- iii. Otros Ingresos se reducen un -7,5% sobre el primer trimestre 2017 debido a los menores ingresos en el área de Periódicos, que se explica principalmente por los menores ingresos por promociones con impacto limitado en EBITDA y por la menor actividad de las imprentas locales.

Con el objetivo de incrementar los ingresos a futuro, la compañía ha adquirido un 50% de la plataforma digital Shows on Demand, especializada en la organización de conciertos, en la modalidad de crowdfunding. El otro 50%, es propiedad de los socios fundadores.

Los costes comparables en el primer trimestre descienden un -5,1%, excluidas las medidas de ajuste de personal y "one offs" de -10.714 miles de euros en 1T17 y de -9.936 miles de euros en 1T16. Por partida de gasto, destaca la disminución en los costes de aprovisionamientos del -11,0%.

El EBITDA comparable en 1T17 alcanza 6.604 miles de euros en comparación a los 7.156 miles de euros de 1T16. Los principales impactos en la variación del EBITDA comparable son:

- i. Las variables de negocio clave, que engloban a los ingresos de publicidad, los márgenes de ejemplares y de promociones, suman 157 miles de euros más que un año antes.
- ii. Las medidas en costes de personal derivadas del Plan de Eficiencia permiten un ahorro de 501 miles de euros. Este ahorro es compatible con 32 nuevos perfiles digitales, que suponen algo más del 70% de las contrataciones totales.
- iii. El descenso de la actividad en el negocio de impresión tiene un impacto de -400 miles de euros, en parte resultado del cierre de las imprentas y su externalización.
- iv. Resto de partidas: impacto de -968 miles de euros, principalmente por el nuevo alquiler de la sede de ABC que supone un mayor gasto por cerca de 500 miles de euros, y por los mayores costes asociados con el desarrollo digital.

Por área de negocio, cabe destacar:

- i. Periódicos⁶: EBITDA comparable en 1T17 de 6.095 miles de euros, con un descenso de -777 miles de euros sobre 1T16. La contabilización del nuevo alquiler en ABC y el descenso en el EBITDA de las imprentas explican dicho descenso.
- ii. Audiovisual⁷: crecimiento de 165 miles de euros sobre 1T16, debido a la evolución en Contenidos, hasta alcanzar un EBITDA comparable en 1T17 de 3.292 miles de euros.
- iii. Clasificados⁸: alcanza un EBITDA comparable en 1T17 de 260 miles de euros, un descenso de -43 miles de euros sobre 1T16. El crecimiento en ingresos en el trimestre por 337 miles de euros se ha reinvertido vía costes al tratarse de un área en crecimiento.

Resultado de explotación (EBIT)

El resultado de explotación en el primer trimestre del 2017 se sitúa en -8.349 miles de euros, en comparación con los -7.420 miles de euros del año pasado, debido a los mayores costes de indemnizaciones de este año.

Respecto del EBIT comparable, que excluye costes de indemnizaciones "one-offs" y deterioros o plusvalías del inmovilizado, se sitúa en 2.371 miles de euros. Destacar que todas las áreas de negocio están en EBIT comparable positivo.

Deterioro de fondo de comercio

Asciende en 1T17 a 250 miles de euros, debido al deterioro del fondo de comercio de la división de Contenidos originado por la progresiva reducción de la vida residual del catálogo de derechos cinematográficos.

Resultado financiero y otros

La mejora del 20,2% del diferencial financiero, desde -1.616 miles de euros en 1T16 a -1.285 miles de euros en 1T17, se explica por la reducción de la deuda financiera media y el menor coste financiero derivado del descenso del endeudamiento.

Impuesto sobre sociedades

El ingreso por impuestos de 161 miles de euros en el primer trimestre de 2017 se explica por la evolución del resultado operativo. A diferencia de 1T16, tras el ajuste de los créditos fiscales en Territorio Común en diciembre 2016 como consecuencia del RDL 3/2016, no se están activando ya nuevos créditos fiscales en Territorio Común.

⁶ Periódicos: excluye medidas de ajuste de personal y "one offs" 1T16 -6.638 miles de euros y 1T17 -9.413 miles de euros.

Accionistas minoritarios

El resultado atribuido a los minoritarios en 1T17 es prácticamente el mismo del año pasado, -612 miles de euros en 1T17 frente a -700 miles de euros en 1T16. La variación se explica por el efecto de las mayores indemnizaciones en Prensa Regional compensado parcialmente por la mejor evolución en Contenidos.

Resultado neto atribuible a la sociedad dominante

El resultado neto consolidado en el primer trimestre del 2017 asciende a -10.391 miles de euros en comparación con los -9.023 miles de euros el mismo periodo del año pasado.

Dentro de los movimientos ordinarios en el primer trimestre de 2017, las variaciones más significativas se deben a:

- i. Variación en capital circulante: impacto positivo en la deuda de 4.225 miles de euros, con unos cobros de clientes excepcionalmente elevados y en parte resultado de un menor cobro durante 4T16.
- ii. Partidas relacionadas con financieros: impacto positivo de 2.701 miles de euros.

Otros pasivos corrientes

La variación en el saldo de otros pasivos se debe principalmente a la disminución de saldos con proveedores.

- ii. variación en el capital circulante por 4.225 miles de euros.

Los flujos netos de efectivo de las actividades de inversión desciden en -3.616 miles de euros, explicados principalmente por la inversión en inmovilizado (ver apartado Capex).

El flujo neto de las actividades de financiación asciende a -4.242 miles de euros, e incluye entre otros, los intereses y los dividendos pagados por las filiales de VOCENTO a sus accionistas minoritarios por -3.488 miles de euros, un pago por las opciones de venta en Las Provincias, así como por la disposición de deuda en el periodo.

Adiciones de inmovilizado material e inmaterial (CAPEX)

El descenso en el CAPEX del primer trimestre de 2017 sobre el del pasado año se explica por un efecto temporal de la fecha de inicio de los proyectos.

La diferencia entre salida de caja por inversiones en inmovilizado y CAPEX contable, 1.647 miles de euros, obedece al diferencial de los pagos pendientes por inversiones realizadas en 2016 y en 2017.

² Excluye resultado por enajenación de inmovilizado 1T16 116 miles de euros y 1T17 -6 miles de euros.

Ingresos de Explotación: 86.567 miles de euros, un -6,3% inferior a 1T16.

La reducción de ingresos es consecuencia principalmente de las menores ventas de ejemplares de Regionales y ABC y del descenso en otros ingresos.

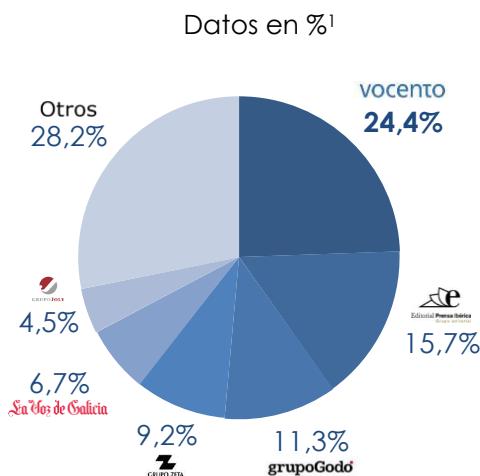

Los datos de la 1^a ola de EGM de 2017 muestran un descenso en los registros de audiencia de las cabeceras regionales de VOCENTO del -2,1% sobre la última ola de 2016.

Por su parte, ABC obtiene una mejor evolución que sus comparables, tanto en términos absolutos, como en porcentaje sobre la 3^a ola de 2016: frente a los 21.000 lectores menos de ABC (-4,6%), el descenso promedio de El País y El Mundo es de -61.000 lectores (-6,1%).

Ventas de ejemplares: asciende a 42.373 miles de euros, un descenso del -8,9%. Los ingresos por venta de ejemplares de Prensa Regional descienden en 1T17 un -6,3%, con una caída de la

difusión ordinaria del -8,1%. Las cabeceras regionales de VOCENTO mantienen su claro liderazgo en difusión en sus áreas de influencia, reflejado en una cuota de mercado de difusión en prensa regional del 24,4% en comparación con su inmediato comparable que alcanza una cuota del 15,7%:

Cuota de difusión a 1T17 en prensa regional

Nota1: fuente OJD

Los modelos de suscripción on+ en El Correo, Diario Vasco y Diario Montañés alcanzan cerca de 9.000 suscriptores.

En [ABC](#), los ingresos por venta de ejemplares descienden un -14,4%. La caída en la difusión es del -19,6%. Sin embargo, dicho descenso de la difusión queda reducido a una tercera parte (1T17 -7,1%) si se considera la venta base en los quioscos y las suscripciones individuales, pues ABC sigue centrando sus esfuerzos en la difusión de calidad y rentable.

Por otra parte, se han incrementado los precios de cabecera de lunes a viernes de €1,5 a €1,6.

ABC sigue fortaleciendo su posicionamiento en términos de cuota de mercado tal y como se refleja en la difusión en venta ordinaria en la Comunidad de Madrid, la principal plaza en prensa nacional, donde el diferencial sobre El Mundo se incrementa y la distancia con El País se acorta (ver gráfico en página 5).

Por último, la caída en los ingresos por venta de ejemplares en [Suplementos y Revistas](#) durante el primer trimestre del año es del -10,7%.

Ventas de Publicidad: alcanzan 31.793 miles de euros y se mantiene planas respecto de un año antes (+0,2%). La publicidad de las marcas regionales crece un 2,8%, mientras que la de ABC desciende un -5,1%.

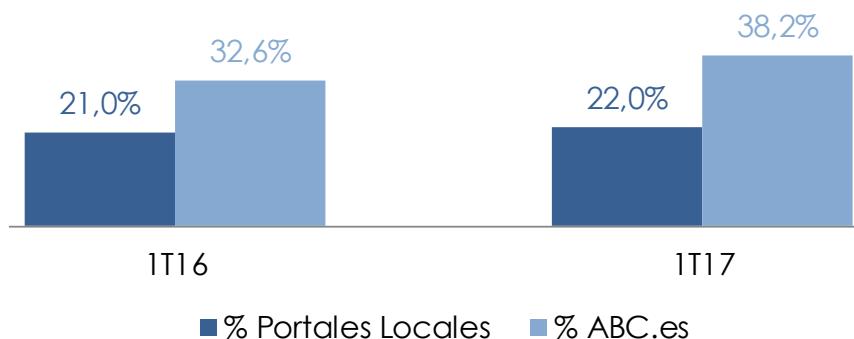

Los [Regionales](#) alcanzan unas ventas de publicidad de 22.245 miles de euros, con un incremento del 2,9% sobre 1T16.

En [ABC](#), los ingresos por publicidad descienden un -5,1%, con un crecimiento publicitario en ABC.es del +12,2% y un descenso en offline del -13,1%, consecuencia del entorno publicitario más debilitado del mercado de prensa offline nacional.

La paulatina incorporación del modelo digital se refleja en el creciente peso de los ingresos digitales, tanto en los Regionales (22,0% +1,0 p.p. sobre 1T16), como en ABC (38,2% +5,5 p.p.).

Anexo I: Medidas Alternativas del Rendimiento

CNMV ha notificado el 20 de octubre de 2015 su intención de cumplir con las "Directrices sobre Medidas Alternativas del Rendimiento" publicadas por La Autoridad Europea de Valores y Mercados (ESMA) el 30 de junio de 2015 y emitidas al amparo del artículo 16 del Reglamento (EU) N° 1095/2010 del Parlamento Europeo y del Consejo, de 24 de noviembre de 2010. En este contexto, se incluyen las Medidas Alternativas del Rendimiento utilizadas.

La descripción de dichas Medidas Alternativas de Rendimiento utilizadas en este informe es:

EBITDA significa, el resultado neto del ejercicio antes de ingresos financieros, gastos financieros, otros resultados de instrumentos financieros, impuesto sobre beneficios, amortizaciones, depreciaciones, deterioro y resultado por enajenación de inmovilizado material e intangible, deterioro de fondos de comercio para el periodo en cuestión sin tomar en consideración (a) el resultado neto de la enajenación de activos financieros corrientes; y (b) el Resultado de Sociedades por el método de participación.

EBITDA comparable significa ajustar al EBITDA todos aquellos ingresos y gastos excepcionales no recurrentes que facilitan la comparación entre los EBITDA entre los periodos en cuestión.

En este sentido, se han considerado como gastos excepcionales no recurrentes los importes de las indemnizaciones por despido devengadas en cada periodo.

EBIT significa, restar al EBITDA las amortizaciones y depreciaciones y el deterioro y resultado por enajenación de inmovilizado material e intangible.

EBIT comparable significa ajustar al EBIT todos aquellos ingresos y gastos excepcionales no recurrentes que facilitan la comparación entre los EBIT entre los periodos en cuestión y por el deterioro y resultado por enajenación de inmovilizado material e intangible.

En este sentido, se han considerado como gastos excepcionales no recurrentes los importes de las indemnizaciones por despido devengadas en cada periodo.

Deuda financiera neta (DFN) significa el endeudamiento a largo y corto plazo con coste financiero explícito, bien sea con entidades financieras bien con otros terceros, más las deudas derivadas de la emisión de bonos, pagarés, obligaciones convertibles en acciones o instrumentos financieros de naturaleza similar más las garantías o contragarantías en relación con endeudamiento con coste financiero que puedan prestar a favor de terceras partes y no contabilizadas en el pasivo como obligaciones de pago menos la tesorería más el valor de mercado (mark to market) de aquellos instrumentos de cobertura que se suscriban distintos de las Operaciones de Cobertura. A estos efectos se entenderá por tesorería el efectivo y otros medios líquidos, más otros activos financieros corrientes y no corrientes, que se mantengan bien con entidades financieras o bien con terceros. En este sentido, el importe de las "Deudas con entidades de crédito" corresponde al valor nominal de las mismas, y no a su coste amortizado; es decir, no incluye el impacto del diferimiento de los gastos de apertura. No se incluyen dentro de deuda financiera neta los Avales Económicos y los Avales Técnicos.

Deuda financiera neta (DFN) comparable significa ajustar la DFN por todos aquellos cobros y pagos excepcionales no recurrentes que facilitan la comparación entre la DFN de los periodos en cuestión. En este sentido, se han considerado como pagos excepcionales no recurrentes entre otros los importes de las indemnizaciones por despido pagados en cada periodo, así como los pagos relativos al ejercicio de los acuerdos alcanzados con los accionistas de Federico Domenech y a los pagos realizados por la compra de acciones.

Note 1: not including Audiovisual, sales companies or eliminations

In terms of digital revenues at VOCENTO, including not only digital advertising revenues but also revenues from new digital businesses based on e-commerce and booked as other revenues, there has been a 2.6. p.p. increase in their contribution since 1Q16. They now represent 33.5% of total advertising and e-commerce revenues.

Migration of advertising revenues and new businesses towards digital

Data in %¹

Note 1: advertising revenues and e-commerce.

Highlights of the new digital initiatives include Local Digital Kit, which currently has almost 500 companies as clients.

- iii. Other Revenues declined by -7.5% as a result of a fall in the Newspapers area, mainly because of lower revenues from add-ons, with a limited impact on EBITDA, and because of a lower level of activity at the local print plants.

- iv. Other items: impact of -968 thousand euros, mainly from the new building lease at ABC, which increased costs by around 500 thousand euros, and higher costs associated with digital development.

² Excluding result from sale of fixed assets 1Q16 116 thousand euros and 1Q17 -6 thousand euros.

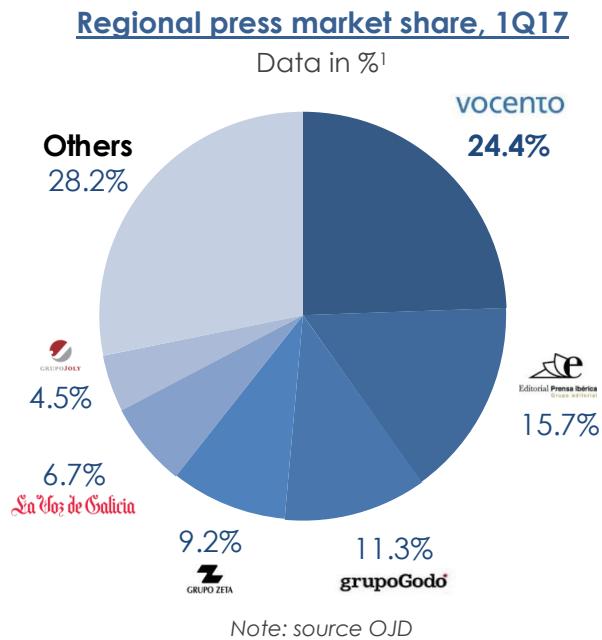

Operating Revenues: 86,567 thousand euros, a decrease of -6.3% from 1Q16.

The fall in revenues is primarily a result of lower circulation sales from the Regional press and ABC and a decline in other revenues.

Data from the first EGM survey of 2017 show a -2.1% drop in the readership of VOCENTO regional newspapers compared to the last survey of 2016.

ABC outperformed its peers, in both absolute terms and in comparison, with the final survey of 2016: while ABC lost 21,000 readers (-4.6%), the average decline at El País and El Mundo was -61,000 readers (-6.1%).

Circulation revenues: 42,373 thousand euros, down -8.9%. At the [Regional Press](#) revenues from circulation fell by -6.3% in 1Q17, with an -8.1% drop in ordinary circulation. VOCENTO's regional titles continues to be clear leaders in their areas, with a total market share in regional press of 24.4%, ahead of the nearest competitor on 15.7%:

The on+ subscription models at El Correo, Diario Vasco and Diario Montañés have around 9,000 subscribers.

At [ABC](#), revenues from circulation sales dropped by -14.4%, with a fall in circulation of -19.6%. However, this drop in circulation would be reduced to just -7.1% if only kiosk sales and individual subscriptions are included, as ABC continues to be focused on high quality, profitable circulation.

Furthermore, the cover price on weekdays has been increased from €1.5 to €1.6.

ABC continues to strengthen its position in terms of market share, as reflected in ordinary circulation in the Madrid region, the main market for the national press, increasing its lead over El Mundo and narrowing the gap to El País (see chart on page 5).

Finally, there was a -10.7% decrease in circulation revenues at [Supplements & Magazines](#).

Advertising Revenues: 31,793 thousand euros, flat compared to 1Q16 (+0.2%). Advertising at the regional brands increased by 2.8%, while advertising at ABC dropped by -5.1%.

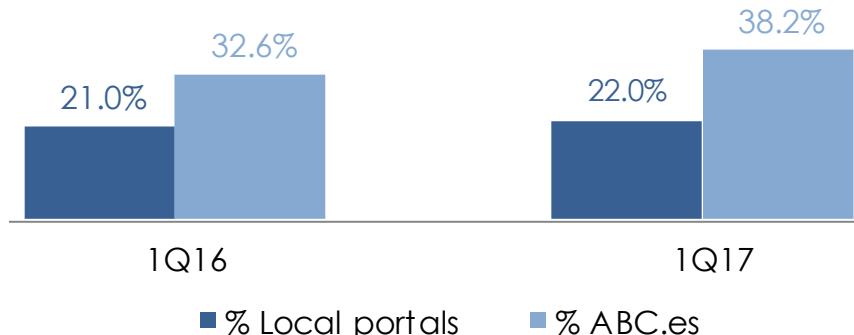

At [Regional](#), advertising revenues increased by 2.9% from 1Q16 to 22,245 thousand euros.

At [ABC](#), advertising revenues fell by -5.1%, with an increase at ABC.es of +12.2% and a decline at offline of -13.1%, a reflection of the weaker advertising market for the national offline press.

The steady expansion of digital business models is reflected in the increased contribution of digital revenues, both at Regional (22.0% +1.0 p.p. from 1Q16), and at ABC (38.2% +5.5 p.p.).

Weight of digital business at VOCENTO newspapers

Data in %¹

Note 1: The weight of the digital business is shown as the contribution of digital advertising revenues plus e-commerce to total advertising plus e-commerce revenues.

Other Revenues: 12,402 thousand euros, down -12.1%, reflecting a more selective add-ons policy at ABC and lower activity at the print plants.

Comparable EBITDA⁹: 6,095 thousand euros, a decrease of -777 thousand euros from 1Q16, with a comparable EBITDA margin of +7.0% in 1Q17.

Appendix I: Alternative Performance Measures

On 20 October 2015, the CNMV stated its intention to comply with the Guidelines on Alternative Performance Measures published by the European Securities and Market Authority (ESMA) on 30 June 2015 in accordance with Article 16 of EU Regulation 1095/2010 of the European Parliament and Council.

The APMs used in this report include the following:

EBITDA represents the net result of the period before financial income and expenses, other results from financial instruments, tax on profits, amortization, depreciation, the impairment and sale of fixed and non-fixed assets, the writedown of goodwill in the period, excluding (a) the net result from the sale of current financial assets and (b) the results from equity-accounted subsidiaries.

Comparable EBITDA is the adjustment of EBITDA for all non-recurring exceptional revenues and costs, in order to facilitate the comparison between EBITDA in different periods.

Exceptional non-recurring costs include the costs of compensation for dismissals incurred in each period.

EBIT is EBITDA less amortization and depreciation and the result from the impairment or sale of fixed and non-fixed assets.

Comparable EBIT is EBITDA less exceptional and non-recurring revenues and expenses, to facilitate the comparison of EBIT between the periods, and less the result from the sale or impairment of fixed and non-fixed assets. Exceptional non-recurring costs include the costs of compensation for dismissals incurred in each period.

Net Financial Debt (NFD) represents long-term and short-term debt with an explicit financial cost, either with financial institutions or other third parties, plus debt from the issue of bonds, commercial paper, securities convertible into shares or similar financial instruments plus the collateral or guarantees provided to third parties as part of the debt with a financial cost and which are not recorded as liabilities with payment obligations, minus cash plus the mark-to-market value of any hedging instruments apart from hedging for trading. Cash includes cash and other liquid equivalents, plus other current and non-current financial assets held either at financial institutions or with other third parties. The amount of the item of 'debt with credit institutions' is the nominal value and not its amortized cost; i.e. it does not include the impact of deferred arrangement costs. Guarantees of technical and financial capacity are not included in Net Financial Debt.

Comparable Net Financial Debt (NFD) is NFD adjusted for exceptional and non-recurring receivables and payables for comparative purposes. Exceptional non-recurring payments include

payments made for compensation for dismissal each period, plus payments related to the agreements with shareholders of Federico Domenech and payments made to buy shares.

Generation of ordinary cash represents the difference between the NFD at the beginning and end of the period, adjusted for non-recurring and exceptional receivables and payables for comparative purposes. Exceptional non-recurring payments include payments made for compensation for dismissal each period, plus payments related to the agreements with shareholders of Federico Domenech and payments made to buy shares.
