In accessing the Prospectus, you agree to be bound by the following terms and conditions, including any modifications thereto.

NOTHING IN THIS ELECTRONIC TRANSMISSION CONSTITUTES AN OFFER TO SELL OR A SOLICITATION OF AN OFFER TO BUY THE NOTES DESCRIBED IN THE PROSPECTUS IN ANY JURISDICTION WHERE IT IS UNLAWFUL TO DO SO. ANY FORWARDING, DISTRIBUTION OR REPRODUCTION OF THE PROSPECTUS IN WHOLE OR IN PART IS UNAUTHORISED.

FAILURE TO COMPLY WITH THIS MAY RESULT IN A VIOLATION OF THE US SECURITIES ACT OF 1933 (AS AMENDED, THE "SECURITIES ACT") OR APPLICABLE LAWS OF OTHER JURISDICTIONS.

THE NOTES ARE NOT MEANT TO BE OFFERED, SOLD OR OTHERWISE MADE AVAILABLE TO AND SHOULD NOT BE OFFERED, SOLD OR OTHERWISE MADE AVAILABLE TO ANY RETAIL INVESTOR IN THE EUROPEAN ECONOMIC AREA ("EEA"). FOR THESE PURPOSES, A RETAIL INVESTOR MEANS A PERSON WHO IS ONE (OR MORE) OF: (I) A RETAIL CLIENT AS DEFINED IN POINT (11) OF ARTICLE 4(1) OF DIRECTIVE 2014/65/EU OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL OF 15 MAY 2014 ON MARKETS IN FINANCIAL INSTRUMENTS AND AMENDING DIRECTIVE 2002/92/EC AND DIRECTIVE 2011/61/EU (RECAST) (AS AMENDED, "**MIFID II**"); OR (II) A CUSTOMER WITHIN THE MEANING OF DIRECTIVE (EU) 2016/97 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL OF 20 JANUARY 2016 ON INSURANCE DISTRIBUTION (RECAST) (AS AMENDED, THE "**INSURANCE DISTRIBUTION DIRECTIVE**"), WHERE THAT CUSTOMER WOULD NOT QUALIFY AS A PROFESSIONAL CLIENT AS DEFINED IN POINT (10) OF ARTICLE 4(1) OF MIFID II; OR (III) NOT A QUALIFIED INVESTOR AS DEFINED IN REGULATION (EU) 2017/1129 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL OF 14 JUNE 2017 ON THE PROSPECTUS TO BE PUBLISHED WHEN SECURITIES ARE OFFERED TO THE PUBLIC OR ADMITTED TO TRADING ON A REGULATED MARKET, AND REPEALING DIRECTIVE 2003/71/EC (AS AMENDED, THE "**PROSPECTUS REGULATION**"). CONSEQUENTLY, NO KEY INFORMATION DOCUMENT REQUIRED BY REGULATION (EU) NO 1286/2014 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL OF 26 NOVEMBER 2014 ON KEY INFORMATION DOCUMENTS FOR PACKAGED RETAIL AND INSURANCE-BASED INVESTMENT PRODUCTS (PRIIPS) (AS AMENDED, THE "**EU PRIIPS REGULATION**") FOR OFFERING OR SELLING THE NOTES OR OTHERWISE MAKING THEM AVAILABLE TO RETAIL INVESTORS IN THE EEA HAS BEEN PREPARED AND THEREFORE OFFERING OR SELLING THE NOTES OR OTHERWISE MAKING THEM AVAILABLE TO ANY RETAIL INVESTOR IN THE EEA MAY BE UNLAWFUL UNDER THE EU PRIIPS REGULATION.

THE NOTES ARE NOT MEANT TO BE OFFERED, SOLD OR OTHERWISE MADE AVAILABLE TO AND SHOULD NOT BE OFFERED, SOLD OR OTHERWISE MADE AVAILABLE TO ANY UK RETAIL INVESTOR IN THE UNITED KINGDOM (THE "**UK**"). FOR THESE PURPOSES, "A RETAIL UK INVESTOR MEANS" A PERSON WHO IS ONE (OR MORE) OF: (I) A RETAIL CLIENT, AS DEFINED IN POINT (8) OF ARTICLE 2 OF COMMISSION DELEGATED REGULATION (EU) 2017/565 AS RETAINED AS DOMESTIC LAW OF THE UK BY VIRTUE OF THE EUROPEAN UNION (WITHDRAWAL) ACT 2018 (AS AMENDED, THE "**EUWA**") AND AS AMENDED; OR (II) A CUSTOMER WITHIN THE MEANING OF THE PROVISIONS OF THE FINANCIAL SERVICES AND MARKETS ACT 2000 (AS AMENDED, THE "**FSMA**") AND ANY RULES OR REGULATIONS MADE UNDER THE FSMA TO IMPLEMENT THE INSURANCE DISTRIBUTION DIRECTIVE (SUCH RULES AND REGULATIONS, AS AMENDED), WHERE THAT CUSTOMER WOULD NOT QUALIFY AS A PROFESSIONAL CLIENT, AS DEFINED IN POINT (8) OF ARTICLE 2(1) OF REGULATION (EU) N° 600/2014 AS RETAINED AS DOMESTIC LAW OF THE UK BY VIRTUE OF THE EUWA; AND AS AMENDED OR (III) NOT A QUALIFIED INVESTOR AS DEFINED IN ARTICLE 2 OF THE PROSPECTUS REGULATION AS RETAINED AS DOMESTIC LAW OF THE UK BY VIRTUE OF THE EUWA (AS AMENDED, THE "**UK PROSPECTUS REGULATION**"). CONSEQUENTLY NO KEY INFORMATION DOCUMENT REQUIRED BY REGULATION (EU) NO 1286/2014 AS RETAINED AS DOMESTIC LAW OF THE UK BY VIRTUE OF THE EUWA (AS AMENDED, THE "**UK PRIIPS REGULATION**") FOR OFFERING OR

SELLING THE NOTES OR OTHERWISE MAKING THEM AVAILABLE TO UK RETAIL INVESTORS IN THE UK HAS BEEN PREPARED AND THEREFORE OFFERING OR SELLING THE NOTES OR OTHERWISE MAKING THEM AVAILABLE TO ANY UK RETAIL INVESTOR IN THE UK MAY BE UNLAWFUL UNDER THE UK PRIIPS REGULATION.

THE PROSPECTUS IS NOT A PROSPECTUS FOR THE PURPOSES OF ARTICLE 6 OF THE UK PROSPECTUS REGULATION OR ANY IMPLEMENTING LEGISLATION OR RULES RELATING THERETO.

IN THE UK, THE PROSPECTUS MAY ONLY BE COMMUNICATED OR CAUSED TO BE COMMUNICATED TO PERSONS WHO: (I) HAVE PROFESSIONAL EXPERIENCE IN MATTERS RELATING TO INVESTMENTS AND QUALIFY AS INVESTMENT PROFESSIONALS UNDER ARTICLE 19(5) OF THE FINANCIAL SERVICES AND MARKETS ACT 2000 (FINANCIAL PROMOTION) ORDER 2005 (AS AMENDED, THE "**FINANCIAL PROMOTION ORDER**"); OR (II) ARE PERSONS FALLING WITHIN ARTICLE 49(2)(A) TO (D) (HIGH NET WORTH COMPANIES, UNINCORPORATED ASSOCIATION, AMONG OTHERS, OF THE FINANCIAL PROMOTION ORDER; OR (III) ARE PERSONS TO WHOM IT MAY OTHERWISE LAWFULLY BE COMMUNICATED OR CAUSED TO BE COMMUNICATED (ALL SUCH PERSONS TOGETHER BEING REFERRED TO AS "**RELEVANT PERSONS**"). THE PROSPECTUS MUST NOT BE ACTED ON OR RELIED ON IN THE UK BY PERSONS WHO ARE NOT RELEVANT PERSONS. IN THE UK, ANY INVESTMENT OR INVESTMENT ACTIVITY TO WHICH THE PROSPECTUS RELATES, INCLUDING THE NOTES, IS AVAILABLE ONLY TO RELEVANT PERSONS AND WILL BE ENGAGED IN ONLY WITH RELEVANT PERSONS.

The Notes (as defined below) have not been and will not be registered under the Securities Act or the securities laws of any state of the United States or other relevant jurisdiction. The Notes may not at any time be offered, sold or delivered within the United States or to, or for the account or benefit of, any person who is a U.S. Person (as defined in Regulation S under the Securities Act (as amended, "**Regulation S**") by any person referred to in Rule 903(b)(2)(iii) of Regulation S, (x) as part of their distribution at any time or (y) otherwise until 40 calendar days after the completion of the distribution of the Notes as determined by the Lead Managers, in either case in accordance with Regulation S.

IN ORDER TO BE ELIGIBLE TO READ THE PROSPECTUS OR MAKE AN INVESTMENT DECISION WITH RESPECT TO THE NOTES DESCRIBED THEREIN, YOU MUST NOT BE A "U.S. PERSON" AS DEFINED IN REGULATION S.

THE TRANSACTION DESCRIBED IN THIS PROSPECTUS WILL NOT INVOLVE RISK RETENTION BY THE SELLER FOR PURPOSES OF THE FINAL RULES IMPLEMENTING THE CREDIT RISK RETENTION REQUIREMENTS OF SECTION 15G OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED (THE "**U.S. RISK RETENTION RULES**"). THE SELLER INTENDS TO RELY ON AN EXEMPTION PROVIDED FOR IN SECTION 20 OF THE U.S. RISK RETENTION RULES REGARDING NON-U.S. TRANSACTIONS THAT MEET CERTAIN REQUIREMENTS. CONSEQUENTLY, EXCEPT WITH THE PRIOR WRITTEN CONSENT OF THE SELLER (A U.S. RISK RETENTION CONSENT) AND WHERE SUCH SALE FALLS WITHIN THE EXEMPTION PROVIDED BY SECTION 20 OF THE U.S. RISK RETENTION, ANY NOTES OFFERED AND SOLD BY THE ISSUER MAY NOT BE PURCHASED BY, OR FOR THE ACCOUNT OR BENEFIT OF, ANY "U.S. PERSON" AS DEFINED IN THE U.S. RISK RETENTION RULES ("**RISK RETENTION U.S. PERSONS**"). PROSPECTIVE INVESTORS SHOULD NOTE THAT THE DEFINITION OF "U.S. PERSON" IN THE U.S. RISK RETENTION RULES IS SUBSTANTIALLY SIMILAR TO, BUT NOT IDENTICAL TO, THE DEFINITION OF "U.S. PERSON" IN REGULATION S. EACH PURCHASER OF THE NOTES, OR A BENEFICIAL INTEREST THEREIN, ACQUIRED IN THE INITIAL DISTRIBUTION OF THE NOTES BY ITS ACQUISITION OF THE NOTES, OR A BENEFICIAL INTEREST THEREIN, WILL BE DEEMED TO HAVE MADE CERTAIN REPRESENTATIONS AND AGREEMENTS, AND IN CERTAIN CIRCUMSTANCES WILL BE REQUIRED TO MAKE CERTAIN REPRESENTATIONS AND AGREEMENTS (INCLUDING AS A CONDITION TO ACCESSING OR OTHERWISE OBTAINING A COPY OF THIS PROSPECTUS OR OTHER OFFERING MATERIALS RELATING TO THE NOTES) TO THE ISSUER, THE SELLER, THE ARRANGER, THE MANAGEMENT COMPANY AND THE LEAD MANAGERS (EACH AS DEFINED BELOW) AND ON WHICH EACH OF SUCH PERSONS WILL RELY WITHOUT ANY INVESTIGATION, INCLUDING THAT IT (I) EITHER (i) IS NOT A RISK RETENTION U.S. PERSON OR (ii) HAS OBTAINED A U.S. RISK RETENTION CONSENT FROM THE SELLER; (II) IS ACQUIRING SUCH NOTE, OR BENEFICIAL

INTEREST THEREIN, FOR ITS OWN ACCOUNT AND NOT WITH A VIEW TO DISTRIBUTE SUCH NOTE; AND (III) IS NOT ACQUIRING SUCH NOTE, OR BENEFICIAL INTEREST THEREIN, AS PART OF A SCHEME TO EVADE THE REQUIREMENTS OF THE U.S. RISK RETENTION RULES (INCLUDING ACQUIRING SUCH NOTE THROUGH A NON-RISK RETENTION U.S. PERSON, RATHER THAN A RISK RETENTION U.S. PERSON, AS PART OF A SCHEME TO EVADE THE 10 PER CENT. RISK RETENTION U.S. PERSON LIMITATION IN THE EXEMPTION PROVIDED FOR IN SECTION 20 OF THE U.S. RISK RETENTION RULES).

The transaction will not involve the retention by Sabadell Consumer Finance, S.A.U. (the **"Seller"** or **"Sabadell Consumer"**) of at least five per cent (5%) of the credit risk of the Issuer for the purposes of the U.S. Risk Retention Rules. The Seller intends to rely on the exemption provided for in Section 20 of the U.S. Risk Retention Rules regarding non-U.S. transactions that meet certain requirements. No other steps have been taken by the Issuer, the Seller, the Management Company, the Arranger or the Lead Managers or any of their affiliates or any other party to otherwise comply with the U.S. Risk Retention Rules. See "*US Risk Retention*" in section 3.4.3.2 in the Additional Information below.

THIS PROSPECTUS MAY NOT BE FORWARDED OR DISTRIBUTED TO ANY OTHER PERSON AND MAY NOT BE REPRODUCED IN ANY MANNER WHATSOEVER AND, IN PARTICULAR, MAY NOT BE FORWARDED TO ANY U.S. PERSON OR TO ANY U.S. ADDRESS. ANY FORWARDING, DISTRIBUTION OR REPRODUCTION OF THIS DOCUMENT IN WHOLE OR IN PART IS UNAUTHORISED. FAILURE TO COMPLY WITH THIS DIRECTIVE MAY RESULT IN A VIOLATION OF THE SECURITIES ACT OR THE APPLICABLE LAWS OF OTHER JURISDICTIONS.

You are reminded that the Prospectus has been delivered to you on the basis that you are a person into whose possession the Prospectus may be lawfully delivered in accordance with the laws of the jurisdiction in which you are located and you may not, nor are you authorised to, deliver the Prospectus to any other person.

The materials relating to the offering do not constitute, and may not be used in connection with, an offer or solicitation in any place where offers or solicitations are not permitted by law. If a jurisdiction requires that the offering be made by a licensed broker or dealer and the Lead Managers or any affiliate of the Lead Managers is a licensed broker or dealer in that jurisdiction, the offering shall be deemed to be made by the Lead Managers or such affiliate on behalf of the Issuer in such jurisdiction.

Prospectus distributed to you in electronic format herewith and the hard copy version available to you on request from the Management Company and/or the Lead Managers.

None of the Lead Managers or the Arranger makes any representation, recommendation or warranty, express or implied, regarding the accuracy, adequacy, reasonableness or completeness of the information contained herein or in any further information, notice or other document which may at any time be supplied by the Issuer in connection with the Notes and accordingly, none of the Lead Managers or the Arranger accepts any responsibility or liability therefore or any responsibility or liability arising out of or in connection with any act or omission of the Issuer or any third party.

None of the Lead Managers or the Arranger undertakes to review the financial condition or affairs of the Issuer nor to advise any investor or potential investor in the Notes of any information coming to the attention of any of the Lead Managers or the Arranger.

None of the Lead Managers or the Arranger, the Management Company or any person who controls any of them or any director, officer, employee, agent or affiliate of any of the Lead Managers or the Arranger or the Management Company shall have any responsibility for determining the proper characterisation of potential investors in relation to any restriction under the U.S. Risk Retention Rules or for determining the availability of the safe harbour provided for in Section 20 of the U.S. Risk Retention Rules, and none of the Lead Managers, the Arranger, the Management Company or any person who controls any of them or any director, officer, employee, agent or affiliate of any of the Lead Managers, the Arranger or the Management Company accepts any liability or responsibility whatsoever for any such determination. Furthermore, none of the Lead Managers, the Arranger or the Management Company or any person who controls any of them or any director, officer, employee, agent or affiliate of any of the Lead Managers, the Arranger or the Management Company provides any assurance that the exemption provided for in Section 20 of the U.S. Risk Retention Rules will be available.

None of the Arranger, the Lead Managers nor any of their respective affiliates accepts any responsibility whatsoever for the contents of this document or for any statement made or purported to be made by any of them, or on any of their behalf, in connection with the Issuer or any offer of the Notes. The Arranger, the Lead Managers and their respective affiliates accordingly disclaim any and all liability whether arising in tort, contract, or otherwise which they might otherwise have in respect of this Prospectus or any such statement. No representation or warranty expressed or implied, is made by any of the Arranger, the Lead Managers or their respective affiliates as to the accuracy, completeness, verification or sufficiency of the information set out in this document.

IMPORTANT NOTICE:

MIFID II PRODUCT GOVERNANCE

The target market assessment for the Notes that was carried out during the manufacturers' product approval process, reported, among others: (i) that the Notes should only be targeted at eligible counterparties (as defined in MiFID II) and/or professional clients (as defined in MiFID II); and (ii) all distribution channels suffice, provided they only target eligible counterparties and/or professional clients.

Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the manufacturers' target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturers' target market assessment) and determining appropriate distribution channels.

IMPORTANT NOTICE:

UK MIFIR PRODUCT GOVERNANCE

The target market assessment for the Notes that was carried out during the manufacturers' product approval process, reported, among others: (i) that the Notes should only be targeted at eligible counterparties (as defined in the Handbook Conduct of Business Sourcebook ("**COBS**") of the UK Financial Conduct Authority ("**FCA**") and/or professional clients (as defined in Regulation (EU) № 600/2014 of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Regulation (EU) № 648/2012 Text with EEA relevance ("**Regulation (EU) № 600/2014**"), as retained in the UK by virtue of the EUWA, the latter as amended, "**UK MiFIR**"); and (ii) all distribution channels suffice, provided they only target eligible counterparties and/or professional clients.

If applicable, any person who offers, sells or recommends investing in the Notes (a "Distributor") must: (i) consider the manufacturers' target assessment; and (ii) to the extent the Distributor in question is subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**"), undertake its own target market assessment in respect of the Notes (either adopt or adjust the manufacturers' target market assessment) and ascertain the appropriate distribution channels.

IMPORTANT NOTICE:

UK AFFECTED INVESTORS

Certain UK-established or UK-regulated persons are subject to the Securitisation Regulations 2024 (SI 2024/102) (as amended) (the "**SR 2024**"), together with (i) the Securitisation Sourcebook of the handbook of rules and guidance adopted by the Financial Conduct Authority of the United Kingdom ("**SECN**") (ii) the Securitisation Part of the rulebook of published policy of the Prudential Regulation Authority of the Bank of England (the "**PRASR**") and (iii) relevant provisions of the FSMA (collectively and in each case as may be further amended, supplemented or replaced from time to time, the "**UK Securitization Framework**"). SECN 4, Article 5 of Chapter 2 of the PRASR and regulations 32B, 32C and 32D of the SR 2024 place certain conditions on investments in a "securitisation" (as defined in the SR 2024) (the "**UK Due Diligence Requirements**") by an "institutional investor" (as defined in the SR 2024 to include

insurance undertakings, reinsurance undertakings, trustees or managers of occupational pension schemes, fund managers of such schemes, alternative investment fund managers that have permission under the FSMA for managing alternative investment funds and which market or manage alternative investment funds in the UK and small registered UK alternative investment funds, UCITS, UCITS management companies, credit institutions and investment firms, each as described in more detail in the UK Securitisation Framework). The UK Due Diligence Requirements also apply to investments by certain consolidated affiliates, wherever established or located, of entities that are subject to Regulation (EU) № 575/2013, as it forms part of the domestic law of the UK by virtue of the EUWA (such affiliates, together with all such institutional investors, "**UK Affected Investors**"). Some divergence already exists between (i) on the one hand, the EU Securitisation Regulation and related rules and regulations and (ii) the UK Securitisation Framework and related rules and regulations, and the two regimes may diverge further in the future.

None of the Seller nor any other party to the transaction described in the Prospectus, nor any of their respective affiliates, will specifically commit to retain a material net economic interest with respect to such transaction in a manner that would satisfy the requirements of the UK Securitisation Framework or to take any action specifically for the purposes of making available any document, information or report prescribed by SECN 6 or Article 7 of Chapter 2 of the PRASR. Furthermore, no such party will undertake, or intends, specifically to take any other action or refrain from taking any action prescribed or contemplated in the UK Securitisation Framework or for purposes of, or in connection with, compliance by any UK Affected Investor with the UK Due Diligence Requirements, or by any person with the requirements of any other law or regulation now or hereafter in effect in the UK in relation to risk retention, due diligence and monitoring, transparency, credit granting standards or any other conditions with respect to investments in securitisation transactions.

The arrangements described in section 3.4.3 and section 4.2 of the Additional Information to be included with respect to Asset-backed Securities and elsewhere in the Prospectus have not been structured with the objective of enabling or facilitating compliance with the requirements of the UK Securitisation Framework by any person.

Consequently, the Notes may not be a suitable investment for a UK Affected Investor; and, as a result, the price and liquidity of the Notes in the secondary market may be adversely affected.

Failure by a UK Affected Investor to comply with the UK Due Diligence Requirements with respect to an investment in the Notes offered by the Prospectus may result in regulatory sanctions or remedial measures being imposed or taken by the competent authority of such UK Affected Investor (including the imposition of a higher regulatory capital charge on that investment).

The UK Securitisation Framework also includes criteria and procedures in relation to the designation of securitisations as simple, transparent and standardised, or "**STS**", within the meaning of regulation 3(1) of the SR 2024 ("**UK STS**"). The transaction described in the Prospectus is not intended to be designated as a UK STS securitisation for the purposes of the UK Securitisation Framework. However, pursuant to regulation 12(3) of the SR 2024, a securitisation which meets the requirements for an STS-Securitisation for the purposes of the EU Securitisation Regulation, which is notified to the European Securities and Markets Authority ("**ESMA**") in accordance with the applicable requirements before 11 p.m. on 30th June 2026, and which is included in the list maintained by ESMA for the purposes of Article 27(5) of the EU Securitisation Regulation, may be deemed to satisfy the "UK STS" requirements for the purposes of the UK Securitisation Framework. No assurance can be provided that this transaction does or will continue to meet the STS requirements or to qualify as an STS-Securitisation under the EU Securitisation Regulation or pursuant to regulation 12(3) of the SR 2024 at any point in time.

Prospective investors are themselves responsible for analysing their own legal and regulatory position and are encouraged to consult their own investment and legal advisers in this respect and should consider (and where appropriate, take independent advice on) the scope and application of and compliance with the UK Securitisation Framework or other applicable regulations and the suitability of the Notes for investment.

RISK FACTORS

THE CONTENTS OF THE RISK FACTORS RELATED TO THE UNDERLYING ASSETS, THE NATURE OF THE SECURITIES AND THE ISSUER INCLUDED IN THE PROSPECTUS HAVE BEEN DRAFTED IN ACCORDANCE WITH ARTICLE 16 OF THE PROSPECTUS REGULATION, WHICH ARE SPECIFIC FOR THE ISSUER AND SECURITIES TO BE ISSUED BY THE FUND AND ARE IMPORTANT TO ADOPT A DECISION ON THE INVESTMENT. THEREFORE, GENERIC RISKS REGARDING THE UNDERLYING ASSETS, THE NATURE OF THE SECURITIES AND THE NATURE OF ISSUER HAVE NOT BEEN INCLUDED IN THIS PROSPECTUS IN ACCORDANCE WITH SUCH ARTICLE 16. ANY PROSPECTIVE INVESTOR IS EXPECTED TO CONDUCT ITS OWN ASSESSMENT AND INQUIRY OF THE GENERIC RISKS DERIVED FROM THE UNDERLYING ASSETS, THE NATURE OF THE SECURITIES AND THE NATURE OF THE ISSUER.

1. RISKS SPECIFIC TO THE SECURITIES

1.1 Related to the underlying assets

a) Risk of payment default

Noteholders and the creditors of the Fund shall bear the risk of payment default by the Borrowers of the Receivables pooled in the Fund. In particular, in the event that the losses of the Receivables pooled in the Fund were higher than the credit enhancements described in section 3.4.2 of the Additional Information, this circumstance could potentially jeopardise the payment of principal and/or interest under the Notes. The Issuer's ability to meet its payment obligations under the Notes depend almost entirely on the full and timely compliance by the Borrowers of their payment obligations under the Loans. The Seller will not be liable for the Borrowers' default on principal, interest or any other amount payable under the Loans. Pursuant to Article 348 of Royal Decree of 22 August 1885 publishing the Commercial Code (*Real Decreto de 22 de agosto de 1885 por el que se publica el Código de Comercio*) (the "**Commercial Code**") and Article 1,529 of Royal Decree of 24 July 1889 publishing the Civil Code (*Real Decreto de 24 de julio de 1889 por el que se publica el Código Civil*) (the "**Civil Code**"), the Seller will only be responsible to the Fund for the legal status of the transfer and the existence and lawfulness of the Receivables in accordance with the terms and conditions set forth in this Prospectus and the Transaction Documents. The Seller will not be liable, nor will it warrant the successful outcome of the transaction, and no guarantees will be granted by any public or private entity (including the Seller, the Management Company and any of their affiliate companies or investee companies). The Seller does not undertake to repurchase the Receivables except for the repurchase obligation foreseen in section 2.2.9 of the Additional Information.

Level of payment default by Borrowers under the Receivables may be additionally impacted by, amongst others, fluctuations in general economic conditions and other factors linked to household income, which may have an impact on the ability of the Borrowers to meet their payment obligations under the Loans. Any deterioration of the macroeconomic situation could potentially have an adverse effect on the ability of Borrowers to meet their payment obligations under the Loans and, ultimately, the ability of the Fund to make payments under the Notes. The macroeconomic potential effects are further described in the risk factor located in section 1.1.b) below.

Tables detailing information on delinquency, defaults and recovery rates of Sabadell Consumer auto loan portfolio are displayed at the end of section 2.2.7.j) of the Additional Information. The estimated cash flows displayed in section 4.10 of the Securities Notes have been calculated with an annual constant default rate (CDR) of 1.78%, with an average recovery rate of 50% with an assumption of a twelve (12) month recovery lag. The CDR and the recovery rate are consistent with the rates of Sabadell Consumer portfolio of equivalent auto loans (complying with the essential representations of section 2.2.8.b) of the Additional Information) and with the

delinquency data in the charts included at the end of section 2.2.7.j) of the Additional Information.

Section 2.2.7 of the Additional Information contains tables detailing information on payments in arrears, classified by number of days and displayed in percentage terms with respect to Sabadell Consumer auto loan portfolio as of 24 June 2025.

In light of the scenarios described in section 4.10 of the Securities Note, it is not anticipated that the Notes may incur losses given (i) the subordination between the different Classes of Notes (except for the Class F Notes); and (ii) the additional credit enhancement provided by the available excess spread in the transaction.

Prospective investors in the Notes should be aware that higher annual constant default rates and/or lower recovery rates than expected could adversely affect the creditworthiness of the Borrowers and their capacity to repay the Loans from which the Receivables backing the Notes arise, irrespective of the credit enhancement afforded by subordination of the Notes and/or available excess spread in the transaction.

b) Risk resulting from the macroeconomic situation and high inflation environment.

Numerous factors have affected or may affect the economy and the financial markets in the coming months or years, having economic and financial repercussions.

Since the second half of 2024 inflation rates in the Eurozone, the United States and in many other countries have generally declined, aligning closely with central banks' price targets and supporting interest rate cuts. According to the last reports "*ECB staff macroeconomic projections for the Euro area – June 2025*", and "*Bank of Spain's Macroeconomic projections for the Spanish economy – June 2025*" the key macroeconomic parameters are as follows:

	2025	2026	2027
GDP			
- Spain	2.4%	1.8%	1.7%
- Euro area	0.9%	1.1%	1.3%
Inflation			
- Spain	2.4%	1.7%	2.5%
- Euro area	2.0%	1.9%	1.9%

The protectionist policies introduced by the new U.S. presidential administration, such as the announced tariffs on imports from countries including its traditional trade partners (including the EU), have triggered strong volatility in global financial and commodity markets, reinforcing risks to the global economic outlook.

In addition, growing geopolitical tensions, amongst others, in Eastern Europe (particularly, in Ukraine) and in Middle East (particularly in Israel, Iran, Lebanon, the Red Sea and in the Bab-el-Mandeb strait), may add pressure to the global supply chain, which potentially can also have negative effects on world trade and hinder economic growth.

High consumer and commodity prices and a decline in inflation and performance of the economy below expectations may have an adverse effect on the financial condition of the Borrowers and hence, on their ability to repay their existing debt under the Loans. Amongst other factors, geopolitical conflicts, trade tariffs under the United States administration could impact the Spanish and global economies and may cause the main macroeconomic forecasts to deviate from the projections made. Such tariffs could have the effect of, among other things, raising

prices to consumers and potentially eliciting reciprocal tariffs, eventually resulting in a slowdown in global economic growth or economic recession, and the removal of tariffs may or may not yield the intended results.

In this scenario, according to the Bank of Spain report "*Macroeconomic Projections of the Spanish Economy - June 2025*", global economic activity has slowed, weighed down by rising uncertainty, which has risen to historically high levels on several fronts. This deterioration is largely associated with the various trade measures announced by the administration in the United States (primarily concerning tariffs), the doubts about their possible macroeconomic and financial impact and the potential reactions from the authorities of other major world regions, like China and the European Union (EU).

Whilst as of the date of this Prospectus it is not possible to foresee the full impact of the above factors in the global, national or local economies, and consequently the effects they may have on the Fund and the Notes, the economic conditions may affect in particular (i) the ability of Borrowers to make full and timely payments of principal and/or interests under the Loans (and therefore increase delinquency ratios in relation to the Loans); (ii) the cashflows from the Receivables in the event of moratoriums or relief measures whether imposed by the competent government authorities, applicable legislation, adopted at industry level or otherwise affecting payments to be made by the Borrowers under the Loans (see "Enforceability risk" below in section (e)); (iii) the market value of the Notes, considering the current scenario of interest rates, which has resulted in an increase in market interest risks and which could lead to a fall in the price of the Notes if the Noteholders decide to sell the Notes before redemption; and (iv) third parties ability to perform their obligations under the Transaction Documents to which they are a party (including any failure to perform arising from circumstances beyond their control).

c) Concentration risk derived from the years of origination of the Loans and from the decline in the value of the Vehicles due to its depreciation

15.42% of the Outstanding Balance of the Receivables in the Preliminary Portfolio corresponds to New Vehicles (i.e., unregistered vehicles – *vehículos no matriculados*). The remaining 84.58% corresponds to Used Vehicles (i.e. registered vehicles – *vehículos matriculados*), as per section 2.2.2.(a)c) of the Additional Information.

As detailed in section 2.2.2.(j) of the Additional Information, the Receivables in the Preliminary Portfolio can be classified as follows according to the year of origination: year 2022 (9.98% of the Outstanding Balance of the Receivables), year 2023 (34.99% of the Outstanding Balance of the Receivables) and year 2024 (52.99% of the Outstanding Balance of the Receivables), jointly representing 97.96%.

Given the high concentration of loans originated between 2022 and 2024, it can be assumed that the delinquency rate has not yet peaked and as such it will continue to increase over the following months.

The appraisal value of the vehicles is updated on a monthly basis in accordance with the following criteria:

- a) For vehicles included in the AUTOVISTA SPAIN, S.A. catalogue ("Eurotax") (an independent entity specialized in vehicle appraisals), the appraisal value corresponds to that provided by Eurotax, for vehicles with an equivalent lifespan, provided that said appraisal has been updated in the last twelve (12) months.
- b) If no such updated appraisal value is available but there is a price for the vehicle included in Eurotax that has been updated within the last twelve (12) months, the appraisal value will instead be obtained as follows: (i) the percentage included in the annual valuation table

on average sales prices of certain means of transport applicable in the management of certain taxes published in the corresponding order of the Ministry of Finance and Public Administration will be applied to (ii) the price of the new vehicle provided by Eurotax, taking account of the vehicle age.

- c) For vehicles not included in the Eurotax catalogue (i.e., vehicles that have neither an appraisal value nor an assigned price) or which have an appraisal value or price that dates back over twelve (12) months, the appraisal value shall instead be calculated by applying the percentage included in the annual valuation table referenced above to the sale price of the vehicle, taking account of the vehicle age.

The depreciation and valuation percentages (post-depreciation) applied (and sowed in the chart below) are those set annually by the Ministry of Finance and Public Function for, already registered, passenger cars, off-road vehicles, motorhomes and motorbikes, classified according to years of use for vehicles older than one (1) year. For example, for vehicles with less than one (1) year old, a ten per cent. (10%) depreciation is immediately applied once the car leaves the dealership so that as a result of such depreciation the vehicle has a value of ninety per cent (90%) of the initial value.

Years of use	Depreciation (%)	% of value post-depreciation
Less than 1 year	10	90
More than 1 year, up to 2	16	84
More than 2 years, up to 3	33	67
More than 3 years, up to 4	44	56
More than 4 years, up to 5	53	47
More than 5 years, up to 6	61	39
More than 6 years, up to 7	66	34
More than 7 years old, up to 8	72	28
More than 8 years old, up to 9	76	24
More than 9 years old, up to 10	81	19
More than 10 years old, up to 11	83	17
More than 11 years old, up to 12	87	13
More than 12 years old	90	10

In the event of payment default and subsequent enforcement of a Loan, the circumstances described above constitute a risk of impairment of the recovery. If proceeds received from enforcement were insufficient to fully repay Receivables arising from the relevant Loan, resulting losses will in turn reduce the Available Funds to meet the payment obligations of the Fund (including principal and/or interest under the Notes).

- d) Reservation of titles clauses partially registered in the Register of Instalment Sales of Movable Properties and Loan Agreements partially formalised as public documents

As set out in section 2.2.1.b) of the Additional Information, all Loan Agreements contain reservation of title clauses (*reserva de dominio*) in order to secure the Receivables.

The inclusion of a reservation of title clause in the Loan Agreement would grant the Seller, as creditor, a right of ownership (*dominio*) over the Vehicle financed under the Loan until such Loan is repaid in full. In order for reservation of title clauses to be enforceable *vis-à-vis* third parties, it will be necessary to register them in the Register of Instalment Sales of Movable Properties (*Registro de Venta a Plazos de Bienes Muebles*).

All Loan Agreements are formalized in an official form, but some of them are signed in a private document and others are granted before a notary as a deed (*póliza*). As the Loan Agreements are drafted in an official form, all of them can be registered with the Register of Instalment Sales of Movable Properties (*Registro de Venta a Plazos de Bienes Muebles*).

However, not all reservation of title clauses in the Loan Agreements are registered in the Register of Instalment Sales of Movable Properties; only those representing 37.30% of the Outstanding Balance of Receivables, as provided in section 2.2.2.(i) of the Additional Information, are registered. Therefore, until their registration, the reservation of title clauses may not be enforceable against third parties.

In line with section 2.2.7.m) of the Additional Information, the initial principal amount is the main criteria followed by Sabadell Consumer to determine whether the reservation of title associated with a Loan must be registered, amongst other parameters as follows:

- a) Amount (i.e., reservation of title provisions must be registered for all Loans exceeding €25,000).
- b) Number of signatories to the Loan Agreement.
- c) Term of the Loan.
- d) Model of the Vehicle financed by the Loan.
- e) The Borrower's risk profile.

As provided in section 2.2.2(p) of the Additional Information, Sabadell Consumer's general criterion is that Loans amounting to thirty thousand euros (€30,000) or higher (for loans originated until 5 November 2019) or forty thousand euros (€40,000) or higher (for loans originated from 6 November 2019) should be formalised as deeds (*póliza*).

e) Enforceability risk

The enforceability of reservation of title clauses may be affected in case of unfulfillment of the execution formalities for the Loan Agreements detailed above.

Failure to register a reservation of title clause will make it unenforceable against good faith third party purchasers as they will be considered to have validly acquired the Vehicle (despite the reservation of title clause). However, the Seller will be entitled to claim damages from the Borrower for its breach of the reservation of title clause.

In an enforcement scenario following payment default, enforcement of the reservation of title clause over the Vehicles (and the recovery ability of the Fund) may be affected by the enforceability of reservation of title clauses (including, enforceability against good faith third party purchasers).

Issues related to the enforceability of reservation of title clauses (including unenforceability against good faith third party purchasers) may affect the recovery ability of the Fund in the event of enforcement of the security over the Vehicles (following payment default under any Loan) and may, if applicable, result in a reduction of the Available Funds to meet the Fund's payment obligations (including principal and/or interest under the Notes).

All Loan Agreements have either been formalised:

- a) as a deed (*póliza*), in accordance with sections 4 and 5 of Article 517 of the Civil Procedural Law; or
- b) in private form and have been registered with the Register of Instalment Sales of Movable Properties,

and in either case, the Fund, as holder of the Receivables, may benefit from the provisions set forth under Articles 1922.2 and 1926.1 of the Civil Code (as described in section 2.2. of the Additional Information), as per Article 16.5 of Law 28/1998, of 13 July, of Instalment Sales of Movable Properties ("Law 28/1998") consisting in a payment order preference out of the proceeds of the sale of the Vehicle.

In addition, as described in section 3.4.6.h) of the Additional Information, if the Loan Agreement has been registered with the Register of Instalment Sales of Movable Properties, the Fund will have a right of separation over the Vehicle in the event of insolvency of the Borrower (or, if applicable, the relevant owner thereof).

Failure to comply with any of the above requirements may affect the position of the Fund under the Loan Agreements and ultimately the ability of the Servicer, acting on behalf of the Fund, to recover any amounts due thereunder. This may cause a reduction in the Available Funds and impact the ability of the Fund to meet its payment obligations (including principal and/or interest payable under the Notes).

If the Loan Agreement is registered with the Register of Instalment Sales of Movable Properties, the Fund (acting through the Servicer) may initiate the out-of-court enforcement proceeding detailed in Article 16.2 of the Law 28/1998. If so, the Fund (acting through the Servicer) will be entitled to request the competent notary the payment of the amount due or the delivery of the possession of the relevant Vehicle and the relevant Borrower will then have 3 (three) business days to either pay the amounts due or deliver the possession of the Vehicle.

In addition, if the Loan Agreement has been formalised as a public document, the Servicer, acting on behalf of the Fund, may initiate an enforcement proceeding (*acción ejecutiva*) and foreclose on the security or even attach (*embargar*) other assets of the Borrower.

Loan Agreements formalised as a deed (*póliza*) or as a private document with no registration with the Register of Instalment Sales of Movable Properties:

- a) If the Loan Agreement is formalised as a deed (*póliza*) or in private form with no registration with the Register of Instalment Sales of Movable Properties, the Fund may be entitled to initiate enforcement proceedings to attach the assets of the Borrower. Loan Agreements formalised as a deed (*póliza*).
- b) Pursuant to Spanish Supreme Court case law, Loan Agreements formalised as deeds (*pólizas*) are classified as secured in Borrower insolvency proceedings (even if these are not registered with the Register of Instalment Sales of Movable Properties). Loan Agreements not formalised as a deed (*póliza*).

If the Loan Agreements have not been formalised as a deed (*póliza*) and have not been registered with the Register of Instalment Sales of Movable Properties, the Servicer, acting on behalf of the Fund, may initiate legal proceedings (*procedimiento declarativo*) to seek declaratory relief from the court with respect to the amounts due under the Loan Agreements. If so, the enforcement action must only be initiated once the declaratory judgment has been issued by the Court. In the event of insolvency of the Borrower, these claims may be classified as 'ordinary' (unsecured) in accordance with Article 271.1 of the Insolvency Law, and if so,

would rank pari passu with the rest of unsecured creditors, leaving the Fund unable to recover possession of the Vehicle in question.

Also, in the event of insolvency of the Borrower, the insolvency administrator will be tasked with assigning a rank to the credit rights. If so, the creditors will have the right to challenge the insolvency administrator's ranking in case of disagreement.

On 14 March 2025, the official gazette of the Spanish parliament (the "**Official Gazette of the Spanish Parliament**") (*Boletín Oficial de las Cortes Generales*) published the draft law on credit servicers and credit purchasers, which amends Law 44/2022, on measures for the reform of the financial system, Law 16/2011, and the Insolvency Law (the "**Draft Law on Credit Servicers and Credit Purchasers**") following its approval by the Council of Ministers on 4 March 2025.

The Draft Law on Credit Servicers and Credit Purchasers, in its second final provision, introduces certain amendments to Law 16/2011, including the following:

- a) the requirement for lenders to establish debt renegotiation policies applicable to all types of debtors. These policies must be approved by the highest governing body and include measures such as extending the maturity date, modifying the type of credit agreement, deferring payment of all or part of the amortisation instalments, reducing the interest rate, offering grace periods, partial repayment, currency conversion, partial debt forgiveness, and debt consolidation, among other renegotiation measures. These policies must reasonably aim to reach renegotiation agreements before demanding full repayment of the loan or credit or resorting to judicial actions;
- b) certain pre-contractual information obligations concerning modifications to the terms of a credit agreement;
- c) economically vulnerable borrowers must be offered a payment plan, before the sale or assignment of the matured loan to a third party, under which the accrual of new interest and fees on the loan is frozen, the debt is repaid in a manner consistent with the borrower's financial circumstances, with monthly instalments not exceeding five per cent of their monthly income at the time the offer is made, and a predefined debt reduction scheme is applied; (iii) obligations arising from customer protection and transparency regulations, shall be fully transferred to the third-party assignee, and the codes of good practice adhered to by the assignor shall remain applicable; and
- d) certain conditions governing the imposition of default charges or early maturity fees on customers are included.

Should the Draft Law on Credit Servicers and Credit Purchasers be enacted in its current form, the expected returns on those securitised assets governed by Law 16/2011 could be reduced (or be postponed) if they become subject to any debt renegotiation policies adopted by the Seller in compliance with the new legislation. This could have a material adverse impact on the Fund's ability to meet its obligations in respect of the Notes.

f) Other related risks

The Vehicles financed under the Loans will remain in possession of the Borrowers. The risk therefore remains that some may instigate the destruction or loss of the Vehicles, without prejudice to the liability they may incur. Although from a legal point of view the protection provided by the registration of title with the Register of Instalment Sales of Movable Properties may be similar to that provided by the registration of ownership of real estate with the Land Register, in practice, the level of protection afforded in the former case be lower due to the movable nature of the assets.

g) Receivables prepayment risk

Borrowers may prepay the Outstanding Balance of the Receivables in accordance with the terms set out in the relevant Loan Agreement.

This prepayment risk shall pass onto the Noteholders on a monthly basis, on each Payment Date via the partial redemption of the Notes (to the extent applicable in accordance with the provisions of section 4.9.3. a) of the Securities Note).

Prepayment of the Receivables in rates higher than expected will cause the Fund to make payments of principal on the Notes earlier than expected and will shorten the maturity of the Notes. If principal is paid on the Notes earlier than expected due to prepayments on the Receivables (such prepayments occurring at a time when interest rates are lower than interest rates that would otherwise be applied if such prepayments had not been made or made at a different time), Noteholders may not be able to reinvest the principal in a comparable security with an effective interest rate equivalent to the interest rate on the Notes. Similarly, if principal payments on the Notes are made later than expected due to slower than expected prepayments or payments on the Receivables, Noteholders may lose reinvestment opportunities. Noteholders will bear all reinvestment risk resulting from receiving payments of principal on the Notes earlier or later than expected.

h) Interest rate risk and hedging instrument

The assets of the Fund will be made up of the Receivables representing the economic rights in the Loans selected from among those comprising the Preliminary Portfolio. In this regard, 100% of the Receivables comprising the Preliminary Portfolio have a fixed interest rate. On the other hand, the liabilities of the Fund will consist mainly of the Notes, which will accrue a monthly nominal floating interest.

Based on the above, the Receivables pooled in the Portfolio include interest payments calculated at interest rates and periods, which are different from the interest rates and periods applicable to the interest due under the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes.

The weighted average coupon of the Notes is 2.60% (assuming an EURIBOR 1 month rate of 1.875% on 1 September 2025 for the Notes) and the weighted average interest of the Receivables is 8.44%, as described in section 2.2.2.r) of the Additional Information.

The Fund expects to meet its payment obligations under the Notes primarily with payments relating to the collections from the Receivables. However, the interest component of such collections may have no correlation to the floating rate applicable to the Notes from time to time.

In order to protect the Fund from a situation where EURIBOR might increase to such an extent that the collections received from the Non-Defaulted Receivables are insufficient to cover the Fund's obligations under the Notes, the Fund will enter into an interest rate swap transaction (the "**Interest Rate Swap Transaction**") with Crédit Agricole CIB (the "**Interest Rate Swap Counterparty**" or the "**Swap Counterparty**") on the Date of Incorporation. The Swap Counterparty shall at all times be (or its credit support provider shall at all times be) an institution rated in accordance with the provisions of the Interest Rate Swap Agreement.

Pursuant to the Interest Rate Swap Agreement, the Fund will pay an amount equal to a fixed interest rate which will be determined on 10 September 2025, and which will fall within the following range (2.00%;2.51%), as set out in section 3.4.8.1.(b) of the Additional Information, and the Swap Counterparty will pay an amount equal to (i) the linear interpolation between the

EURIBOR three-month EURIBOR for the first Swap Payment Date, and the EURIBOR six-month, and (ii) the EURIBOR one month for the rest of the Swap Payment Dates (subject to a floor within the range (-0.79%; -0.69%) as set out in section 3.4.8.1.(c) of the Additional Information, in either case by reference to the Notional Amount.

Accordingly, the Fund may in certain circumstances depend upon payments made by the Swap Counterparty in order to have sufficient funds available to make payments of interest on the Notes. Failure by the Swap Counterparty to pay any amounts when due under the Interest Rate Swap Transaction, will constitute a default thereunder and the Fund will be exposed to interest rate risk in the event of any potential increase of EURIBOR 1-month. Therefore, unless one or more additional comparable interest rate swap agreements are entered into by the Fund, the funds available may be insufficient to make the interest payments on the Notes and the Noteholders may experience delays and/or reductions in the interest payments due to them.

In the event of early termination of the Interest Rate Swap Transaction (including any termination upon failure by the Swap Counterparty to perform its obligations), the Management Company, acting on behalf of the Fund, will use its best endeavours to (albeit cannot guarantee that it will be able to), find a replacement Swap Counterparty. In such case, there exists no assurance that the Fund will be able to meet its payment obligations under the Notes, whether in full or in part.

As the notional amount of the Interest Rate Swap Transaction with respect to which payments due from the Swap Counterparty will be calculated by reference to the Outstanding Balance of the Non-Defaulted Receivables, and it does not consider the Outstanding Balance of the Defaulted Receivables, the Interest Rate Swap Transaction may not fully mitigate the interest rate risk borne by the Fund.

Additionally, if the Interest Rate Swap Transaction is early terminated, then the Fund may be obliged to pay the amount determined pursuant to the Interest Rate Swap Agreement to the Swap Counterparty. Leaving aside exceptional circumstances that would indicate the contrary, any termination payment due to the Swap Counterparty by the Fund will rank in priority to payments due on the Notes. Any additional amounts required to be paid by the Fund as a result of the termination of the Interest Rate Swap Transaction (including any extra costs incurred if the Fund cannot immediately enter into one (1) or more, as appropriate, replacement interest rate swap transaction), may also be prioritised to payments due on the Notes. As such, if the Fund is obliged to pay an amount pursuant to the Interest Rate Swap Agreement to the Swap Counterparty or to pay any other additional amount as a result of the termination of the Interest Rate Swap Transaction, this may reduce the Available Funds to meet the payment obligations of the Fund (including principal and/or interest under the Notes). For further details, see sections 3.4.7 and 3.4.8.1. of the Additional Information.

i) Geographical concentration risk

As detailed in section 2.2.2.t) of the Additional Information, the regions with the largest amount of Borrowers in the Preliminary Portfolio are as follows (to note, the following statistics have been calculated as a percentage of the Outstanding Balance of the Receivables): (i) Andalusia (*Andalucía*) (23.97%); (ii) Catalonia (*Cataluña*) (15.02%); (iii) Valencia (*Comunitat Valenciana*) (13.25%); and (iv) Galicia (*Galicia*) (9.50%). Jointly, these account for 61.74 of the Outstanding Balance of the Receivables included in the Preliminary Portfolio. Significant events (political, social, pandemics, natural disasters or other) that take place in any of these regions, or in some or all of them simultaneously, may have an adverse effect on their economic situation, and/or on financial or economic indicators (such as, unemployment rates CPI and GDP per capita, among others) and, in turn, may hinder the ability of the Borrowers resident in such regions to duly and timely make repayments on the Receivables that back the Notes.

j) Litigation risks with respect to potential unfair clauses

In recent years, Spain has seen a steady increase in borrower claims filed on the grounds of abusive clauses (*cláusulas abusivas*). These claims typically include borrower allegations that certain provisions included in the agreements entered into with financial institutions are abusive/unfair (*abusivo*) and that they must therefore be rendered null and void.

The country, Spain, has also seen an increase in case law on abusive clauses and, most notably, a rise in the number of Court judgements declaring the unfairness of standard clauses used by financial institutions in the consumer finance market.

This case law is not invariable as it has changed over time as a result of new legal developments and/or changing case law, such as when higher courts depart from earlier decisions. To a certain extent, this has led to disparate court decisions issued on cases that may seem similar and has therefore led to uncertainty among lower courts, borrowers and lenders with respect to the outcome of these types of legal disputes. If a court declares a clause to be unfair, the clause in question will be rendered null and void. In practice, this implies that the loan agreement will be interpreted as though the clause had never been included in the loan agreement and therefore, all other clauses included in the loan agreement will remain binding for the parties involved (provided that the loan agreement can survive without the unfair clause).

In legal proceedings on unfair clauses, judges can either declare: (i) inadmissibility of enforcement, if nullity of the clause precludes enforcement; or (ii) admissibility of enforcement, provided that the exclusion of the relevant unfair clause does not preclude the lender from initiating enforcement proceedings.

Clauses challenged due to their potentially unfair nature are generally those which include: (i) financial content; or (ii) default events or early termination events. In the former case, clauses with financial content may affect the ability to generate income or the amount of income generated under the loan, and, in the latter case, clauses on default events or early termination events may affect the lender's ability to accelerate the loan and recover amounts due through foreclosure or enforcement proceedings.

For example, if a financial content clause is declared null and void and, the clause itself impacts the Fund income generation, the Fund will no longer be allowed to apply said clause, and, in addition, it will instead be required to reimburse the Borrower with any amounts that may have been collected by the Fund to date under said clause.

If for example, a default event or early termination event clause is declared null and void, the Fund may be forced to forego or limit its right to initiate a foreclosure or enforcement proceeding.

0.091% of the Outstanding Balance is made up of Loan Agreements in respect of which Borrowers have filed claims on the grounds that the Loan Agreements (or certain clauses contained therein) are unfair (*abusivo*). Despite this: (i) it is highly improbable that these claims will result in a favourable court ruling being issued for the Borrowers; and in either case (ii) Borrowers must continue to pay instalments due under the relevant Loan Agreements, irrespective of whether they may have filed claims on the grounds that the Loan Agreements (or certain clauses contained therein) are unfair (*abusivo*).

If, however, the courts were to issue a favourable court ruling for the Borrowers, the Fund would likely suffer the economic loss that would follow from said claims. This could create potential liabilities and affect the Fund's ability to generate income, which in turn, if subject to mass litigation, could have a material adverse effect on the Fund's business and financial condition.

If a Spanish court issues a ruling declaring that a loan clause is unfair, this may instigate other Borrowers who are party to similar loan agreements, to initiate similar claims.

1.2 Related to the nature of the securities

a) Inflation rates, interest rates and their impact on the price and the internal rate of return (IRR) of the Notes

As described in section 1.1 h) above, the Notes issued by the Issuer are floating rate note instruments that accrue a periodic (monthly) coupon comprising a floating reference rate (EURIBOR one month) plus a constant spread. Given the monthly repricing frequency of the Notes, the impact on the price in the event of a rise in interest rates is lower than that of similar fixed rate securities or floating rate note instruments with a lower repricing frequency.

A return of higher inflation (including as a result of the introduction of protectionist measures (such as tariffs) in the United States and countermeasures by other major economies) and related increases in interest rates may impact real return for the Noteholders because with inflation rates higher than the return on the Notes, the real gain for the investor is diluted.

Given these variables (inflation rate, interest rates, among others) the internal rate of return (IRR) of the Notes may differ from that detailed in section 4.10 of the Securities Note of this Prospectus.

b) Subordination risk

As set out in section 4.6.2 a) of the Securities Note, during the Pro-Rata Redemption Period, the ordinary redemption of the Collateralised Notes will be *pari passu* and *pro-rata* without preference or priority amongst themselves in accordance with the Pre-Enforcement Priority of Payments detailed in section 3.4.7 of the Additional Information.

During the time period starting from (and including) the Payment Date immediately following the occurrence of a Subordination Event, and ending on (and including) the earlier of (i) the Legal Maturity Date; (ii) the Payment Date on which the Collateralised Notes will be redeemed in full; or (iii) the Early Amortisation Date (i.e. during the Sequential Redemption Period), the Collateralised Notes will be redeemed sequentially in accordance with the Pre-Enforcement Priority of Payments set forth in section 3.4.7 of the Additional Information. As such, during the Sequential Redemption Period, the reimbursement of principal for the Class B Notes shall be subordinated to those for the Class A Notes; the reimbursement of principal for the Class C Notes shall be subordinated to those for the Class A Notes and the Class B Notes; the reimbursement of principal for the Class D Notes shall be subordinated to those for the Class A Notes, the Class B Notes and the Class C Notes; and the reimbursement of principal for the Class E Notes shall be subordinated to those for the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes.

Conversely, the Class F Notes shall be redeemed during the Pro-rata Redemption Period and the Sequential Redemption Period with the available excess spread for an amount equal to Class F Notes Target Amortisation Amount in accordance with the Pre-Enforcement Priority of Payments set forth in section 3.4.7 of the Additional Information.

As a result, during the Sequential Redemption Period:

- a) **Class A Notes:** will rank *pari passu* and *pro rata* without preference or priority between Class A Notes, but will rank ahead of the Class B Notes, Class C Notes, Class D Notes, Class E Notes and Class F Notes and shall benefit from 11.07% of subordination of Class B Notes, Class C Notes, Class D Notes, Class E Notes and Class F Notes, as applicable.

- b) **Class B Notes:** will rank *pari passu* and *pro rata* without preference or priority between Class B Notes but will rank ahead of the Class C Notes, Class D Notes, Class E Notes and Class F Notes, and shall benefit from 6.67% of subordination of Class C Notes, Class D Notes, Class E Notes and Class F Notes, as applicable.
- c) **Class C Notes:** will rank *pari passu* and *pro rata* without preference or priority between Class C Notes but will rank ahead of the Class D Notes, Class E Notes and Class F Notes, and shall benefit from 4.36% of subordination of Class D Notes, Class E Notes and Class F Notes, as applicable.
- d) **Class D Notes:** will rank *pari passu* and *pro rata* without preference or priority between Class D Notes but will rank ahead of the Class E Notes and Class F Notes and shall benefit from 2.56% of subordination of Class E Notes and Class F Notes, as applicable.
- e) **Class E Notes:** will rank *pari passu* and *pro rata* without preference or priority between Class E Notes but will rank ahead of the Class F Notes and shall benefit from 1.07% of subordination of Class F Notes, as applicable.
- f) **Class F Notes:** will rank *pari passu* and *pro rata* without preference or priority between Class F Notes and its payment of interest and the repayment of principal shall be subordinated to those of Class A Notes, Class B Notes, Class C Notes, Class D Notes and Class E Notes. Class F Notes will amortise with the available excess spread for an amount equal to the Class F Notes Target Amortisation Amount and until such time as the Class F Notes are fully redeemed. Once the Class F Notes have been fully redeemed, the subordination of such Class F Notes will no longer apply.

Based on the assumptions detailed in section 4.10 of the Securities Notes, under the 8% CPR scenario:

- a) the Collateralised Notes shall redeem from the Payment Date falling on 29 December 2025 to the Payment Date falling on 26 January 2031 (subject to the Modified Following Business Day Convention); and
- b) the Class F Notes shall start to redeem from the Payment Date falling on 26 January 2026 (subject to the Modified Following Business Day Convention) to the Payment Date falling on 26 January 2027 (subject to the Modified Following Business Day Convention).

There is no certainty that these subordination rules shall protect any Class of Notes from the risk of loss. The materiality of this risk is further described in section 3.4.7 of the Additional Information.

c) Notes Euroeligibility risk

The Class A Notes are intended to be held in a manner which may allow for them to be recognised as eligible collateral for Eurosystem monetary policy and Intraday credit operations by the Eurosystem ("Eurosystème Eligible Collateral"). This means that upon issue, the intention is for Class A Notes to be deposited with Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S.A.U. ("IBERCLEAR") but this does not necessarily mean that the Class A Notes shall be recognised as Eurosystem Eligible Collateral either upon issue or at any or all times during their lifespan. Said recognition will, *inter alia*, depend upon satisfaction of the Eurosystem eligibility criteria set out in the Guideline of the European Central Bank (the "ECB") of 19 December 2014 on the implementation of the Eurosystem monetary policy framework (ECB/2014/60) (recast) as amended and applicable from time to time (the "Guideline") and compliance with loan-by-loan reporting in a prescribed format and manner.

If the Class A Notes do not satisfy the ECB criteria, or if the Servicer fails to submit the required loan-level data, the Class A Notes will not be eligible for being Eurosystem Eligible Collateral.

Neither the Fund, the Management Company, the Seller, the Lead Managers or the Arranger gives any representation, warranty, confirmation or guarantee to any investor or potential investor that the Class A Notes will, either upon issue, or at any time during their life, satisfy all or any requirements for Eurosystem eligibility and be recognised as Eurosystem Eligible Collateral for any reason whatsoever. Any potential investor in the Class A Notes should seek its own advice with respect to whether or not the Class A Notes constitute (or may in the future cease to constitute) Eurosystem Eligible Collateral.

d) **Yield and duration risk**

Statistics, such as the average yield, duration and final maturity of the Notes in each Class (assuming a CPR of 6%, 8% and 10%, which is consistent with the historical information provided by the Seller) contained in section 4.10 of the Securities Note, albeit subject to a number of hypotheses, may indicate that prepayment rates and delinquency rates, among others, may not come to pass.

These calculations are influenced by a number of economic and social factors such as the macroeconomic instability described in Risk Factor 1.1.b) (*Risk resulting from the macroeconomic situation and high inflation environment*), market interest rates, the Borrowers' financial circumstances and the general level of economic activity, preventing their predictability.

No guarantee can be given as to the level of prepayments (in part or in full) that the Receivables may experience. Early repayment of the Receivables in rates higher than expected will cause the Issuer to make payments of principal on the Notes earlier than expected and will shorten the maturity of such Notes.

e) **Early redemption of the Notes**

The Seller will have the right, but not the obligation, at its own discretion to repurchase all outstanding Receivables and instruct the Management Company to carry out the Early Liquidation of the Issuer and the Early Amortisation of the entire issue of the Notes in whole (but not in part) as per in section 4.4 of the Registration Document if any of the following events take place (collectively, the "**Seller's Call Options**"):

- a) if a Clean-up Call Event occurs (as defined in section 4.4.d) of the Registration Document);
- b) if a Regulatory Change Event occurs (as defined in section 4.4.d) of the Registration Document); or
- c) if a Tax Change Event occurs (as defined in section 4.4.d) of the Registration Document).

Upon exercise of any of the Seller's Call Options, the Seller shall repurchase all outstanding Receivables at the Repurchase Value calculated in accordance with section 4.4.d) of the Registration Document. Such Repurchase Value is expected to be lesser than the Receivables Purchase Price initially paid by the Fund to the Seller. The exercise of any of the above Seller's Call Options may have an impact on the yield and life of the Notes, given that such calculations are made taking into account estimates of, among other variables, the early prepayment or amortisation of the Loans by the Borrowers, which will not materialise as forecasted. A decrease in the life of the Notes will also impact interest accrued and payable under them by the Fund, thereby decreasing yield for Noteholders.

Consequently, any potential investor in the Class F Notes should be aware that the exercise of any of the Seller's Call Options may result in the Principal Amount Outstanding of the Class F Notes, not being totally or partially redeemed.

If the Notes are redeemed earlier than expected due to the Fund (following instructions of the Seller in case of the exercise of any of the Seller's Call Options) exercising early amortisation of said Notes (said Early Amortisation of the Notes occurring at a time when interest rates are lower than interest rates that would otherwise be applied if such early redemption had not been made or made at a different time), Noteholders may not be able to reinvest the principal in a comparable security with an effective interest rate equivalent to the interest rate on the Notes. Noteholders will bear all reinvestment risk resulting from the early redemption of the Notes.

Despite the above, there is no guarantee that, upon occurrence of a Clean-Up Call Event, a Tax Change Event and/or a Regulatory Change Event, the Seller will exercise the Seller's Call Options and, therefore give its written instruction to the Management Company to carry out an Early Liquidation of the Fund and an Early Amortisation of the Notes.

f) Risk relating to benchmarks

The interest payable on the Notes and the payments to be made in respect of the Interest Rate Swap Agreement are determined by reference to Euro Interbank Offered Rate ("EURIBOR"), the calculation and determination of which is subject from 1 January 2018 to Regulation (EU) № 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (as amended from time to time, the "**Benchmark Regulation**") published in the Official Journal of the EU on 29 June 2016, which entered into force on 30 June 2016 and is applied from 1 January 2018.

The Benchmark Regulation applies to "contributors", "administrators" and "users of" benchmarks in the EU, and, among other things, (i) requires benchmark administrators to be authorised (or, if non-EU-based, to be subject to an equivalent regulatory regime) and to comply with extensive requirements in relation to the administration of "benchmarks" and (ii) ban the use of benchmarks of unauthorised administrators. On 19 May 2025, Regulation (EU) 2025/914 of the European Parliament and of the Council amending the BMR was published in the Official Journal of the EU and will begin to apply from 1 January 2026. These amendments include the reduction of scope of application of the Benchmark Regulation, excluding non-significant benchmarks.

Separately, the working group on euro risk free-rates for the euro area published a set of guiding principles and high-level recommendations for fall-back provisions in, amongst other things, new euro denominated cash products (including asset-backed securities) referencing EURIBOR. The guiding principles indicate, among others, that continuing to reference EURIBOR in relevant contracts (without robust fall-back provisions) may increase the risk to the euro area financial system. On 11 May 2021, the working group on euro risk-free rates first published its recommendations on EURIBOR fall-back trigger events and fall-back rates. Investors should be aware that the market is continuing to develop such alternative reference rates and further changes or recommendations may be introduced.

Although EURIBOR has been reformed in order to comply with the terms of the Benchmark Regulation, it is not possible to ascertain as at the date of this Prospectus how such changes may impact the determination of EURIBOR for the purposes of the Notes and the Interest Rate Swap Agreement, whether this will result in an increase or decrease in EURIBOR rates or whether such changes will have an adverse impact on the liquidity or the market value of the Notes.

Ongoing international and/or national reform initiatives and the increased regulatory scrutiny of benchmarks generally could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any applicable regulations or requirements. Such factors may discourage market participants from continuing to administer or contribute to benchmarks, trigger changes in the rules or methodologies used in respect of benchmarks, and/or lead to the disappearance of benchmarks.

As provided in section 4.8 of the Securities Note, changes in the manner of administration of EURIBOR could result in the base rate on the Notes changing from EURIBOR to an Alternative Base Rate under certain circumstances broadly related to EURIBOR dysfunction or discontinuation. This Alternative Base Rate will be determined by the Rate Determination Agent and, subject to certain conditions being satisfied, it will be implemented in substitution of EURIBOR or the then current Reference Rate, as the new Reference Rate applicable to the Notes and other relevant agreements (as applicable), except if Noteholders representing at least ten per cent (10%) of the Principal Amount Outstanding of the Most Senior Class of Collateralised Notes do not consent to the Base Rate Modification (such decision binding holders of the Notes as well as other relevant creditors even if they have not approved such decision), in which case the Reference Rate applicable to the Notes will be equal to the last Reference Rate available on the relevant applicable screen rate pursuant to section 4.8.c) of the Securities Note, unless a Resolution in favour of such proposed Base Rate Modification is passed by the Meeting of Creditors in accordance with section 4.11 of the Securities Note (*Meeting of Noteholders*) by each Class of Noteholders.

Any of the above changes could have a material adverse effect on the value of and return on the Notes and shall apply to the Interest Rate Swap Transaction for the purpose of aligning the base rate of the Interest Rate Swap Transaction to the Reference Rate of the Notes following these changes.

Investors should consult their own independent advisers and conclude accordingly with respect to the potential risks imposed by the Benchmarks Regulations reforms in making any investment decision with respect to any Notes linked to, referencing, or otherwise dependent on a Benchmark, whether in whole or in part.

2. RISKS DERIVED FROM THE ISSUER'S LEGAL NATURE AND OPERATIONS

2.1 Related to the Issuer's nature, financial situation or activity

a) Mandatory replacement of the Management Company

If the Management Company is declared insolvent or its authorisation to operate as a management company of securitisation funds is revoked, notwithstanding the effects of such insolvency as described under section 3.7.2.e) of the Additional Information, it shall find a substitute management company.

If four months have elapsed from the occurrence of the event triggering the substitution of the Management Company and no new management company has been appointed to take over management of the Fund, the Fund shall be liquidated and the Notes may be subject to early redemption in accordance with section 4.4. of the Registration Document.

b) Limitation of actions

The Fund (devoid of legal personality) shall only bear liability to its obligations with its assets. Noteholders and other creditors of the Fund shall have no recourse whatsoever against Borrowers who have defaulted on their payment obligations under the Loans, or against the

Seller. Any such rights shall lie with the Management Company, representing the Fund without prejudice to the instructions that can be given to the Management Company by virtue of a resolution of the meeting of creditors ("Meeting of Creditors"), as detailed in section 4.11 of the Securities Note.

Noteholders and all other creditors of the Fund shall have no recourse whatsoever against the Management Company other than in case of breach by the Management Company of its obligations or failure to comply with the provisions of this Prospectus, the Deed of Incorporation, the other Transaction Documents, and the applicable laws and regulations. Those actions shall be resolved in the relevant ordinary declaratory proceedings depending on the amount claimed.

In particular, Noteholders and all other creditors of the Fund shall have no recourse whatsoever against the Fund or against the Management Company in the following scenarios:

- a) payment default of amounts due by the Fund resulting from the existence of Receivable default or prepayment,
- b) breach by the Seller or by any other counterparties of their obligations under the corresponding Transaction Documents entered into by the Management Company for and on behalf of the Fund, or
- c) shortfall of the credit enhancements to cover the payments of the Notes.

2.2 Related to legal and regulatory risks

- a) EU Securitisation Regulation: simple, transparent and standardised securitisation. UK Securitisation Framework: Non-compliance with UK STS regime

The transaction envisaged under this Prospectus is intended to qualify as a simple, transparent and standardised securitisation (STS securitisation) within the meaning of Article 18 of the EU Securitisation Regulation. Consequently, the Seller will submit on or about the Date of Incorporation (and in any case within fifteen (15) calendar days from the Date of Incorporation) an STS notification to ESMA, pursuant to which compliance with the requirements of Articles 19 to 22 of the EU Securitisation Regulation shall be notified to ESMA in order to request that the securitisation transaction described in this Prospectus is included in the relevant ESMA STS register within the meaning of Article 27(5) of the EU Securitisation Regulation. The Seller shall notify the Bank of Spain (as competent authority) of the submission of such mandatory STS Notification from the Seller to ESMA and attaching such notification.

For these purposes, the Seller has appointed Prime Collateralised Securities (PCS) EU SAS ("PCS") as a verification agent authorised under Article 28 of the EU Securitisation Regulation, in connection with an assessment of the compliance with the requirements of Articles 19 to 22 of the EU Securitisation Regulation (the "STS Verification"). It is important to note that the involvement of PCS as the authorised verification agent is not mandatory and the responsibility for compliance with the EU Securitisation Regulation remains with the relevant institutional investors, the Seller and the Fund, as applicable in each case. The STS Verification will not absolve such entities from making their own assessments with respect to the EU Securitisation Regulation, and the STS Verification cannot be relied on to determine compliance with the foregoing regulations in the absence of such assessments by the relevant entities.

No assurance can be provided that the securitisation transaction described in this Prospectus will receive the STS Verification (either before issuance of the Notes or at any time thereafter), and if the securitisation transaction described in this Prospectus does not receive the STS Verification, this shall not, under any circumstances, affect the liability of Sabadell Consumer (as Seller) and the Fund in respect of their legal obligations under the EU Securitisation

Regulation, nor shall it affect the obligations imposed on institutional investors as set forth in Article 5 of the EU Securitisation Regulation.

Neither the Issuer, the Reporting Entity, the Arranger, the Lead Managers, or any other party to the Transaction Documents makes any representation or accepts any liability for (i) the inclusion of the securitisation transaction in the ESMA register of STS notifications list administered by ESMA within the meaning of Article 27 of the EU Securitisation Regulation (the “**ESMA List**”); or (ii) the securitisation transaction to qualify as an STS-securitisation under the EU Securitisation Regulation at any point in time.

Non-compliance with the status of an STS-securitisation may result in higher capital requirements for investors, as well as in various administrative sanctions and/or remedial measures being imposed on the Fund or the Seller. Any of such administrative sanctions and/or remedial measures may affect the ability of the Issuer to fulfil its payment obligations under the Notes.

With respect to the UK, the Securitisation Regulations 2024 (SI 2024/102), as amended (the “**SR 2024**”), together with (i) the securitisation sourcebook of the handbook of rules and guidance adopted by the Financial Conduct Authority of the United Kingdom (the “**SECN**”), (ii) the Securitisation Part of the rulebook of published policy of the Prudential Regulation Authority of the Bank of England (“**PRASR**”) and (iii) relevant provisions of the FSMA, set out the framework for the regulation of certain aspects of securitisation in the UK (collectively, the “**UK Securitisation Framework**”). None of the Seller nor any other party to the transaction described in this Prospectus, nor any of their respective affiliates, will specifically commit to retain a material net economic interest with respect to such transaction in a manner that would satisfy the requirements of the UK Securitisation Framework or to take any action specifically for the purposes of making available any document, information or report prescribed by SECN 6 or Article 7 of Chapter 2 of the PRASR. Furthermore, no such party will undertake, or intends, specifically to take any other action or refrain from taking any action prescribed or contemplated in the UK Securitisation Framework or for purposes or, or in connection with, compliance by any investor with any requirements of the UK Securitisation Framework or by any person with any other law or regulation now or hereafter in effect in the UK in relation to risk retention, due diligence and monitoring, transparency, credit granting standards or any other conditions with respect to investments in securitisation transactions. Consequently, the Notes may not be a suitable investment for such an investor; and, as a result, the price and liquidity of the Notes in the secondary market may be adversely affected.

UK investors should be aware of this and should note that their regulatory position may be affected.

In addition, the transaction is not intended to be designated as a UK STS securitisation for the purposes of the UK Securitisation Framework and will therefore not be notified to the UK Financial Conduct Authority for that purpose. However, pursuant to regulation 12(3) of the SR 2024, a securitisation which meets the requirements for an STS-Securitisation for the purposes of the EU Securitisation Regulation, which is notified to the ESMA in accordance with the applicable requirements before 11 p.m. on 30th June 2026, and which is included in ESMA List, may be deemed to satisfy the “UK STS” requirements for the purposes of the UK Securitisation Framework. No assurance can be provided that the transaction does or will continue to meet the STS requirements or to qualify as an STS-Securitisation under the EU Securitisation Regulation or pursuant to regulation 12(3) of the SR 2024 at any point in time.

Prospective investors that are subject to the UK Securitisation Framework are themselves responsible for analysing their own legal and regulatory position and are encouraged to consult their own investment and legal advisers in this respect and should consider (and where appropriate, take independent advice on) the scope and application of, and compliance with,

the UK Securitisation Framework or other applicable regulations and the suitability of the Notes for investment.

4.4 Date of incorporation and existence of the Issuer, except where the period is indefinite

a) **Date of incorporation**

The Fund shall be incorporated on 10 September 2025 (the "**Date of Incorporation**"), following the execution of the public deed (*escritura pública*) of incorporation of the Fund and the issuance of the Notes (the "**Deed of Incorporation**"). The Deed of Incorporation of the Fund will be drafted in Spanish.

The Fund's Deed of Incorporation may be amended in accordance with the terms of Article 24 of Law 5/2015, if the Management Company obtains the consent of all Noteholders and other creditors (excluding non-financial creditors) of the Fund. However, these consents will not be necessary if, in the opinion of the CNMV the proposed amendment is of minor relevance, which the Management Company will be responsible for documenting and evidencing.

Once CNMV verifies the compliance of the legal requirements for the amendment of the Deed of Incorporation, the Management Company will execute the relevant public deed of amendment (*escritura pública de novación*) and file an authorised copy with CNMV for registration in its official registers. Any amendment to the Deed of Incorporation will be communicated by the Management Company to the Rating Agencies and published by the Management Company in accordance with the provisions set forth in section 4 of the Additional Information.

The Deed of Incorporation of the Fund may also be amended at the request of CNMV.

The Management Company represents that, subject to any amendment to be made in the future, (i) the content of the Deed of Incorporation will not contradict that of the Prospectus, and (ii) the Deed of Incorporation will coincide with the draft public deed (*escritura pública*) that has been submitted to CNMV in connection with the registration of this Prospectus.

b) Period of activity of the Fund

Unless the Fund is cancelled or liquidated early in line with the terms of sections 4.4.c) and 4.4.d) below, it is expected that the Fund's life will run from the Date of Incorporation until 26 January 2038 (the Fund's "**Legal Maturity Date**"), subject to the Modified Following Business Day Convention.

c) Mandatory Early Liquidation Events

Any of the following events ("**Mandatory Early Liquidation Events**") will cause the Management Company to move forward with early liquidation of the fund (the "**Early Liquidation of the Fund**") and therefore, the early redemption in whole (but not in part) of the Notes:

- a) an insolvency declaration leads to the replacement of the Management Company and at least four (4) months elapse from the date of said declaration without having appointed a new management company to take over the Fund's management as per Article 33 of Law 5/2015 and section 3.7.2(c) of the Additional Information;
- b) the revocation of the Management Company's authorisation to continue operation as a securitisation fund management company and at least four (4) months elapse from the date of said revocation without having appointed a new management company as per section 3.7.2(c) of the Additional Information;
- c) once thirty-six (36) months have elapsed since the Receivables' last maturity date, irrespective of whether there are still any sums owed;
- d) if the Meeting of Creditors approves the Early Liquidation of the Fund with the relevant majority in accordance with Article 23.2.b) of Law 5/2015 and the rules of the Meeting of Creditors (and, in particular, as per Article 8.1(ii) of such rules of said rules) as per section 4.11 of the Securities Note.

For clarity, the Seller will not be obliged to repurchase any of the Receivables in any of the events described above.

The following conditions must be met in order to proceed with Early Liquidation of the Fund:

- a) noteholders and the Interest Rate Swap Counterparty must be given at least thirty (30) Business Days' notice in advance of the Early Amortisation Date of the Management Company's resolution to proceed to the Early Liquidation of the Fund, as per section 4.2.2 of the Additional Information.
- b) the Management Company must previously notify the CNMV and the Rating Agencies;
- c) the notice of the Management Company's resolution to proceed to the Early Liquidation of the Fund must detail (i) the event (or events) that trigger the Early Liquidation of the Fund; (ii) the liquidation procedure; and (iii) the manner in which the Note payment obligations are to be honoured and settled in accordance with the Post-Enforcement Priority of Payments.

In order for the Management Company to proceed with the Early Liquidation of the Fund and the Early Amortisation of the Notes, the Management Company shall, for and on behalf of the Fund, proceed to sell the Receivables and any other assets in the Fund in accordance with the provisions below:

- a) the Management Company shall inform the Noteholders, the Rating Agencies and CNMV as set forth above, at least thirty (30) Business Days in advance of the relevant Early Amortisation Date (in accordance with the extraordinary notice regime set forth in section 4.2.2 of the Additional Information);
- b) the Management Company shall solicit binding bids from at least three (3) companies (at its sole discretion) involved in the sale and purchase of similar assets. The Management Company shall be entitled (acting discretionary) to obtain any valuation reports it deems necessary from any one or several specialized entities in order to assess the value of the Receivables. Furthermore, the Management Company shall set the terms and conditions of the bidding process, including the information that must be given to the bidders and the deadline for submitting bids, among others, in the manner it considers best to maximise the value of the Receivables and the rest of the assets of the Fund. The Management Company shall use the highest bid received from the aforementioned entities and shall use that bid to calculate the fair market value of the Receivables. If, however, no pertinent offer is received, within the relevant period determined by the Management Company in the binding process the Receivables shall remain assets of the Fund (albeit the Management Company may then initiate a new bidding process for the sale of the Receivables);
- c) as the Seller shall have a pre-emptive right, to voluntarily purchase the Receivables and any other assets that may be part of the Fund's at a price equal to the highest bid received from the above-referred third parties and on such terms as may be established by the Management Company (in any event maintaining the price equal to the highest bid). To that end, the Management Company shall send the Seller a list of the outstanding Receivables and the remaining assets of the Fund and information on the third-party bids that have been received. The Seller shall within ten (10) Business Days from the date of receipt of said notice from the Management Company, communicate its decision to exercise its pre-emptive right or not in respect of all (but not part) of the Receivables and other remaining assets, as long as its bid is at least equal to the highest third-party bid. If, however, there are no third-party bids, the Seller may exercise its pre-emptive right (following such exercise) to the extent that there are Available Funds sufficient to fully redeem the Class A Notes, Class B Notes, Class C Notes, Class D Notes and Class E Notes. The Seller shall notify the Management Company that the exercise of the pre-emptive right was subject to its usual credit review procedures and that the exercise of the right is not designed to implicitly support securitization;
- d) in the event that the Seller decides to exercise its pre-emptive right and, therefore, repurchase the Receivables and the rest of assets of the Fund, the Management Company, on behalf of the Fund and the Seller shall complete the sale within twenty (20) Business Days from the date of communication of such exercise by the Seller;
- e) in the event that the Seller does not exercise its pre-emptive right, the Management Company shall be bound to accept the highest bid received from the above-referred third parties for the Receivables and the rest of assets of the Fund and will complete the sale in accordance with the procedure and deadlines set out in the bidding process;
- f) the Management Company shall forthwith apply all proceeds obtained from time to time from the sale of the Fund's assets to paying the various items, in such manner, amount and order as shall be requisite in the Post-Enforcement Priority of Payments;
- g) the Management Company shall terminate the Transaction Documents that are not deemed necessary for the purposes of the Fund liquidation procedure.

The Management Company shall be entitled to sell the Receivables even if the holders of any of the Classes of Notes suffer a loss.

d) Optional early liquidation of the Fund at the Seller's initiative

The Seller will have the right (but not the obligation) to repurchase at its own discretion all outstanding Receivables and hence instruct the Management Company to carry out Early Liquidation and Early Amortisation of the Notes in whole (but not in part), if any of the Seller's Call Options takes place, detailed below:

- a) if a Clean-Up Call Event occurs (as defined below);
- b) if a Regulatory Change Event occurs (as defined below); and/or
- c) if a Tax Change Event occurs (as defined below).

In order for the Seller to exercise any of the Seller's Call Options:

- a) the Management Company shall calculate the Repurchase Value (as defined below);
- b) provided that the sum of the Repurchase Value and the remaining Available Funds are sufficient to repay all Collateralised Notes at par together with all accrued interest subject to and in accordance with the Post-Enforcement Priority of Payments, the Seller shall serve written notice to the Management Company of its intention to exercise the Seller's Call Option. Such notice shall be provided at least thirty (30) Business Days prior to the Early Amortisation Date;
- c) the Management Company shall then inform the Noteholders and the Interest Rate Swap Counterparty by publishing the appropriate notice with CNMV at least thirty (30) Business Days in advance of the Early Amortisation Date, specifying the Repurchase Value. Such notice shall contain a description of (i) the event triggering the Early Liquidation of the Fund, (ii) the liquidation procedure, and (iii) the manner in which the payment obligations under the Notes are to be honoured and settled pursuant to the Post-Enforcement Priority of Payments;
- d) the Management Company shall previously notify the CNMV and the Rating Agencies of the notice indicated in the preceding paragraph;
- e) the Management Company shall proceed to terminate the Transaction Documents that are not necessary for the Fund liquidation procedure; and
- f) the Management Company shall forthwith apply all proceeds obtained from time to time from the sale of the Fund's assets to paying the assorted items, in such manner, amount and order as shall be requisite in the Post-Enforcement Priority of Payments.

For clarity, a Regulatory Change Event will be declared irrespective of whether any of the following circumstances arise prior to the Date of Incorporation: (a) the event that causes the Regulatory Change Event is: (i) announced or contained in any proposal (whether in draft or final form) for a change in the laws, regulations, applicable regulatory rules, policies or guidelines (including any accord, standard, or recommendation of the Basel Committee on Banking Supervision), as officially interpreted, implemented or applied by the Kingdom of Spain or the European Union (or any national or European body); or (ii) incorporated in any law or regulation approved and/or published but the effectiveness or application of which is deferred, in whole or in part, beyond the Date of Incorporation; or (iii) expressed in any statement by any official of the competent authority in expert meetings or other discussions in connection with such Regulatory Change Event; or (b) the competent authority has issued any notification, decision or expressed any view with respect to any individual transaction, other than this transaction. p) Other regulatory declarations

For the purposes of Article 4 of the Spanish Securities Markets and Investment Services Act:

- a) Banco de Sabadell, S.A. and Sabadell Consumer Finance, S.A.U. form part of the Sabadell Group.
- b) There is no knowledge of the existence of any other relationship involving direct or indirect ownership or control between the aforementioned legal persons that participate in the securitisation transaction.

In addition, certain parties to the transaction documents (the "**Transaction Parties**") have engaged in, and may in the future engage in, investment banking and/or commercial banking or other services for the Fund, the Seller or its affiliates and the Management Company in the ordinary course of business. Other Transaction Parties may also perform multiple roles. Accordingly, conflicts of interest may exist or may arise as a result of or in connection with parties having previously engaged or in the future engaging in transactions with other parties, having multiple roles or carrying out other transactions for third parties. The Transaction Parties may be replaced by one or more new parties. It cannot be excluded that such a new party could also have a potential conflicting interest, which might ultimately have a negative impact on the ability of the Fund to perform its obligations in respect of the Notes.

In particular, the Arranger and the Lead Managers are part of global investment banking and securities and investment management firms that provide a wide range of financial services to a substantial and diversified client base that includes corporations, financial institutions, governments and high-net-worth individuals. As such, they actively make markets in and trade financial instruments for their own account and for the accounts of customers in the ordinary course of its business.

In particular, the Arranger and the Lead Managers and their affiliates may play various roles in relation to the offering of the Notes. To the maximum extent permitted by applicable law, the duties of the Arranger and Lead Managers and/or their affiliates in respect of the Notes are limited to the relevant contractual obligations set out in the Transaction Documents (if any) and, in particular, no advisory or fiduciary duty is owed to any person. Neither the Arranger, the Lead Managers or their affiliates shall have any obligation to account to the Fund, any party to the Transaction or any Noteholder for any profit as a result of any other business that it may conduct with either the Fund or any party to the transaction.

The Arranger and the Lead Managers may assist clients and counterparties in transactions related to the Notes (including assisting clients in future purchases and sales of the Notes and hedging transactions). The Arranger and the Lead Managers expect to earn fees and other revenues from these transactions.

Nothing in the Transaction Documents shall prevent any of the Transaction Parties from rendering services similar to those provided for in the Transaction Documents to other persons, firms or companies or from carrying on any business similar to or in competition with the business of any Transaction Parties.

Accordingly, conflicts of interest may exist or may arise as a result of the Transaction Parties:

- a) having previously engaged or in the future engaging in transactions with other parties to the transaction;

- b) having multiple roles in this transaction; and/or
- c) carrying out other roles or transactions for third parties.

To the extent permitted by applicable law, neither the Arranger, the Lead Managers and/or their affiliates are restricted from entering into, performing or enforcing its rights in respect of the Transaction Documents, the Notes, or the interests described above and may otherwise continue or take steps to further or protect any of those interests and its business even where to do so may be in conflict with the interests of Noteholders, and in so doing may act in its own commercial interests and without notice to, and without regard to the interests of any such person.

- b) it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes to any UK retail investor in the United Kingdom (the “**UK**”), for the purposes of which: (i) the expression “**UK retail investor**” means a person who is one (or more) of the following: (A) a retail client, as defined in point (8) of Article 2 of Commission Delegated Regulation (EU) № 2017/565 as retained as domestic law of the UK by virtue of the European Union (Withdrawal) Act 2018 (as amended, the “**EUWA**”), and as amended; or (B) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (as amended, the “**FSMA**”) and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive (such rules and regulations, as amended), where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) № 600/2014 as retained as domestic law of the UK by virtue of the EUWA, and as amended; or (C) not a qualified

investor as defined in Article 2 of the Prospectus Regulation as retained as domestic law of the UK by virtue of the EUWA (as amended, the "**UK Prospectus Regulation**"); and (ii) the expression "**offer**" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes;

- d) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the UK.

e) Volcker Rule

The regulations adopted under Section 13 of the U.S. Bank Holding Company Act of 1956, as amended (commonly known as the "**Volcker Rule**") prohibit "banking entities" (a term which includes affiliates of a U.S. banking organisation as well as affiliates of a foreign banking organisation that has a branch or agency office in the U.S., regardless where such affiliates are located) from acquiring or retaining any "ownership interest" in, or "sponsoring", or entering into certain other transactions with, a "covered fund", subject to certain exceptions.

Neither the Issuer, the Arranger, the Lead Managers or the Management Company have made any determination as to whether the Issuer would be a "covered fund" for the purposes of the Volcker Rule. If the Issuer were deemed to be a "covered fund", the provisions of the Volcker Rule and its related regulatory provisions may limit the ability of "banking entities" to hold an "ownership interest" in the Issuer or enter into certain credit related financial transactions with the Issuer and this may adversely affect the price and liquidity of the market for the Notes.

The Volcker Rule's Prohibitions and lack of interpretive guidance could negatively impact the liquidity and value of the Notes. Any entity that is a relevant "banking entity" and is considering an investment in the Notes should consider the potential impact of the Volcker Rule in respect of such investment and on its portfolio generally. Neither the Issuer, the Arranger, the Management Company or the Lead Managers makes any representation regarding the ability of any purchaser to acquire or hold the Notes, now or at any time in the future.

f) Group of potential investors

The placement of the Notes is aimed at qualified investors for the purposes of Article 2(e) of the Prospectus Regulation, i.e., for descriptive purposes and not limited to, legal persons authorised or regulated to operate in financial markets, including credit institutions, investment services companies, insurance companies, collective investment institutions and their management companies, pension funds and their management companies, other authorised or regulated financial entities, among others.

By subscribing the Notes, each Noteholder agrees to the terms of the Deed of Incorporation and this Prospectus.

g) MIFID II/MIFIR

The regulatory framework established by MIFID II and by Regulation Nº 600/2014/UE of the European Parliament and of Council of 15 May 2014 on markets in financial instruments and amending Regulation (EU) Nº 648/2012 (as amended, "**MIFIR**") has been mainly implemented in Spain through Royal Decree 14/2018, of 28 September and Royal Decree 1464/2018, of 21

December. The potential investors in the Notes must carry out their own analysis on the risks and costs which MIFID II/MIFIR or their future technical standards may entail for the investment in Notes.

By subscribing the Notes, each Noteholder agrees to the terms of the Deed of Incorporation and this Prospectus.

h) UK MIFIR

The potential investors in the Notes must carry out their own analysis on the risks and costs which UK MiFIR or their future technical standards may imply for the investment in Notes.

By subscribing the Notes, each Noteholder agrees to the terms of the Deed of Incorporation and this Prospectus.

4.3 Legislation under which the securities have been created

The Notes are issued in accordance with the laws of Spain, and in particular in accordance with the legal provisions set forth below:

- b) Spanish Securities Markets and Investment Services Act (where applicable);
- c) Royal Decree 814/2023; and
- d) any such other legal and regulatory provisions as may be in force and applicable from time to time.

In addition, the requirements set forth in the EU Securitisation Regulation shall apply to the Fund and the Notes.

4.4 Representation in book-entry form

The Notes will only be REPRESENTED by book-entries (*anotaciones en cuenta*) in accordance with the provisions of Law 5/2015 and Royal Decree 814/2023. The Notes will be created as such by virtue of their corresponding book-entry and will be made out to the bearer. The Deed of Incorporation will produce the effects provided for in Article 7 of the Spanish Securities Markets and Investment Services Act.

In accordance with Article 7 of the Spanish Securities Markets and Investment Services Act, the denomination, number of units, nominal value and other characteristics and conditions of the Notes represented in book-entry form are those included in the Deed of Incorporation and this Prospectus.

The Noteholders will be identified as such (for their own account or that of third parties) as registered in the book-entry register maintained by Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S.A. ("**IBERCLEAR**") (and its participant entities), with a registered office in Madrid, at Plaza de la Lealtad 1, 28014, which has been appointed as the entity in charge of the book-entry registry (*entidad encargada del registro contable*) of the Notes.

For these purposes, "**Noteholders**" or "**Holders**" means any and all holders of any of the Notes in accordance with the applicable laws and regulations (including, without limitation, Royal Decree 814/2023 and the relevant regulations of IBERCLEAR).

Clearing and settlement of the Notes will be performed in accordance with the rules of IBERCLEAR regarding securities admitted to trading in the AIAF Fixed-Income Market ("**AIAF**") and represented by the book-entries which may apply from time to time.

a) As per interest payments:

- a) the Class A Notes interest payment is not deferred with respect to any other Class of Notes interest payment;
- b) the Class B Notes interest payment is deferred with respect to the Class A Notes interest payment;
- c) the Class C Notes interest payment is in turn deferred with respect to the Class A Notes and the Class B Notes interest payments;
- d) the Class D Notes interest payment is in turn deferred with respect to the Class A Notes, the Class B Notes and the Class C Notes interest payments;
- e) the Class E Notes interest payment is in turn deferred with respect to the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes interest payments; and
- f) the Class F Notes interest payment is in turn deferred with respect to the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes interest payments.

b) As per principal redemptions periods:

- a) Pro-rata redemption: According to section 4.6.2 a) of the Securities Note, the principal repayment of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes will be on a pro-rata basis since the inception of the transaction during the Pro-Rata Redemption Period (as set forth in section 4.6.2 a) of the Securities Note).
- b) Sequential redemption: Following a Subordination Event, as described in section 4.6.2.b) of the Securities Note, the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes will cease to redeem on a pro-rata basis and will switch to redemption on a sequential basis until the liquidation of the Fund. There is however no assurance whatsoever that the subordination rules shall protect Noteholders from the risk of loss.

- c) Class F redemption regime: The Class F Notes will be redeemed in accordance with the Class F Notes Target Amortisation Amount and with section 4.6.2 a) of the Securities Notes.
- d) Redemption upon liquidation: Upon the liquidation of the Fund, the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes will also be redeemed on a sequential basis in accordance with section 4.6.2 b) of the Securities Note.
- c) Summary of the priority of the payment of interest on the Notes in the priority of payments of the Fund

Class of Notes	Place in the <u>Pre-Enforcement Priority of Payments</u> set out in section 3.4.7.2. b) of the Additional Information	Place in the <u>Post-Enforcement Priority of Payments</u> set out in section 3.4.7.3. b) of the Additional Information
Class A	3	4
Class B	4	6
Class C	5	8
Class D	6	10
Class E	7 or 10 if deferred	12
Class F	11	14

- d) Special consideration regarding interest payments of the Class E Notes:

Interest payments of the Class E Notes are placed seventh (7th) in the Pre-Enforcement Priority of Payments. However, upon the occurrence of a Class E Notes Interest Deferral Trigger, interest payments of the Class E Notes would be deferred and therefore would be placed tenth (10th) in the Pre-Enforcement Priority of Payments, respectively.

For these purposes, "**Class E Notes Interest Deferral Trigger**" means a Gross Default Ratio higher than 5.00%.

Additionally, if the Class E is the most senior class of Notes, the Class E Notes Interest Deferral Trigger will not apply.

4.6.2 Summary of the priority of the payments of principal on the Notes in the priority of payments of the Fund

- a) During the Pro-Rata Redemption Period:

During the Pro-Rata Redemption Period (in the absence of a Subordination Event), to the extent that there are sufficient Available Funds, redemption of the Collateralised Notes will be made *pro-rata* in accordance with the Pre-Enforcement Priority of Payments set forth in section 3.4.7.2.b) of the Additional Information. This redemption will be made in an amount equal to the Pro-Rata Target Redemption Amount.

For the purpose of this section:

"**Pro-Rata Target Redemption Amount**" means for each of the Class A to the Class E Notes, an amount equal to the Principal Target Redemption Amount multiplied by the Pro-Rata Redemption Ratio of each relevant Class of Notes.

The "**Principal Target Redemption Amount**" means an amount equal to the lower of:

- a) the positive difference on the Determination Date immediately preceding the relevant Payment Date between:
 - (1) the Principal Amount Outstanding of the Collateralised Notes, and
 - (2) the aggregate of the Outstanding Balance of the Non-Defaulted Receivables on that Determination Date, and
- b) the Available Funds, following the fulfilment of the Pre-Enforcement Priority of Payments until (and including) the eighth (8th) place (i.e., section 3.4.7.2.b))

"Pro-Rata Redemption Ratio" means, for each of the Class A to the Class E Notes, the percentage that results from the following ratio: the Principal Amount Outstanding of the relevant Class of Notes, divided by the sum of the Principal Amount Outstanding of the Class A Notes to the Class E Notes, and calculated for each Interest Accrual Period using the Principal Amount Outstanding before the application of the Pre-Enforcement Priority of Payments.

During the Pro-Rata Redemption Period, redemption of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes holds the ninth (9th) place in the Pre-Enforcement Priority of Payments.

The Class F Notes shall be redeemed on each Payment Date for up to the Class F Notes Target Amortisation Amount in accordance with the Pre-Enforcement Priority of Payments set forth in section 3.4.7.2.b) of the Additional Information. Once the Class F Notes are fully redeemed, the subordination of such Class F will no longer apply.

"Class F Notes Target Amortisation Amount" means an amount equal to the minimum of (i) 8.33% of the initial balance of the Class F Notes, (ii) the Available Funds, and (iii) the Outstanding Balance of the Class F Notes, following the fulfilment of the Pre-Enforcement Priority of Payments until (and including) the eleventh (11th) place (i.e., section 3.4.7.2 b)).

b) During the Sequential Redemption Period

During the Sequential Redemption Period (upon the occurrence of a Subordination Event), redemption of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes will be sequential in accordance with the Pre-Enforcement Priority of Payments set forth in section 3.4.7.2.b) of the Additional Information, and the Principal Target Redemption Amount shall be applied on each Payment Date as follows:

- a) To redeem the principal of the Class A Notes until redeemed in full.
- b) Once the Class A Notes have been redeemed in full, to redeem the principal of the Class B Notes until redeemed in full.
- c) Once the Class B Notes have been redeemed in full, to redeem the principal of the Class C Notes until redeemed in full.
- d) Once the Class C Notes have been redeemed in full, to redeem the principal of the Class D Notes until redeemed in full.
- e) Once the Class D Notes have been redeemed in full, to redeem the principal of the Class E Notes until redeemed in full.

The Class F Notes shall be redeemed on each Payment Date in an amount equal to the Class F Notes Target Amortisation Amount in accordance with the Pre-Enforcement Priority of Payments

set forth in section 3.4.7.2.b) of the Additional Information. Once the Class F Notes are redeemed in full, the subordination of such Class F will no longer apply.

c) Post-Enforcement Priority of Payments

In the Post-Enforcement Priority of Payments set forth in section 3.4.7.3. b) of the Additional Information:

- a) the Class A Notes principal repayment holds the fifth (5th) place;
- b) the Class B Notes principal repayment holds the seventh (7th) place;
- c) the Class C Notes principal repayment holds the ninth (9th) place;
- d) the Class D Notes principal repayment holds the eleventh (11th) place;
- e) the Class E Notes principal repayment holds the thirteenth (13th) place; and

d) Potential impact on the investment in the event of a resolution under BRRD

Directive 2014/59/EU of the European Parliament and of the Council of 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms and amending Council Directive 82/891/EEC, and Directives 2001/24/EC, 2002/47/EC, 2004/25/EC, 2005/56/EC, 2007/36/EC, 2011/35/EU, 2012/30/EU and 2013/36/EU, and Regulations (EU) No 1093/2010 and (EU) No 648/2012, of the European Parliament and of the Council (as amended, "BRRD") does not apply to the Fund, as issuer of the Notes.

4.7 Description of the rights, including any limitations of these, attached to the securities and procedure for the exercise of such rights

As per applicable legislation, the Notes described in this Securities Note do not create any present and/or future political rights for the investor acquiring them in relation to the Fund or its Management Company. This is consistent with the nature of the *FONDO DE TITULIZACIÓN* as a separate estate (*patrimonio separado*) devoid of legal personality, according to the provisions of Law 5/2015.

The investor's economic rights as regards the acquisition and holding of the Notes will depend on the interest rate, yield and redemption price of the Notes, as per sections 4.8 and 4.9 below. As applicable, Noteholders' interest and principal payments may be affected by Pre-Enforcement Priority of Payments or Post-Enforcement Priority of Payments, as per section 3.4.7 of the Additional Information. The Noteholders will have no recourse against the Management Company, other than for non-performance of its duties or non-compliance with the provisions of the Transaction Documents and the applicable laws and regulations. In this regard, Noteholders will have no recourse whatsoever against the Fund or the Management Company based on (i) delinquency or prepayment of the Receivables; (ii) non-fulfilment by the counterparties of the Transaction Documents entered in the name and on behalf of the Fund; or (iii) the insufficiency of the credit enhancements to cover the payments of the Notes.

The Noteholders shall have no actions against the Borrowers that have failed to comply with their payment obligations. Pursuant to applicable law, the Management Company is the only authorised representative of the Fund as regards third parties and in any legal proceedings (without prejudice to any rights of representation that may be granted by the Management Company to third parties).

Each of the Noteholders by purchasing or subscribing the Notes acknowledges and agrees in favour of the Fund, represented by the Management Company, that:

- a) sums payable to each Noteholder in respect of the Fund's obligations to such Noteholder shall be limited to the lesser of (a) the aggregate amount of all sums due and payable to such Noteholder and (b) the aggregate amounts of the Available Funds, net of any sums which are payable to other persons in priority to or *pari passu* with such Noteholder in accordance with the Pre-Enforcement Priority of Payments or the Post-Enforcement Priority of Payments, as applicable, set forth in section 3.4.7 of the Additional Information;
- b) upon liquidation of the Fund and following final distribution of the Available Funds, the Noteholders shall have no further claim against the Fund in respect of any unpaid amounts and such unpaid amounts shall be discharged in full;
- c) neither the Management Company, the Arranger, the Lead Managers or any other Transaction Parties shall be responsible for any of the Fund's liabilities; and
- d) in particular, the Noteholders shall not have any claim or right of action against the Management Company other than by reason of non-performance of its duties or non-compliance with the provisions of the Deed of Incorporation, the rest of the Transaction Document and the applicable laws and regulations.

There may be a number of actual and potential conflicts of interest between the Noteholders and the Transaction Parties as a result of the business and activities of the latter. However, none of these parties will be required to resolve the conflicts in the Noteholders' favour – except in cases that affect the legal obligations of the Management Company which is required by Article 26.1.f) of Law 5/2015 to have organisation and procedural measures in place in order to prevent conflict of interests. The Management Company will be liable to the Noteholders and other creditors of the Fund for all damages caused thereto by a breach of its obligations. It will be liable for the penalties applicable thereto pursuant to the provisions of Law 5/2015.

If the Management Company convenes a Meeting of Creditors in accordance with the Meeting of Creditors rules, any decision to be adopted regarding the Fund or the Notes should be, as applicable, in accordance with the said rules of the Meeting of Creditors as established in section 4.11 of the Securities Note.

The obligations of the Seller and of the other entities participating in the transaction are limited to those included in the corresponding Transaction Documents to which each of them are parties, the most significant ones being described in this Prospectus and in the Deed of Incorporation.

All matters, disputes, actions and claims concerning the Fund or the Notes issued and that may arise during the operation or liquidation thereof, whether among the Noteholders or between the Noteholders and the Management Company, will be submitted to the Courts of the City of Madrid, waiving any other forum to which the parties may be entitled.

4.8 Nominal interest rate and provisions relating to interest payable

a) Nominal interest

The Notes shall accrue, from the Disbursement Date until their full redemption, variable nominal interest on their Principal Amount Outstanding, payable monthly on each Payment Date (as defined below) according to the ranking established in the Pre-Enforcement Priority of Payments or the Post-Enforcement Priority of Payments, as applicable, provided in each case that the Fund has sufficient Available Funds.

Any interest due and unpaid under the Notes will not accrue any additional interest or default interest and will not be added to the Principal Amount Outstanding of the Notes.

b) Interest rate

The interest rate applicable to the Notes (the "**Interest Rate**") for each Interest Accrual Period (as defined below) will be:

- a) in respect of the Class A Notes, a floating rate equal to the Reference Rate plus a margin between 0.60% and 0.70%, both inclusive, subject to a floor at zero (0) (the "**Class A Interest Rate**");
- b) in respect of the Class B Notes, a floating rate equal to the Reference Rate plus a margin between 0.80% and 1.30%, both inclusive, subject to a floor at zero (0) (the "**Class B Interest Rate**");
- c) in respect of the Class C Notes, a floating rate equal to the Reference Rate plus a margin between 1.00% and 1.65%, both inclusive, subject to a floor at zero (0) (the "**Class C Interest Rate**");
- d) in respect of the Class D Notes, a floating rate equal to the Reference Rate plus a margin between 1.25% and 1.90%, both inclusive, subject to a floor at zero (0) (the "**Class D Interest Rate**");
- e) in respect of the Class E Notes, a floating rate equal to the Reference Rate plus a margin between 1.50% and 2.30%, both inclusive, subject to a floor at zero (0) (the "**Class E Interest Rate**");
- f) in respect of the Class F Notes, a floating rate equal to the Reference Rate plus a margin between 1.75% and 2.60%, both inclusive, subject to a floor at zero (0) (the "**Class F Interest Rate**").

The margin applicable to each Class of the Notes expressed as a percentage shall be determined by mutual agreement between the Lead Managers within the ranges specified in the preceding paragraph for each of said Classes on or before the Date of Incorporation and shall be specified in the Deed of Incorporation.

In the absence of agreement between the Lead Managers on the margin applicable to any Class of Notes, the Management Company shall fix the specific margin for each Class for which there was no agreement in accordance with the following margins, which will be disclosed in the Deed of Incorporation:

- a) For Class A: 0.65%
- b) For Class B: 1.00%
- c) For Class C: 1.25%
- d) For Class D: 1.50%
- e) For Class E: 1.85%
- f) For Class F: 2.00%

On each Reference Rate Determination Date (as defined below), the Management Company shall determine the Interest Rate applicable to the Notes for the relevant Interest Accrual Period (based on the information provided by the EURIBOR Provider).

The Management Company shall notify the Interest Rate and the interest amount of the Notes to the Paying Agent at least one (1) Business Day in advance of each Payment Date (or such other date as agreed between the Management Company and the Paying Agent from time to time). The Management Company will also communicate this information to AIAF and Iberclear and, only in respect of the First Payment Date, to the Lead Managers.

c) Reference Rate

The reference rate ("Reference Rate") for the purpose of calculating the Interest Rate applicable to the Notes will be determined in accordance with the following provisions or, following a Base Rate Modification Event, in accordance with section d) below:

- a) The EURIBOR for one month Euro deposits which appears on Bloomberg Page EUR001M index in the menu BTMMEU at or about 11.00 CET (the "Screen Rate") on the Reference Rate Determination Date.
- b) By way of exception, the Reference Rate for the Initial Interest Accrual Period will be from the result of the linear interpolation of the three-month EURIBOR rate and the six-month EURIBOR rate quoted at approximately 11:00 CET on the Reference Rate Determination Date (as defined below), considering the number of days of the Initial Interest Accrual Period, according to the following formula:

$$R = E_2 + \left[\frac{E_3 - E_2}{d_3 - d_2} \right] \times (d_t - d_2)$$

Where:

R	Reference Rate for the Initial Interest Accrual Period
dt	Number of days of the Initial Interest Accrual Period
d2	Number of days corresponding to the three-month EURIBOR
d3	Number of days corresponding to the six-month EURIBOR
E2	three-month EURIBOR rate
E3	six-month EURIBOR rate

- a) The Reference Rate shall be determined two (2) T2 Business Days prior to the beginning of the relevant Interest Accrual Period, except for the Initial Interest Accrual Period, which shall be determined on the second (2nd) Business Day before the Disbursement Date (each, a "Reference Rate Determination Date").
- b) If the definition, methodology, formula or any other form of calculation related to the EURIBOR were modified (including any modification or amendment derived of the compliance of the Benchmark Regulation), the modifications shall be considered made for the purposes of the Reference Rate relating to EURIBOR without the need to modify the terms of the Reference Rate and without the need to notify to the Noteholders. References herein and in the Transaction Documents to EURIBOR shall be deemed made as such rate has been amended, modified or replaced from time to time.
- c) If the Screen Rate is unavailable at such time for Euro deposits for the relevant period, then the rate for any relevant period shall be determined in accordance with section 4.8.4 of the Securities Note below.

The EURIBOR Provider shall communicate to the Management Company by email, before 12:00 CET of two (2) Business Days prior to beginning of each Interest Accrual Period, except for the Initial Interest Accrual Period, which shall be communicated on the second (2) Business Day before the Disbursement Date, the Reference Rate including the supporting documentation for such calculations.

As at the date of this Prospectus, EURIBOR is provided and administered by the European Money Markets Institute ("EMMI"). EMMI is included on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority (ESMA) pursuant to Article 36 of the Benchmark Regulation.

d)

Fall-back provisions

Notwithstanding anything to the contrary, the following provisions will apply if the Management Company, in the name and on behalf of the Fund (acting on the advice of the Seller) determines that any of the following events (each a "**Base Rate Modification Event**") has occurred:

- a) the original Reference Rate ceasing to be published for a period of at least five (5) Business Days or ceasing to exist; or
- b) a public statement by the EURIBOR administrator that it has ceased, or it will cease publishing EURIBOR or EURIBOR will not be included in the register under Article 36 of the Benchmark Regulation, permanently or indefinitely (in circumstances where no successor EURIBOR administrator has been appointed that will continue publication of EURIBOR); or
- c) a public statement by the supervisor of the EURIBOR administrator that EURIBOR has been or will be permanently or indefinitely discontinued; or
- d) a public statement by the supervisor of the EURIBOR administrator informing that EURIBOR shall no longer be used or that its use is subject to restrictions or adverse consequences either generally, or in respect of the Notes; or
- e) the making of a public statement by or on behalf of the supervisor of the administrator of the EURIBOR that (I) the EURIBOR is or will be (or is or will be deemed by such supervisor to be) no longer representative of its relevant underlying market, and (II) such representativeness will not be restored (as determined by such supervisor); or
- f) it has become unlawful for the Paying Agent, the EURIBOR Provider, the Swap Calculation Agent, the Fund or any other party to calculate any payments due to be made using the original Reference Rate.
- g) *provided that* the Base Rate Modification Event shall be deemed to occur (1) in the case of sub-paragraph (a) above, on the date of cessation of publication for a period of at least five (5) Business Days or ceasing to exist, (2) in the case of sub-paragraphs (b) and (c) above, on the date of the cessation of publication of the EURIBOR or the discontinuation of the EURIBOR, as applicable, (3) in the case of sub-paragraph (d) above, on the date of the prohibition of use of the EURIBOR, (4) in the case of sub-paragraph (e) above, on the date with effect from which the EURIBOR will no longer be (or will be deemed by the relevant supervisor to no longer be) representative of its relevant underlying market and which is specified in the relevant public statement, and, in each case, not the date of the relevant public statement, and (5) in the case of sub-paragraph (f) above, on the date in which such unlawfulness is communicated by the relevant party.
- h) Following the occurrence of a Base Rate Modification Event, the Management Company, in the name and on behalf of the Fund (acting on the advice of the Seller) will inform the

Seller and the Swap Counterparty and instruct the rate determination agent to carry out the tasks referred to in this section d) of the Securities Note (the “**Rate Determination Agent**”). The Management Company will appoint a third party as Rate Determination Agent which (i) shall not be the Seller or any affiliate of the Seller, and (b) be an independent financial institution and dealer of international repute in the EU.

- i) The Rate Determination Agent shall determine an alternative base rate (the “**Alternative Base Rate**”) to replace EURIBOR as the Reference Rate of the Notes (the “**Base Rate Modification**”) and on the basis of which the Management Company, in the name and on behalf of the Fund, will make any necessary or advisable amendments to the Transaction Documents to facilitate such change, provided that no such Base Rate Modification will be made unless the Rate Determination Agent has determined and confirmed to the Management Company in writing that:
 - a. such Base Rate Modification is being undertaken due to the occurrence of a Base Rate Modification Event and, in each case, such modification is required solely for such purpose; and
 - b. such Alternative Base Rate is:
 - (1) a base rate published, endorsed, approved or recognised by the relevant regulatory authority or any stock exchange on which the Notes are listed, or any relevant committee or other body established, sponsored or approved by any of the foregoing; or
 - (2) a base rate utilised in a material number of publicly listed new issues of Euro denominated asset backed floating rate notes prior to the effective date of such Base Rate Modification; or
 - (3) a base rate utilised in a publicly listed new issue of Euro denominated asset backed floating rate notes where the originator of the relevant assets is Banco Sabadell or an affiliate of Banco Sabadell banking group; or
 - (4) such other base rate as the Rate Determination Agent reasonably determines (and in relation to which the Rate Determination Agent has provided reasonable justification of its determination to the Management Company),
- j) *provided that, (A) in each case, the Base Rate Modification will not, in the Management Company’s opinion, be materially prejudicial to the interest of the Noteholders; (B) the Management Company may propose an Alternative Base Rate on more than one occasion provided that the conditions set out in this paragraph (iii) are satisfied, and (C) the Alternative Base Rate shall fulfil the requirements of the Benchmark Regulation.*

By subscribing the Notes, each Noteholder acknowledges and agrees with any amendments to the Transaction Documents made by the Management Company, in the name and on behalf of the Fund, which may be necessary or advisable in order to facilitate the Base Rate Modification.

Any such Base Rate Modification shall not be carried out unless:

- b) the Issuer pays (or arranges for the payment of), as an Extraordinary Expense, all fees, costs and expenses (including legal fees) properly incurred by the Management Company

and each other applicable party including, without limitation, any of the Transaction Parties, in connection with such modifications. - c) with respect to each Rating Agency, the Management Company has notified such Rating Agency of the proposed modification and, in the Management Company's reasonable opinion, formed on the basis of due consideration and consultation with such Rating Agency (including, as applicable, upon receipt of written confirmation from an appropriately authorised person at such Rating Agency), such modification would not result in (1) a downgrade, withdrawal or suspension of the then current ratings assigned to the Notes by such Rating Agency or (2) such Rating Agency placing the Notes on rating watch negative (or equivalent).

e) Additional rules

When implementing any modification pursuant to this section d), the Rate Determination Agent, the Management Company and the Seller, as applicable, shall act in good faith and (in the absence of gross negligence or wilful misconduct), shall have no responsibility whatsoever to the Noteholders or any other party.

If a Base Rate Modification is not made as a result of the application of paragraph (iii) above, and for so long as the Management Company (acting on the advice of the Seller) considers that a Base Rate Modification Event is continuing, the Management Company may or, upon request of the Seller, must, initiate the procedure for a Base Rate Modification as set out in this section d).

Any modification pursuant to this section d) must comply with the rules of any stock exchange on which the Notes are from time to time listed or admitted to trading and may be made on more than one occasion.

Noteholders representing at least ten per cent (10%) of the Principal Amount Outstanding of the Most Senior Class of Collateralised Notes on the Base Rate Modification Record Date shall not have directed the Management Company (acting on behalf of the Fund) in writing (or otherwise directed the Paying Agent in accordance with the then current practice of any applicable clearing system through which such Most Senior Class of Collateralised Notes may be held) within such notification period that such Noteholders of the Most Senior Class of Collateralised Notes do not consent to the Base Rate Modification.

f) Noteholder negative consent rights

If Noteholders representing at least ten per cent (10%) of the Principal Amount Outstanding of the Most Senior Class of Collateralised Notes on the Base Rate Modification Record Date have directed the Management Company (acting on behalf of the Fund) in writing (or otherwise directed the Rate Determination Agent or the Paying Agent in accordance with the current practice of any applicable clearing system through which such Most Senior Class of Collateralised Notes may be held) within the notification period referred to above that such Noteholders of the Most Senior Class of Collateralised Notes do not consent to the proposed Base Rate Modification, then the proposed Base Rate Modification will not be made and paragraph h) above will apply.

For these purposes:

g) Calculations of Notes interest amount

The interest payable under each Note on each Payment Date for each Interest Accrual Period will be carried out in accordance with the following formula:

$$\mathbf{I = P * R / 100 * d / 360}$$

Where:

I	Interest to be paid per Note on a given Payment Date
P	Principal Amount Outstanding of the Note on the Determination Date preceding such Payment Date.
R	Nominal interest rate expressed as a percentage.
d	Number of calendar days actually elapsed in each Interest Accrual Period.

h) Time limit for the validity of claims to interest and repayment of principal

Interest on the Notes will be paid until their full redemption on each Payment Date according to the Pre-Enforcement Priority of Payments specified in section 3.4.7.2 of the Additional Information or, if applicable, according to the Post-Enforcement Priority of Payments contained in section 3.4.7.3 of the Additional Information, provided that the Fund has sufficient Available Funds.

If on a Payment Date, the Fund is totally or partially unable to pay the interest accrued on the Notes according to the Pre-Enforcement Priority of Payments or the Post-Enforcement Priority of Payments, as applicable, set forth in sections 3.4.7.2 or 3.4.7.3 of the Additional Information, respectively, the amounts that the Noteholders do not receive will be paid on the following Payment Date on which the Fund has sufficient Available Funds to do so at the relevant Interest Rate for each Note in accordance with the Pre-Enforcement Priority of Payments or the Post-Enforcement Priority of Payments, as applicable.

The Fund, through its Management Company, may not defer the payment of any interest on the Notes beyond the Legal Maturity Date of the Fund (subject to the Modified Following Business Day Convention). The "**Modified Following Business Day Convention**" shall apply to all Notes, where if a Payment Date or the Legal Maturity Date is not a Business Day, the relevant date shall be postponed to the next day that is a Business Day unless in case that it would thereby fall into the next calendar month, in which event such date shall be deemed to be the immediately preceding Business Day, in all cases with corresponding adjustment to the interest due.

For these purposes, "**Business Day**" means a day which is a T2 Business Day other than (i) a Saturday, (ii) a Sunday or (iii) a public holiday in the City of Madrid (Spain).

"**T2 Business Day**" means a day on which real time gross settlement system operated by the Eurosystem (T2), or any successor system, is open.

The term of the Notes will be divided into successive interest accrual periods comprising the calendar days that have actually elapsed between each Payment Date (each a "**Interest**

Accrual Period"). Each Interest Accrual Period will begin on (and including) the previous Payment Date and end on (but excluding) such Payment Date. Exceptionally:

- a) the first Interest Accrual Period will begin on the Disbursement Date (included) and will end on the First Payment Date (excluded) (the "**Initial Interest Accrual Period**"); and
- b) the last Interest Accrual Period will begin on the last Payment Date (included) prior to liquidation of the Fund and will end on the Early Amortisation Date, the date on which the Notes are fully redeemed or the Legal Maturity Date of the Fund, as applicable (excluded).

If on a Payment Date, the Fund is totally or partially unable to pay the interest accrued on the Notes in accordance with the Pre-Enforcement Priority of Payments or the Post-Enforcement Priority of Payments set forth in sections 3.4.7.2 or 3.4.7.3 of the Additional Information, respectively, the unpaid amounts will be paid on the following Payment Date on which the Fund has sufficient Available Funds to do so immediately before the payment of the same Class for the new period and without accruing additional or default interest in accordance with the aforementioned Pre-Enforcement Priority of Payments, or Post-Enforcement Priority of Payments.

In any case, the Fund cannot defer the payment of interest on the Notes beyond the Legal Maturity Date.

Withholding, contributions or taxes now or hereafter applicable to the principal, interest or returns on the Notes will be the sole responsibility of the Noteholders, and the amount thereof will be deducted by the Management Company, on behalf of the Fund, through the Paying Agent in the manner provided by law.

Payment of interests and redemption of principal will be notified to the Noteholders in the events and with the notice established for each situation described in section 4.2.1 of the Additional Information.

Each and every one of the Notes of each Class will be repaid in the same amount by means of a reduction in the nominal value of each Note.

4.9.2 *Date and forms of redemption*

The final maturity of the Notes will take place on the date on which they are fully redeemed or on the Legal Maturity Date of the Fund (subject to the Modified Following Business Day Convention), without prejudice to the Management Company redeeming the issue of the Notes prior to the Legal Maturity Date of the Fund in accordance with section 4.4.3.

The Notes will be redeemed by reducing their nominal value on each Payment Date until their full redemption in accordance with the redemption rules set forth in 4.9.2.a) below and following the Pre-Enforcement Priority of Payments or the Post-Enforcement Priority of Payments set forth in section 3.4.7.2 and 3.4.7.3, respectively, of the Additional Information, and provided that there are sufficient Available Funds for such purposes.

During the Pro-Rata Redemption Period, the ordinary redemption of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes will be *pari passu* and *pro-rata* without preference or priority amongst themselves holding the nineth (9th) place in the Pre-Enforcement Priority of Payments as set forth in section 3.4.7.2 of the Additional Information.

This redemption will be made in an amount equal to the Pro-Rata Target Redemption Amount, as detailed in section 4.6.2.a) of this Securities Note.

The Class F Notes shall be redeemed in accordance with the Class F Notes Target Amortisation Amount in accordance with the Pre-Enforcement Priority of Payments set forth in section 3.4.7.2 of the Additional Information. Once the Class F Notes are fully redeemed, the subordination of such Class F will no longer apply.

During the Sequential Redemption Period, the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes will be redeemed sequentially in accordance with the Pre-Enforcement Priority of Payments set forth in section 3.4.7.2 of the Additional Information so that the Principal Target Redemption Amount will be applied (i) in the first place to redeem the Class A Notes until their redemption in full, (ii) in the second place to redeem the Class B Notes until their redemption in full, (iii) in the third place to redeem the Class C Notes until their redemption in full, (iv) in the fourth place to redeem the Class D Notes until their redemption in full, and (v) in the fifth place to redeem the Class E Notes until their redemption in full.

The Class F Notes shall be redeemed in accordance with the Class F Notes Target Amortisation Amount in accordance with the Pre-Enforcement Priority of Payments set forth in section 3.4.7.2 of the Additional Information. Once the Class F Notes are fully redeemed, the subordination of such Class F will no longer apply.

Once the Class F Notes are fully redeemed the subordination of such Class F Notes will no longer apply.

The occurrence of any of the following events in respect of any Determination Date prior to the Legal Maturity Date shall constitute a subordination event (each a "**Subordination Event**"):

- a) The Gross Default Ratio is greater than the reference value (the "**Reference Value**"), which shall mean for the purposes of this calculation the result of adding (i) 0.30% and (ii) the product of multiplying 0.15% by the number of Determination Dates elapsed since the Date of Incorporation, including the Determination Date preceding the relevant Payment Date subject to a cap of 5.50%.
- b) The Gross Default Ratio has increased by more than 0.45% since the immediately prior Determination Date.
- c) The Outstanding Balance of the Receivables is less than 10.00% of the Outstanding Balance of the Receivables at the Date of Incorporation of the Fund.
- d) The Outstanding Balance of the Receivables comprised in the Portfolio arising from Loans granted to the same Borrower, as at the immediately preceding Determination Date, is equal to, or greater than 2.00% of the Outstanding Balance of the Portfolio; or
- e) On each Payment Date (except for the First Payment Date), after giving effect to the Pre-Enforcement Priority of Payments, the Principal Deficiency Amount is greater than 0.10% of the aggregate Outstanding Balance of the Receivables as at the Date of Incorporation.

Once the redemption of the Notes becomes sequential it cannot be switched to pro-rata.

For the purposes of this section:

"Gross Default Ratio" means, as of the Determination Date immediately preceding any Payment Date, the ratio between:

- a) the aggregate Defaulted Amount of all Receivables that have become Defaulted Receivables between the Date of Incorporation until the end of the corresponding Determination Period; and

- b) the Outstanding Balance of the Receivables purchased by the Issuer as of the Date of Incorporation.

For the purpose of calculating the numerator of the above ratio, the Defaulted Amount of each Defaulted Receivable shall be taken as at the last day of the Determination Period during which the relevant Receivable became a Defaulted Receivable.

"Principal Deficiency Amount" means the positive difference, if applicable between: (a) the Principal Withholding and (b) the remaining Available Funds after payments ranking first (1st) to eighth (8th) in the Pre-Enforcement Priority of Payments.

"Principal Withholding" means, on a Payment Date, the positive difference if any on the Determination Date preceding the relevant Payment Date between (i) the Principal Amount Outstanding of the Collateralised Notes, and (ii) the Outstanding Balance of Non-Defaulted Receivables.

c) Early Amortisation of all the Notes issued

Upon the occurrence of any of the events set forth in section 4.4.3 of the Registration Document the Management Company shall carry out the Early Liquidation of the Fund and, thus, the Early Amortisation of all Notes issued, and distribute the Available Funds in accordance with the Post-Enforcement Priority of Payments set out in section 3.4.7.3 of the Additional Information.

In case of Early Amortisation of the Notes pursuant to section 4.4.3 of the Registration Document:

- a) the Class A Notes will rank pari passu and pro rata without preference or priority amongst themselves and in priority to the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes;
- b) the Class B Notes will rank pari passu and pro rata without preference or priority amongst themselves and in priority to the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes, but subordinated to the Class A Notes;
- c) the Class C Notes will rank pari passu and pro rata without preference or priority amongst themselves and in priority to the Class D Notes, the Class E Notes and the Class F Notes, but subordinated to the Class A Notes and the Class B Notes;
- d) the Class D Notes will rank pari passu and pro rata without preference or priority amongst themselves and in priority to the Class E Notes and the Class F Notes, but subordinated to the Class A Notes, the Class B Notes and the Class C Notes;
- e) the Class E Notes will rank pari passu and pro rata without preference or priority amongst themselves and in priority to the Class F Notes, but subordinated to the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes; and
- f) the Class F Notes will rank pari passu and pro rata without preference or priority amongst themselves.

d) Legal Maturity Date

The Legal Maturity Date of the Fund and consequently the final redemption of the Notes is 26 January 2038 (subject to the Modified Following Business Day Convention). Final redemption of the Notes on the Legal Maturity Date shall be made subject to the Post-Enforcement Priority of Payments set forth in section 3.4.7.3 of the Additional Information.

4.10 Indication of investor yield and calculation method

The average yield, duration and final maturity of the Notes depend on several factors, of which the most significant are the following:

- a) The repayment schedule for each of the Loans established in the corresponding Loan Agreements.
- b) The ability of the Borrowers to totally or partially early repay the Loans and the speed with which this early repayment takes place during the life of the Fund. Thus, the early repayment of the Loans by the Borrowers, subject to ongoing changes, and estimated in this Prospectus through several assumptions regarding the behaviour of the future CPR, which will directly influence the speed of the redemption of the Notes, and, therefore, the average life and duration of the Notes.
- c) The interest rates applicable to the Loans.
- d) A payment default by the Borrowers regarding payment of the Loan instalments.

In order to calculate the tables included in this section, the following hypothetical values and circumstances, taking into consideration the Receivables, have been assumed for the factors described:

- a) Regarding the Receivables:
 - (a) each of the Receivables complies with the representations and warranties provided in section 2.2.8.(b) of the Additional Information;
 - (b) no Receivable will be substituted by the Seller in accordance with section 2.2.9 of the Additional Information;
 - (c) the weighted average interest rate of the Receivables is 8.44% (i.e., weighted average interest rate of the Preliminary Portfolio); and
 - (d) an annual constant default rate (CDR) of 1.78%, with an average recovery rate of 50% with an assumption of a twelve (12) months recovery lag. The CDR and the recovery rate are consistent with the rates of Sabadell Consumer portfolio of equivalent auto loans and with the delinquency data in the charts included in section 2.2.7.j) (*Delinquency Ratio*) of the Additional Information;
- b) the disbursement of the Notes takes place on the Disbursement Date;
- c) the CPRs (6%, 8% and 10%) hold constant over the life of the Notes, the CPRs are consistent with respect the information with the CPR data of a similar portfolio to the Preliminary Portfolio;
- d) the weighted average coupon of the Notes on the Disbursement Date is equal to 2.602% (under the assumption that EURIBOR one-month was 1.875% on 1 September 2025) and the weighted average margin of the Notes is 0.727%;
- e) no interest is received in respect of the accounts on behalf of the Fund and no negative interest is charged;
- f) the estimated annual Ordinary Expenses of the Fund are based on a weighted average annual rate of 0.09% on the Outstanding Balance of the Receivables, which, during the

First Payment Date, will correspond to an amount equivalent to 0.02% of the Initial the Balance of the Receivables;

- g) no Subordination Event occurs (except for the Clean-Up Call Event), taking account of the delinquency and default assumptions set out in paragraph (a) (Regarding the Receivables), indent (d) of this section 4.10, there would not be a Subordination Event;
- h) there is no Early Liquidation of the Fund by application of a Tax Change Event or Regulatory Change Event, however there is an Early Liquidation of the Fund on the Payment Date immediately following the first occurrence of a Clean-Up Call Event due to the Seller exercising the relevant Clean-Up Call;
- i) the first Payment Date on which the principal of the Collateralised Notes is repaid will be the Payment Date falling on 29 December 2025 and the first Payment Date on which the principal of the Class F Notes is repaid will be the Payment Date falling 26 January 2026;
- j) for the purposes of calculating IRR under the Notes, the subscription price of the Class A Notes, the Class B Notes, the Class C Notes, the Class D, the Class E and the Class F Notes is 100% of their nominal amount;
- k) no Class E Notes Interest Deferral Trigger has occurred;
- l) the interest rates applicable to the Notes result from the sum of one-month Euribor 1.875% on 1 September 2025 and the margins as established in section 4.8.2 of this Securities Note in the absence of an agreement on the margins; and
- m) Swap rate: 2.5% (that falls within the range (2.00%; 2.51%) as detailed in section 3.4.8.1 of the Additional Information).

The hypothesis a) (*Regarding the Receivables*), indents (c) and (d) are derived from the historical information provided by the Seller and are reasonable for the portfolio of Receivables.

Assuming that the Management Company, acting on behalf of the Fund, proceeds to the Early Liquidation of the Fund, following the instructions of the Seller, on the First Payment Date after the occurrence of a Clean-Up Call Event as established by section 4.4.3.2 of the Registration Document, the weighted average life, maturity and IRR of the Notes would be the following assuming a CPR of 6%, 8% and 10%, respectively:

The Management Company states that the information in the tables included below is for informative purposes only and that the amounts reflected therein do not represent a specific payment obligation to third parties by the Fund in the referred dates or periods. The data included in the tables below has been prepared under the assumption of a repayment rate of the Loans on a constant basis among the duration of the Fund, subject to constant changes.

The average life of each class of the Notes are subject to factors largely outside the control of the Fund and consequently no assurance can be given that the assumptions and the estimates above will prove in any way to be realistic, and they must therefore be viewed with considerable caution.

Set forth below are the tables showing the debt service for each Class of Notes assuming a CPR of 6%, 8% and 10% which is consistent with the Cash Flow Model provided by INTEX. Tables for different scenarios are not included, given that differences in average life are not significant.

1.4 *The Meeting of Creditors, once convened by the Management Company, shall be tasked with safeguarding the interests of the Noteholders and the Other Creditors and will be limited to the Transaction Documents with no distinction made in respect of the different Classes of Noteholders. Any information given to one Class of Noteholders must also be given to all other Noteholders.*

1.5 *If throughout the life of the Fund, another financial creditor ("Other Creditors"), exists aside from the Noteholders, the Management Company shall treat these Other Creditors as a distinct Class of Noteholders for the purposes of determining applicable quorums and approving any resolution in accordance with terms set for in these Rules. No creditor of the Fund other than the Noteholders and the Other Creditors shall have the right to vote at any Meeting of Creditors.*

a) Ratings

On 1 September 2025, the Notes included in this Securities Note were given the following provisional ratings by the Rating Agencies (as of the date of registration of this Prospectus, no notification has been received from the Rating Agencies modifying such provisional ratings):

	Fitch	Moody's
Class A Notes	AA+ (sf)	Aa1 (sf)
Class B Notes	AA (sf)	A1 (sf)
Class C Notes	A+ (sf)	A3 (sf)
Class D Notes	A (sf)	Baa1 (sf)

A failure by the Rating Agencies to confirm any of the provisional ratings (unless they are upgraded) on or prior to the Disbursement Date will be immediately reported to the CNMV and made public as provided in section 4 of the Additional Information. This circumstance will result in termination of the incorporation of the Fund, the Notes issued, all the Transaction Documents and the assignment of the Receivables.

On the other hand, as shown in the table above, the Class E Notes and Class F Notes have not been rated.

b) Ratings considerations

The meaning of the ratings assigned to the Rated Notes by the Rating Agencies can be reviewed at those Rating Agencies' websites:

- a) <https://www.fitchratings.com/>;
- b) <https://www.moodys.com/>.

The information of this webpage does not form part of this Prospectus and has not been examined or approved by CNMV.

The ratings assigned by the Rating Agencies do not constitute an evaluation of the likelihood of Borrowers prepaying principal, nor indeed of the extent to which such payments differ from what was originally forecasted and should not prevent potential investors from conducting their own analysis of the Notes to be acquired. The ratings are not by any means a rating of the level of actuarial performance.

The above credit ratings are intended purely as an opinion and should not prevent potential investors from conducting their own analyses of the securities to be acquired.

The Rating Agencies may revise, suspend or withdraw the final ratings assigned at any time, based on any information that may come to their notice. Those events, which shall not constitute early liquidation events of the Fund, shall forthwith be notified to both the CNMV and the Noteholders, in accordance with the provisions of section 4.1 of the Additional Information.

c) Registration of Rating Agencies

- a) On 31 October 2011, Fitch was registered and authorised by the ESMA as European Union Credit Rating Agencies in accordance with the provisions of the CRA Regulation.
- b) On 31 October 2011 Moody's was registered and authorised by the ESMA as European Union Credit Rating Agencies in accordance with the provisions of the CRA Regulation.

d) Description of Fitch ratings

Fitch's Ratings of structured finance obligations on the long-term scale consider the obligations' relative vulnerability to default. These ratings are typically assigned to an individual security or tranche in a transaction and not to an issuer.

- a) **AAA (sf): Highest Credit Quality.** 'AAA' ratings denote the lowest expectation of default risk. They are assigned only in cases of exceptionally strong capacity for payment of financial commitments. This capacity is highly unlikely to be adversely affected by foreseeable events.
- b) **AA (sf): Very High Credit Quality.** 'AA' ratings denote expectations of very low default risk. They indicate very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.
- c) **A (sf): High Credit Quality.** 'A' ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.
- d) **BBB (sf): Good Credit Quality.** 'BBB' ratings indicate that expectations of default risk are currently low. The capacity for payment of financial commitments is considered adequate, but adverse business or economic conditions are more likely to impair this capacity.
- e) **BB (sf): Speculative.** 'BB' ratings indicate an elevated vulnerability to default risk, particularly in the event of adverse changes in business or economic conditions over time; however, business or financial flexibility exists that supports the servicing of financial commitments.
- f) **B (sf): Highly Speculative.** 'B' ratings indicate that material default risk is present, but a limited margin of safety remains. Financial commitments are currently being met; however, capacity for continued payment is vulnerable to deterioration in the business and economic environment.

- g) **CCC (sf):** Substantial Credit Risk. Very low margin for safety. Default is a real possibility.
- h) **CC (sf):** Very High Levels of Credit Risk. Default of some kind appears probable.
- i) **C (sf):** Near default. A default or default-like process has begun, or for a closed funding vehicle, payment capacity is irrevocably impaired.
- j) **RD (sf):** Restricted default. 'RD' ratings indicate an issuer that in Fitch's opinion has experienced an uncured payment default or distressed debt exchange on a bond, loan or other material financial obligation, but has not entered into bankruptcy filings, administration, receivership, liquidation, or other formal winding-up procedure, and has not otherwise ceased operating.
- k) **D (sf):** Default. 'D' ratings indicate an issuer that in Fitch's opinion has entered into bankruptcy filings, administration, receivership, liquidation or other formal winding-up procedure or that has otherwise ceased business and debt is still outstanding.

Within rating categories, Fitch may use modifiers. The modifiers "+" or "-" may be appended to a rating to denote relative status within major rating categories. Such suffixes are not added to 'AAA' ratings and ratings below the 'CCC' category.

Where a rating is referred to as "expected," alternatively referred to as "expects to rate," it will have a suffix as (EXP). This indicates that the assigned rating may be sensitive to (i) finalisation of the terms in the draft documents or (ii) fulfilment of other contingencies at closing. For example, expected ratings can be assigned based on the agency's expectations regarding final documentation, typically based on a review of the draft documentation provided by the issuer. When final documentation is received, the (EXP) suffix typically will be removed and the rating updated if necessary.

e) Description of Moody's ratings

Moody's global long-term rating scale appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

Descriptions on the meaning of each individual relevant rating is as follows:

- a) **Aaa (sf):** Obligations rated Aaa are judged to be of the highest quality, subject to the lowest level of credit risk.
- b) **Aa (sf):** Obligations rated Aa are judged to be of high quality and are subject to very low credit risk.
- c) **A (sf):** Obligations rated A are judged to be upper-medium grade and are subject to low credit risk.
- d) **Baa (sf):** Obligations rated Baa are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.
- e) **Ba (sf):** Obligations rated Ba are judged to be speculative and are subject to substantial credit risk.
- f) **B (sf):** Obligations rated B are considered speculative and are subject to high credit risk.

- g) **Caa (sf):** Obligations rated Caa are judged to be speculative of poor standing and are subject to very high credit risk.
- h) **Ca (sf):** Obligations rated Ca are highly speculative and are likely in, or very near, default, with some prospect of recovery of principal and interest.
- i) **C (sf):** Obligations rated C are the lowest rated and are typically in default, with little prospect for recovery of principal or interest.

f) Final rating considerations

The Rating Agencies differentiates structured finance ratings from fundamental ratings (i.e., ratings on non-financial corporate, financial institution, and public sector entities) on the long-term scale by adding the suffix "(sf)" or "sf" to the structured finance ratings.

The information of this webpage does not form part of this Prospectus and has not been examined or approved by CNMV.

The Management Company, by virtue of a delegation by the Seller shall notify the competent authority- of the submission of such mandatory STS Notification to ESMA, attaching such notification.

1.2 STS compliance

a) STS status

Neither the Management Company, on behalf of the Fund, the Seller, the Arranger, the Lead Managers or any other party to the Transaction Documents gives any explicit or implied representation or warranty as to (i) the inclusion of this securitisation transaction in the list administered by ESMA within the meaning of Article 27(5) of the EU Securitisation Regulation, (ii) whether this securitisation transaction shall be recognised or designated as "STS" or "simple, transparent and standardised" within the meaning of Article 18 of the EU Securitisation Regulation after the date of notification to ESMA, and (iii) whether the securitisation transaction does or will continue to meet the "STS" requirements or to qualify as an STS-securitisation under the EU Securitisation Regulation) as at the date of this Prospectus or at any point in time in the future.

The status of the STS Notification is not static, and investors should conduct their own research regarding the status of the STS Notification on the ESMA website (<https://www.esma.europa.eu/policy-activities/securitisation/simple-transparent-and-standardised-sts-securitisation>).

b) Third-Party Verification

The Seller, as originator, has used the services of PCS, as a Third Party Verification Agent (STS) in connection with an assessment of the compliance with the requirements of Articles 19 to 22 of the EU Securitisation Regulation (the “**STS Verification**”). It is expected that the STS Verification prepared by PCS (i) will be issued on or prior to the Disbursement Date, and (ii) will be available for investors on the PCS website (<https://www.pcsmarket.org/sts-verification-transactions/>) together with a detailed explanation of its scope at <https://www.pcsmarket.org/disclaimer>. The information of this webpage does not form part of this Prospectus and has not been examined or approved by CNMV.

The STS Verification is not a recommendation to buy, sell or hold securities, is not investment advice whether generally or as defined under MiFID II and is not a credit rating whether generally or as defined under the CRA Regulation or Section 3(a) of the United States Securities Exchange Act of 1934 (as amended). PCS is not an “expert” as defined in the Securities Act.

There can be no assurance that the securitisation transaction described in this Prospectus will receive the STS Verification by PCS and if the securitisation transaction described in this Prospectus does not receive the STS Verification, this shall not, under any circumstances, affect the liability of the Seller and the Fund in respect of its legal obligations under the EU Securitisation Regulation, nor shall it affect the obligations imposed on institutional investors as set out in Article 5 of the EU Securitisation Regulation. Having said that, since PCS has prepared draft versions of the STS Verification during the process leading to registration of this Prospectus, it is expected that the final STS Verification will be positive. Investors should conduct their own research regarding the nature of the STS Verification and must read the information available in <http://pcsmarket.org>. In the provision of STS Verification, PCS bases its decision on information provided directly and indirectly by the Seller. The PCS website and the contents included therein do not form part of this Prospectus.

c)

CRR Assessment

As a separate matter from the STS-status, an application has been made to PCS to assess compliance of the Notes with the additional criteria set forth in the CRR regarding STS-securitisations (i.e., the CRR Assessment).

Additionally, when performing a CRR Assessment, PCS is not confirming or indicating that the securitisation subject of such assessment will be allowed to have lower capital allocated to it under the CRR Regulation. PCS is merely addressing the specific CRR criteria and determining whether, in PCS’ opinion, these criteria have been met. More information on the limitations of the CRR Assessment by PCS is available in <https://pcsmarket.org/disclaimer>.

Therefore, no bank should rely on a CRR Assessment in determining the status of any securitisation in relation to capital requirements or liquidity cover ratio pools and must make its own determination.

1.3

The minimum denomination of the issue

The Fund, which is represented by the Management Company, will be incorporated with the Receivables that Sabadell Consumer will assign to the Fund on the Date of Incorporation, the principal amount of which (plus any interest overdue and unpaid, if applicable) will be equal to or slightly lower than SEVEN HUNDRED FIFTY MILLION EUROS (€750,000,000), amount which is equal to the Principal Amount Outstanding of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, and the Class E Notes as of the Date of Incorporation (the “**Collateralised Notes**”).

In addition, the Fund shall issue the Class F Notes with an aggregate nominal value of EIGHT MILLION FIVE HUNDRED THOUSAND EUROS (€8,500,000), which proceeds shall be used (i) to

Not applicable.

2. THE UNDERLYING ASSETS

2.1 Confirmation that the securitised assets backing the issue have characteristics that demonstrate the capacity to produce funds to service any payments due and payable on the securities

The Seller confirms that, having regard to their contractual characteristics, the flows of principal, interest and any other amounts generated by the securitised Receivables are sufficient to meet the payments due and payable under the Collateralised Notes in accordance with the contractual nature thereof.

However, in order to cover any eventual payment defaults of the Borrowers, credit enhancements will be put in place in order to increase the security or regularity of the payments of the Notes, and which are described in section 3.4.2 of this Additional Information. Such credit enhancements, however, may prove to be insufficient in exceptional circumstances.

Not all the Notes issued have the same risk of default. Hence the different credit ratings assigned by the Rating Agencies to the Rated Notes, detailed in section 7.3 of the Securities Note.

2.2 Assets backing the issue

The Fund will pool in its assets the Receivables arising from Loans granted by Sabadell Consumer to Borrowers, who are individuals and legal persons' who were resident or registered, as applicable, in Spain as of the date of formalisation of the relevant Loan Agreement, for the financing of the acquisition of New Vehicles or Used Vehicles.

The characteristics and requirements to be met by the Receivables to be assigned to the Fund are described in the sections below and in accordance with the provisions of the Deed of Incorporation.

2.2.1 *Legal jurisdiction by which the pool of assets is governed*

a) General considerations

The Loans and the Receivables are governed by Spanish law.

In particular, the securitised Receivables are governed by the Spanish banking regulations and, specifically and where applicable, by:

- a) Law 16/2011;
- b) Circular 8/1990 of Bank of Spain, of 7 September, on transparency of transactions and protection of customers;
- c) Order EHA/2899/2011, of 28 October, on transparency and protection for customers of banking services;

- d) Circular 5/2012, of 27 June, of Bank of Spain, for credit entities and providers of payment services, on transparency of banking services and responsible granting of loans, where applicable;
- e) Consumer Protection Law; and
- f) Law 7/1998, of 13 April, on General Contracting Conditions ("**Law 7/1998**").

b) Reservation of title to the vehicles

All Loan Agreements from which the Receivables included in the Preliminary Portfolio derive have a reservation of title clause included in an official form (in a deed (*póliza*) granted before a notary or in a private agreement). As all Loan Agreements are executed in an official form, all of them can be registered with the Register of Instalment Sales of Movable Properties (*Registro de Venta a Plazos de Bienes Muebles*).

Under a reservation of title, full and encumbered title over a Vehicle will not be transferred to the Borrower until the Borrower has fulfilled all the obligations arising from the relevant Loan.

In order for reservation of title clauses to be enforceable *vis-à-vis* third parties, it will be necessary to register them in the Register of Instalment Sales of Movable Properties (*Registro de Venta a Plazos de Bienes Muebles*).

As provided in section 2.2.2(i), the reservation of title has only been registered with the Register of Instalment Sales of Movable Properties with respect to 49.04% of the Loans which represents 37.30% of the Outstanding Balance of the Receivables arising in the Preliminary Portfolio.

The Register of Instalment Sales of Movable Properties notifies on a daily basis the registration of such reservation of title to the Vehicles Register of the Spanish General Traffic Directorate (*Registro de Vehículos de la Dirección General de Tráfico*), which has a purely administrative nature, where they also become registered.

Non-registration of a reservation of title clause involves that the reservation of title provision in the Loan Agreement shall exclusively have *inter-partes* effects (i.e., it would be unenforceable against third party purchasers in good faith, who would be considered as having validly acquired full legal and unencumbered title over the Vehicle affected by the reservation of title clause, without prejudice to Seller's right to claim damages against the Borrower arising from the latter's failure to abide by the non-disposal covenant).

Registration of a reservation of title clause in the Register of Instalment Sales of Movable Properties is optional.

Considering that all Loan Agreements are in official form, in the case they are formalized (i) as a public deed (*póliza*), in accordance with sections 4 and 5 of Article 517 of the Civil Procedural Law or (ii) as a private form, and registered with the Register of Instalment Sales of Movable Properties, the Fund, as holder of the Receivables, will be able to benefit from the preferences and priorities foreseen in Articles 1922.2 and 1926.1 of the Civil Code, in accordance with Article 16.5 of Law 28/1998, of 13 July, of Instalment Sales of Movable Properties. Consequently, if two or more credits compete with respect to certain movable properties, and as regards the order of priority for their payment, the secured credit excludes the rest of credits up to the value of the item pledged as a security. The specifics of this issue are further described in section 3.4.6.(g) ("*Special consideration relation to the reservation of title*") of the Additional Information.

In the event that the Loan Agreement is registered with the Register of Instalment Sales of Movable Properties, the recovery procedure is made through a notary, as described in section 3.4.6.(g) ("Special consideration relation to the reservation of title") of the Additional Information.

c) Consumer Protection Law and linked contracts under the Law 16/2011

The Fund may be exposed to credit risk in relation to individual Borrowers acting as consumers for non-business purposes.

Individual Borrowers qualifying as consumer benefit from the protective provisions of Royal Legislative Decree 1/2007, of November 16, approving the consolidated text of the General Law for the Defence of Consumers and Users and other complementary laws (*Real Decreto Legislativo 1/2007, de 16 de noviembre, por el que se aprueba el texto refundido de la Ley General para la Defensa de los Consumidores y Usuarios y otras leyes complementarias*) (as amended, the **Consumer Protection Law**) and Law 16/2011, of June 24, on consumer credit agreements (*Ley 16/2011, de 24 de junio, de contratos de crédito al consumo*) (as amended, **Law 16/2011**).

If a Loan Agreement is entered into with a consumer within the meaning of Article 3 of the Consumer Protection Law and/or Article 2 of the Law 16/2011 there is also a risk that the provisions on consumers' rights and linked contracts may apply to the Loan Agreement.

In addition, as indicated in section 1.1.(j) of the Risk Factors, there is an increasing tendency in recent years for Spanish borrowers to file claims against financial institutions, including allegations that certain provisions included in the agreements entered into between such financial institutions and the consumers are unfair (*abusivas*) and therefore null and void.

In addition, there is a strong trend in Spanish case law that leans towards declaring the unfairness of many standard clauses regularly used by financial institutions in the consumer financing market.

Such case law is not static and has changed over time in certain instances as a consequence of new legal developments and/or the change of position of higher courts; this, in some instances, has led to a variety of different decisions by courts on similar issues from time to time and, ultimately, uncertainty amongst lower courts, borrowers and lenders on the outcome of the disputes.

In relation to the above, the main consequence of a clause in a consumer loan being declared unfair by a court is that such clause will be considered null and void. In practice, this implies that the loan agreement will have to be interpreted as if the clause had never been in the loan agreement, whilst the rest of the clauses in the loan agreement will remain binding for the parties, provided the loan agreement can survive without the unfair clause. Please refer to section 1.1h) of the Risk Factors section for further information in relation to this issue.

Loans of the Preliminary Portfolio representing the 0,091% of the Outstanding Balance corresponds to loans in which borrowers have filed lawsuits requesting the nullity of the agreement alleging the existence of unfair (*abusiva*) clauses although is highly improbable that these claims end in favourable judgement for the borrower and, in any case, the borrower continue to pay the corresponding instalments.

Thus, there exists a risk that, should a claim alleging the abusiveness of any of these clauses be made, they end up being declared unfair by the Spanish courts.

Any Spanish court judgment declaring the unfairness of a clause of a loan may instigate other borrowers in similar contracts to initiate claims based on similar grounds.

This could create potential liabilities and, eventually, affect the Fund's ability to generate income, which in turn, if subject to mass litigation, could have a material adverse effect on the Fund's business and financial condition.

On 14 March 2025, the official gazette of the Spanish parliament (the "**Official Gazette of the Spanish Parliament**") (*Boletín Oficial de las Cortes Generales*) published the draft law on credit servicers and credit purchasers, which amends Law 44/2022, on measures for the reform of the financial system, Law 16/2011, and the Insolvency Law (the "**Draft Law on Credit Servicers and Credit Purchasers**") following its approval by the Council of Ministers on 4 March 2025.

The Draft Law on Credit Servicers and Credit Purchasers, in its second final provision, introduces certain amendments to Law 16/2011, including the following:

- g) the requirement for lenders to establish debt renegotiation policies applicable to all types of debtors. These policies must be approved by the highest governing body and include measures such as extending the maturity date, modifying the type of credit agreement, deferring payment of all or part of the amortisation instalments, reducing the interest rate, offering grace periods, partial repayment, currency conversion, partial debt forgiveness, and debt consolidation, among other renegotiation measures. These policies must reasonably aim to reach renegotiation agreements before demanding full repayment of the loan or credit or resorting to judicial actions;
- h) certain pre-contractual information obligations concerning modifications to the terms of a credit agreement;
- i) economically vulnerable borrowers must be offered a payment plan, before the sale or assignment of the matured loan to a third party, under which the accrual of new interest and fees on the loan is frozen, the debt is repaid in a manner consistent with the borrower's financial circumstances, with monthly instalments not exceeding five per cent of their monthly income at the time the offer is made, and a predefined debt reduction scheme is applied; (iii) obligations arising from customer protection and transparency regulations, shall be fully transferred to the third-party assignee, and the codes of good practice adhered to by the assignor shall remain applicable; and
- j) certain conditions governing the imposition of default charges or early maturity fees on customers are included.

Should the Draft Law on Credit Servicers and Credit Purchasers be enacted in its current form, the expected returns on those securitised assets governed by Law 16/2011 could be reduced (or be postponed) if they become subject to any debt renegotiation policies adopted by the Seller in compliance with the new legislation. This could have a material adverse impact on the Fund's ability to meet its obligations in respect of the Notes.

2.2.2 General characteristics of the Borrowers, the Receivables and the economic environment, as well as any global statistical data referred to the securitised assets.

a) Assignment

The total Outstanding Balance of the Receivables (plus any interest overdue and unpaid, if applicable) to be assigned by Sabadell Consumer to the Fund on the Date of Incorporation will

be equal to the Receivables Amount SEVEN HUNDRED FIFTY MILLION EUROS (€750,000,000) or an amount slightly lower but as close as possible to that amount. The assignment of the Receivables to the Fund will have effect from the Date of Incorporation and will be documented by means of the Sale and Purchase Agreement (which will include a list of the Receivables assigned to the Fund, directly or by reference to the list included in the Deed of Incorporation).

The Receivables will be randomly selected from the Preliminary Portfolio and shall meet the representations and warranties set forth in section 2.2.8.(b) of the Additional Information.

The preliminary loan portfolio from which the Receivables shall be selected (the "**Preliminary Portfolio**") comprises SEVENTY ONE THOUSAND FIVE HUNDRED AND FORTY ONE (71.541) Loans, with a total Outstanding Balance as of 24 June 2025 of €906,764,443.

The Borrowers under the Loans from which the Receivables arise are individuals and legal persons' who were resident or registered, as applicable, in Spain as of the date of formalisation of the relevant Loan Agreement.

All the Loans of the Preliminary Portfolio are payable on monthly instalments under the French repayment system.

b) Review of the selected assets securitised through the Fund upon being established

EY has reviewed a sample of 461 loans, randomly selected from the Preliminary Portfolio from which the Receivables shall be selected on the fulfilment of certain features and attributes included in the representations and warranties set forth in section 2.2.8 (b) of the Additional Information. Additionally, EY has verified the data disclosed in the following stratification tables in respect of the Preliminary Portfolio.

The results, applying a confidence level of at least ninety-nine per cent (99%), are set out in the Special Securitisation Report on the Preliminary Portfolio prepared by EY for the purposes of complying with Article 22.2 of the EU Securitisation Regulation. Sabadell Consumer, as Seller, confirms that no significant adverse findings have been detected.

The Management Company has requested from the CNMV the exemption to submitting the Special Securitisation Report on the Preliminary Portfolio according to second paragraph of Article 22.1 c) of Law 5/2015.

Neither the Fund, the Management Company, the Arranger, the Lead Managers, the Paying Agent or any other party to the Transaction Documents other than the Seller has undertaken or will undertake any investigation, search or other action to verify the details of the Receivables and the Loan Agreements or to establish the creditworthiness of the Borrowers. The Seller will not assign to the Fund any Loans in respect of which issues are detected while carrying out the audit.

2.2.3 *Legal nature of the assets*

The Receivables securitised by means of their assignment to the Fund are credit rights deriving from Loans granted by Sabadell Consumer to individuals and legal entities' who were resident or registered, as applicable, in Spain as of the date of formalisation of each Loan, for the financing of the acquisition of New Vehicles or Used Vehicles.

Some of the Loan Agreements from which the Receivables derive include personal guarantees. In addition, all of the Loan Agreements have a reservation of title clause, regardless of the fact that the Loan Agreements have been granted by means of a deed (*póliza*) granted before a notary or in a private agreement; however, not all reservation of title clauses are registered in the Register of Instalment Sales of Movable Properties.

The Receivables will be directly assigned to the Fund, upon being sold by the Seller and acquired by the Fund, on the terms set forth in section 3.3 of this Additional Information.

2.2.4 *Expiration or maturity date(s) of assets*

Each of the selected Loans matures in accordance with its particular terms and conditions as set out in the relevant Loan Agreement, without prejudice to any partial periodic repayment instalments.

The Borrowers may prepay all or any part of the Outstanding Balance of the Receivables arising from the Loans at any time during the term of the Loans, ceasing the accrual of interest on the prepaid portion as from the date of repayment.

The maturity date of any selected Loan will be in no event later than 10 January 2035 (the "**Final Maturity Date**").

2.2.5 *Amount of the Receivables*

a) Receivables Amount

The amount of the Outstanding Balance of the Receivables pooled in the Fund on the Date of Incorporation (plus any interest overdue and unpaid, if applicable) will be equal to or slightly lower than SEVEN HUNDRED FIFTY MILLION EUROS (€750,000,000) (the "**Receivables Amount**"), amount which is equal to the Principal Amount Outstanding of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, and the Class E Notes (the "**Collateralised Notes**") as of the Date of Incorporation.

b) Preliminary Portfolio

The Preliminary Portfolio from which the Receivables to be assigned on the Date of Incorporation will be extracted is composed by SEVENTY ONE THOUSAND FIVE HUNDRED AND FORTY ONE (71.541) Loans, with a total Outstanding Balance of €906,764,443 as of 24 June 2025.

2.2.6 *Loan to value ratio or level of collateralisation*

The Loans comprising the Preliminary Portfolio are not secured by real estate mortgage security (*garantía hipotecaria*); thus, the information concerning the loan to value ratio does not apply.

2.2.7 *The method of origination or creation of assets, and for loans and credit agreements, the principal lending criteria and an indication of any loans which do not meet these criteria and any rights or obligations to make further advances*

The Loans from which the Receivables in the Preliminary Portfolio arise have been granted by Sabadell Consumer following its usual credit risk analysis and assessment procedures for granting loans and credits without mortgage security to individuals and legal entities for financing retail transactions and motor vehicles. A summary of the procedures currently in place at Sabadell Consumer is described below and does not materially differ from the policy under which the selected loans were granted. For avoidance of doubt, the differences would affect to purely formal matters, as the origination channel but not to risk policies, servicing or recovery process.

The Seller will undertake in the Deed of Incorporation to disclose to the Management Company without undue delay any material changes in its lending policies.

a) Introduction Origination or creation for Fund assets by Sabadell Consumer and main granting criteria

Sabadell Consumer is the bank of Banco Sabadell's group specialized in consumer financing in the point of sale through prescribers, both in the car business -through agreements with manufacturers and dealers- and in the financing of consumer goods, services and corporate equipment. This line of business constitutes a pure channel of sale, risk policies, IT systems, recovery procedures, monitoring and any other governance fully depend on Banco Sabadell.

Sabadell Consumer has agreements with more than 2.500 points of sale for auto distributed throughout national territory.

b) General description of the capture and formalization model

Sabadell Consumer has outsourced the Financing Transactions registration, formalization and after-sales service to Worldline Iberia, S.A. with employer identification number A-62736681. The IT system (hereinafter, "**PUTTY**") used for managing the various financing products is owned by Worldline Iberia S.A., and the personnel who work at the service center (hereinafter, the "**WSC**") are also personnel of Worldline Iberia, S.A. and work exclusively for Sabadell Consumer. Despite what is indicated in this section, all the circuits and processes used to manage any of the marketed products are owned by Sabadell Consumer, which is responsible for implementing at the WSC the standards and regulations to be applied at any given time. The WSC is organized by department and has the following structure:

- a) Automotive
- b) Consumer Affairs
- c) Cards
- d) Fraud
- e) Customer Service
- f) Commercial Incidents
- g) Applications, Management, Filing and Recovery
- h) Smart Business
- i) Enterprises and Owners' Associations
- j) Online

k) Credit Stock

The performance of certain specific tasks may require the services of other external providers which are engaged expressly for such tasks, but which do not alter the processes established by Sabadell Consumer.

The operating procedure related to the Loans is carried out with managers who are experts in processing and formalizing them, through various phases that will be described below.

c) Standard-form agreements

Sabadell Consumer has various standard-form Loan Agreements depending on the line of business. In the specific case of the auto line, the Loan Agreement is the one approved by the *Asociación Nacional de Establecimientos Financieros de Crédito* (hereinafter, "**ASNEF**"), which is registered, and it is the one used by Sabadell Consumer. This standard form is adjusted and agreed on with regulators and is updated as and when the legislation changes. The standard form is generated automatically by the system once the auto product is selected in the application, for subsequent formalization with the customer.

d) Application of the law on credit agreements for consumers

The Loan origination and formalization process is conducted in accordance with the rules laid down in Law 16/2011 regarding (i) the pre-contractual information that is made available to the customer, (ii) the making of a binding offer, and (iii) the consumer's right of withdrawal.

e) Pre-contractual information and practices

In accordance with Article 10 of Law 16/2011, Sabadell Consumer must supply free of charge and before the consumer is bound by any financing agreement, the pre-contractual information (contained in what is known as the Standard European Consumer Credit Information form (hereinafter, the "**SECCI form**").

The SECCI form is provided to the consumer sufficiently in advance, allowing the consumer to identify the essential financial terms and conditions of the transaction and compare them with other available offers, so that the consumer can adopt a sufficiently informed decision on whether to sign the Loan Agreement. When the potential customer shows interest in the financial product (a prior point in time when the transaction passes the first scoring), a customized SECCI form (non-generic and adapted to the specific financing transaction) is provided on a digital medium and via a trusted third party. The document must be downloaded and expressly accepted for the formalization process to continue and the contractual documentation to then be supplied separately. If there is any change in the terms and conditions of the application for the transaction, the customized SECCI form will be re-sent to the potential customer separately and always before the contractual documentation is signed. If the SECCI form is not accepted, processing of the transaction stops. If formalization cannot be completed using the regular electronic channel, the marketing partner has an alternative procedure to obtain consent to the SECCI form using a handwritten signature. The marketing partner downloads the SECCI form from the platform and gives it to the potential customer so that he or she can read it in full and adopt a decision. If the potential customer signs the SECCI form, the marketing partner will send the document by email to the WSC to verify the signature and the date before sending the contractual documentation. If the SECCI form is not accepted, processing stops. The SECCI form pre-contractual information is provided to the potential customer sufficiently in advance to enable the potential customer to identify the financial terms and conditions of the transaction and compare the offer with other available offers in order to adopt a sufficiently informed decision before signing the financing agreement. In this respect, in the flow of the application for financing in the consumer financing digital solution, a screen has been dedicated to the pre-

contractual information, which is prior to and different from the screen on which the Loan Agreement is formalized, and on which the customer views the customized, non-generic SECCI form adapted to the specific financing transaction. The user must read the document to the end and accept it by taking an active and express step in order for the prior information process to conclude and the formalization of the financing to continue.

Furthermore, once the potential customer reaches the pre-contractual information screen, he or she will receive an email containing the application for credit and the SECCI form on a durable medium. The email includes a customer service phone number and email address for resolving any queries or requesting any clarification regarding the characteristics and terms and conditions of the financing product.

f) Binding offer

In accordance with Article 8 of Law 16/2011, once the Loan has been approved and before the Loan Agreement is signed, Sabadell Consumer must deliver to the customer, only upon request, a document with all the contractual terms and conditions, as a binding offer (the offer must be maintained for at least fourteen 14 days from its delivery date unless extraordinary circumstances or circumstances not attributable to Sabadell Consumer are present).

The Binding Offer document is generated automatically and can be downloaded using the tab enabled for the purpose on Sabadell Consumer website <https://www.sabadellconsumeronline.com/SabadellConsumer> for the Point of Sale ("POS") or can be requested from the WSC using any of the means of communication made available to the POS and the end customer. The information of this webpage does not form part of this Prospectus and has not been examined or approved by CNMV.

g) Right of withdrawal

The law establishes the consumer's right to withdraw from the Loan Agreement by notifying Sabadell Consumer of such circumstance within fourteen 14 calendar days from the date of signature of the Loan Agreement or, if later, from the date of receipt of the binding offer, with no need to state the reasons and no penalty whatsoever, except for the interest accrued through the date of withdrawal. The notice must be sent in writing to the email addresses provided by Sabadell Consumer.

h) Date capture: mandatory data for individuals in the auto capture

To validate and formalize the Loans, certain data are obtained from the Borrower. The data vary depending on whether the borrower is an individual or legal entity.

- a) If the Borrower is an individual, Sabadell Consumer collects their national identity card number, first name, surnames, date of birth, full address, nationality and country of birth, contact phone number, direct debit details of the holder or joint holder of the account in which the related bills will be direct debited, housing situation and expenses arising from such situation, information on their work situation and their email address.
- b) If the Borrower is a legal entity, the type of entity, business name, full address, town and zip code, contact phone number, direct debit details, date of incorporation, number of directors, registration and financial data of the company, national identity card number, first names and surnames of the attorney-in-fact or attorneys-in-fact who will formalize the Loan Agreement, notary, protocol number, date of powers of attorney and definitive employer identification number.

Some of the aforementioned fields may not be required for certain POS or commercial agreements, however, this will always be subject to the approval of Risk, Commercial and Regulatory Compliance Management.

The WSC will deal with requests submitted by the Commercial Network regarding whether a cell phone number may be required. Appropriate individuals at the WSC will decide whether to approve said requests.

i) Input channels

Applications may be registered in a number of ways, listed below, once the POS or the Borrower has the information required to record the transaction.

- a) Phone / email: WSC managers are responsible for entering the required information of the borrower (previously specified) and the financing characteristics (previously specified) to PUTTY (the sole input channel for applications from legal entities). The borrowers or POS provide the information via phone or email.
- b) Website: Authorized POS may access the Sabadell Consumer website, (<https://www.sabadellconsumeronline.com/SabadellConsumer/>), where they can obtain financial information if they log in with their username and password. The information of this webpage does not form part of this Prospectus and has not been examined or approved by CNMV.
- c) Sabadell Consumer APP: POS can download our APP on a mobile device and the POS can use it to obtain the financial information.
- d) Web service: This input channel facilitates data collection and transfers the information to PUTTY via the web service. As stated in the Document Validation service, the POS is tasked with requesting and receiving ancillary documents from the borrower and providing this information to Sabadell Consumer for their review.

j) Resolution of transactions

The admission procedure consists of a series of actions aimed at the resolution of credit applications with the purpose of (i) approving credit transactions for those customers that are in the target market and meet the requirements, (ii) rejecting applications identified as having a higher risk of non-payment, and (iii) providing alternatives for those applications that require a more in-depth analysis.

Once applications are captured with all the mandatory and necessary data mentioned above, they are analysed by the Sabadell Consumer system.

This model gives a score to each application, which is obtained from the sum of the various variables that are scored. Once the application has been scored and according to the rules applied by the system, the application is introduced a decision-making matrix for its classification as approved, rejected or grey area.

There are three (3) potential outcomes, once the assessment has been finalised: (i) acceptance of the application; (ii) rejection of the application; or (iii) review (grey area). The latter (grey area) applies when there are insufficient grounds for acceptance and rejection simultaneously and therefore the decision must be made by a Risk Analyst (either a Sabadell Consumer employee or a Wordline Iberia, S.A. employee).

The model employs two (2) types of data categories:

- a) Scoring: the calculation is made using the scoring model. This scoring is understood as a measurement of the probability of payment default. The lower the score, the higher the risk of payment default.
- b) Rules: Sabadell Consumer has only negative rules, which highlight all weak points observed in the application (including fraud, indebtedness, insecurity of employment, previous experience, among others).

The combination of the “scoring” with the “rules results” establishes the basis upon which the result of the model.

All the applications requiring a manual analysis, have an established circuit to grant retail risk established by Sabadell Consumer in connection with the approval of transactions within its scope. In this admission procedure there are no pre-approved Loans.

k) Risk empowerment

Empowerment is personally conferred based on the officer’s experience and qualification and need to be so empowered for discharging their duties, having regard to the characteristics of the unit in which they carry out their activity. Since it is conferred on the individual as opposed to the position, the empowerment figure can vary when various individuals hold the same positions.

The empowerment for accepting risks originates in Sabadell Consumer policy-making bodies and is cascaded down the hierarchy. The empowerment figure is determined based on the officer’s capability and the characteristics of the assigned market and segment.

Empowerment is conferred and used personally and accountability for its use shall also be personal. This personal liability is not lost or diluted even where decisions are made on the risks committee, which decisions are never collegiate decisions. Liability for the decision extends not only to the outcome but also to the appropriateness of the route chosen to study the decision and the documents provided.

l) Loan Agreement signature process

a) General process

The contractual documentation is generated automatically on the Sabadell Consumer website once the application for financing is authorized either by the score or by a Risk Analysis. In both cases, all the necessary fields for printing must be properly filled in. The POS can print this documentation directly on our website or request it from the WSC, where the documentation will be sent to the POS by means of an encrypted email that is generated by PUTTY. As a general rule and for point-of-sale financing, all the documentation relating to the Loan Agreement must be signed by all the persons concerned and always in the presence of a representative of the POS.

b) Online sales

When the Borrower buys the vehicle via the offer placed online by the POS, the signatories to the Loan Agreement must sign it in the presence of the marketing partner's personnel, in order to duly identify the Borrowers by verifying their original identity documents (national identity card/foreigner identity card). If not possible for reasons of physical distance between the seller and the buyer, the signing must take place in the presence of personnel of Sabadell Consumer, of Banco Sabadell or by any other future method that Sabadell Consumer establishes as valid. In all cases, as a measure to reinforce the process and make it robust as a means of proof, a copy of the document evidencing the Borrower's identity (national identity card/foreigner identity card) must be provided together with the duly signed Loan Agreement. In addition, prior to payment a verification call will be made to the owners to verify identities, signature method, main characteristics of the Loan and vehicle acquired in order to validate and detect any possible anomalies in the vehicle sale and financing process. A retention of title will be recorded in all transactions of this kind.

c) Signature before a notary

Sabadell Consumer has determined that Loan Agreements for an amount that exceeds the threshold set by the Risk Regulations, which is currently forty thousand euros €40,000 but was previously thirty thousand euros €30,000, will be formalized before a notary. Such Loan Agreements are printed from the website by the sales manager for the territory or the commercial manager, who is in charge of arranging the signature before a notary with customers. The system contains parameters for the amount and requests verification that the signing has taken place at a notary's office. Where notary-attested agreements are executed before different notaries (partial attestation), each notary-attested agreement will be considered complete, and each notary will keep his/her copy. In this respect, the WSC must make sure that the two sets of notary-attested Loan Agreements for Sabadell Consumer jointly include each notary's unattested copy.

Notwithstanding the foregoing, Sabadell Consumer reserves the right, apart from the criteria set by Risk Management, to determine that the Loan Agreement must be attested before a notary for any other reason.

m) Registration of reservation of title

A set of rules have been programmed into the system whereby if the Loan has those characteristics and is ultimately formalized, the reservation of title must be registered. In the night-time process, the system sends a notice to the Register of Instalment Sales of Movable Properties, via a third-party provider to record a pre-registration entry.

The main criteria followed by Sabadell Consumer to determine whether the reservation of title associated with a Loan must be registered are as follows:

- a) Amount: reservation of title provisions must be registered for all Loans with a principal amount in excess of twenty five thousand euros (€25,000).

- b) Number of signatories to the Loan Agreement.
- c) Term of the Loan.
- d) Model of the vehicle financed by the Loan.
- e) The Borrower's risk profile.

n) Documentation validation and Loan Agreement formalization

- a) Receipt of documents

As discussed in the Input Channel section, POS are largely responsible for having requested from the Borrower and forwarding to the WSC the mandatory and necessary documentation for each application, which may vary depending on the amount or product according to the established policy. In Loan Agreements in which the POS does not act as an intermediary, Sabadell Consumer makes available to the end customer different ways in which to also forward the mandatory documentation. The documentation for Loans applications may be received using different ways taking into account the Line of business, Loan Agreement and the type of documentation.
- b) Documentation validation

Once the mandatory documentation has been received, the WSC is responsible for verifying that the data provided by the Borrower are correct and for modifying the data in the application in the event of discrepancies, sending the application for financing via a workflow to the Risk Management department for a new study if appropriate.
- c) Loan Agreement

In all cases, it must be verified that all the parties to the Loan Agreement have signed in the relevant sections and that in the case of handwritten signatures the signature of the parties apparently matches the strokes of those of the identity documents supplied. It will also be verified that the signed Loan Agreement has all of its copies and counterparts. It is important to verify that the version of the Loan Agreement matches the version that appears in the application for such financing application, in order to ensure that no item of data relating to the financing has been modified after such document was signed. The version of a Loan Agreement indicates any modifications that have been made in it. It is essential for the document being signed to include the latest modifications, if any.

- d) SECCI form

The SECCI form includes the application for the Loan and the binding offer of the transaction, in which all the parties to the Loan Agreement, by means of acceptance thereof, represent that the personal data and other information and documentation supplied are truthful and authorize Sabadell Consumer to process such data in order to register and evaluate their application. The application for the Loan also includes the Borrowers' authorization to the institution to verify their work data with the Social Security General Treasury (VEDACON) and also to share the data relating to the Loan with other institutions associated with the institution, such as the CONFIRMA file. The WSC is responsible for ensuring that all the necessary signatures are included in the spaces enabled for the purpose. If the SECCI form is not accepted, none of the available signatures are activated in order to ensure that Sabadell Consumer have the document first. The authorization of the SEPA direct debit order must be signed solely by the holder(s) of the bank account who in turn are parties to the Loan. The WSC is responsible for ensuring that

all the necessary signatures are included in the spaces enabled for the purpose. In cases of digital signatures, a check is made in the system to ensure that the signature process has been correct.

e) Documentation evidencing identity

All the parties to the Loan Agreement without exception must be identified using the appropriate document. The WSC must verify that the data match those reported in the system and that the document remains valid.

f) Voucher for direct debit arrangement

For each Loan that is formalized, Sabadell Consumer requires a bank voucher that evidences that the Borrower holds the account indicated for the direct debit of bills and that the Borrower is the holder or joint holder of the Loan Agreement. Accounts held by persons who act as guarantors under the agreement are not admitted. For Banco Sabadell customers, this check is made automatically by the system meaning that the document is not necessary provided that the account furnished is a Banco Sabadell account, following the criteria established by Risk Management.

o) Incident management and control

a) Payment incidents

If the documentation sent by the POS or by the Borrower is correct and matches the checks detailed in the preceding section, the Loan Agreement will be formalized, and the amount of the Loan will therefore be paid or the card will be formalized for stamping and shipment if appropriate where a payment method product is involved (see next heading "**Formalization and sending of the agreement**"). If any documentation is missing or is not correct, it will be classified by the WSC as a payment incident and, therefore, the transmission to the POS and the formalization will not take place until the incident has been rectified. A payment incident means any anomaly detected in the document validation process that prevents payment without affecting the approval of the financing and that therefore is a rectifiable incident. If the incident is not rectifiable, the application will be directly rejected in the system. If the WSC detects any rectifiable incident, it will inform the POS and the end customer of such incident so that it can be resolved. The WSC will keep the physical documentation of the file for a period of 90 days, whereupon and if the incident is not resolved, such documentation will be scanned, and the application will be cancelled automatically by the system. All scanned documentation of transactions that have not been formalized will be kept for one (1) year, whereupon Sabadell Consumer's digital files are deleted.

b) Post-payment validation incidents

Circumstances may arise that cause Sabadell Consumer to pay the amount of the Loan and to formalize the Loan Agreement without having received all the documentation and therefore not having completed the appropriate validations. These circumstances mainly consist of two scenarios:

- 1) Request for exceptions from the commercial network with the commitment to supply the documents correctly after the payment.
- 2) The personal and financial documentation is forwarded by email for the payment, and the receipt of the original Loan Agreement remains pending, as only a photocopy of it was supplied. In both cases, the WSC is responsible for keeping a register with all of these files

and monitoring the receipt of the documents. If a document with an incident is received, the file will be marked with a validation incident, and it will be handled with the sales manager assigned to the POS for resolution. If for some reason a post-payment validation incident cannot be resolved, the sales manager or commercial manager will be the one who must request that the person at the SC designated by Operations with the relevant explanation, mark it as "withdrawn" and in auto cases eliminate the reports that are sent monthly to the commercial network to track and monitor such incidents.

p) Formalization of the Loans

To accept a Loan, three mandatory requirements must be met:

- a) The transaction must have been approved by Risk Management.
- b) Validation of the Loan Agreement and documentation to be provided. If all the relevant validations are correct, that is, the documentation and the Loan Agreement are correct (a photocopy of the agreement being admitted for POS authorized to engage in this practice), the Loan Agreement will be formalized. Then, where applicable, the amount of the Loan Agreement will be paid to the POS or the borrower, as appropriate.
- c) Anti-fraud checks made. It is a process conducted by a specialized team comprised of both Sabadell Consumer employees (which are the majority) and employees of Wordline Iberia, S.A. that tries to check that the data supplied by borrowers are correct. To do so, they use various techniques and tools with the aim of checking the accuracy of the data. Some of these tools are fraud engines that provide alerts of inconsistencies, connections with the social security authorities and Bank of Spain, monitoring of national identity cards, credit bureaus, among others.

Recovery process

a) Amicable bad debt management

The strategy followed by Sabadell Consumer for managing bad debt is general in scope and fully outsourced, and the main variables taken into account in the collection activity are age of the debt, financial product and customer risk.

These three variables are defined as follows:

- a) Age of the Loans: The number of days counted from the due date of the oldest outstanding debt of the Loan Agreement. The management strategy will be defined on the basis of this variable.
- b) Financial Product: The type of product to which the contract pertains.
- c) Customer Risk: This is the internal classification of a specific Loan Agreement where, based on different quantitative and qualitative variables, a recovery likelihood percentage is determined.

Bearing in mind the above variables, Banco Sabadell has defined 3 main cycles in the amicable recovery procedure. Early recovery, Specialized recovery and Failed recovery, defined as follows:

b) Early recovery

This cycle of irregular risk management is developed in the earliest stage of bad debt recovery and involves different management strategies:

a) Automatic simulation of the first debt maturity

An automatic process through which a second collection attempt is made, through the simulation of the debt maturity for certain customer profiles depending on the reason for the return.

b) Digital recovery of the bad debt

Customers are categorized to determine their propensity for digital and autonomous collection, so that this digital recovery strategy can be carried out through a website.

c) Recovery through external agencies (Call Centers)

Early bad debt recovery strategy for managing the recovery of debt of contracts of less than ninety (90) days old through external agencies. The management of irregular risk is outsourced to a pool of external agencies (other than Worldline Iberia, S.A.) specialized in recovery and leveraged debt in Champion Challenger and Horse Racing strategies. This model aims to compare the performance of the various collection agencies in the different strategies and management phases, in order to identify strengths and weaknesses of each of them and thus make improvements and adjustments to achieve better performance.

c) Specialized recovery

Subsequent strategy applied for managing the recovery of debt of Loan Agreements of over ninety (90) days of age. This strategy is comprised of both telephone and in-person management. As with the other strategies, this management of irregular risk is outsourced to a pool of external agencies specialized in recovery and leveraged debt in Champion Challenger and Horse Racing strategies. This model aims to compare the performance of the various collection agencies in the different strategies and management phases, in order to identify strengths and weaknesses of each of them and thus make improvements and adjustments to achieve better performance.

d) Failed recovery

Besides these two amicable recovery strategies, there is another specific one for Loan Agreements marked as failed whose last unpaid instalment is at least 750 days old. As with the other strategies, this management of irregular risk is outsourced to a pool of external agencies specialized in recovery and leveraged debt in Champion Challenger and Horse Racing strategies. This model aims to compare the performance of the various collection agencies in the different strategies and management phases, in order to identify strengths and weaknesses of each of them and thus make improvements and adjustments to achieve better performance.

Amicable debt management procedure in case of payment default on Loans.

e) Refinancing

This is a procedure granted or used by Sabadell Consumer for reasons related to current or foreseeable financial difficulties of Borrowers, to cancel one or more of their transactions, or whereby such transactions are made totally or partially current in payment, to enable Borrowers of cancelled or refinanced transactions to repay their Loan (principal and interest), either because they cannot, or it is expected that they will not be able to, fulfil their conditions in a

timely manner. In order for Sabadell Consumer to apply these amicable management procedures, the Borrower must:

- a) Prove the required payment capacity through documentation.
- b) Have experience in positive and sufficiently extensive payment performance.
- c) Have the clear intention to pay, even though it is impossible to do so on the conditions initially agreed.
- d) The settlement of the ordinary interest accrued on the Loan existing up until the date of the refinancing or restructuring must be managed.
- e) The possibility of including new guarantees should be considered as a necessary condition in transactions in default.

The solution in question does not give rise to the successive application of several refinancing or restructuring measures for a same exposure.

- a) The maximum term of the refinanced transaction is seventy-two 72 months, and it may not exceed one hundred and twenty 120 months with the sum of the terms of both refinanced and refinancing transactions.
- b) There are limits by product type, according to whether the subject-matter of the financing is automobile (seventy-two 72 months).
- c) The interest rate is modified with respect to the initial transaction, and there are standard rates by product, depending on the subject-matter of the financing.

f) Vehicle repossession

When there is a situation of insolvency, the repossession of the financed asset and its economic materialization is a relevant measure for Sabadell Consumer, where the confirmation of the asset repossession and the establishment of the terms on which that will occur are essential.

There is a defined protocol that validates the formalization of the necessary documentation and the logistical treatment and deposit of the asset. In addition, the services of appraisal, agency and sale of the vehicle guarantee that this process is carried out under the premises of transparency and management control.

It is essential for Sabadell Consumer to have express confirmation of the owner's intention to pay, and to have the greatest amount and quality of information available. It should be borne in mind that, when the amount resulting from the sale of the vehicle is attached, partial repayments may be made, if that amount is higher than the unpaid debt at that time.

g) Cancellation (debt reduction)

This is an agreement to resolve situations of non-payment whereby Sabadell Consumer waives, or not, the collection of some of the debt in exchange for guaranteeing the collection of the remainder. In this way, Sabadell Consumer secures, as applicable, collection of part of the debt in view of the uncertainty of not collecting any of it.

Sabadell Consumer uses different criteria for determining the scope of the debt reduction processes, although it will depend on the Borrower's situation, and that reduction may never exceed forty per cent 40% of the total nominal debt. Sabadell Consumer only uses debt

reduction if it has previously validated the Borrower's liquidity and solvency status, and the invalidity of the rest of debt collection alternatives available to it.

Sabadell Consumer can formalize the debt reduction agreement through the immediate collection of the agreed amount or, otherwise, by establishing a payment plan that permits achieving it. Only scenarios which permit the total cancellation of the financing transaction shall be envisaged.

h) Court-ordered recovery

The management of the court-ordered recovery process by Sabadell Consumer includes the following functions:

- a) Court Management: This is the responsibility of Sabadell Consumer's Court Management Unit located in the Recovery Management Department. Its main function is to select valid case files to bring to court and to exhaustively monitor them, coordinating with external firms and making decisions for their recovery.
- b) In the course of Court Management, Sabadell Consumer receives assistance from an external law firm which is in charge of the legal action and comprehensive management, from the filing of the complaint to its enforcement and attachment, since it has a team of specialized lawyers and the necessary access to court procedural representatives and judicial districts.
- c) In this respect, it is placed on record that the acceptance of pre-insolvency or insolvency agreements will be done by Sabadell Consumer's court recovery team, with autonomy of up to sixty per cent 60% of debt reduction. In the case of joint debtors, legal measures are taken against them to maximize the recovery once the insolvency procedure ends.
- d) Moreover, in the case of remission of the unpaid liability, the external agency is in charge of preparing the report, documented with the insolvency order and the debt remission order, for the total cancellation of the debt.
- e) Management of claims against Sabadell Consumer: this function is also the responsibility of Sabadell Consumer's Court Management Unit located in the Recovery Management Department. Its main task is to prepare the documentation of the case files, validate the answers to the claims and monitor them exhaustively. As with court management and insolvency management, Sabadell Consumer receives assistance from an external law firm which is in charge of the legal action and comprehensive management, from the answer to the claim to the related judgment, since it has a team of specialized lawyers and the necessary access to court procedural representatives and judicial districts.
- f) Legal procedure in case of default on loan repayment: Once a Borrower has exceeded ninety (90) days of default, Sabadell Consumer can bring legal action. This process is initiated manually: Sabadell Consumer's court recovery team analyses whether the Loan Agreement meets the necessary conditions for the legal process, based on the criteria mentioned previously.
- g) This same team is in charge of preparing the case file and coordinating the legal process, which is subcontracted with court management agencies. The legal action is carried out in parallel to the amicable recovery by the same agency, with the aim of formalizing payment or vehicle repossession agreements, either for the outstanding amount of the Loan or for a lower amount, agreeing on debt reduction immediately or at the end of the agreement, for up to sixty per cent 60%.

h) In particular, depending on the Loan Agreements conditions, different legal actions deemed appropriate may be taken.

1) Claim for order for payment: for Loans with an outstanding risk exceeding ONE THOUSAND FIVE HUNDRED EUROS (€1,500) (approx.), without a maximum limit, provided the acceleration clause is not abusive or, if it is, the Loan Agreement has reached its natural end.

2) Claim for enforcement of judicial instrument: for Loans with an outstanding risk exceeding ONE THOUSAND FIVE HUNDRED EUROS (€1,500) (approx.), for which the enforcement instrument is a court judgment originating from an ordinary or verbal order-for-payment or declaratory claim.

3) Ordinary lawsuit for cases in which the Loan Agreement has not reached its natural maturity, if the acceleration clause is abusive and there is a consumer, or the order-for-payment claim is located and the loan is for an amount exceeding TEN THOUSAND EUROS (€10,000) (approx.).

4) Claim for enforcement: for Loans with an outstanding balance exceeding FIFTEEN THOUSAND EUROS (€15,000) (approx.) and with an enforcement instrument (formalized by a notary), provided the acceleration clause is not abusive or, if it is, the Loan Agreement has reached its natural maturity.

The possibility of reaching court-sanctioned or out-of-court agreements is contemplated, which may be for the outstanding amount of debt or for a lower amount, agreeing on a debt reduction immediately or at the end of the Loan Agreement for up to sixty per cent 60%.

The grace period which Sabadell Consumer applies for filing claims is at least two (2) unpaid instalments.

Finally, and according to Sabadell Consumer policy, a consumer loan is declared a loss (write-off and off-balance sheet) after seven hundred and fifty 750 days of the oldest default after an analysis of the loan's expected recoverability.

i) Arrears and recovery information of the Sabadell Consumer loan portfolio.

The following tables show the historical performance of auto loans originated by Sabadell Consumer with similar characteristics to the Loans included in the Preliminary Portfolio (i.e., a portfolio that meets with most of the representations and warranties established in section 2.2.8 (b) of the Additional Information).

j) Delinquency ratio

The table shows the delinquency ratio of auto loans, calculated as the balance of the relevant delinquency bucket as of the date set out in the table below divided by the balance of the total exposure of loans as of that same date.

- b) the total principal amount of the loans originated in that quarter.

Monthly constant prepayment rate (CPR)

The following table shows the monthly constant prepayment rate (CPR) of Sabadell Consumer auto loan portfolio (exclusively for the financing of the purchase of New Vehicles and Used Vehicles). The monthly CPR has been calculated by dividing (i) the sum of all cash flows related to prepayments made by borrowers in the relevant month shown in the table below; by (ii) the outstanding balance of the auto loan portfolio (New Vehicles and Used Vehicles) at the end of that same month. The monthly CPR ("X") is used to calculate an annualised CPR using the following formula: $1-(1-X)^{12}$.

n) Other considerations

The description of the institutions referred to in the preceding paragraph is contained in section 3.1 of the Securities Note.

The Management Company represents that the summary descriptions of the agreements contained in the relevant sections give the most substantial and relevant information on each of the agreements, accurately present their contents, and that no information has been omitted which might affect the contents of the Prospectus.

3.3 Description of the method and date of the sale, transfer, novation or assignment of the assets or of rights and/or obligations in the assets to the issuer or, where applicable, the manner and time period in which the proceeds from the issue will be fully invested by the issuer

3.3.1 *Formalisation of the assignment of the Receivables*

a) Assignment of the Receivables

The assignment of the Receivables by the Seller to the Fund will be effected on the Date of Incorporation by means of the Sale and Purchase Agreement which will be executed simultaneously with the Deed of Incorporation and upon incorporation of the Fund.

The Receivables are not considered as transferable securities as defined in point (44) of Article 4(1) of Directive 2014/65/EU, derivative instruments or securitisation positions.

The assignment of the Receivables by Sabadell Consumer to the Fund in accordance with the terms of the Sale and Purchase Agreement on the Date of Incorporation will be effective to transfer the full, unencumbered benefit of and right, title and interest (present and future) of the Receivables to the Fund and will not require any further act, condition or thing to be done in connection therewith to enable the Fund to require payment of the receivables arising thereunder or enforce such right in court, other than the notification, on or prior the Date of Incorporation of the assignment of the Receivables to the Fund to all the Borrowers who have signed the relevant Loan Agreements.

b) Notification of the assignment

The assignment by the Seller of the Receivables will be notified to the Borrowers only in the events foreseen in section 3.7.1(I) of the Additional Information although the notification is not a requirement for the validity of the assignment of the Receivables.

Notwithstanding the foregoing, the Borrowers will continue to pay Sabadell Consumer as agreed in the Loan Agreements.

Likewise, upon the occurrence of an Insolvency Event of the Servicer or in case of indications thereof, or liquidation or the replacement of the Servicer, or if the Management Company considers it to be reasonably justified, the Management Company may request the Servicer to notify the Borrowers and the Insurance Companies of the assignment of the outstanding Receivables to the Fund (in the case of the Insurance Companies) and that the payments derived therefrom will only release the debt if payment is made into the Treasury Account opened in the name of the Fund. However, if the Servicer has not served the notice to the Borrowers and the Insurance Companies within five (5) Business Days of receipt of the request by the Management Company, or in the case that the Servicer is in insolvency proceedings, the Management Company itself, either directly or through a new designated servicer or agent, may notify the Borrowers and the Insurance Companies.

"Insolvency Event" means, with respect to any person or entity:

- a) the declaration of insolvency (*declaración de concurso*), including the filing of any request for the declaration of voluntary or mandatory insolvency (*concurso voluntario o necesario*) or the taking or passing of any resolution approving such filing) and/or the filing of an application under Articles 585 to 593 of the Insolvency Law and/or the filing of a request for judicial homologation (*homologación judicial*) under Articles 636 et seq. of the Insolvency Law;

- b) such person or entity falling into any of the categories set out in Article 363 of the Spanish Companies Act which would require it to be dissolved, once the deadline of two (2) months set out in Article 367 of the Spanish Companies Act to remedy the cause of dissolution has elapsed;
- c) any event with respect to itself which, under the applicable laws of any jurisdiction, has an analogous effect to any of the events specified in the paragraphs above;
- d) such person or entity being unable or admitting its inability to pay its debts as they fall due;
- e) such person or entity being deemed, or being declared by a court of competent jurisdiction, to be insolvent or unable to pay its debts as they fall due under Spanish law; or
- f) such person or entity suspending or threatening (by way of written notice) to suspend making payments on its debts as a whole generally as they fall due.

3.3.2 *Receivables assignment terms*

The assignment of the Receivables will be full and unconditional and for the whole of the remaining period up to the maturity of each Receivable.

Sabadell Consumer, as Seller of the Receivables and in accordance with Article 348 of the Commercial Code and Article 1,529 of the Civil Code, will be responsible *vis-à-vis* to the Fund for the existence and lawfulness of the Receivables but will not be responsible for the solvency of the Borrowers.

The Seller does not assume the risk of non-payment of the Receivables and, therefore, does not assume any liability for the payment default by the Borrowers, whether for principal, interest or any other amount due under the Loans, nor does it assume the effectiveness of the guarantees or security granted as security thereof, if any. Furthermore, the Seller will not in any other manner whatsoever guarantee directly or indirectly the success of the transaction or give any security or enter into any repurchase or replacement agreements as regards the Receivables, except as described in section 2.2.9 of this Additional Information.

The Receivables under each Loan comprise the Outstanding Balance of the Receivables due on the relevant assignment date and all ordinary and late payment interest on each Loan, as well as any rights derived from any collateral and any insurance policies (other than obligatory insurance policies for vehicles) related to the Loans, if applicable.

Specifically, without limitation, the assignment of the Receivables shall include all ancillary rights in accordance with the provisions of Article 1,528 of the Civil Code; thus, it will give the Fund the following rights as regards the Loans:

- a) to receive all amounts due to the repayment of principal under the Loans;
- b) to receive all amounts accrued due to the ordinary and late-payment interest on the Loans;
- c) to receive from Borrowers and, as applicable, from guarantors, any other amounts, assets or rights received as payment for Loan principal, interest or expenses;
- d) to receive all possible Loan rights or compensations accruing for the Seller under the Loans, including those derived from any ancillary right attached to the Loans and, if applicable, under loan-related insurance policies, but not including prepayment, early cancellation or

other fees if any such should be established for each Loan, which shall remain for the benefit of the Seller.

All of the aforementioned rights will accrue in favour of the Fund from the Date of Incorporation by virtue of the execution of the Sale and Purchase Agreement. The Fund will also be entitled to receive at the Date of Incorporation the interest accrued since the last instalment of the Loans prior to the Date of Incorporation and, additionally, in case of assigning Receivables in arrears on the Date of Incorporation, the nominal value of the principal balance overdue and unpaid plus the interest overdue and unpaid.

The rights of the Fund resulting from the Receivables are linked to the payments made by the Borrowers under the Loans and, therefore, are directly affected by the evolution, delays, prepayments and any other incident related to such Loans. Bank expenses deriving from the collection of payments defaults and expenses deriving from pre-judicial, judicial or contentious proceedings will be borne by the Seller.

The assignment of the Receivables to the Fund comprises in all cases the assignment of the ancillary rights conferred by the reservation title clauses. Notwithstanding, it has been agreed that the assignment of the ancillary rights deriving from the reservation title clauses will not be filed with the Register of Instalment Sales of Movable Properties in favour of the Fund as long as the Seller continues to be the Servicer. If the Seller ceases to act as the Servicer of the Receivables, the new servicer will be entitled (but not obliged) to register the assignment of the rights conferred by the reservation of titles clauses in favour of the Fund.

Notwithstanding the foregoing, in any case, any rights, payments and compensations obtained as a result of the enforcement of a reservations of title provision will correspond to the Fund, except for those amounts that were not assigned to the Fund in accordance with the provisions of this Prospectus and which will therefore correspond to the Seller.

The Seller may be declared insolvent, and insolvency of the Seller could affect its contractual relationship with the Fund, in accordance with the provisions of the Insolvency Law.

The assignment of the Receivables cannot be the subject of claw-back other than by an action brought by the Seller's receivers, in accordance with the provisions of the Insolvency Law and after proving the existence of fraud in the transaction, as set forth in Article 16.4 of Law 5/2015. The Seller has its place of business office in Spain. Therefore, and unless proof in the contrary, it is presumed that the centre of main interests is Spain.

In the event that the Seller is declared insolvent, in accordance with the Insolvency Law, the Fund, represented by the Management Company, shall have the right of separation with respect to the Receivables, on the terms provided in Articles 239 and 240 of the Insolvency Law; consequently, the Fund shall be entitled to obtain from the insolvent Seller the resulting Receivables amounts from the date on which the insolvency is decreed, being those amounts considered Fund's property and must therefore be transferred to the Fund, represented by the Management Company.

This right of separation would not necessarily extend to the cash received and kept by the insolvent Seller on behalf of the Fund before that date, given the essential fungible nature of money.

Notwithstanding the above, both the Prospectus and the Deed of Incorporation provide for certain mechanisms in order to mitigate the aforesaid effects in relation to cash due to its fungible nature as detailed in section 3.4.2.1 of the Additional Information.

Section 3.3.1 above provides that the Seller's assignment of the Receivables to the Fund shall be notified to the Borrowers although the Borrowers will continue to pay Sabadell Consumer as agreed in the Loan Agreements.

Notwithstanding the above, upon the occurrence of an Insolvency Event of the Servicer or in case of indications thereof, or liquidation or the replacement of the Servicer, or if the Management Company considers it to be reasonably justified, the Management Company may request the Servicer to notify the Borrowers and the Insurance Companies in the terms described in section 3.3.1.b) above.

3.3.3 *Receivables sale or assignment price*

The aggregate amount payable by the Fund to the Seller for the assignment of the Receivables (the "**Receivables Purchase Price**") shall be an amount equivalent to the sum as of the Date of Incorporation of:

- a) For the case of performing Loans (i.e. not in arrears), the nominal value of the principal outstanding balance of each Loan; and
- b) For the case of Loans in arrears, the nominal value of the principal outstanding balance of each Loan, including the nominal value of the principal balance overdue and unpaid.

For the sake of clarification, Loans in arrears will only be assigned to the Fund in case the outstanding balance of the performing Loans described in a) above is not enough to reach an amount close to SEVEN HUNDRED FIFTY MILLION EUROS (€750,000,000).

The Seller shall not receive any interest as a result of the deferral of payment of the purchase price from the Date of Incorporation to the Disbursement Date.

The purchase price will be paid in full before 15:00 CET on the Disbursement Date, for value date on that same day.

The payment of the purchase price will be made by means of an instruction given by the Management Company to the Fund Accounts Provider to proceed to debit the Treasury Account opened on behalf of the Fund and make a transfer to Sabadell Consumer for the total amount of the purchase price of the Receivables, once the amounts corresponding to the issuance of the Notes have been transferred to the Treasury Account and notwithstanding any amounts payable by the Seller for the subscription of a certain number of Notes.

In the event of termination of the incorporation of the Fund, and thus the assignment of the Receivables, (i) the obligation of the Fund to pay the purchase price for the Receivables will be extinguished, and (ii) the Management Company will be obliged to reimburse Sabadell Consumer for any rights that may have accrued to the Fund under the Receivables.

3.4 *Explanation of the flow of funds*

3.4.1 *How the cash flows from the assets will meet the issuer's obligations to holders of the securities, including, if necessary, a financial service table and a description of the assumptions used in developing that table*

The Fund will attend all payment obligations derived from the Notes and its remaining liabilities by applying the cash flows generated by the Receivables and any other rights of the Fund.

The amounts received by the Servicer deriving from the Receivables will be deposited by the Servicer into the Treasury Account of the Fund within two (2) Business Days from their receipt.

The Fund will benefit from the additional protection and enhancement mechanisms described in section 3.4.2 below. These mechanisms will be applied in accordance with the rules of this Prospectus and the Deed of Incorporation and their purpose is to ensure that the cash flows of the Fund are sufficient to attend its payment obligations in accordance with the Pre-Enforcement Priority of Payments set out in section 3.4.7.2 b) of this Additional Information and the Post-Enforcement Priority of Payments set out in section 3.4.7.3 of this Additional Information, as applicable.

All payments of principal and interest (and arrears, if any) on the Notes shall be made in accordance with the rules of this Prospectus, the Deed of Incorporation and the Pre-Enforcement Priority of Payments set out in section 3.4.7.2 b) of this Additional Information and the Post-Enforcement Priority of Payments set forth in section 3.4.7.3 of this Additional Information, as applicable.

The weighted average interest rate of the Loans in the Preliminary Portfolio as of 24 June 2025, as detailed in section 2.2.2(r) above, amounts to 8.44%.

3.4.2 *Information on any credit enhancements, an indication of where potentially material liquidity shortfalls may occur and the availability of any liquidity supports and indication of provisions designed to cover interest/principal shortfall risks*

a) Credit enhancements

In order to (i) strengthen the financial structure of the Fund; (ii) increase the security or the regularity in the payments of the Notes; (iii) partially cover any temporary mismatches in the schedule of flows of principal and interest on the Loans and the Notes; or, in general, match the financial characteristics of the Loans and the Notes; and (iv) ensure the proper operation of the Fund and performance of its obligations on the terms and conditions set forth in the applicable laws from time to time, the Management Company, on behalf of the Fund, will enter into the Transaction Documents and the transactions described below in accordance with the Deed of Incorporation and all applicable legal provisions.

The credit enhancements included in the structure of the Fund are as follows:

- a) Cash Reserve
- b) The Cash Reserve mitigates the liquidity and credit risk due to payment default under the Loans. The Cash Reserve is further described in section 3.4.2.2 of this Additional Information.
- c) Interest Rate Swap Transaction
- d) The Interest Rate Swap Transaction mitigates part of the interest rate risk arising from the floating nature of the interest rate applicable to the Notes. The main terms and conditions of the Interest Rate Swap Transaction and the Interest Rate Swap Agreement are described in section 3.4.8.1. of this Additional Information.
- e) The Fund has not entered into and will not enter into any kind of hedging instrument save as expressly permitted by Article 21 (2) of the EU Securitisation Regulation.
- f) The Receivables do not include derivatives.
- g) Additionally, there is no currency risk given that both the Receivables and the Notes are denominated in the same currency (euros).

b) Cash Reserve

Description

The Cash Reserve will be funded on the Disbursement Date with the proceeds from the disbursement of the Class F Notes in an amount equal to the Initial Cash Reserve Amount (as defined below).

On each Payment Date following the Disbursement Date, the Cash Reserve will be funded in an amount equal to the Required Level of the Cash Reserve (as defined below), provided that there are Available Funds pursuant to the Pre-Enforcement Priority of Payments.

The Cash Reserve shall be held at the Treasury Account.

Required Level of the Cash Reserve

The Cash Reserve shall be equal, during the life of the Fund, to the "**Required Level of the Cash Reserve**" as described below:

a) On the Disbursement Date

The Cash Reserve will be funded on the Disbursement Date for an amount equal to EIGHT MILLION EUROS (€8,000,000), equivalent to approximately a total of 1.07% of the Principal Amount Outstanding of the Collateralised Notes as of Disbursement Date (the "**Initial Cash Reserve Amount**").

b) After the Disbursement Date

The Required Level of the Cash Reserve may be reduced on each Payment Date to the higher of:

- 1) 0.25% of the Principal Amount Outstanding of the Collateralised Notes as of Disbursement Date; and
- 2) 1.07% of the Principal Amount Outstanding of Collateralised Notes as of the preceding Determination Date.

Depletion of the Cash Reserve

The Required Level of the Cash Reserve shall become equal to zero euros (€0) on the earlier of: (i) the Legal Maturity Date; (ii) the Payment Date on which the Non-Defaulted Receivables have been repaid in full; (iii) the Payment Date on which the Collateralised Notes are or have been redeemed in full; and (iv) the Payment Date following the delivery of a notice of Early Amortisation.

Use

The Cash Reserve will form part of the Available Funds and will be applied on each Payment Date until the Required Level of the Cash Reserve is equal to zero euros (€0) to comply with the payment obligations of the Fund in accordance with the Pre-Enforcement Priority of Payments.

Yield

The amount of the Cash Reserve will be credited to the Treasury Account on the Disbursement Date and will be regulated by the Account Bank Agreement pursuant to the terms described in section 3.4.7.2 of this Additional Information.

3.4.3 *Risk retention requirement*

a) EU Retention Requirement

Sabadell Consumer, as Seller, will undertake in the Deed of Incorporation to retain, on an ongoing basis, a material net economic interest of at least five per cent (5%) in the securitisation transaction described in this Prospectus in accordance with Article 6(3)(c) of the EU Securitisation Regulation (*"the retention of randomly selected exposures, equivalent to not less than 5% of the nominal value of the securitised exposures, where such non-securitised exposures would otherwise have been securitised in the securitisation, provided that the number of potentially securitised exposures is not less than 100 at origination"*) and Article 8 of the Commission Delegated Regulation (EU) № 2023/2175 of 7 July 2023 on supplementing Regulation (EU) № 2017/2402 of the European Parliament and of the Council with regard to regulatory technical standards specifying in greater detail the risk retention requirements for originators, sponsors, original lenders, and servicers. In addition, the Seller has undertaken that the material net economic interest held by it shall not be split amongst different types of retainers and shall not be subject to any credit-risk mitigation or hedging, in accordance with Article 6(1) of the EU Securitisation Regulation.

The retention option and methodology used to calculate the net economic interest will not change, unless such change is required due to exceptional circumstances, in which case such change will be appropriately disclosed to Noteholders and published on the following websites: <https://www.tda-sgft.com>. The information of this webpage does not form part of this Prospectus and has not been examined or approved by CNMV.

The Deed of Incorporation will include a representation and warranty and undertaking of the Seller as to its compliance with the requirements set out in Articles 6(1), 6(2) and 6(3) of the EU Securitisation Regulation. In addition to the information set out herein and forming part of this Prospectus, the Seller has undertaken to make available materially relevant information to investors so that investors are able to verify compliance with Article 6 of the EU Securitisation Regulation in accordance with Article 7 of the EU Securitisation Regulation, as set out in section 4.2.1 of this Additional Information. In particular, the monthly reports shall include information about the risk retained, including information on which of the modalities of retention has been applied pursuant to paragraph 1.(e).(iii) of Article 7 of the EU Securitisation Regulation.

Each prospective investor is required to independently assess and determine the sufficiency of the information described above and, in this Prospectus, generally for the purposes of complying with each of the provisions described above and any corresponding implementing measure which may be applicable. In addition, each prospective investor should ensure that they comply with the implementing provisions in respect of the EU Securitisation Regulation.

Investors who are uncertain as to the requirements which apply to them in respect of their relevant jurisdiction, should seek guidance from their regulator.

b) US Risk Retention

The U.S. Risk Retention Rules generally require the "sponsor" of a "securitization transaction" to retain at least five per cent (5%) of the "credit risk" of "securitized assets", as such terms are defined for purposes of the U.S. Risk Retention Rules, and generally prohibit a sponsor from directly or indirectly eliminating or reducing its credit exposure by hedging or otherwise transferring the credit risk that the sponsor is required to retain. Under the U.S. Credit Risk Retention Rules, a "sponsor" means a person who organises and initiates a securitisation transaction by selling or transferring assets, either directly or indirectly, including through an affiliate, to the issuing entity. The U.S. Risk Retention Rules also provide for certain exemptions from the risk retention obligation that they generally impose.

The transaction will not involve risk retention by the Seller for the purposes of the U.S. Risk Retention Rules and the issue of the Notes was not designed to comply with the U.S. Risk Retention Rules. The Seller intends to rely on an exemption provided for in Section 20 of the U.S. Risk Retention Rules regarding non-U.S. transactions. Such non-U.S. transactions must meet certain requirements, including that (1) the transaction is not required to be and is not registered under the Securities Act; (2) no more than ten per cent (10%) of the dollar value (or equivalent amount in the currency in which the securities are issued) of all classes of securities issued in the securitisation transaction are sold or transferred, or for the account or benefit of, to U.S. persons (as defined in the U.S. Risk Retention Rules) and referred to in this Prospectus as Risk Retention U.S. Persons; (3) neither the sponsor nor the issuer is organised under U.S. law or is a branch located in the United States of a non-U.S. entity; and (4) no more than twenty-five per cent (25%) of the underlying collateral was acquired from a majority-owned affiliate or branch of the sponsor or issuer organised or located in the United States.

The Seller has advised the Issuer that it has not acquired, and it does not intend to acquire more than 25 per cent. of the assets from an affiliate or branch of the Seller or the Issuer that is organised or located in the United States.

The Notes provide that they may not be purchased by, or for the account or benefit of, Risk Retention U.S. Persons except with the prior written consent of the Seller up to the ten per cent (10%) Risk Retention U.S. Person limitation under the exemption provided by section 20 of the U.S. Credit Risk Retention Rules. Prior to its purchase of any Notes, any Risk Retention U.S. Person shall first disclose to the Seller and the Lead Managers that it is a Risk Retention U.S. Person and shall obtain the written consent of the Seller (a "**U.S. Risk Retention Consent**"). Prospective investors should note that the definition of "U.S. person" in the U.S. Risk Retention Rules is different from the definition of "U.S. person" under Regulation S. The definition of U.S. person in the U.S. Risk Retention Rules is excerpted below. Particular attention should be paid to clauses (ii) and (viii), which are different from the comparable provisions from Regulation S.

Under the U.S. Risk Retention Rules, and subject to limited exceptions, "U.S. person" means any of the following:

- a) any natural person resident in the United States;
- b) any partnership, corporation, limited liability company or other organisation or entity organized or incorporated under the laws of any State or of the United States¹;
- c) any estate of which any executor or administrator is a U.S. person (as defined under any other clause of this definition);
- d) any trust of which any trustee is a U.S. person (as defined under any other clause of this definition);
- e) any agency or branch of a foreign entity located in the United States;
- f) any non-discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary for the benefit or account of a U.S. person (as defined under any other clause of this definition);
- g) any discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary organized, incorporated, or (if an individual) resident in the United States; and

¹ The comparable provision from Regulation S is "(ii) any partnership or corporation organized or incorporated under the laws of the United States."

- h) any partnership, corporation, limited liability company, or other organization or entity if:
 - 1) organized or incorporated under the laws of any foreign jurisdiction; and
 - 2) formed by a U.S. person (as defined under any other clause of this definition) principally for the principally for the purpose of investing in securities not registered under the Securities Act².

Each holder of a Note or a beneficial interest therein acquired in the initial distribution of the Notes, by its acquisition of a Note or a beneficial interest in a Note, will be deemed, and, in certain circumstances, will be required to represent to the Issuer, the Seller and the Lead Managers that it (1) either (i) is not a Risk Retention U.S. Person or (ii) it has obtained a U.S. Risk Retention Consent, (2) is acquiring such Note or a beneficial interest therein for its own account and not with a view to distribute such Note and (3) is not acquiring such Note or a beneficial interest therein as part of a scheme to evade the requirements of the U.S. Risk Retention Rules (including acquiring such Note through a non-Risk Retention U.S. Person, rather than a Risk Retention U.S. Person, as part of a scheme to evade the ten per cent (10%) Risk Retention U.S. Person limitation in the exemption provided for in Section 20 of the U.S. Risk Retention Rules).

The Seller has advised the Issuer that it will not provide a U.S. Risk Retention Consent to any investor if such investor's purchase would result in more than ten per cent (10%) of the dollar value (or equivalent amount in the currency in which the securities are issued) (as determined by fair value under US GAAP) of all Classes of Notes issued in the securitization transaction being sold or transferred to Risk Retention U.S. Persons.

Failure on the part of the Seller to comply with the U.S. Risk Retention Rules (regardless of the reason for such failure to comply) could give rise to regulatory action against the Seller which may adversely affect the Notes and the ability of the Seller to perform its obligations under the Transaction Documents. Furthermore, a failure by the Seller to comply with the U.S. Risk Retention Rules could negatively affect the value and secondary market liquidity of the Notes.

None of the Arranger, the Lead Managers, the Seller, the Fund or any of their affiliates makes any representation to any prospective investor or purchaser of the Notes as to whether the transactions described in this Prospectus comply as a matter of fact with the U.S. Risk Retention Rules at any time, and none of the Arranger, the Lead Managers or any person who controls them or any director, officer, employee, agent or affiliate of any of the Arranger or the Lead Managers accepts any liability or responsibility whatsoever for any such determination. Investors should consult their own advisors as to the U.S. Risk Retention Rules. No predictions can be made as to the precise effects of such matters on any investor or otherwise.

3.4.4 *Details of any financing of subordinated debt finance*

During the Sequential Period (after the occurrence of a Subordination Event), the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes will be redeemed sequentially in accordance with the Pre-Enforcement Priority of Payments set out in section 3.4.7.2 of the Additional Information so that (i) the Class B Notes will not be further redeemed for so long as the Class A Notes have not been redeemed in full; (ii) the Class C Notes will not be further redeemed for so long as the Class A Notes and the Class B Notes have not been redeemed in full; (iii) the Class D Notes will not be further redeemed for so long as the Class A Notes, the Class B Notes and the Class C Notes have not been redeemed in full; (iv) and the

² The comparable provision from Regulation S is: "(viii)(B) Formed by a U.S. person principally for the purpose of investing in securities not registered under the Securities Act, unless it is organized or incorporated, and owned, by accredited investors (as defined in 17 CFR 230.501(a)) who are not natural persons, estates or trusts".

Class E Notes will not be further redeemed for so long as the Class A Notes, the Class B Notes, Class C Notes and the Class D Notes have not been redeemed in full.

3.4.5 *Specification of any investment parameter for the investment of temporary liquidity surpluses and description of the parties responsible for the said investment*

a) Fund Accounts

On the Date of Incorporation, the Management Company, acting for and on behalf of the Fund, will enter into an account bank agreement (the "**Account Bank Agreement**") with BNP Paribas (the "**Fund Accounts Provider**") in order to carry out the opening, maintenance and operation of the following bank accounts (the "**Fund Accounts**"):

- a) the Treasury Account; and
- b) the Swap Collateral Account;

(each as defined below) according to the terms and conditions set out in the Account Bank Agreement.

b) Treasury Account

On the Disbursement Date and until a change on its remuneration has occurred, BNP Paribas will apply a floating interest rate on the amounts deposited in the Treasury Account. Such floating interest rate will depend on the value of the deposit facility rate set by the European Central Bank as part of its monetary policy measures, and specifically the fixed euro short-term interest rate set and published by the European Central Bank ("**€STR**"), minus a margin of TWENTY (20) basis points (-0.20%). The resulting interest rate may be positive, negative or equal to zero.

From the Disbursement Date onwards, in the event that the **€STR** is permanently or indefinitely no longer provided, any reference to such reference rate shall be deemed to be the rate (including any spreads or adjustments) recommended by the European Central Bank (or any successor administrator) as a substitute for the **€STR** published or provided by the administrator thereof.

BNP Paribas shall apply the aforementioned floating interest rate to the daily balances on the Treasury Account. Interest accrued between the first and last day of each calendar month inclusive shall be calculated by BNP Paribas on the basis of a three hundred and sixty-five (365) day year and the amount so calculated (expressed to two decimal places and rounded up to the second decimal place) shall be credited or debited by BNP Paribas to the Treasury Account on the first Business Day of the calendar month following the month in which it accrues. Exceptionally, the first interest accrual period shall comprise the days elapsed between the Date of Incorporation of the Fund and 30 September 2025, inclusive.

Notwithstanding the above, under the Account Bank Agreement the Fund Accounts can change their remuneration, in which case the new interest rate will be reported by the Management Company to the rest of the parties (including the Rating Agencies).

For clarity, the applicable reference rate is the **€STR** in accordance with paragraph (b) above, and it may be positive, negative or equal to zero.

Sabadell Consumer will not guarantee an interest on the amounts credited by the Fund, through its Management Company, to the Fund Accounts.

c) Operation of the Treasury Account

Pursuant to the Account Bank Agreement the amounts to be credited in the treasury account (the "**Treasury Account**") will include, but are not limited to, the following:

On the Disbursement Date:

- a) the effective subscription price of the Notes issued.

On any other date:

- a) principal and interests on the Receivables;
- b) any other amounts corresponding to the Receivables, and to the disposal or use of assets awarded as a consequence of enforcement or repossession proceedings, or under provisional administration and possession of the assets during enforcement or repossession proceedings, as well as all possible rights and compensations, including those derived from any ancillary right to the Receivables, including, if applicable, those derived from reservation of title and insurance compensations, but excluding fees;
- c) the amount which constitutes the Cash Reserve at any time, as described in section 3.4.2.2 of this Additional Information;
- d) if applicable, any interest accrued from the balances credited in the Treasury Account;
- e) any payment to be made by the Seller to the Fund in connection with the provisions in section 2.2.9 of the Additional Information;
- f) the amounts which, as applicable, may be paid to the Fund by the Swap Counterparty under the Interest Rate Swap Transaction (other than any cash collateral to be transferred by the Swap Counterparty under the CSA and deposited in the Swap Collateral Account);
- g) if applicable, the Servicer Event Reserve Amount; and
- h) the amounts, if any, of interim withholdings on the return on investments to be effected on each relevant Payment Date on the Note interest paid by the Fund, until due for payment to the relevant Tax authorities.

Following the instructions of the Management Company, the amounts that are to be debited in the Treasury Account include, but are not limited to, the following:

On the Disbursement Date:

- a) the purchase price of the Receivables in accordance with section 3.3.3 of the Additional Information, and
- b) the Initial Expenses for the incorporation of the Fund and the issue of the Notes (provided that payments of the Initial Expenses will be made, as soon as each expense becomes due and payable), with the proceeds arising from the Class F Notes.

On each Payment Date, the Available Funds will be applied in accordance with the Pre-Enforcement Priority of Payments or the Post-Enforcement Priority of Payments, as applicable.

d) Swap Collateral Account

Pursuant to the Account Bank Agreement, the account identified as the swap collateral account (the “**Swap Collateral Account**”) will be credited with any cash collateral to be posted by the Swap Counterparty under the Interest Rate Swap Agreement, as described in section 3.4.8.1. of the Additional Information and in the Interest Rate Swap Agreement (including, without limitation, the CSA).

In the event that the Swap Counterparty should transfer any Eligible Credit Support (as defined in the CSA) to the Fund in connection with the Interest Rate Swap Agreement, the Fund shall hold such Eligible Credit Support in the Swap Collateral Account which shall be segregated from the Treasury Account and from the general cash flow of the Fund.

Cash standing to the credit of the Swap Collateral Account (including interest) shall not be Available Funds for the Fund to make payments in accordance with the Pre-Enforcement Priority of Payments or the Post-Enforcement Priority of Payments but may be applied in accordance with the following provisions by, or on behalf of, the Fund as follows (the “**Priority of Payments of the Swap Collateral Account**”):

Prior to the designation of a Swap Early Termination Date, in or towards:

- a) first, payment of any negative interest rates and fees accrued on the funds deposited in the Swap Collateral Account; and
- b) second, payment or discharge of any “Return Amounts”, “Interest Amounts”, “Distributions” (each as defined in the credit support annex forming part of the Interest Rate Swap Agreement (the “**CSA**”)) owed to the Swap Counterparty;

Following the designation of a Swap Early Termination Date, where the Swap Termination Amount is payable by the Fund to the Swap Counterparty:

- a) first, in or towards full or partial payment of any Swap Termination Amount due to the Swap Counterparty; and
- b) second, where the Swap Termination Amount is discharged, the surplus of any amounts standing to the credit of Swap Collateral Account (if any) is to be transferred to the Treasury Account to be applied as Available Funds; and

Following the designation of a Swap Early Termination Date: where the Swap Termination Amount is payable by the Swap Counterparty to the Fund, amounts standing to the credit of the Swap Collateral Account (if any) are permitted to be transferred to the Treasury Account to be applied as Available Funds.

In the event that the Fund Accounts Provider defaults in its obligations under the Account Bank Agreement and due to such default the Fund is not able to immediately apply the collateral amounts held on such account towards any payment due to the Swap Counterparty, the amount payable by the Fund to the Swap Counterparty shall be paid according to the Pre-Enforcement Priority of Payments or the Post-Enforcement Priority of Payments, as applicable.

e) Termination of the Account Agreements

The Account Agreements shall be in force until the earlier of the following: (i) the Legal Maturity Date, or (ii) the date in which the Management Company or Sabadell Consumer carry out or the cancellation of the Fund (upon the Early Liquidation of the Fund), pursuant to sections 4.4.3 and 4.4.4 of the Registration Document.

Furthermore, the Account Agreements will be early terminated if the Fund Accounts Provider resigns or is substituted as provided below:

f) Resignation by the Fund Accounts Provider

The Funds Accounts Provider shall not resign as a Funds Accounts Provider for a period of one (1) year from the date the Account Agreements are executed (the "**Required Performance Period**"), except for the following reasons:

- a) a default by the Fund in the performance of its obligations under the Account Agreements; or
- b) the occurrence of supervening circumstances that would prevent BNP Paribas from or make it materially difficult for it to continue to provide such service, including in particular:
 - a. the definitive termination by BNP Paribas of the activity of bank agent or holder of treasury accounts for securitization funds in Spain; or
 - b. a legal or regulatory change or any other mandatory measure ordered or binding interpretative criteria that may imply that the performance of the Account Agreements by BNP Paribas would result in a breach by it or impose a limitation in the remuneration conditions of the Account Agreements that would result in a decrease in the income to which BNP Paribas would be entitled under the Account Agreements.
- c) (collectively, the "**Reasonable Grounds for Resignation of the Account Agreements**").

Upon expiration of the Required Performance Period, BNP Paribas may terminate its status as a Fund Accounts Provider by giving at least thirty (30) calendar days' prior written notice to the Management Company.

g) New Fund Accounts Provider

In such case, the Management Company will make its best efforts to appoint, as soon as possible, a new fund accounts provider (a "**New Fund Accounts Provider**"), provided that the following conditions are met (the "**Fund Accounts Provider Substitution Requirements**"):

- a) the New Fund Accounts Provider is a credit institution duly authorised to provide banking services in Spain;
- b) the New Fund Accounts Provider has at least the following credit ratings:
 - 1) the Fitch Minimum Rating,
 - 3) the Moody's Minimum Rating.
- c) the New Fund Accounts Provider has an extensive experience and a proven operational track record in functions similar to those described in the Account Agreements;
- d) the New Fund Accounts Provider can assume in substance the rights and obligations of the Fund Accounts Provider; and
- e) the New Fund Accounts Provider shall have agreed with the Management Company to perform the duties and obligations of the Fund Accounts Provider;

- f) the Rating Agencies shall have been given prior notice of such substitution and such substitution shall not entail the downgrade or withdrawal of any of the ratings then assigned by the Rating Agencies to the Rated Notes; and
- g) such substitution is made in compliance with the then applicable laws and regulations.

h) Voluntary Substitution by the Management Company

During the Required Performance Period, the Management Company shall not replace the Fund Accounts Provider, except in the event of serious and repeated breach of its obligations thereunder by the BNP Paribas. Once the Required Performance Period has elapsed, the Management Company may, at any time, substitute at its sole discretion the Fund Accounts Provider by giving at least thirty (30) calendar days prior notice to the Fund Accounts Provider and provided that the Fund Accounts Provider Substitution Requirements are met.

Neither the voluntary termination of the Account Bank Agreement by the Fund Accounts Provider nor by the Management Company will be effective until the new institution assuming the position of Fund Accounts Provider has effectively resumed functions. Notwithstanding the foregoing, upon receipt of a notice of withdrawal from BNP Paribas, Sabadell Consumer and the Management Company will use their best efforts to appoint a New Fund Accounts Provider for the Fund as soon as possible.

The expenses arising from the preparation and signing of the legal documentation for the replacement of BNP Paribas as Fund Accounts Provider shall be borne:

- a) by BNP Paribas: only in the event of resignation by it during the Required Performance Period triggered by a Reasonable Grounds for Resignation of the Account Agreements, or in the event of substitution by the Management Company triggered by a serious and repeated breach by BNP Paribas of its obligations under the Account Agreements; and
- b) by the Fund: in the event of substitution by BNP Paribas (not due to a serious and repeated breach by BNP Paribas) or in the event of resignation by BNP Paribas during the Required Performance Period due to a Reasonable Grounds for Resignation of the Account Agreements other than a default by the Fund in the performance of its obligations under the Account Agreements, or, at any time after the Required Performance Period has elapsed.

For the foregoing purposes, Sabadell Consumer undertakes to use reasonable commercial efforts to enable the Management Company to transfer the Fund Accounts to an entity with sufficient credit ratings so that the rating of the Notes by the Rating Agencies is not impaired. The Management Company and BNP Paribas unconditionally undertake to execute such public or private documents as may be necessary or convenient for the transfer of the Fund Accounts.

i) Rating Agencies Criteria for the Fund Accounts Provider

In the event that rating of the Fund Accounts Provider or of the replacing entity in which the Fund Accounts are opened, should, at any time during the life of the Notes issue, be downgraded:

- a) below (a) a long-term deposit rating, if available, of A- or, if no long-term deposit rating is available, a long-term issuer default rating of A-, and (b) a short-term deposit rating, if available of F1 or no short-term deposit rating is available, a short-term issuer default rating of F1 assigned by Fitch (each a "**Fitch Minimum Rating**");

b) below a long-term bank deposit rating of A2 from Moody's (the "**Moody's Minimum Rating**")

Any of the above events being considered as a "**Fund Accounts Provider Downgrade Event**", the Management Company shall, after notifying the Rating Agencies and within sixty (60) calendar days from the day of the occurrence of any of the aforementioned events, will do its best efforts to adopt one of the options described below to allow an appropriate level of guarantee to be maintained with respect to the commitments relating to the Fund Accounts, in order for the ratings given to the Rated Notes by the Rating Agencies not to be adversely affected:

- a) obtain from an institution with, at least: (i) the Fitch Minimum Rating and/or (ii) the Moody's Minimum Rating, an unconditional and irrevocable first demand guarantee securing, upon request of the Management Company, the timely performance by the Fund Account Provider of its obligation to repay the amounts deposit therein, for as long as the Fund Account Provider remains downgraded (being the validity and enforceability of the guarantee covered by a legal opinion);
- b) transfer the Fund Accounts to an institution with, at least: (i) the Fitch Minimum Rating, and (ii) the Moody's Minimum Rating, and the Management Company will arrange the highest possible return for the balance of the Fund Accounts, which may be lower, equal to or higher than that arranged with the Fund Accounts Provider (or the replacing entity in which the Fund Accounts are opened).

In this regard, the Fund Accounts Provider (or the replacing entity in which the Fund Accounts are opened) shall make its best efforts to notify the Management Company of any change or removal of its rating given by the Rating Agencies, upon that occurrence throughout the life of the Rated Notes.

All costs, expenses and taxes incurred due to the execution and formalisation of the previous options will be borne by the Fund as an Extraordinary Expense.

3.4.6 *How payments are collected in respect of the Receivables*

a) General

The Servicer, acting as collection agent on behalf of the Fund, will collect any amounts for both principal and interest under the Loans paid by the Borrowers, as well as any other amounts that may be payable to the Fund, and will immediately deposit said amounts into the Treasury Account within two (2) Business Days from the date of receipt. The Servicer will only pay the Fund the amounts that it receives from the Borrowers in respect of the Loans.

b) Control of the deposited amounts arising from the Receivables

Each month, on the corresponding Information Date, the Servicer will provide the Fund with the servicing report, as per section 3.7.1.5 of the Additional Information in this Prospectus.

Both the Servicer and the Management Company will endeavour to settle any disagreement they may have prior to the Collection Determination Date. However, if no such agreement is reached prior to the Collection Determination Date, the Servicer will provisionally transfer into the Treasury Account the amount determined by the Management Company with sufficient justification, without prejudice to subsequent agreements to adjust this amount. In any case, the Servicer will only pay the Fund the amounts that it has previously received from the Borrowers in respect of the Loans.

c) Defined terms in this section shall have the meanings detailed below:

The “**Collections Determination Date**” means the second (2nd) Business Day immediately preceding a Collections Settlement Date. On said date, the Management Company and the Servicer will ascertain the amounts that have effectively been deposited into the Treasury Account, and the extent, if applicable, of any difference in respect to the amounts that should have been deposited in accordance with each of the Loan Agreements and the information provided by the Servicer in the servicing report.

The “**Collections Settlement Date**” means the date on which the Management Company shall resolve any discrepancy (whether positive or negative) with respect to the Collections Determination Date and, will take place on the 18th day of each month or, the immediately preceding Business Day.

d) Powers of the holder of the Receivables in case of breach by the Borrower or the Servicer of their obligations

Sabadell Consumer, as Servicer of the Receivables, will apply the same level of expertise, diligence and procedures for recovery of any amounts due and unpaid under the Receivables as it applies for the rest of the loans included in its portfolio. In particular, once the relevant periods for out-of-court actions to obtain payment of unpaid amounts under the Receivables have elapsed without having recovered the relevant unpaid amounts, the Servicer will bring any relevant legal actions for such purposes. In any case, the Servicer will bring the aforementioned legal actions if, after having analysed the specific circumstances of the case, the Management Company, on behalf of the Fund in agreement with the Servicer, deems it appropriate.

The current recovery actions that Sabadell Consumer is applying are described in section 2.2.7.1.b) (*Recovery process*).

In case of payment default under the Loans, the out-of-court and court actions described in this section will be initiated for the purposes of obtaining payment of any amounts due or recovering the financed Vehicles, as applicable.

e) Action against the Servicer

The Management Company, acting for and on behalf of the Fund, may take action against the Servicer where the breach of the obligation to pay principal or interest amounts and/or any other amounts due under the Loans by the Borrowers is attributable to the Servicer (and therefore does not derive from Borrower default).

The Servicer will not be liable if said breach is caused by the Servicer’s compliance with the servicing provisions or the instructions given by the Management Company.

f) Actions in case of payment default under the Loans

The Management Company may, acting on behalf of the Fund, take all legal actions derived from the ownership of the Receivables, in accordance with applicable legislation.

For the above purposes, the Management Company as entity responsible for servicing and managing the Receivables pursuant to Article 26.1.b) of Law 5/2015, shall grant in the Deed of Incorporation a power of attorney as broad as permitted by law in favour of the Servicer so that the latter, acting through any of its duly authorized attorneys, as instructed by the Management Company, may claim any Borrower (and if applicable any guarantor) in or out-of-court the payment of any amounts due under the Receivables and take legal actions against them, in addition to any other powers required for the performance of its duties as Servicer. These powers

may also be granted under a separate document from the Deed of Incorporation or may be expanded and modified, if necessary, for the performance of such duties.

Additionally, the Servicer undertakes to inform the Management Company, on behalf of the Fund, on a monthly basis, of any payment defaults, early repayments and adjustments of the interest rates and maturity, and to provide timely information regarding payment demands, certified notices given to the Borrowers or guarantors, legal actions, and any other circumstances affecting the Loans or the Receivables. Furthermore, the Servicer will provide the Management Company with all the documents that the latter might request in relation to the Loans and, in particular, the documents that the Management Company might need for the purposes of bringing any legal actions.

The Servicer shall, as a general rule, commence the relevant legal proceedings if the Borrower has failed to pay two (2) instalments of the Loan.

g) Special consideration relating to the reservations of title

As per section 2.2 of the Additional Information, all Loan Agreements includes a reservation of title provision and are drafted following an official form, but they can be formalized either (i) as a public document (*póliza notarial*) granted before a notary or (ii) as a private document

Additionally, the Loan Agreements may be registered or not in the Register of Instalment Sales of Movable Properties (and therefore in the Vehicles Register of the Spanish General Traffic Directorate).

h) Reservation of title in private document (in an official form)

Benefits and preferences of the creditor under a loan agreement formalized as a private document following the official form will depend on whether or not the loan agreement has been registered with the Register of Instalment Sales of Movable Properties:

- a) If the loan agreement has not been registered with the Register of Instalment Sales of Movable Properties, the creditor will not be able to benefit from the preferences and priorities foreseen in (x) Article 1922.2 of the Civil Code, by virtue of which credits secured with a security over a relevant asset will enjoy preference up to the value of the asset and (y) article 1926.1 of the Civil Code, by virtue of which, if two or more co-existing credits over certain movable assets, a credit secured with a security over such asset will exclude the remaining credits up to the value of the secured asset, nor will be able to benefit from the right of separation in case of insolvency of the owner of the vehicle.
- b) If the loan agreement has been registered with the Register of Instalment Sales of Movable Properties, the creditor will have a right of separation over the vehicle in the event of insolvency of the vehicle owner. In such case, the vehicle will not be included in the insolvency estate (*masa activa*) of the owner and therefore will not be taken into account when assessing the assets held by the owner of the vehicle to pay the amounts due to his/her creditors. However, it will be possible to include in such insolvency estate any excess after repayment of the amounts due to the creditor under the loan agreement. In addition, the creditor would also enjoy the preference and priority set out in articles 1922.2 and 1926.1 of the Civil Code explained in paragraph (a) above.

i) Effectiveness against third parties

The effectiveness against third parties of a loan agreement formalized as a private document following the official form will depend on whether or not the loan agreement has been registered with the Register of Instalment Sales of Movable Properties:

- a) If the loan agreement has not been registered with the Register of Instalment Sales of Movable Properties, it will only be effective between the parties to the loan agreement. Good-faith purchasers (*adquirentes de buena fe*) of the vehicle could argue that they were not aware of the existence of a reservation of title over the vehicle, and consequently the reservation of title provisions will not be enforceable against such good-faith purchasers.
- b) If the loan agreement has been registered with the Register of Instalment Sales of Movable Properties, the loan agreement will be effective against third parties. This means that a good-faith purchaser (*adquirente de buena fe*) will not be able to argue that it was not aware of the reservation of title provision over the vehicle, and thus this reservation of title provision will be enforceable against such good faith purchaser.

j) Available proceedings

The proceedings available to the creditor under a loan agreement formalized as a private document following the official form will depend on whether or not the loan agreement has been registered with the Register of Instalment Sales of Movable Properties:

- a) If the loan agreement has not been registered with the Register of Instalment Sales of Movable Properties, the creditor will only be entitled to initiate a declarative court proceeding for the recognition of its right to receive payment under the loan agreement prior to initiating an enforceable action against the assets of the borrower. Such declarative court proceedings will commence with the filing of a claim (*demand*) and the reply (*contestación*) of the borrower. After this, there will be a preliminary hearing (*audiencia previa*) where all the formal or procedural issues will be discussed. At this moment, the parties will request the application of the relevant means of evidence. The next step will be the trial (*juicio*) where the witnesses and experts pose their arguments and will conclude with the court ruling (*sentencia*). In the event that the ruling was in favour of the creditor, if the borrower does not comply with the obligations of the ruling, the creditor will be able to request the enforcement of the ruling and the corresponding seizure of the assets (including the vehicle). In case the borrower does not comply with the obligations of the ruling or appeals it, the creditor will still be able to request the provisional enforcement of the ruling. Declarative court proceedings would normally take significantly longer than a notarial or court enforcement proceeding (generally, not less than one year and a half and up to two to three years to finalise the proceeding if there are appeals – even more depending on the court workload).
- b) If the agreement has been registered with the Register of Instalment Sales of Movable Properties, the proceedings available to the creditor would be (A) the declarative court proceeding described in paragraph (1) above; and (B) the notarial enforcement proceeding described below. In addition, it would also enjoy the additional protections in case of sale of the secured asset to a third party explained below. In particular, in case of breach of a loan agreement registered with the Register of Instalment Sales of Movable Properties, the creditor may initiate the enforcement proceeding against the secured asset set out in article 16.2 of Law 28/1998. These proceedings can only be used by the creditor to enforce against the assets covered by the reservation of title provision and not against any other assets of the borrower.

A summary of the proceeding set out in article 16.2 of Law 28/1998 is included below:

- a) The creditor, through a notary competent to act in the place where the assets are located, where the payment is to be made or in the place of residence of the borrower, will demand payment from the borrower, by stating the total amount claimed and the cause of the maturity of the obligation. Similarly, the borrower will be warned that, in the event that the borrower fails to comply with the obligation, the creditor will proceed to act against the

goods purchased in instalments pursuant to the provisions of such Article 16.2 of the Law 28/1998. Unless otherwise agreed, the liquid amount which is payable in the case of enforcement will be the amount specified in the certification issued by the creditor, provided that it has been verified, through a notary, that the liquidation has been performed in the manner agreed by the parties under the contract and that the balance coincides with the balance appearing in the account opened for the borrower.

- b) The borrower, within three (3) business days following the date on which the debtor received such demand, will pay the amount demanded or will deliver the possession of the assets to the creditor or to the person designated by the creditor in the demand for payment.
- c) If the borrower fails to pay, but voluntarily delivers the possession of the assets purchased in instalments, such assets will be sold at a public auction, with the intervention of a notary.
- d) At the said auction, the rules established in Article 1,872 of the Civil Code and any complementary provisions will be observed, as they may apply, as well as the standards regulating the professional activity of notaries. At the first auction, the value will be that established for that purpose by the parties in the relevant contract. Notwithstanding the provisions of the preceding paragraphs, the creditor may opt for the adjudication of the assets as payment of the amount due without the need to attend the public auction. In this case, the provisions of item vi) of this section will apply.
- e) Should the borrower fail to pay the amount claimed and to deliver the possession of the assets for their sale at a public auction (referred to in the previous item), the creditor may request from the competent court the summary protection of its rights, by means of the exercise of the actions established in items 10 and 11 of the first section of Article 250 of the Civil Procedural Law.
- f) In case of acquisition by the creditor of the assets delivered by the borrower in lieu of payment, of the value of the secured assets at the time of their delivery to the creditor, according to the reference tables or indexes of depreciation established in the relevant loan agreement, was (x) lower than the claimed amount, the creditor will have a claim against the borrower for the outstanding amount; (y) higher than the claimed amount, the borrower will have a claim against the creditor for the excess amount.
- g) In case of sale of the asset in a public auction, if the value of the asset according to the award price at the auction was (x) lower than the claimed amount, the creditor will have a claim against the borrower for the outstanding amount; (y) higher than the claimed amount, the borrower will have a claim against the creditor of the excess amount.

In the event that no procedure for the calculation of the depreciation of such assets has been agreed, the creditor must justify such depreciation in the corresponding ordinary declaratory proceedings (*procedimiento declarativo*).

In the event that the assets sold with a reservation of title clause or a prohibition against disposal, which is registered in the Register of Instalment Sales of Movable Properties, are in the possession of a person other than the original buyer (including a good faith purchaser (*adquirente de buena fe*)), the following will apply:

- a) The third-party possessor of the secured assets will be required, through a notary, to pay the amount claimed or to surrender the assets within three (3) business days.
- b) If such person proceeds to pay, he/she/it will be subrogated in place of the satisfied creditor against the original buyer. If such person surrenders the assets, all the formalities of the

enforcement, whether before a notary or by judicial means, will be handled over him/her/it and the remainder that might result after the payment to the plaintiff will be delivered to him/her/it. If the person in possession of the assets fails to pay or to surrender such assets, the provisions of the previous section will apply.

k) Reservation of title under a loan agreement formalized as a public document

Benefits and preferences of the creditor under a loan agreement formalized as a public document following the official form will depend on whether or not the loan agreement has been registered with the Register of Instalment Sales of Movable Properties:

- a) If the loan agreement has not been registered with the Register of Instalment Sales of Movable Properties, the creditor will enjoy the preference and priority set out in articles 1922.2 and 1926.1 of the Civil Code, as described in section c.1) above. However, the creditor will not be able to benefit from the right of separation in case of insolvency of the owner of the vehicle described in section c.1) above.
- b) If the loan agreement has been registered with the Register of Instalment Sales of Movable Properties, the creditor will enjoy the benefits and preferences set out in articles 1922.2 and 1926.1 of the Civil Code and it will benefit from the right of separation in case of insolvency of the owner of the vehicle described in section c.1) above.

l) Effectiveness against third parties

The effectiveness of a loan agreement that is formalized as a public document following the official form will depend on whether or not the loan agreement has been registered with the Register of Instalment Sales of Movable Properties:

- a) If the loan agreement has not been registered with the Register of Instalment Sales of Movable Properties, it will only be effective between the parties to the loan agreement, as described in section c.1) above.
- b) If the loan agreement has been registered with the Register of Instalment Sales of Movable Properties, the loan agreement will be effective against third parties. This means that a good-faith purchaser (*adquirente de buena fe*) will not be able to argue that it was not aware of the reservation of title provision over the vehicle, and thus this reservation of title provision will be enforceable against such good faith purchaser.

m) Available proceedings

If the loan agreement has been documented in a public document, it will be considered as an enforceable title (*título ejecutivo*) according to article 517.2 of the Civil Procedure Act (provided that the requirements set out in the Civil Procedure Act have been complied with). In such case, the proceedings available to the creditor would depend on whether or not the loan agreement has been registered with the Register of Instalment Sales of Movable Properties:

- a) If the loan agreement has not been registered with the Register of Instalment Sales of Movable Properties, the proceedings available to the creditor will be those envisaged in section c.1) above (i.e., the declarative court proceedings and the enforcement court proceedings).
- b) If the loan agreement has been registered with the Register of Instalment Sales of Movable Properties, the creditor will be able to initiate, in addition to any of the proceedings envisaged in paragraph (1) above, the notarial enforcement proceeding described in section c.1) above.

c) Order

In the event that the Management Company liquidates the Fund on the Legal Maturity Date or upon the Early Liquidation of the Fund in accordance with section 4.4.3 of the Registration

Document, if there is any item that has not been paid, the Post-Enforcement Priority of Payments established in this section will be strictly followed, starting from the oldest item.

3.4.7.4. Other rules – Replacement of Servicer

If Sabadell Consumer is replaced as the Servicer of the Receivables, by another entity not forming part of Sabadell Consumer's consolidated group, a fee will be accrued in favour of the new Servicer, which will rank after the first item but before the second item of both the Pre-Enforcement Priority of Payments and the Post-Enforcement Priority of Payments set out in sections 3.4.7.2. and 3.4.7.3. above, as applicable.

For clarification purposes, the Servicer's Fee accrued in favour of the new Servicer shall be paid at first instance from the Servicer Event Reserve Amount, and subsidiarily with Available Funds upon insufficiency of the Servicer Event Reserve Amount.

3.4.7.5. Ordinary Expenses

The following is not an exhaustive list, and shall be considered ordinary expenses of the Fund (the "**Ordinary Expenses**"):

- a) Expenses arising from compulsory administrative verifications, registrations and authorisations (other than payment of the Initial Expenses), and admission expenses and the ongoing fee payable to the Securitisation Repository, INTEX and Bloomberg.

3.4.7.6. Extraordinary Expenses

- b) Any expenses arising from the liquidation of the Fund.
- c) In general, any other extraordinary expenses borne by the Fund or by the Management Company for and on behalf of the Fund.

3.4.7.7. Financial Intermediation Margin

In accordance with the Deed of Incorporation, the Seller shall be entitled to receive from the Fund a variable subordinated remuneration (the "**Financial Intermediation Margin**") which shall be determined and shall accrue upon expiry of every Determination Period, and which shall comprise, an amount equal to the positive difference, if any, between the income and expenses in each Determination Period, including losses, if any, brought forward from previous periods, accrued by the Fund with reference to the Treasury Account and before the close of the Determination Period preceding every Payment Date. The Financial Intermediation Margin accrued at the end of each calendar month in each Determination Period, shall be settled on the next succeeding Payment Date, provided that the Fund has sufficient liquidity in the relevant Priority of Payment.

If the Fund does not have sufficient liquidity on a Payment Date in the Pre-Enforcement Priority of Payments to pay the full Financial Intermediation Margin, the unpaid amount accrued shall be aggregated without any penalty whatsoever with the Financial Intermediation Margin accrued, as applicable, in the following monthly period and shall be paid on the following Payment Dates on which the Available Funds allow payment in the Pre-Enforcement Priority of Payments or, in the event of liquidation of the Fund, in the Post-Enforcement Priority of Payments. Financial Intermediation Margin amounts not paid on preceding Payment Dates shall be paid with priority over the amount payable on the relevant Payment Date.

Notwithstanding the above, the Financial Intermediation Margin will only be settled as established in section 5 of Rule 19 of Circular 2/2016.

3.4.8 *Details of any other agreements affecting the payments of interest and principal made to the Noteholders*

3.4.8.1. Interest Rate Swap Agreement

a) General

On the Date of Incorporation, the Management Company, on behalf of the Fund, shall enter into an International Swaps and Derivatives Association 1992 Master Agreement (Multicurrency – Cross Border), together with the relevant Schedule, the CSA and the confirmation evidencing the Interest Rate Swap Transaction thereunder with the Swap Counterparty (the "**Interest Rate Swap Agreement**"), in order to hedge the potential interest rate exposure of the Fund in relation to its floating rate interest obligations under the Notes and the fixed nature of the interest rate payable under the Receivables. The Interest Rate Swap Agreement incorporates the 2021 ISDA Interest Rate Derivatives Definitions.

The Interest Rate Swap Counterparty will be obliged to make payments under the Interest Rate Swap Agreement without any withholding or deduction of taxes unless required by law. To the extent the Interest Rate Swap Counterparty is required to deduct or withhold, the Interest Rate Swap Counterparty will, among others things and subject to certain conditions set out in the

Interest Rate Swap Agreement, gross up such that the Fund receives such additional amount as is necessary to ensure that the net amount actually received by the Fund equals the full amount the Fund would have received had no such deduction or withholding been required.

The Interest Rate Swap Transaction will remain in full force and effect until the earlier to occur of an Early Amortisation Date in respect of the Notes and the Legal Maturity Date.

The Interest Rate Swap Transaction shall be fully terminated if the Management, Placement and Subscription Agreement is fully terminated in accordance with the provisions of section c) of the Securities Note or if the provisional credit ratings of the Rated Notes are not confirmed as final (unless such provisional ratings are upgraded) by the Rating Agencies on or prior to the Disbursement Date.

In the event that the Interest Rate Swap Transaction is terminated by either party, the amount determined pursuant to Section 6(e) of the Interest Rate Swap Agreement in Euro may be due to the Fund or to the Swap Counterparty in accordance with the provisions thereof.

b) Notional amount

For these purposes, the notional amount of the Interest Rate Swap Transaction (the "**Notional Amount**") will be calculated by reference to the Outstanding Balance of the Non-Defaulted Receivables (excluding the Outstanding Balance of the Defaulted Receivables) on the Swap Determination Date with respect to the relevant Swap Calculation Period, as notified by the Servicer and determined by the Management Company provided that in respect of the first Swap Calculation Period the Notional Amount shall be SEVEN HUNDRED FIFTY MILLION EUROS (€750,000,000).

For clarity, neither the Fund represented by the Management Company, nor the Swap Counterparty may reduce the Notional Amount by excluding, removing or subtracting a Receivable other than as provided above. Furthermore, in respect of any Swap Calculation Period, the Notional Amount shall not exceed SEVEN HUNDRED FIFTY MILLION EUROS (€750,000,000).

c) Payments under the Interest Rate Swap Transaction

For each Swap Calculation Period falling prior to the termination date of the Interest Rate Swap Transaction, the following amounts will be calculated by the Swap Calculation Agent in respect of the Interest Rate Swap Transaction:

- a) an amount equal to a fixed interest rate which will be determined on 10 September 2025, and which will fall within the following range (2.21%; 2.51%):
 - a. multiplied by the Notional Amount,
 - b. divided by a count fraction of three hundred and sixty (360), and
 - c. multiplied by the number of days of the relevant Swap Calculation Period (the "**Fund Swap Amount**"); and
- b) an amount equal to the higher of (i) a floating rate of EURIBOR one (1) month, and (ii) a floor rate within the following range (-0.79%, -0.69%) (except, in respect of the first Swap Calculation Period, the rate determined through the use of straight-line interpolation of EURIBOR three (3) month and EURIBOR six (6) month):
 - a. multiplied by the Notional Amount from time to time,

- b. divided by a count fraction of three hundred and sixty (360), and
- c. multiplied by the number of days of the relevant Swap Calculation Period (the "**Swap Counterparty Amount**").

After these two amounts are calculated in relation to a Swap Payment Date, the following payments will be made on that Swap Payment Date:

- a) if the Swap Counterparty Amount for that Swap Payment Date is greater than the Fund Swap Amount for that relevant Swap Payment Date, then the Swap Counterparty will pay an amount equal to the excess to the Fund;
- b) if the Fund Swap Amount for that Swap Payment Date is greater than the Swap Counterparty Amount for that relevant Swap Payment Date, then the Fund will pay an amount equal to the excess to the Swap Counterparty; and
- c) if the two amounts are equal, neither party will make a payment to the other.

If, in accordance with the Interest Rate Swap Transaction:

- a) the Swap Counterparty is obliged to make any payments in favour of the Fund, such payments will be made into the Treasury Account; and
- b) the Fund is obliged to make any payments in favour of the Swap Counterparty, the Management Company, on behalf of the Fund, will apply the Available Funds towards payment of such amounts in accordance with the Pre-Enforcement Priority of Payments or the Post-Enforcement Priority or Payments, as applicable.

For the purposes of this Prospectus:

- a) "**Swap Payment Date**" means monthly, on the 26th day of each month, commencing on the First Payment Date, through and including the termination date of the Interest Rate Swap Transaction, subject to adjustment in accordance with the Business Day Convention as set out in the Interest Rate Swap Agreement.
- b) "**Swap Calculation Period**" means each period from and including a Swap Payment Date to, but excluding, the next Swap Payment Date, provided that the first Swap Calculation Period will commence on, and include, the Disbursement Date and the last Swap Calculation Period will end on, but exclude, the termination date of the Interest Rate Swap Transaction.
- c) "**Swap Determination Date**" means, with respect to a Swap Calculation Period the date occurring on the last Business Day of the calendar month prior to the date on which such Swap Calculation Period starts, provided that in respect of the first Swap Calculation Period, the Swap Determination Date falls on 19 September 2025.

d) Swap Calculation Agent

Crédit Agricole CIB will act as Swap Calculation Agent of the Interest Rate Swap Agreement, subject to the terms of the Interest Rate Swap Agreement.

e) Collateral

The Interest Rate Swap Agreement will contain provisions requiring certain remedial actions to be taken if a Swap Counterparty Downgrade Event occurs in respect of the Swap Counterparty (or, as relevant, its guarantor). Such provisions may include a requirement that the Swap

Counterparty must (i) post collateral; and/or (ii) transfer the Interest Rate Swap Transaction to another entity (or, as relevant its guarantor); and/or (iii) procure that a guarantor meeting the applicable credit rating guarantees its obligations under the Interest Rate Swap Agreement; and/or (iv) take other actions in accordance with the Interest Rate Swap Agreement.

Where the Swap Counterparty provides collateral in accordance with the provisions of the Interest Rate Swap Agreement (including the CSA thereto), such collateral will not form part of the Available Funds, save as expressly permitted in the section 3.4.5. b) of the Additional Information.

The Swap Counterparty may only post collateral in the form of cash under the CSA to the Interest Rate Swap Agreement and any such cash collateral amounts will be credited to the Interest Rate Swap Collateral Account. If the Swap Counterparty does not fulfil its payment obligations under the Interest Rate Swap Agreement, which gives rise to an Event of Default, upon the termination and close-out of the Interest Rate Swap Transaction, any collateral amounts which are not returned to the Swap Counterparty pursuant to the Interest Rate Swap Agreement may be used by the Fund to obtain a replacement Interest Rate Swap Transaction or to make payments on the Notes, in accordance with the applicable Priority of Payments. Any excess collateral amount will be paid directly to the Swap Counterparty and not in accordance with the ranking of the Pre-enforcement Priority of Payments detailed in section 3.4.7.2 of the Additional Information or with the ranking of the Post-enforcement Priority of Payments detailed in section 3.4.7.3 of the Additional Information.

f) Early Termination

The Interest Rate Swap Transaction may be early terminated in accordance with its terms, irrespective of whether or not the Notes have been paid in full prior to such termination, upon the occurrence of certain events envisaged therein (which may include without limitation):

- a) certain events of bankruptcy, insolvency, receivership or reorganisation of the Swap Counterparty or the Early Liquidation of the Fund;
- b) failure on the part of the Fund or the Swap Counterparty to make any payment when due under the Interest Rate Swap Agreement;
- c) changes in law resulting in illegality;
- d) amendment of any material terms of the Deed of Incorporation without the prior written approval of the Swap Counterparty (such consent not to be unreasonably withheld) if the Swap Counterparty determines in good faith and a commercially reasonable manner that if as a result of such amendment (i) it is adversely affected the amount, timing and priority of any payments due from the Swap Counterparty to the Fund (or from the Fund to the Swap Counterparty), and/or (ii) in the event the relevant Swap Counterparty were to replace itself as swap counterparty under the Swap Agreement, would cause the relevant Swap Counterparty to pay more or receive less, in connection with such replacement, as compared to what the relevant Swap Counterparty would have been required to pay or would have received had such modification or amendment not been made;
- e) a Swap Counterparty Downgrade Event that is not remedied within the required timeframe pursuant to the Interest Rate Swap Agreement;
- f) a Clean Up Call Event;
- g) if at any time the reference rate in respect of the Notes is changed (including where it is fixed in the scenario contemplated by paragraph (viii) of section d) (Fall-back provisions)

of the Securities Note) and, as a result, it is different to the relevant reference rate applicable to the Interest Rate Swap Transaction, and

- h) any other event as specified in the Interest Rate Swap Agreement.

For the avoidance of doubt, upon termination of the Interest Rate Swap Transaction due to a Clean Up Call Event, the net asset value of the swap shall be deemed to be zero, and neither party shall have any further payment or settlement obligations in respect of the swap, except for any amounts that may have accrued and remain unpaid up to the termination date.

If the Interest Rate Swap Transaction is terminated because of an event of default or a termination event specified therein, the amount determined pursuant to Section 6 (e) of the Interest Rate Swap Agreement may be due to the Fund depending on market conditions at the time of termination. This amount (the **“Swap Termination Amount”**) will be determined by the method described in the Interest Rate Swap Agreement and could be substantial if market rates or other conditions have changed materially. The Swap Termination Amount may be based on the actual cost or market quotations provided by third parties in the market of the cost of entering into an interest rate swap transaction similar to the Interest Rate Swap Transaction and any unpaid amounts on or prior to the early termination date.

If the Interest Rate Swap Transaction is terminated prior to redemption in full of the Notes, the Fund will be required to enter into a transaction on similar terms with a new Swap Counterparty. Any upfront payment to any replacement Swap Counterparty under the Interest Rate Swap Agreement payable by the Fund will be paid directly to the replacement Swap Counterparty and not in accordance with the Priority of Payments.

Any costs, expenses, fees and taxes (including stamp taxes) arising in respect of any such transfer to be made by the replacement Swap Counterparty will be borne by the Swap Counterparty when such transfer is decided by the Swap Counterparty pursuant to paragraph 11 (h) (ii) of the CSA.

The Management Company, in the name and on behalf of the Fund, shall use its best efforts to find a replacement Swap Counterparty upon early termination of the Interest Rate Swap Transaction, but none of the Management Company or any other party to the Transaction Documents will assume any liability for not finding such a replacement Swap Counterparty in accordance with the terms of the Transaction Documents.

g) Rating Downgrade Provision

In the understanding that the Notes actually obtain the provisional ratings allocated by the Rating Agencies as described in section 7.3 of the Securities Note, the Swap Counterparty shall be obliged to comply with the interest rate swap required ratings envisaged in the table below (the **“Interest Rate Swap Required Ratings”**) (i.e. the **“First Swap Required Ratings”** and the **“Second Swap Required Ratings”**, as applicable in accordance with the table below in accordance with the Interest Rate Swap Agreement), which at the date of registration of this Prospectus and according with the provisional ratings allocated by the Rating Agencies to the Rated Notes would be, in particular:

Interest Rate Swap Required Ratings	Fitch	Moody's
First Swap Required Ratings	A- or F1 (or above)	Baa1 (or above)
Second Swap Required Ratings	BBB- or F3 (or above)	Baa3 (or above)

Failure by the Swap Counterparty to maintain the Interest Rate Swap Required Ratings would constitute a “**Swap Counterparty Downgrade Event**” which, if not remedied, would constitute an “additional termination event” under the Interest Rate Swap Agreement with the Swap Counterparty being the sole “affected party”.

Upon the occurrence of a Swap Counterparty Downgrade Event in relation to any Rating Agency, the Swap Counterparty must:

- a) in case of a downgrade below the First Swap Required Ratings applicable in respect of a Rating Agency, at its own cost, perform one of the acceptable actions described in the table below.
- b) in case of a downgrade below the Second Swap Required Ratings applicable in respect of a Rating Agency, at its own cost, perform (a) the required action, and additionally (b) one of the acceptable actions described in the table below.

Action	First Swap Required Ratings	Second Swap Required Ratings
Post an amount of collateral as calculated for the relevant Rating Agency in accordance with the provisions of the CSA	Acceptable	Required
Obtain a guarantee from an institution with a credit rating that is acceptable for the relevant Rating Agency.	Acceptable	Acceptable
Assign its rights and obligations under the Interest Rate Swap Agreement to an assignee Swap Counterparty that will have to comply with the requirements of each Rating Agency as stated in the Interest Rate Swap Agreement.	Acceptable	Acceptable
Take other action in respect of which rating agency confirmation is obtained	Acceptable	Acceptable

For the avoidance of doubt, at the date of this Prospectus, the Swap Counterparty complies with the terms required by the relevant Rating Agencies, including the Swap Required Ratings required by such Rating Agencies.

h) Governing Law

The Interest Rate Swap Agreement, including any non-contractual obligations arising out of or in relation thereto, are governed by, and will be construed in accordance, with English law.

3.4.8.2. Paying Agency Agreement

a) Appointment

The Management Company, for and on behalf of the Fund, appoints BNP Paribas, which undertakes to be the Paying Agent for the purpose of the issue of the Notes.

b) Obligations

The obligations assumed by BNP Paribas in its condition as Paying Agent and Banco Sabadell as Billing and Delivery Agent include, among others, the following:

c) Disbursement of the issue

Before 13:00 CET on the Disbursement Date, the Paying Agent will (i) book the Notes to the account or accounts in Iberclear designated by Banco Sabadell (in its role as the Billing and Delivery Agent) in accordance with the provisions of the Paying Agency Agreement, and (ii) pay the Fund for value date that same day, the subscription price of the Notes paid by the Noteholders in accordance with the provisions of the Management, Placement and Subscription Agreement, by depositing such amounts into the Treasury Account.

d) Payments made against the Fund

On each Payment Date, the Paying Agent will make the payment of any interests and repayment of the principal of the Notes in accordance with the appropriate instructions received from the Management Company and following the Pre-Enforcement Priority of Payments or, where applicable, Post-Enforcement Priority of Payments described in sections 3.4.7.2 and 3.4.7.3 of this Additional Information.

The instructions from the Management Company to the Paying Agent must be received by the Paying Agent three (3) Business Days in advance to the date on which the Paying Agent shall make the corresponding payment.

Payments to be made by the Paying Agent on each Payment Date will be made through the corresponding entities participating in IBERCLEAR, in whose registries the Notes are recorded, in accordance with the IBERCLEAR's procedures in force regarding this service and following the instructions provided by the Management Company.

If there are no Available Funds in the Treasury Account on a Payment Date, the Paying Agent shall immediately notify this circumstance to the Management Company in order for the Management Company to adopt the appropriate measures. In such case, the Paying Agent will not make any payments until the relevant funds are received on the Treasury Account and until it has received any new instructions from the Management Company.

e) Termination of the Paying Agency Agreement

The Paying Agency Agreement shall be in force until the earlier of the following: (i) the Notes have been fully amortised, (ii) all obligations assumed by the Paying Agent in respect of the Notes are discharged or (iii) the liquidation of the Fund is completed.

Furthermore, the Paying Agency Agreement will be early terminated if the Paying Agent resigns or is substituted as provided below:

f) Resignation by the Paying Agent

BNP Paribas shall not resign as a Paying Agent for the Required Performance Period, as set out in section 3.4.5. of this Additional Information, except for the following reasons:

- a) a default by the Fund in the performance of its obligations under the Paying Agency Agreement; or
- b) the occurrence of supervening circumstances that would prevent BNP Paribas from or make it materially difficult for it to continue to provide such service, including in particular:

- a. the definitive termination by BNP Paribas of the activity of bank agent or holder of treasury accounts for securitization funds in Spain; or
- b. a legal or regulatory change or any other mandatory measure ordered or binding interpretative criteria that may imply that the performance of the Paying Agency Agreement by BNP Paribas would result in a breach by it or impose a limitation in the remuneration conditions of the paying agency that would result in a decrease in the income to which BNP Paribas would be entitled under the Paying Agency Agreement.

(collectively, the "**Reasonable Grounds for Resignation of the Paying Agent**").

Upon expiration of the Required Performance Period, BNP Paribas may terminate its status as a Paying Agent by giving at least thirty (30) calendar days' prior written notice to the Management Company.

g) Paying Agency Substitution Requirements

In such case, the Management Company will make its best efforts to appoint, as soon as possible, a new paying agency (a "**New Paying Agent**"), provided that the following conditions are met (the "**Paying Agency Substitution Requirements**"):

The New Paying Agent:

- a) is a credit institution duly authorised to provide banking services in Spain;
- b) has an extensive experience and a proven operational track record in functions similar to those described in the Paying Agency Agreement;
- c) can assume in substance the rights and obligations of the Paying Agent; and
- d) shall have agreed with the Management Company to perform the duties and obligations of the Paying Agent;
- e) the Rating Agencies shall have been given prior notice of such substitution and such substitution shall not entail the downgrade or withdrawal of any of the ratings then assigned by the Rating Agencies to the Rated Notes; and
- f) such substitution is made in compliance with the then applicable laws and regulations.

h) Voluntary Substitution by the Management Company

During the Required Performance Period, the Management Company shall not replace the Paying Agent, except in the event of serious and repeated breach of its obligations thereunder by the BNP Paribas. Once the Required Performance Period has elapsed, the Management Company may, at any time, substitute at its sole discretion the Paying Agent by giving at least thirty (30) calendar days prior notice to the Paying Agent and provided that the Paying Agent Substitution Requirements are met.

Neither the voluntary termination of the Paying Agency Agreement by the Paying Agent nor by the Management Company will be effective until the new institution assuming the position of Paying Agent has effectively resumed functions. Notwithstanding the foregoing, upon receipt of a notice of withdrawal from BNP Paribas, Sabadell Consumer and the Management Company will use their best efforts to appoint a New Paying Agent for the Fund as soon as possible.

i) Other Provisions

The expenses arising from the preparation and signing of the legal documentation for the replacement of BNP Paribas as Paying Agent shall be borne:

- a) by BNP Paribas: only in the event of resignation by it during the Required Performance Period triggered by a Reasonable Grounds for Resignation of the Paying Agent, or in the event of substitution by the Management Company triggered by a serious and repeated breach by BNP Paribas of its obligations under the Paying Agency Agreement; and
- b) by the Fund: in the event of substitution by BNP Paribas (not due to a serious and repeated breach by BNP Paribas) or in the event of resignation by BNP Paribas during the Required Performance Period due to a Reasonable Grounds for Resignation of the Paying Agent other than a default by the Fund in the performance of its obligations under the Paying Agency Agreement, or, at any time after the Required Performance Period has elapsed.

For the foregoing purposes, Sabadell Consumer undertakes to use reasonable commercial efforts to enable the Management Company to transfer the paying agency to an entity with sufficient credit ratings so that the rating of the Notes by the Rating Agencies is not impaired. The Management Company and BNP Paribas unconditionally undertake to execute such public or private documents as may be necessary or convenient for the transfer of the paying agency.

As consideration for the services to be provided by the Paying Agent, the Management Company, for and on behalf of the Fund, shall pay on each Payment Date a fee agreed under the Paying Agency Agreement following the Pre-Enforcement Priority of Payments or, where applicable, the Post-Enforcement Priority of Payments described in sections 3.4.7.2 and 3.4.7.3 of the Additional Information.

The Paying Agent will be reimbursed for all reasonable out-of-pocket expenses incurred on behalf of the Fund (including legal publications, telex, mail expenses and any other similar duties, stamps or taxes including VAT, if any) arising from the execution, performance and enforcement of the Paying Agency Agreement and its obligations thereunder.

In this respect, the Management Company will appoint Sabadell Consumer, as Seller of the Receivables, in the Deed of Incorporation to perform the servicing and management of the Loans. A brief description of the ordinary rules and procedures of administration and custody of the Loans governed by the Deed of Incorporation of the Fund is set forth in the following sections.

b) Term and replacement of the Servicer

The services will be provided by the Servicer from the Date of Incorporation and until all obligations assumed by the Servicer in relation to the Receivables assigned to the Fund are extinguished upon full repayment of the Loans, without prejudice to the possible early revocation of its mandate or its voluntary resignation.

In the case of (i) the occurrence of any breach of the obligations of the Servicer under the Deed of Incorporation, in the reasonable opinion of the Management Company, and in particular, the obligation of the Servicer to transfer to the Fund the amounts received by the Borrowers within two (2) Business Days as from receipt (except if the breach is due to a force majeure); or (ii) in the case of an Insolvency Event occurs in respect of the Servicer (any of them an "**Event of Replacement of the Servicer**"), the Management Company, with prior notice to the Rating Agencies, may take one of the following actions (at its discretion):

- a) replace the Servicer with another entity that has at least five years of experience or is a prudentially regulated institution which holds the relevant regulatory authorisations or permissions and which, in the opinion of the Management Company, has the suitable legal and technical capacity to perform the services and, provided that the rating of the Rated Notes is not adversely affected by the replacement of the Servicer;
- b) require the Servicer to subcontract, delegate or have the performance of such obligations guaranteed by another entity that, in the opinion of the Management Company, has the suitable legal and technical capacity, provided that the rating of the Rated Notes is not adversely affected.

In case an Insolvency Event occurs in respect of the Servicer, the only possible action to be adopted by the Management Company will be the replacement of the Servicer in accordance with paragraph (i) above.

In accordance with Insolvency Law, the Fund, by acting through the Management Company, will have a right of separation in respect of the assigned Receivables, pursuant to Articles 239 and 240 of the said Insolvency Law. This right of separation will not necessarily extend to the money received by the Seller, in its capacity as Servicer, and kept by the latter on behalf of the Fund prior to its deposit to the account of the Fund, since, given its fungible nature, it could be subject to the result of the insolvency proceedings according to the majority interpretation of Article 239 of the Insolvency Law.

If the Servicer has to be replaced in accordance with the previous paragraphs, a new back-up servicer on which to delegate the management obligations of the Management Company pursuant to article 26.1 b) of Law 5/2015 has to be nominated. The Management Company (in this regard, the **"Back-Up Servicer Facilitator"**) shall use its best efforts to nominate a new back-up loan servicer (the **"Back-Up Servicer"**) within not more than sixty (60) days.

Without prejudice to this obligation of Sabadell Consumer, the Management Company (as Back-Up Servicer Facilitator) will take into account the proposals made by the Servicer both in connection with the subcontracting, delegation or appointment of the Back-Up Servicer for the fulfilment of its obligations, and in connection with the entity that could guarantee the fulfilment of such obligations.

Notwithstanding the foregoing, the final decision as regards the appointment of the new Servicer and any of the aforementioned actions will correspond to the Management Company, acting in the name and on behalf of the Fund.

In case an Event of Replacement of the Servicer, the Servicer makes the following undertakings to the Management Company:

- a) To make available upon the Management Company's request a record of the personal data of Borrowers necessary to issue collection orders to Borrowers or to have served on Borrowers the notice referred to below (the **"Personal Data Record"** or **"PDR"**).
- b) The communication and use of such data shall be limited and in any event subject to compliance with the Organic Law 3/2018, of 5 December, on Personal Data Protection and guarantee of digital rights or law replacing, amending or implementing the same, and the Regulation (EU) Nº 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC.
- c) Upon the Management Company request, to deposit the PDR before a notary in order that it may be searched or used in due course by the Management Company in case of need in connection with the Loan servicing functions.
- d) To assist the Management Company using all reasonable efforts in the substitution process and, as applicable, notify the Borrowers and the Insurance Companies.
- e) As soon as reasonably practicable, deliver and make available to the Management Company (or any person appointed by it) the files delivered to it by the Seller (if different from the Servicer), copies of all records (including, without limitation, computer records and books of records), correspondence, and documents in its possession or under its control relating to the relevant Receivables assigned to the Fund and any sums and other assets, if any,

then held by the Servicer on behalf of the Management Company, and the hand-over of claims (whether judicial or not).

- f) To do such things and execute such contracts as shall require the Servicer's involvement in order for functions to be effectively transferred to the new Servicer.
- g) To continue servicing the Receivables until the Back-Up Servicer has effectively assumed the servicing of the Receivables.

The Servicer may, in turn, voluntarily resign its position as servicer and therefore decide not to administer and manage the Receivables if permitted by laws in force from time to time. The voluntary resignation of the Servicer is subject to (i) prior authorization of the Management Company, (ii) the Management Company has appointed a new Servicer which has effectively accepted to start carrying out its duties, (iii) the Servicer has indemnified the Fund for any damages caused to the Fund by the resignation and replacement (including any additional cost, will not be charged to the Fund), and (iv) the rating of the Rated Notes is not adversely affected.

The assignment of the Receivables to the Fund will be notified to the Borrowers by Sabadell Consumer although the Borrowers will continue to pay Sabadell Consumer as agreed in the Loan Agreements.

Likewise, upon the occurrence of an Insolvency Event of the Servicer or in case of indications thereof, or liquidation or replacement of the Servicer, or if the Management Company considers it to be reasonably justified, the Management Company may request the Servicer to notify the Borrowers and the Insurance Companies of the assignment of the outstanding Receivables to the Fund (in the case of the Insurance Companies) and that the payments derived therefrom will only release the debt if payment is made into the Treasury Account opened in the name of the Fund. However, if the Servicer has not served the notice to the Borrowers and the Insurance Companies within five (5) Business Days of receipt of the request by the Management Company, or in the case that the Servicer is in insolvency proceedings, the Management Company itself, either directly or through a new designated servicer or agent, may notify the Borrowers and the Insurance Companies.

c) Custody of agreement, deeds, documents and files

The Servicer will keep all the Loan Agreements, copies of instruments, documents and computer files related to the Loans in safe custody and will not abandon the possession, custody or control thereof without the prior written consent of the Management Company, unless the document is necessary to commence proceedings for the enforcement of a Loan or any security thereof.

The Servicer will at all times reasonably provide the Management Company or the duly authorised auditor of the Fund with access to such Loan Agreements, instruments, documents and records. If the Management Company so requests, the Servicer will also provide a free-of-charge copy or photocopy of any of such Loan Agreements, instruments and documents within five (5) Business Days following such request. The Servicer must act in the same way in the case of requests for information from the auditor of the Fund.

In any case, the Servicer waives the privileges which the law confers thereon in its condition as manager of collections for the Fund and of the custody of the Loan Agreements, and particularly those established in Articles 1,730 and 1,780 of the Civil Code (regarding the retention of pledged items) and 276 of the Spanish Commercial Code (security similar to the retention of pledged items).

d) Collection management

Sabadell Consumer, as Servicer, will receive on account of the Fund any amounts paid by the Borrowers under the Receivables, both for principal or interest, as well as any other concept, and will proceed to deposit into the Treasury Account, any such amounts immediately and in any case within two (2) Business Days following the receipt of the funds.

e) Advance of funds

In no event will the Servicer be obliged to advance any amount that has not been previously received from the Borrowers as principal, interest or financial charge, prepayment or other item under the Loans.

f) Information

The Servicer must periodically inform the Management Company and the Rating Agencies of the Borrowers' level of compliance with their obligations deriving from the Loans, of the compliance by the Servicer with its obligation to deposit the amounts received from the Loans, of the actions taken in the event of delay, and of the existence of hidden defects in, or the breach of any representations or warranty by the Receivables.

The Servicer must prepare and deliver to the Management Company the additional information that the Management Company may reasonably request regarding the Loans, the Receivables or any rights arising therefrom.

Under the Deed of Incorporation, the Servicer will agree to provide the Management Company with certain information relating to (i) principal payments, interest payments and any other payments received on the Receivables and (ii) any enforcement of the ancillary rights securing the payment of such Receivables. For this purpose, the Servicer shall provide the Management Company with the servicing report on each Information Date.

g) Subrogation of the Borrower under the Loans

The Servicer will be authorised to permit subrogations in the position of the Borrower in the Loan Agreements only in those cases in which the new Borrower complies with Sabadell Consumer Policies that may be in force at any given time and provided that (i) it conforms to the Loan origination standards described in section 2.2.7. of this Additional Information, and (ii) the expenses deriving from such subrogation are paid in full by the new Borrower (unless otherwise provided by law).

The Management Company may totally or partially limit this authority of the Servicer, or subject the power to conditions, if such subrogations may negatively affect the ratings of the Rated Notes given by the Rating Agencies.

The Management Company must in any case be immediately notified by the Servicer of any subrogation in accordance with the preceding paragraph. The subrogation of the Loan must not adversely or otherwise negatively affect the Receivables portfolio.

h) Powers and actions in relation to Loan forbearance processes

The Servicer may not voluntarily extend or forgive the Loans in whole or in part, or in general do anything that may diminish the enforceability at law or economic value of the Loans, without prejudice to heeding requests by Borrowers with the same diligence and procedures as for loans not assigned but subject to the limitations and authorisations set forth in this section.

The Management Company may previously issue instructions to or authorise the Servicer to agree with the Borrower such terms and conditions as it shall see fit for a novation changing the relevant Loans.

The Management Company may nevertheless authorise the Servicer to enter into and accept Loan interest rate, term extension, grace periods and debt reduction renegotiations, without requiring the Management Company's prior consent, subject to the following general enabling requirements:

Renegotiating the interest rate

- a) The Servicer may under no circumstances on its own account and without being so requested by the Borrower enter into interest rate renegotiations which may result in a decrease in the interest rate applicable to a Loan. In any event, whether or not it was generically authorised, any Loan interest rate renegotiation shall be taken on and settled bearing the Fund's interests in mind.
- b) Subject to the provisions of the following paragraph, the Servicer shall, in renegotiating the Loan interest rate clause, ensure that the new terms are in keeping with market conditions and are not different from those applied by the Servicer proper in renegotiating or granting its fixed-rate loans. For these purposes, market interest rate means the fixed interest rate offered by the Servicer on the Spanish market for loans without mortgage security granted to individuals for consumption purposes, the loan amounts and terms being substantially similar to the renegotiated Loan.
- c) The interest rate of a Loan shall under no circumstances be renegotiated down in the event that the average interest rate of all the Loans yet to be repaid weighted by the outstanding principal of each of those Loans is below 6.75%. Renegotiation from time to time of the interest rate applicable to a Loan may be at no event take place where the change is to a floating interest rate.

Extending the period of maturity and grace periods

The final maturity or last amortisation date of the Receivables may be extended or postponed ("term extension") and grace periods can be agreed subject to the following rules and limitations:

- a) The Servicer shall in no event consider at its own initiative, i.e. without being so requested by the Borrower, a change in the final maturity date of the Loan that could result in an extension of the term thereof. The Servicer shall, without encouraging an extension of the term, act in relation to such extension bearing the Fund's interests in mind at all times.
- b) The aggregate of the principal assigned to the Fund of the Loans with respect to which there is a grace period, or the maturity date is extended may not exceed 13.00% of the initial nominal amount of the Collateralised Notes. The term of a specific Loan may be extended provided that the following requirements are met:
 - a. That the Loan principal repayment instalment frequency and the same repayment system are at all events maintained.
 - b. That the new final maturity or final repayment date does not extend beyond 10 January 2035.
 - c. Debt reductions.

The Servicer may accept debt reduction of a specific Loan, in line with its management policies, provided that the amount of aggregate debt reductions since the Date of Incorporation does not exceed the maximum amount of ONE MILLION EUROS (€1,000,000).

The Management Company may at any time during the term of the servicing by Sabadell Consumer (if so requested by the Noteholders) cancel, suspend or change the requirements of the authorisation previously set for the Servicer to renegotiate the interest rate or extend the term or grace periods or debt reductions.

If there should be any renegotiation of the interest rate of a Loan, its due dates, grace periods or debt reductions, the Servicer shall forthwith notify the Management Company of the terms resulting from each renegotiation. Such notice shall be made through the computer or data file provided for the terms of the Receivables to be updated. Both the loan agreements and the private agreements pertaining to a novation of the terms of the Loans will be kept by the Servicer, in accordance with the provisions of this section.

i) **Set-off**

Notwithstanding the representation made in section 2.2.8(b)(ee) of this Additional Information, in the event that any of the Borrowers has a liquid, due and payable credit right against the Seller resulting in one or more of the Loans being totally or partially set-off against Sabadell Consumer (as Seller or Servicer), Sabadell Consumer will remedy this circumstance such that the set-off does not apply, or if this is not possible, it will deposit in the Treasury Account of the Fund the amount which was set-off plus interest due from the date of set-off until the date on which the deposit is made, calculated in accordance with the terms and conditions applicable to the corresponding Loan.

j) **Subcontracting**

The Servicer may subcontract any of the services which it has undertaken to provide by virtue of the above provisions and those of the Deed of Incorporation, except for those services that cannot be delegated pursuant to applicable law. In no case will such subcontracting entail any additional cost or expense for the Fund or the Management Company, and it must not cause a downgrade of the rating of the Rated Notes by the Rating Agencies. Notwithstanding any subcontracting or delegation, (i) the Management Company shall not be excused or released under the subcontract or subdelegation from any of the liabilities assumed under Article 26.1.b) of Law 5/2015, and (ii) the Servicer will not be discharged or released through such subcontracting or delegation from any of the liabilities assumed and that are legally attributable to or enforceable against the Servicer.

k) **Liability of the Servicer and indemnity**

The Servicer undertakes to act with due diligence as regards to the collection management for the Loans as well as the custody and administration of the Loans and will be liable to the Fund, through its Management Company, for any damage that arise from its negligence.

The Servicer will indemnify the Fund, through its Management Company, for any damage, loss or expense it may incur due to the failure to comply with its obligations concerning collection management and/or custody and/or administration of the Loans.

The Servicer does not assume liability in any form as regards directly or indirectly guaranteeing the success of the transaction, nor will it provide security or enter into agreements for the repurchase of the Receivables other than in accordance with the terms and conditions set forth in section 2.2.9 of this Additional Information.

Neither the Noteholders nor any other credit of the Fund shall have any direct right of action whatsoever against the Servicer. Notwithstanding the foregoing, under Article 26.1.b) and 26.2 of Law 5/2015, the Management Company shall be liable to the Noteholders and other creditors of the Fund for all and any losses caused them by a breach of its obligation to service and manage the Receivables pooled in the Fund.

I) Notices

The Management Company and the Seller have agreed to notify the assignment of the Receivables to the relevant Borrowers only in the following circumstances:

- a) As of the Date of Incorporation, notice is required by law to Borrowers in (Comunidad Foral de Navarra, pursuant to Law 21/2019, of 4 April. There is as well a requirement foreseen in Castilla-La Mancha, pursuant to Law 3/2019, of 22 March, however this requirement is still under regulatory development. For these purposes, notice to the Borrowers is not a requirement for the validity of the assignment of the Receivables under the Loans. It is worth noting that the Spanish Constitutional Court has declared in its Ruling 72/2021, of 18 March 2021, that Article 29 of Law 6/2019, of 20 February relating to consumer protection in the Extremadura region (which required notice of the transfer of mortgage loans to securitisation funds to be served on the relevant mortgage borrowers) is contrary to the Spanish Constitution and hence null and void on grounds that it affects the contractual relationship between the relevant parties in a manner which only state-level (rather than regional-level) legislation can affect.
- b) Likewise, upon the occurrence of an Insolvency Event of the Servicer or in case of indications thereof, or liquidation or the replacement of the Servicer, or if the Management Company considers it to be reasonably justified, the Management Company may request the Servicer to notify the Borrowers and the Insurance Companies of the assignment of the outstanding Receivables to the Fund (in the case of the Insurance Companies) and that the payments derived therefrom will only release the debt if payment is made into the Treasury Account opened in the name of the Fund. However, if the Servicer has not served the notice to the Borrowers and the Insurance Companies within five (5) Business Days of receipt of the request by the Management Company, or in the case that the Servicer is in insolvency proceedings, the Management Company itself, either directly or through a new designated servicer or agent, may notify the Borrowers and the Insurance Companies.

Accordingly, the Seller will grant to the Management Company the broadest powers as are necessary under law so that it may, in the name of the Fund, notify the assignment to the Insurance Companies and the instruction of payment to the Treasury Account to the Borrowers at the time it deems appropriate.

The Seller will assume the expenses incurred in notifying the Borrowers, even if notification is provided by the Management Company.

m) Servicer's remuneration

As consideration for being in charge of the custody, servicing and management of the Loans, the Servicer shall have the right to receive in arrears on each Payment Date a servicing fee (the "**Servicer's Fee**"), including VAT, if there is no exemption available, equal to a percentage per annum which will accrue for the actual days in each Interest Accrual Period, and will be calculated on the basis of the sum of the Outstanding Balance of the Collateralised Notes on the Determination Date corresponding to that Payment Date. Any ordinary or extraordinary expenses that the Servicer might incur are included in the Servicer's Fee.

If the Fund, through its Management Company, does not pay the entire Servicer's Fee on a Payment Date due to the lack of sufficient liquidity in accordance with the Pre-Enforcement Priority of Payments, any unpaid amounts shall be added –without any kind of penalty– to the fee to be paid on the following Payment Date.

n) Servicer Event Trigger

In the event that (such event shall constitute a "**Servicer Event Reserve Trigger**"):

- a) the rating of Banco Sabadell should, at any time during the life of the Notes issue, be downgraded below any of the following ratings: (i) BBB- according to Fitch, and/or (ii) Baa3 (senior unsecured rating) according to Moody's.
- b) Banco Sabadell loses majority ownership of Sabadell Consumer to below 75%; and/or
- c) Sabadell Consumer voluntary resigns its position as servicer.

Sabadell Consumer shall, on the Payment Date immediately following the occurrence of the Servicer Event Reserve Trigger, deposit in the Treasury Account an amount equal to (the "**Servicer Event Reserve Amount**"):

- a) one per cent (1%) of the Outstanding Balance of the Receivables calculated on the Determination Date immediately preceding the relevant Payment Date; multiplied by
- b) the weighted average life of the Outstanding Balance of the Receivables calculated on the same Determination Date, assuming a 0.0% CPR and a 0.0% CDR.

o) Use of the Servicer Event Reserve Amount

The Servicer Event Reserve Amount will form part of the Available Funds for the sole purpose of financing Servicer's Fee if there is a replacement of Sabadell Consumer as Servicer as set forth in section 3.4.7.4 of the Additional Information.

p) Release of the Servicer Event Reserve Amount

On each Payment Date if Sabadell Consumer is no longer the Servicer, and after items (a) and (b) of the Pre-Enforcement Priority of Payments have been paid in accordance with the relevant Priority of Payments, the Servicer Event Reserve Amount will be reduced outside of the relevant Priority of Payments and will be directly returned to Sabadell Consumer for an amount equal to the difference of the Servicer Event Reserve Amount between two Payment Dates.

3.7.2 **Management Company**

a) Management, administration and representation of the Fund and of the Noteholders

- i) to comply with its calculation obligations under the Account Agreements, which are described in section 3.4.5. of this Additional Information. If the Management Company does not receive the information required to comply with such calculation obligations in order to determine the Available Funds before the following Payment Date, these will be determined as the amounts deposited in the Treasury Account on the Determination Date preceding the Payment Date, by carrying out the necessary estimates in order to calculate the amounts to be collected;

- n) to appoint and replace, if applicable, the financial auditor entrusted with auditing the annual financial statements of the Fund;

- r) to manage the Fund in such a manner that its net asset value is always zero (0).

The substitution expenses originated shall be borne by the resigning management company and may in no event be passed on to the Fund.

e) Mandatory replacement

The Management Company will be replaced if it is subject to any of the causes of dissolution under Articles 360 et seq. of the Spanish Companies Act. The Management Company must notify the CNMV of the occurrence of any of such causes. In such case, the Management Company must comply with the provisions of the previous section prior to its dissolution.

If the Management Company is declared insolvent or its authorisation revoked, in accordance with Articles 33 and 27 of Law 5/2015, respectively, a management company must be appointed to replace it. Such subcontracting or delegation will not be a waiver of or release the Management Company from any of the liabilities assumed by virtue of this Prospectus that are legally attributable thereto or that may be enforced against it.

The Management Company will receive as remuneration for its services, an initial fee (which has been included in the Initial Expenses of the Fund) and a fixed management fee which will be payable on each Payment Date, provided that the Fund has sufficient Available Funds relating to the Pre-Enforcement Priority of Payments according to section 3.4.7.2 of this Additional Information, or in section 3.4.7.3 of this Additional Information relating to the Post-Enforcement Priority of Payments, that will be updated at the start of each calendar year in accordance with the increases in the General Consumer Price Index, in case of being positive, as published by Spain's National Statistical Institute (*Instituto Nacional de Estadística*) or such body as may substitute it. Such fee will be construed as a gross fee, insofar as it includes any direct or indirect tax or withholding that may be levied on it.

Exceptionally, on the First Payment Date, the remuneration to the Management Company will be calculated in terms of the number of days elapsed since the Incorporation.

3.8 Name and address and brief description of any swap counterparties and any providers of other material forms of credit/liquidity enhancement or accounts.

Additionally, according to sub-section 3 of Article 35 of Law 5/2015, the Management Company must submit the Fund's quarterly financial statements to the CNMV within two (2) months from the end of each calendar quarter.
