to the impact of the pandemic, the figures for the year 2020 do not show a sturdy and representative basis to allow comparison with later years. For this reason, the consumption and emissions of 2019 are more representative of normalized activity, and that is why we take them as a reference for the comparative analyses of 2021.

Climate change: risks and opportunities

Climate change offers us opportunities and can generate risks of a different nature in our business. Mitigating and managing these risks, as well as identifying potential opportunities, is essential to Applus+ and assists us to maximise our value to society.

We work to understand the implications that climate change may have on our activities, and improve our strategy regarding our services and operations. We identify opportunities that, once internally analysed, allow us to **develop strategies** that we can take full advantage of. We do this with three time frames in mind:

⇒ Short term: <3 years⇒ Medium term: 3 - 6 years⇒ Long term: > 6 years.

In 2021, as in previous years, we have continued to adopt the recommendations of the **Task Force on Climate-related Financial Disclosures (TCFD).** To date, the Group has conducted a qualitative risk assessment, and following its recommendations, the Group will introduce the scenario analysis into the process for future reports. This initiative assists us to improve our financial information on climate change regarding four key elements: Government, Strategy, Management risk, and Metrics and objectives.

Based on the TCFD methodology, we classify our risks into two categories:

- ✓ Physical risks, emanating from climate change, which can be event-driven (acute), such as increased severity of extreme weather events.
- ✓ Transition risks, associated with the transition to a lower-carbon global economy; the
 most common of which relate to policy and legal actions, technology changes, market
 responses, and reputational considerations.

Risk / Opportunity	Description	Time frame	Impact	Level of impact	Action
PHYSICAL RISKS					
Acute risks	Increase in extreme weather events	Present	Disruptions in activities, impact on the health and safety of our employees, absenteeism, and reduction in income due to project delays or cancellations	Medium	Business continuity planning
Chronic risks	No relevant risks have beer	identified			
TRANSITION RISKS	3				
Market risk	Change in consumer behaviour with a reduction in the use of fossil fuels to decarbonize the economy.	Long term	Possible impact on the services that the Group provides to the oil and gas sector	High	Diversification plan, which has reduced the Group's exposure to this sector from 50% in 2014 to the current 25%.
Opportunity	Development of services in the renewable energy sector	Present	Growth in revenue in the renewables sector	High	Investment in new business and development of services in the renewables sector. Expansion plan in countries where our presence in this sector is more limited
Legal risk	Lower revenue due to new legal requirements for sustainable mobility	Long term	Partial impact on the environmental control of emissions in the statutory-vehicle-inspection business	High	Development and investment in new testing activities associated with the electric / green connected vehicle
Opportunity	Design and develop services that assist our clients to comply with the new regulations	Present	Develop tests for: ✓ emissions or homologation ✓ clean and connected vehicles ✓ insulating and construction material Increase in revenue associated with testing, engineering and homologation, of both green vehicles and components	High	Innovation plan with priority lines of action in each line of business

Legal risk	Regulations that require greater use of renewable energy Medium term		greater use of renewable term		Low	Annual increase in the Group's % of renewable electrical energy following the established strategy
Reputation risk	Increase in reporting obligations	Present	Perception of lack of transparency or credibility by stakeholders	Low	Monitoring of legislative changes accompanied by a deployment of internal reporting and control tools	

We identify risks and manage them appropriately, so we do not expect any significant impacts. In the same way, we deploy plans to make the most of the opportunities that climate change offers us, which will more than compensate for the possible impacts that, although limited, may occur.

To date, the financial impact on the Group's operations has been low because the events have been brief and occasional. However, given the geographic spread of our operations, the likelihood of these events happening simultaneously in many different locations is considered low.

Science Based Targets initiative (SBTi)

At Applus + we understand that the private sector has an obligation to contribute to the fulfillment of the objectives of the Paris Agreement, which aims to prevent the increase in the average global temperature of the planet from exceeding 2°C with respect to pre-industrial levels and also seeks to promote additional efforts to ensure that global warming does not exceed 1.5°C. In this sense, our group has joined the Science Based Targets initiative, committing ourselves to setting ambitious emission reduction targets to meet a 1.5°C scenario.

In this way, Applus+ is part of a global initiative in which more than 2,200 companies participate worldwide, and which collaborate with the most influential organisations in the field of climate change such as CDP, the United Nations Global Compact, World Resources Institute (WRI) and Worldwide Fund for Nature (WWF).

We are defining medium-term **goals** with the ambition of becoming a net-zero carbon company by **2050**.

This commitment marks another milestone on our path to a low-carbon future, which began in 2017 when we joined the CDP objective, publicising the actions that the Group takes to mitigate climate change, and which continued in 2018 by adhering to the principles of the United Nations' Global Compact.

Energy and emissions

The Applus + Group is firmly committed to contributing to the mitigation of climate change. We have transferred this commitment to our 2022-2024 Strategic Plan, setting short-, medium- and long-term targets aimed at effectively reducing our carbon footprint, and defining action plans for their fulfilment. The targets defined for the next three years are:

- 1. Reduction of Scope 1 and 2 emissions by 30% compared to the base year, 2019.
- 2. Offsetting the rest of Scope 1 and 2 emissions for the year 2023.

Furthermore, we have incorporated these targets into the company's remuneration scheme, thereby reaching all management levels of the organisation.

We have devised an action plan that includes, amongst others, the creation and deployment of new policies, energy efficiency plans applied to the facilities/offices with the highest consumption, increasing the consumption of green energy at our facilities, and the gradual renewal of our vehicle fleet for more sustainable technologies. This plan is accompanied by training and awareness campaigns for our employees.

The Applus + *Good Environmental Practices Guide* complements the action plan by defining clear guidelines for all of our employees to **reduce energy consumption** at the Group's facilities, as well as **fuel consumption**, both in fleet vehicles and in private cars.

ENERGY

To perform our operations, we use **fuel**, **electricity and district heating as** energy sources.

Of the total energy consumed in the organisation (901,978 GJ), fuel is the majority source of consumption, constituting 70% of total energy. Fuel consumption is directly related to our activities, many of them are carried out on-site, which requires our employees to travel to our clients' facilities.

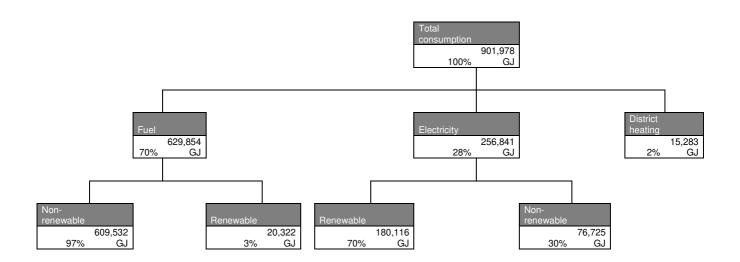

The remaining 30% of the energy corresponds mainly to electric energy and, in compliance with one of the objectives established for 2021, we have increased the use of renewable sources by more than 3 times with respect to the previous year. In doing so, we are promoting the **transition from fossil energy sources to renewable sources**, which are more environmentally, climate and health friendly.

Electricity of renewable of	consumed rigin	in	the	Group	of	70%
-----------------------------	-------------------	----	-----	-------	----	-----

Energy intensity

Energy intensity per employee (GJ / employee)	Energy intensity per revenue (GJ / M€)
38.15	531.31

The 9% increase in energy intensity compared to the previous year is due to two main reasons. On the one hand, the increase in energy consumption associated with the economic recovery following the impact of the pandemic caused by COVID-19. On the other hand, caused by the incorporation of consumption data from our IDIADA facilities located in Shandong (China), whose consumption is assumed by Applus+ as of 2021.

CASE STUDY: ARTIFICIAL INTELLIGENCE TO REDUCE HEATING CONSUMPTION

Since early 2021, we have been testing a smart-heating regulation system at one of our inspection centres located in Holbæk, Denmark.

With the assistance of controllers, energy consumption can be regulated according to the level of activity in the vehicle inspection centres. For example, the energy consumption used for heating can be reduced at night and on weekends when the centre is closed.

With this initiative, we hope to achieve a **saving of 20% in energy consumption** related to heating, thereby preventing the release of more than 5 tonnes of CO_2 eq per year into the atmosphere. The ultimate goal is to implement a sustainable and efficient way to control and reduce heating-related energy consumption.

CASE STUDY: SOLAR ENERGY IN AUSTRALIA

In June 2021, we installed solar panels on the roof of our Bibra Lake facility in Perth, Australia.

With these panels, we save 40% of energy, which avoids the emission of more than 35 tonnes of CO_2 per year into the atmosphere.

Our goal is to work actively to reduce the impacts of our activities on the climate, focusing on optimising consumption and demonstrating our commitment to renewable energy.

CASE STUDY: LEED CERTIFICATION

The business park where Applus+ headquarters in Madrid is located was recognized with the most prestigious certification in the field of environmentally sustainable building certification, the LEED Certification, developed by the U.S. Green Building Council in the area of "Existing Buildings. Operations and Maintenance", obtaining the highest score.

Applus+ has actively participated in obtaining this certification by providing data on energy consumption, sustainable purchasing, waste management and cleaning. Necessary to be able to make a correct evaluation of the sustainability of the buildings on the site.

This recognition goes beyond a certification, as it encourages the reduction of energy use, water waste and improve air quality and habitability, to make the facilities healthier and more sustainable.

EMISSIONS

At Applus+, we pursue advancement in our commitment to reduce carbon emissions into the atmosphere, and we want to be part of the change that is taking place to combat the climate emergency. In 2021, we communicated our commitment to be net zero by 2050, and carbon neutral for Scopes 1 and 2 in 2023.

In 2021, more than 70% of our electrical energy and 22% of our total energy comes from **renewable sources**, which means that we are avoiding the emission of 11,127 tonnes of CO₂ into the atmosphere.

In 2021, continuing the process initiated in previous years, we carried out an exhaustive analysis **of our company's Scope 3** emissions to obtain all of those indirect GHG emissions that were relevant. The result of this analysis concluded that 6 of the fifteen categories defined by the GHG protocol were significant.

Scope 1 Direct emissions from fuel combustion	43,768 tCO ₂ eq
Scope 2	8,402 tCO ₂ eq
Indirect emissions from power generation	
Scope 3	236,070
Purchased goods and services.	tCO₂eq
Capital goods.	
Activities related to fuel and energy (not included in scope 1 or scope 2).	
Upstream transportation and distribution.	
Business travel.	
Employee commuting.	

Emission intensity²

Emission intensity per employee (tonnes of tCO_2eq / employee) Emission intensity per revenue (tonnes of tCO_2eq / M \in)

2.21 30.73

This year, compared to the previous year, the emission intensity has decreased by 9%.

CASE STUDY: OUR RENEWABLE ENERGY SOURCES CONTINUE TO EXPAND

From within the Applus + Group, we wish to continue the path started in 2020 with the agreement with our largest electricity supplier in Spain.

Thanks to this agreement, all the facilities in Spain where we are responsible for purchasing electricity are supplied with 100% renewable electricity.

In 2021, we wanted to go one step further and expand the number of countries where we consume green electricity. The countries that have joined the plan are Sweden, Ireland, Costa Rica and Italy, with an annual consumption equivalent to 11.79 GWh.

This change represents an **annual saving of more than 10,000 tonnes of CO₂ emissions**, which allows us to perform our services in an increasingly sustainable and environmentally-friendly way.

92

²The emission intensity indicator covers Scope 1 and 2 emissions.

CASE STUDY: AGREEMENT WITH CAIXABANK

In 2021, the Applus+ Group and Caixabank, a leading Spanish banking institution, signed a line of credit worth €100 million linked to sustainability criteria.

The agreement is based on a gradual reduction in the intensity of the emission-per-employee until 2023 by 17%, with respect to the intensity of the base year. The selection of this indicator as the unit of measurement is based on its representativeness to evaluate the environmental impact of our activities.

This financial operation becomes the first linked to the environmental performance of the Applus+ Group.

This commitment drives us to continue improving in reducing our emissions and thereby minimising our environmental impact. Thanks to the effort made in 2021, we have achieved a reduction of 26%.

Water

Consumed Water	1,092,500 мь
Total water extraction	
Agua subterránea	327,696 ML
Water from third parties	764,804 ML

The total fresh water consumed during 2021 in the Group was 1,092,500 ML, part being from groundwater origin.

The most relevant consumption occurs at the facilities of the IDIADA Division in Tarragona (Spain) and in second place Shandong (China), since both locations account for 68% of the Group's consumption.

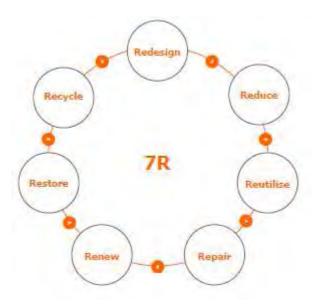

Water in Tarragona is used for buildings, irrigation of green areas and the tests carried out on four of its fourteen vehicle proving tracks (two braking tracks, one track driving on wet pavement and one track for fatigue testing). The most intensive use of water is consumed on the proving test tracks, and to minimise this consumption, the water is filtered and recirculated for reuse, without requiring oil and grease separators. In this process, the lost water is only between 7-11%.

The controls that are carried out are:

- ✓ In the case of water used on test tracks and buildings, pH and chlorine levels are determined.
- ✓ Furthermore, for test track water, an osmosis treatment is available, and conductivity is analysed.
- ✓ And, only in building water, organic and chemical parameters are controlled.

Waste

At Applus +, a wide-ranging portfolio of solutions is offered for a large variety of needs, and therefore generates different types of waste. Following our brand motto *Together beyond the standards*, we aim to go further than our legal obligations and carry out comprehensive management of our waste to allow us to move towards a **7R circular model**:

We have published the *Guide to Good Environmental Practices*, which covers the guidelines for **waste management** in the Group. This document defines our behaviour to minimise the environmental impact of the activities developed by Applus+, applying the pillars of the **circular economy.**

Both in our offices and in the provision of our services at our client's facilities, all employees must apply these good practices to manage the waste generated.

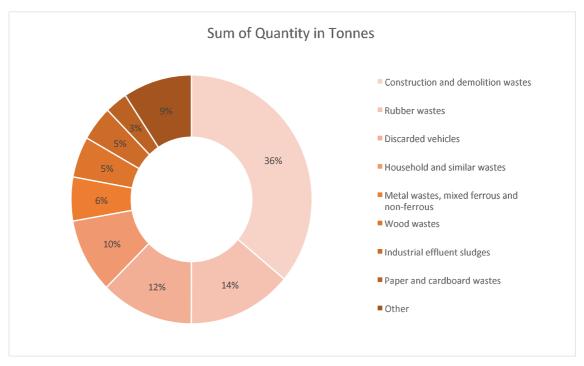

At Applus+ facilities, waste is segregated when the country has a public or private infrastructure that makes recycling and selective treatment possible. The managers of the work centres are responsible for providing the necessary resources to comply with these management policies, as well as for controlling their application.

Waste typology, despite being diverse, is concentrated in **construction waste**, **vehicles and their derivatives** and finally in **municipal waste mixtures**.

Due to the nature of the facilities and services provided, the IDIADA and Laboratories divisions concentrate most of the generation and management of waste.

The hazardous and specific waste generated in both divisions is always managed through duly authorised companies, and the necessary documentary evidence is stored to verify the traceability of its management. All of the waste is segregated at source according to their category to facilitate their management and valuation.

Waste ³	
Hazardous waste	749 tonnes
Non-hazardous waste	1,692 tonnes
Total	2,440 tonnes

³The waste data cover the data for 22% of 2021 revenue.

_

CASE STUDY: WASTE MANAGEMENT IN SOUTH AFRICA

In South Africa, we have implemented a recycling management system at our facilities. In this way, we carry out responsible waste management that helps to disseminate good practices among our employees, which they can later apply to other environments in which they carry out their activities.

All of the employees at the office collaborate in the segregation of waste and in the proper use of the containers, being aware of the importance of contributing to environmental preservation. Containers are monitored daily to ensure separation that allows for their subsequent recovery.

Environmental benefits include reducing the amount of waste sent to landfills and combustion facilities, and conserving natural resources by reducing the need to extract new raw materials, thereby raising awareness.

08. VALUE TO COMMUNITY

GRI 413-1

Social action

Applus+ is firmly **committed to local communities** in the countries and regions where we provide services. We give special attention to the **most vulnerable groups** and launch different projects to provide them with the best support. Our **commitment to diversity, equality and inclusion** is also manifested through these projects.

Although there were many initiatives promoted by our centres around the world in 2021, here we highlight a selection.

CASE STUDY: "CONVIVIO" PROJECT IN PANAMA

Every December since 2015, 40 Applus+ employees visit villages where vulnerable families live in Panama to bring them a message of hope, as well as toys and food.

In 2021, one hundred and sixty children from the communities and schools of Quebrada León, Gandona, Escobalito, Nueva Sevilla and Icacal Arriba received toys thanks to this project.

In addition to supporting the most disadvantaged groups, this project strengthens and energises the connections between the individuals who make up our organisation.

• Online charity market in Spain

Applus+ annually organises solidarity Christmas markets in various offices, where they sell various products made by young people with intellectual disabilities. The profits go to the training and the social and workforce inclusion of this group.

This initiative is part of our goal of fostering a working atmosphere that is diverse and inclusive, through which we seek to consolidate the incorporation of people with disabilities at a global level, thanks to the collaboration agreement with the Prodis foundation.

CASE STUDY: VOLUNTEER PROGRAMME IN COSTA RICA

The Applus+ volunteer programme in Costa Rica, running since 2014, is aimed at all employees who wish to participate. Each centre has a volunteer leader who promotes the activity among his or her colleagues.

The projects are designed and promoted by a volunteer committee led by the Communication and Social Responsibility Department and are related to road safety and environmental protection.

In 2021, employees volunteered a total of 1,837 hours.

Throughout the eight years of the programme, employees have volunteered a total of 12,485 hours.

Remanga2 Project "Manitas limpias" (Clean Hands)

As a result of the pandemic, public schools in Costa Rica needed to make structural adjustments to reopen, with protocols to ensure the health and safety of their students. One of the requirements was the installation of sinks and disinfection points at the entrances of schools.

Through the "Remanga2" project, whose purpose is to support neighbouring communities, and with the help of volunteers from the "Fuerza Riteve" programme, the necessary renovations were carried out to allow children from underprivileged communities to return to school in safety as quickly as possible.

1,178 children from three schools benefited: Escuela Oasis in Buenos Aires, Puntarenas; Cristóbal Colón School in Santo Domingo, Heredia; Jesús de Nazareth School in Liberia, Guanacaste.

Volunteer programme in the United States

Applus+ employees in the United States are invited to take part in the Volunteer Time Off (VTO) programme to work with different organisations and social projects for 8 hours per year.

One of this year's volunteer activities was in a centre for children with disabilities.

• Multiply the impact campaign with Banco Tapitas

In Mexico, Applus+ collaborates with the Banco Tapitas Foundation to collect and recycle plastic bottle caps to raise money in support of a number of welfare programmes for children under 21 diagnosed with cancer.

Fifty-three and a half kilograms of caps were collected in the first delivery in April 2021 and 58 kg in the second delivery in October.

For every kilogram, Applus+ buys 100 pesos worth of products at the foundation's Tapitienda shop, which are given to volunteers who have collaborated in the collection.

Banco Tapitas then converts these caps into resources for the purchase of medicines.

• Applus+ sponsors the **Northern Lights Hospital Foundation's Spring Fling Event** in Fort McMurray, Alberta (Canada).

Since 1985, this foundation has provided funds to support health care in the regional municipality of Wood Buffalo. Each year, it holds the event to raise money for new technology programs, services, infrastructure, developments, and innovations that support healthcare initiatives in the Fort McMurray region.

 Applus+ sponsors the Bakersfield Women's Business Conference, in Kent County (USA).

Founded in 1989, this initiative aims to foster the personal and professional growth of women in all facets of business and industry sectors through skills development and networking opportunities.

The conference is designed to encourage, educate and empower women to achieve professional success at every stage of their careers.

- Once again, this year we sponsored the **Solidarity Race** organised by the Autonomous University of Barcelona in Spain, whose 2021 edition aimed to raise awareness about the importance of **mental health**.
- We participated in the "Gran Recapte d'Aliments "(Big Food Drive) initiative organised by the **Barcelona Food Bank** to collect funds for the purchase of fresh and chilled products. This year we encouraged our employees to make online money donations, and doubled the amount donated by each of them, tripling the amount donated.
- We provide **financial donations** to organisations that support people with some type of dependency. Every year, we donate €30,000 to the Adcor foundation and €3,000 to the Prodis foundation.
- In Italy, we sold lottery tickets to raise **funds for a local hospital**.

Contribution to development

At Applus+, we contribute to **local employment**, direct and indirect, by directly hiring local people and suppliers. This contributes to the development of local communities in the 70+ countries where we are present around the world.

In addition, our services support the implementation of **key projects for a country's structural development**, thereby contributing to local social and economic growth. The Applus+ Group's contribution to the improvement of transportation networks, drinking water infrastructure and energy supply networks, as well as wastewater collection and sewage treatment infrastructures, are essential to promote economic activity, safeguard public health, and increase the quality of life of local communities.

Our contribution is particularly important in developing countries.

 Supervision of water delivery and waste sanitation within the Ngábe Buglé region of Panama.

Applus+ provides technical assistance and monitoring services to guarantee the correct use of vital water resources in the region. This project aims to improve access to drinking water and the management of wastewater in Indigenous communities through the application of international best practices.

Applus+ contributes to providing the Indigenous communities in Chichica and Las Lajitas with uninterrupted service of high quality water directly to their homes. In addition, our services help provide better wastewater treatment before being discharged. These infrastructures are essential for the social and environmental development of the region.

CASE STUDY: CONSTRUCTION OF ROAD INTERCHANGES IN COSTA RICA

Applus+ is providing management and inspection services for the infrastructure under construction at the Taras and La Lima road interchanges in the city of Cartago.

The project includes the construction of two overpasses along the 2.8 kilometres of the road connecting Taras and La Lima, including the construction of access and exits, turns, pavements, bus routes, and bicycle lanes at different points.

Some 40,000 vehicles pass through the area every day, so this project is extremely important for all users travelling along the San José - Cartago route and south of the country.

Community health and wellbeing

For Applus+, being part of the community means providing services that improve safety, protect health and enhance the wellbeing of the people who live within our various locations.

We work to improve road safety through multiple services. The IDIADA Division's work in the development of equipment and systems to prevent accidents or reduce their impact on lives is essential to ensuring a safer future for drivers and pedestrians. The Automotive Division's work certifying that the safety condition of vehicles is above the legal minimum standards is vital to reducing accidents.

CASE STUDY: PROTECTIVE INNOVATIONS OF NEW EQUIPMENT FOR ENHANCED RIDER SAFETY

This European project is formed by a consortium made up of 16 international partners led by the IDIADA Division, which has developed **new on-board safety devices** aimed at reducing the number of motorbike rider fatalities and severely injured riders.

The main objective of the PIONEERS project is to improve the **safety of powered two-wheel vehicles** by providing user-safety from an integrated perspective, i.e., it refers to both personal protective equipment (PPE) and accessories that are integrated into the vehicle.

The PIONEERS project has made a detailed analysis of more than 1,400 real, serious accidents involving powered two-wheeler riders with the aim of better understanding the factors that generate the most injuries.

Three safety devices have been tested: an automatic pre-impact braking system, an airbag jacket and a safety leg cover.

The research concludes that with these initiatives the number of **motorbike accident** victims could be reduced by up to 19%.

CASE STUDY: WARNING SYSTEMS FOR DRIVER DROWSINESS AND ATTENTION

DDAW is a system capable of **detecting driver drowsiness** based on the driving and/or steering patterns symptomatic of a driver exhibiting reduced alertness caused by drowsiness. As soon as the system detects possible signs of fatigue, it warns the driver through the vehicle interface.

The IDIADA Division, anticipating the requirements of this future regulation, has designed and developed a **new testing methodology** to assess these types of systems, for which a state of drowsiness and fatigue must be intentionally generated in the driver while driving a vehicle, while ensuring the safety of the test driver at all times.

The drowsiness induction method was developed by IDIADA Division's ADAS department's Human Factors team, in collaboration with the Homologation team, to combine all those elements which, according to accident studies, generate driver drowsiness.

This validation system is a step forward in developing a new testing methodology that will be **useful and safe** for the testing and validation of DDAW systems, which may be equipped on many vehicles in the coming years.

Free pre-MOT in Montevideo, Uruguay

Applus+ in Uruguay carried out free statutory vehicle inspections on 150 motorbikes in different parts of Montevideo using a mobile plant, with the aim of reinforcing road safety.

Road controls in Costa Rica

Applus+ collaborates with different authorities in the country in road controls, which aim to regulate and prevent accidents, contributing to its technical knowledge through visual inspections.

These operations are performed all over the country. In 2021, we carried out 79 days of

on-the-spot checks and inspected 3,759 vehicles.

We contribute to the **safety of various types of infrastructures** through the inspection services of the Energy & Industry Division. For example, we offer structural asset-integrity services that identify potential structural damage, or leak testing of substances hazardous to health or that could cause fires or explosions. Our services thereby enable the adoption of actions to prevent damage to human health and the environment.

CASE STUDY: STORAGE TANK INSPECTIONS

Applus+ implements the HEX access system for the internal inspection and maintenance of spherical tanks at a chemical plant.

This system, in combination with rope access techniques, provides 360-degree access for our technicians to perform advanced non-destructive testing. By deploying a multidisciplinary, competent and trained team, we were able to concurrently perform internal and external inspections on the spherical tank.

These inspections prevent the emission of substances harmful to human health and the environment.

Leak detection at an offshore wind farm

Applus+ tests for bromide gas leaks in the turbines of the world's second largest offshore wind farm. Based on a previously developed test methodology, and having trained our technicians, we successfully carried out these tests. The gas is associated with risks to human health and the environment.

09. FINANCIAL INFORMATION

European taxonomy

PRELIMINARY CONSIDERATIONS

In June 2020, the European Parliament approved the European Taxonomy regulation (Regulation 2020/852). This aims to establish a classification system for environmentally sustainable economic activities to facilitate the flow of capital and investments and to assess the environmental sustainability of an investment. The Taxonomy covers a wide spectrum of sectors.

Activities are qualified as environmentally sustainable when these:

- 1. Make a substantial contribution to one or more of the environmental objectives:
 - a) Climate change mitigation
 - b) Climate change adaptation
 - c) The sustainable use and protection of water and marine resources
 - d) The transition to a circular economy
 - e) Pollution prevention and control
 - f) The protection and restoration of biodiversity and ecosystems
- 2. Do no significant harm to other environmental objectives.
- 3. Meet minimum social safeguards based on: the guidelines of the Organisation for Economic Co-operation and Development (OECD) for multinational companies; the guiding principles of the United Nations on business and human rights; and the principles and rights established in the eight fundamental conventions referred to in the Declaration of the International Labor Organization's Declaration on Fundamental Rights and Principles at Work and the International Bill of Human Rights.
- 4. Comply with the technical-screening criteria established by the European Commission.

With regards to the taxonomy approach:

- a) It covers a wide spectrum of sectors, which represent 93.24% of GHG emissions within the European Union, with a focus towards specific industrial activities, rather than service companies like Applus+ belonging to the TIC (testing, inspection and certification) sector.
- b) During 2021 of the six environmental objectives established, only the regulations corresponding to the first two (climate change mitigation and adaptation) have been published. As a result, the indicators at present only include part of the activities, and the number of indicators will increase as the new regulations are approved.
- c) Applus+, and the TIC sector, carries out voluntary or regulatory activities that are facilitating and, sometimes essential, for the activities considered eligible in the taxonomy to be developed. However, these activities are not included in the Taxonomy.

⁴Source:https://ec.europa.eu/info/sites/default/files/business_economy_euro/banking_and_finance/documents/190618-sustainable-finance-teg-report-taxonomy_en.pdf

PROCESS OF SELECTING ELIGIBLE ACTIVITIES AND QUANTIFICATION

Our process to determine eligible activities follows:

Denominator

The information used is published in the Applus+ Group's annual accounts, following the guidelines set out in Annex I of the Delegated Regulation of 6th July 2021:

- Revenues corresponds to the Applus+ Group's total revenues.
- In the case of Capex, the denominator figure is the Group's total Capex, which includes investments in intangible assets, investments in property, plant and equipment, investments in assets for rights of use, and assets transferred without consideration.
- In the Opex indicator, only non-capitalised direct costs related to research and development, short-term leases, and maintenance and repairs have been considered. Due to limitations in the identification within the Opex concepts used in the Group's internal accounting, other direct costs related to the daily maintenance of property, plant and equipment assets, by the company, or by a third party to whom activities are outsourced and which are necessary to ensure the continued effective operation of such assets, have been left out of the indicator.

Numerator

- a) Based on the structure of operating divisions used in the consolidation of financial information (the Energy & Industry Division, the Laboratories Division, the Automotive Division and the IDIADA Division), we have identified the activities carried out by each of the divisions based on the Group's portfolio of services that are eligible activities according to Delegated Acts and which, according to the Taxonomy, could substantially contribute to climate change mitigation and/or adaptation, in order to determine our potentially eligible activities. In those cases where the activities could raise doubts regarding its eligibility, a conservative criterion has been adopted by not including it in the calculation of the numerator therein.
- b) Some activities are carried out horizontally in various markets where the Group operates, which in the Taxonomy are set for specific markets. In these cases, we have identified the verticals limited to the market in question.
- c) In both cases, activities at Applus+ have been analysed based on the Taxonomy's classification of eligible activities in compliance with the Delegated Acts that can substantially contribute to climate change mitigation and/or adaptation: agriculture; environmental protection and restoration activities; manufacturing; energy; water supply, sewerage, waste treatment and remediation; transport; construction and real estate development activities; information and communication; professional, scientific and technical activities; financial and insurance activities; education; human health and social work activities; and arts, entertainment and recreation.
- d) For both a and b above, only services with a certain relevance have been included, not services whose revenues can be considered inconsequential for purposes within the Taxonomy on the total KPIs. For the remaining eligible services, we have identified the net revenues for 2021, in compliance with the guidelines of Annex I of the Delegated Regulation published on 6th July 2021.
- e) For each of the eligible activities, both OPEX and CAPEX costs have been included in compliance with the guidelines of Annex I of the Delegated Regulation. Both, in the Opex and Capex indicators are included same costs as those included into the denominator related to eligible activities and they have been calculated using same percentage as in revenues eligibility based on legal entities which represent the eligible activities in revenues.

In this regard, the sum of 'CapEx/Opex/Revenues' allocated to eligible activities, plus that allocated to non-eligible activities, totals the amount reported in the denominator of the KPI calculation, and this is consistent with the breakdowns in the notes to the consolidated financial statements relating to movements in 'fixed assets/operating expenses/Group revenues'.

PROCESS OF CONSOLIDATION INFORMATION AND CALCULATION OF INDICATORS (KPIS)

First, each of the divisions at Applus+ prepared a file to analyse which activities could, according to the Taxonomy, substantially contribute to climate change mitigation and/or adaptation, as well as their associated revenue metrics.

Subsequently, in the case of revenues, the consolidation of the information provided by the divisions, and the calculation of the consolidated indicators of the different eligible activities according to the Taxonomy have been carried out by the Finance area. No extrapolations or estimates have been made of activity data that, due to the nature of the projects, could not be extracted from the individualised information.

Indicators

KPI	Total (EUR)	Eligible (%)	Non-eligible (%)
Revenues	1,776,745	3.2%	96.8%
Operating expenses	108,831	1.9%	98.1%
Investments in fixed assets	60,319	3.0%	97.0%

The activities we have identified as eligible, in relation to climate change mitigation and adaptation regulations, are those related to the renovation of water distribution systems (in compliance with activity 5.2 of Annex I of the Delegated Regulation published on 6th July 2021), infrastructure testing and inspection services for rail transport(in compliance with activity 6.14 of Annex I of the Delegated Regulation published on 6th July 2021), carbon road transport, public transport (in compliance with activity 6.15 of Annex I of the Delegated Regulation published on 6th July 2021), and energy-efficiency services (in compliance with activity 9.3 of Annex I of the Delegated Regulation published on 6th July 2021).

Management report

GRI 102-45

FULL YEAR REPORT 2021

Overview of Performance

The financial performance of the Group is presented in an "adjusted" format alongside the statutory ("reported") results. The adjustments are made in order that the underlying financial performance of the business can be viewed and compared to prior periods by removing the financial effects of other results.

Where stated, organic revenue and profit is adjusted for acquisitions or disposals in the prior twelve-month period and is stated at constant exchange rates, taking the current year average rates used for the income statements and applying them to the results in the prior period.

In the table below the adjusted results are presented alongside the statutory results.

		FY 2021			. / 0/		
EUR Million	Adj. Results	Other results	Statutory results	Adj. Results	Other results	Statutory results	+/- % Adj. Results
Revenue	1,776.7	0.0	1,776.7	1,557.6	0.0	1,557.6	14.1%
Ebitda	286.0	0.0	286.0	218.4	0.0	218.4	31.0%
Operating Profit	175.2	(73.7)	101.5	118.4	(235.8)	(117.4)	48.0%
Net financial expenses	(25.9)	0.0	(25.9)	(24.8)	0.0	(24.8)	
Profit Before Taxes	149.4	(73.7)	75.6	93.6	(235.8)	(142.3)	59.7%
Current Income tax	(38.3)	12.7	(25.6)	(29.4)	30.6	1.2	
Non controlling interests	(17.8)	0.0	(17.8)	(17.2)	0.0	(17.2)	
Net Profit	93.3	(61.1)	32.2	47.0	(205.2)	(158.2)	
Number of Shares	143,018,430		143,018,430	143,018,430		143,018,430	
EPS, in Euros	0.65		0.23	0.33		(1.11)	
Income Tax/PBT	(25.6)%		(33.9)%	(31.4)%		(0.8)%	

The figures shown in the table above are rounded to the nearest €0.1 million

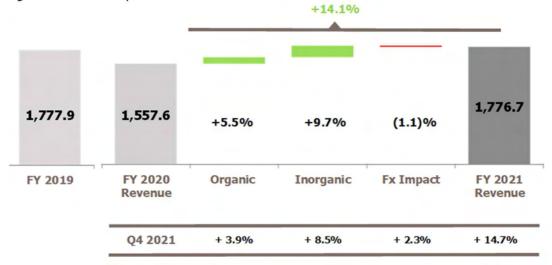

Other results of €73.7 million (2020: €235.8m) in the Operating Profit represent amortisation of acquisition intangibles of €65.6 million (2020: €58.4m); severance costs on restructuring of €3.6 million (2020: €8.1m); transaction costs relating to acquisitions of €2.6 million (2020: €3.5m) and; other gains and losses that net to a charge of €2.0 million (2020: €0.8m). Furthermore, in 2020 there was impairment of goodwill and non-current assets of €165.0 million and none in 2021.

A reduction in the deferred tax liability is booked against these Other results of €12.7 million (2020: €13.9m). Furthermore, in 2020 there was a reduction of the deferred tax liability €16.7 million booked against the impairment of €165.0 million.

Revenue

Revenue for 2021 of €1,776.7 million was higher by 14.1% compared to the previous year.

The revenue bridge for the year in € million is shown below and the change in the percentage figures for the last quarter of 2021 are shown below the waterfall chart.

The total revenue increase of 14.1% for the year was made up of an increase in organic revenue at constant exchange rates of 5.5%, the addition of revenue from acquisitions (Inorganic) of 9.7% and an unfavourable currency translation impact of 1.1%. The net resulting revenue for the full year of 2021 was in-line with the revenue in 2019 which was the last full year unaffected by the coronavirus pandemic.

The organic revenue growth for the year came from all four divisions of the Group, with Energy & Industry having the lowest of 1.1% and is showing the slowest recovery from the pandemic and the Auto division with the highest at 12.7%, with the strongest recovery from the pandemic. Labs and IDIADA divisions also had strong organic revenue growth rates of 8.7% and 11.1% respectively.

Compared to 2019, for the full year 2021, the Automotive division is comfortably ahead in both total and organic revenue with the Laboratories division significantly ahead in total revenue and only 1% below in organic. Revenue from the IDIADA division in 2021 where there have been no acquisitions, is 6% below 2019 and Energy & Industry is 11% below in total revenue due to the Oil & Gas Capex end market not yet having recovered by the end of 2021.

The revenue sequentially increased every quarter of last year with the third and fourth quarters reaching record high revenues.

In the final quarter of the year, the total revenue was €470.5 million. This was an increase of 14.7% from the prior year's final quarter revenue of €410.2 million. This was made up of an organic revenue increase of 3.9%, the addition of revenue from acquisitions (Inorganic) of 8.5% and a favourable currency translation impact of 2.3%.

In the final quarter of the year, three of the four divisions had organic revenue above the final quarter of 2019, with Energy & Industry division below.

The revenue increase of 9.7% from acquisitions relates to a partial year of revenue from the five acquisitions closed in 2020 until they had been owned for twelve months plus revenue from five acquisitions closed in 2021 from the date of ownership to the end of the year.

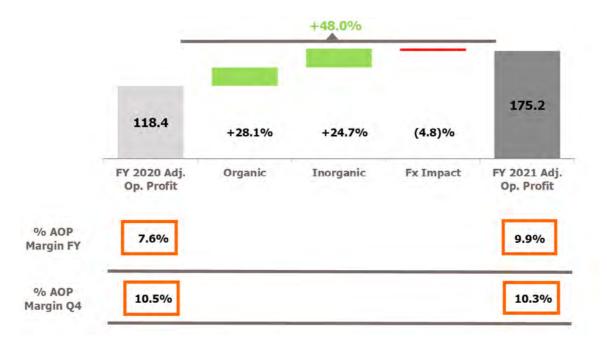

The largest acquisition made in 2021 was IMA Dresden, a materials testing laboratory in Germany with over 200 people and currently generates approximately €25 million of annual revenue. The largest contribution to acquisition revenue in the year was from SAFCO which was closed in 2021 with €29 million of annual revenue.

Of the revenue in 2021, 47% was generated in the reporting currency of the Group which is the euro and 53% in other currencies. The largest of these other currencies is the US dollar and those linked to the US dollar which in 2020 made up 24% of the revenue and in 2021, this reduced to 18%. The exchange rates changed materially during the year with the US dollar rate used for the translation of the profit and loss in the first half being 8.6% weaker against the Euro and the second half was 1.7% stronger and for the full year was 3.7% weaker. The Canadian dollar was also stronger in the second half than the first half although the Swedish kroner and Australian dollar moved in the opposite directions with the first half stronger than the second. This resulted in the first half of the year having a negative currency impact of 3.9% and the second half a positive currency impact of 1.2% resulting in a full year net negative currency impact of 1.1%.

Adjusted Operating Profit

Adjusted operating profit for 2021 of €175.2 million was higher by 48.0% compared to the previous year.

The adjusted operating profit bridge for the year in € million is shown below and the margins for the years and the last quarter of 2021 are shown below the waterfall chart.

The total adjusted operating profit increase of 48.0% for the year was made up of an increase in organic adjusted operating profit at constant exchange rates of 28.1%, acquisitions (Inorganic) of 24.7% and an unfavourable currency translation impact of 4.8%.

The adjusted operating profit increase in the period came from all four divisions due to the strong recovery in the business after the impact in 2020 from the coronavirus pandemic.

The resulting adjusted operating profit margin for the year was 9.9%, significantly higher than the margin of 7.6% in the prior year and the margin for the last three quarters was over 10%. The improvement in the margin came from both the organic business and the acquisitions which, in total and individually, were all at higher margins than the Group level.

Compared to the adjusted operating profit margin in 2019 of 11.1%, the margin is still below due to lower margins still in Energy & Industry, Automotive and IDIADA. Laboratories division in 2021 was the only division with a higher margin than was reported in 2019.

In the final quarter of the year, the total adjusted operating profit was €48.5 million an increase of 12.9% from the prior year final quarter of €43.0 million and in-line with the final quarter of 2019 total adjusted operating profit of €48.6 million. This growth in last quarter adjusted operating profit was made up of a decrease in the organic component of 3.2%, the addition of 15.7% from acquisitions and a positive foreign currency impact of 0.4%.

Other Financial Indicators

The reported operating profit was €101.5 million in the year compared to a reported operating loss of €117.4 million in the previous period. The reported operating profit is after deducting the Other results of €73.7 million from the adjusted operating profit as detailed above.

The net financial expense in the profit and loss for the period was €25.9 million and includes €7.5 million relating to the charge from IFRS16 and this is €1.1 million higher than the previous period expense of €24.8 million mainly due to the increase in net debt.

The profit before tax on an adjusted basis was \in 149.4 million compared to \in 93.6 million in 2020 and on a statutory basis was \in 75.6 million compared to a loss of \in 142.3 million in 2020. The adjusted profit before tax was significantly higher than for the corresponding period last year due mainly to the higher adjusted operating profit. The statutory profit before tax was additionally significantly greater due to the impairment charge in the prior year.

The effective tax charge for the year was €38.3 million which was higher than the prior year of €29.4 million. This gave an effective tax rate of 25.6% being lower than the rate in the prior period of 31.4% and in line with rate in 2019 of 25.2%. The lower effective tax rate is due to some operations in 2020 having losses which are not normally the case and where no deferred tax assets had been recognised against those losses. On a statutory basis, the reported tax was a charge of €25.6 million versus a credit of €1.2 million in the prior year. The prior year had tax credits due to a release of the deferred tax liabilities of €16.7 million related to the one-off impairment in 2020.

Non-controlling interests increased from €17.2 million in 2020 to €17.8 million in 2021. The increase of €0.6 million in the period is mainly due to the higher profit from the minority interests, especially within the Automotive contracts in Galicia, Costa Rica and for the IDIADA business.

The adjusted net profit was €93.3 million (2020: €47.0m) and the adjusted earnings per share was 0.65 euros (or 65 cents) (2020: 0.33 euros) for the year. The statutory or reported net position was a net profit of €32.2 million versus the net loss of €158.2 million in the prior year, due mainly to the non-cash impairment charge of €165.0 million in 2020.

Cash Flow and Debt

Cash flow generation was good in the year due to a strong increase in EBITDA of €67.6 million or 31% and this was despite the increase in the level of working capital by €48.2 million from the year end position compared to the exceptional decrease in working capital of €86.1 million in the corresponding period. The increase in working capital in 2021 reflects the change in revenue trends with 2021 increasing revenue and in 2020 there was a decrease in revenue.

Net capital expenditure on expansion of existing and into new facilities was €60.3 million (2020: €50.2m) which represented 3.4% (2020: 3.2%) of Group revenue.

Adjusted operating cash flow (after capital expenditure) was €177.5 million being €76.8 million or 30.2% lower than for the prior year period and this corresponded to a cash conversion rate of 62% (2020: 116%).

The increase in taxes paid of €19.4 million from €16.7 million paid in 2020 to €36.1 million paid in 2021, was due to the higher taxable profit as well as the prior year benefiting from some tax refunds and some permitted tax payment delays as part of the COVID-19 Government assistance schemes. The cash tax paid amount in 2021 is aligned with the effective tax charge of €38.3 million.

Summary of cash flow in € million is show below.

	FY				
	2021	2020	Cha	ange	
Adjusted Ebitda	286.0	218.4	67.6	31.0%	
Change in Working Capital	(48.2)	86.1			
Capex	(60.3)	(50.2)			
Adjusted Operating Cash Flow	177.5	254.2	(76.8)	(30.2)%	
Taxes paid	(36.1)	(16.7)			
Interest paid	(12.9)	(11.4)			
Adjusted Free Cash Flow	128.5	226.2	(97.6)	(43.2)%	
Extraordinaries & Others	(8.5)	(2.3)			
Applus+ Dividend	(21.5)	0.0			
Dividends to Minorities	(18.5)	(11.5)			
Operating Cash Generated	80.0	212.4	(132.4)	(62.3)%	
Acquisitions	(82.0)	(216.8)			
Cash b/Changes in Financing & FX	(2.0)	(4.4)			
Payments of lease liabilities (IFRS 16)	(60.3)	(53.0)			
Other changes in financing	46.6	113.7			
Treasury Shares	(2.1)	(1.3)			
Currency translations	4.9	(10.8)			
Cash Increase	(12.9)	44.3			

The figures shown in the table above are rounded to the nearest €0.1 million

Adjusted Free Cash Flow was €128.5 million being €97.6 million or 43.2% lower than for the previous year.

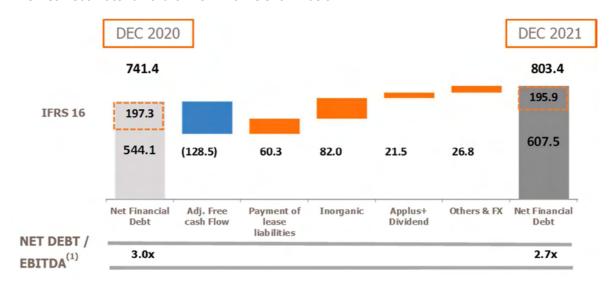

There was an increase in the dividend distributions made in the period. The dividend to Applus+Group shareholders was resumed in 2021 at the rate of 15 cents per share based on the 2020 full year adjusted net profit of €47.0 million. The dividend to be paid in 2020, previously declared on the 2019 adjusted net profit, was cancelled due to the uncertainty surrounding the financial impact arising from the outbreak of COVID-19. The dividends paid to Minority share interests were increased due to higher profits following the recovery of revenue and profit in those subsidiaries.

The cash outflow for acquisitions of €82.0 million relates to five that were closed in the period plus deferred consideration on acquisitions made in prior periods.

The final net cash decrease in the period was €12.9 million. This was from the cash outflow after acquisitions and before financing and foreign exchange of €2.0 million, less the payment of lease liabilities of €60.3 million that before the new accounting standard of IFRS 16 used to be included within operating costs, a net increase in the drawdown of borrowings of €46.6 million, outflows relating to the purchase of treasury shares for management incentive plans of €2.1 million and favourable currency differences of €4.9 million.

Net Debt was €803.4 million at the end of the year which was €62.0 million higher than the Net Debt position at the end of 2020 despite incurring €82.0 million in acquisitions and €21.5 million in dividend payments to Applus+ Group shareholders.

(1) Stated at annual average rates and excluding IFRS 16 as defined by bank covenant. Including IFRS 16 the ratio is 2.8x (31 December 2020: 3.1x)

The resulting financial leverage of the Group measured as Net Debt to last twelve months Adjusted EBITDA was 2.7x (as defined by the bank covenant for the syndicated debt facilities and the US Private Placement notes) which was lower than at the end of the previous year (3.0x) due mainly to the higher EBITDA in the year compared to the previous year which was adversely impacted by the coronavirus pandemic. The covenant from the lenders is set at 4.0x to be tested twice a year at the end of June and the end of December.

The financial leverage calculation using the covenant definitions except for using current accounting standards including IFRS 16, is also shown in the footnote below the table and at 31 December 2021 was 2.8x compared to 3.1x at 31 December 2020.

At the end of the year, the available liquidity position was €588 million that is made up mostly of cash and long dated undrawn loan commitments.

Dividend

In recognition of the net adjusted earnings for 2021, strong cash flow, comfortable financial leverage, liquidity position and favourable future earnings and cash flow potential, the Board will propose to shareholders at the forthcoming Annual General Meeting on the 31^{st} May 2022, a dividend of 15 cents per share. This is the same amount as was last declared last year and paid in 2021 and is equivalent to $\{0.020: 0.$

The dividend policy for the Group was updated and announced at the recent Strategy Update on 30th November 2021 that included the capital allocation plan for the three years 2022 to 2024. It is to pay an annual dividend equivalent to 20% of the prior year adjusted net earnings and subject to a minimum payment of 15 cents per share.

Share buyback programme

A share buyback programme was announced would commence in 2022 as part of the strategic plan for 2022 - 2024 that was presented to the market on 30 November. The target is to buy back 5% of the issued share capital of the Group and subsequently cancel these. On the 26^{th} January 2022 this was formally approved by the Board and on the 27^{th} January, this was communicated to the CNMV which is the Spanish regulatory authorities with the limits and conditions behind the programme.

To monitor the progress of the share buyback and see the number of shares held in Treasury until such time as they are transferred or cancelled, please visit the investor relations section of the Applus Group website.

Acquisitions

Applus+ has always been active in investing in companies that add complementary services and end-markets and this has accelerated over the last 2 years with the acquisition of ten companies in 2020 and 2021 for a consideration of €307 million. These bring to the Group an additional €192 million of annual revenue and are already delivering material synergies whilst accelerating the mix in the portfolio of businesses towards markets with higher growth and margins.

In 2021 the Group signed four acquisitions and closed five. The acquisition of SAFCO was agreed and announced in 2020 but was not closed until 2021. The four acquisitions agreed and closed in 2021 were:

Inecosa and Adícora, services for the Power sector in Spain in March 2021 with revenue of €6 million. Joined the Energy & Industry division.

IMA Dresden, a materials testing laboratory in Germany in May 2021 with revenue of €25 million. Joined the Laboratories division.

Enertis, services for solar power, in July 2021 with revenue of €20 million. Joined the Energy & Industry division.

Mipel SA, a metrology services company, in October 2021 with revenue of under €2 million. Joined the Laboratories division.

The acquisition of SAFCO, the construction testing and inspection services company in Saudi Arabia, was signed and agreed in 2020 but closed in June 2021. Annual revenue of this company is €29 million and the company joined the Energy & Industry division.

Environmental, Social and Governance

2021 was another year of strong progress in the ambit of environmental, social and governance (ESG). The Group is moving towards embedding environmental changes within its business and operations including reducing the adverse impact of its operations on the environment and diversifying the portfolio of services to better manage the risks and opportunities that come with climate change. The Group comprises a wide range of over 25,000 people in more than 70 countries around the world. Applus+ recognises the importance of keeping all the employees safe, managing their training as well as the well-being and fairness in the workplace as this benefits the individuals and in turn this benefits the business and society. As a trusted partner to our stakeholders, the Group has also been strengthening key areas to deliver our vision for good governance and is proud to have an industry leading governance framework.

2021 was the first year that the Group set specific targets to be achieved relating to environmental, social and governance and not only was this an effective learning experience, but it also had a successful outcome with most of the targets being met. At the strategy presentation at the end of the November, new targets were presented to the market for the period 2022 to 2024 and for these to be linked to remuneration. There will be new targets set for the annual bonus for management and this will be filtered down to lower levels of management as well as new targets that will be linked to the long-term incentive plan. Crucially, the Group has signed up to the Science Based Targets Initiative to become net zero by 2050. At the time of writing this report, Applus+ had been accepted into the programme.

The external ESG ratings´ agencies that perform their independent analysis on the Group, taking different perspectives and approaches, have all recognised and confirmed the Group´s resilience and commitment to sustainability validating the progress made and alignment to the strategic objectives. A new and impressive "low risk" rating (15.6) was received from Sustainalytics during the year together with renewed strong ratings from MSCI ESG Ratings (AA), Gaïa (71/100), the CDP (B) and being included in the FTSE4GoodIBEX.

Outlook

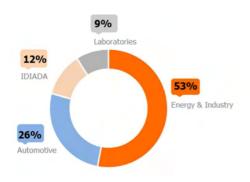

The outlook for the current year is in line with the Strategy Plan and includes the continued focus on portfolio mix quality improvement through selected divestments of some non-strategic operations and acquisitions. It is expected that organic revenue will increase by mid to high-single digit and for the adjusted operating profit margin to improve year on year.

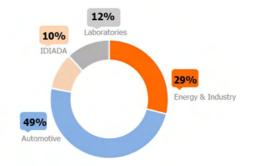

Operating review by division

The Group operates through four global business divisions: Energy & Industry Division, Automotive Division, IDIADA Division and Laboratories Division, and the respective shares of 2021 revenue and adjusted operating profit are shown below.

FY 2021 revenue split

FY 2021 adjusted operating profit split

Energy & Industry

The Energy & Industry Division is a world leader in non-destructive testing, industrial and environmental inspection, quality assurance and quality control, engineering and consultancy, vendor surveillance, certification and asset-integrity services.

The Division designs and deploys proprietary technology and industry know-how across diverse sectors, helping our clients to develop and control industry processes, protect assets and increase operational and environmental safety. The services are provided for a wide range of industries including oil and gas, power, construction, mining, aerospace and telecommunications.

Revenue for Energy & Industry for the year was €942.5 million, which was 3.9% higher than the revenue in 2020 and the Adjusted Operating Profit for the year was €59.4 million which was 43.7% higher than in 2020 resulting in an adjusted operating profit margin of 6.3%. These results in € million and the percentage changes from 2020 are broken down into organic, inorganic and foreign exchange and are shown in the following table.

	FY					
	2021	2020	Change	Organic	Inorganic	FX
Revenue	942.5	907.3	3.9%	1.1%	4.0%	(1.2)%
Adj. Op. Profit	59.4	41.4	43.7%	32.9%	16.8%	(6.0)%
% AOP Margin	6.3%	4.6%				

Following the significant reduction in year on year revenue and adjusted operating profit in 2020, due to the impact of the coronavirus pandemic on the business and operations, the division has seen a recovery in the last three quarters of 2021 with strong year on year growth.

Organic revenue at constant exchange rates for the full year increased by 1.1%. There was additional revenue of 4.0% from the three acquisitions closed in the year of Enertis in July, Inecosa and Adícora in March and also SAFCO was the biggest contributor to acquisition revenue, that was closed in June although signed and agreed in December 2020. Currency translation decreased reported revenue by 1.2% mainly because of the weaker US dollar and Latin American currencies against the Euro with some offset from the Australian and Canadian dollars.

At constant exchange rates, organic adjusted operating profit increased by 32.9% being significantly more than the organic revenue increase. There was also a high increase in profit from the contribution from acquisitions of 16.8% and a negative currency impact of 6.0% on adjusted operating profit.

The adjusted operating profit margin increased by 170 basis points from 4.6% for 2020 to 6.3% in 2021 with this increase coming from both the organic and acquisition growth in revenue and profit and some dilution from currency. Further improvement of the margin remains a key focus.

In the final quarter of the year, reported revenue was €253.1 million compared to revenue of €220.4 million in the final quarter of 2020 or 14.8% higher. This was mainly due to an increase in organic revenue of 4.6%, the revenue from the acquisitions added 7.2% and a positive impact from currency translation of 3.0%.

The division has seen a recovery in the business including the resumption of some projects that had been delayed during the pandemic. Furthermore, the division is aligning itself with the global megatrend of the energy transition and using technology and digital tools to provide higher value services and leveraging synergies from the acquisitions made to drive future performance.

By region, Southern Europe and Latin America are strongest and well above pre covid levels due to attractive end markets exposure.

Power, Renewables and Infrastructure end markets that now represent 52% of division revenues, delivered high-single digit organic growth with particular strength in Renewables which made up 5% of the division revenue. It is expected that this part of the business will have strong growth going forward led by geographic expansion and the energy transition where electricity generation and distribution is expected to continue to migrate from fossil fuels to renewables where Applus+ is well positioned to serve through the Energy & Industry division within the Power business line.

The business that services the Oil & Gas end market for operational expenditure for maintenance and inspection work (Opex) is recovering well with low single digit growth at constant rates for the year although as a percentage of the division revenue it decreased from 43% to 40%. This business has been resilient over the last few years and is expected to continue growing as the extensive infrastructure and assets that continue to be used for production and delivery of oil and gas are getting older and regulations tighter, increasing the requirement for inspection.

The business that services the Oil & Gas end market for new investments and new build (Capex) continues to decrease in revenue and now represents 8% of total revenue of the division (4% of the Group) versus 13% (7% of the Group) in 2020.

This business has been heavily impacted since 2015 due to the significant decrease in capex investment by the industry and is the most sensitive to the oil price and the energy transition to lower carbon emissions. The revenue in this part fell by 30% at constant rates in 2021.

The three acquisitions that were completed and included within the Energy & Industry division in 2021 add €55 million of revenue to the division on an annual basis at an overall margin above the division and are expected to grow revenue and profit strongly. The first acquisition that was completed was in Spain of two separate companies called Inecosa and Adícora with €6 million of annual revenue and which were bought from Iberdrola in March and provide services to the power industry including for renewable power and green hydrogen manufacture and distribution.

The second completed deal was that of SAFCO with €29 million of annual revenue, in Saudi Arabia that provides services to the fast-growing construction industry in the region. And the third acquisition closed in the year was of Enertis in Spain, with €20 million of annual revenue and which provides services to the solar energy market as well as for energy storage.

Automotive

The Automotive Division delivers statutory-vehicle-inspection services for safety and emissions, globally. The Division's programmes inspect vehicles in jurisdictions where transport and systems must comply with statutory technical-safety and environmental regulations.

Applus+ is one of the global leaders in statutory vehicle inspection. It operates 30 programmes in 14 countries, carrying out directly over 17 million inspections plus a further 10 million were delivered by third parties across Spain, Ireland, Sweden, Denmark, Finland, Andorra, the United States, Argentina, Georgia, Chile, Costa Rica, Ecuador, Mexico and Uruguay. The market for statutory vehicle inspection for safety and emissions is expected to continue growing well in existing and new markets.

Revenue for Automotive for the year was €456.8 million, which was 28.4% higher than the revenue in 2020 and the Adjusted Operating Profit for the year was €99.9 million which was 21.1% higher than in 2020 resulting in an adjusted operating profit margin of 21.9%. These results in € million and the percentage changes from 2020 are broken down into organic, inorganic and foreign exchange and are shown in the following table.

	FY					
	2021	2020	Change	Organic	Inorganic	FX
Revenue	456.8	355.8	28.4%	12.7%	17.6%	(1.9)%
Adj. Op. Profit	99.9	82.5	21.1%	6.4%	17.9%	(3.2)%
% AOP Margin	21.9%	23.2%				

The division had very strong results for the year due mainly to the recovery in inspections and market share gains in Spain and Sweden. Revenue on some of the contracts in 2020 was impacted by the forced closure of many of the stations due to the coronavirus pandemic and in 2021 the impact was significantly less with all the contracts returning to normal activity levels. Furthermore, in the liberalized markets within Spain and for Sweden, the Automotive division is confident to have won market share due to superior marketing and service to the competitors.

Organic revenue at constant exchange rates increased by 12.7%. There was additional revenue of 17.6% related to ten months of contribution from the acquisition in 2020 of Besikta in Sweden. Currency translation decreased reported revenue by 1.9% mainly because of the weaker South American currencies and US dollar against the Euro.

At constant exchange rates, organic adjusted operating profit increased by 6.4% being less than the organic revenue increase. There was also a high increase in profit from the contribution from acquisitions of 17.9% and a negative currency impact of 3.2% on adjusted operating profit.

The adjusted operating profit margin decreased by 130 basis points from 23.2% for 2020 to 21.9% in 2021. The margin remains strong for this division and this is despite the change in the mix of countries with a higher weighting of lower margin contracts in 2021 versus 2020 with the programmes in Ireland and Sweden being the two key impacts.

In the final quarter of the year, reported revenue was \leqslant 107.5 million which was in-line with the final quarter of 2020 which had revenue of \leqslant 107.9 million. This was mainly due to the acquisition revenue of 6.0% for one month from the acquisition of Besikta, less 7.9% organic revenue and a positive impact from currency translation of 1.5%. The organic revenue in the final quarter was less than in the previous year due to the previous year benefiting from additional revenue following pent-up demand after the closure of the stations earlier in the year.

After the period end, the Company was pleased to announce that the contract to perform statutory vehicle inspections in the region of Galicia in Spain will continue until at least the end of 2027. The contract generated €53 million in revenue in 2021 and was otherwise set to end in December 2023. This latest extension is a continuation of the strong renewal track record with 18 in the last ten years accounting for €175 million annual revenue, 19 new programmes awarded with €32 million of annual revenue, two contracts lost to competition accounting for €9 million annual revenue and one discontinued programme with €8 million annual revenue.

There are five contracts that are due to end in 2022, of which three, Costa Rica, Buenos Aires and Massachusetts, are now expected to be extended although it is too soon to say for the other two. New contracts that have been awarded in the last few years in Ecuador and Mexico are expected to be up and running in 2022 contributing €5 million in annual revenue and these will partly compensate for the loss of the contract in Connecticut that had €8 million of annual revenue.

There are further opportunities in Latin America that the division is pursuing.

IDIADA

IDIADA A.T. (80% owned by Applus+ and 20% by the Government of Catalonia) has been operating under an exclusive contract from the 351-hectare technology centre near Barcelona (owned by the Government of Catalonia) since 1999. The contract to operate the business runs until September 2024 and although it is renewable in five-year periods until 2049, it has been decided that there will be no further extensions but a tender for a new 20 or 25 year concession.

IDIADA A.T. provides services to the world's leading vehicle manufacturers for new product development activities in design, engineering, testing and homologation.

Revenue for IDIADA for the year was €224.3 million, which was 11.3% higher than the revenue in 2020 and the Adjusted Operating Profit for the year was €19.5 million which was 69.0% higher than in 2020 resulting in an adjusted operating profit margin of 8.7%. These results in € million and the percentage changes from 2020 are broken down into organic, inorganic and foreign exchange and are shown in the following table.

		FY			
	2021	2020	Change	Organic	FX
Revenue	224.3	201.5	11.3%	11.1%	0.2%
Adj. Op. Profit	19.5	11.5	69.0%	68.0%	1.0%
% AOP Margin	8.7%	5.7%			
Adj. Op. Profit excl. AD	23.7	14.4			
% AOP Margin	10.6%	7.2%			

(1) AD is IDIADA Accelerated Depreciation to adapt assets useful life to contract/concession duration

Organic revenue at constant exchange rates increased by 11.1% and currency translation was almost flat with a 0.2% benefit to revenue growth.

At constant exchange rates, organic adjusted operating profit increased by 68.0% being significantly more than the organic revenue increase with a 1.0% benefit to profit growth from currency.

The adjusted operating profit margin increased by 300 basis points from 5.7% for 2020 to 8.7% in 2021. There was good margin improvement in the year from the increase in revenue and this is despite the high margin proving ground in Spain operating at 65% capacity which is less than the full capacity it used to be at pre-covid. The capacity has increased each quarter in 2021 with the final quarter running at 80%.

The IDIADA concession is due to end in September 2024 unless it is renewed for a further five years or if as expected, there is a tender for a new 20 or 25 year contract which is won by Applus+. In the meantime, the assets of the business must undergo accelerated depreciation to nil value by the end of the concession. Excluding the IDIADA Accelerated Depreciation the margin would be 190 basis points higher at 10.6% in 2021 and the increase in margin from 2020 to 2021 would be 340 basis points.

In the final quarter of the year, reported revenue was €62.6 million, 21.9% higher than the final quarter revenue in 2020 of €51.4 million and it was in line with the revenue of €62.5 million in the final quarter of 2019. The final quarter revenue growth on 2020 was made up of 20.2% organic and 1.7% from currency translation.

The division was severely impacted by the coronavirus pandemic in 2020 and had a strong recovery in 2021 including a material rebound in activity and revenue in the last quarter of the year with the current revenue run rate now above the levels before the coronavirus pandemic.

The division is geared towards new investment in the rapidly changing vehicle technologies and is currently benefiting from the strong growth in electric and hybrid vehicles that in 2021 accounted for 40% of the division revenue, up from 25% in 2020 with combustion engines becoming a smaller part every year.

The tender for a new 20 or 25-year concession by the Government of Catalonia from September 2024 when the current five-year extension ends is expected to take place within the next few months.

Laboratories

The Laboratories Division provides testing, certification and engineering services to improve product competitiveness and promote innovation. The Division operates a network of multidisciplinary laboratories in Europe, Asia and North America.

With cutting-edge facilities and technical expertise, the Division's services add high value to a wide range of industries, including aerospace, automotive, electronics, information technology and construction.

In 2021, the Laboratories Division acquired two companies which are discussed below, to add to the three purchased in 2020 and seven purchased in the previous three years.

Revenue for Laboratories division for the year was €153.2 million, which was 64.9% higher than in 2020 and the Adjusted Operating Profit for the year was €25.6 million which was 162.8% higher than in 2020 resulting in an adjusted operating profit margin of 16.7%. These results in € million and the percentage changes from 2020 are broken down into organic, inorganic and foreign exchange and are shown in the following table.

	FY					
	2021	2020	Change	Organic	Inorganic	FX
Revenue	153.2	92.9	64.9%	8.7%	56.2%	(0.0)%
Adj. Op. Profit	25.6	9.7	162.8%	63.3%	99.2%	0.3%
% AOP Margin	16.7%	10.5%				

Organic revenue at constant exchange rates increased by 8.7% for the year. There was additional revenue of 56.2% related to the contribution from the two acquisitions made in 2021 and a part year contribution from the three acquisitions made in 2020. Currency translation had a net nil effect.

At constant exchange rates, organic adjusted operating profit increased by 63.3% being more than the organic revenue increase. There was a contribution from the acquisitions of 99.2% and a flat currency impact of 0.3%.

The adjusted operating profit margin increased by 620 basis points from 10.5% for 2020 to 16.7% in 2021 with this increase coming from the organic revenue increase and the higher margin acquisitions. The 2021 margin of 16.7% is the highest margin ever generated by the division.

In the final quarter of the year, reported revenue was €47.3 million compared to revenue of €30.5 million in the final quarter of 2020 or 55.1% higher. This was mainly due to the acquisitions that had been made during the year adding 40.9% to revenue with organic revenue also adding 12.2% and a positive impact from currency translation of 2.0%. The final quarter revenue growth was very strong and the organic revenue at constant exchange rates had a last quarter revenue in 2021 above that of 2019.

The Laboratories division had strong performance in 2021 compared to 2020 which was significantly affected by the coronavirus pandemic, despite continued challenging conditions in the aerospace market and semi-conductor shortages.

The division is strongly aligned to benefit from the global megatrends of the Energy Transition, Electrification and Connectivity and this will ensure continued strong growth in the years ahead with a target of repeating the doubling of the division size again over the next three years through organic growth and acquisitions.

The Laboratories division has been very active over the last few years in making acquisitions and these are all performing above their respective business plans including some strong synergies with the organic business.

There were two acquisitions made in the year. In May, the Group purchased IMA Dresden which is a materials testing laboratory in Germany with revenue of €25 million per annum. In the final quarter of the year, Mipel SA was purchased which has under €2 million of annual revenue and is a metrology laboratory in Spain.

In the last five years, the Laboratories Division has made 12 acquisitions with a combined revenue of €84 million per annum at accretive margins and this has expanded its testing facilities to reinforce its position in the electrical & electronics, automotive components, fire protection, aerospace parts and calibration sectors. This strong acquisition momentum is expected to continue.

Since the period end, the division has made a further acquisition. Lightship Security is a cybersecurity company in North America and is expected to have revenue of over US\$7 million (€6 million) in 2022 and is currently growing at a rate in excess of 20% per annum. Lightship adds a suite of industry recognised North American standards to the Applus+ European and Asian cybersecurity certifications, so clients can now receive a complete portfolio of certifications to sell their products throughout the world.

The division now comprises six key business units: Electrical & Electronic (includes electrical and electromagnetic compatibility testing and product certification for the electronics and automotive sector); Mechanical (includes aerospace and materials testing); Cybersecurity (includes electronic payment system protocol testing and approval); Construction (includes fire and structural testing of building materials); Metrology (includes calibration and measuring instruments) and Systems Certification. In 2021, Electrical & Electronic and Mechanical were the two largest business units with approximately 35% revenue each.

10. ANNEX

About the report

GRI 101 GRI 102-46

Through this report, covering the period from 1st January to 31st December **2021**, we would like to share with all our stakeholders our management approach and our financial and non-financial performance.

In 2021, we submit a more complete and comprehensive report, which better reflects our ESG performance.

The content has been prepared in accordance with new principles added to the ones reported in previous years, as a further step towards greater transparency.

- GRI Standards, essential option.
- Spanish Law 11/2018, which amends the Commercial Code's revised text of the Capital Companies Act approved by Royal Legislative Decree 1/2010, and the Audit Act 22/2015, 20th July 2015, on the matters of non-financial information and diversity.
- Sustainability Accounting Standards Board.
- Regulation (EU) 2020/852 of the European Parliament, and of the Council on 18th
 June 2020, on the establishment of a framework to facilitate sustainable investment and
 amending Regulation (EU) 2019/2088 (EU taxonomy).
- Task Force on Climate-related Financial Disclosures.
- Similarly, this report is part of the Applus+ Group's 'Communication on Progress' (CoP) of the UN's Global Compact 2021.

In preparing this report, we have analysed the **global context** in which we find ourselves, assessing the **material issues** in that context, and in relation to the expectations of our **stakeholders** to present the results in a **full and comprehensive** manner with accuracy, balance, clarity, comparability, reliability and timeliness.

Description of material topics

GOVERNMENT

- 1. Risks management: Risk assessment and management procedures.
- 2. Sustainable Business model and strategy: Our company's plan for operating including strategic ESG objectives & business diversification plan.
- 3. Brand: Services' image & marketplace.
- 4. Economic performance: Strategic objectives linked to growth and margins in a sustainable way.
- 5. Corporate Governance: Rules, practices and processes by which our company is run.
- 6. Compliance and reputation: Integrity and responsibility by which we make our decisions and run our operations, as well as being perceived as a trusted company.
- 7. Stakeholders' engagement: Dialogue and commitment with our stakeholders keeping reliable disclosure about our operations to the investors, promoting and providing internal communication channel.

OPERATION

- 8. Innovation & Digital transformation: Innovation projects for developing new products and services to meet market needs, through digitalisation and implementation new technologies.
- 9. Service quality and relationships with customer: Overall performance of our service and measured customer experience needed to build long-term relationships and become a trusted partner.
- 10. Competitiveness: Promotion, development and increase high value services within our portfolio mix.
- 11. Privacy and data security: Data protection practices for customers and employees.
- 12. Sustainable supply chain management: Our suppliers' practices to reduce their impact.
- 13. IT Strategy & cybersecurity: Strategy for improving our cybersecurity and software applications.

SOCIETY

- 14. Health and Safety: Practices to protect the health, safety and wellbeing of our employees.
- 15. Talent Management: Practices to attract and retain talented people.
- 16. Employee engagement: Appropriate level of rotation among employees.
- 17. Diversity, inclusion and equality: Fair opportunities, recognition, treatment and remuneration for all employees.
- 18. Respect for human rights: Practices to promote and protect human rights in our operations, including contractors.

19. Local impact and socioeconomic contribution: Encourage of local communities' development (employment, training, technology, etc.).

ENVIRONMENT

- 20. Energy transition and climate change: Commitment & practices for the reduction of energy consumption and GHG emissions.
- 21. Biodiversity and natural areas protection: Practices to preserve species and ecosystems.
- 22. Sustainable Services: Strategy to develop (i) services helping our customers to reduce or mitigate their environmental impact and (ii) more sustainable markets.
- 23. Waste Management: Practices to reduce and manage waste.

The 2021 figures cover 99.81% of Applus+ employees. Executive Committee in Spain not included.

Life insurance. Employees who had life insurance as a benefit. In Spain most of the collective agreements have this due to business trips.

Health Care. Employees who had Health Care as benefit.

Educational allowance. Employees who enjoyed specific training programmes as Masters, PhD, etc.

Disability and Invalidity cover. Employees who enjoyed disability or invalidity cover.

Parental leave. Employees who enjoyed parental leave.

Retirement provision. Employees who received monetary assignations in their retirement plans to top of the local regulations.

Stock ownership. Employees who received RSUs

Others. Employees who received any other benefit.

SALARY GAP

Salary gap by gender

	SALARY GAP BY GENDER								
	2021		2020		2019				
	AVG by Gender	Gap Gender	AVG by Gender	Gap Gender	AVG by Gender	Gap Gender			
Male	24,711 €	-18.67%	27,903€	-19.62%	30,770 €	-21.15%			
Female	20,097€	-10.0776	22,427€	-19.02%	24,264 €	-21.15%			

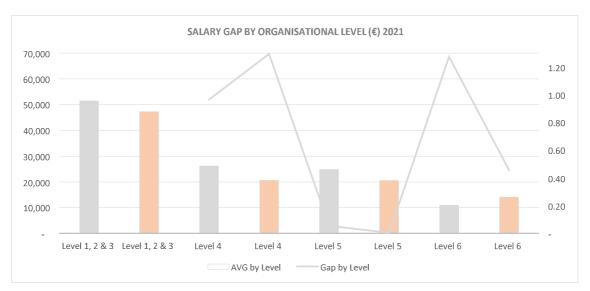

^(*) Salary gap: understood as the difference between the gross hourly wage of men and of women, expressed as a percentage of the gross hourly wage of men. Advisedly, the calculation of this indicator is not adjusted to the individual characteristics and may explain part of the salary differences between men and women.

The 2021 figures cover 99.81% of Applus+ employees. Executive Committee in Spain not included.

^(**) The remuneration data provided in this Annex only considers our employees' base salary because, due to the peculiarity of our activities, allowances, overtime and bonus systems are closely linked to the projects performed; and therefore including these would distort the data provided for gender. Moreover, to guarantee the comparability of the information, data regarding part-time and employees contracted for less than a year has been extrapolated to full-time employees for the whole year.

Salary gap by organisational level in 2021

Shareholder information

GRI 102-5

We set up annual **corporate-governance road shows** to maintain the constructive dialogue held with institutional investors and proxy advisors, in line with our *Policy for the communication of economic-financial, non-financial and corporate information, communication, and contact with shareholders, institutional investors and proxy advisors. In 2020, the Group's executives attended 207 meetings with investors and 22 conferences and roadshows.*

CAPITAL AND SHAREHOLDER STRUCTURE

On 31st December 2021, the share capital of the head company, Applus Services, SA amounted to €14,301,843 which was represented by 143,018,430 shares, each with a value of €8.09. Each share ranks equally with the same economic and voting rights. The shares are listed on the Spanish Stock Exchanges through the automated quotation system (*Sistema de Interconexión Bursátil or Mercado Continuo*).

On the 9th May 2014, the company listed 130,016,755 shares in its initial public offering and on the 29th September 2017 a further 13,001,675 shares were admitted following a capital increase.

Per the notifications of the number of shares submitted to the Spanish National Securities Market (CNMV), the shareholders owning significant direct and indirect interests in the share capital of the Parent representing more than 3% of the total share capital at 31st December 2021 were as follows:

SHAREHOLDER	PERCENTAGE
Southeastern Asset Management Inc	5.1%
River & Mercantile Group PLC	5.0%
Threadneedle Asset Management Limited	3.1%
Harris Associates LP	3.0%
Invesco Ltd	3.0%

DIVIDEND INFORMATION

On 31^{st} May 2022, at the Group's AGM, the Board will propose the payment of a dividend of cents 15 per-share. This is equivalent to ≤ 21.5 million (2019: Nil) and represents 23% of the adjusted net profit of ≤ 93.30 million. On approval by the shareholders at the AGM, the dividend will be paid on 7^{th} July 2022.

ENERGY CONSUMPTION AND GHG EMISSIONS FOR SCOPES 1 AND 2

The Group uses the ASM platform to obtain energy and GHG emissions data from all the facilities where we operate, applying the guidelines set out in the Greenhouse Gas Protocol (GHG Protocol) Corporate Accounting and Reporting Standard technical report.

The consumption period under consideration runs from the 1st of November 2020 until the 31st of October 2021. The scope for countries is the same as that of the financial perimeter.

Electricity

CO₂ emissions from electricity are accounted according to the market-based method defined in the GHG protocol, and are the product of the energy consumption in kWh and each country's and provider's emission factors.

The sources for the conversion factors are:

- GJ value: Massachusetts Institute of Technology (MIT) (2013) Units & Conversions.
- TCO₂ value: International Energy Agency (IEA). Emission factors: Database documentation (2020 edition); CO₂ emission factors for electricity and heat generation for world countries (in CO₂ per kWh, 1990 to 2018).

Gaseous fuel and liquid fuel

To ascertain the GHG emissions of CO_2 , CH_4 and N_2O , we use the product of the energy units and the emission factors for each fuel. Finally, to calculate the carbon-dioxide equivalent emissions (CO_2 eq), we use the GWP (Global Warming Potential) index.

The sources for the conversion factors are:

- Fuel price: Global Petrol Prices, (2021) https://www.globalpetrolprices.com/, Energy Efficiency and Renewable Energy from the U.S. Department of Energy https://afdc.energy.gov, Numbeo (2021) https://www.numbeo.com.
- Density: Engineering ToolBox (2020) https://www.engineeringtoolbox.com, CNMC, the National Commission of Markets and Competition; The National Energy Commission and the table of equivalences of SEDIGAS and GASNAM, Massachusetts Institute of Technology (2013).
- Lower calorific power: Intergovernmental Panel on Climate Change. 2006 IPCC Guidelines for National Greenhouse Gas Inventories (Ch.1, Vol. 2).
- Emission factors: Intergovernmental Panel on Climate Change. IPCC Guidelines for National Greenhouse Gas Inventories 2006 (Ch.2, Vol. 2).

GHG EMISSIONS FOR SCOPE 3

Fuel and energy-related activities (not included in Scopes 1 or 2)

The emissions not included in Scopes 1 or 2 relating to fuel and energy come from the emissions due to losses from the transport and distribution of the electricity, and those due to the value chain of the fuels and electricity.

To calculate the **emission factor of the losses in the transmission and distribution of electricity**, we use the gross-production indicators for each country and the electricity transmission and distribution losses from Electricity Information (2020), published by the International Energy Agency (IEA). For the countries in which these indicators are not available, we use the indicators for their region.

To calculate the **emission factor associated with the electricity value** chain by country, we use the following electricity-generation sources and their percentage of electricity generation on the total electric energy produced in each country: nuclear, hydroelectric, geothermal, solar, wind, coal, oil, natural gas, biofuels, energy from waste and others (offshore wind farms, wave and tidal power, etc.), according to the Electricity Information (2021) report published by the IEA. For the countries in which these indicators are not available, we use the indicators for their region.

For the aforementioned sources, we use the Well-to-Tank emission factors from the WELL-TO-TANK report Appendix 2 - Version 4a, published by the European Commission, to obtain the related CO₂ emissions per kWh. As in some cases, the types of fuel used by the IEA do not coincide with those used by the European Commission, so we select the data following these criteria:

Oil: According to the IEA, within the "Oil" category there are the fossil fuels (Diesel oil, Petrol, Petroleum coke, etc.) In the WELL-TO-TANK Appendix 2, we find the CO₂ emissions of petrol and diesel oil for using them to generate electricity. We used the Diesel oil value as it is more restrictive.

Other: According to the methodology of the IEA, the "Other" category encompasses processes that do not need fuel to produce energy; therefore, their emissions associated with the value chain are zero.

The **electricity-emissions factor** is obtained using the electric-emissions factor for each of the countries included in the population, according to data from the IEA. For the countries in which the electricity-emissions factor is not available, we used the factor for their region.

For the **factor associated with the combustion of fuels**, we use the Well-to-Tank factors contained in the WELL-TO-TANK report Appendix 2 (Version 4a) published by the European Commission. And for Biodiesel, we used the value of the POME process: Meal as AF, no CH4 rec., no-heat credit, glycerine-to-biogas to produce biodiesel as palm oil is the most used vegetable oil worldwide for producing biodiesel, and it is the most restrictive of the oils included in the related Appendix 2. As there is no factor associated with propane, and it is mainly extracted from natural gas, we used the natural-gas factor. Finally, for LPG it has been used the most restrictive one - the process LNG, road and vapour.

The countries included in the calculation of fuel and energy-related activities (not included in Scopes 1 or 2) are the same as those used to calculate Scope 1 and 2.

Business travel by plane, train and taxi5

The travel agencies where we book the trips provide us with CO_2 emissions data per passenger, which are calculated based on the kilometres travelled, the occupancy of the aircraft (weight) and the type of aircraft, which are based on the rules set out by the UK's Department for Environment, Food and Rural Affairs (DEFRA).

With regards to the emissions generated during taxi rides, Applus+ calculates the emissions of the journeys of our employees by using a taxi-management application. The emissions generated when travelling by taxi are calculated based on the distance travelled and the fleet-emissions ratio, which is measured with the percentage of hybrid and electric cars operated in their fleet.

Employee commuting⁶

The commuting emissions of each employee were calculated based on the mode of transport (car, train, bicycle, etc.), the distance travelled and the number of days travelling per year, applying emission factors.

The evaluation of this data was done through a biennial survey to ascertain the mobility habits. The last survey was conducted in 2021. The results allowed us to understand the different modes of transport used at each location where we operate.

Most of the factors used were published by DEFRA in the "Conversion Factors 2021: Full set for advanced-users" document, both for calculating the direct emissions and for the indirect ones. In the case of vehicles which consumption is assumed to be 100% electric (electric car and motorbike, electric scooter and the underground railway), we used distance/energy consumption conversion factors from other sources since DEFRA does not provide this information.

Emissions derived from acquired goods and services

Emissions from "purchased goods and services", "capital goods" and "upstream transport and distribution", a PwC proprietary tool based on the World Input-Output Database (WIOD) macroeconomic model was used.

The WIOD model is based on input-output methodologies recognized by the GHG protocol as a method for calculating the above Scope 3 emission categories.

In order to process data, we have used consumer price indexes in the USA (source: Federal Reserve), and the OECD average euro-dollar exchange rate, using the information available in the procurement systems at the end of November and linearly extrapolating the emissions data according to the audited profit and loss account.

 $^{^{5}}$ Business travel emissions cover the data for 60% of 2019 revenue, the 63% of 2020 and the 58% of 2021.

 $^{^6}$ Employee commuting emissions cover the data for 70% of 2019 revenue, the 70% of 2020 and the 88% of 2021.

RESULTS

Dimensions	2019	2020	20217
Energy			
Total energy consumption (GJ)	895,493	816,932	901,978

Translation of a report originally issued in Spanish. In the event of a discrepancy, the Spanish-language version prevails.

AUDITOR'S REPORT ON THE INFORMATION RELATING TO THE SYSTEM OF INTERNAL CONTROL OVER FINANCIAL REPORTING (ICFR) OF THE APPLUS GROUP FOR 2021

To the Directors of Applus Services, S.A.,

As requested by the Board of Directors of Applus Services, S.A. and Subsidiaries ("the Applus Group") and in accordance with our proposal-letter dated 3 December 2021, we have applied certain procedures to the "Information relating to the ICFR system" included in section F of the Annual Corporate Governance Report ("ACGR") of the Applus Group for 2021, which summarises the internal control procedures of the Applus Group in relation to its annual financial reporting.

The directors are responsible for adopting the appropriate measures in order to reasonably guarantee the implementation, maintenance and supervision of an adequate internal control system, and for making improvements to that system and for preparing and establishing the content of the information relating to the ICFR system included in section F of the accompanying ACGR.

It should be noted in this regard that, irrespective of the quality of the design and operating effectiveness of the internal control system adopted by the Applus Group in relation to its annual financial reporting, the system can only permit reasonable, but not absolute, assurance in connection with the objectives pursued, due to the limitations inherent to any internal control system.

In the course of our audit work on the financial statements and pursuant to Technical Standards on Auditing, the sole purpose of our assessment of the internal control of the Applus Group was to enable us to establish the scope, nature and timing of the audit procedures to be applied to the Applus Group's financial statements. Therefore, our assessment of internal control performed for the purposes of the aforementioned audit of financial statements was not sufficiently extensive to enable us to express a specific opinion on the effectiveness of the internal control over the regulated annual financial reporting.

For the purpose of issuing this report, we applied exclusively the specific procedures described below and indicated in the Guidelines on the Auditor's Report on the Information relating to the System of Internal Control over Financial Reporting of Listed Entities, published by the Spanish National Securities Market Commission (CNMV) on its website, which establish the work to be performed, the minimum scope thereof and the content of this report. Since the work resulting from such procedures has, in any case, a reduced scope that is significantly less extensive than that of an audit or a review of the internal control system, we do not express an opinion on the effectiveness thereof, or on its design or operating effectiveness, in relation to the Applus Group's annual financial reporting for 2021 described in the information relating to the ICFR system included in section F of the accompanying ACGR. Therefore, had we applied procedures additional to those established in the aforementioned Guidelines or performed an audit or a review of the system of internal control over the regulated annual financial reporting, other matters or aspects might have been disclosed which would have been reported to you.

Also, since this special engagement does not constitute an audit of financial statements and is not subject to the audit regulations in force in Spain, we do not express an audit opinion in the terms provided for in those regulations.

The procedures applied were as follows:

- 1. Perusal and understanding of the information prepared by the Applus Group in relation to the ICFR system -disclosure information included in the directors' report- and assessment of whether this information includes all the information required in accordance with the minimum content described in section F, relating to the description of the ICFR system, of the model ACGR established in CNMV Circular no. 5/2013, of 12 June 2013, and subsequent amendments, the most recent being CNMV Circular 3/2021, of 28 September ("the CNMV Circulars").
- 2. Inquiries of personnel responsible for preparing the information detailed in point 1 above for the purpose of: (i) obtaining an understanding of the process followed in preparing it; (ii) obtaining information that permits an evaluation of whether the terminology used complies with the framework definitions; and (iii) obtaining information on whether the control procedures described are in place and functioning at the Applus Group.
- 3. Review of the explanatory documentation supporting the information detailed in point 1 above, including mainly the documentation furnished directly to those responsible for preparing the information describing the ICFR system. In this regard, the aforementioned documentation includes reports prepared by the internal audit department, senior executives or other internal or external experts providing support functions to the Audit Committee.
- 4. Comparison of the information detailed in point 1 above with the knowledge on the Applus Group's ICFR system obtained through the procedures applied during the financial statement audit work.
- 5. Perusal of minutes of meetings of the Board of Directors, the Audit Committee and other Applus Group committees in order to assess the consistency between the ICFR system issues addressed therein and the information detailed in point 1 above.
- 6. Obtainment of the representation letter concerning the work performed, duly signed by the personnel responsible for preparing and formulating the information detailed in point 1 above.

The procedures applied to the information relating to the ICFR system did not disclose any inconsistencies or incidents that might affect the information.

This report has been prepared exclusively in the context of the requirements established in Article 540 of the Consolidated Spanish Limited Liability Companies Law and in the CNMV Circulars for the purposes of the description of the ICFR system in Annual Corporate Governance Reports.

DELOITTE, S.L.

A.10 Provide a detailed description of the conditions and terms of the authority given to the Board of Directors to issue, repurchase, or dispose of treasury shares.

The General Shareholders Meeting of 29 May 2020 agreed to "authorise the Company's Board of Directors, with power to sub-delegate, so it may proceed with a derivative acquisition of its own shares, in accordance with article 146 of the Spanish Companies Act in the terms established below:

- 1. The acquisitions may be made either directly by the Company or indirectly through any of its subsidiaries, in the same terms as described herein;
- 2. The acquisition may be made as a sale and purchase, swap or goods received in lieu of payment, or any other transaction legally permitted, once or several times;
- 3. The number of shares acquired, when added to those already held by the Company, shall not exceed ten per cent (10%) of the capital stock;
- 4. The price or consideration will range between the face value of the shares and one hundred and ten per cent (110%) of their listed price;
- 5. The authorisation will remain valid for a maximum term of 5 years as of today.

It is hereby expressly noted that any shares acquired as a result of this authorisation may be used either for disposal or redemption, or towards the direct delivery of these shares to the employees or Directors of the Company or any of the group companies, or as a consequence of the exercise of any option rights or the application of any remuneration systems.

To revoke, to the extent of the unused amount, the authorization granted by the General shareholders' Meeting in 18 June 2015"

company for adoption of resolutions

B.3 State the rules for amending the company's Articles of Association. In particular, state the majorities required for amendment of the Articles of Association and any provisions in place to protect shareholders' rights in the event of amendments to the Articles of Association.

In accordance with Spanish Companies Act, in order for a General Meeting to be validly convened, for an amendment of the By-laws, article 16.8 (b) of the Regulations will apply, whereby it will be necessary for the attendance of shareholders, present or represented at first call that hold at least fifty per cent (50%) of the subscribed voting capital stock. At second call, it will suffice for twenty-five per cent (25%) of the capital stock to attend.

In order for the General Shareholders Meeting to adopt resolutions that entail an amendment of the By-laws, article 21.1 (b) of the Regulations will apply, whereby an absolute majority will be required if more than fifty per cent (50%) of the voting capital stock subscribed is present. However, it will require the favourable vote of at least two thirds (2/3) of the voting capital stock in attendance when in the second call more than twenty-five per cent (25%) of the voting capital stock is present and in case it does not reach the fifty per cent (50%).

B.4 Give details of attendance at General Shareholders' Meetings held during the year of this report and the previous year:

	Attendance data					
Date of	%		% distance voting			
General Meeting	physically present	% present by proxy	Electronic voting	Other	Total	
28/05/2021	0.114	72.025	0.008	1.756	73.903	
29/05/2020	0.16	70.38	0	0.79	71.33	
30/05/2019	0.29	66.91	0	1.44	68.64	
Of which floating:	0.003	72.008	0.008	1.663	73.682	

Observations

Considering the circumstances under Covid-19, as well as the concern to preserve the health of shareholders and the other people involved in the organization and holding of the 2021 Annual General Meeting, the Board of Directors considered it appropriate that the General Shareholders Meeting be held exclusively by remote means, without the physical attendance by the Shareholders or their representatives, pursuant to the provisions of article 3.1.(a) of Royal Decree-law 34/2020, of 17 November, on urgent measures to support corporate solvency and the energy sector, as well as on tax matters. Even so, the highest attendance quorum since Applus' first general shareholder meeting was reached (73.90% of the share capital). The support received by the shareholders proves that, given the composition of its shareholding and the long lasting dialogue that the Company has been maintaining with its main shareholders, the remote holding of the general shareholders meeting is an optimal alternative.

B.5 State

B.6

whether any point on the agenda of the General Shareholders' Meetings during the year has not been approved by the shareholders for any reason.

State if any directors, whether through resignation, dismissal or any other reason, have left the Board during the period subject to this report:

Name of director	Director type at time of leaving	Date of last appointment	Date director left	Specialized committees of which he/she was a member	Indicate whether the director left before the end of the term
RICHARD CAMPBELL NELSON	INDEPENDENT	31/05/2018	17/11/2021	ENVIRONMENTAL, SOCIAL GOVERNANCE COMMITTEE & APPOINTMENTS AND COMPENSATIONS COMITTEE	YES
JOHN DANIEL HOFMEISTER	INDEPENDENT	31/05/2018	24/05/2021	APPOINTMENTS AND COMPENSATIONS COMITTEE	YES

Observations

In May 2021, Mr. John Hofmeister resigned from the Board of Applus for health reasons.

On the other hand, following the end of his 12-year term as an independent director, Mr. Richard Nelson resigned as Director of Applus, conveying to the company his desire to reduce his professional commitments during his retirement, after a long and successful career.

Both directors, Mr. John Hofmeister and Mr. Richard Nelson, notified their resignations to the Board of Directors.

C.1.3 Complete the following tables regarding the members of the Board and their Categories:

EXECUTIVE DIRECTORS

Name or company name of director	Post in organizational chart of the company	Profile
FERNANDO BASABE ARMIJO	CEO	Mr Basabe holds a degree in Law from the Universidad Complutense de Madrid and an MBA from IESE (Barcelona). Before joining Applus+, Mr Basabe spent 15 years at SGS S.A. in different senior management positions, ultimately becoming the Chief Operating Officer for Western Europe. He started his career at Manufacturers Hanover Trust Co. (JP Morgan & Co), where he held different positions within the corporate banking division. He was initially appointed as Executive Director of Applus on 1 February 2011.
JOAN AMIGO CASAS	CFO	Joan holds a degree in Economics from the Autonomous University of Barcelona as well as completing an IESE Business School's Executive Development Program, a Global Business Strategy Program at Wharton, University of Pennsylvania and an Advanced Management Program at ESADE Business School. Before joining Applus+, he held positions in PWC, where he started his career as external auditor, and Bimbo (Sara Lee), where he held various senior positions: Vice President and Chief Financial Officer, Financial Shared Services Director, Controller and Internal Audit Director and Vice President for Financial Planning and Control at Sara Lee Bakery's Europe Division. He joined Applus+ in December 2007 as Chief Financial Officer and was appointed Executive Director of Applus+ on 30th May 2019.

INDEPENDENT DIRECTORS

Director's name	Profile
CHRISTOPHER COLE	Mr. Cole holds a Degree in Environmental Engineering from Borough Polytechnic (University of South Bank) is an associate engineer in the United Kingdom and in 1999 he completed an Executive Management Course at INSEAD in France. Mr. Cole founded WSP Group Plc, a professional services engineering company that was listed on the London Stock Exchange in 1987 and held the post of Chief Executive Officer of the company until it merged with Genivar, Inc. in 2012. Following the merger, he was appointed non-executive Chairman of the enlarged group WSP Global Inc., whose shares are listed on the Toronto Stock Exchange, a role he currently retains. He is also non-executive Chairman of Tracsis Plc
	Mr Cole has many years of experience in managing large international and diversified groups in both Executive and Non-Executive capacities and brings this wealth of experience to bear in his role as Chairman of the company. In particular, he was Non-Executive Chairman position at Ashtead for 12 years where the Company progressed to a FTSE 100 leading performer until 2019 when he left.
NICOLÁS VILLÉN JIMÉNEZ	Mr. Villén holds an industrial engineer degree from Universidad Politécnica de Madrid, a Master in Electrical Engineer by the University of Florida (Fulbright Scholar) and an MBA from the Columbia University. Mr. Villén was CEO of Ferrovial Aeropuertos (2009-2012) and CFO of Ferrovial (1993-2009). Before that, he worked as Midland Montagu Ventures' CEO, Smith Kline & French's CEO and International Vice-President, amongst other responsibilities in Abbott Laboratories and Corning Glass Works. Currently, he externally advises IFM Investors (an Australian infrastructure fund) and he is a board member of FCC Aqualia and ACR Grupo.
	Mr. Villen was appointed considering his high level experience in a variety of roles in world class Spanish and international companies including a strong financial background which lends support to the Audit Committee, of which he is currently the Chairman.
MARIA CRISTINA HENRÍQUEZ DE LUNA BASAGOITI	Ms. Henríquez de Luna holds a degree in Business Administration and Economics from ICADE in Madrid.
	Ms. Henriquez de Luna is the President and Managing Director Spain and Head of Iberia and Israel Cluster at GlaxoSmithKline where she has benefited from an extensive career in international markets in both commercial and finance roles. Previous to this, she was at Procter & Gamble in Spain, Switzerland, Mexico and Peru in a variety of senior finance positions including 12 years of direct Latin American

	management. Ms Henriquez de Luna is independent director at Melia Hotels International.
	Ms. Henriquez de Luna´s experience of operating in international markets in both commercial and finance roles in a highly regulated industry make her well suited to support the Board and the Audit Committee where she is a member.
MARIA JOSÉ ESTERUELAS AGUIRRE	Ms. Esteruelas holds a degree in Industrial Electrical Engineering from ICAI (Madrid). She has a Master's degree in Operations from the Instituto de Empresa (Madrid) and a General Management Executive Programme from the IESE (Madrid).
	Ms. Esteruelas currently serves as Director of Energy at Ferrovial Construccion, company she joined February 2021. Most of her career has been at Abengoa which she joined in 1997, performing a variety of senior positions, as member of the Executive Committee and General Directr for America, in charge of all the subsidiaries in the continent. Previously, she was Director of the Energy division, LATAM director and Concession and Operations directors.
	From July 2014 to December 2017 she was member of the Atlantica Yield Board of Directors appointed by Abengoa.
	Ms. Esteruelas' experience in various positions in international markets, particularly in the energy sector, make her well suited to support the Board and the Appointments and Compensation Committee and ESG Committee, where she is a member.
ESSIMARI KAIRISTO	Ms. Essimari Kairisto has a diploma in Business Administration from the Bielefeld University of Applied Sciences (Germany).
	Ms. Kairisto was the Chief Financial Officer and a Board Director for Hochtief Solutions AG until 2016 after which she has taken on independent consulting roles. These include, since 2015, member of the Supervisory Board, member of its Shareholders' Committee and member of the Audit Committee of Freudenberg SE, the privately owned German technology company. Since 2018, she is Non-Executive Director and member of the Audit and Risk Committee of Fortum Oyj, the clean energy generation and distribution company that is listed on the Helsinki stock exchange and, since 2020, Chair of the Audit and Risk Committee. Additionally, Ms Kairisto has been since 2019 a member of the Supervisory Board and member of the Audit Committee of TenneT BV, the Dutch state owned leading European electricity transmission system operator (TSO) with its main activities in the Netherlands and Germany where, since 2020, she is also a member of its Strategy and Investment Committee and chair of its Audit Committee. Since 2022, she is also an independent, non-executive Director of the Board of Iveco Group N.V. listed on the Milan Stock Exchange and Chair of its Audit Committee. Prior to her move to Hochtief Solutions in 2013, Ms Kairisto had several high profile roles in finance and general management including at Sasol, RWE and Schlumberger.
	Ms Kairisto was appointed considering her high level experience in a variety of roles in European companies, including listed and in the energy sector, in addition to her strong financial knowledge which lends support to the Audit Committee, of which she is currently a member.
MARIE- FRANÇOISE	Ms. Damesin holds a Post-graduate degree (DEA) in Economics from Paris Dauphine University, an MBA from ESSEC Business School and has also graduated with high distinction for the Board Director Diploma at IMD Lausanne.
DAMESIN	Her career has been focused on the automotive industry in global roles

and responsibilities starting at the Compagnie Des Wagons-Lits & Du Tourisme and subsequently joined Renault in 1984, where she developed her wide experience holding different managerial positions, including Member of the Renault Management Committee for Latin America, the Renault Foundation CSR Board Member and a Board Member for Renault Spain. She has also been Vice President Human Resources and General Affairs for the European Region at Nissan and between 2011 and 2018 she was Executive Vice President for Human Resources and Member of the Executive Committee of Renault. Concurrently she was Member of the Management Board for the Renault-Nissan-Mitsubishi Alliance.

She was elected CHRO of the year in France in 2017 and was President of the Association of CAC 40 Chief Human Resources Officers.

Ms. Damesin is currently an Independent Director on several companies' boards, including Urbanis and Energie Jeunes, as well as an Advisory Board Member of Adelaide Group and Senior Advisor and Executive Coach at Boston Consulting Group.

She is a Chevalier de la Légion d'Honneur, France's highest order of merit.

Ms. Damesin was appointed considering her high level experience in the automotive sector (one of Applus+'s main sectors) and especially for her knowledge and variety of roles in the Human Resources area, as she is expected to become Chairman of the Appointment and Remuneration Committee.

BRENDAN CONNOLLY

Mr. Connolly holds a BSc in Business Economics and Sociology from Southampton University and has significant experience and knowledge of the Testing, Inspection and Certification sector.

His career started at Schlumberger, where he worked for 24 years holding diverse managerial positions in both operations and finance and in many regions, including Europe, Latin America, USA, Africa, Asia and the Middle East. He was CEO of Atos Origin UK, America and Asia and CEO of Moody International, which was acquired by Intertek Group plc in 2011. At Intertek, he was appointed VP Middle East, Russia, FSU and Eastern Europe.

His Non-Executive Director career started at Cape Plc , where he served as Chairman of the Remuneration Committee and Member of the Audit and Nomination Committee. He is currently a Non-Executive Director at Synthomer PLC where he is the Senior Independent Director, Sparrows Offshore Group Ltd, NES Global Talent, Victrex Plc and PEPCO GROUP NV.

Mr. Connolly was appointed considering his high level of executive and non-executive experience in the TIC sector and the oil & gas industry, in which the Company operates, as well as the variety of executive roles held, with a deep knowledge of the business that contributes value to both the Board and the Committees to which he is a member (namely ESG and Appointments and Remunerations).

Number of independent directors	7
Percentage of the Board	70

Observations

State whether any independent director receives from the company or any company in the group any amount or benefit other than compensation as a director, or has or has had a business relationship with the company or any company in the group during the past year, whether in his or her own name or as a significant shareholder, director or senior executive of a company that has or has had such a relationship.

N/A

In this case, include a statement by the Board explaining why it believes that the director in question can perform his or her duties as an independent director.

Name of the director	Description of the relationship	Statement of the Board

OTHER EXTERNAL DIRECTORS

Identify the other external directors and state the reasons why these directors are considered neither proprietary nor independent, and detail their ties with the company or its management or shareholders:

Name of director	Reason	Company, director or shareholder to whom the director is related	Profile
ERNESTO GERARDO MATA LÓPEZ	Mr. Mata was initially appointed as director on 29/11/2007 holding the position in the board for more than 12 years.		Mr. Mata López holds a Degree in Economics and MA from the University of Geneva and an MBA from IESE (Barcelona). He was a member of the board, deputy to the President, and CFO at Unión Fenosa, S.A. (now Gas Natural SDG, S.A.), President at Unión Fenosa Soluziona, S.A., member of the board of directors at Compañía Española de Petróleos, S.A. and Abertis Infraestructuras, S.A., where he was the Chairman of the Audit Committee. He was the President of the advisory board at Knight Frank, member of the board of Aguas Anginas and senior advisor in Marlin Patterson Global Advisers LLC. Mr. Mata has developed extensive experience in the energy and capital markets sectors, as well as in different Audit Committees, gathered through the numerous positions he has held in highly reputable Spanish companies. This experience as well as the many relationships he has accumulated in the Spanish markets over the years were key to his appointment as director of the Company.

Total number of other external directors	1
Percentage of the Board	10

Observations

In accordance to article 529 duodecies 4 i) of the "Royal Legislative Decree 1/2010, of July 2nd, which approves the consolidated text of the Capital Companies Law - on directors' categories", after 12 consecutive years after his appointment, Mr. Ernesto Mata López is no longer considered independent director.

State any changes in status that has occurred during the period for each director:

Name of director	Date of change	Previous Status	Current status		
Observations					

C.1.4 Complete the following table with information relating to the number of female directors at the close of the past 4 years, as well as the category of each:

	Number of female directors			% of directors for each category				
	Year t	Year t-1	Year t-2	Year t-3	Year t	Year t-1	Year t-2	Year t-3

Independen	4	3	3	1	57.14	42.86	37.5	11.1
Other external	0	0	0	0	0	0	0	0
Total	4	3	3	1	40	30	30	10

Observations

Applus once again achieved, one year ahead of schedule, its goal of balanced presence of women directors on the Applus 'Board, in line with the Applus Directors 'Selection Policy and the Applus' commitment to diversity and ESG.

C.1.5	State whether the company has diversity policies in relation to the Board of Directors of the
	company on such questions as age, gender, disability and training and professional
	experience. Small and medium-sized enterprises, in accordance with the definition set out in
	the Accounts Audit Act, will have to report at least the policy they have implemented in relation
	to gender diversity.

Yes	Χ	No	Partial p	oolicies

Should this be the case, describe these diversity policies, their objectives, the measures and way in which they have been applied and their results over the year. Also, state the specific measures adopted by the Board of Directors and the appointments and remuneration committee to achieve a balanced and diverse presence of directors.

In the event that the company does not apply a diversity policy, explain the reasons why.

Description of policies, objectives, measures and how they have been implemented, including results achieved

The Board of directors amended its Regulations including more detail on diversity matters to consider in selection processes, and currently, article 14.3 establishes that: "The Board of Directors shall ensure that the appointment procedures of its members favour diversity with respect to aspect such as age, gender, disability or training and professional experience and have no implied bias that might entail any discrimination and, in particular, that they facilitate the selection of female Directors in a number allowing to reach a balanced presence of women and men".

Likewise, it modified its Directors Selection Policy (available at www.applus.com) in accordance with the Good Governance Code of June 2020.

Currently, the Policy establishes as follows: "The objective of this Policy is to explain the principles that will govern the selection of candidates to the position of directors of the Company. The selection procedures shall be aimed at achieving an adequate balance on the Board of Directors as a whole and, in particular, at promoting the goal of having at least 40% of total board places occupied by women directors by the end of 2022 year and thereafter. The Applus+ Board of Directors shall ensure in any case that the selection procedures favours diversity in gender, age disabilities, experience, professional education or experience and that they do not suffer from implicit bias that might imply any discrimination and, in particular, that might make it more difficult for the selection of female candidates, promoting an increase of women's presence on the Board in view of best corporate governance practices and in line with the specific analysis of the Company's needs performed by the Board of Directors. In particular, the Board will ensure that the Company adopts measures that encourage the company to have a significant number of female senior managers to contribute to gender diversity overall."

In year 2019, the Board of Directors included in the Policy the express mention to the objective that the less represented gender would at least hold 30% of the positions in the board for 2020. In consequence, and on the basis of the needs identified by the Board of Directors, a female director was appointed in 2016 and two on 2019, reaching the objective established a year earlier. In the selection process initiated following the two vacancies arisen in 2018, female directors' profiles were prioritized in order to achieve the representation objective.

Again, the objective proposed for the year 2022 has been met ahead of schedule, since, as of November 2021 the number of women on the Board of Directors is equivalent to 40% of the positions in the board.

The Appointments and Compensation Committee and the Board of directors promote and guarantee diversity amongst its members in a wider sense (including factors such as gender, age, experience, skills, geography) in order

to continue leading the strategy of the Company, and meeting stakeholders' expectations. Finally, also to point out that the current composition of the board and its diversity is a matter positively considered both by board members during annual evaluations (who point out the contribution to the debate and decision making), as well as by institutional investors and proxy advisors within the framework of the meetings on corporate governance that the company holds with them. In respect of the vacancies that might originate in the future, the Company will act with same equality, safeguarding that nothing hinders or prevents to increase the representation of female directors in the Board.

The draft proposal of Remuneration Policy will include a gender diversity target both in the annual variable compensation and in the medium-term variable compensation (LTI).

C.1.6 Describe the means, if any, agreed upon by the appointments committee to ensure that selection procedures do not contain hidden biases which impede the selection of female directors and that the company deliberately seeks and includes women who meet the target professional profile among potential candidates and which makes it possible to achieve a balance between men and women. Indicate if the measures include to promote a significant number of female top management:

Explanation of means

It should be pointed out the result of the application of the selection policy processes for board members that have made it possible to increase the female board members (40% of the positions in the board).

As indicated in the previous section, the Directors' Selection Policy establishes that: "In particular, the Board will ensure that the Company adopts measures that encourage the company to have a significant number of female senior managers to contribute to gender diversity overall."

This reflects the Company's practices and the Company had applied a number of polices applicable to the entire group:

- Code of Ethics: it establishes a framework that goes beyond regulatory compliance. It Establishes general principles to guide the integrity and professionalism in the decision making process.
- ESG Policy: This policy refers to the framework and development of the Corporate Social Responsibility Policy within the Applus+ Group.
- Equality and Diversity Policy, which establishes as main principle to ensure the staff promotes gender, age and capacities diversity, as Applus+ values difference. Likewise, it establishes that the company shall develop and implement adequate training programs for the achievement of these principles and will review and update the policy

to adjust it to any changes that the group might face, ensuring its compliance.

- Non-discrimination global policy: This policy establishes Applus undertaking in promoting the equality within the company and the aim to eliminate any kind of discrimination, as well we the commitment to promote good relationship within staff.
- Monitoring by the Appointments and Compensation Committee of HR strategy and actions to achieve these goals, as well as follow up on related indicators (salary gap, % of positions held by each gender, etc.), at least annually.

In the event that there are few or no female directors or top management in spite of any measures adopted, please explain the reasons that justify such a situation

Explanation of means

C.1.7 Describe the conclusions of the appointments committee regarding verification of compliance with the policy aimed at promoting an adequate composition of the board of directors.

It is the Appointments and Compensation Committee's view that the Applus+ directors' selection policy adopted the practices followed by the company in the subject and is consistent with the good corporate governance, which is a key plank of the ESG policy. Likewise, it considers that the compliance with the selection policy has contributed to de adequate and diverse composition of the Board of directors.

In this sense, the directors' selection processes that took place in the fiscal year 2021 have contributed to improve the diversity of the Board's composition in a broad sense: gender, skills and experience. This selection has been carried out with the help of independent external advisors, following a prior definition of the skills required by the Board which namely, in these cases, aimed to enhance experience and particularly in the TIC sector and in HR.

Likewise, as indicated in section C.1.5 and 6 above, the company's most recent selection processes allowed the incorporation of three women to the Board of Directors, and a last incorporation in the 2021 fiscal year, which currently represents 40% of the Board and the anticipated fulfilment of the goal indicated in the Policy.

C.1.8 If applicable, please explain the reasons for the appointment of any proprietary directors at the request of shareholders with less than a 3% equity interest:

Name of shareholder	Reason
N/A	

State whether the Board has failed to meet any formal requests for membership from shareholders whose equity interest is equal to or higher than that of others at whose request proprietary directors have been appointed. If this is the case, please explain why the aforementioned requests were not met:

Name of shareholder	Explanation
Ye	es No x

C.1.9 Indicate the powers, if any, delegated by the Board of Directors, including those relating to the option of issuing or re-purchasing shares, to directors or board committees:

Name or company name of director or committee	Brief description

C.1.10 Identify any members of the Board who are also directors or officers in other companies in the group of which the listed company is a member:

Observations

The fix compensation of the executive directors includes a part in RSUs (Restricted Stock Units). The variable compensation of the executive directors includes a portion in cash, and the remainder in RSUs exchangeable in shares in a period of three years from the day of grant in an amount of 30% for the first two years and 40% the third one. Further detail is available at the company's annual accounts.

The plans in force at the end of the exercise for the RSUs, granted in the previous years, may be consulted in the Annual Report on Directors Remuneration.

Long Term Incentive ("ILP"): in accordance with the remunerations policy in force, the executive directors will receive annually PSU (Performance Stock Units) convertible in shares of the Company in the term of three years since the date of grant. Details on current PSUs plans can be consulted in the Directors' Remuneration Policy.

C.1.14 Identify senior management staff who are not executive directors and their total remuneration accrued during the year:

Name	Position	
BASCHWITZ GARCÍA, CRISTINA	Corporate Development	
PEREZ FERNANDEZ, JOSE DELFIN	Human Resources, Marketing & Communications

% of total of senior management	22.22%

members	
Total senior management remuneration (thousand	6,094
Auros)	, in the second

Observations

For these purposes, senior management incudes the members of the management who are part of Group Management, i.e., the Executive Committee that includes the Regional Directors of the Energy & Industry division of the Group. For the purposes of the information regarding compensation, it also includes the internal auditor, in line with the definition contained in the current accounting rules and in particular with the Report of the Special Work Group on Good Governance of Public Companies, published by CNMV on 16 May 2006.

The fix compensation of some managers includes a part in RSUs (Restricted Stock Units), convertibles in shares in the third anniversary of the date of grant as detailed in the annual accounts of the company.

The variable compensation of certain members of the management includes a portion in cash, and the remainder in RSUs convertibles in shares in a period of three years as of the date of grant, 30% the first two years and 40% the third, as detailed in the annual accounts of the company.

Pluri-annual compensation and Long Term Incentive in PSUs: in accordance with the Remuneration Policy in force, some members of the management of the group receive annually PSUs (*Performance Stock Units*), convertibles in shares of the company in a period of three years from the day of grant.

C.1.15State whether the Board rules were amended during the year:

Yes	X	No	

Description of amendment

In February 2021, the Board of Directors approved the amendment of its Regulations in order to allow meetings to be held exclusively by telematic means.

C.1.16 Specify the procedures for selection, appointment, re-election and removal of directors: the competent bodies, steps to follow and criteria applied in each procedure.

Selection: Appointments and Compensation Committee is responsible for (i) evaluating the skills, expertise and experience necessary in the Board of Directors to define, consequently, the functions and abilities needed in candidates who are to fill each vacancy, and to evaluate the time and dedication necessary to perform their duties; and of (ii) to safeguard that, when filling new vacancies, the selection procedure does not suffer from implicit biases that might hinder the selection of female Directors; and so that the company deliberately searches for, and includes amongst potential candidates, women who meet the professional profile sought (article 39.3 vi and x del of the Regulations of the Board of Directors).

Appointment: The members of the Board of Directors shall be appointed by the General Shareholders' Meeting, notwithstanding the possibility of co-opting members as established in the Spanish Companies Act (article 23 of the company By-laws,). It is not necessary to be a shareholder to be elected member of the Board, except in the case of co-option. Individual or legal entities covered by any of the prohibitions established by current legislation for reasons of incapacity or incompatibility shall be disqualified from Board membership.

Proposals for the appointment of Directors submitted by the Board of Directors to the consideration of the General Shareholders' Meeting and appointment decisions adopted by the Board of Directors pursuant to its interim appointment authority shall be made subject to the prior report by the Appointments and Compensation Committee (in the case of executive and proprietary Directors), and subject to a proposal from the Appointments and Compensation Committee, in the case of independent Directors (articles 14 and 39.3 of the Regulations of the Board of Directors).

In all the directors' selection processes, the A&C has relied on recognized external recruitment firm, being all candidates always selected on the bases of the candidates presented by it.

Term of office (article 23.3 of the company By-laws and 15 of the Board of Directors Regulations). Tenure of office shall be four (4) years as from the date of acceptance, being able to be re-elected one or more times for periods of equal duration.

Re-appointment (article 16 of the Regulations of the Board of Directors). Before the reappointment of Directors is proposed to the General Shareholders' Meeting, the Appointments and Compensation Committee shall issue a report evaluating the work and dedication of the Directors proposed during the previous term in office.

Self-evaluation (article 36 of the Regulations of the Board of Directors): "The Board of Directors shall dedicate the first meeting of the year to an assessment of its operation during the previous financial year, evaluating the quality of its work, assessing the effectiveness of its regulations, and if appropriate, correcting those aspects that were found not to be functional. Furthermore, the Board of Directors shall assess the performance of its duties through the Chairman of the Board of Directors and the senior executive of the company, based on the report issued by the Appointments and Compensation Committee, as well as the operation of the Board of Directors Committees, based on their reports".

During the 2021 fiscal year, an external evaluation of the Board of Directors was carried out by Spencer Stuart. This evaluation included a confidential questionnaire addressed to each Director, as well as telephone interviews and specific face-to-face meetings with each director. The results of the evaluation processes were reported to the Appointments and Remuneration Committee, which dedicated an extraordinary session in January (before sharing the Results with the Board of Directors). At the first meeting of the Board of Directors in 2022, the agenda included the presentation of the Evaluation Report by the external advisor and the analysis by the Board of Directors. Additionally, an evaluation of the chairman and CEO has been carried out, respectively led by Mrs. Damesin (as future Chairman of the Appointments and Remuneration Committee) and by Mr. Cole as chairman of the Board (an interim chair of the A&C).

Removal (article 17 of the Regulations of the Board of Directors). Directors shall be removed from their post once the term for which they were appointed has lapsed or when so is decided by the General Shareholders' Meeting pursuant to the powers conferred upon them by law and in the by-laws, with no need for said decision to be included in the agenda of the General Shareholders' Meeting. The Board of Directors shall not propose the removal of any independent Director before the end of the statutory term for which they have been appointed, except where the Board of Directors considers that sufficient grounds for such action exist, based on a report by the Appointments and Remuneration Committee. In particular, sufficient grounds will be deemed to exist when the Director has failed to fulfil the duties of its position or is affected by one or more of the circumstances that would have prevented its appointment as an independent Director, in accordance with applicable legal provisions.

C.1.17 Explain how the annual evaluation of the Board has given rise to significant changes in its internal organization and to procedures applicable to its activities:

Description of changes

The previous year's evaluation did not drive to significant changes in the internal organization of the Board nor procedures, save for a greater focus on certain risk & opportunities areas for the Company (such as cybersecurity, ESG) as well as the consideration of conducting the next evaluation by an independent third party. It should be noted that, all of these goals have been met during the 2021 financial year.

Describe the evaluation process and the areas evaluated by the Board of Directors with the help, if any, of external advisors, regarding the function and composition of the board and its committees and any other area or aspect that has been evaluated.

Description of the evaluation process and evaluated areas

The evaluation was coordinated by the Chairman of the Board and the current Chairman of the Appointments and Compensations Committee. An independent external firm was hired for first time. The process consisted on the completion of an online questionnaire by each Director, followed by confidential individual interviews.

Upon receipt of the external report issued by the consultant early in 2022, it was submitted to the Appointments and Remuneration Committee, which held an extraordinary meeting in January to analyze it.

The external report will be discussed at the first meeting of the Board (in February 2022), and any improvement measures agreed upon will continue to be addressed at future meetings, as appropriate.

Considering that the external report has not been discussed by the Board of Directors at this date, it is not possible to determine the actions that will result from it. However, the following points can be highlighted:

- A very positive assessment of the Board's dynamics
- After two fiscal years under the effects of Covid 19 and the consequent reduction in the number of travels and face-to-face meetings, the directors are keen to increase their knowledge of the Company's business, and to hold board sessions which include business visits.
- Likewise, following the presentation of the Strategic Plan by the Company in November 2021, the directors express their willingness to dedicate sessions focused on the follow-up of the Strategic Plan.
- Areas such as ESG, digitalization and cybersecurity should remain on the agenda and those of succession and remuneration should have a greater focus.

C.1.18 Describe, in those years in which the external advisor has participated, the business relationships that the external advisor or any group company maintains with the company or any company in its group.

In fiscal year 2021, the external advisor (Spencer Stuart) has not provided other services to Applus Group.

C.1.19 State the situations in which directors are required to resign.

According to article 17.3 of the Regulations of the Board of Directors, "Directors must tender their resignation to the Board of Directors and, where considered appropriate by the Board, formalize the appropriate resignation in the following circumstances:

- (a) When they cease in the positions, posts, or functions related with their appointment as executive Directors;
- (b) In the case of proprietary Directors, when the shareholder whose interests they represent transfers all of their shares, or that they do it in the corresponding number in case said shareholder reduces its holding in the Company;
- (c) When they are affected by any of the incompatibility or prohibition provisions legally established:
- (d) If they are severely reprimanded by the Board of Directors on the basis of a report by the Appointments and Remuneration Committee as a result of having breached

Article 17.4 establishes that "when a Director is removed from its office before the end of the term of office following its resignation or through resolution of the general meeting, the Director shall explain sufficiently the reasons for doing so, or in the case of non-executive Director, his/her opinion of the reasons for the general meeting resolution, in a letter addressed to all the members of the Board of Directors. This should all be reported in the Annual Corporate Governance Report, and if it is relevant for investors, the Company should publish an announcement of the departure as rapidly as possible, with sufficient reference to the reasons or circumstances provided by the Director." C.1.20 Are qualified majorities other than those established by law required for any specific decision? Yes If so, please describe any differences. **Description of differences** C.1.21 Explain whether there are any specific requirements, other than those relating to directors, to be appointed as chairman of the Board of Directors. Yes **Description of requirements** C.1.22 State whether the Articles of Association or the Board Rules establish any limit as to the age of directors: No x Age limit Chairman **CEO Directors Observations** State whether the Articles of Association or the Board Rules establish any term limits C.1.23 for independent directors other than those required by law: No x Yes

(e) When their continuance on the Board of Directors may jeopardize the interests of

their duties as Directors; or

the company".

C.1.24 State whether the Articles of Association or Board Rules establish specific proxy rules for votes at Board meetings, how they are to be delegated and, in particular, the maximum number of delegations that a director may have, as well as if any limit regarding the category of director to

Additional requirements and/or maximum number of

term limits

whom votes may be delegated and whether a director is required to delegate to a director of the same category. If so, please briefly describe the rules.

Article 27.2 of the company By-laws provides that Directors shall personally attend the meetings. In case they cannot attend, the Director may only be represented at meetings of the Board of Directors by another director. Non-executive Directors can only be represented by other non-executive Directors. In any case, representation shall be granted by a letter addressed to the Chairman or by other means detailed in the Regulations for the Board of Directors.

Article 18 of the Regulations of the Board of Directors provides the obligations that Directors must fulfil when in office. Specifically, article 18.2 (a) establishes that Directors shall attend meetings of bodies of which they are part and actively participate in deliberations, so that they can effectively contribute to the decision-making process. Furthermore, said article also provides that if any Director cannot be present at sessions to which they have been called to attend, they must instruct the director who they have appointed as representative.

According to article 35.7 of the Board of Directors Regulations, the Chairman shall decide, in the event of any doubt, on the validity of the delegations conferred by Directors who are not present at the meeting. Said representations shall only be granted by letter or any other written method which, in the Chairman's opinion, ensures that the representation is valid.

C.1.25 State the number of meetings held by the Board of Directors during the year, and if applicable, the number of times the Board met without the chairman present. Meetings where the chairman sent specific proxy instructions are to be counted as attended.

Number of Board meetings	13
Number of Board meetings without the chairman	0

Observations

Due to restriction on mobility during fiscal year 2021, most of the Board of Directors meetings were held on a remote basis (videoconference).

State the number of meetings held by the coordinating director with the other directors, where there was neither attendance nor representation of any executive director:

Number of meetings	N/A	
Observations		

Please specify the number of meetings held by each committee of the Board during the year:

Number of meetings held by the executive committee	N/A
Number of meetings held by the audit committee	4

Number of meetings held by the nomination and remuneration committee	7
Number of meetings held by the nomination committee	N/A
Number of meeting held by the remuneration committee	N/A
Number of meetings held by the ESG committee	6

Observations

C.1.26 State the number of meetings held by the Board of Directors during the year in which all of its directors were present. For the purposes of this section, proxies given with specific instructions should be considered as attendance

Number of meetings when all directors attended	12
% of attendance over total votes during the year	99.17%
Number of meetings in situ or representations made with specific instructions of all directors	12
% of votes issued at in situ meetings or with representations made with specific instructions out of all votes cast during the year	99.17%

Observations

As mentioned in section C.1.25, due to mobility limitations during fiscal year 2021, there were 3 meetings with physical attendance and 10 meetings held by remote means (videoconference).

On the other hand, one of the Board Members was unable to attend one extraordinary meeting of the Board for unforeseen reasons and it was not possible to grant a proxy (which explains why the above % do not reach 100%).

C.1.27 State if the individual and consolidated financial statements submitted to the Board for preparation were previously certified:

Yes No x

Identify, if applicable, the person/s who certified the individual and consolidated financial statements of the company for preparation by the Board:

Name	Position
Observations	

C.1.28 Explain any measures established by the Board of Directors so that the annual accounts that the board submits to the General Shareholders' Meeting are prepared in accordance with applicable accounting regulations.

Article 10.1 of the Regulations of the Board of Directors establishes that: "The Board of Directors shall prepare the annual accounts and the management report (both individual and consolidated) so that they provide a true and fair view of the equity, financial position, and results of the Company, as provided for in the Spanish Companies Act, subject to the prior report of the Audit Committee".

In accordance with article 38 of the Regulations of the Board of Directors, the Audit Committee is in charge of, amongst others, monitoring and evaluating the preparation and the integrity of the mandatory financial information, reviewing compliance with regulatory requirements, the accurate demarcation of the consolidation perimeter and the correct application of accounting principles.

Likewise, the Policy for the communication of economic-financial, non-financial and corporate information and communication and contact with shareholders, institutional investors and proxy advisors establishes that "The management and supervision of the information communicated at the highest level to shareholders, institutional investors and the markets in general belongs to the Board of Directors, protecting and enabling the exercise of their rights and interests within the protection of the corporate interest and in accordance with the applicable laws and the good governance. In line with applicable rules and with the Regulations of the Board of Directors, the approval of the information that, being a listed company, Applus+ must publish occasionally or periodically, and any information made available to the markets, sits within the Board of Directors. The Board has approved a procedure for the publication of information on the CNMV's page in development of the Company's Internal Regulation of Conduct in the securities markets."

C.1.29 Is the secreta	v of the Board	also a director?
-----------------------	----------------	------------------

Yes No x

If the secretary is not a director, please complete the following table:

Name of the secretary	Representative
VICENTE CONDE VIÑUELAS	N/A

C.1.30 State, if any, the concrete measures established by the entity to ensure the independence of its external auditors, financial analysts, investment banks, and rating agencies, including how legal provisions have been implemented in practice.

Article 38.7(c) (iii) of the Regulations of the Board of Directors provides that the Audit Committee, will "monitor the independence of the external auditor, to which end, the company shall:

- Notify any change of auditor to the CNMV as a relevant fact, accompanied by a statement
 of any disagreements arising with the outgoing auditor and, should this be the case, their
 content.
- Ensure that the company and the auditor comply with current regulations on the provision
 of non-audit services, the limits on the auditor's business concentration, the regulations
 referring to the requirement to rotate the auditor issuing the audit report, and in general,
 any other provisions established in order to ensure the independence of the auditors.
- The Audit Committee shall issue a report annually, in which it shall express its opinion on the auditors' independence. This report shall refer in any case to the provision of additional services provided by the auditors to the company or to any entity associated with the company, whether directly or indirectly.
- To this end, the Audit Committee shall receive the auditors' written confirmation of their independence in respect of the company, and any of its associated entities, whether directly or indirectly, as well as any information on additional services of any kind that they

 indirectly. In the event that the external withdrawal shall be examined." It is important to point out that since the audit firm has changed in 2 occasions, a Committee ensures the minimization of the Company issues before every AGM 	I auditor with ne Company v as well as part the other fees	draws, the circonvent public, the of the supporting that the audit fi	partner responsible for th g team. Moreover, the Aud irm might receive. Likewise

services (thousand euros) Amount invoiced for non-audit services/Amount for audit work (in %)		181	

C.1.34	I State the number of consecutive years the current audit firm has been auditing the financial
	statements of the company and/or group. Furthermore, state the number of years audited by the
	current audit firm as a percentage of the total number of years that the financial statements have
	been audited:

	Individual	Consolidated
Number of consecutive years	15	15

	Individual	Consolidated
Number of years audited by the current audit firm/number of fiscal years the company has been audited (by %)	100	100

C.1.35	State whether there is a procedure whereb	y directors have the information necessary to
	prepare the meetings of the governing bodies with s	sufficient time and provide details if applicable:

Explanation of procedure

Article 30.3 of the Regulations of the Board of Directors provides that "As the Chairman of the Board of Directors is responsible for the effective operation and functioning of the Board of Directors, it shall be required to ensure that the Directors are provided with sufficient information beforehand; (...)". In practice, this means that the information required for a particular session is available at least at the moment of its call and, sometimes, according with the complexity of the matter, with enough anticipation.

Likewise, the Board of Directors has set up an intranet so, amongst others, the information is available by electronic means and confidentiality is safeguarded, as well to enhance the previous accessibility of the information.

In addition, article 23 of the Regulations of the Board of Directors provides that each director is entitled to ask for additional information, and the article regulates these requests.

C.1.36 Indicate whether the company has established rules obliging directors to inform the Board of any circumstances, whether or not related to their actions in the company itself that might harm the company's standing and reputation, tendering their resignation where appropriate. If so, provide details:

Yes	Х	No	

Explain the rules

Article 17.3 of the Regulations of the Board of Directors provides that "Directors must tend their resignation to the Board of Directors and, where considered appropriate by the Board, formalize the appropriate resignation in the following circumstances:

- (c) When they are affected by any of the incompatibility or prohibitions provisions legally established;
- (d) If they are severely reprimanded by the Board of Directors on the basis of a report by the Appointments and Remuneration Committee as a result of having breached their duties as Directors; or
- (e) When their continued presence on the Board of Directors may jeopardize the interests of the Company.

In accordance with Article 17.4: "When a Director is removed from its office before the end of the term of office following its resignation or through resolution of the general meeting, the Director shall explain sufficiently the reasons for doing so, or in the case of

non-executive Director, his/her opinion of the reasons for the general meeting resolution, in a letter addressed to all the members of the Board of Directors. This should all be reported in the Annual Corporate Governance Report, and if it is relevant for investors, the Company should publish an announcement of the departure as rapidly as possible, with sufficient reference to the reasons or circumstances provided by the Director."

C.1.37	ndicate whether, apart from such special circumstances as may have arisen and been duly
	inuted, the Board of Directors has been notified or has otherwise become aware of any situation
	fecting a director, whether or not related to his or her actions in the company itself, that might
	arm the company's standing and reputation:

Yes No x

Director's name	Nature of the situation	Observations

Indicate whether the Board of Directors has examined the case. If so, explain with reasons whether, given the specific circumstances, it has adopted any measure, such as opening an internal enquiry, requesting the director's resignation or proposing his or her dismissal.

Indicate also whether the Board decision was backed up by a report from the nomination committee.

Yes No x

Decision / action taken	Reasoned explanation

C.1.38 Detail any material agreements entered into by the company that come into force, are modified or are terminated in the event of a change in control of the company following a public takeover bid, and their effects.

The financing agreements "Multicurrency Facilities Agreement" and "Note Purchase Agreement" signed by the company on 7 June 2018, 4 July 2018 and 10 June 2021 include early maturity clauses in the event of a change in control, in standard terms for contracts of this kind. Likewise, there are other agreements entered into by subsidiaries of the company which might contain change of control clauses, such as concession or similar contracts.

C.1.39 Identify individually for director, and generally in other cases, and provide detail of any agreements made between the company and its directors, executives or employees containing indemnity or golden parachute clauses in the event of resignation or dismissal or termination of employment without cause following a takeover bid or any other type of transaction.

Number of beneficiaries	7
Type of beneficiary	Members of the management committee
Description of agreement	The company has entered into severance payment arrangements ("blindajes") with seven (7) members of the senior management team who are part of the management committee. The amounts payable to senior management pursuant to the severance payment arrangements may be determined by reference to one of the three following parameters, as applicable: (i) a compensation equal to twice the gross annual compensation received by the

relevant senior manager in the year immediately preceding termination of employment; (ii) a compensation (net of tax) equal to twice the net annual monetary compensation received by the relevant senior manager in the year immediately preceding termination of employment after withholding taxes; (iii) a compensation (net of tax) equal to the greater of (a) twice the net annual monetary compensation received by the relevant senior manager in the year immediately preceding termination of employment and (b) compensation resulting from calculating 45 days of salary per year of service, with a maximum amount of 42 monthly payments; (iv) a compensation equal to the aggregate of the following amounts: the aggregate of two years of the fixed salary paid at the moment of termination plus twice the annual bonus received 12 months before the contract termination, (v) a compensation equal to the greater of following amounts (a) twice the gross monetary compensation received in the last twelve months and (b) the compensation that results from calculation 33 days of salary per year of services with a maximum 24 monthly payments; (vi) a compensation equal to the fix remuneration received in the year immediately preceding termination of employment plus the amount of the last yearly bonus received in cash.

Pursuant to the arrangements entered into by the group, certain senior managers they are entitled to severance payments in case described in preceding paragraph in the following cases: (i) their employment is terminated by the company, except in case of fair disciplinary dismissal ("despido disciplinario procedente") declared by a final judgment and (ii) in some of the cases in the event they decide to early terminate their employment with the group (whatever form and cause), except in case of resignation ("dimisión") and (iii) some directors, in case of transfer of their work location outside the region where they currently render their services.

In addition to these 7 managers, there are others in the company, who do not report directly to the CEO and have severance payment arrangements ("blindaje").

Indicate whether, beyond the cases established by legislation, these agreements have to be communicated and/or authorized by the governing bodies of the company or its group. If so, specify the procedures, the cases concerned and the nature of the bodies responsible for their approval or communication:

	Board of Directors	General Shareholders' Meeting
Body authorizing the severance	YES	NO

	Yes	No
Are these clauses notified to the General Shareholders' Meeting?		Х

% of executive directors	
% of proprietary directors	
% of independent directors	
% of other external directors	

Observations	
N/A	

Explain the functions delegated or assigned to this committee, other than those that have already been described in Section C.1.9, and describe the rules and procedures for its organisation and functioning. For each of these functions, briefly describe its most important actions during the year and how it has exercised in practice each of the functions assigned to it by law, in the articles of incorporation or in other corporate resolutions.

AUDIT COMMITTEE

Name	Post	Category
NICOLAS VILLÉN	PRESIDENT	INDEPENDENT
ERNESTO GERARDO MATA LÓPEZ	MEMBER	EXTERNAL
MARIA CRISTINA HENRÍQUEZ DE LUNA	MEMBER	INDEPENDENT
ESSIMARI KAIRISTO	MEMBER	INDEPENDENT

% of proprietary directors	0
% of independent directors	75
% of external directors	25

Observations	

Explain the duties exercised by this committee, describe the rules and procedures it follows for its organization and function. For each one of these functions, briefly describe its most important actions during the year and how it has exercise in practice each of the functions attributed thereto by law, in the Articles of Association or other corporate resolutions.

The members of the Audit Committee are appointed by the Board of Directors. The Audit Committee consists of three to five members of the Board of Directors, based on their knowledge and experience in accounting, auditing and risk management matters.

Audit Committee's functions are listed in article 38 of the Regulations of the Board of Directors and mainly consist of:

- a) To report the General Shareholders Meeting on the issues raised in relation to those matters within the competence of the Audit Committee.
- b) In relation to the information and internal control systems:
 - (i) To monitor the effectiveness of the internal control of the Company, the internal audit, and the risk management systems, as well as to discuss with the external auditor any significant weaknesses in the internal control system detected during the course of the audit, all of which without breaching their independence.
 - (ii) To monitor and to evaluate the preparation and the integrity of the mandatory financial information, reviewing compliance with regulatory requirements, the accurate demarcation of the consolidation perimeter and the correct application of accounting principles.
 - (iii) To monitor the independence and efficacy of the internal audit function; propose the selection, appointment, re-appointment and removal of the head of the internal audit; propose the department's budget; to approve the priorities and annual work plan; receive regular information on its activities; and verify that the senior management are acting on the findings and recommendations of their reports.
 - (iv) To analyse financial and accounting irregularities with potentially serious implications that may have been reported.
 - (v) To monitor and to evaluate the control and management systems of the financial and non-financial risks the Company and the Applus+ Group are exposed to.
 - (vi) To monitor in general that the policies and systems related to internal control are applied effectively.
- c) In respect of the external auditor:
 - (i) To make recommendations to the Board of Directors for the selection, appointment, reappointment and removal of the external auditor and the conditions of its engagement.
 - (ii) To gather regularly information from the external auditor on the audit programme, its implementation and the results of its implementation, as well as verify that the senior management are acting on its recommendations.
 - (iii) To monitor the independence of the external auditor
 - (iv) To establish the appropriate relationships with the external auditor to receive information on any issues that could be a threat to their independence.
- d) In relation with other duties, it corresponds to the Audit Committee:
 - (i) To report during the AGM on the matters raised therein by shareholders which fall under its scope of responsibility.
 - (ii) To monitor the process of preparing the annual accounts and management reports, individual and consolidated, for their formulation by the Board.
 - (iii) To report to the Board of Directors, for its formulation, on the correctness and reliability of the annual statements and management reports, individual and consolidated, and the periodic financial information disseminated to the markets.
 - (iv) To monitor compliance with internal codes of conduct and, in particular, with these Regulations under the terms provided herein.
 - (ix) To report to the Board of Directors, prior to its adoption of the corresponding decisions, on the following subjects:
 - □ The financial information that the Company must periodically make public.
 □ The creation or acquisition of holdings in special purpose entities or those established in countries or territories which are considered tax havens, as well as any other transactions or operations of an analogous nature.

☐ The preparation of a report on all those transactions that have the condition of Related-Party Transactions.

The main actions of the Audit Committee during 2021 were:

- Definition, approval and monitoring of the Internal Audit annual plan;
- Monitoring and supervision of the actions performed in connection with the risk map management, as well as understanding and analysing the development of the main risks;
- Monitoring and supervision of the ICFR model;
- Approval and follow up of action plans defined on the basis of internal audits performed (in response to the weaknesses found in the internal control);
- Quarterly monitoring of group results as well as periodic supervision of the most significant accounting estimates;
- Revie of the scope and results (half and yearly) of the audit works performed by external audit;
- Review and approval of the audit fees and as well as of other fees for compatible services, as well as approval of the scope of the work of auditor
- Approval of the auditors' independence report

Identify the directors who are member of the audit committee and have been appointed taking into account their knowledge and experience in accounting or audit matters, or both, and state the date that the Chairperson of this committee was appointed.

Name of directors with experience	NICOLÁS VILLÉN
·	MARIA CRISTINA HENRÍQUEZ
	DE LUNA
	ERNESTO GERARDO MATA
	LÓPEZ
	ESSIMARI KAIRISTO
Date of appointment of the	29/05/2020
chairperson	

Observations

All four members of the Audit Committee (as described in their profiles in section C.1.3 above) are experts in the subject and have been appointed considering their knowledge and experience in accounting and audit.

APPOINTMENTS AND REMUNERATION COMMITTEE

Name	Post	Category
CHRISTOPHER COLE	PRESIDENT	INDEPENDENT
MARIA JOSE ESTERUELAS AGUIRRE	MEMBER	INDEPENDENT
MARIE-FRANÇOISE DAMESIN	MEMBER	INDEPENDENT
BRENDAN CONNOLLY	MEMBER	INDEPENDENT

% of proprietary directors	0
% of independent directors	100
% of external directors	0

Observations

Upon the resignation of Mr. John Daniel Hofmeister, Mr. Christopher Cole was appointed Chairman of this Committee while the selection process for a new director was being completed and, therefore, on an interim basis. Given the intense and challenging activity of this Committee during the 2021 fiscal year (*in particular, due to the selection process of two independent directors and the preparatory work for the proposal of a new Remuneration Policy*), it was considered optimal for Mr. Cole to remain in this position until the next General Shareholders' Meeting.

Explain the duties exercised by this committee, describe the rules and procedures it follows for its organization and function. For each one of these functions, briefly describe its most important actions during the year and how it has exercise in practice each of the functions attributed thereto by law, in the Articles of Association or other corporate resolutions.

The Appointments and Compensation Committee consists of at least three and a maximum of five Directors, appointed by the Board of Directors for a period not exceeding their term as Directors and without prejudice to being re-elected, insofar as they are also Directors. The Board of Directors designate the members of the Committee, based on the knowledge, skills and experience of the Directors and the tasks entrusted to the Committee.

Appointments and Compensation Committee's functions are:

- To formulate the proposals for appointment, re-appointment and removal of Independent Directors, and to report on the proposals for appointment, re-appointment and removal of the rest of Directors.
- To establish an objective of representation for the under-represented gender on the Board of Directors and to prepare guidelines on how to achieve said objective.
- To verify the character of each Director and check that he/she meets the requirements for qualification as Executive, Independent, Nominee or Other External Director.
- To evaluate the skills, expertise and experience necessary in the Board of Directors, to define, consequently, the functions and abilities needed in candidates who are to fill each vacancy, and to evaluate the time and dedication necessary in order for them to perform their duties.
- To examine and organize, in such a way as is understood to be suitable, the succession of the Chairman and the chief executive and, where necessary, to make proposals to the Board of Directors, so that such succession occurs in an orderly and well-planned manner.
- To report annually on the duties performed by the Chairman of the Board of Directors and by the chief executive of the Company.
- To report on the appointments and resignations of the Secretary and Deputy Secretary of the Board of Directors and of the senior executives whom the chief executive proposes to the Board of Directors.
- To report to the Board of Directors on the diversity issues, and safeguard that, when filling new vacancies, the Board shall respect the provisions set forth in Article 14.3 of the Regulations of the Board of Directors.
- To develop and implement a record of situations concerning Directors and senior executives from the Company, and to receive and maintain in that record the personal information provided by the Directors, as established under articles 18 and 19 of the Regulations of the Board of Directors.
- To receive the information supplied by Directors.
- To propose to the Board of Directors the remuneration policy for Directors and managing directors or others who perform their top management duties and directly depend on the Board of Directors, supervisory committees or chief executive officers.
- To propose to the Board of Directors the individual remuneration of Executive Directors and other conditions of their contracts.
- To propose to the Board of Directors the basic conditions of contracts for senior executives.
- To oversee compliance with the remuneration policy set by the Company.
- Periodically review the remuneration policy for Directors and senior officers, including share-based remuneration systems and their application, and ensure that their individual compensation is proportionate to the amounts paid to other Directors and senior officers in the Company.
- Ensure that conflicts of interest do not undermine the independence of the external professionals referred to the Article 40.4 of the Regulations of the Board of Directors.
- Verify the information on Director and senior officers' pay contained in corporate documents, including the annual Directors' remuneration report

The main actions of the Appointments and Compensation Committee in 2021 were:

- Approval of the evaluation of the bonus, accrued in the fiscal year 2020, according to the system in force, to be applied to the direct reports to the Chief Executive Officer.
- Determination of the 2021 salaries of the direct reports to the Chief Executive Officer.
- Acknowledgement of the allocations made under restricted stock units (RSUs) and the performance stock units (PSUs) system in force.
- Approval of the target regarding adjusted earnings per share (EPS) under PSUs 2021-2023 plans for the Chief Executive Officer and the applicable Senior Managers.
- Approval of the evaluation of the bonus, accrued in fiscal year 2020, to be applied to the CEO,

- according to the system in force.
- Analysis, study with the independent expert (Mercer Consulting) and proposal of the Directors' Remuneration Policy.
- Proposal and reports regarding the re-election of D^a Cristina Henríquez de Luna as independent director.
- Implementation and completion of the selection process of two independent directors, Messrs. Damesin and Connolly.
- Approval of the Annual Report on the Remunerations of Directors 2020.
- Support in the evaluation process of the Board, its Chairman and the Chief Executive Officer by an independent expert (Spencer Stuart).
- Follow-up of the succession planning of the Chief Executive Officer and the CFO as well as the performance and development of their direct reports.
- Follow up of some strategic Human Resources' initiatives.
- Assistance in preparing and attending meetings held with investors and proxy advisors in matters of its competence.

NOMINATION COMMITTEE

ESG COMMITTEE

Name	Post	Category
CHRISTOPHER COLE	PRESIDENT	INDEPENDENT
BRENDAN CONNOLLY	MEMBER	INDEPENDENT
MARIA JOSÉ ESTERUELAS	MEMBER	INDEPENDENT

% of executive directors	0
% of proprietary directors	0
% of independent directors	100
% of external directors	0

Observation

The Executive Director, Mr. Fernando Basabe, left the Committee in line with the recommendations of good corporate governance and after having succeeded in giving a significant impetus to the implementation of the ESG Policy in the group. After this change, the Environmental, Social and Governance Responsibility Committee shall consist of independent directors exclusively.

Explain the duties exercised by this committee, describe the rules and procedures it follows for its organization and function. For each one of these functions, briefly describe its most important actions during the year and how it has exercise in practice each of the functions attributed thereto by law, in the Articles of Association or other corporate resolutions.

The ESG Committee comprises a minimum of three and a maximum of five Directors appointed by the Board of Directors, for a period not exceeding that of their term as Directors and without prejudice to their ability to be re-appointed insofar as they were re-appointed as Directors. The Board of Directors will appoint the members of the ESG Committee based on the expertise, skills and experience of the Directors and its commitments.

ESG Committee's functions are:

- To promote the Company's policy in terms of ESG and of the Applus+ Group supervising and ensuring the adoption and effective implementation of good practices in the field of environmental social governance responsibility, good governance, ethics and transparency and procuring that expectations of the various stakeholders.
- To submit to the Board of Directors the initiatives and proposals it deems appropriate and inform on the proposals submitted for the consideration thereof, ensuring that the business strategy of the Company is aligned with the values of the Company's policy in terms of ESG approved by the Board of Directors.
- In particular, to design, define and approve initiative and according development plans for the

- achievement of the goals previously set up according to the Company's policy in terms of ESG and to such other policies or codes that, within the scope of its functions, it may promote.
- Likewise, to define the necessary organization and coordination for the implementation of such initiatives and strategies for the Company's policy in terms of ESG including, if necessary, the possibility to appoint ad-hoc committees to monitor specific areas.
- To assess, review and monitor the development and implementation of initiatives and plans of the Company in implementing the Company's policy in terms of ESG, by monitoring their compliance with the indicators defined.
- To monitor and to evaluate the preparation and the integrity of the annual report on corporate governance, the annual report on ESG matters and any other mandatory non-financial information, coordinating whenever necessary the process for reporting such information in accordance with applicable regulations and international reference standards.
- To establish and to monitor a mechanism whereby employees and other persons related to the Company, such as Directors, shareholders, suppliers, contractors or subcontractors can report irregularities of potential significance, including financial, non-financial and accounting irregularities, or those of any other nature, related to the Company which are evidenced within the Company or the Applus+ Group.
- To oversee compliance with the general policy regarding the disclosure of economic-financial, non-financial and corporate information, as well as the communication and relations strategy with shareholders and investors, proxy advisors and other stakeholders, including small and medium-sized shareholders.
- To periodically evaluate the effectiveness of the Company's corporate governance system and of the Company's policy in terms of ESG, in order to confirm that it is fulfilling its mission to promote the corporate interest and to take into account, where appropriate, the legitimate interests of the remaining stakeholders.
- To monitor that the Company's environmental and social practices are in accordance with the established strategy and policy.
- To oversee the acting of the Company in respect of training, reporting and investigations.

During 2021, the ESG Committee worked on these areas:

- For the first time, ESG objectives for 2021 were defined published and monitored during the year.
- These ratings were reviewed: MSCI, FTSE4Good IBEX, Gaïa Rating, and CDP.
- Commitments: GRI standards, UN Global Compact, UN SDGs (Sustainable Development Goals).
- TCFD and SASB have been incorporated into the reporting indicators.
- At the end of the year the ESG's objectives were established. Regarding the environmental objectives, these were stablished in the short, medium and long term with a 3-year implementation plan.
- Regarding commitments: it was agreed to adopt the SBTi's commitment (to comply with the 1.5°C reduction scenario).
- Business ethics: (i) monitoring and improvement of the Compliance Management System, with review of new policies and procedures; (ii) reinforce and strengthen compliance culture with online training sessions; (iii) review of third parties and agents under anti-corruption policy; (iv) management of whistleblowing channel; (v) development of the compliance management system through a new yearly "management declaration"; (vi) TIC audit with positive results.
- Corporate Governance: (i) preparation and development of the governance roadshow, gathering valuable feedback from institutional investors and proxy advisors; (ii) check & balance at its first meeting of the year of Applus+ corporate governance model compared with Spanish Code recommendations and investors and proxy advisors expectations; (iii) preparation and monitoring of the first General Shareholders' Meeting by remote means (reaching the highest quorum in the Applus General Shareholders Meetings); (iv) analysis and implementation of the amendments of the Capital Companies Act in force.

C.2.2 Complete the following table with information regarding the number of female directors who were members of Board committees at the close of the past four years:

	Number of female directors							
	Year 2	2021	Year 2020		Year 2019		Year 2018	
	Number	%	Number	%	Number	%	Number	%
Audit committee	2	50	2	50	2	50	1	33.33
Appointments and remuneration	2	50	1	33.33	1	33.33	0	0.00
ESG Committee	1	33.33	0	0.00	0	0.00	0	0.00

C.2.3 State, where applicable, the existence of any regulations governing Board committees, where these regulations may be found, and any amendments made to them during the year. Also, state whether any annual reports on the activities of each committee have been voluntarily prepared.

The Rules for Board's Committees are included in the Regulations of the Board of Directors, which establish their competences, composition, procedures, etc; these are available for consultation both on the CNMV website and the www.applus.com corporate website, and may be directly accessed through the following link: http://www.applus.com/es/InvestorRelations/Corporate-governance. Likewise, on 2020, the Board of Directors approved a regulation for each of the three committees, all of them available at https://www.applus.com/global/en/investor-relations/corporate-governance.

The three committees issue an annual report on their activities, which is submitted to the Board in the first yearly meeting.

D RELATED PARTY AND INTRAGROUP TRANSACTIONS

D.1. Explain, where appropriate, the procedure and competent bodies relating to the approval of transactions with related and intragroup parties, indicating the criteria and general internal rules of the entity that regulate the abstention obligations of the affected director or shareholders. Detail the internal information and periodic control procedures established by the company in relation to those related-party transactions whose approval has been delegated by the board of directors.

Further to article 7.2 h) of the Regulations of the Board of Directors and article 529 ter of the Spanish Companies Act, transactions carried out by the company or companies of the Applus Group with its directors, significant shareholders, and shareholders represented on the Board of Directors of the company or any Applus group company, or with persons associated with them, must be approved by the Board of Directors on the basis of a prior report by the Audit Committee.

In accordance with the article 19.1 c) The Directors shall perform their duties with the loyalty of a faithful representative, acting in good faith and in the best interest of the Company. The duty of loyalty obliges the Director to refrain from participating in the discussion and voting on resolutions or decisions in which they or a person related to them has a, direct or indirect, conflict of interest.

The article 21.11 of the Regulations of the Board of Directors provides that "In accordance with Article 7.2 above, the acknowledgement and approval, following a report from the Audit Committee, of the Related-Party Transactions are among the non-delegable competencies of the Board of Directors. However, in accordance with Article 7.5, when, for reasons of urgency, duly justified, the Related-Party Transactions may be authorized, where appropriate, by delegated persons or bodies and shall be ratified

at the first meeting of the Board of Directors that is held after the adoption of the resolution."

Following the reform of the Companies Act, the Board of Directors (October 2021) approved the Related-Party Transactions, Procedure including, among others, the mechanisms for approval of such transactions by delegation of the Board (within the scope of ordinary management and under market conditions or by virtue of contracts with standardized conditions).

D.2. Give individual details of operations that are significant due to their amount or of importance due to their subject matter carried out between the company or its subsidiaries and shareholders holding 10% or more of the voting rights or who are represented on the board of directors of the company, indicating which has been the competent body for its approval and if any affected shareholder or director has abstained. In the event that the board of directors has responsibility, indicate if the proposed resolution has been approved by the board without a vote against the majority of the independents:

Name or company name of the shareholder or any of its subsidiaries	% Sharehol ding	Name or company name of the company or entity within its group	Nature of the relationshi p	Type of operation and other information required for its evaluation	Amount (thousands of euros)	Approvi ng body	Identity of the significa nt sharehol der or director who has abstaine d	The proposal to the board, if applicable, has been approved by the board without a vote against the majority of independents
---	-----------------------	---	--------------------------------------	---	-----------------------------------	--------------------	--	--

Observations

D.3. Give individual details of the operations that are significant due to their amount or relevant due to their subject matter carried out by the company or its subsidiaries with the administrators or managers of the company, including those operations carried out with entities that the administrator or manager controls or controls jointly, indicating the competent body for its approval and if any affected shareholder or director has abstained. In the event that the board of directors has responsibility, indicate if the proposed resolution has been approved by the board without a vote against the majority of the independents:

Name or	Name or	Relationship	Nature of the	Amount	Approving	Identity of	The
company	company name		operation and	(thousands	body	the	proposal
name of the	of the company		other	of euros)		sharehold	to the
administrators	or entity within		information			er or	board, if
or managers	its group		necessary for			director	applicable,
or their			its evaluation			who has	has been
controlled or						abstained	approved
jointly							by the
controlled							board
entities							without a
							vote
							against the
							majority of
							independe
							nts

Observations

D.4. Report individually on intra-group transactions that are significant due to their amount or relevant due to their subject matter that have been undertaken by the company with its parent company or with other entities belonging to the parent's group, including subsidiaries of the listed company, except where no other related party of the listed company has interests in these subsidiaries or that they are fully owned, directly or indirectly, by the listed company.

In any case, report any intragroup transaction conducted with entities established in countries or territories considered as tax havens:

Company name of the entity within the group	Brief description of the operation and other information necessary for its evaluation	Amount (thousands of euros)

Observations

D.5. Give individual details of the operations that are significant due to their amount or relevant due to their subject matter carried out by the company or its subsidiaries with other related parties pursuant to the international accounting standards adopted by the EU, which have not been reported in previous sections.

Company name of the related party	Brief description of the operation and other information necessary for its evaluation	Amount (thousands of euros)

Obs	servations

D.6. Give details of the mechanisms in place to detect, determine and resolve potential conflicts of interest between the company and/or its group and its directors, senior management, significant shareholders or other associated parties.

Article 19 of the Regulations of the Board of Directors specifically regulates conflicts of interest:

"The Directors shall perform their duties with the loyalty of a faithful representative, acting in good faith and in the best interest of the Company. In particular, the duty of loyalty obliges the Director:

- a) .
- b) .
- c) To refrain from participating in the discussion and voting on resolutions or decisions in which they or a person related to them has a, direct or indirect, conflict of interest. The agreements or decisions relating to them in their condition of Directors, including their appointment or revocation for the positions on the Board or others analogous in nature, shall be excluded from the above obligation of refrain from participating and voting.
- d) To perform their duties under the principle of personal responsibility with freedom of judgement or good judgement and independence with regard to the instructions and links to third parties.
- e) To adopt the necessary measures to avoid finding themselves in situations in which their interests, on their own account or that of a third party, may conflict with the corporate interest and their duties to the Company.
- f) In particular, the duty to avoid the conflicts of interest referred to in the previous paragraph obliges the Director to refrain from:
 - (i) Carrying out transactions with the Company, except in the event of ordinary transactions, carried out under standard conditions for the clients and non-material, defined as those transactions whose information is not necessary to present a fair view of the Company's equity, the financial situation and the results of the entity.
 - (ii) Using the name of the Company or using their status as Director to unduly influence private operations being conducted.
 - (iii) Making use of the corporate assets, including the confidential information of the Company, for private purposes.
 - (iv) Taking advantage of the business opportunities of the Company.
 - (v) Obtaining advantages or remuneration from third parties other than the Company and the Applus+ Group associated to the performance of their duties, except in the case of the corporate hospitality.
 - (vi) Carrying out activities on their own account or on behalf of a third party which entail effective competition, whether actual or potential, with the Company or that, otherwise, would create a permanent conflict of interests with regard to the interests of the Company.
- g) The foregoing provisions shall also apply in the event that the beneficiary of the acts or activities prohibited is a person related to a Director.
- h) In any case, the Directors shall inform the other Directors and the Board of Directors of any conflict, direct or indirect, that they or persons related to them may have with the interests of the Company.
- The conflict of interest of the Directors shall be disclosed in the Notes of the financial statements"

Likewise, article 7.2 (h) of the Regulations of the Board of Directors establishes that the following is a matter reserved for the Board of Directors: "the approval, subject to a prior report from the Audit Committee, of the transactions carried out by the Company or companies of the Applus+ Group with its Directors, shareholders, whether on their own or together with others, considered as significant, including the shareholders represented on the Board of Directors of the Company or of other companies that are part of the Applus+ Group, or with persons related thereto". This shall not apply for transactions which fulfil the following conditions: (a) they are carried out under the terms of contracts whose conditions are standardized and applied to a large number of clients; (b) they are implemented at prices or rates generally set by the person supplying the good or service in question; and (c) the value of these transactions does not exceed 1% of the annual turnover of the Company.

Finally, section 4.11 of the Code of Ethics and the Global Conflict of Interests Policy regulate the situations of conflict of interest of Applus+ employees, as well as the mechanisms to follow in case of conflict.

Each member of the Board of Directors has signed a declaration of lack of conflict of interest.

	Indicate whether the company is controlled by another entity in the meaning of Article 42 of Commercial Code, whether listed or not, and whether it has, directly or through any of subsidiaries, business relationships with said entity or any of its subsidiaries (other than listed company) or carries out activities related to those of any of them
	Yes No x
	Indicate whether the respective areas of activity and any business relationships between listed company or its subsidiaries and the parent company or its subsidiaries have been def publicly and precisely:
	Yes No No
	Report the respective areas of activity and any business relationships between the listed company or its subsidiaries and the parent company or its subsidiaries, and identify where these aspects have been publicly reported
	Identify the mechanisms in place to resolve potential conflicts of interest between the pare the listed company and the other group companies:
_	Mechanisms for resolving possible conflicts of interest

E RISK MANAGEMENT AND CONTROL SYSTEMS

E.1 Explain the scope of the company's Risk Management and Control System, including tax compliance risk.

The Board of Directors is ultimately responsible for the existence and maintenance of an internal control and risk management system that is adequate and effective, tax risks included, and with regards to the definition of the risk appetite. This supervision function has been entrusted to the Audit Committee.

The Group has developed a policy and a procedure of Risk Management, and both have been approved by the Board of Directors.

As a result of the implementation of said procedure the Group's Risk Map is reviewed and updated on a yearly basis.

The risk management model implemented by the Group consists of the following three stages:

Stage 1: identification and assessment of risks based on the impact and the likelihood of occurrence.

Stage 2: monitoring of risks based on Key Risks Indicators (KRI), determination of the tolerance levels and definition of action plans when considered necessary.

Stage 3: periodical reporting to the Audit Committee and the Board of Directors about the risks evolution through their KRIs.

It is the senior management who proposes the Risk Map to the Audit Committee in which all risks are identified and assessed, including strategic, operational, financial, tax, legal, compliance and also risks to sustainability including those related to climate change.

This risk map has incorporated those factors deemed critical, considering all of the Group's lines of activity, geographical areas where it operates and its business divisions, as well as any risk factors deemed critical in relation to support functions (such as finances, human resources, legal and tax).

In addition, the company has a criminal risk map and a Criminal Risk Management and Crime Prevention Handbook in accordance with article 31 bis of the Criminal Code and other applicable laws. Under ESG Committee instigation, it has reviewed and strengthened the existing Corporate Compliance Program, by designing and implementing in the group the new Applus+ Criminal Risk Management and Crime Prevention System (hereinafter, the System), which is described in the referred handbook. The group has implemented the System by deploying the necessary internal control and surveillance measures to ensure compliance with criminal laws and to avoid the occurrence of offenses of which, in accordance with Spanish Criminal Code, any group company might be held responsible or, in case these cannot be avoided, at least to significantly reduce the risk of they taking place. Prevention is one of the main objectives of the System, the other one being to make possible the quick detection and reaction before any potential criminal offense in the group. The Company shall continue to deploy the implementation of the System in line with the annual plan that the ESG Committee approves.

E.2 Identify the bodies within the company responsible for creating and executing the Risk Management and Control System, including tax compliance risk.

Pursuant to Article 7.2 (vii) of the Regulations of the Board of Directors, the Group's Board of Directors is in charge of all risk control and management

policy, tax risks included, and will periodically follow up on any internal reporting and control systems, by optimising the cost/benefit ratio, in order to:

- Reach any medium-term strategic objectives
- Safeguard shareholder value
- Give assurance to the Group's results and reputation
- Uphold the interests of the Group's shareholders and stakeholders
- Ensure compliance in those countries where it operates including tax regulations

The Audit Committee, pursuant to Article 39.7 (a) (ii), is in charge of periodically reviewing any internal control and risk management systems in order to ensure that any main risks are identified, managed and adequately understood, including discussions with the auditors on any significant weaknesses in the internal control system detected during the audit. To do this, the Committee is backed up by the supervision tasks completed by the Group's Internal Audit Management. Supervision of any risk control systems includes approval of the risk model and periodic supervision, at different intervals depending on their importance.

The Group's Chief Executive Officer is in charge of handling these risks, as well as the heads of each corporate functional area and the Executive Vice President of each business Division, in accordance with their scope of activity, according to acceptable risk levels for the company.

The Internal Audit Management and the Group's Internal Control Responsible are in charge of supervising compliance with risk tolerance, the effectiveness of control systems and following up on the implementation of necessary actions, which are subsequently monitored by the corporate functions affected.

E.3 State the primary risks, including tax compliance risks, and those deriving from corruption (with the scope of these risks as set out in Royal Decree Law 18/2017), to the extent that these are significant, which may affect the achievement of business objectives.

The Applus+ Group risk map covers any risks that may have a significant impact on its results, to the best of its understanding. The risks contemplated in this map may be classified as follows:

- 1. strategic risks including those related to all ESG matters.
- 2. inherent to business activities (operational)
- 3. financial risks including tax
- 4. legal risks and compliance

The main risks managed by the Group are:

- Adequate supervision of the Group's business based on long-term agreements with a finite life-span (such as concessions in the technical vehicle inspection business in Spain, Europe and America) or IDIADA, providing services to the world's leading vehicle manufacturers.
- Certain levels of dependence on the evolution of some of the sectors in which the Group operates (automotive and oil and gas sectors)
- Adequate follow-up on the formal and service quality terms in any services provided based on granted accreditations. In this regard, the Group has taken out insurance policies.
- Risks related to the economic, social and political situation of the countries where the Group operates, as well as the main macroeconomic indicators that could have a short and medium-term impact on Applus+ Group's results, particularly considering its

- geographic spread.
- Retention of key staff for the Group and talent management.
- Potential criminal sanctions or significant business losses resulting from possible penalties that could be derived from non-compliance with the crime prevention handbook implemented by the Group.
- Risks related to cyber security.
- Risks linked to the Group's ESG strategy, including those inherent to climate change.

In financial terms, the Group manages and monitors the main risks that could affect Applus Group's results:

- Liquidity risk and leverage level of the Group.
- Risk of overestimation of certain significant assets (such as goodwill, intangible assets generated as a result of inorganic growth, as well as tax assets).
- Working Capital management.

E.4 State whether the entity has a risk tolerance level, including tolerance for tax compliance risk.

The levels of tolerance are defined through the established value limit set by the KRI associated with each risk.

Tolerance levels are defined according to the following parameters:

- Maintenance of quality standards
- Volume of business affected and potential impact on business sustainability
- · Impact on reputation and on business continuity
- Compliance with applicable law (tax laws included)
- · Probability of materialising

For those risks deemed critical, given the impact upon materialisation on the achievement of the Group's objectives, specific tolerance levels are defined, indicating action guidelines, timeframe to achieve, people in charge, follow-up indicators; the frequency and content is also established of any information to be provided to governing bodies for follow-up and decision-making.

E.5 State which risks, including tax compliance risks, have materialized during the year.

The Group's operations and, consequently its financial statements, have continued to be affected by COVID-19

In that sense, the pandemic's impact has been significantly lower than the experienced in 2020. Some of the Group's businesses have returned to prepandemic levels of revenues and margins, while others are still recovering.

Information security risk: In the first half of 2021 a malware attack was detected and temporarily interrupted vehicle roadworthiness testing activities in eight US states in which the Group operates through its subsidiary Applus Technologies, Inc. (which represents around 2% of the Group revenue). The Group increased the security and cyberprotection measures and, during 2021, operations were progressing normally and the vehicle roadworthiness testing activities in the US had been fully restored. The attack did not affect financial reporting processes.

The Group has performed impairment tests for all cash-generating units in relation to goodwill and intangible assets, concluding that in 2021 it was not

necessary to recognize significant impairments on any of them.

In relation to tax issues, several tax inspections have been carried out during 2021 in different geographies where the Group operates, without significant sanctions. With regards to the open inspections, no material impacts beyond the risk appetite established in the Group's Risk Map are foreseen.

Finally, the Group has not been involved in any new litigation that could have a relevant impact on its results, and currently open litigation actions have not led to events which could modify previous fiscal year's accounting accruals. The Directors do not expect any material liabilities to arise as a result of a potential inspection.

E.6 Explain the response and monitoring plans for all major risks, including tax compliance risks, of the company, as well as the procedures followed by the company in order to ensure that the board of directors responds to any new challenges that arise.

The Applus Group has an updated risk map contemplating any material risks which could affect the achievement of its strategic objectives.

To do this, the Group has implemented measures to mitigate these risks, in order to reduce the likelihood of occurrence and its potential impact. The management of the risk map is a responsibility carried out periodically by the group's top management, as part of their responsibilities. From the aforementioned ongoing management, action plans are detected to be implemented, defining who is responsible for, and execution deadlines are set, with the purpose of starting up the necessary measures to reduce the impact of such risks, should they materialise.

These measures are generally executed by the Group's Management; the Audit Committee and, ultimately, the Board of Directors are the two bodies in charge of approving and supervising the measures carried out.

In tax compliance risks which entail a high technical difficulty related to regulations interpretation, the Group resorts to external advisors in order to obtain a third party opinion on any potential risks if a certain transaction is carried out, mitigating them before they appear. Additionally, the Group will use any instruments available in tax laws (prior evaluation agreements, binding consultations, etc.), in those cases where i) this is deemed appropriate in order to reduce any disagreement derived from application of the tax rule, and ii) this is reasonable based on the instruments available, the issue in question and foreseeable timeframes.

Furthermore, the Group has taken out insurance policies to cover damages that may be caused to third parties as a result of negligence when providing its services, including its subsidiaries, in those sectors where it operates.

Before the attack described in the previous section, the Group had started implementing an ambitious improvement plan and investments focused on mitigating cybersecurity risk.

The Group has internal control and risk management systems and tools that allow for constant monitoring and tracking of any action plans and incidents identified in the reporting and review of financial information.

FINANCIAL INFORMATION (ICFR)

Describe the mechanisms comprising the System of Internal Control over Financial Reporting (ICFR) of your company.

F.1 Control environment

Report on at least the following, describing their principal features:

F.1.1. The bodies and/or departments that are responsible for (i) the existence and maintenance of an adequate and effective ICFR; (ii) their implementation; and (iii) their supervision.

Applus+ Group's Internal Control over Financial Reporting (hereinafter, "ICFR") is part of its general internal control system and makes up a group of processes carried out by the Board of Directors, the Audit Committee, the Management and the Group's staff, in order to ensure reasonable safety regarding the reliability of any financial information disclosed to the markets.

The Board of Directors of the Applus+ Group is the Group's senior decision-making body, entrusting all regular management to the executive bodies and management team and, consequently, concentrating its activity on the supervision function. The Board of Directors is ultimately responsible for the existence and maintenance of an adequate and effective ICFR, and has delegated this task to the Audit Committee. ICFR supervision is implemented through activities of this kind, carried out by the Internal Audit function.

The Group's internal control model for financial reporting has three distinct areas of control: (i) self-evaluation of the persons in charge of all processes and critical controls, (ii) review of the financial evaluation process by the Financial Managements in each Division and by the Corporate Financial Management in the consolidation process, and (iii) evaluation of the efficiency and efficacy of controls and risk identification by the Internal Audit Management.

The Group's Corporate Financial Management, through the Risk & Internal Control Department, carries out the following tasks in relation to the ICFR:

- To review and approve any accounting Policies and Manuals incorporated into the Group's Financial Management Intranet.
- To establish and disseminate the necessary procedures to ensure adequate internal control of financial reporting.
- To establish and maintain internal controls on financial information, to ensure its reliability, and to guarantee that all reports, transactions or other relevant events are communicated in due form and time.
- To establish and maintain internal tax controls, in order to ensure the timely filing of accurate and complete tax statements.

During 2021 as in previous years an Internal Control Model over Financial Reporting has been implemented, in order to guarantee its reliability.

F.1.2. State whether the following are present, especially if they relate to the creation of financial information:

 Departments and/or mechanisms in charge of: (i) design and review of corporate structure; (ii) clear definition of lines of responsibility and authority with an adequate distribution of tasks and functions; and (iii) assurance that adequate procedures exist for proper communication throughout the entity.

The Board of Directors of Applus+, through its Chief Executive Officer, entrusts the Corporate Financial Management with designing and reviewing the organizational structure involved in financial reporting. The Management outlines the structure and how responsibilities are distributed, as well as their design procedure, review, update and

dissemination; this procedure is documented in flowcharts (organizational structure) and the process model and associated regulations, as part of the Applus+ Group's policy catalogue.

Furthermore, lines of authority and responsibility have been defined in all relevant processes by formalising the Model for Delegation of Authority and Responsibility, which includes any critical decisions of the Group that may eventually affect financial reporting.

As regards the financial reporting preparation process, instructions are issued by the Corporate Financial Management establishing specific guidelines and responsibilities for each closing of the accounts (procedures explaining the main tasks, both in the corporation and in each subsidiary company), to include the IFRS Internal Manual.

 Code of conduct, body that approves it, degree of dissemination and instruction, principles and values included (indicating whether the recording of transactions and the preparation of financial information are specifically mentioned), body in charge of reviewing breaches and of proposing corrective actions and penalties.

The Applus+ Group has a Code of Ethics and Anti-Corruption Policy in place, approved by the Board of Directors, which specifically refer to the registration of transactions and financial reporting, as well as compliance with the law and the Group's accounting policies, amongst others. Likewise, there are specific internal policies for the accounting and finance functions. Furthermore, all employees have been specifically trained and are obliged to explicitly accept both rules each year.

The main values and principles gathered in the Code of Ethics are integrity, transparency, responsibility, impartiality and independence. Furthermore, the Code of Ethics includes a commitment to strictly fulfil the obligation to provide reliable financial information, prepared under applicable regulations, and the responsibility of the company's employees and executives to ensure that this is so, both by adequately carrying out their tasks and by informing the governance bodies of any circumstance that could affect this commitment.

The body in charge of analysing any potential non-compliance, proposing corrective action, is the ESG Committee of the Applus+ Group, along with the Group's Compliance Management and in particular, it corresponds to the Audit Committee, in accordance with article 39.7 b) iv of the Regulations of the Board of Directors to "To analyse financial and accounting irregularities —with potentially serious implications— that may have been reported by employees through the mechanism provided in section 41.6.viii".

 Whistleblower channel, that allows notifications to the audit committee of irregularities of a financial and accounting nature, in addition to potential breaches of the code of conduct and unlawful activities undertaken in the organization, reporting, as the case may be, if this is of a confidential nature.

The ESG Committee is responsible (article 41.6 viii of the Regulations of the Board of Directors) to "establish and to monitor a mechanism whereby employees can report, confidentially, and if necessary, anonymously, any irregularities they detect in the Company with potentially serious implications" which is central in the Applus+ Compliance system. The Applus+ Group has put in place, and encourages the use of, a whistleblowing channel allowing the reporting of potential infringements of the Code of Ethics and other irregular activities.

All communications are confidential and compliance with data protection laws is also ensured. There is a unique whistleblowing channel for the entire Group and is available on the corporate website.

 Training and periodic refresher programs for staff involved in the preparation and revision of financial information, as well as assessment of the ICFR (Internal Control System for Financial Information), that covers at least accounting rules, audits, internal control and risk management. As regards the training and periodic refreshment courses in matters that may affect the reporting and publication of financial information, Applus+ believes that development and continuous training of its employees and executives is essential. Furthermore, the Group arranges specific training sessions on issues related to the ICFR for the staff involved in drawing up the Group's financial statements. To do this, constant communications with external auditors and other independent third professionals will guarantee this continuous training, amongst other issues.

Any training needs detected and provided at corporate level are extended to all other financial managers in the Group's subsidiaries, through face-to-face training or through online training held each year; training will be a key point of the agenda, including individualised sessions if deemed appropriate.

Additionally, there has been specific training provided on the relevant policies to ensure the knowledge of their content by all responsible employees who are part of the financial information preparation and review.

F.2 Assessment of financial information risks

Report on at least the following:

F.2.1. The main characteristics of the risk identification process, including error and fraud risk, as regards:

· Whether the process exists and is documented.

The Applus+ Group has an Internal Control over the Financial Reporting (ICFR) Policy in place that establishes the basic principles and general action framework to manage the internal control over the financial information reported, which contains:

- The criteria established to define which companies within the Group are relevant for the purposes of the Group's SCIIF Model
- Methodology to identify new risks and to periodically evaluate existing ones, establishing common and homogenous parameters for the entire Group.
- Maintenance of an internal control system to monitor, assess and improve the control
 measures applied to existing risks.

In 2019 the ICFR model was expanded to companies which, both comply with the materiality level and also to those companies which do not, to include the implementation of the criminal risk management and crime prevention for those areas with crimes applicable globally and not only in Spain.

Whether the process covers all of the objectives of financial information, (existence
and occurrence; completeness; valuation; delivery; breakdown and comparability;
and rights and obligations), whether it is updated and with what frequency.

The methodology used to manage risks is COSO (Committee of Sponsoring Organizations for the Treadway Commission). The criteria used to identify the most relevant processes include quantitative criteria (materiality) and qualitative criteria (business risk, visibility to third parties and reputational risks). Any risks identified are prioritised by professional opinion based on a series of variables (process level of automation, whether the process is known and/or it is necessary to use judgments and estimates). In addition, risks of fraud are implicitly identified insofar as they may generate material errors in financial information.

As a result of applying its Internal Control over the Financial Reporting (ICFR) Policy, the Group has developed risk matrixes and controls for its relevant business processes, specifically for each subsidiary of significant relevance in the consolidated Group. Each risk identified in the process to draw up consolidated financial statements is associated to the processes and different financial lines deemed significant (either by contribution to the consolidated financial statements or due to other more qualitative factors) and to the Group's companies under the ICFR scope.

Each risk identified in those frameworks has assigned all objectives and assertions of the financial information: existence and occurrence; completeness; assessment; presentation, breakdown and comparability, and rights and obligations). Once the applicable ICFR scope in the Applus+ Group is defined, based on identified risk frameworks, control activities have been designed to cover such risks.

Any risks identified as relevant are reviewed at least once a year, during the certification and evaluation process conducted by the managers on the effectiveness of the company's internal control. The object of this review is to update any risks to changing circumstances where the Group operates, particularly if there are changes in the organisation, IT systems, regulations, products or the market scenario.

The model scope is defined in the Internal Control over the Financial Reporting (ICFR) policy, based on the materiality level of revenues and fixed assets applied in each legal entity. Currently the model is developed for subsidiary companies which in aggregate represent more than 80% of the Group Sales.

 The existence of a process for identifying the scope of consolidation, taking into account, among other factors, the possible existence of complex company structures, shell companies, or special purpose entities.

As regards the process of identifying the scope of consolidation, the Group considers that the financial closing and consolidation process is one of the relevant processes that may affect financial reporting. This is why Applus+ has considered all the risks inherent to said processes, ensuring adequate configuration and execution, as well as an accurate identification of the scope of consolidation. As part of this process, the Consolidation Department, which reports to the Corporate Financial Management, periodically reviews any changes in the Group's structure along with the Legal Department.

 Whether the process takes into account, the effects of other types of risk (operational, technological, financial, legal, tax, reputational, environmental, etc.) to the extent that they affect the financial statements.

The process to identify a risk of errors in financial reporting takes into account the effects of other types of risk, which are evaluated and managed by various corporate units.

The governing body within the company that supervises the process.

The process to identify any risk of error in financial reporting is completed and documented by the Risk & Internal Control Management. Internal Audit Management reviews the process, as part of the supervisory role ultimately carried out by the Audit Committee.

F.3 Control activities

Report on whether the company has at least the following, describing their main characteristics:

F.3.1. Review and authorization procedures for financial information published by the stock markets and a description of the ICFR, indicating those responsible, as well as documentation describing the flow of activity and controls (including those relating to the risk of fraud) of the various types of transactions which may materially affect the financial statements, including financial closing procedures and the specific review of judgements, estimates, valuations and relevant forecasts.

The Corporate Consolidation Management, which reports to the Corporate Financial Management, is in charge of executing procedures to review and authorise financial information and the ICFR description for disclosure to the stock exchange. Furthermore, the task of reporting financial data on a monthly, quarterly, six-monthly and annual basis begins with a view and certification by the financial manager of each subsidiary. Tax information is drawn up by the Tax Management, which reports to the Corporate Financial Management.

Any ICFR documentation, evidence of its execution and supervision, as well as significant

250

events and action plans, are managed through the Group's internal control and risk management system.

In this sense, during the financial year 2021 the Group has implemented a new software (SAP GRC) that replaces the previous one (Applus+ GRC). This tool provides the following advantages in ICFR terms:

- Centralisation of all documentation and ICFR model management of the Group, in a homogenous manner.
- Integration of internal control over financial information in all business and corporate processes, allowing each organisational unit responsible to periodically evaluate its controls, providing the necessary evidence and executing the ICFR internal certification process each year.
- Use of automatic workflows to manage control activities and to launch action plans.
- Provision of a back-up tool for the ICFR supervision and testing process by the Internal Audit Department and external auditors.
- Procurement and support for the information required for ICFR reporting.
- Integrated internal control over the preparation and presentations of tax returns in those countries where it operates, using automatic workflows to manage tax control activities.
- Integrate the design of internal control and implementation of all controls related to compliance and more specifically corruption.

As regards activities and controls directly related to transactions that may have a material effect on financial statements, Applus+ has implemented a control description to mitigate the risk of any material error in information reported to the markets. Furthermore, in each subsidiary, the following information is available for each control activity belonging to significant processes:

- Description of the process and sub process.
- Description of financial reporting risks associated to various processes, sub processes and control objectives.
- Definition of control activities designed to mitigate any identified risks.
- Description of the managers of all processes, risks and control activities.
- Classification of control activities implemented or pending implementation (action plans).
- Level of automation of control activities (manual or automatic).
- Classification of each control activity by nature (preventive or detective).
- Definition of control execution frequency.
- Definition of evaluation frequency by the Risk & Internal Control Department.
- Definition of any evidence required.

The new software implementation also allows the automation of the control testing directly against the ERP system transactional records, which provides a significantly higher level of comfort and control.

Each financial closing process carried out in the subsidiaries is treated as a single process; the same applies to all financial closing activities carried out at corporate level with the consolidation process and the preparation of annual accounts.

As regards any relevant judgements and estimates, Applus+ indicates in its individual and consolidated annual accounts which areas of uncertainty are estimated that could have a relevant impact on the financial information. These mainly refer to:

- The recoverability of deferred tax assets entered into the accounts.
- An estimate, at each date, of the effects of any tax certificates challenged and the outcome of any tax inspections underway, for the financial years audited.

A specific review of any relevant judgements, estimates, valuations, provisions and forecasts, as well as key calculation hypotheses, with a material impact on consolidated financial statements, is carried out through a continuous supervision by the Group's Corporate Financial Management.

F.3.2. Internal IT control policies and procedures (access security, change controls, their operation, operational continuity, and segregation of duties, among others) which support relevant processes within the company and relate to the creation and publication of financial information.

Some of the controls implemented to mitigate or manage risks of error in financial reporting are related to the most relevant computer applications, such as controls on authorised user access or the integrity of information transferred amongst applications and an adequate management of the Company's digital certificate for the filing of tax statements.

The Applus+ Group uses SAP-BPC as a common data system to adequately register and control its operations; consequently, its adequate operation is essential and of particular interest to the Group. The reporting tool is the same for all legal entities of the Group without exceptions.

There are two control levels in the process to identify the risk of material errors in financial reporting:

- In each subsidiary, there are controls to ensure that all information reported through SAP-BPC is consistent with local reporting systems, if different.
- At corporate level there are automatic and manual controls, conducted on the main application, in order to generate SAP-BPC financial information and guarantee that the consolidation process is adequately completed.

For those systems and applications identified (used at corporate level to draw up consolidated financial information), the Corporate Systems Management has established a series of policies aimed at ensuring their adequate operation. In particular, there are documented policies on the following:

- Classification of information.
- System access management.
- Data leak prevention.
- Identification and maintenance of critical applications.
- Back-up copies.
- Restrictions on the use of Internet and e-mail.
- Data encryption.
- Third party agreements.
- Protection of equipment.
- Legal compliance.
- · Communication of incidents.
- Licences and infrastructure use.

In terms of operative continuity, the Group has improved its already high level of availability in its central data systems, hosted in a main datacentre in Madrid, with a Disaster Recovery or DR solution. This DR is hosted in the Microsoft cloud (Azure Cloud) and is connected to the central database through a dedicated high speed cable. In the unlikely event of force majeure (fire, flood, earthquake, etc.) leaving the main datacentre inoperative, in a matter of hours the DR could restore the most critical business applications.

Additionally, a series of supplementary key controls are carried out by consolidation team members to strengthen the reliability of data systems used in financial reporting.

The Group has an improvement and monitoring plan in its data systems as regards the segregation of duties; it also incorporates into the Audit Plan the supervision of said internal control systems related to the segregation of functions in financial information systems.

F.3.3. Internal control policies and procedures intended to guide the management of subcontracted activities and those of third parties, as well as those aspects of assessment, calculation or evaluation entrusted to independent experts, which may materially affect financial statements.

Each year, the Applus+ Group checks which activities executed by third parties are relevant for the financial reporting process.

Over 2021, some Applus+ Group companies have continued to outsource certain activities

related to economic, staff and back office management. As a result, certain control and risk management devices have been established with each supplier to guarantee the integrity and accuracy of any financial information reported, such as:

- A specific person in charge in the Corporate Financial Management.
- Quantifiable indicators to evaluate the quality and integrity of the service received.
- The Accounting Department has defined monthly review tasks for the financial statements of subsidiaries operating in Spain.
- An assurance report is obtained regarding service organizations that with a potential impact on the Group's internal control system over financial reporting

Furthermore, in the rest of the Group, outsourced activities are very circumstantial or highly centralised in very specific processes or sub processes, such as the issue of payrolls. These facts are considered a risk in the ICFR model of these companies, for which there is an efficient and effective associated control.

Additionally, when the Applus+ Group considers it necessary to get independent experts involved, upon recruiting these services, it demands in their selection criteria the absence of any doubt on their competence, qualifications, reputation and impartiality.

F.4 Information and communication

State whether the company has at least the following, describing their main characteristics:

F.4.1. A specifically assigned function for defining and updating accounting policies (accounting policy area or department) and resolving doubts or conflicts arising from their interpretation, maintaining a free flow of information to those responsible for operations in the organization, as well as an up-to-date accounting policy manual distributed to the business units through which the company operates.

The Corporate Financial Management, through the Risk & Internal Control area, is in charge of defining, updating and disseminating the accounting policies of the Applus+ Group for reporting consolidated financial data under IFRS-EU regulations (consequently including the information to be reported by each subsidiary). The Applus+ Group has an accounting policy manual (IFRS Internal Manual) for the issue of financial statements under IFRS-EU, which is drawn up by the Corporate Financial Management, is periodically updated (at least once a year) and is published on the Intranet of the Corporate Financial Management, which all staff may access, involved in the drafting and review of financial information.

The functions of the Corporate Financial Management, through the Consolidation Department, include replying to any accounting consultations that may be raised by the various business units or other corporate managements of the Applus+ Group. Furthermore, at meetings held by corporate, division and subsidiary financial managers, training is arranged on the interpretation and application of any new issues.

Additionally, the Group's external auditor, both in relation to consolidated statements and the most representative subsidiaries in consolidated terms, demands that the financial data reported by these subsidiaries follow the principles enshrined in the Group's Accounting Manual, i.e. IFRS-EU, both in the annual audit and the limited six-monthly audit.

F.4.2. Measures for capturing and preparing financial information with consistent formats for application and use by all of the units of the entity or the group, and which contain the main financial statements and notes, as well as detailed information regarding ICFR.

The Applus+ Group has various integrated platforms, both for the accounting registrations of transactions and for financial reporting. The issue of regulated financial data, as well as individual financial statements, is centralised in the Finance Management, in order to guarantee homogeneity. In addition, the integrity and reliability of these data systems is validated through the general controls indicated in section F.3.2.

Each month, reporting is received from each company through the SAP-BPC reporting and consolidation tool, gathering all the necessary information to prepare the Group's consolidated financial data (abridged intermediate financial statements and consolidated annual accounts).

This reporting guarantees data homogeneity with the following characteristics:

- Homogenous and consistent for all countries and business activities.
- Based on the Applus+ Group's instructions and accounting manual, of which there is just one for all of the Group's companies.
- Incorporation of all applicable legal, tax, commercial and regulatory requirements.
- SAP-BPC incorporates automatic validation controls between the reported financial statements and any additional details requested.

F.5 Supervision of system performance

Describe at least the following:

F.5.1. The activities of the audit committee in overseeing ICFR as well as whether there is an internal audit function that has among its mandates support of the committee and the task of supervising the internal control system, including ICFR. Additionally, describe the scope of ICFR assessment made during the year and the procedure through which the person responsible prepares the assessment reports on its results, whether the company has an action plan describing possible corrective measures, and whether its impact on financial reporting is considered.

The Group's Audit Committee has carried out the following activities during the 2021 financial year in relation to ICFR:

- Supervision of the level of implementation of the ICFR model of the Applus+ Group and of any risk matrixes and ICFR controls.
- Supervision of the outcome of any ICFR reviews completed by the Internal Audit Department and external auditor.
- Review of any ICFR information included in the Annual Corporate Governance Report.

The Audit Committee uses the Internal Audit function to supervise adequate operation of the internal control system, including the ICFR, and ensures its impartiality. This function completes independent and periodic reviews on the design and operation of the internal control system, locating any weaknesses and making recommendations for improvement through the issue of various reports, forwarded to the Corporate Financial Management and Audit Committee, as part of the meetings that are periodically held. These reports are submitted to the Audit Committee, along with any action plans adopted by the managers and Corporate Financial Management for mitigation.

Any potential internal control weaknesses identified in reviews conducted by the Internal Audit function are catalogued by criticality as high, medium or low, based on the impact they may have if they materialise. These weaknesses are managed through the GRC application, a manager is assigned and a timeframe to carry out an action plan, and their resolution is checked by the Internal Audit function.

As a result of the ICFR evaluation activities carried out by the Internal Audit function in 2021, submitted to the Audit Committee, no material weaknesses have been identified that could have a relevant impact on the financial information of the Applus+ Group in the 2021 financial year; the necessary corrective actions have been established to handle any future weaknesses.

Furthermore, the external auditor, as indicated in section F.7.1, issues an annual report on the procedures agreed regarding the ICFR description made by Applus+, which has not pointed out any issues worthy of mention.

F.5.2. If there is a procedure by which the account auditor (in accordance with the contents of the *Normas Técnicas de Auditoría (NTA)* - "Auditing Standards"), internal auditor and other experts may communicate with senior management and the audit committee or senior managers of the company regarding significant weakness in internal control identified during the review of the annual accounts or any others they have been assigned. Additionally, state whether an action plan is available for correcting or mitigating any weaknesses found.

The procedure to discuss any improvements and relevant internal control weaknesses identified

is generally based on periodic meetings held by the Audit Committee with the following parties:

- Group's Chief Financial Officer, as the senior manager in charge of financial reporting, explains how the main financial metrics have performed in the period under discussion, including any transactions and the most relevant impacts arising during the period, and communication of the main estimates made.
- The Group's Internal Audit Manager, as the person in charge of supervising the internal control model, ICFR included, reports on the state of any possible weaknesses identified and on the outcome of his reviews.
- The external auditor shares the auditing or limited review schedule to be carried out during the ongoing year, in relation to the annual accounts, and reports any internal control weaknesses or any other issue that it considers should be notified to the Audit Committee

The Applus+ Group, both from the Corporate Finance Department and Audit Committee, represented by the Internal Audit function, encourages total collaboration and coordination with the Group's external auditors. As a result, it has direct contact with the Management, holding periodic meetings both to obtain the necessary information for its work and to report any control weaknesses identified further to its audit.

The action plans related to weaknesses detected in 2021 have been instrumented as recommendations, following the prioritisation circuit, allocation of a manager and supervision described in section F.5.1.

F.6 Other relevant information

There is no other relevant information worth noting with respect to the Internal Control System for Financial Reporting.

With the aim of reinforcing the Group's Internal Control and in line with the efforts related to the Crime Prevention model implementation, in 2019 a new project to identify fraud using advanced data analysis techniques combined with artificial intelligence was started, which is already implemented in Spain and will be deployed to other relevant geographies in the coming years. This project allows detection of anomalous transactions that may be potentially fraudulent, and reveals improvement opportunities in the processes and controls to prevent them in the future.

This is a continuous improvement opportunity for ICFR, as lessons learned from anomalies detected will be included in the control model.

F.7 External auditor's report

Report from:

F.7.1. If the ICFR information submitted to the markets has been subject to review by the external auditor, in which case the entity shall include its report as an attachment. If not, reasons why should be given.

The Applus+ Group has submitted its ICFR information, disclosed to the markets in 2021, to an external audit. Consequently, the scope of the auditing procedures has been completed according to Circular E14/2013, of 19 July, of the Spanish Institute of Chartered Accountants (*Instituto de Censores Jurados de Cuentas de España*), which publishes the Action Guide and standard auditor's report regarding information related to the internal control system over financial reporting (ICFR) of listed companies in Spain.

G DEGREE OF COMPLIANCE WITH THE COPRORATE GOVERNANCE RECOMMENDATIONS

Specify the company's degree of compliance with recommendations of the Good Governance Code for listed companies.

In the event that a recommendation is not followed or only partially followed, a detailed explanation of the reasons must be included so that shareholders, investors and the market in general have enough information to assess the company's conduct. General explanations are not acceptable.

 That the Articles of Association of listed companies do not limit the maximum number of votes that may be cast by one shareholder or contain other restrictions that hinder the takeover of control of the company through the acquisition of shares on the market.

Complies X Explain

- 2. That when the listed company is controlled by another entity in the meaning of Article 42 of the Commercial Code, whether listed or not, and has, directly or through its subsidiaries, business relations with said entity or any of its subsidiaries (other than the listed company) or carries out activities related to those of any of them it should make accurate public disclosures on:
 - a) The respective areas of activity and possible business relationships between the listed company or its subsidiaries and the parent company or its subsidiaries.
 - b) The mechanisms in place to resolve any conflicts of interest that may arise.

Complies Complies Partially Explain Not Applicable X

- 3. That, during the course of the ordinary General Shareholders' Meeting, complementary to the distribution of a written Annual Corporate Governance Report, the chairman of the Board of Directors makes a detailed oral report to the shareholders regarding the most material aspects of corporate governance of the company, and in particular:
 - a) Changes that have occurred since the last General Shareholders' Meeting.
 - b) Specific reasons why the company did not follow one or more of the recommendations of the Code of Corporate Governance and, if so, the alternative rules that were followed instead.

Complies X Complies Partially Explain

4. That the company should define and promote a policy on communication and contact with shareholders and institutional investors, within the framework of their involvement in the company, and with proxy advisors, that complies in all aspects with rules against market abuse and gives equal treatment to similarly situated shareholders.

And that the company should publish this policy on its website, including information on how it has been put into practice and identifying the contact persons or those responsible for implementing it.

And that, without prejudice to the legal obligations regarding dissemination of inside information and other types of regulated information, the company should also have a general policy regarding the communication of economic-financial, non-financial and corporate information through such channels as it may consider appropriate (communication media, social networks or other channels) that helps to maximise the dissemination and quality of information available to the market, investors and other stakeholders.

Complies X Complies Partially Explain

5. That the Board of Directors should not propose to the General Shareholders' Meeting any proposal for delegation of powers allowing the issuance of shares or convertible securities without pre-emptive rights in an amount exceeding 20% of equity at the time of delegation.

And that whenever the Board of Directors approves any issuance of shares or convertible securities without pre-emptive rights the company immediately publishes reports on its web page regarding said exclusions as referenced in applicable company law.

		Complies X	Complies Partially	Explain		
6.	That listed companies which draft reports listed below, whether under a legal obligation or voluntarily, publish them on their web page with sufficient time before the General Shareholders' Meeting, even when their publication is not mandatory:					
	a)	Report regarding the au	ditor's independence.			
	b)	Reports regarding the v committee.	vorkings of the audit cor	nmittee and the appointmen	ts and remuneration	
	c)	Report by the audit com	mittee regarding related-	party transactions		
	d)	Report on the corporate	social responsibility poli	icy.		
		Complies X	Complies Partially	Explain		
7.	That the o		ime, through its web pag	e, the proceedings of the G	eneral Shareholders	
	And that the company should have mechanisms in place allowing the delegation and casting of votes by means of data transmission and even, in the case of large-caps and to the extent that it is proportionate attendance and active participation in the General Meeting to be conducted by such remote means.					
		Comp	olies X Complies Partia	ally Explain		
8.	That the audit committee should ensure that the financial statements submitted to the General Shareholders Meeting are prepared in accordance with accounting regulations. And that in cases in which the auditor has included a qualification or reservation in its audit report, the chairman of the audit committee should clearly explain to the general meeting the opinion of the audit committee on its content and scope, making a summary of this opinion available to shareholders at the time when the meeting is called, alongside the other Board proposals and reports.					
		Complies x	Complies Partially	Explain		
9.	of share			he requirements and proced Shareholders' Meetings, and		
		such requirements and priminatory fashion.	rocedures promote attend	dance and the exercise of sh	areholder rights in a	
		Complies X	Complies Partially	Explain		

10. That when a verified shareholder has exercised his right to make additions to the agenda or to make new proposals to it with sufficient time in advance of the General Shareholders' Meeting, the company:

- a) Immediately distributes the additions and new proposals.
- b) Publishes the attendance card credential or proxy form or form for distance voting with the changes such that the new agenda items and alternative proposals may be voted upon under the same terms and conditions as those proposals made by the Board of Directors.
- c) Submits all of these items on the agenda or alternative proposals to a vote and applies the same voting rules to them as are applied to those drafted by the Board of Directors including, particularly, assumptions or default positions regarding votes for or against.
- d) That after the General Shareholders' Meeting, a breakdown of the results of said additions or alternative proposals is communicated.

Complies Complies Partially Explain Not Applicable X

11. That, in the event the company intends to pay for attendance at the General Shareholders' Meeting, it establish

in advance a general policy of long-term effect regarding such payments.

Complies Complies Partially Explain Not Applicable X

12. That the Board of Directors completes its duties with a unity of purpose and independence, treating all similarly situated shareholders equally and that it is guided by the best interests of the company, which is understood to mean the pursuit of a profitable and sustainable business in the long term, and the promotion of continuity and maximization of the economic value of the business.

And that in pursuit of the company's interest, in addition to complying with applicable law and rules and in engaging in conduct based on good faith, ethics and a respect for commonly accepted best practices, it seeks to reconcile its own company interests, when appropriate, with the interests of its employees, suppliers, clients and other stakeholders, as well as the impact of its corporate activities on the communities in which it operates and in the environment.

Complies X Complies Partially Explain

13. That the Board of Directors is of an adequate size to perform its duties effectively and collegially, and that its optimum size is between five and fifteen members.

Complies X Explain

- 14. That the Board of Directors should approve a policy aimed at favouring an appropriate composition of the Board and that:
 - a) Is concrete and verifiable;
 - b) Ensures that proposals for appointment or re-election are based upon a prior analysis of the skills required by the Board of Directors; and
 - c) Favours diversity of knowledge, experience, age and gender. For these purposes, it is considered that the measures that encourage the company to have a significant number of female senior executives favour gender diversity.

That the result of the prior analysis of the skills required by the Board of Directors be contained in the supporting report from the nomination committee published upon calling the General Shareholders' Meeting to which the ratification, appointment or re-election of each director is submitted.

The nomination committee will annually verify compliance with this policy and explain its findings in the annual corporate governance report.

Complies X Complies Partially Explain

15. That proprietary and independent directors constitute a substantial majority of the Board of Directors and that the number of executive directors is kept at a minimum, taking into account the complexity of the corporate group and the percentage of equity participation of executive directors.

And that the number of female directors should represent at least 40% of the members of the Board of Directors before the end of 2022 and thereafter, and no less 30% prior to that date.

Complies X Complies Partially Explain

16. That the percentage of proprietary directors divided by the number of non-executive directors is no greater than the proportion of the equity interest in the company represented by said proprietary directors and the remaining share capital.

This criterion may be relaxed:

- a) In large-cap companies where very few shareholdings are legally considered significant.
- In the case of companies where a plurality of shareholders is represented on the Board of Directors without ties among them.

Complies X Explain

17. That the number of independent directors represents at least half of the total number of directors.

Nonetheless, when the company does not have a high level of market capitalization or in the event that it is a high cap company with one shareholder or a group acting in a coordinated fashion who together control more than 30% of the company's equity, the number of independent directors represents at least one third of the total number of directors.

Complies X Explain

- 18. That companies publish and update the following information regarding directors on the company website:
 - a) Professional profile and biography.
 - b) Any other Boards to which the director belongs, regardless of whether the companies are listed, as well as any other remunerated activities engaged in, regardless of its nature.
 - c) Category of director, indicating, in the case of individuals who represent significant shareholders, the shareholder that they represent or to which they are connected.
 - d) The date of their first appointment as a director of the company's Board of Directors, and any subsequent re-election.

Explain

e) Company shares and options they own.

Complies X Complies Partially

19. That the Annual Corporate Governance Report, after verification by the appointments committee, explains the reasons for the appointment of proprietary directors at the proposal of the shareholders whose equity interest is less than 3%. It should also explain, where applicable, why formal requests from shareholders for membership on the Board meeting were not honored, when their equity interest is equal to or exceeds that of other shareholders whose proposal for proprietary directors was honored.

Complies Complies Partially Explain Not Applicable X

20. That proprietary directors representing significant shareholders must resign from the Board if the shareholder they represent disposes of its entire equity interest. They should also resign, in a proportional fashion, in the event that said shareholder reduces its percentage interest to a level that requires a decrease in the number of proprietary directors representing this shareholder.

Complies Complies Partially Explain Not applicable X

21. That the Board of Directors may not propose the dismissal of any independent director before the completion of the director's term provided for in the Articles of Association unless the Board of Directors finds just cause and a prior report has been prepared by the appointments committee. Specifically, just cause is considered to exist if the director takes on new duties or commits to new obligations that would interfere with his or her ability to dedicate the time necessary for attention to the duties attendant to his post as a director, fails to complete the tasks inherent to his or her post, or enters into any of the circumstances which would cause the loss of independent status in accordance with applicable law.

The dismissal of independent directors may also be proposed as a result of a public share offer, joint venture or similar transaction entailing a change in the shareholder structure of the company, provided that such changes in the structure of the Board are the result of the proportionate representation criteria provided for in Recommendation 16.

Complies X Explain

22. That companies establish rules requiring that directors inform the Board of Directors and, where appropriate, resign from their posts, when circumstances arise which may damage the company's standing and reputation. Specifically, directors must be required to report any criminal acts with which they are charged, as well as the consequent legal proceedings.

And that, if the Board is informed or becomes aware in any other manner of any of the circumstances mentioned above, it must investigate the case as quickly as possible and, depending on the specific circumstances, decide, based on a report from the nomination and remuneration committee, whether or not any measure must be adopted, such as the opening of an internal investigation, asking the director to resign or proposing that he or she be dismissed. And that these events must be reported in the annual corporate governance report, unless there are any special reasons not to do so, which must also be noted in the minutes. This without prejudice to the information that the company must disseminate, if appropriate, at the time when the corresponding measures are implemented.

Complies X Complies Partially Explain

23. That all directors clearly express their opposition when they consider any proposal submitted to the Board of Directors to be against the company's interests. This particularly applies to independent directors and directors who are unaffected by a potential conflict of interest if the decision could be detrimental to any shareholders not represented on the Board of Directors.

Furthermore, when the Board of Directors makes significant or repeated decisions about which the director has serious reservations, the director should draw the appropriate conclusions and, in the event the director decides to resign, explain the reasons for this decision in the letter referred to in the next recommendation.

This recommendation also applies in the case of the secretary of the Board of Directors, despite not being a director.

Complies X Complies Partially Explanation Not Applicable

24. That whenever, due to resignation or resolution of the General Shareholders' Meeting, a director leaves before the completion of his or her term of office, the director should explain the reasons for this decision, or in the case of non-executive directors, their opinion of the reasons for cessation, in a letter addressed to all members of the Board of Directors.

And that, without prejudice to all this being reported in the annual corporate governance report, insofar as it is relevant to investors, the company must publish the cessation as quickly as possible, adequately referring to the reasons or circumstances adduced by the director.

Complies X Complies Partially Explain Not Applicable

25. That the appointments committee ensures that non-executive directors have sufficient time in order to properly perform their duties.

And that the Board rules establish the maximum number of company Boards on which directors may sit.

Complies Complies Partially X Explain

While the company does not establish specific rules on the number of Board of Directors of which its directors can be part, the Appointments and Compensations Committee ensures that the non-executive directors have the appropriate time for the fulfilment of their functions. The result of the evaluation described above in section C.1.17 of this report confirmed the appreciation of the members of the Board on such dedication, and specifically on Chairman's availability, time and attention.

26. That the Board of Directors meet frequently enough so that it may effectively perform its duties, at least eight times per year, following a schedule of dates and agenda established at the beginning of the year and allowing each director individually to propose items do not originally appear on the agenda.

Complies X Complies Partially Explain

27. That director absences only occur when absolutely necessary and are quantified in the Annual Corporate Governance Report. And when absences occur, that the director appoints a proxy with instructions.

Complies Complies Partially x Explain

One of the Board Members was unable to attend an extraordinary meeting of the Board for unforeseen reasons and it was not possible for him to appoint a proxy with instructions.

28.	28. That when directors or the secretary express concern regarding a proposal or, in the case of directors, regarding the direction in which the company is headed and said concerns are not resolved by the Board of Directors, such concerns should be included in the minutes, upon a request from the protesting party.							
	Complies X	Complies Partia	lly	Explain	Not Applicable			
29.				directors to obtain appropriate advice in order to properly warrant, external advice at the company's expense.				
		Complies X	Complies Partia	lly	Explain			
30.	That, without regar				complete their duties, companies make			
		Complies X	Explain	Not Applicable

	resolution before tl	he Board of Dire	ctors which do i	not appear on th	bring urgent matters for decision or e agenda, prior express agreement of a by duly recorded in the minutes.			
		Complies X	Complies Partia	lly	Explain			
32.	That directors shall shareholders, inves				nership and of the opinions of significant group.			
		Complies X	Complies Partia	lly	Explain			
33.	33. That the chairman, as the person responsible for the efficient workings of the Board of Directors, in addition to carrying out his duties required by law and the Articles of Association, should prepare and submit to the Board of Directors a schedule of dates and matters to be considered; organize and coordinate the periodic evaluation of the Board as well as, if applicable, the chief executive of the company, should be responsible for leading the Board and the effectiveness of its work; ensuring that sufficient time is devoted to considering strategic issues, and approve and supervise refresher courses for each director when circumstances so dictate.							
		Complies X	Complies Partia	lly	Explain			
34.	4. That when there is a coordinating director, the Articles of Association or the Board rules should confer upon him the following competencies in addition to those conferred by law: chairman of the Board of Directors in the absence of the chairman and deputy chairmen, should there be any; reflect the concerns of non-executive directors; liaise with investors and shareholders in order to understand their points of view and respond to their concerns, in particular as those concerns relate to corporate governance of the company; and coordinate a succession plan for the chairman.							
	Complies	Complies Partia	lly	Explain	Not Applicable X			
35.		oard of Director	rs take into acco	ount the recomn	tention to ensure that the activities and nendations regarding good governance e to the company.			
		Comp	lies X Explair	1				
36.	That the Board of D to correct any defic				adopt, where appropriate, an action plan			
	a) The quality and efficiency of the Board of Directors' work.							

b) The workings and composition of its committees.

c) Diversity of membership and competence of the Board of Directors.

- d) Performance of the chairman of the Board of Directors and the chief executive officer of the company.
- e) Performance and input of each director, paying special attention to those in charge of the various Board committees.

In order to perform its evaluation of the various committees, the Board of Directors will take a report from the committees themselves as a starting point and for the evaluation of the Board, a report from the appointments committee.

Every three years, the Board of Directors will rely upon the assistance of an external advisor for its evaluation, whose independence shall be verified by the appointments committee.

Business relationships between the external adviser or any member of the adviser's group and the company or any company within its group shall be specified in the Annual Corporate Governance Report.

The process and the areas evaluated shall be described in the Annual Corporate Governance Report.

Complies X Complies Partially Explain

The company complies with the totality of this recommendation, with the exeption of the assistance by external advisor, which the board has for the time being not introduced, in view of the improvements developed in the evaluation procedure and the results of the same.

37. That if there is an executive committee, the proportion of each different director category must be similar to that of the Board itself, and its secretary must be the secretary of the Board.

Complies Complies Partially Explain Not Applicable X

38. That the Board of Directors must always be aware of the matters discussed and decisions taken by the executive committee and that all members of the Board of Directors receive a copy of the minutes of meetings of the executive committee.

Complies Complies Partially Explain Not Applicable X

39. That the members of the audit committee, in particular its chairman, be appointed in consideration of their knowledge and experience in accountancy, audit and risk management issues, both financial and non-financial.

Complies X Complies Partially Explain

40. That under the supervision of the audit committee, there must be a unit in charge of the internal audit function, which ensures that information and internal control systems operate correctly, and which reports to the non-executive chairman of the Board or of the audit committee.

Complies X Complies Partially Explain

41. That the person in charge of the unit performing the internal audit function should present an annual work plan to the audit committee, for approval by that committee or by the Board, reporting directly on its execution, including any incidents or limitations of scope, the results and monitoring of its recommendations, and present an activity report at the end of each year.

Complies X Complies Partially Explain Not Applicable

- 42. That in addition to the provisions of applicable law, the audit committee should be responsible for the following:
 - 1. With regard to information systems and internal control:
 - a) Supervising and evaluating the process of preparation and the completeness of the financial and non-financial information, as well as the control and management systems for financial and non-financial risk relating to the company and, if applicable, the group including operational, technological, legal, social, environmental, political and reputational risk, or risk related to corruption reviewing compliance with regulatory requirements, the appropriate delimitation of

the scope of consolidation and the correct application of accounting criteria.

- b) Ensure the independence and effectiveness of the group charged with the internal audit function; propose the selection, appointment, re-election and dismissal of the head of internal audit; draft a budget for this department; approve its goals and work plans, making sure that its activity is focused primarily on material risks to the company (including reputational); receive periodic information on its activities; and verify that senior management takes into account the conclusions and recommendations of its reports.
- c) Establishing and supervising a mechanism that allows employees and other persons related to the company, such as directors, shareholders, suppliers, contractors or subcontractors, to report any potentially serious irregularities, especially those of a financial or accounting nature, that they observe in the company or its group. This mechanism must guarantee confidentiality and in any case provide for cases in which the communications can be made anonymously, respecting the rights of the whistleblower and the person reported.
- d) Generally ensuring that internal control policies and systems are effectively applied in practice.
- 2. With regard to the external auditor:
 - In the event that the external auditor resigns, examine the circumstances which caused said resignation.
 - b) Ensure that the remuneration paid to the external auditor for its work does not compromise the quality of the work or the auditor's independence.
 - c) Making sure that the company informs the CNMV of the change of auditor, along with a statement on any differences that arose with the outgoing auditor and, if applicable, the contents thereof.
 - d) Ensure that the external auditor holds an annual meeting with the Board of Directors in plenary session in order to make a report regarding the tasks accomplished and regarding the development of its accounting and risks faced by the company.
 - e) Ensure that the company and the external auditor comply with applicable rules regarding the rendering of services other than auditing, proportional limits on the auditor's billing, and all other rules regarding the auditor's independence.

Complies X Complies Partially Explain

43. That the audit committee may require the presence of any employee or manager of the company, even without the presence of any other member of management.

Complies X Complies Partially Explain

44. That the audit committee be kept abreast of any corporate and structural changes planned by the company in order to perform an analysis and draft a report beforehand to the Board of Directors regarding economic conditions and accounting implications and, in particular, any exchange ratio involved.

Complies X Complies Partially Explain Not Applicable

- 45. That the risk management and control policy identify, as a minimum:
 - a) The various types of financial and non-financial risks (among those operational, technological, legal, social, environmental, political and reputational) which the company faces, including financial or economic risks, contingent liabilities and other off balance sheet risks.
 - b) A risk control and management model based on different levels, which will include a specialised risk committee when sector regulations so require or the company considers it to be appropriate.
 - c) Fixing of the level of risk the company considers acceptable.
 - d) Means identified in order to minimize identified risks in the event they transpire.

	e)	 e) Internal control and information systems to be used in order to control and manage identified risks, including contingent liabilities and other off balance sheet risks. 				
		Complies X	Complies Partially	Explain

51.	51. That the remuneration committee consults with the chairman and the chief executive of the company, especially in matters relating to executive directors and senior management.					
		Complies X	Complies Partially	Explain		

- 52. That the rules regarding composition and workings of supervision and control committees appear in the rules governing the Board of Directors and that they are consistent with those that apply to mandatory committees in accordance with the recommendations above, including:
 - a) That they are comprised exclusively of non-executive directors, with a majority of them independent.
 - b) That their chairmen be independent directors.
 - c) That the Board of Directors select members of these committees taking into account their knowledge, skills and experience and the duties of each committee; discuss their proposals and reports; and detail their activities and accomplishments during the first plenary session of the Board of Directors held after the committee's last meeting.
 - d) That the committees be allowed to avail themselves of outside advice when they consider it necessary to perform their duties.
 - e) That their meetings be recorded and the minutes be made available to all directors.

Complies X

Complies Partially

Explain

53. That verification of compliance with the company's policies and rules on environmental, social and corporate governance matters, and with the internal codes of conduct be assigned to one or divided among more than one committee of the Board of Directors, which may be the audit committee, the nomination committee, a specialised committee on sustainability or corporate social responsibility or such other specialised committee as the Board of Directors, in the exercise of its powers of self-organisation, may have decided to create. And that such committee be composed exclusively of non-executive directors, with a majority of these being independent directors, and that the minimum functions indicated in the next recommendation be specifically assigned to it.

Complies x

Complies Partially

Explain

- 54. The minimum functions referred to in the foregoing recommendation are the following:
 - a) Monitoring of compliance with the company's internal codes of conduct and corporate governance rules, also ensuring that the corporate culture is aligned with its purpose and values.
 - b) Monitoring the application of the general policy on communication of economic and financial information, non-financial and corporate information and communication with shareholders and investors, proxy advisors and other stakeholders. The manner in which the entity communicates and handles relations with small and medium-sized shareholders must also be monitored.
 - c) The periodic evaluation and review of the company's corporate governance system, and environmental and social policy, with a view to ensuring that they fulfil their purposes of promoting the interests of society and take account, as appropriate, of the legitimate interests of other stakeholders.
 - d) Supervision of the company's environmental and social practices to ensure that they are in alignment with the established strategy and policy.
 - e) Supervision and evaluation of the way in which relations with the various stakeholders are handled.

Complies Partially

Explain

55. That environmental and social sustainability policies identify and include at least the following:

- a) The principles, commitments, objectives and strategy relating to shareholders, employees, clients, suppliers, social issues, the environment, diversity, tax responsibility, respect for human rights, and the prevention of corruption and other unlawful conduct
- b) Means or systems for monitoring compliance with these policies, their associated risks, and management.
- c) Mechanisms for supervising non-financial risk, including that relating to ethical aspects and aspects of business conduct.
- d) Channels of communication, participation and dialogue with stakeholders.
- e) Responsible communication practices that impede the manipulation of data and protect integrity and honour.

Complies X Complies Partially Explain

56. That directors remuneration be sufficient in order to attract and retain directors who meet the desired professional profile and to adequately compensate them for the dedication, qualifications and responsibility demanded of their posts, while not being so excessive as to compromise the independent judgment of non-executive directors.

Complies X Explain

57. That only executive directors receive remuneration linked to corporate results or personal performance, as well as remuneration in the form of shares, options or rights to shares or instruments whose value is indexed to share value, or long-term savings plans such as pension plans, retirement accounts or any other retirement plan.

Shares may be given to non-executive directors under the condition that they maintain ownership of the shares until they leave their posts as directors. The forgoing shall not apply to shares that the director may be obliged sell in order to meet the costs related to their acquisition.

Complies X Complies Partially Explain

58. That as regards variable remuneration, the policies incorporate limits and administrative safeguards in order to ensure that said remuneration is in line with the work performance of the beneficiaries and are not based solely upon general developments in the markets or in the sector in which the company operates, or other similar circumstances.

And, in particular, that variable remuneration components:

- a) Are linked to pre-determined and measurable performance criteria and that such criteria take into account the risk undertaken to achieve a given result.
- b) Promote sustainability of the company and include non-financial criteria that are geared towards creating long-term value, such as compliance with rules and internal operating procedures and risk management and control policies.
- c) Are based upon balancing short-, medium- and long-term objectives, permitting the reward of continuous achievement over a period of time long enough to judge creation of sustainable value such that the benchmarks used for evaluation are not comprised of one-off, seldom occurring or extraordinary events.

Complies X Complies Partially Explain Not Applicable

59. That the payment of variable remuneration components be subject to sufficient verification that previously established performance or other conditions have effectively been met. Entities must include in their annual report on director remuneration the criteria for the time required and methods used for this verification depending on the nature and characteristics of each variable component.

That, additionally, companies consider the inclusion of a reduction ('malus') clause for the deferral of the

Regarding the CEO, the foregoing recommendation is fully accomplished, while in case of the CFO, it is accomplished but sections 4.3 (iii) – Termination and (iv) Post contractual non-compete clause of the Directors' Remuneration Policy. Likewise, it is also clarified in respect the CFO, that the level of compliance would vary considering the impact in the remunerations systems linked to share value.

In this respect, the company will take investors' feedback, and this recommendation will be taken into consideration in the future compensation policy.

FURTHER INFORMATION OF INTEREST

H

 If there is any aspect regarding corporate governance in the company or other companies in the group that have not been included in other sections of this report, but which are necessary in order to obtain a more complete and comprehensible picture of the structure and governance practices in the company or group, describe them briefly below.

With respect to the notes on Recommendation 27, this was a one-off and exceptional situation since one of the Board members was unable to attend an extraordinary Board meeting for unforeseen reasons and it was not possible for him to grant his proxy.

With respect to the notes on Recommendations 25, 62 y 64 (which the Company complies partially), to point out that ESG Committee, within the framework of its duties, performs an annual analysis on the situation of the Company in the field of good corporate governance, which is afterwards ratified by the Board, which includes consideration of the measures that Company adopts to ensure the compliance with the objectives of the principles on which the recommendations are based.

Likewise, as mentioned in section C.1.3, the Company is proactive in corporate governance matters and dialogue with its stakeholders. It values and dedicates yearly efforts to the engagement campaign with proxy advisors and main shareholders, including the participation of the Chairman of the Appointments and Compensation Committee.

This dialogue proved to be fruitful considering the high quorum at the 2021 AGM (73, 90% of the share capital) which was held on an exclusively remote basis. Moreover, the Company has also been interested in the reasons for the abstention or lesser support for certain items on the Agenda in recent years and especially in the consultative vote of the IAR. The Company has listened and taken note of the motivations expressed, which have been considered in the design and drafting of the new remuneration policy to be presented to the 2022 General Meeting.

2. This section may also be used to provide any other information, explanation or clarification relating to previous sections of the report, so long as it is relevant and not redundant.

Specifically, state whether the company is subject to any corporate governance legislation other than that prevailing in Spain and, if so, include any information required under this legislation that differs from the data requested in this report.

In respect of G.63 and for clarification purposes, the remuneration policy approved by the AGM on 30 May 2019 establishes that "Pursuant to article 27.1 of the Board of Directors' Regulation, remuneration comprising the delivery of shares of the Company or of its group companies, share options or other share-indexed instruments, variable payments indexed to the Company's performance or membership of pension schemes will be confined to executive directors. Deductions should be made to remuneration linked to Company earnings in line with any qualifications stated in the external auditors' report that reduce such earnings". Likewise, it establishes that "If accredited inaccuracies in the data taken into account for the purpose of awarding the PSUs are observed, mechanisms will be implemented so that the Company may claim the refund of the amount corresponding to the relevant PSUs, net of any withholding, taxes or fees, effectively received by each executive director". As per applicable law, this would also be the case to the amounts perceived as annual bonus in cash.

 The company may also state whether it voluntarily complies with other ethical or best practice codes, whether international, sector-based, or other. In such a case, name the code in question and the date the company began following it. It should be specifically mentioned that the company adheres to the Code of Good Tax Practices of 20 July, 2010

Applus Services, S.A is adhered to the UN Global Compact and is Advanced Level since 2018, following the 10 UN principles.

Applus+ participates in the Carbon Disclosure Project (CDP) since 2017, obtaining a B in 2020. Likewise, Applus+ has been recognised with "AA" by agency MSCI ESG Research in 2019

Applus+ adopted the United Nations Sustainable Development goals (SDGs) as a framework to align its corporate social responsibility goals. At least nine of the UN's 17 SDG goals are directly relevant to Applus+ businesses.

Applus+ is included in FTSE4GoodIBEX since 2019.

During 2021, Applus+ has been recognized by Gaïa Rating (71/100 points), and Sustainalytics has rated the Group with 15.6 points ("low risk" ESG companies).

Applus+ has adopted the GRI standards, SASB (Sustainability Accounting Standards Board) and the recommendations of the TFCD (Task Force on Climate-Related Financial Disclosures) for its non-financial reporting.

Applus+ has adhered to the European Charter of principles signed by organizations to highlight their commitments to the diversity and inclusion in the workplace. European Commission Member for the Diversity Charter (2021-2023).

Applus+ has joined the Initiative of the Spanish Ministry of Presidency to promote a balanced participation of women and men in decision-making in business and economic environment. "Más mujeres, mejores empresas" in 2021.

Applus+ are adopting the Women's Empowerment Principles defined by the United Nations.

Applus+ is included in the Network of Inclusive Companies (Andorra) as of 2021.

This Annual Corporate Governance Report was approved by the Board of Directors of the company at the meeting held on 24 February 2022.

ANNUAL REPORT ON THE REMUNERATION OF DIRECTORS OF LISTED COMPANIES

THE COMPANY'S REMUNERATION POLICY FOR THE CURRENT FINANCIAL YEAR

A.1.1 Explain the director remuneration policy in effect for the current financial year. Where relevant information can be incorporated by reference to the remuneration policy approved by the shareholders at the general shareholders' meeting, provided that the incorporation is clear, specific and concrete.

The specific provisions established for the current financial year must be described in terms of both remuneration of directors in their capacity as such and remuneration for the performance of executive duties that the board has performed under the terms of contracts signed with the executive directors and with the remuneration policy approved at the general meeting.

In any case, at least the following aspects must be reported on:

- a) Description of the company's procedures and decision-making bodies involved in the determination, approval and implementation of the remuneration policy and its terms.
- b) Statement and, if applicable, explanation of whether comparable companies have been taken into account to establish the company's remuneration policy.
- Information on whether any external advisor has participated and, if applicable, the identity thereof.
- d) Procedures under the existing remuneration policy for directors to apply for temporary exemptions to such policy, the conditions under which such exceptions may be applied for and the components that may be subject to exceptions under the policy.

2021

The Annual General Shareholders' Meeting held in 2019 approved the Remuneration Policy for financial years 2019, 2020 and 2021. The principles and grounds of the Remuneration Policy revolve around remuneration based on market practices, capable of attracting, retaining and motivating the necessary talent in accordance with the features of its industry and of the countries in which the Company operates, to satisfy the needs of the business and shareholders' expectations and independent directors shall receive the remuneration necessary to reward the dedication, qualification and responsibility that the position requires, though it should not be so high as to compromise their independence.

The director remuneration established in the Remuneration Policy is reasonably proportionate to the importance of the Company, its financial situation and the market standards of comparable companies and it is aimed at promoting the long-term profitability and sustainability of the Company and it incorporates the necessary caution to prevent the excessive assumption of risks or the rewarding of unfavourable results.

The position of director of the Company is remunerated. The remuneration of directors in their capacity as such is composed of a fixed annual amount and the maximum amount of the directors as a whole in their capacity as such was set by the General Shareholders' Meeting on 30 May 2019 and will remain in form until amended by the General Shareholder's meeting. Unless otherwise determined by the General Shareholder's Meeting, the Board will determine the remuneration of each director, taking into account the duties and responsibilities allocated to each director, membership of Board Committees and any other objective circumstances that are deemed relevant. Proprietary and executive directors will not receive any remuneration for their membership of the Board or of any of its Committees. The total maximum amount of directors' annual remuneration in their capacity as such is EUR 1,500,000 until amended by the General Shareholders' Meeting.

Directors will also be reimbursed for duly justified expenses relating to travel and accommodation to attend meetings and the Company has also contracted civil liability insurance for its directors on market conditions.

The only directors performing said duties on the date of this report are the CEO, Mr Fernando Basabe Armijo, and the CFO, Mr Joan Amigó i Casas (the "**Executive Directors**").

2022

However, a new Remuneration Policy for financial years 2022, 2023 and 2024 will be submitted to the General Meeting in 2022, unless the General Shareholders' Meeting resolves to amend or replace it during such period, as described in section A.2. This new Policy, in addition to the principles set out above, establishes that long-term sustainability and diversity are strategic priorities and therefore, links the variable remuneration of the Executive Directors, to the achievement of ESG. The Policy also links annual variable compensation to adjusted operating profit and adjusted operating cash flow, reflecting operating profitability and cash flow generation priorities, and links the incentive plan to total shareholder return, earnings per share and average return on capital expenditures, reflecting sustainable shareholder value creation priorities. In setting the Policy, the compensation and employment conditions of the Company's employees have been taken into account.

Under the new Policy, the maximum amount of annual remuneration for all directors in their capacity as such is the approved by the General Meeting on 30 May 2019. The Board shall determine the amount within the above limit and the remuneration of each director taking into account the duties and responsibilities attributed to each director, the time commitment required and appropriate market conditions. The remaining provisions regarding the remuneration of directors in their capacity as such and the total maximum annual amount thereof are described in the new Policy in similar terms to the previous one. The remuneration of each director agreed for 2022 is set out in section A.1.3. Under the new Policy the remuneration of the Executive Directors is described under section A.1.2.

The new Remuneration Policy that the Board will propose to the 2022 General Meeting has been proposed by the Appointments and Remuneration Committee (the "ARC"). The ARC has also prepared a reasoned report on such Policy, which will be made available to shareholders at the registered office and will be published continuously on the corporate website from the publication of the announcement of the call to the General Shareholders' Meeting until the Meeting is held.

The Board, following a report or proposal from the ARC, applies the Policy in its own terms and within the framework of the remuneration system provided for in the by-laws (and in the agreements with the Executive Directors). The ARC assists the Board of Directors in the determination and implementation of the Remuneration Policy under the powers assigned to it by the Board Regulations. Furthermore, article 39.4 of such Regulations provides that the ARC may seek external advisory services. The new Policy has been prepared by the Company with the support of Mercer Consulting, which prepared on behalf of Applus during 2021 various benchmark studies, national and international, regarding the remuneration status of Directors. Based on this study, the ARC submitted its proposal for a new Policy to the Board in 2022.

No procedures for any temporary exceptions to the Policy are provided for.

A.1.2 Relative importance of variable remuneration items in comparison to fixed items (remunerative mix) and which criteria and targets have been taken into account in the determination thereof and to ensure an appropriate balance between the fixed and variable remuneration components. In particular, state the actions taken by the company about the remuneration system to reduce exposure to excessive risks and align it with the company's long-term objectives, values and interests, which will include (where applicable) a reference to measures established to ensure that the remuneration policy takes into account the company's long-term results, the measures adopted concerning those categories of staff whose professional activities have a material impact on the entity's risk profile and any measures established to avoid conflicts of interest.

Also state whether the company has established any accrual or consolidation period for certain variable remuneration items, in cash, shares or other financial instruments, a deferral period in the payment of sums or delivery of financial instruments already accrued and consolidated, or whether any clause has been agreed for the reduction of deferred remuneration not yet consolidated or obliging the director to return remuneration received when said remuneration has been based on information whose inaccuracy has subsequently been clearly established.

2022

Variable remuneration items are only established for the remuneration of Applus' Executive Directors. To determine the remuneration mix set out below, Applus has relied on the aforementioned Mercer Consulting study, the need to retain and motivate Executive Directors and the new strategic objectives added to the long-term incentive plan.

Firstly, the fixed annual remuneration of the CEO is maintained and the fixed annual remuneration of the CFO is increased from EUR 267,343 to EUR 360,000, to be updated based on the Spanish CPI unless the Board resolves otherwise. It is established that executive directors will receive other benefits with a maximum cost equal to 15% of their fixed remuneration and a contribution to the pension plan for an amount equal to the difference between such 15% and the cost of the benefits actually received. The Executive Director will choose each year, on the one hand, the amount to be allocated to each benefit, always within the maximum cost equal to 15% of their fixed remuneration and, on the other hand, whether to reduce his fixed remuneration to invest the amount of the reduction in a pension plan, all in line with that established for Senior Management.

The annual variable remuneration of the Executive Directors is modified so that:

- (a) it is linked to the achievement of certain targets (55% to the adjusted operating profit, 30% to the Group's adjusted operating cash-flow and 15% to four ESG targets), which will be communicated (as well as their results) ex post in the Annual Remuneration Report (except for the ESG targets which will be communicated in February of each year after approval by the Board):
- (b) the system is assimilated to that foreseen for Senior Management and the target base of the annual variable remuneration for the CFO is decreased from 70.6% to 70% of his fixed remuneration, the rule that for each 1% increase on the targets, the annual variable remuneration shall be increased by 2% with a maximum of 150% of the target base is retained (this maximum amount is reduced for the CFO vs. the previous 200%) but the possibility is mantained for the targets to result in a payment of 200% and for the CFO 37.5% of the variable remuneration (compared to 50% previously) will be payable in RSUs (as defined below) and the remainder in cash (62.5% vs. 50% previously);
- (c) if the Participant's termination of services is due to any of the following events (i) *mortis causa*, (ii) permanent disability, (iii) good leaver (defined as (a) retirement; (b) the Participant's position or employment being with a company which ceases to be a member of the Group or relating to a business or part of a business which is transferred to a person who is not a member of the Group; and (c) any whatsoever termination carried out by the Company except in the event of a disciplinary dismissal classified as fair by a court in a definitive judgement or not challenged by the Participant; or (iv) change of control (being (i) a merger, consolidation, acquisition or other transaction as a result of which securities carrying more than 50% of the total combined voting power of the outstanding securities of the Company are transferred to a person or persons other than the persons who held such securities immediately prior to such transaction; (ii) the sale, transfer or other disposition of all or substantially all of the assets of the Company in complete liquidation or dissolution of the Company; (iii) the acquisition by a third party (individual or legal entity), either individually or together with others acting in concert, of a controlling interest in the Company under article 4 of Royal Decree 1066/2007 of 27 July 2007 on the initial public offering regime), then all RSUs granted under the RSU Plan which have not vested on the date on which the event takes effect shall automatically vest on the date on which the event takes effect (the settlement of the vested RSUs in the event of a change of control will be paid in cash on the date of the change of control event),
- (d) the clawback clause is amended whereby if inaccuracies in the information on which the variable cash remuneration and the RSUs were granted are established by an auditor recognised and approved by the Board of Directors, the Company shall be entitled, for a period of three years after the payment of the variable cash remuneration and RSUs, or the redemption of the RSUs, respectively, to claim back the amount (net of any withholding tax or levy) of the variable cash remuneration, the net amount of the RSUs and the net amount of the shares vested under the RSUs, as applicable, actually received by each Executive Director as a result of such misstatements, and
- (e) the Board, prior a favourable proposal from the ARC, may increase the result of the mathematical calculation of the annual variable remuneration of the Executive Directors if (i) it is duly justified, (ii) the increase does not exceed 50% of the target base (in cash and RSUs), and (iii) the final total amount of the annual variable remuneration, after the increase if applicable, will not exceed the target base (in cash and RSUs). This decision will be disclosed ex post annualy in the Annual Remuneration Report.

The long-term incentive plan for the Executive Directors is amended to:

(a) update the objectives of the long-term incentive plan following its review, taking into account the strategic objectives and challenges of the 2022-2024 strategic plan, the feedback provided by investors and advisors and ESG commitments, as well as the Mercer Consulting study, taking into account the salary benchmark, the need to retain and motivate executive directors and the new strategic targets established for the purposes of the incentive (such targets will be the same as those applicable to the Senior Management benefiting from the plan);

- (b) increase the PSUs target to be earned in principle by the CEO, equivalent to 90% of his fixed remuneration (vs. 60% before) and by the CFO, equivalent to 50% of his fixed remuneration (vs. EUR 58,333 before);
- (c) the number of PSUs to be earned will be valued between 0% and 150% of the target number of PSUs, depending on the degree of achievement of the targets, but each target may result in a pay-out of between 0% and 200% (but always within the range from 0% to 135% of fixed remuneration for the CEO and from 0% to 75% of fixed remuneration for the CFO);
- (d) for the purpose of calculating the TSR target (as defined herein) which shall represent 30% of the total PSUs awarded each year, Applus' TSR shall be compared to a group of eight comparable companies (SGS, Bureau Veritas, Intertek, Eurofins Scientific, Core Laboratories, ALS, Team Industrial Services, Mistras), which may be modified by the Board prior to the award of the PSUs, and the index will be the result of calculating the annualised TSR of the average TSR of the comparable companies;
- (e) the TSR assessment is performed by an external firm which will report to the ARC (each year the name of this firm will be disclosed in the Annual Remuneration Report);
- (f) the EPS target (as defined herein) will represent 50% of the total PSUs awarded each year, and the Board of Directors will set the threshold for this target above which PSUs will vest (if performance is below the threshold entitling 50% of PSUs to vest, no PSUs will vest in respect of this benchmark);
- (g) a new target for the average return on capital employed (ROCE, as defined herein) for the three-year period -representing 10% of total PSUs granted each year, and with the Board setting the threshold for this target above which PSUs will vest (if performance is below the threshold entitling 50% of PSUs to vest, no PSUs will vest in respect of this benchmark)- is introduced:
- (h) a new target is introduced for four ESG targets, representing 10% of total PSUs granted each year, and with the Board setting the threshold for this target above which PSUs will vest (if performance is below the threshold entitling 50% of PSUs to vest, no PSUs will vest in respect of this benchmark);
- (i) ESG targets and results will be calculated based on the perimeter as at 1 January of the first year of each three-year period, excluding acquisitions;
- (j) ESG targets for each year will be approved and announced by the Board of Directors annually in February;
- (k) the EPS and ROCE targets will be published *ex post* in the Annual Remuneration Report, as well as the results of the assessment of all targets;
- (I) the clawback clause is amended whereby if accredited inaccuracies in the information upon which the PSUs or the shares pursuant to a vesting of PSUs were granted are reported by an accredited auditor and approved by the Board of Directors, the Company shall be entitled, for a period of three years following the award of the PSUs or the vesting of the PSUs, respectively, to claim the refund of the net (of any withholding taxes or fees) amount of PSUs and net amount of shares pursuant to a vesting of PSUs, as applicable, which has been effectively received by each executive director because of those inaccuracies;
- (m) if the Participant ceases in his contractual link with the Group by reason of any of the events contemplated for RSUs except for the change of control event; then the ARC shall determine the number of Shares vesting by (aa) the performance conditions will be understood as fulfilled at 100%; and (bb) applying a pro-rata reduction to the number of shares determined by reference to the period of time after the grant date and ending on the date of termination in relation to the 3-year period.
- (n) Moreover, in the event of a change of control (being the same events as for the RSUs), the ARC shall notify the Participant, as soon as practicable after it becomes aware of such event or a proposed event, that all PSUs will automatically vest in advance on the date on which such event occurs, if they have not yet vested. The settlement of the vested PSUs in the event of a change of control will be paid in cash on the date of the change of control event. PSUs that are to vest will not be reduced in any proportion to the time elapsed since the vesting date, and the performance conditions will be considered to have been achieved at 100%. If a PSU vests under the change of control rule and the Participant is no longer a director or employee of the Group, then the change of control rule shall prevail.

Under the new Policy to be submitted to the 2022 Annual General Meeting of Shareholders of the Company, the non-variable components of the remuneration of the CEO and the CFO consist of a fixed annual remuneration of EUR 750,000 and EUR 360,000, respectively and other benefits as described below with a maximum total cost equivalent to 15% of such fixed remuneration and a contribution to the pension plan for the difference between the cost of the benefits actually received and the aforementioned 15%. The aggregate value of the fixed components (in cash and in kind) of their remuneration, therefore, amounts to EUR 862,500 and EUR 414,000, respectively (to be reviewed based on the CPI).

The variable remuneration components of the remuneration of the CEO and the CFO consist of: (i) an annual variable remuneration for a maximum amount of 150% of the target base set as 80% and 70%, respectively, of the fixed remuneration (i.e. a maximum amount of EUR 900,000 and EUR 378,000, respectively) and (ii) a long-term incentive plan for a maximum annual amount equivalent to 135% and 75%, respectively, of their fixed remuneration (i.e. a maximum annual amount of EUR 1,012,500 and EUR 270,000, respectively). These remuneration items are described in detail below.

As a result, the maximum variable remuneration items of the CEO could represent up to approximately 222% of his fixed (in cash and in kind) items (percentage of the sum of EUR 900,000 and EUR 1,012,500 of variable items, divided by EUR 862,500 of fixed (in cash and in kind) items) if all the respective targets were met. Likewise, the maximum variable remuneration items of the CFO could represent up to approximately 157% of his fixed (in cash and in kind) items (percentage of the sum of EUR 378,000 and EUR 270,000 of variable items, divided by EUR 414,000 of fixed (in cash and in kind) items) if the respective targets were met in full.

In short, the relative importance of variable items vs. fixed items has been improved, the average share price of the Applus share continues to be considered in the equation of the annual variable remuneration system and long-term incentive plan for the Executive Directors, and provides for a deferral period in the receipt by the Executive Directors of 37.5% of their annual variable remuneration. Given the above, the ARC considers that, following these amendments, the remuneration mix of the Executive Directors is in line with market conditions for listed companies, while taking into account the performance and leadership of the Executive Directors.

Additionally, to reduce exposure to excessive risks and align the remuneration system with the Company's long-term objectives, values and interests, 55% of the amount of the Executive Director's variable annual remuneration is linked to achieving adjusted operating profit targets, 30% is linked to the Group's adjusted operating cashflow and 15% is linked to achieving four ESG targets, meaning that certain targets are set for each of these parameters and any increase or decrease with relation thereto is directly reflected in the variable remuneration amount, with a maximum and minimum limit of, respectively, 150% and 0% of the base target. In addition to the strategic priorities of long-term sustainability and diversity, this reflects the Company's priorities in relation to its operating profitability and cash flow generation. Further, if inaccuracies in the information on which the variable cash remuneration and the RSUs were granted are established by an accredited auditor and approved by the Board of Directors, the Company shall have the right, for three years after the payment of the variable cash remuneration and the RSUs, or the vesting of the RSUs, respectively, to claim back the amount net (of any withholding tax or levy) of the variable cash remuneration, the net amount of the RSUs and the net amount of the shares vested of the RSUs, as applicable, actually received by each Executive Director as a result of such misstatements.

Furthermore, the long-term incentive plan approved for the Executive Directors takes into account quantitative parameters (relative total shareholder return, adjusted earnings per share, return on capital employed target and four ESG targets) calculated for a three-year period, which allows the Company's long-term results to be taken into account, long-term sustainability and diversity, which are strategic priorities for Applus (it recognises the commitment to maintain the minimum percentage of female directors of 40% already achieved in 2021), as well as sustainable value creation for the shareholders. In addition, a minimum threshold below which the plan shall not vest and maximum limits to the amount of the plan are established, and it is provided that if accredited inaccuracies in the information upon which the PSUs or the shares pursuant to a vesting of PSUs were granted are reported by an accredited auditor and approved by the Board of Directors, the Company shall be entitled, for a period of three years following the award of the PSUs or the vesting of the PSUs, respectively, to claim the refund of the net (of any withholding taxes or fees) amount of PSUs and net amount of shares pursuant to a vesting of PSUs, as applicable, which has been effectively received by each executive director because of those inaccuracies.

The Regulations of the Board impose an obligation on directors to notify the other directors and the Board of any situation of conflict that they or persons related thereto may have with the Company's interest, and the director subject to the conflict must refrain from attending, intervening and voting on the corresponding decisions.

A.1.3 Amount and nature of the fixed components to be accrued during the financial year by directors in their capacity as such.

2022

The fixed annual remuneration to be received in financial year 2022 by the members of the Board of Directors in their capacity as such is expected to be the same as the remuneration received in financial year 2021, and specifically as follows:

- Chair of the Board of Directors: EUR 250.000.
- Members of the Board of Directors other than the Chair: EUR 60.000.
- Chair of any Board Committee: EUR 30,000 per Committee.
- Members of any Board Committee other than the Chairs thereof: EUR 20,000 per Committee.

With the composition of the Board and the Committees as of the date of this report, assuming all Board members whose appointment or reelection is submitted to the 2022 Annual General Meeting, are ratified or reelected, and the appointment of Ms Marie-Françoise Damesin as Chair of the ARC on 1 June 2022 is approved, the fixed remuneration to be received by the directors in their capacity as such in the financial year 2022 would amount to EUR 896,000. The appointment of Ms Marie-Françoise Damesin and Mr Brendan Connolly as independent directors to fill the general vacancies left by Mr John D Hofmeister and Mr Richard C Nelson will be proposed to the shareholders at the 2022 Annual General Meeting and the re-election of Mr Christopher Cole, Mr Ernesto Mata and Mr Fernando Basabe will also be proposed to such Meeting. In the event that such appointments and re-elections take place, the fixed remuneration to be received by the directors in their capacity as such in fiscal year 2022 would amount to EUR 920,000.

It is stated for the record that neither proprietary directors, of whom there are currently none and who there are no plans to appoint, nor Executive Directors will receive any remuneration for their position on the Board of Directors or for membership of any of its Committees.

The Company will also pay the premiums for the civil liability insurance signed to cover its directors and managers on market conditions, which are expected to amount to EUR 155,592 in the financial year 2022.

Finally, the directors will be reimbursed for travel and accommodation expenses incurred due to attendance at meetings of the Board of Directors and its Committees, provided they are duly justified.

A.1.4 Amount and nature of fixed components that will be accrued during the financial year for the performance of senior management duties by executive directors.

2022

Under the Remuneration Policy to be submitted to the General Shareholders' Meeting for approval in 2022, the non variable remuneration to be accrued in 2022 for the performance of executive duties by the CEO is expected to be as follows: (i) a fixed annual remuneration of EUR 750,000 (adjustable in line with the CPI, unless the Board of Directors decides not to apply this increase) in cash; (ii) other benefits in kind with a maximum cost equal to 15% of his fixed remuneration (which will include the cash payment linked to these benefits described in section B.16); and (iii) a contribution to the pension plan for an amount equal to the difference between the aforementioned 15% and the cost of the benefits actually received. The CEO may decide each year, on the one hand, the amount to be allocated to each benefit, always keeping the maximum cost equal to 15% of his fixed remuneration in cash, and, on the other hand, whether he wishes to have his fixed remuneration reduced to have the amount of such reduction invested in a pension plan. It is noted that the re-election of the CEO will be proposed to the Ordinary General Meeting of Shareholders in 2022.

Under the Remuneration Policy to be submitted to the General Shareholders' Meeting for approval in 2022, the non variable remuneration to be accrued in 2022 for the performance of executive duties by the CFO is expected to be as follows: (i) a fixed annual remuneration of EUR 360,000 (adjustable in line with the CPI, unless the Board of Directors decides not to apply this increase) in cash; (ii) other benefits in kind with a maximum cost equal to 15% of his fixed remuneration (which will include the cash payment linked to these benefits described in section B.16); and (iii) a contribution to the pension plan of his choice, in an amount equal to the difference between the aforementioned 15% and the cost of the benefits actually received. The CFO may decide each year, on the one hand, the amount to be allocated to each benefit, always keeping the maximum cost equal to 15% of his fixed remuneration in cash, and, on the other hand, whether he wishes to have his fixed remuneration reduced to have the amount of such reduction invested in a pension plan.

2021

The non variable components for the performance of senior management duties of the Executive Directors under the Remuneration Policy approved in 2019 and accrued in the financial year 2021 are equivalent for the CEO, although the maximum cost of other benefits was 10% of his fixed remuneration. For the CFO, the fixed cash remuneration under the Remuneration Policy approved in 2019 and accrued in the financial year 2021 is EUR 267,343, the maximum cost of benefits was EUR 35,080 and he received a fixed remuneration in RSUs equivalent to EUR 58,333. For the calculation of the number of RSUs to be granted, the average Applus share price in the 30 days prior to the date of grant of the RSUs is taken into account. RSUs are granted each year immediately following the date on which the Board of Directors approves Applus' annual results. Accordingly, 7,099 RSUs were awarded in February 2022 to the CFO, resulting from dividing EUR 58,333 by the average value of the Applus share in the 30 days prior to the date of grant (EUR 8.216 per share). Each RSU will be vested for one Applus share on the third anniversary of the date of grant. However, subject to the approval of the new Remuneration Policy at the 2022 Annual General Meeting, the previous remuneration awarded in February 2022 will be adjusted to the content of the new Policy.

The RSUs awarded in 2019 to the then CFO (i.e., 5,838 RSUs) have been vested into shares in February 2022.

A.1.5. Amount and nature of any component of remuneration in kind that will be accrued during the financial year, including but not limited to insurance premiums paid on behalf of the director.

2022

Remuneration in kind is only paid in favour of the Executive Directors. According to the provisions of the Remuneration Policy to be submitted to the General Shareholders' Meeting for approval in 2022, the CEO will receive other benefits at a maximum cost equal to 15% of fixed annual remuneration in cash. The Company will also annually contribute to the CEO's pension scheme an amount equal to the difference between the aforementioned 15% of his fixed remuneration and the cost of the benefits actually received by the CEO during said year. The CEO may decide each year, on the one hand, the amount to be allocated to each benefit, always keeping the maximum cost equal to 15% of his fixed remuneration in cash, and, on the other hand, whether he wishes to reduce his fixed remuneration to invest the amount of such reduction in a pension plan.

In terms similar to financial year 2021, the CEO is expected to receive benefits consisting of the use of a company vehicle and fuel, medical insurance for him and his family (including an annual check-up for him and his wife) and life insurance. Medical insurance premiums and life insurance premiums (without prejudice to the civil liability insurance premium referred to above) will be paid by the Company for the benefit of the CEO during the financial year 2022. In terms similar to financial year 2021, the Company is expected to contribute in the financial year 2022 to the pension plan of the CEO.

Under the Remuneration Policy to be submitted for approval at the General Shareholders' Meeting in 2022, the CFO shall receive other benefits with a maximum cost equal to 15% of the annual fixed remuneration in cash, which may include, among other items, a contribution to the pension plan at the director's choice. The CFO may decide each year, on the one hand, the amount to be allocated to each benefit, always keeping the maximum cost equal to 15% of his fixed remuneration in cash and, on the other hand, whether he wishes to reduce his fixed remuneration to invest the amount of such reduction in a pension plan.

In terms similar to financial year 2021, the Chief Financial Officer is expected to receive benefits consisting of the use of a company vehicle and fuel, medical insurance for him and his family (including an annual check-up for him and his wife), life insurance, membership and professional association fees. Medical insurance premiums and life insurance premiums (without prejudice to the civil liability insurance premium referred to above) will be paid by the Company for the benefit of the CFO during the financial year 2022. In terms similar to financial year 2021, the Company is expected to contribute in the financial year 2022 to the pension plan of the CFO.

<u>2021</u>

The remuneration in kind of the Executive Directors under the Remuneration Policy approved in 2019 is described in section B.14.

A.1.6 Amount and nature of variable components, differentiating between short and long term. Financial and non-financial, including social, environmental and climate change parameters selected to determine variable remuneration in the current year, describing the extent to which these parameters are related to performance, both of the director and of the company, together with their risk profile, and the methodology, necessary period and the techniques established to determine the degree of compliance with the parameters used in the design of the variable remuneration at the end of the year.

State the range in monetary terms of the different variable components, based on the level of achievement of established targets and parameters, and whether there is any absolute maximum monetary amount.

2022

According to the provisions of the Remuneration Policy to be submitted for approval by the 2022 Company's General Shareholders' Meeting for financial years 2022, 2023 and 2024, unless the General Shareholders' Meeting resolves to amend or replace it during such period, the variable remuneration components for the Executive Directors are as follows.

The actual amount of the annual variable remuneration of the Executive Directors is determined by the Board of Directors at the proposal of the ARC, which is responsible for assessing in detail the degree of compliance with the targets following verification thereof. For such verification, the annual accounts of Applus shall be considered following submission thereof and review and issuance of the report by the Company's auditor.

(i) Variable annual remuneration:

The variable annual remuneration of the Executive Directors consists of a variable annual amount payable in cash and via the award of rights over Applus shares known as restricted stock units ("RSUs"), linked to the achievement of Group targets (55% linked to the adjusted operating profit or "AOP", 30% linked to the adjusted operating cashflow or "AOCF" of the Group, and 15% to four ESG targets).

All targets will be reported (as well as their results) ex post in the Annual Remuneration Report (except for ESG targets which will be reported in February each year after approval by the Board).

In the case of the CEO, the variable amount, which is set as 80% of the fixed remuneration, will increase by 2% for each 1% increase over targets, up to a maximum amount of 150% of the target base (although each target can result in an evaluation of 200%). On the other hand, the variable remuneration will decrease by 5% for every 1% decrease on targets. 62.5% of the variable remuneration to be received by the CEO would be paid in cash and 37.5% by award of RSUs. The same system is established for Senior Management.

In the case of the CFO, the variable amount, which is set as 70% of the fixed remuneration in cash, will be increased by 2% for each 1% increase over targets, up to a maximum amount of 150% of the target base (although each target can achieve an evaluation of 200%). On the other hand, the variable remuneration will decrease by 5% for each 1% decrease on targets. 62.5% of the variable remuneration to be received by the CFO would be paid in cash and 37.5% by award of RSUs. The same system is established for Senior Management.

The average listing value of the Applus shares during the 60 days prior to the date of award of the RSUs will be taken into account to calculate the number of RSUs to be awarded in both cases.

The RSUs will be awarded every year on the date that the Board of Directors approves Applus' annual results and the amount of each Executive Director's variable annual remuneration.

Each RSU will be vested for one Applus share for 30%, 30% and 40% after one, two and three years, respectively, provided that the Executive Director is still employed on the date of vesting.

If the Participant's services cease due to any of the following events, i.e.: (i) mortis causa, (ii) permanent disability, (iii) good leaver (being (a) retirement; (b) the Participant's position or employment is with a company which ceases to be a member of the Group or relates to a business or part of a business which is transferred to a person who is not a member of the Group; and (c) any whatsoever termination carried out by the Company except in the event of a disciplinary dismissal classified as fair by a court in a definitive judgement or not challenged by the Participant; or (iv) change of control (being (i) a merger, consolidation, acquisition or other transaction as a result of which securities carrying more than 50% of the total combined voting power of the outstanding securities of the Company are transferred to a person or persons other than the persons who held such securities immediately prior to such transaction; (ii) the sale, transfer or other disposition of all or substantially all of the assets of the Company in complete liquidation or dissolution of the Company; (iii) the acquisition by a third party (individual or legal entity), either individually or together with others acting in concert, of a controlling interest in the Company under article 4 of Royal Decree 1066/2007 of 27 July 2007 on the initial public offering regime), then all RSUs granted under the RSU Plan which have not vested on the date on which the event takes effect will automatically vest on the date on which the event occurs. The settlement of the vested RSUs in the event of a change of control will be paid in cash on the date of the change of control event.

If accredited inaccuracies in the information upon which the cash bonus and the RSUs were granted are reported by an accredited auditor and approved by the Board of Directors, the Company shall be entitled, for a period of three years following the payment of the cash bonus and the RSUs or the vesting of the RSUs, respectively, to claim the refund of the net (of any withholding taxes or fees) amount of cash bonus, net amount of RSUs, and net amount of shares pursuant to a vesting of RSUs, as applicable, which has been effectively received by each executive director because of those inaccuracies.

The Board, prior a favourable proposal from the ARC, may increase the result of the mathematical calculation of the annual variable remuneration of the Executive Directors if (i) it is duly justified, (ii) the increase does not exceed 50% of the target base (in cash and RSUs), and (iii) the final total amount of the annual variable remuneration, after the increase if applicable, will not exceed the target base (in cash and RSUs). This decision will be disclosed annualy ex post in the Annual Remuneration Report.

(ii) Long-term incentive plan:

The long-term incentive plan (which started in 2016 under the Remuneration Policy in effect at that time) involves the annual receipt by the Executive Directors of performance stock units ("PSUs"), each one vested for one share of the Company three years after the date on which they were awarded, depending on the level of achievement of certain parameters.

The targets proposed in the long-term incentive plan have been reviewed and updated, taking into account the strategic objectives and challenges of the 2022-2024 strategic plan (communicated last year), feedback from investors and proxy advisors and Applus' ESG commitments. The amount of the long-term incentive for Executive Directors has also been updated based on the Mercer Consulting study described in section A.1.1, taking into account the salary benchmark, the need to retain and motivate executive directors and the new strategic targets considered for the incentive (the targets will be the same as those applicable to the Senior Management beneficiaries of the plan).

Each Executive Director will receive the following number of PSUs: (a) the CEO will receive annually equivalent in principle to 90% of his fixed remuneration, and (b) the CFO will annually receive PSUs equivalent in principle to 50% of his fixed remuneration.

However, depending on the level of achievement of the parameters indicated below, these amounts may fluctuate. The number of PSUs that will vest will range from 0% to 150% of the target number of PSUs, depending on the degree of achievement of the targets, although each target in the plan may achieve an evaluation of between 0% and 200%.

The value of each PSU will be equivalent to the average listing value of the Company's shares during the 60 days prior to the date of award of the PSUs.

PSUs will be awarded each year on the day the Board of Directors approves Applus' annual results. The number of PSUs to be awarded to the Executive Directors may be adjusted during each financial year in case their fixed remuneration is modified. However, the day on which the Board of Directors approves the results of the relevant year shall be considered as the day on which the additional PSUs are awarded.

The PSUs granted in each financial year will be redeemed as shares within three years from the date of award thereof if the targets described below are achieved. The number of PSUs that will be redeemed will have a value of between 0% and 135% of the fixed remuneration of the CEO and between 0% and 75% of the fixed remuneration of the CFO, depending on the level of achievement of said targets during the three years prior to the redemption, meaning that said redemption corresponds to the professional performance of the Executive Directors during each three-year period.

The following quantitative targets will be taken into account for the conversion of the PSUs:

(a) A target based on the relative total shareholder return (*Relative Total Shareholder Return* or "TSR") over a three-year period, where the Company's TSR will be compared to an unweighted index composed of a group of eight comparable companies within the inspection and certification industry. These companies are SGS S.A., Bureau Veritas S.A., Intertek Group PLC, Eurofins Scientific S.E., Core Laboratories, Inc., ALS Limited, TEAM Industrial Services, Inc. and Mistras Group, Inc.

The Board of Directors may change the group of companies to be used for the plan if the changes are decided and disclosed prior to the grant of the PSUs. The index is the result of calculating the annualised TSR of the average TSR of the eight peer companies.

This benchmark will represent 30% of the total number of PSUs granted each year.

Within this 30%, 50% of the PSUs will be converted into shares if the annualised Applus TSR performance value is equal to the index, while 200% of the PSUs will be redeemed as shares if the annualised Applus TSR performance value is 5% higher than the index on an annual accumulative basis. Between the index value and the TSR value creating an entitlement to a 200% PSU-to-share redemption, redemption shall take place according to a linear interpolation between said two values. As a result, 100% of the PSUs will vest if the annualised Applus TSR performance value is 1.67% higher than the index on an annual accumulative basis.

If the TSR value is below the index, no PSUs will vest in respect of this parameter. The maximum number of PSUs that will vest is 200% of the target PSUs. The TSR assessment is performed by an external firm which submits a report to the Remuneration and Nomination Committee. Each year the name of this firm will be disclosed in the Annual Directors' Remuneration Report. From 2016 until 2021, the firm responsible for this report has been PWC.

(b) A target relating to adjusted earnings per share ("EPS") reported by Applus, accumulated within three years. Said target will be published ex-post at the end of each three-year period.

This parameter will represent 50% of the total of PSUs granted each year.

The Board of Directors will establish a specific threshold for this EPS target at which target PSUs will be converted into shares. The maximum number of PSUs that can be converted into shares is 200% of the target PSUs.

If the EPS result is below the threshold creating an entitlement to a 50% PSU-to-share redemption, no PSUs will vest under this parameter.

(c) A target Return on Capital Employed ("ROCE") for the three years.

This target will represent 10% of the total number of PSUs granted each year.

The Board of Directors will establish a specific threshold for this ROCE target above which PSUs will vest. The maximum number of PSUs that will vest will be 200% of the target PSUs. If the ROCE performance is below the specific threshold entitling to vest 50% of the PSUs, no PSUs shall vest in respect of this parameter.

(d) A target relating to four ESG targets for the three years.

This target will represent 10% of the total PSUs granted each year.

The maximum number of PSUs that will vest will be 200% of the target PSUs. If performance is below the specific threshold entitling 50% of the PSUs to vest, no PSUs will vest in respect of this parameter.

ESG targets and results are calculated considering the perimeter as of 1 January of the first year of each three-year period and will not include acquisitions. However, the Company is committed to implementing the Group's policies on new acquisitions and therefore such acquisitions shall be considered for the targets/metrics for the next strategic plan.

ESG targets will be approved and disclosed by the Board of Directors in February each year and EPS and ROCE targets will be published *ex-post* in the Annual Remuneration Report.

An assessment of all incentive plan targets will be included in the Annual Remuneration Report.

If accredited inaccuracies in the information upon which the PSUs or the shares pursuant to a vesting of PSUs were granted are reported by an accredited auditor and approved by the Board of Directors, the Company shall be entitled, for a period of three years following the award of the PSUs or the vesting of the PSUs, respectively, to claim the refund of the net (of any withholding taxes or fees) amount of PSUs and net amount of shares pursuant to a vesting of PSUs, as applicable, which has been effectively received by each executive director because of those inaccuracies.

If the Participant ceases in his contractual link with the Group by reason of any the same events as for RSUs except for the change of control event; then the ARC shall determine the number of Shares vesting by (aa) the performance conditions will be understood as fulfilled at 100%; and (bb) applying a pro-rata reduction to the number of shares determined by reference to the period of time after the grant date and ending on the date of termination in relation to the 3-year period.

Moreover, in the event of a change of control (being the same as for the RSUs), the ARC shall notify the Participant, as soon as practicable after it becomes aware of such event or a proposed event, that all PSUs will automatically vest in advance on the date on which such event occurs, if they have not yet vested. The settlement of the vested PSUs in the event of a change of control will be paid in cash on the date of the change of control event. PSUs that are to vest will not be reduced in any proportion to the time elapsed since the vesting date, and the performance conditions will be considered to have been achieved at 100%. If a PSU vests under the change of control rule and the Participant is no longer a director or employee of the Group, then the change of control rule shall prevail.

2021

The amount and nature of the variable items making up the Executive Directors' remuneration under the Remuneration Policy approved in 2019 is described in section B.3. The RSUs for the financial year 2021 were granted in February 2022. RSUs granted in previous years to the CEO (19,909 RSUs) and to the CFO (8,013 RSUs) were vested into shares in February 2022. In February 2022, the CEO was awarded 54,770 PSUs, which is the number resulting from dividing 60% of his fixed remuneration (EUR 450,000) by the referred average Applus share price (EUR 8.216 per share), while the CFO has been awarded 7,099 PSUs, which is the number resulting from dividing EUR 58,333 by the referred average Applus share price (EUR 8.216 per share). In addition, 54,043 PSUs calculated as 120% of the PSUs granted in 2019 to the CEO and 7,006 PSUs calculated as 120% of the PSUs granted in 2019 to the CFO have been vested into shares in February 2022, taking into account a fullfilment of 200% of the EPS and a non-compliance of the TSR. However, subject to the approval by the 2022 Shareholders' Meeting of the new Remuneration Policy, the previous remuneration awarded in February 2022 will be adjusted to the content of the new Policy.

A.1.7 Main features of long-term savings schemes. Among other information, state the contingencies covered under the schemes, whether they are defined-contribution or defined-benefit, the annual contribution to be made to defined-contribution schemes, the benefit to which beneficiaries are entitled in the case of defined-benefit schemes, the conditions for vesting of economic rights in favour of directors, and the compatibility thereof with any class of payment or indemnity for early termination or cessation or arising from the termination of the contractual relationship on the terms established between the company and the director.

Also state whether the accrual or vesting of any of the long-term savings plans is linked to the achievement of certain targets or parameters related to the director's short- and long-term performance.

2022

Under the provisions of the Remuneration Policy to be submitted to the approval of the General Shareholders' Meeting in 2022, the Company's CEO is entitled to receive an annual pension scheme contribution. The pension plan is structured as a defined-contribution scheme whose annual amount is the difference between 15% of the director's fixed annual remuneration in cash and the amount in benefits actually received by the CEO during the financial year. It should also be noted that the CEO may choose each year, on the one hand, the amount to be allocated to each benefit, always keeping the maximum cost equal to 15% of his fixed remuneration in cash, and, on the other hand, whether he wishes to reduce his fixed remuneration to invest the amount of such reduction in a pension plan.

In terms similar to financial year 2021, the Company is expected to contribute to the CEO's pension scheme during the financial year 2022.

The only limitation or restrictive condition relating to the executive director's enjoyment of the pension scheme is that its enjoyment shall be executed in accordance with what is set forth in the Spanish applicable regulations. The plan is compatible with the payments arising from the termination of the contractual relationship between the executive director and Applus.

Also under the provisions of the Remuneration Policy to be submitted to the approval of the General Shareholders' Meeting in 2022, the Company's CFO may choose to receive an annual contribution to his pension plan during the financial year, which will have a maximum total cost equal to 15% of his fixed remuneration. He/she may also decide each year, on the one hand, the amount to be allocated to each advantage, including the aforementioned pension plan, always keeping the maximum cost equal to 15% of his fixed remuneration in cash and, on the other hand, whether he wishes to reduce his fixed remuneration to invest the amount of the reduction in a pension plan.

In terms similar to financial year 2021, the Company is expected to contribute to the CFO's pension scheme during the financial year 2022.

The pension plan is structured as a defined-contribution scheme and the only limitation or restrictive condition relating to the executive director's enjoyment of the pension scheme is that its enjoyment shall be executed in accordance with what is set forth in the Spanish applicable regulations. The plan is compatible with the payments arising from the termination of the contractual relationship between the executive director and Applus.

2021

The long-term savings schemes under the Remuneration Policy approved in 2019 are described in section B.9.

A.1.8 Any class of payment or indemnity for early termination or cessation or arising from the termination of the contractual relationship on the terms established between the company and the director, whether the cessation is at the will of the company or the director, as well as any class of agreement entered into, such as exclusivity, post-contractual non-compete, continuance in office or loyalty agreements, that entitle the director to any payment.

2022

Applus has committed to the following payments, indemnities and covenants vis-à-vis the Executive Directors, which will become effective in the event of approval of the amendment to the Remuneration Policy to be proposed at the 2022 Annual General Meeting::

- (i) Exclusivity: Executive Directors have an exclusivity obligation vis-à-vis the Company on the terms described in the following sub-section, which is not specifically remunerated.
- (ii) Termination: Executive Directors are not entitled to any consideration as a result of the mere termination of their agreement, except as provided for in the post-contractual non-compete agreement.
 - However, if one of the Executive Directors or the Company fails to comply with the six months' notice period in whole or in part, the other party would be entitled to compensation equivalent to the fixed remuneration of the Executive Director concerned for the duration of the breached notice period.
- (iii) Post-contractual non-compete: The Executive Directors are not to compete against the Company or any company of the Applus group. The Executive Director's non-compete undertaking will have a duration of two years from the termination of his agreement. In consideration thereof, the Executive Director shall be entitled to receive an amount equal to twice the annual fixed cash remuneration received in the last year before termination of the agreement, to be paid during the 24 months following such termination in equal monthly instalments. This amount shall be reduced by the amount if any, that the Company must pay to the Executive Director as statutory indemnity -which may arise from the application of the relevant statute- for the termination of the agreement, so that the total amount to be received by the Executive Director after the termination of the agreement does not exceed, in any case, twice the annual fixed remuneration received in the last year before the termination of the agreement. If the Executive Director breaches this covenant and competes with the Company or any group company, he must repay the amounts paid by the Company in compensation for the agreement. Executive Directors' termination payments comply with the provisions of the Corporate Governance Code for listed companies and protect the Group through a two-year post-contractual non-competition covenant.

Other than as stated above, Applus has not agreed to any other payments or indemnities for termination or early termination or arising from the termination of the contractual relationship with its directors, or any agreements such as exclusivity, post-contractual non-compete, continuance in office or loyalty agreements entitling its directors to any payment whatsoever.

2021

All payments, indemnities and covenants vis-à-vis the Executive Directors undertaken by Applus under the Remuneration Policy approved in 2019 are described in section B.10.

A.1.9 State the terms and conditions that must be included in the contracts of executive directors performing senior management duties. Include information regarding, among others, the term, limits on termination compensation amounts, continuance in office clauses, notice periods, and payment *in lieu* of the aforementioned notice periods, and any other clauses relating to hiring bonuses, as well as compensation or golden parachutes due to early termination of the contractual relationship between the company and the executive director. Include among other things any noncompete, exclusivity, continuance in office or loyalty, and post-contractual non-compete clauses or agreements, unless they have been explained in the preceding sub-section.

2022

The essential terms and conditions of the agreements with the Executive Directors are, in addition to those relating to their remuneration, as set out below. They will come into effect in the event of approval of the amendment to the Remuneration Policy to be proposed at the 2022 Annual General Meeting:

- (i) Term: The agreements with the Executive Directors are for an indefinite term, but may be terminated for any reason at any time without any compensation for termination. The reason for this is that the statutory amount payable on termination, if any, will be deducted from the non-competition payment thus keeping this undertaking in full force and effect. This clause has been agreed in the non-competition provisions entered into between the Company and the Executive Directors.
- (ii) Exclusivity: While they are performing executive duties, the Executive Directors must not hold any direct or indirect interest in any other business or activity that could represent a conflict of interests concerning their obligations and responsibilities in the Company or concerning the activity thereof and of the Applus group.
- (iii) Termination: The contracts of the Executive Directors may be terminated at any time at the will of the relevant Executive Director or the Company, provided that it is notified in writing to the other party with six months' notice. If this notice period is breached, the breaching party must pay the other the compensation described in the preceding sub-section.
- (iv) Post-contractual non-compete: See preceding sub-section. Additionally, the provision of any kind of service, whether on his behalf or for a third party, or in an executive or merely advisory capacity, or the direct or indirect promotion of the creation of companies or entities that will carry on a competing business, as well as shareholding participation in such companies or entities, shall be deemed to be competition. Any activity that at the time of termination of the Executive Director's agreement is being carried on by any company of the group or is expected to be started in the following 12 months shall be deemed to be a competing business. Moreover, the Executive Director is not to hire or participate in the hiring of employees who are or have been part of the workforce of the Company or any company of the group at the time of termination of his agreement or in the preceding 12 months. Such non-competition covenant is binding so that neither the Company can waive the payment commitments nor the Executive Director can compete and waive his right to be paid.
- (v) Shareholding retention: Executive Directors will hold 1/3 of the net number of shares received by them each year, by way of vesting of all RSUs and PSUs, until they accumulate a number of shares whose value (calculated at the value of the shares on the day of grant) is equal at least to twice their net fixed remuneration. Thereafter, they shall hold shares with a value corresponding at least to twice their net fixed remuneration. This commitment shall cease in the event of termination of their services to the Group or upon a change of control.
- (vi) Supplementary pension or early retirement systems: Executive Directors shall not have supplementary pension or early retirement systems, but shall be entitled to the contributions to pension plans by the Company under the terms described in section A.1.1.

<u>2021</u>

The essential terms and conditions of the Executive Directors' agreements under the Remuneration Policy approved in 2019 are described in section B.11.

A.1.10 Explain the nature and estimated amount of any other supplementary remuneration that will be accrued by the directors during the current financial year as consideration for services provided other than those inherent to their position.

2022

No directors have provided or are expected to provide services other than those inherent to their position during the current financial year, for which reason they have not accrued and are not expected to accrue any supplementary remuneration for said items.

A.1.11 Other remuneration items such as any deriving from the company granting the director advances, loans, guarantees or other remuneration.

2022

As at the date of this report, the Company has not granted its directors any other remuneration items such as any deriving from advances, loans, guarantees or other remuneration.

A.1.12 Explain the nature and estimated amount of any other scheduled supplementary remuneration not included in the preceding sub-sections, whether paid by the entity or another entity of the group, that will be accrued by the directors during the current financial year.

2022

No supplementary remuneration of this nature has accrued or is expected to accrue during the current financial year.

- A.2 Explain any significant changes in the remuneration policy applicable to the current financial year arising from:
 - a) A new policy or an amendment to the policy previously approved by the shareholders at the General Meeting.
 - b) Significant changes in the specific determinations established by the board for the current financial year for the current remuneration policy, in comparison with those applied in the preceding financial year.
 - c) Proposals that the board of directors has resolved to present to the shareholders at the general shareholders' meeting to which it will submit this annual report and which are proposed to be applied to the current financial year.

2022

The ARC annually reviews the Remuneration Policy to ensure that it is aligned with the entity's situation and short-, mediumand long-term strategy and with market conditions and to assess whether it contributes to the creation of long-term value and to adequate risk control and management, amending it if necessary as has been the case in previous years. In preparation for this review, each January the Chair of the ARC conducts a formal dialogue process with the main investors and proxy advisors involving the review of the existing policy and a request for assessments and opinions concerning the improvement thereof.

A new Remuneration Policy for the financial years 2022, 2023 and 2024 is expected to be proposed to the next General Meeting of Shareholders to be held in 2022, unless the General Meeting resolves to amend or replace it during such period, on the terms set out in sections A.1.1, A.1.2, A.1.8 and A.1.9.

A.3 Provide a direct link to the document featuring the company's current remuneration policy, which must be made available on the company's website.

 $\frac{https://www.applus.com/en/dam/jcr:9082bb58-3750-4bb4-9b03-84642d3b3320/191204-Applus+\ Remuneration\%20Policy\%20Directors.pdf}{}$

A.4 Taking into account the information provided in section B.4, explain how the shareholders' votes at the general meeting at which the annual remuneration report for the previous financial year was submitted for a consultative vote have been taken into account.

The consultative vote of the shareholders at the General Shareholders' Meeting held in 2021 in relation to the Annual Report on Director Remuneration for the previous financial year was very positive (80.61% of votes in favour, 16.60% against, 0% of blank votes and 2.80% abstentions), so that the new Remuneration Policy to be submitted to the 2022 General Shareholders' Meeting maintains in equivalent terms the remuneration regime provided for in the Remuneration Policy approved in 2019.

B OVERALL SUMMARY OF THE APPLICATION OF THE REMUNERATION POLICY DURING THE LAST FINANCIAL YEAR

B.1.1 Explain the process followed to apply the remuneration policy and determine the individual remuneration outlined in section C of this report. This information will include the role of the remuneration committee, the decisions taken by the board of directors and, if applicable, the identity and role of external advisors whose services have been used in the process of applying the remuneration policy during the last financial year.

2021

The ARC is the body that assists the Board concerning the remuneration policy under the authority granted to it for such purpose by the Regulations of the Board. The ARC submitted to the Board, for approval at its meeting of 20 February 2019, the proposal to amend the Policy applicable during the financial year ended. Such policy was approved by the Meeting in 2019, upon the advice of Mercer Consulting.

Likewise, under the provisions of section 529 septdecies of the Spanish Corporate Enterprises Act (Ley de Sociedades de Capital) and article 25.1 of the Regulations of the Board, it is for the Board to determine the distribution of the overall sum approved by the shareholders at the General Meeting among the directors, taking into consideration the duties and responsibilities allocated to each director.

Thus, under the terms of the Policy for years 2019, 2020 and 2021, the Board applied the Policy as described in section C upon a proposal from the ARC.

Proprietary and executive directors shall not receive remuneration for their position on the Board or its Committees. The maximum total annual amount of remuneration for directors in their capacity as such is EUR1,500,000. The remuneration of each director agreed for 2021 by the Board was EUR 60,000 for members other than the Chairperson, EUR 250,000 for the Chairperson, EUR 20,000 per committee for members of any Committee other than its Chairperson, and EUR 30,000 per committee for the Chairperson of any Committee.

As regards the remuneration of the Executive Directors for the performance of his executive duties, their fixed remuneration in cash for the financial year 2021 is as described in the Policy, and their actual variable remuneration has been determined by the Board upon a proposal from the ARC (process described in detail in section B.7).

The CEO's remuneration for the performance of his executive duties has also been aligned with the provisions of the Policy, so that he has received a fixed remuneration in cash corresponding to the amount established (EUR 750,000.00), benefits actually received at a total cost of approximately EUR 31,834,28 (of which EUR 10,810.08 correspond to a cash payment linked to the benefits to bring the currently received benefits into line with the agreement reached with the CEO at the time he was hired), a contribution to his pension scheme in the approximate gross amount of EUR 43,165.72 (being the difference between 10% of his fixed remuneration in cash and the total cost of benefits actually received), variable annual remuneration accrued in 2021 and payable in 2022 of EUR 617,400 (EUR 385,875 in cash and EUR 231,525 in RSUs which were consolidated), calculated in accordance with the Policy, and 51,291 PSUs granted under the long-term incentive (60% of his fixed remuneration of EUR 450,000 divided by the referred average Applus share price of EUR 8.7735 per share) and which will be converted into shares, in February 2024. 28,179 RSUs have been granted to the CEO, which is the target base (EUR 600,000) times the level of Applus' performance in 2021 measured according to the parameters (102.9%) and by the percentage of the remuneration payable in RSUs (37.5%) and dividing the result by the average value of the share in the 30 days before the date of grant (EUR 8.216 per share). In addition, 0 PSUs were vested into shares out of the 39,805 PSUs granted in 2018 under the incentive plan (as the targets were not met during the period described above). The RSUs granted in previous years (13,970 RSUs) were vested into shares in February 2021, but were awarded net of tax, i.e. 7,594 shares

The CFO's remuneration for the performance of his executive duties has been aligned with the provisions of the Policy, meaning that he has received a fixed remuneration in cash corresponding to the amount established in said Policy (EUR 267,343), benefits actually received with a total cost of approximately EUR 33,080.00 (of which EUR 12,335.95 correspond to a cash payment linked to the benefits to bring the currently received benefits into line with the agreement reached with the CFO at the time he was hired), a contribution to his pension scheme in the amount of EUR 2,000 gross approximately (which is the difference between the EUR 35,080 total maximum cost of other benefits and the cost of the benefits actually received), 6,649 RSUs as fixed remuneration which consolidated and will be converted into Applus shares in February 2024, an annual variable remuneration accrued during 2021 and payable in 2022 of EUR 194,226 (EUR 97,113 in cash and 97,113 in RSUs, which vested), also calculated in accordance with the provisions of the Policy, and 6,649 PSUs granted under the long-term incentive plan (EUR 58,333 divided by the referred average Applus share price of EUR 8.7735 per share) and which will be converted into shares in February 2024. The CFO has been granted 11,820 RSUs, which is the target base (EUR 188,753) times the level of performance in 2021 measured against the parameters (102.9%) and by the percentage of the remuneration payable in RSUs (50%) and dividing the result by the average value of the share in the 30 days before the date of grant (EUR 8.216 per share). 0 PSUs (out of the 5,159 PSUs granted in 2018 in his capacity as CFO under the incentive plan) have vested and been redeemed. The RSUs granted in past years to the CFO (5,159 RSUs by way of fixed remuneration in 2018 and 8,576 RSUs as variable remuneration) were vested into shares in February 2021, although they were awarded net of tax, i.e. 2,933 shares and 4,877, shares respectively.

In addition, the Execitive Directors were each entitled to receive, under the long-term incentive plan, a financial payment equal to the value of the dividends that would have been paid on the gross PSUs awarded in 2018 that were redeemed in 2021. As 0 PSUs were redeemed, no benefits have been received.

B.1.2 Explain any deviations from the procedure established for the application of the remuneration policy that have occurred during the financial year.

2021

During the financial year 2021, there were no deviations from the procedure established for the application of the remuneration policy.

B.1.3 Please disclose whether any temporary exceptions to the remuneration policy have been applied and, if so, explain the exceptional circumstances that have led to the application of these exceptions, the specific components of the remuneration policy affected and the reasons why the company considers that these exceptions have been necessary to serve the long-term interests and sustainability of the company as a whole or to ensure its viability. Please quantify the impact that the application of these exceptions has had on the remuneration of each director during the year.

2021

No temporary exceptions to the remuneration policy have been applied.

B.2 Explain the different actions taken by the company concerning the remuneration system and how they have contributed to reducing exposure to excessive risk and aligning the system to the company's long-term objectives, values and interests, including a reference to the measures taken to ensure that the accrued remuneration has taken into account the company's long-term results and an appropriate balance has been achieved between the fixed and variable remuneration components, what measures have been taken about those categories of staff whose professional activities have a material impact on the entity's risk profile, and what measures have been taken to avoid conflicts of interest if any.

2021

During the financial year 2019, Applus adapted its remuneration system, resulting in the approval by the Meeting in 2019 of a new Policy, applicable for financial years 2019, 2020 and 2021, as described in sections B.1.1 and B.7.

This review was due to the new appointment of the CFO as an Executive Director, which already had payments with a variable component, in shares. To reduce exposure to excessive risks and align the remuneration system with the long-term objectives, values and interests, the CFO's variable remuneration is linked to the achievement of targets, with accrual and payment deferral periods established and maximum limits on the amount thereof.

The review of the Policy introduced clawback clauses for the variable annual remuneration in RSUs of the Executive Directors following recommendation 63 of the Good Governance Code of Listed Companies.

Besides, the remuneration mix for the CEO was maintained, maintaining the form of calculating variable annual remuneration, part-payment thereof in shares, with a partial deferral of payment thereof, the link of the variable remuneration to the achievement of targets, with accrual and payment deferral periods established and maximum limits on the amount thereof.

The CEO's non variable remuneration consist of a fixed annual remuneration of EUR 750,000 (adjustable according to the CPI) and, benefits in kind with a maximum total cost equivalent to 10% of this fixed remuneration and a contribution to the pension plan for the difference between the cost of the benefits actually received and the aforementioned 10%. The aggregate value of the fixed and in kind components amounts to EUR 825,000 (adjustable in line with the CPI). The variable remuneration components of the CEO consist of: (i) an annual variable remuneration for a maximum amount of 150% of the target base set as 80% of the fixed remuneration (i.e., EUR 900,000) and (ii) a long-term incentive plan for a maximum annual amount equal to 120% of his fixed remuneration (i.e., EUR 900,000). As a result, the maximum variable remuneration items could represent up to approximately 218% of his non-variable items (percentage of the sum of EUR 900,000 and EUR 900,000 of variable items, divided by EUR 825,000 of non-variable items) if the respective targets were met in full.

The CFO's remuneration consist of a fixed annual remuneration of EUR 267,343 and benefits in kind with a maximum total cost of EUR 35,080 -which may include among other items a contribution to the pension plan of his choice- and rights over shares in the amount resulting from dividing EUR 58,333 by the average value of the share in the thirty days before the date on which such rights were granted. The aggregate value of the fixed components amounts to EUR 360,756. The variable remuneration components of the CFO consist of: (i) an annual variable remuneration for a maximum amount of 200% of the target base set as 70.6% of the fixed remuneration in cash (i.e., EUR 377,506) and (ii) a long-term incentive plan for a maximum annual amount equal to 200% of the amount of 58,333 (i.e., EUR 116,666). Consequently, the maximum variable remuneration items could represent up to approximately 137% of his non-variable items (percentage of the sum of EUR 377,506 and EUR 116,666 of variable items, divided by EUR 360,756 of non-variable items) if the respective targets were met in full.

Furthermore, to reduce exposure to excessive risks and adjust the remuneration system to the objectives, values and long-term interests, the amounts of the annual variable remuneration of the Executive Directors are linked (65%) to the achievement of adjusted operating profit targets and in a 35% to the adjusted operating cash-flow of the group. Thus, targets are set for each of these magnitudes and any increase or decrease is directly reflected in the amount of variable remuneration, with a maximum limit of 150% and 200% of the target base for the CEO and CFO, respectively, and a minimum for both of them of 0%. It is also provided that in the event of proven inaccuracies in the data taken into account to grant the RSUs, the Company may claim back the RSUs or the shares vested or an equivalent amount in cash.

In addition, the long-term incentive plan takes into account quantitative parameters (relative total shareholder return and adjusted earnings per share) calculated over a three-year period, which allows the long-term performance of the Company to be taken into account. In addition, a minimum threshold is established below which no vesting shall occur and maximum limits on the amount of the plan, and it is provided that in the event of proven inaccuracies in the data taken into account to calculate the amounts of this plan, the Company may claim back the amount net of withholdings, taxes or fees corresponding to the incentive actually received.

Concerning the measures established to avoid conflicts of interest, the aforementioned sub-section two of section A.1 describes the disclosure and abstention duties of directors in situations involving conflicts of interest, which were also applicable in the last financial year.

B.3 Explain how remuneration accrued and consolidated during the financial year complies with the provisions of the current remuneration policy and, specifically, how it contributes to the long-term and sustainable performance of the company.

Also, please report on the relationship between remuneration obtained by directors and results or other short- and long-term performance measures for the entity, explaining where applicable how fluctuations in the company's performance may have influenced fluctuations in director remuneration, including accruals the payment of which is deferred, and how they contribute to the company's short- and long-term results.

2021

The remuneration of Directors in their capacity as such complies with the provisions of the current Policy given that the maximum total approved by the shareholders at the Meeting has been respected, the individual remuneration has been set based on the Policy, the Executive Directors have not received any remuneration for their membership of the Board or Committees, all the Directors have been reimbursed for duly justified expenses associated with travel and accommodation for purposes of attending meetings and the premiums for the civil liability insurance have been paid. Regarding the remuneration of the Executive Directors for the performance of their executive duties, they have complied with the provisions of the Policy as described in Section B.1.1.

The remuneration earned contributes to the long-term and sustainable performance of the Company, as it is based on a system designed to promote it, which avoids excessive risk-taking and the rewarding of unfavourable results. The Directors' remuneration is proportionate to the size of the Company, its economic situation and market standards of comparables. The remuneration of independent directors shall be such as is necessary but shall not be so high as to compromise their independence. The compensation system is based on market practices, to be capable of attracting, retaining and motivating the necessary talent.

The relationship between the variable remuneration components of the Executive Directors (described in detail under Section B.7) and the results or other measures of performance, short and long-term, of the Company, are as follows:

The annual variable remuneration of the Executive Directors consists of an annual variable amount, payable in cash and through the award of RSUs, linked to the achievement of targets (65% to the adjusted operating profit and 35% to the adjusted operating cash-flow of the Group).

In the case of the CEO, the variable amount will increase by 2% for each 1% increase over targets and decrease by 5% for each 1% decrease over targets. The target base of the variable remuneration is 80% of the fixed cash remuneration (maximum amount of 150% of the target base) (EUR 600,000 and EUR 900,000 respectively, with a minimum of EUR 0). For the CFO, the variable amount will increase by 2% for each 1% increase over target and decrease by 5% for each 1% decrease over target. The target base variable is 70.6% of the fixed cash remuneration (maximum amount of 200% of the target base) (EUR 188,753 and EUR 377,506 respectively, with a minimum of EUR 0). The bonus payout in 2021 measured according to the parameters of this remuneration scheme is 102.9% (101.5% achievement of adjusted operating profit target and 101.3% achievement of adjusted operating cash flow).

Moreover, the CEO and CFO have received 37.5% and 50% of their variable annual remuneration for 2021, respectively, in the form of RSUs.

To determine the number of RSUs to be awarded in both cases, the average share price of the Applus share in the 30 days before the date of grant of the RSUs will be used. Each RSU will be vested for one Applus share over a period of three years from the date of grant at a rate of 30% in each of the first two years and 40% in the last year.

The Company shall have the right to claim back any RSUs granted to the Executive Directors or the shares vested or an equivalent amount in cash if the information on which the grant of the RSUs was based are subsequently found to be inaccurate.

The long-term incentive plan (which started in 2016) means that Executive Directors will receive annually PSUs, each vested for one share in the Company three years after the date on which they were granted based on the level of achievement of certain benchmarks.

The CEO will receive each year PSUs for an amount of 60% of his fixed remuneration (EUR 450,000) and the CFO will receive each year PSUs for an amount of EUR 58,333, although depending on the level of compliance with the benchmarks referred to below, these amounts may ultimately vary. The value of each PSU will be equivalent to the average share price in the 30 days before the date of grant of the PSUs.

The number of PSUs to be converted will have a value depending on the level of achievement of such targets during the three years before conversion, so that such conversion corresponds to the performance of the Executive Directors during each three-years.

The following quantitative targets shall be taken into account: (a) target based on the relative total shareholder return over a three-year period, where the Company's TSR will be compared to an unweighted index made up of a group of comparable companies (40% of the total number of PSUs granted each year). 100% of the PSUs will vest if the TSR result is 1.67% per annum cumulatively higher than the index. For the period 2018-2020, no PSUs have been vested for this parameter; (b) a target for the adjusted earnings per share reported by Applus cumulatively over three years (60% of the total number of PSUs granted each year). The evaluation of the EPS target for this period was 0, and no PSUs were vested in connection with this target.

In the event of proven inaccuracies in the information taken into account to grant the PSUs, the Company may claim back the net amount, corresponding to such PSUs actually received.

B.4 Report on the result of the consultative vote of the shareholders at the general meeting on the annual report on remuneration for the previous financial year, stating the number of abstentions and negative, blank and affirmative votes cast in respect of such report:

_	Number	% of total
Votes cast	105,537,206	73.79%

	Number	% of votes cast
Negative votes	17,519,060	16.60%
Votes in favour	85,072,898	80.61%
Blank votes	0	0%
Abstentions	2,945,248	2.80%

Comments

B.5 Explain how the fixed components accrued and consolidated during the financial year by the directors in their capacity as such have been determined, their relative proportion for each director and how they have varied with respect to the previous year

<u>2021</u>

The Board of Directors determined the fixed components of remuneration of directors in their capacity as such during the previous financial year, upon a proposal from the ARC, within the limits set by the shareholders at the General Shareholders' Meeting and based on the criteria established in the Remuneration Policy, as described in section B.1.1.

On 8 April 2020, Applus announced by way of notice of other relevant information (comunicación de otra información relevante) that its Board of Directors had approved a 30% reduction of the annual fixed remuneration of the Directors in their capacity as such, and of the fixed cash remuneration of the Executive Directors, as part of the measures adopted by the Company as a consequence of the continuing severe disruption caused by the Coronavirus crisis (COVID-19). This measure was maintained for three months, after which the Board of Directors approved the reinstatement of the fixed annual remuneration of the Directors in their capacity as such, and of the fixed cash remuneration of the Executive Directors, at the levels provided for, under the terms of the Remuneration Policy. The ARC took note of this reduction. Accordingly, the remuneration accrued and consolidated in 2020 for directors in their capacity as such was as follows:

- Members of the Board of Directors other than the Chairperson: EUR 55,500.
- Chairperson of the Board of Directors: EUR 231,250.
- Members of a Board Committee other than its Chairperson: EUR 18,500 per committee.
- Chairperson of a Board Committee: EUR 27,750 for each Committee.

Neither the proprietary directors (there are none) nor the executive directors received or currently receive any remuneration for their position on the Board of Directors or any of its Committees.

Therefore, when comparing the fixed components accrued and consolidated by the directors in their capacity as directors in 2021 vs. 2020, the fixed components accrued and consolidated in 2021 have increased compared to 2020 due to the reduction of the remuneration in 2020.

The relative proportion of the fixed components of each director to the total remuneration of the directors in their capacity as such has been as follows: Mr Christopher Cole 33.4% (increasing from 31.8% in 2020), Mr John D Hofmeister 4.2% (decreasing from 10.2% in 2020 due to him no longer being a member of the Board from 24 May 2021), Mr Ernesto Mata 9.5% (increasing from 9.1% in 2020), Mr Richard C. Nelson 10.5% (decreasing from 11.4% in 2020 due to his resignation on 17 November 2021), Mr Nicolás Villen 10.7% (increasing from 10.2% in 2020), Ms Cristina Henriquez 9.5% (increasing from 9.1% in 2020), Ms Marie-Françoise Damesin 1.2% and Mr Brendan Connolly 1.5% (both unreported in 2020 due to their appointment on 17 November 2021).

B.6 Explain how the salaries earned and consolidated, during the year ended, by each of the executive directors for the performance of management functions have been determined, and how they have varied with respect to the previous year.

2021

The salary accrued and consolidated in the financial year 2021 for the CEO corresponds to that agreed by the General Meeting of Shareholders in the Remuneration Policy (i.e., EUR 750,000), and is higher than the salary accrued and consolidated in the financial year 2020 due to the reduction by 30% for three months, compared to the amount set out in the Policy, as set out in section B.5 above. The benefits correspond to what was agreed by the General Meeting of Shareholders in the Remuneration Policy (i.e., with a maximum amount of EUR 75,000) and have been maintained in equivalent terms to the previous year. Likewise, the salary of the CFO accrued and consolidated since his appointment in the financial year 2021 corresponds to that agreed by the General Meeting of Shareholders in the Remuneration Policy (i.e., EUR 267,343), and is higher than the salary accrued and consolidated in the financial year 2020 due to the reduction by 30% for three months, compared to the amount set out in the Policy, as set out in section B.5 above. The benefits correspond to what was agreed by the General Meeting of Shareholders in the Remuneration Policy (i.e., with a maximum amount of EUR 35,080) and have been maintained in equivalent terms to the previous year. Likewise, the fixed remuneration in RSUs of the CFO corresponds to that agreed by the General Shareholders' Meeting in the Remuneration Policy (i.e., the result of dividing EUR 58,333 by the average value of the Applus share in the 30 days prior to the grant date) and has been maintained in equivalent terms to the previous year.

B.7 Explain the nature and main features of the variable components of the remuneration systems accrued and consolidated during the last financial year.

In particular:

- a) Identify each remuneration scheme that has determined the different items of variable remuneration accrued by each director during the last financial year, including information on their scope, date of approval, implementation date, conditions for vesting if any, accrual and validity periods, criteria that have been used to evaluate performance and how it has impacted on the setting of the accrued variable amount, as well as the measurement criteria used and the period required to be able to properly measure all the stipulated conditions and criteria, explaining in detail the criteria and factors applied in terms of the time required and the methods to verify that the performance or other conditions to which the vesting of each component of variable remuneration was linked have been actually met.
- b) In the case of schemes involving share options or other financial instruments, the general features of each plan are to include information on the conditions for acquiring unconditional ownership thereof (consolidation) and for being able to exercise said options or financial instruments, including the price and exercise period.
- c) Refer to each director and their classification (executive director, proprietary external director, independent external director or other external directors), if they are beneficiaries of remuneration systems or schemes that incorporate variable remuneration.

d) If applicable, report on the established payment accrual, vesting or deferral periods of consolidated amounts that have been applied and/or periods for withholding/non-disposal of shares or other financial instruments, if any.

Explain the short-term variable components of the remuneration schemes

2021

There are only short-term variable remuneration components in favour of the Executive Directors. These components consist of a variable annual remuneration scheme approved in 2019 for the CEO in the terms in force in 2018 and approved for the CFO after his appointment by the shareholders at the General Shareholders' Meeting 2019 in terms equivalent to those he accrued as CFO.

The terms and conditions of this variable remuneration scheme, including its scope, accrual and validity periods, consolidation conditions, criteria used to evaluate performance and reflection thereof in the setting of the accrued variable amount, and criteria and measurement periods, describing criteria and factors applied as per the time required and the methods to verify effective fulfilment of the conditions, as well as the amounts accrued in 2021, are the following.

Annual variable remuneration:

The annual variable remuneration of the Executive Directors consists of an annual variable amount, payable in cash and through the award of rights to Applus shares known as restricted stock units ("**RSUs**"), linked to the achievement of targets (65% to the adjusted operating profit -AOP- and 35% to the adjusted operating cash-flow -AOCF- of the Group).

The approved AOP target for 2021 was 172,454 thousands of euros and the AOCF target was 176,330 thousands of euros.

In the case of the CEO, the variable amount will increase by 2% for each 1% increase over targets and decrease by 5% for each 1% decrease over targets. The target base of the variable remuneration has been set as 80% of the fixed cash remuneration and a maximum amount of 150% of the target base has been set (i.e., EUR 600,000 and EUR 900,000 respectively, with a minimum of EUR 0). For the CFO, the variable amount will increase by 2% for each 1% increase over target and decrease by 5% for each 1% decrease over target. The target base variable has been set as 70.6% of the fixed cash remuneration and a maximum amount of 200% of the target base has been set (i.e., EUR 188,753 and EUR 377,506 respectively, with a minimum of EUR 0). The bonus payout in 2021 measured according to the parameters of this remuneration scheme is 102.9% (101.5% achievement of adjusted operating profit target and 101.3% achievement of adjusted operating cash flow).

The payout of the annual variable remuneration of the Executive Directors is approved by the Board of Directors upon a proposal of the ARC, which is responsible for assessing in detail the degree of compliance with the targets with a sufficient verification thereof. Concerning such verification, the adjusted operating profit and adjusted operating cash flow are taken based on Applus' annual accounts after their preparation, review and reporting by the Company's auditor. For 2021, the assessment found compliance with both the adjusted operating profit target and the adjusted operating cash flow target.

Moreover, the CEO has received 37.5% of his variable annual remuneration for 2021 in the form of RSUs (the remaining 62.5% in cash), and the CFO has received 50% of his variable annual remuneration for 2021 in the form of RSUs (the remaining 50% in cash). To clarify, and by way of example only, if in any given year the amount of remuneration to be received were to coincide with the target variable remuneration (EUR 600,000) the CEO would receive EUR 375,000 in cash and EUR 225,000 in RSUs. Also, if in any given year the amount of remuneration to be received were to coincide with the target variable remuneration (EUR 188,753) the CFO would receive EUR 94,376 in cash and EUR 94,376 in RSUs.

To determine the number of RSUs to be awarded in both cases, the average share price of the Applus share in the 30 days before the date of grant of the RSUs will be taken into account. RSUs will be awarded each year on the day on which the Board approves the annual results of Applus and the amount of the annual variable remuneration of each executive director. Specifically, the RSUs corresponding to the financial year 2021 have been granted in February 2022.

Each RSU will be vested for one Applus share over a period of three years from the date of grant at a rate of 30% in each of the first two years and 40% in the last year (30% of the RSUs for 2021 will be vested for shares in February 2023, another 30% in February 2024 and the remaining 40% in February 2025). In addition, RSUs could be vested into shares early in certain circumstances.

The Company shall have the right to claim back any RSUs granted to the Executive Directors (or, if already vested for shares, the shares vested) or an equivalent amount in cash if the information on which the grant of the RSUs was based are subsequently found to be inaccurate.

Explain the long-term variable components of the remuneration schemes

2021

The Executive Directors are the only members of the Board entitled to long-term variable remuneration. These components consist of a long-term incentive plan that was approved by the shareholders at the General Shareholders' Meeting 2016 and which has remained unchanged to date, applying since then to the Executive Directors (in the case of the CFO, before his appointment by the General Shareholders' Meeting 2019, as CFO).

The terms and conditions of this incentive plan, including its scope, accrual and validity periods, consolidation conditions, criteria used to evaluate performance and the reflection thereof in the setting of the accrued variable amount, and criteria and measurement periods, describing criteria and factors applied as per the time required and the methods to verify effective fulfilment of the conditions, as well as the amounts accrued in 2021, are the following.

Long-term incentive plan:

The long-term incentive plan (which started in 2016 under the then-current Remuneration Policy) means that Executive Directors will receive annually performance stock units ("**PSUs**"), each vested for one share in the Company three years after the date on which they were granted based on the level of achievement of certain benchmarks.

Under this plan, the CEO will receive each year PSUs for an amount equivalent, initially, to 60% of his fixed remuneration (EUR 450,000) and the CFO will receive each year PSUs for an amount equivalent, initially, to EUR 58,333, although depending on the level of compliance with the benchmarks referred to below, these amounts may ultimately vary as indicated below. The value of each PSU will be equivalent to the average share price of the Company's shares in the 30 days before the date of grant of the PSUs.

PSUs will be granted each year on the day the Board of Directors approves Applus' annual results. The number of PSUs to be granted to the CEO may be adjusted during each financial year if his fixed remuneration is modified. However, the day on which the Board of Directors approves the results of the relevant year shall be taken as the day on which the additional PSUs are granted.

The PSUs granted in each financial year will be converted into shares within three years from the date of grant if the targets described below are met. The number of PSUs to be converted will have a value of between 0% and 120% of the fixed remuneration of the CEO and between 0% and 200% of EUR 58,333 in the case of the CFO, depending on the level of achievement of such targets during the three years before conversion, so that such conversion corresponds to the professional performance of the Executive Directors during each three-year period.

The ARC is responsible for assessing in detail the degree of compliance with the criteria and objectives established for the vesting of the incentive plan. Therefore, for the evaluation of the February 2021 incentive plan, and to perform a sufficient verification of such compliance, the ARC, on the one hand, requested PWC to provide an independent report evaluating the TSR benchmark, and on the other hand, used the annual accounts of Applus after their formulation, and their review and issuance of the report by the Company's auditor, to assess the EPS.

The following quantitative targets shall be taken into account for the conversion of PSUs:

(a) A target based on the relative total shareholder return ("TSR") over a three-year period, where the Company's TSR will be compared to an unweighted index made up of a group of comparable companies within the inspection and certification industry. These companies are SGS S.A., Intertek Group PLC, Core Laboratories, Inc., ALS Limited, Bureau Veritas S.A., Eurofins Scientific S.E., Mistras Group, Inc., TEAM Industrial Services, Inc.

This target will represent 40% of the total number of PSUs granted each year.

Out of this 40%, 50% of the PSUs will be converted into shares if the TSR figure is equal to the index and 200% of the PSUs will be converted into shares if such figure is 5% per annum cumulatively higher than the index. Between the index value and the TSR value entitling to a conversion into shares of 200% of the PSUs, the conversion will be made according to a linear interpolation between these two values. As a result, 100% of the PSUs will vest if the TSR result is 1.67% per annum cumulatively higher than the index.

If the TSR figure is below the index, no PSUs will accrue in respect of this target. For the period 2018-2020, no PSUs have been vested for this parameter.

(b) A target for the adjusted earnings per share (*Adjusted Earnings per Share* or "**EPS**") reported by Applus cumulatively over three years.

This target will represent 60% of the total number of PSUs granted each year.

The Board of Directors will establish specific thresholds for this parameter at which 50%, 100% and 200% (within the 60% that this benchmark represents) of the target PSUs will be converted into shares. The maximum number of PSUs that can be converted into shares is 200% of the target PSUs.

If the EPS figure is below the threshold entitling to a conversion of 50% PSUs into shares, no PSUs will vest in respect of this parameter.

The evaluation of the EPS target for this period was 0, and no PSUs were vested in connection with this target.

In the event of proven inaccuracies in the information taken into account to grant the PSUs, mechanisms will be established to enable the Company to claim back the amount, net of withholdings, taxes or fees, corresponding to such PSUs actually received by each executive director. In addition, PSUs may be converted into shares early in certain circumstances.

B.8 State whether certain accrued variable components have been reduced or reclaimed (malus/clawback), when payment of non-vested amounts has been deferred in the former case, or consolidated and paid in the latter case, based on information that has later been clearly proven to be inaccurate. Describe the amounts reduced or returned due to the application of malus/clawback clauses, why they have been enforced and the financial years to which they correspond.

2021

There was no reduction or reclaiming of any accrued variable component in the financial year 2021, as no inaccuracy was identified in the information used for purposes of calculation thereof.

B.9 Explain the main features of the long-term savings schemes whose annual equivalent amount or cost is included in the tables in Section C, including retirement and any other survival benefit, either partially or wholly financed by the company and whether funded internally or externally, stating the type of scheme, whether it is defined-contribution or defined-benefit, the contingencies it covers, the conditions for consolidation of economic rights in favour of directors, and the compatibility thereof with any class of indemnity for early termination or cessation of the contractual relationship between the company and the director.

<u>2021</u>

Under the provisions of the Remuneration Policy, the CEO of the Company is entitled to receive an annual contribution to his pension scheme. The pension plan is a defined contribution system whose annual amount is the difference between 10% of the Director's annual fixed cash remuneration and the amount of benefits actually received by the CEO during the year. The only limitation or restrictive condition for the enjoyment of the pension plan by the executive director is that its enjoyment shall be executed in accordance with what is set forth in the Spanish applicable regulations. The plan is compatible with payments arising from the termination of the contractual relationship between the executive director and Applus.

Also, under the provisions of the Remuneration Policy, the Company's CFO may elect to receive an annual contribution to his pension plan because of the benefits obtained during the financial year, which will have a maximum total cost equal to EUR 35,080. The pension plan is configured as a defined contribution system and the only limitation or restrictive condition for its enjoyment is that its enjoyment shall be executed in accordance with what is set forth in the Spanish applicable regulations. The plan is compatible with the payments arising from the termination of the contractual relationship between the executive director and Applus.

The amount contributed to the plan in 2021 is shown in section B.1.1 above.

B.10 Explain, if applicable, the indemnities or any other class of payment arising from early cessation, whether at the will of the company or the director, or from the termination of the contract on the terms provided therein, accrued and/or received by the directors during the last financial year.

2021

Applus has committed to the following payments, indemnities and covenants vis-à-vis the Executive Directors:

 (i) Exclusivity: Executive Directors have an exclusivity obligation vis-à-vis the Company as described in the following subsection, which is not specifically remunerated.

- (ii) Termination: The CEO is not entitled to any consideration as a result of the mere termination of their agreement, except as provided for in the post-contractual non-compete agreement. The CFO is entitled to a severance payment (net of tax) equal to twice the total net cash remuneration received in the year before the termination of his agreement in the event of (a) termination of the agreement decided by the Company, whatever its form, except in the event of disciplinary dismissal declared fair (despido disciplinario) by the labour courts in a final judgment and (b) termination of the agreement decided by the CFO himself, whatever its form and cause, except in the event of resignation or voluntary severance without cause.
 - If one of the Executive Directors or the Company fails to comply with the notice period (six months for the CEO and three months for the CFO), the other party would be entitled to compensation equivalent to the fixed remuneration of the relevant executive director for the duration of the breached notice period.
- (iii) Post-contractual non-compete: The Executive Directors shall not engage in competition with the Company or any company of the Applus group. The CEO's non-competition undertaking shall have a duration of two years from the termination of his contract. In return, the CEO shall be entitled to receive an amount equal to twice the annual fixed cash remuneration received in the last year before the termination of the contract, to be paid during the 24 months following such termination in equal monthly instalments. This amount shall be reduced by the amount if any, that the Company must pay to the CEO as statutory indemnity -which may arise from the application of the corresponding statutory rule- for the termination of the contract, so that the total amount to be received by the CEO after the termination of the contract does not exceed, in any case, twice the annual fixed remuneration received in the last year before the termination of the contract. This reduction shall be apportioned equally among the monthly payments to be made to the CEO. If the CEO breaches this commitment and competes with the Company or any group company, he shall return the amounts paid by the Company in compensation for the non-compete covenant.

In turn, the CFO's non-compete undertaking will have a duration of one year from the termination of his contract. As consideration, the CFO will be entitled to receive an amount equal to 50% of the fixed annual remuneration he is receiving at the date of termination of the contract, to be paid during the 12 months following such termination in equal monthly instalments. If the CFO breaches his undertaking, he must return the sums paid by the Company as consideration for the covenant and shall pay to the Company compensation in an equivalent amount (that is, 50% of the fixed annual remuneration that he is receiving at the date of termination of the contract).

Other than as stated above, Applus has not agreed to any other payments or indemnities for termination or early termination or otherwise arising from the termination of the contractual relationship with its directors, or any covenants such as exclusivity, post-contractual non-compete, continuance in office or loyalty covenants entitling its directors to any payment whatsoever.

However, on the occasion of the new Remuneration Policy for financial years 2022, 2023 and 2024 to be submitted for approval at the 2022 Annual General Meeting of the Company, Applus will assume the payments, indemnities and covenants in respect of the Executive Directors set out in section A.1.8 above.

In 2021, no severance or other payments whatsoever were accrued or received by any director of Applus as a result of the early termination or expiry of their agreements.

B.11 State whether there have been significant amendments to the contracts of those performing senior management duties as executive directors and explain them, if applicable. Also explain the main terms and conditions of new contracts signed with executive directors during the financial year, unless already explained in section A.1.

2021

No amendments have been made to the contracts of Executive Directors in 2021, whose terms and conditions -in addition to those relating to remuneration- are as follows:

- (i) Term: The contracts with the Executive Directors are of indefinite duration.
- (ii) Exclusivity: While performing executive duties, the Executive Directors shall not have any direct or indirect interest in any other business or activity that could entail a conflict of interest regarding their duties and responsibilities in the Company or concerning the activity of the Company and the Applus group.
- (iii) Termination: The contracts with the Executive Directors may be terminated at any time at the will of the relevant executive director or of the Company, provided that written notice is given to the other party (six months' notice in the case of the CEO and three months' notice in the case of the CFO). In the event of non-compliance with this period of notice, the defaulting party shall pay to the other party the compensation referred to in the preceding sub-section.

(iv) Post-contractual non-compete: See above. Likewise, in the case of the CEO, competition shall be understood as the provision of any type of service, on his own account or on behalf of others, whether in executive or advisory functions, or the direct or indirect promotion of the creation of companies or entities that will develop a competing business, as well as the holding of any stakes in such companies or entities. A competing business shall be understood to be any activity which, at the time of termination of the CEO's contract, is being carried on by any group company or which it is planned to commence within the following 12 months. Furthermore, the CEO shall not engage or participate in the engagement of employees who, at the time of termination of his contract or within the preceding 12 months, are or have been employed by the Company or any group company.

In the case of the CFO, competition shall mean the performance of the following activities or actions, on behalf of or for its own account or for the account of others, directly or indirectly: (a) producing, offering, offering, distributing or marketing the same or similar products or services to those being offered or planned to be offered by the group at the time of termination of the contract; (b) making offers, proposals, seeking or approaching or inducing to engage natural or legal persons to whom the CFO is aware that Applus, its subsidiaries or its investees have provided them with goods or professional services at any time during the two years prior to the termination date, or were negotiating with Applus or any other group company for the performance of activities or services for the Applus group at the aforementioned termination date; or (c) in relation to persons who, on the termination date of the contract, or in the six months prior thereto, were employed by Applus or any group company, make offers or proposals to them or induce or solicit them to leave Applus or any group company, or engage or employ them for another person or cause them to be engaged by another person carrying on business in competition with any of the businesses of the Applus group.

Note that, on the occasion of the new Remuneration Policy for 2022, 2023 and 2024 to be submitted for approval at the 2022 Annual General Meeting of the Company, the contracts of the Executive Directors will be modified as described in sections A.1.8 and A.1.9 above.

B.12 Explain any supplementary remuneration accrued by the directors as consideration for services provided other than those inherent to their position.

2021

The directors did not provide services other than those inherent to their position in the financial year 2021, and therefore no additional remuneration has been accrued in this respect.

B.13 Explain any remuneration arising from the grant of advances, loans and guarantees, stating the interest rate, the essential features thereof and any amounts reimbursed, as well as the obligations assumed under the guarantee.

2021

No remuneration has accrued for these items and no obligation of this nature was assumed in the financial year 2021.

B.14 Describe the remuneration in kind accrued by the directors during the financial year, briefly explaining the nature of the different salary components.

2021

The remuneration in kind is only for the Executive Directors. Under the Remuneration Policy, the CEO shall receive other benefits to a maximum cost equal to 10% of the annual fixed remuneration in cash. In addition, each year the Company will contribute to the CEO's pension plan an amount equal to the difference between the aforementioned 10% of his fixed remuneration and the cost of the benefits actually received by the CEO in that year.

Under the provisions of the Remuneration Policy, the CFO shall receive other benefits to a maximum cost equal to EUR 35,080, which may include, among other items, a contribution to the pension plan of his choice.

In the financial year 2021, the CEO has accrued benefits as remuneration in kind at a total cost of benefits received of EUR 31,834.28. These benefits include the use of a company vehicle and fuel, medical insurance for him and his family (including an annual check-up for him and his wife), and life insurance (with an indemnity of EUR 150,000 in the event of death or permanent disability and of EUR 300,000 in the event of accidental death). In addition, during the financial year 2021, the Company has contributed to the CEO's pension scheme a gross amount of EUR 43,165.72.

In the financial year 2021, the CFO has accrued benefits as remuneration in kind at a total cost of benefits received of EUR 33,080.00. These benefits include the use of a company vehicle and fuel, medical insurance for him and his family (including an annual check-up for him and his wife) and life insurance (with an indemnity of EUR 608,015 in the event of death or permanent disability and of EUR 1,216,030 in the event of accidental death), membership and professional association fees. In addition, during the financial year 2021, the Company has contributed to the CFO's pension scheme a gross amount of EUR 2,000.00.

B.15 Explain the remuneration accrued by the director under payments made by the listed company to a third-party entity in which the director provides services, when said payments are intended to remunerate the services thereof within the company.

2021

No such payments were made in the financial year 2021.

B.16 Explain and detail the amounts accrued during the year in relation to any other remuneration item other than those listed above, whatever its nature or the group entity paying it, including all benefits in any form, such as when it is considered a related-party transaction or, especially, when it significantly affects the true and fair view of the total remuneration accrued by the director, explaining the amount granted pending payment, the nature of the consideration received and the reasons why it would have been considered, where appropriate, that it does not constitute remuneration to the director in his capacity as such or in consideration for the performance of his executive duties, and whether or not it has been considered appropriate to include it among the amounts accrued under "other items" in section C.

2021

During the financial year 2021, the CEO has accrued a cash supplement of EUR 10,810.08 correspond to a cash payment linked to the benefits to bring the currently received benefits into line with the agreement reached with the CEO at the time he was hired. This supplement is associated with the corresponding benefits, and would not be received if said benefits were to disappear. This cash amount of EUR 10,810.08 is shown in Table C1 of this report under the "Other items" section of the company's remuneration accrued in cash and is included in the cost of the benefits actually received by the CEO, excluding contributions to the pension scheme (EUR 43,165.72).

Similarly, during the financial year 2021, a cash supplement of EUR 12,335.95 has accrued to the CFO, correspond to a cash payment linked to the benefits to bring the currently received benefits into line with the agreement reached with the CFO at the time he was hired. This allowance is linked to the corresponding benefits, and would not be received if these benefits were to disappear. This cash amount of EUR 12,335.95 is reflected in table C1 of this report under the "Other items" section of the remuneration paid by the Company in cash and is included in the cost of the benefits actually received by the CFO, excluding contributions to the pension scheme (EUR 2,000.00).

Comments

The accrued remuneration for the year t-1 includes the reduction approved in 2020 of 30% of the remuneration for three months on the annual fixed remuneration of the directors in their capacity as such, and the fixed cash remuneration of the Executive Directors concerning the amounts provided for the year, as part of the measures taken by the Company as a consequence of the continuing severe disruption caused by the Coronavirus crisis (COVID-19). The remuneration accrued for the following directors corresponds to the period of less than one year during which they were members of the Board of Directors and its Committees due to their appointment or resignation during the year:

- Mr John Daniel Hofmeister was no longer a member of the Board from 24 May 2021.
- Mr Richard Campbell Nelson resigned on 17 November 2021.
- Ms Maria José Esteruelas Aguirre was appointed as a member of the Environmental, Social and Governance Responsibility Committee on 17 November 2021.
- Mr Christopher Cole was appointed as Chairman of the Nomination and Remuneration Committee on 24 May 2021 but received no remuneration on this respect.
- Ms Marie-Françoise Madeleine Damesin was co-opted as an independent director on 17 November 2021.
- Mr Brendan Wynne Derek Connolly was co-opted as an independent director on 17 November 2021.

Under the long-term incentive plan, Mr Fernando Basabe Armijo and Mr Joan Amigó did not receive in February 2020 economic benefits equal to the value of the dividends that would have been paid on the gross PSUs awarded in 2018 which would have vested in 2021. As no PSUs were vested, no dividends have been received in this regard.

Messrs. Fernando Basabe Armijo and Joan Amigó received a cash supplement included in the cost of the benefits actually received (EUR 10,810.08 and EUR 12,335.95, respectively).

Comments

During the financial year 2021, the CEO accrued (i) 28,179 RSUs by way of variable remuneration (awarded in 2022, which were accured in the financial year 2021); and (ii) 51,291 PSUs under the long-term incentive plan awarded in 2021, subject to a three-year vesting period. In addition, 13,970 RSUs granted in 2018, 2019 and 2020 as variable remuneration were vested into shares in 2021 (7,594 shares were awarded net of taxes), and no PSUs (out of the 39,805 PSUs granted in 2018 under the long-term incentive plan which would have vested) were vested.

During the financial year 2021, the CFO accrued (i) 6,649 RSUs by way of his fixed remuneration awarded in 2021, which were accrued in the financial year 2021; and (ii) 11,820 RSUs in relation to his variable remuneration (awarded in February 2022, which were accrued in the financial year 2021); and (iii) 6,649 PSUs under the long-term incentive plan awarded in 2021, subject to a three-year vesting period. In addition, 5,159 RSUs granted as his fixed remuneration in 2018 have been vested into shares in 2021 (despite Applus' shares having been awarded net of taxes (i.e. 2,933 shares)), as well as 8,576 RSUs in relation to his variable remuneration granted in 2018, 2019 and 2020 (despite Applus' shares having been awarded net of taxes (i.e. 4,877 shares)), and no PSUs (out of the 5,159 PSUs granted in 2018 under the long-term incentive plan which would have vested) were vested.

The price of the vested shares has been (i) EUR 8.75 for the RSUs relative to the CFO's fixed remuneration and for the PSUs granted in 2018 if they had vested in 2021 (no PSUs vested); and (ii) EUR 8.216 for the RSUs relative to the variable remuneration (awarded in February 2022).

The number of shares held by members of the Board of Directors is publicly available on the Board of Directors page of the Company's corporate website.

Comments

Fields marked N/A correspond to financial years before the appointment of the relevant director.

Concerning variations considered significant: for the 2018 financial year, the 74.34% decrease in the remuneration of Mr Fernando Basabe is due to the fact that, in the 2017 financial year, higher amounts were consolidated than in the 2018 financial year under share-based remuneration systems and consequent gross profit from consolidated shares or financial instruments within the framework of his variable remuneration. The 23.48% increase in Mr Christopher Cole's remuneration is due to his appointment as a member of the Nomination and Remuneration Committee in 2018, which resulted in additional remuneration. For the financial year 2019, the increase by 36.04% in the remuneration of Mr Fernando Basabe is due to the fact that higher amounts were consolidated than in the financial year 2018 under share-based remuneration systems and consequent gross profit from consolidated shares or financial instruments within the framework of his variable remuneration. For the 2020 financial year, the 78.71% increase in the remuneration of Mr Joan Amigó Casas is due to the fact that 2020 was his first full financial year as Executive Director, and consequently, higher amounts were consolidated than in the 2019 financial year under share-based remuneration systems and consequent gross profit from consolidated shares or financial instruments within the framework of his variable remuneration. Furthermore, the increase of 15.63% and 27.59% in the remuneration of Ms María José Esteruelas and Ms Essimari Kairisto is due to the fact that it was their first full year as directors. For the 2021 financial year, the 45.78% decrease in the compensation of Mr. John Daniel Hofmeister is due to the fact that he resigned from all his positions, which led to a decrease in his compensation. Moreover, the -23.12% decrease in the remuneration systems and consequent gross profit from consolidated shares or financial instruments within the framework of his variable remuneration.

Independent Limited Assurance Report

Alternative Performance Metrics

- AD IDIADA accelerated depreciation, to adapt assets useful life to contract/concession duration
- Adjusted measures are stated before other results
- AOP, Adjusted Operating Profit
- CAGR, Compounded Annual Growth Rate
- Capex, realized investments in property, plant & equipment or intangible assets
- Cash conversion, calculated as the ratio of EBITDA minus capex & change in working capital over EBITDA
- EBITDA, measure of earnings before interest, taxes, depreciation and amortisation
- EPS, Earnings per share
- EV, Electrical Vehicle
- FX, Foreign exchange
- Free Cash Flow, operating cash generated after capex investment, working capital variation and tax & interest payments and before leases
- Leverage, calculated as Net Debt/LTM Ebitda as per bank covenant definition
- LTM, Last twelve months
- **Net Debt**, current and non-current financial debt, other institutional debt less cash. As per bank covenant definition, calculated at annual average exchange rates and pre-IFRS16
- Net Profit, measure of earnings operating profit after interest, taxes and minorities
- Operating Profit, measure of earnings before interest and taxes
- Other results are those impacts corrected from the relevant measures to provide a better understanding
 of the underlying results of the Group, for example: amortisation of acquisition intangibles, restructuring,
 impairment and transaction & integration costs
- P.A., per annum
- PPA Amortisation corresponds to the amortisation of the Purchase Price Allocation related to acquisitions, allocated to intangible assets and Goodwill reduction for finite life concessions
- ROCE, Net Adjusted Operating Profit After Tax/Capital Employed
- WC, Working Capital

Research and Development activities

Innovation is one of the pillars of the CSR policy of the Applus Group. In the Corporate Social Responsibility Report (which is part of this consolidated management report can be consulted in the subsequent annexes of this report. They are also available in Applus Group webpage and in the "Comisión Nacional del Mercado de Valores" (CNMV)'s webpage) all the issues related to Research and Development activities are described in detail.

Treasury share transactions

At 31 December 2021, the Group held a total of 408,098 treasury shares at an average cost of EUR 8,40 per share. The value of these treasury shares totalled EUR 3,427 thousand, which is recognised under "Treasury Shares" in the accompanying consolidated statement of financial position as at 31 December 2021 (see Note 3.x).

At 31 December 2020, the Group held a total of 317,809 treasury shares at an average cost of EUR 8.38 per share. The value of these treasury shares totalled EUR 2,664 thousand, which is recognised under "Treasury Shares" in the accompanying consolidated statement of financial position as at December 2020 (see Note 3.x).

Events after the reporting period

No events have occurred since 31 December 2021 other than those described in the notes to the accompanying consolidated financial statements.

Use of financial instruments

The Group uses financial derivatives to eliminate or significantly reduce certain interest rate and foreign currency risks relating to its assets. During 2021 the Group has not acquired any financial derivative instruments.

Disclosures on the payment periods to suppliers

The Group companies with tax residence in Spain adapted their payment periods in line with Additional Provision Three "Disclosure Obligation" of Law 15/2010, of 5 July (amended by Final Provision Two of Law 31/2014, of 3 December). Detailed below are the disclosures required by the Spanish Accounting and Audit Institute (ICAC) Resolution of 29 January 2016 to be included in notes to the financial statements in relation to average payment periods to suppliers in commercial transactions.

	2021	2020	
	Days		
Average payment period to suppliers	60	64	
Ratio of transactions settled	61	66	
Ratio of transactions not yet settled	49	52	
	Thousand	s of Euros	
Total payments made	161,073	143,740	
Total payments outstanding	19,610	20,547	

The data shown in the table above relates exclusively to the Spanish companies. The data referred to payments to suppliers relate, pursuant to the ICAC Resolution, to commercial transactions relating to goods supplied and services provided since the entry into force of Law 31/2014, of 3 December 2014.

Suppliers, solely for the purpose of disclosing the information provided for in this resolution, are considered to be trade creditors for the supply of goods and services and are included under "Current liabilities - Trade and other payables" in the accompanying consolidated statement of financial position.

"Average payment period to suppliers" is understood to be the period between the supply of the goods or the provision of the services on the supplier's account and the effective payment of the transaction.

The maximum payment period applicable to the Spanish consolidated companies under Law 3/2004, of 29 December 2004, on combating late payment in commercial transactions, is 30 days. This period may be extended

by an agreement between the parties, but under no circumstances should be superior to 60 natural days (same legal period in 2020).

However, most of the payments outstanding by the Spanish consolidated companies at year end has been paid during the first two months of the year 2022.

This declaration is a translation for informative purposes only of the original document issued in Spanish, which has been signed for approval by every Board member. In the event of discrepancy, the Spanish-language version prevails.

The Board of Directors of Applus Services, S.A., in compliance with the current mercantile legislation, have authorised for issue on February 24, 2022 the Consolidated Financial Statements and Consolidated Director's Report, which include the non-financial information statement and the Annual Corporate Governance Report for 2021, in accordance with the formatting and markup established Commission Delegated Regulation (EU) 2019/815 of 17 December 2018 ("ESEF Regulation"). The aforementioned Financial Statements and Director's Report are integrated in the digital file with the BACB592B71729831B26580775A279A8A7D96B3DC004C9BB81C559A18E7955442 hash code included in the ZIP file with number 213800M9XCA6NR98E873-2021-12-31 (2)

The members of the Board of Directors declare signed, through this Diligence, the aforementioned Consolidated Financial Statements and Consolidated Directors' Report for 2021. They have been authorised for issue unanimously, awaiting on the auditors' verification and subsequent approval by the Parent's Annual General Meeting.

Barcelona, 24 February 2022
