ANNEXE A – EXPLANATION OF INCOME STATEMENT ITEMS	21

INTRODUCTION

In November 2009, CAMPOFRIO FOOD GROUP, S.A. (the "Company"), incorporated as a public limited company (*sociedad anónima*) under the laws of Spain, issued € 500 million aggregate principal amount of its 8.250% Senior Notes due 2016 (the "Notes") at a price of 99.365%. The Company will pay interest on the Notes semi-annually on each April 30 and October 31, commencing April 30, 2010. Prior to October 31, 2013, the Company will be entitled, at its option, to redeem all or a portion of the Notes by paying relevant "make-whole" premium. At any time on or after October 31, 2013, the Company may redeem all or part of the Notes by paying a specified premium to the holders. In addition, prior to October 31, 2013, the Company may redeem at its option up to 35% of the Notes with the net proceeds from certain equity offerings. If the Company undergo a change of control or sell certain of its assets, it may be required to make an offer to purchase the Notes. In the event of certain developments affecting taxation, the Company may redeem all, but not less than all, of the Notes. The Company may from time to time seek to retire or purchase our outstanding debt through cash purchases and/or exchanges for equity securities, in open market purchases, privately negotiated transactions or otherwise. Such repurchases or exchanges, if any, will depend on prevailing market conditions, the Company's liquidity requirements, contractual restrictions and other factors. The amounts involved may be material.

The Notes are senior debt of Campofrio Food Group and will rank *pari passu* in right of payment to all of Campofrio Food Group's existing and future senior indebtedness. The Notes are guaranteed on a senior basis by certain of our subsidiaries.

The Notes are admitted to listing on the Official List of the Luxembourg Stock Exchange and for trading on the Euro MTF market.

The Notes and the Guarantees have not been, and will not be, registered under the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act"). The Notes may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons, except to qualified institutional buyers in reliance on the exemption from registration provided by Rule 144A under the U.S. Securities Act ("Rule 144A") and to certain persons in offshore transactions in reliance on Regulation S under the U.S. Securities Act ("Regulation S"). You are hereby notified that sellers of the Notes may be relying on the exemption from the provisions of Section 5 of the U.S. Securities Act provided by Rule 144A.

Following the issuance of the Notes, the Company redeemed all of its U.S Private Placement notes, prepaid all of its LBO facilities (multicurrency credit facilities with a limit of €415 million, arranged by Citigroup Global Markets Ltd and Royal Bank of Scotland plc.) and repaid all short-term borrowings under various lines of credit.

This Unaudited Selected Consolidated Financial Information is provided to the holders of the Notes pursuant to Section "Description of the notes - Reports (2)" of the indenture.

EXPLANATORY NOTES TO THE UNAUDITED INTERIM SELECTED CONSOLIDATED FINANCIAL INFORMATION

Corporate Information

Campofrio Food Group, S.A. (the "Company"), with registered office at Avda. de Europa, Parque Empresarial La Moraleja in Alcobendas (Madrid), was incorporated as a private limited company in Spain on September 1, 1944, under the registered name Conservera Campofrío, S.A. On June 26, 1996, the Company's name was changed to Campofrío Alimentación, S.A. and on December 30, 2008, it changed to its current name, Campofrio Food Group, S.A.

Campofrio Food Group, S.A. is the parent of a group of companies consolidated under the full and equity consolidation methods.

The Company manufactures and sells products mainly for human consumption. The principal activities of the parent company and the group companies are to manufacture, sell and distribute processed and canned meat and derivatives from pork, poultry and beef by-products and other food products.

The Company operates throughout Spain with factories in Burgos, Villaverde (Madrid), Torrijos (Toledo), Ólvega (Soria), Torrente (Valencia) and Trujillo (Cáceres), and through its investments in Portugal, Belgium, France, Germany, Italy, the Netherlands, United Kingdom, USA and Romania.

On January 13, 2011, the Parent signed a share purchase-sale agreement with the entities holding 100% of the share capital of the Italian company Cesare Fiorucci S.p.A, which is the parent of several companies, all of which make up the "Cesare Fiorucci Group" ("Fiorucci"). The transaction was subject to meeting certain suspensive conditions, which included, amongst others, approval or failure to oppose the agreement by the Competition Authorities. Finally, on April 4, 2011 the transaction was signed by the parties after obtaining authorization from the Competition Authorities for its execution and after fulfilling agreed conditions.

During the first quarter of 2012, the group signed an agreement to engage, together with Foxlease, in a Joint Venture on which it holds 49% of the share capital. For the constitution of this Joint Venture, the group contributed with its cooked ham business in France, ran by one of its French subsidiaries, Jean Caby SAS. As of March, 2012, the group proceeded to derecognize Jean Caby assets and liabilities from Group consolidated financial statements, and, as part of a Joint Venture, it is now integrated into the consolidated financial statements as an Equity Investee.

Basis of preparation

The amounts of the consolidated income, balance sheet and cash flow statement, were prepared in accordance with International Financial Reporting Standards, adopted by the European Union (the "IFRS-EU"), in conformity with EU Regulation no. 1606/2002 of the European Parliament and Council. The rest of information and disclosures that are necessary in financial statements elaborated under IFRS-EU are not included since they are not applicable for the purpose of this document.

In any case, this selected financial information here presented and the explanatory notes should be read in conjunction with the unaudited Interim Condensed Consolidated Financial Statements for the sixmonth period ended June 30, 2012 and the Campofrío Food Group, S.A. and subsidiaries Consolidated Financial Statements and Consolidated Management Report for the year ended December 31, 2011 and 2010.

Critical Accounting Policies

Our consolidated financial statements are prepared in accordance with the International Financial Reporting Standards as adopted by the European Union ("IFRS-EU") in conformity with Regulation (EC) no. 1606/2002 of the European Parliament and of the Council.

The discussion and analysis of our historical results of operations and financial conditions are based on our consolidated financial statements, which have been prepared in accordance with IFRS-EU. The preparation of our consolidated financial statements requires us to apply accounting methods and policies that are based on difficult or subjective judgments, estimates based on past experience and assumptions determined to be reasonable and realistic based on the related circumstances. The application of these estimates and assumptions affects the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the balance sheet date and the reported amounts of income and

expenses during the reporting period. Actual results may differ from these estimates given the uncertainty surrounding the assumptions and conditions upon which the estimates are based.

Detailed information regarding the Company's accounting policies is provided in Note 2 to our consolidated financial statements for the year ended December 31, 2011.

Comparison of information

During 2011, as stated in "Corporate Information" above, the Group acquired Cesare Fiorucci Group. The contribution of Fiorucci is reflected only in the nine month period ended December 31, 2011 Consolidated Income Statement and Consolidated Cash-flow Statement. Due to the complexity to elaborate full comparable information and as it is not requested under IFRS, no restatements has been done to 2011 financial information in this document presented. Nevertheless, where applicable, the comparison is made disaggregating Fiorucci Group 2012 Income Statement from the Group Consolidated Income Statement.

At December 31, 2011 the Group's parent classified all its assets and liabilities related to the cooked ham business in France, run by the French subsidiary Jean Caby SAS, as non-current assets and liabilities held for sale, following its decision to discontinue this activity and actively engage in its sale, which finally was carried out in March 2012. The parent also decided to suspend its pig breeding and fattening activity in Spain, carried out by the subsidiary La Montanera S.A. The results from the activity of both companies for the six-month period ended June 30, 2012 have been reclassified to "Net loss for the period from discontinued operations" (see Corporate Information section regarding cooked ham business in France). The separate income statement for the six-month period ended June 30, 2011 has also been restated to reflect this same reclassification.

This selected financial information could contain non-IFRS-EU measures and ratios, including EBITDA, adjusted EBITDA, net debt and leverage and coverage ratios that are not required by, or presented in accordance with, IFRS-EU. We present non-IFRS-EU measures because we believe that they and similar measures are widely used by certain investors, securities analysts and other interested parties as supplemental measures of performance and liquidity. The non-IFRS-EU measures may not be comparable to other similarly titled measures of other companies and have limitations as analytical tools and should not be considered in isolation or as a substitute for analysis of our operating results as reported under IFRS-EU. Non-IFRS-EU measures and ratios such as EBITDA, adjusted EBITDA, net debt and leverage and coverage ratios are not measurements of our performance or liquidity under IFRS-EU and should not be considered as alternatives to operating profit or profit for the year or any other performance measures derived in accordance with IFRS-EU or any other generally accepted accounting principles or as alternatives to cash flow from operating, investing or financing activities.

Discontinued Operations

On December 31, 2011 the parent reclassified all its asset and liabilities related to the French cooked business and its breeding and fattening activities in Spain as "Assets and liabilities held for sales and discontinued operations", following its decision to discontinue those activities. Consequently, on the separate profit and loss statement, operation results from these activities have been reclassified as "net loss after tax from discontinued operations" both for the period ended in June 30, 2012 and 2011 (see Corporate Information section regarding cooked ham business in France).

Operating Segment Reporting

Results are presented in accordance with following strategic reporting segments:

- Southern Europe: includes mainly operating activities managed in Spain, Portugal & Italy.
- Northern Europe: includes operating activities managed primarily in France, the Netherlands, Belgium & Germany.
- Others: includes mainly corporate monitoring and supervising activities and operating activities managed in USA.

Note: Elimination in Net Sales and Services segment reporting refers to the elimination of inter-segment sales (i.e.: sales between Southern and Northern Europe) eliminated at consolidated level. Segment information is presented net of intra-segment sales (i.e.: sales between Spain and Portugal)

In order to reflect comparable business performance with full cost allocations, corporate operating expenses have been allocated across the different segments. Prior year information has been restated for comparison purposes.

Net Financial Debt, Liquidity and Capital Resources

The following chart sets forth the Company's debt position as of June 30, 2012 and June 30, 2011.

Cash and cash equivalents	(136,328)	(119,092)	
Total Net Financial Debt	490,468	<u>509,426</u>	

Our present debt structure consists of the Notes issued in 2009 which account for €489.6 million and a Senior Term Loan Facility amounting to €100 million drawn down in April 2011 to partially refinance the outstanding debt of Cesare Fiorucci S.p.A. our recently acquired Italian subsidiary, while the rest of its debt and the equity payment were funded out of our cash. As a result, our total debt is practically long-term. Besides the Notes and the new bank financing, the only remaining financial liabilities were basically the derivatives which we contracted initially to hedge our former USPP Notes. In the year 2009 on refinancing our debt, the USPP Notes were repaid and those derivatives were classified as held for trading. (See "Description of certain Financing Arrangements" in the Notes Offering Memorandum (OM)). During 2010 we proceeded to unwind derivatives worth €53 million that were outstanding at the end of 2009 and in September 2011 we proceeded to unwind the remaining derivatives for €19 million, and consequently, the derivatives exposure has been fully eliminated. The rest of the debt items (i.e. leasing ...) are of negligible value in the context of the Company's balance sheet.

Net financial debt of \leqslant 490.5 million as of June 30, 2012 is lower than at the end of June 2011 showing our capacity to generate positive cash flow after funding our selective investments and projects.

The Company's liquidity position remained very solid and amounted to €328 million at the end of June 2012, consisting of €136 million in cash and cash equivalents and €192 million of fully available bank lines. In addition, Fiorucci is contributing €20 million of uncommitted bank lines. The Company keeps focused on enhancing its cash management and working capital operations.

The following tables set forth the situation of the Company's two main financing sources as of June 30, 2012 and June 30, 2011.

After having unwound a significant portion of the outstanding derivatives during 2010 in the context of the Company's deleveraging commitment and, as it had been previously anticipated, the Company has proceeded to unwind the remaining \in 19 million derivatives during 2011 in an effort to fully eliminate the underlying risks still under rather volatile financial markets conditions. As a result, no additional exposure remains in 2012.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

Campofrio Food Group is the largest European producer of processed meat products based on net sales. Its products, which are sold under well established and leading brands, cover a broad range of processed meat categories, including cooked ham, dry sausages, dry ham, hot dogs, poultry products, cold cuts and pâtés. The Company was founded in 1944 in Burgos, Spain and has expanded to achieve a direct presence in eight European countries, Spain, France, Portugal, The Netherlands, Belgium, Italy, Romania Germany and the United States, and sales in over 80 countries worldwide through independent distributors. The Company's market leading brands include *Campofrío* and *Navidul* in Spain, *Aoste, Justin Bridou* and *Cochonou* in France, *Nobre* in Portugal, *Marcassou* in Belgium, *Stegeman* in The Netherlands and *Fiorucci* in Italy. For the six month period ended June 30, 2012, the Company had Net Sales and Services and Reported EBITDA of €910.4 million and €65.5 million, respectively. It generates most of its revenues in Europe. The Company is headquartered in Madrid, Spain and its shares have been listed on the Madrid stock exchange since 1988 and on the Barcelona stock exchange since 1990, and are now traded under the symbol "CFG". As of June 30, 2012, the Company had a market capitalization of € 616.4 million.

The Company is primarily engaged in the production and sale of processed meat products with a focus on cooked ham, dry sausages, dry ham, hot dogs and poultry products. The Company sources meat primarily from third party suppliers which it monitors on a regular basis to ensure that high-quality and hygienic standards are maintained. The meat is then processed in one, or a combination, of our 30 facilities and the final products are sold directly to customers, which include some of the largest retailers in Europe, including Carrefour, Ahold, Auchan, Delhaize, Casino and Lidl, as well as directly or through wholesalers to a large number of food service specialists and traditional retail outlets. As a result of its strong relationships with retail and food specialist customers, the Company has also developed a strong private label or retailer brand business.

Factors Affecting Our Results of Operations

Grain prices in Europe continue to be negatively impacted by the drought in USA. With the hottest July in the 118-year history of US records, the outlook for US row crop production is being revised down with each passing month. In EU27, the forecast for 2012/13 grain production is pegged at 279 million (-2.1%), with increased plantings (+1%) offset by lower average yields (-3%) on high levels of precipitations in France, Germany, UK and Poland during the period May to July. Grain quotations are trading at record levels in international markets. EU27 wheat, barley and corn prices have risen 10% to 15% in the past 3 months, and more than 30% against last year's summer levels.

The historically high grain prices in Europe will surely reduce the profitability of pig producers in Europe. Hence, EU pork farmers are expected to manage their losses by further lowering sow herds (-3.1% in Dec 2010 survey, -4.8% in May-June 2011 survey, -3.4% in December 2011) in the coming 2 quarters. These decisions impact pork meat output with a 10 to 12 months delayed effect. The soon to be released Spring/Summer 2012 EU27 pig population survey will shed more light on future pork meat output.

During the first semester 2012, EU27 pork production decreased -1.4%, with significant variability among the main European countries. While output dropped in Germany (-0.5%), France (-

0.8%), Netherlands (-0.4%), Denmark (-5.2%), Belgium (-1.8%) and Poland (-25.2%), it was most of it offset by improvements in Spain (+5.7%), Italy (+5.5%) and United Kingdom (+5.5%).

Last year, EU27 countries exported record quantities of pork meat to third countries, due to a combination of robust demand from Asia (China, South Korea, Japan and the Philippines) and favourable trade conditions (currencies, relative prices in US and Brazil). Exports grew +18.8% above the levels of 2010, reaching 3.19 million tons. During the first 5 months in 2012, EU27 shipments to third countries slowed down to +4.7%. They are expected to end the year with slightly lower levels than the previous year. For the same period, China demand is up +37% and overall Asian demand +6.5%. For the second consecutive year, China remains the largest client of EU27 trade bloc. In parallel, European neighbour countries (Croatia, Belarus and Ukraine) have more than offset the drop from Russia (-6%).

Overall, EU pig carcass prices traded at their highest levels in the last 10 years. Their evolution reflected the heterogeneous supply conditions in the main producer countries. During the first semester 2012, the pork quotation rose only 1.9% in Spain, while in the rest of Europe displayed increases from +8% to 15%.

The value of hams decreased -2.6% to -7.4% despite the rise in pig carcass quotations. As a result, the ham to pig price ratios are at the lowest level in the last 10 years, a sign of consumers switching to lower relative value cuts (penalizing hams and loins). On the other hand, shoulders rose from +1.8% to +15.7%, bellies from +9.3% in Belgium to 17.2% in Germany. Fat, jowls, trimmings, after surging in the second half of 2011, remain very expensive on an historical basis. For example, backfat increased from +57% in Spain to +60% in France.

During the first semester of 2012, European chicken carcass prices increased slightly but remained close to their record levels from the previous year. Year to date, they are trading +1.9%, +2.9%, +5.2% and -0.9% respectively in France, UK, Spain and Poland. In all the main EU producer country, production is increasing as a consequence of the record 2011 prices. Exports to third countries are still increasing (+8%) boosted by higher demand from Russia, Ukraine and Middle Easter countries (Saudi Arabia, UAE) and reached 506,120 metric tons. EU27 poultry imports dropped slightly compared the same period last year (317,985 tons, down -3.0%).

The pork and chicken meat market trends stated above affected Campofrio Food Group raw material costs only indirectly. First, the Company purchases pork and poultry cuts in different proportions, each one following its own supply and demand dynamics. During H1 2012, the average meat price purchased by the Company increased +2.8% versus prior year levels. Second, and more importantly, the cost of goods sold of long-cycle products (cured products) reflects evolutions in raw material prices with a lag time which can vary between 6 and 24 months.

Results of Operations

Comparison of the six month period ended June 30, 2012 and the six month period ended June, 2011

Operating Revenues

The following table sets forth a detailed breakdown of our operating revenues for the six month period ended June 30, 2012 and June, 2011.

Operating revenues	Six month ended June 30,			
	2012		2011

Operating revenues increased by 9.0% to $\[\le \]$ 942.4 million for the six month period ended June 30, 2012 from $\[\le \]$ 864.4 million for the same period of 2011. Net sales increased by 9.0% to $\[\le \]$ 910.4 million for the six month period ended June 30, 2011 from $\[\le \]$ 834.9 million in the same period of 2011, increase mainly attributable to Fiorucci integration to the Group since April 2011. Without considering Fiorucci contribution in the first quarter of 2012, total net sales and services increased by 1.3%. Capitalized expenses on Company's fixed assets increased by 84% to $\[\le \]$ 3.5 million for the six month period ended June 30, 2012 from $\[\le \]$ 1.9 million for the same period of 2011, increase attributable to the new ERP project.

Operating Expenses

The following table sets forth a detailed breakdown of operating expenses for the three month period ended June 30, 2012 and June 30, 2011

Operating expenses	Six month ended June 30,					
	2012		2011			
	Actual (audited)	% of total oper. revenues	Actual (audited) (restated)	% of total oper. revenues		
Consumption of goods and other external charges	(516,733)	(54.8%)	(466,409)	(54.0%)

Other operating expenses	(184,223)	(19.5%)	(160,507)	(18.6%)		
Changes in trade provisions	(937)	(0.1%)	(1,467)	(0.2%)		
Total operating expenses	(906,941)	(96.2%)	(821,019)	<u>(95.0%)</u>		
% increase in total operating expenses	10.5%					

Operating expenses increased by 10.5% to €906.9 million for the six month period ended June 30, 2012 from €821.0 million for the same period of 2011. Operating expenses constituted 96.2% and 95.0% of total operating revenues for the six month period ended June 30, 2012 and 2011, respectively. The increase in total operating expenses was primarily attributable to Fiorucci Group integration to the Consolidated Income Statement since April 2011. Without considering Fiorucci contribution to the first quarter 2012, the increase in the periods under comparison is reduced to a 2.6%.

Consumption of Goods and Other External Charges

Consumption of goods and other external charges increased by 10.8% to €516,7 million for the six month period ended June 30, 2012 from €466.4 million for the same period of 2011. Consumption of goods and other external charges constituted 54.8% and 54.0% in percentage of total operating revenues for the six month period ended June 30, 2012 and 2011, respectively. If considered together with the increase in inventories of finished goods and work in progress included in Operating Revenues, net consumptions of goods and other external charges increased by 11.2%. Without considering Fiorucci contribution in the first quarter 2012, this increase is reduced to a 2.9% increase derived from higher raw material prices during the six month period ended June 30, 2012 versus the same period of 2011.

Employee Benefits Expenses

Employee benefits expenses increased by 6.0% to €175.1 million for the six month period ended June 30, 2012 from €165.2 million for the same period of 2011. Excluding Fiorucci contribution to the first quarter of 2012, employee benefit expenses decreased by 0.8% impacted by cost reduction programmes initialized on late 2011. Employee benefits expenses constituted 18.6% and 19.1% in percentage of total operating expenses for 2012 and 2011, respectively.

Depreciation and Amortization

Depreciation and amortization increased by 9.2% to €30.0 million for the six month period ended June 30, 2012 from €27.5 million for the same period of 2011. Depreciation and amortization represented 3.2% in percentage total operating revenues for both periods under comparison.

Other Operating Expenses

Other operating expenses increased by 14.8% to €184.2 million for the six month period ended June 30, 2012 from €160.5 million for the same period of 2011. Without considering Fiorucci contribution to the first quarter of 2012, the increase is reduced to a 5.8% increase, explained by higher marketing expenses and utilities cost.

Finance and Tax Expenses

Finance Revenue and Finance Costs

Net finance cost has increased by €3.1 million for the six month period ended June 30, 2012, from €25.1 million in the same period 2011 to €28.2 million in 2012 mainly due to our acquisition in Italy in April 2011 which has been financed with cash and a new bank facility.

Income Tax Expenses

Income tax amounted to €0.7 million for the six month period ended June 30, 2012, compared to €1.2 million in the same period of 2011. The 16.3% effective tax rate in 2012 is hardly comparable to the 7.3% for the same period in 2011 due to different consolidation perimeters, as well as to certain changes in the applicable tax regulations in some of the countries where the Company operates

Result from Discontinued Operations

For the six month period ended June 30, 2012 and 2011, Results from Discontinued Operations amounted €2.9 million loss and €11.7 million loss, respectively. Results from Discontinued Operation are comprised mainly of our French cooked business after tax net results (see Corporate information).

Profit (Loss) for the Period

Profit (Loss) for the Period amounted \in 1.0 million gain in the six month period ended June 30, 2012, compared to a \in 3.5 million gain in the same period of 2011.

¹ Southern Europe includes operating activities mainly managed in Spain, Portugal and Italy from April 2011, including our fresh meat operations.

Southern Europe

Net sales in Southern Europe increased by 15% to €532.7 million for the six month period ended June 30, 2012 from €462.8 million for the same period last year. This increase is to a certain extent attributable to Fiorucci Group which was incorporated to the Group in April 2011 (consolidated income statement figures only include Fiorucci group for the three month period ended June 30, 2011 compared to the full six month period ended June 30, 2012. For comparison purposes, excluding Fiorucci contribution in the tree month period ended March 31, 2011, net sales growth is 3.6% for the period under comparison, which has been achieved in a context of challenging macroeconomic conditions as a result of the focus on innovation, brand building and improved mix.

Normalized EBITDA amounted €36.2 million for the six month period ended June 30, 2012 compared to €36.7 million for the same period last year. Excluding the contribution of Fiorucci to the first quarter 2012, EBITDA reduction is 2.7% on last year

Normalized EBITDA margin over net sales for the six month period ended June 30, 2012 was 6.8% showing a decrease over previous period of 113 basis points, although this is mainly due to the lower margins in Fiorucci. Normalized EBITDA margin excluding Fiorucci is only 50bp below, as a result of pricing/value actions and value creation via innovation, brand building and improved mix, together with continuous improvement from global sourcing (European meat platform) and other productivity measures, to counteract inflation in meat costs.

Northern Europe

Net Sales in Northern Europe increased by 3.2%, to €388 million in the six month period ended June 30, 2012 from €376 million in the same period last year. Growth is driven by focus on brand building and improved mix.

The Normalized EBITDA for six month period ended June 30, 2012 of €26.7 is €8.8 million lower than the same period last year. Margin over net sales for the six month period ended June 30, 2012 was 6.9% showing a decrease over previous period of 257 basis points.

Although in 2012 inflation in hams and shoulders are slowing down, other cuts (especially those used in dry sausages) are still going up, and due to the product mix Northern Europe was more affected by this than Southern Europe. The impact of materials price increases was partially compensated by results of pricing/value actions and focus on value creation via innovation, brand building and improved mix, together with continuous improvement from global sourcing (European meat platform) and other productivity measures.

² Northern Europe includes operating activities managed primarily in France, the Netherlands, Belgium and Germany.

³ Other includes operating activities managed in the USA and corporate activities.

⁴ Intercompany sales between segments which are eliminated during consolidation.

Others

The "Others" segment mainly refers to corporate costs in the headquarters and business in USA which made excellent progress with product innovation and gaining important new accounts.

Cash Flow

Cash Flows from Operating Activities
