U.S. Risk Retention Rules

THE TRANSACTION DESCRIBED IN THIS PROSPECTUS WILL NOT INVOLVE RISK RETENTION BY THE SELLER (AS SUCH TERM IS DEFINED BELOW) FOR PURPOSES OF THE FINAL RULES PROMULGATED UNDER SECTION 15G OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED (THE “U.S. RISK RETENTION RULES”), AND THE ISSUANCE OF THE NOTES WAS NOT DESIGNED TO COMPLY WITH THE U.S. RISK RETENTION RULES. THE SELLER INTENDS TO RELY ON AN EXEMPTION PROVIDED FOR IN SECTION 20 OF THE U.S. RISK RETENTION RULES REGARDING NON-U.S. TRANSACTIONS THAT MEET CERTAIN REQUIREMENTS. CONSEQUENTLY, EXCEPT WITH THE PRIOR WRITTEN CONSENT OF BANCO CETELEM, S.A.U. (THE “SELLER”) (A “U.S. RISK RETENTION CONSENT”) AND WHERE SUCH SALE FALLS WITHIN THE EXEMPTION PROVIDED BY THE U.S. RISK RETENTION RULES, THE NOTES OFFERED AND SOLD BY AUTONORIA SPAIN 2021, FONDO DE TITULIZACIÓN (THE

“ISSUER”) MAY NOT BE PURCHASED BY, OR FOR THE ACCOUNT OR BENEFIT OF, ANY "U.S. PERSON" AS DEFINED IN THE U.S. RISK RETENTION RULES (“RISK RETENTION U.S. PERSONS”). PROSPECTIVE INVESTORS SHOULD NOTE THAT THE DEFINITION OF "U.S. PERSON" IN THE U.S. RISK RETENTION RULES IS SUBSTANTIALLY SIMILAR TO, BUT NOT IDENTICAL TO, THE DEFINITION OF "U.S. PERSON" IN REGULATION S. EACH PURCHASER OF THE NOTES, OR A BENEFICIAL INTEREST THEREIN, ACQUIRED IN THE INITIAL SYNDICATION OF THE NOTES BY ITS ACQUISITION OF THE NOTES, OR A BENEFICIAL INTEREST THEREIN, WILL BE DEEMED TO HAVE MADE CERTAIN REPRESENTATIONS AND IN CERTAIN CIRCUMSTANCES WILL BE REQUIRED TO MAKE CERTAIN REPRESENTATIONS AND AGREEMENTS (INCLUDING AS A CONDITION TO ACCESSING OR OTHERWISE OBTAINING A COPY OF THIS PROSPECTUS OR OTHER OFFERING MATERIALS RELATING TO THE NOTES), TO THE ISSUER, THE SELLER, INTERMONEY TITULIZACION, SOCIEDAD GESTORA DE FONDOS DE TITULIZACIÓN, S.A. (THE “MANAGEMENT COMPANY”), THE LEAD MANAGER AND THE SOLE ARRANGER (EACH AS DEFINED BELOW) AND ON WHICH EACH OF SUCH PERSONS WILL RELY WITHOUT ANY INVESTIGATION, INCLUDING THAT (1) EITHER (I) IS NOT A RISK RETENTION U.S. PERSON OR (II) HAS OBTAINED A U.S. RISK RETENTION CONSENT FROM THE SELLER, (2) IS ACQUIRING SUCH NOTE, OR BENEFICIAL INTEREST THEREIN, FOR ITS OWN ACCOUNT AND NOT WITH A VIEW TO DISTRIBUTE SUCH NOTE, AND (3) IS NOT ACQUIRING SUCH NOTE, OR BENEFICIAL INTEREST THEREIN, AS PART OF A SCHEME TO EVADE THE REQUIREMENTS OF THE U.S. RISK RETENTION RULES (INCLUDING ACQUIRING SUCH NOTE THROUGH A NON-RISK RETENTION U.S. PERSON, RATHER THAN A RISK RETENTION U.S. PERSON, AS PART OF A SCHEME TO EVADE THE 10 PER CENT. RISK RETENTION U.S. PERSON LIMITATION IN THE EXEMPTION PROVIDED FOR IN SECTION 20 OF THE U.S. RISK RETENTION RULES).

The Seller, as the sponsor under the U.S. Risk Retention Rules, does not intend to retain at least 5 per cent. of the credit risk of the securitised assets for purposes of compliance with the U.S. Risk Retention Rules, but rather intends to rely on an exemption provided for in Section 20 of the U.S. Risk Retention Rules regarding non-U.S. transactions that meet certain requirements. Consequently, except with a U.S. Risk Retention Consent and where such sale falls within the exemption provided by Section 20 of the U.S. Risk Retention Rules, any Notes offered and sold by the Issuer may not be purchased by, or for the account or benefit of, any Risk Retention U.S. Persons. Prospective investors should note that the definition of "U.S. person" in the U.S. Risk Retention Rules is different from the definition of "U.S. person" in Regulation S. Each purchaser of Notes, or, beneficial interests therein acquired in the initial distribution of the Notes will be deemed, and in certain circumstances (including as a condition to accessing or otherwise obtaining a copy of the Prospectus or other offering materials relating to the Notes) will be required, to have made certain representations, warranties and agreements, including that it (a) either (i) is not a Risk Retention U.S. Person or (ii) has obtained a U.S. Risk Retention Consent, (b) is acquiring such Note or a beneficial interest therein for its own account and not with a view to distribute such Note; and (c) is not acquiring such Note or a beneficial interest therein as part of a scheme to evade the requirements of the U.S. Risk Retention Rules (including acquiring such Note through a non-Risk Retention U.S. Person, rather than a Risk Retention U.S. Person, as part of a scheme to evade the 10 per cent. Risk Retention U.S. Person limitation in the exemption provided for in Section 20 of the U.S. Risk Retention Rules).

Neither the Lead Manager, the Sole Arranger nor any person who controls any of them or any director, officer, employee, agent or affiliate of any of the Lead Manager or the Sole Arranger shall have any responsibility for determining the proper characterisation of potential investors in relation to any restriction under the U.S. Risk Retention Rules or for determining the availability of the safe harbour provided for in Section 20 of the U.S. Risk Retention Rules, and neither the Lead Manager, the Sole Arranger nor any person who controls any of them or any director, officer, employee, agent or affiliate of the Lead Manager or the Sole Arranger accepts any liability or responsibility whatsoever for any such determination. Furthermore, neither the Lead Manager, the Sole Arranger nor any person who controls any of them or any director, officer, employee, agent or affiliate of the Lead Manager or the Sole Arranger provides any assurance that the safe harbour provided for in Section 20 of the U.S. Risk Retention Rules will be available.

No other steps have been taken by the Issuer, the Seller, the Management Company, the Sole Arranger or the Lead Manager or any of their affiliates or any other party to otherwise comply with the U.S. Risk Retention Rules. See "Certain Regulatory and Industry Disclosures".

By accessing this Prospectus or acquiring any Notes or a beneficial interest therein, you shall be deemed to have confirmed and represented, and in certain circumstances will be required to make certain representations and agreements (including as a condition to accessing or otherwise obtaining a copy of this Prospectus or other offering materials relating to the Notes), to the Issuer, the Seller, the Management Company, the Sole Arranger and the Lead Manager and on which each of such persons will rely without any investigation, that (i) you have understood and agree to the terms set out herein; (ii) you are not a U.S. Person (within the meaning of Regulation S under the Securities Act) or, in relation to the offer, sale or delivery of the Notes, acting for the account or benefit of any such U.S. Person and the electronic mail address that you have given to us and to which this e mail has been delivered is not located in the United States, its territories and possessions (including Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, Wake Island and the Northern Mariana Islands) or the District of Columbia; and (iii) you consent to delivery of the Prospectus by electronic transmission.

ANY FORWARDING, DISTRIBUTION OR REPRODUCTION OF THIS PROSPECTUS IN WHOLE OR IN PART IS UNAUTHORISED. FAILURE TO COMPLY WITH THIS DIRECTIVE MAY RESULT IN A VIOLATION OF THE SECURITIES ACT OR THE APPLICABLE LAWS OF OTHER JURISDICTIONS.

RISK FACTORS

1. RISKS DERIVED FROM THE SECURITIES

1.1. Related to the underlying assets

a) Risk of payment default by the Borrowers

The payment of principal and interest on the Notes is, inter alia, conditional on the performance of the Receivables. Accordingly, the Noteholders will be exposed to the credit risk of the Borrowers.

The performance of the Receivables shall depend on a number of factors, including general economic conditions, unemployment levels, the circumstances of the Borrowers, the Servicer's underwriting standards at origination and the success of the Servicer's servicing and collection strategies. Consequently, no accurate prediction can be made of how the Receivables will perform based on credit evaluation scores or other similar measures. Ultimately, this could result in losses on the Notes. This risk is additionally affected by the Covid-19 outbreak as explained in section 1.1.b) (*Risk of deterioration of economic outlook derived from Covid-19*) below.

BANCO CETELEM, as Seller, shall accept no liability whatsoever for the Borrowers' default of principal, interest or any other amount they may owe under the Receivables. Under Article 348 of the Commercial Code and Article 1,529 of the Civil Code, BANCO CETELEM shall be liable to the Issuer exclusively for the existence and lawfulness of the Loan Agreements, and for the personality with which the assignment is made. It will have no responsibility to warrant the successful outcome of the transaction and will not issue guarantees or security, nor undertake to repurchase the Receivables, other than the undertakings contained in section 2.2.9 of the Additional Information regarding substitution or repayment of Receivables failing to conform, on the date of assignment to the Issuer, to the representations contained in section 2.2.8 of the Additional Information.

At the end of section 2.2.7.3 of the Additional Information are displayed the tables with historical information of defaults and recovery rates of BANCO CETELEM auto loan portfolio which is similar to the Preliminary Portfolio that is comprised by New Vehicle, Used Vehicles and Recreational Vehicles given to Eligible Borrowers. The estimated cash flows displayed in section 4.10 of the Securities Notes have been calculated by reference to a cumulative default rate of 5.65%, a recovery rate of 15% and an annualized default rate of 1.9% (all loans that are once delinquent are considered ultimately becoming defaulted). The average delinquency of +90 days in arrears shown in section 2.2.7.3 of the Additional Information since 2014 is 0.33%. A recovery rate of 15% after 5 years is assumed. Both default and recovery assumptions are consistent with the rates of BANCO CETELEM's portfolio of equivalent loans. For the purposes of this Prospectus, such portfolio is selected by equivalent loans that comply with the distribution of the Preliminary Portfolio by vehicle type.

The Notes issued by the Issuer neither represent nor constitute an obligation of BANCO CETELEM or of the Management Company. No guarantees have been granted by any public or private organisation whatsoever, including BANCO CETELEM, the Management Company or any of their subsidiary or affiliated companies.

Notwithstanding this, prospective investors in the Notes should be aware that there may be a risk that the Notes incur losses irrespective of the credit enhancement provided by the subordination and/or available excess spread in the Transaction.

b) Risk of deterioration of economic outlook derived from Covid-19

Covid-19

On 30 January 2020, the WORLD HEALTH ORGANISATION (WHO) declared that the officially named coronavirus Covid-19 outbreak constituted a public health emergency of international concern. This novel coronavirus (SARS-CoV-2) and related respiratory disease (coronavirus disease Covid-19) has spread throughout the world, including the KINGDOM OF SPAIN. This outbreak has led to disruptions in the economies of nations, resulting in restrictions on travel, imposition of quarantines and prolonged closures of workplaces.

These circumstances have led to volatility in the capital markets and may lead to volatility in or disruption of the credit markets at any time.

According to BANK OF SPAIN estimates, at the end of 2020, GDP in Spain has decreased by 11.0% in year-over-year terms. According to Bank of Spain's macroeconomic projections, GDP growth is expected to reach 6.2% by end-2021. According to the FUNCAS, the unemployment rate in 2022 will be 15.3% and the public debt to GDP ratio will be 118.2%. The full impact of the outbreak and the resulting temporary precautionary measures on business operations, particularly for the travel, financial services and professional services industries, manufacturing facilities and supply chains remains unforeseen. We cannot predict the time that it will take to recover from the disruptions derived from Covid-19 or any similar future outbreak.

In addition, during 2020, a number of temporary general restrictions were imposed in the Spanish national territory and/or certain regions and municipalities, including on the movement of persons, public activities, opening of retail businesses and premises and curfews. This has led to a material number of temporary workforce restructuring plans (*expediente de regulación temporal del empleo*) and collective workforce restructuring plans (*expediente de regulación de empleo*) being implemented. The possibility that similar measures will be adopted in the future (both at national, regional or local level) cannot be ruled out, the impact of which on the Spanish economy is unknown and difficult to measure.

With respect to the Fund and the Notes, any quarantines or spread of viruses may affect in particular: (i) BANCO CETELEM clients' income generation or indebtedness capacity, as applicable, which may consequently adversely affect the Seller's own capacity to carry out its business as usual, (ii) the ability of some Borrowers to make full and timely payments of principal and/or interests under their Loans; (iii) the ability of the Seller to generate Loans and assign Additional Receivables during the Revolving Period or under any other circumstances as required under the Transaction Documents; (iv) the cashflows derived from the Receivables in the event of payment holidays or any other measure whether imposed by the competent government authority or applicable legislation or otherwise affecting payments to be made by the Borrowers under the Receivables (in particular, but not limited to, Royal Decree-Law 11/2020 and Royal Decree-Law 3/2021, as further described below) or granted by decision of the Seller further to any industry-wide decision; (v) the market value of the Notes; and (vi) third parties ability to perform their obligations under the Transaction Documents to which they are a party (including any failure arising from circumstances beyond their control, such as epidemics).

Since the outbreak of Covid-19, the Originator has experienced a decline in activity. For example, it faces an increased risk of deterioration in the value of its assets and an increase in non-performing loans from +76.53% (+241 million euros) in March 2021 since December 2019. The Originator's financial margin rise by -3.31% and the cost of risk was 32.70% higher in Q1 2021 than in the same period of the previous year. As of Q1 2020 and till Q1 2021, the outstanding of loans that had measures adopted by Covid-19 represented some 321 million euros, which is 8,6% of the outstanding of the whole portfolio of the Originator and 0.2 million euros of lost profits in the financial margin Q1 2021. In Q1 2021 the pre-tax result was +27.5 million euros; that represents a decrease by 15.3% versus the same period of the previous year.

In accordance with the representation given by the Seller under section 2.2.8.3.(21) of the Additional Information, no Receivables assigned to the Fund shall be affected by Covid-19 Moratoriums at the time of their assignment to the Fund.

Whilst as of the date of this Prospectus the deadline for requesting (i) Covid-19 Legal Moratoriums was 30 March 2021 and (ii) Covid-19 Contractual Moratoriums was 30 March 2021, it cannot be discarded that further extensions of the Covid-19 Moratorium (or similar measures) are approved after the Issuer Incorporation Date. Consequently, Borrowers (and eventually their guarantors) may adhere to any such extended Covid-19 Moratorium (or similar measures). This could imply a temporary reduction and/or postponement of cash flows under the Loans and, ultimately, the Available Collections to pay the amounts due under the Notes and consequently a decrease in the average yield and an increase in the duration and final maturity of the Notes.

Section 2.2 of the Additional Information describes the scope of the Covid-19 Moratoriums.

Powers of the Servicer

Section 3.7.2.8 (*Renegotiations, Waivers or Arrangements Affecting the Receivables*) of the Additional Information describes the powers of the Servicer to amend the terms of the Loan Agreements from which derive the Receivables in accordance with the Servicing Agreement.

c) Not all Loan Agreements benefit from Reservation of Title clauses

As established in section 2.2 of the Additional Information, from the random sample of the Preliminary Portfolio, not all Loan Agreements contain reservation of title clauses (*reserva de dominio*) in order to secure the Receivables. In this sense, as provided in section 2.2.2.1 I) of the Additional Information, Receivables representing 5.32% of the Outstanding Principal of Receivables in the Preliminary Portfolio do not contain reservation of title clauses and therefore the Seller, as creditor, does not have a right of ownership (*dominio*) over the Vehicles financed under such Loan Agreements.

The inclusion of a reservation of title clause would grant the Seller, as creditor, a right of ownership (*dominio*) over the Vehicle financed under the Loan until such Loan is repaid in full. Thus, in case of default by the Borrower under a Loan Agreement benefiting from said reservation of title clause, subject to the Seller being able to obtain possession of the Vehicle, any proceeds derived from its sale would accrue to the Issuer as part of the Ancillary Rights. By comparison, recoveries might be lower for those Defaulted Purchased Receivables deriving from Loan Agreements not benefiting from a reservation of title.

Receivables representing 94.68% of the Outstanding Principal of Receivables in the Preliminary Portfolio contain a reservation of title clause but not all the reservation of title clauses are registered in the Chattels Register (*Registro de Venta a Plazos de Bienes Muebles*). As provided in section 2.2.2.1 I) of the Additional Information, Receivables representing 43.61% of the Outstanding Principal of Receivables in the Preliminary Portfolio do not have their reservation of title clauses registered in the Chattels Register. In order for reservation of title clauses to be enforceable vis-à-vis third parties, it will be necessary to register them in the Chattels Register.

Other related risks

The Vehicles financed under the Loans will remain in possession of the Borrowers, who may in fact instigate the loss of the Vehicles, without prejudice to the resulting liability that they might incur.

Likewise, although from a legal point of view the protection provided by the registration of the reservation of title with the Chattels Register is similar to that provided by the registration of ownership of real estate with the Land Register, the level of protection may in practice be lower due to the movable nature of the assets.

d) Enforceability of Reservation of Title clauses

Enforceability of reservation of title clauses can be jeopardized depending on the formalities followed upon execution of the Loan Agreements. In particular, non-registration of the reservation of title clause in the Chattel Register involves that the Loan Agreement shall exclusively have *inter-partes* effects (*i.e.*, it would be unenforceable against third party purchasers in good faith, whose acquisition would be valid in any case, without prejudice to Seller's damages actions against the Borrower arising from the latter's failure to abide by the non-disposal covenant). The procedure for recovering the Vehicle and the amounts due will be longer and more costly, as it would be carried out by means of a declaratory procedure (instead of expediter ones such as summary verbal procedure or the enforcement procedure). To the extent that the Loan Agreements are not registered, such claims would be classified as "ordinary" (unsecured) in the event of insolvency of the Borrower, in accordance with article 271.1 of the Insolvency Law, and therefore will rank *pari passu* with the rest of unsecured creditors. In addition, the Seller will not be able to seek restitution of possession of the Vehicle.

As provided in section 2.2.2.1 I) of the Additional Information, Loan Agreements representing 43.61% of the Outstanding Principal of Receivables in the Preliminary Portfolio do not have their reservation of title clauses registered in the Chattels Register.

Issues arising in connection with enforceability of reservation of title clauses (including unenforceability against third party purchasers in good faith) may affect the recovery ability of the Fund in the event of enforcement (following a payment default under any Loan agreement) of the security over the Vehicles and, ultimately, a reduction of the Available Distribution Amount to meet the payment obligations of the Fund (including principal and/or interest under the Notes).

All Loan Agreements in the Preliminary Portfolio with a reservation of title clause, which represent 94.68% of the Outstanding Principal of Receivables in the Preliminary Portfolio, have been executed in the form of the official model provided by the National Association of Credit Financial Institutions (ASNEF), and therefore, those representing 43.61% of the Outstanding Principal of Receivables in the Preliminary Portfolio which do not have their reservation of title clause registered in the Chattels Register may be registered immediately when the Seller deems appropriate.

In the event that those Loan Agreements are registered with the Chattels Register, the recovery procedure is made through a notary public, who may request payment from the Borrower in a term of three business days. After that term expires without the Borrower paying the required amount or handing over possession, the Fund may file a claim before the competent Court for the recovery of the property or foreclose the collateral, pursuant to first additional provision of Law 28/1998 of July 13 on Chattels Hire Purchase, as amended (“**Law 28/1998**”). In addition, notarizing the Loan Agreement would permit to initiate an enforcement proceeding to attach other assets.

In addition, the Fund may choose to exercise the summary verbal procedure to gain repossession.

In the event of insolvency of the Borrower, the claim will be classified as a secured claim with priority over the collateral proceeds and, subject to automatic stay regulation and exceptions, Seller may also seek repossession thereof. As provided in article 16.5 of Law 28/1998, any reservation of title registered in the corresponding Chattels Register grant their beneficiary the preference and priority set forth in article 1,922.2 and 1,926.1 of the Civil Code (i.e. if two or more credits compete with respect to certain movable properties, and as regards the order of priority for their payment, the secured credit excludes the rest of credits up to the value of item pledged as a security).

e) Receivable prepayment risk

Borrowers may prepay the Outstanding Balance of the Receivables, in the terms set out in the relevant Loan Agreement from which the Receivables derive.

Faster than expected rates of Prepayment on the Receivables will cause the Issuer to make payments of principal on the Notes of any Class earlier than expected and will shorten the maturity of the Notes. Prepayments on the Receivables may occur as a result of (i) prepayments of Receivables by Borrowers in whole or in part; (ii) liquidations and other recoveries due to default, (iii) receipts of proceeds from claims on any physical damage, credit life or other insurance policies covering the Borrowers and (iv) repurchases by the Seller or any other third party of any Receivables, due for instance, to the occurrence of an Issuer Mandatory Early Liquidation Event or an Issuer Optional Early Liquidation Event as described in section 4.4.3 of the Registration Document. A variety of economic, social and other factors will influence the rate of Prepayments on the Receivables. No prediction can be made as to the actual Prepayment rates that will be experienced on the Receivables. As indicated in section 2.2.7.3 of the Additional Information BANCO CETELEM's auto loan portfolio has experienced a significant volatility in Prepayments from a lowest rate of 3.86% to a maximum of 18.23% over the period of January 2015 to March 2021.

If principal is paid on the Notes of any Class earlier than expected due to Prepayments on the Receivables, Noteholders may not be able to reinvest the principal in a comparable security with an effective interest rate

equivalent to the interest rate on the Notes. Similarly, if principal payments on the Notes of any Class are made later than expected due to slower than expected Prepayments or payments on the Receivables, Noteholders may lose reinvestment opportunities. Noteholders will bear all reinvestment risk resulting from receiving payments of principal on the Notes of any Class earlier or later than expected.

f) Depreciation of the value of the Vehicles

67.17% of the Outstanding Principal Balance of the Receivables selected for assignment to the Fund corresponds to the financing of New Vehicles. The remaining 26.83% corresponds to the financing of the Used Vehicles, as detailed in section 2.2.2.1. (b) of the Additional Information.

Depreciation on a Vehicle is approximately 20% to 30%, depending on the energy type, of its market value at the time of sale. In addition, there is a yearly average depreciation of 12-14% for the first three years (these percentages will vary depending on each model), and from the fourth to the tenth year a yearly average depreciation of 6%. The average age of the Vehicles is 2.2 years.

The circumstances described above constitute a risk of impairment of the recovery value in the event of enforcement (following a payment default under any Loan agreement) of the security over the Vehicles. If the proceeds received were not sufficient to repay in full the Loan agreement, the resulting loss will cause a reduction of the Available Distribution Amounts to meet the payment obligations of the Fund (including principal and/or interest under the Notes).

g) Geographical concentration risk

As detailed in section 2.2.2.1 i) of the Additional Information, the Autonomous Communities (*Comunidades Autónomas*) having the largest concentration of the borrowers of the loans selected to be assigned to the Issuer upon being established are, as a percentage of the outstanding principal, as follows: Andalucía (17.40%), Cataluña (16.82%), Madrid (13.15%) and Comunidad Valenciana (11.76%), altogether representing 59.13%.

Moreover, the current highest concentration in any region could be increased to 25% of the aggregate Outstanding Principal Balance of the Aggregate Securitised Portfolio, as allowed by the Eligibility Criteria in relation to geographical concentration by Autonomous Communities as described in section 2.2.2.2 of the Additional Information.

Any significant event (political, social, natural disaster, etc.) occurring in these Autonomous Communities could disproportionately affected the portfolio by adversely affecting the creditworthiness of those Borrowers and their capacity to repay the Receivables backing the Notes.

h) Not all the Receivables may benefit from Insurance Policies

As described in section 2.2.2.1.(k) and section 2.2.10 of the Additional Information, 79.97% of all Receivables benefit from insurance policies which cover any non-payment by the Borrowers under the Loans in the event of death, total permanent disability due to accident, temporary disability, unemployment or Guaranteed Auto Protection insurance (in particular, in the event of unemployment 23.6% of the Receivables are covered by insurance policies). Under the Master Receivables Sale and Purchase Agreement, the Seller assigns to the Issuer the Receivables and the related Ancillary Rights, which term includes any right or interest which the Seller may have in relation to the relevant Insurance Policy. Whether the Issuer will obtain the full benefit and right to enforce the Insurance Policies will depend upon whether such Insurance Policies permit assignment, whether the policies are in full force and effect, the nature of the rights and interest of the Seller under or in relation to such Insurance Policies and whether in practice the Issuer may obtain all relevant information about such policies as would be necessary to claim payment directly from the relevant insurer, assuming it is entitled to do so. For clarification purposes, all the relevant Insurance Policies permit their assignment to the Issuer.

In those cases where the insurance policy has not been financed (representing 12.42% of the Receivables included in the Preliminary Portfolio as described in section 2.2.2.1.(l) of the Additional Information) where any

insurance premia must be paid periodically by the Borrower to the insurers under such insurance policies, the Seller has committed to pay such premia on behalf of the Borrowers (irrespective of whether the Borrowers effectively pay it) until the Receivable is considered a Defaulted Purchased Receivable. There is however no certainty that BANCO CETELEM will continue to keep paying such premia on behalf of the Borrowers at all times in the future, so that they remain at all times in full force and effect, or that any claims to insurance proceeds have or will be validly assigned to the Issuer or will in practice be available to the Issuer.

Therefore not all Receivables benefit from insurance policies and, in addition, for those Receivables corresponding to Loans for which such insurance exists, it may not be guaranteed in all cases that the Fund, upon default by the Borrower, may effectively benefit from such insurance given the circumstances described above.

i) Ratio of loan amount to value of financed vehicle

As shown in section 2.2.2.1.(n) of the Additional Information, 23.37% of the Receivables of the Preliminary Portfolio have been granted for an amount greater than 100% of value of the financed Vehicle. In particular, this is due to the financing of the premium insurance by the Seller and relating to the existing Insurance Policies corresponding to such Initial Receivables which, as of the Issuer Incorporation Date, represent 6.71% of the aggregate Outstanding Principal Balance of the Initial Receivables. Additionally, as indicated in section 1.1.f) above, the depreciation of the value of a Vehicle is significant from the time said Vehicle leaves the concessionary. Consequently, if the relevant Borrower defaults on the repayment of any of those loans, it cannot be ruled out that the amount resulting from the financed Vehicle will be insufficient to cover the amount in default and, therefore, this may impact on the ability of the Fund to repay the Notes.

1.2. Related to the nature of the Securities

a) Subordination Risk

During the Normal Redemption Period and for so long as no Sequential Redemption Event has occurred all Classes of Notes will be redeemed on a pro rata basis on each Payment Date in accordance with the Principal Priority of Payments.

After the occurrence of a Sequential Redemption Event (as described in section 4.6.3.1 of the Securities Note) during the Normal Redemption Period, payments of principal in respect of the Notes will be made in sequential order at all times on each Payment Date, and therefore, Class A Notes, Class B Notes, Class C Notes, Class D Notes, Class E Notes, Class F Notes and Class G Notes will be redeemed sequentially in accordance with the Principal Priority of Payments.

Junior ranking Classes of Notes will be subordinated to more senior Classes of Notes, thereby ensuring that available funds are applied to more senior Classes of Notes in priority to more junior Classes of Notes. The existence of such subordination may lead to higher volatility of payment, interruption of payment, and ultimately sustaining losses in certain Notes, over and above those of comparably more senior Notes.

As a result:

- The Class A Notes benefit from credit enhancement of 21.00% in the form of subordination of the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, the Class F Notes and the Class G Notes.
- The Class B Notes benefit from credit enhancement of 15.50% in the form of subordination of the Class C Notes, the Class D Notes, the Class E Notes, the Class F Notes and the Class G Notes.
- The Class C Notes benefit from credit enhancement of 10.50% in the form of subordination of the Class D Notes, the Class E Notes, the Class F Notes and the Class G Notes.

- The Class D Notes benefit from credit enhancement of 6.50% in the form of subordination of the Class E Notes, the Class F Notes and the Class G Notes.
- The Class E Notes benefit from credit enhancement of 3.50% in the form of subordination of the Class F Notes and the Class G Notes.
- The Class F Notes benefit from the credit enhancement of 1.50% in the form of subordination of the Class G Notes.

As provided for on the assumptions under section 4.10 of the Securities Note, a Sequential Redemption Event or a Revolving Period Termination Event will not occur, and therefore, the Revolving Period will finish on the Revolving Period End Date (*i.e.*, 27 June 2022) (excluded).

Based on these assumptions, (i) Class A Notes shall redeem from 25 July 2022; and (ii) Class B Notes shall redeem from 25 July 2022; Class C Notes shall redeem from 25 July 2022; Class D Notes shall redeem from 25 July 2022; Class E Notes shall redeem from 25 July 2022; Class F Notes shall redeem from 25 July 2022; and Class G Notes shall redeem from 25 July 2022.

There is no certainty that these subordination rules shall protect any Class of Notes from the risk of loss.

b) Extraordinary subordination of Notes interest

On any given Payment Date during the Revolving Period or the Normal Redemption Period, interest on any Class of Notes other than the Most Senior Class of Notes may be extraordinarily subordinated by altering the order of priority within the Interest Priority of Payments, in which such interest shall be paid subject to the following conditions:

To the extent that (i) no prior Accelerated Redemption Event has occurred, (ii) the Class B Notes are not the Most Senior Class of Notes and (iii) the debit balance to the Class B Principal Deficiency Sub-Ledger corresponding to such Class of Notes (before the distribution of any amounts according to the Interest Priority of Payments on such Payment Date) is equal to or exceeding 25 per cent. of the Principal Amount Outstanding of the Class B Notes, the interest on the Class B Notes will not then fall due at item (6) of the Interest Priority of Payments but will instead be paid at item (18) of the Interest Priority of Payments. Any such interest subordination will not constitute an Issuer Event of Default.

To the extent that (i) no prior Accelerated Redemption Event has occurred, (ii) the Class C Notes are not the Most Senior Class of Notes, and (iii) the debit balance to the Class C Principal Deficiency Sub-Ledger corresponding to such Class of Notes (before the distribution of any amounts according to the Interest Priority of Payments on such Payment Date) is equal to or exceeding 25 per cent of the Principal Amount Outstanding of the Class C Notes, the interest on the Class C Notes will not then fall due at item (8) of the Interest Priority of Payments but will instead be paid at item (19) of the Interest Priority of Payments. Any such interest subordination will not constitute an Issuer Event of Default.

To the extent that (i) no prior Accelerated Redemption Event has occurred, (ii) the Class D Notes are not the Most Senior Class of Notes, and (iii) the debit balance to the Class D Principal Deficiency Sub-Ledger corresponding to such Class of Notes (before the distribution of any amounts according to the Interest Priority of Payments on such Payment Date) is equal to or exceeding 25 per cent. of the Principal Amount Outstanding of the Class D Notes, the interest on the Class D Notes will not then fall due at item (10) of the Interest Priority of Payments but will instead be paid at item (20) of the Interest Priority of Payments. Any such interest subordination will not constitute an Issuer Event of Default.

To the extent that (i) no prior Accelerated Redemption Event has occurred, (ii) the Class E Notes are not the Most Senior Class of Notes, and (iii) the debit balance to the Class E Principal Deficiency Sub-Ledger corresponding to such Class of Notes (before the distribution of any amounts according to the Interest Priority of Payments on such Payment Date) is equal to or exceeding 25 per cent. of the Principal Amount Outstanding

of the Class E Notes, the interest on the Class E Notes will not then fall due at item (12) of the Interest Priority of Payments but will instead be paid at item (21) of the Interest Priority of Payments. Any such interest subordination will not constitute an Issuer Event of Default.

To the extent that (i) no prior Accelerated Redemption Event has occurred, (ii) the Class F Notes are not the Most Senior Class of Notes, and (iii) the debit balance to the Class F Principal Deficiency Sub-Ledger corresponding to such Class of Notes (before the distribution of any amounts according to the Interest Priority of Payments on such Payment Date) is equal to or exceeding 25 per cent of the Principal Amount Outstanding of the Class F Notes, the interest on the Class F Notes will not then fall due at item (14) of the Interest Priority of Payments but will instead be paid at item (22) of the Interest Priority of Payments. Any such interest subordination will not constitute an Issuer Event of Default.

To the extent that (i) no prior Accelerated Redemption Event has occurred, (ii) the Class G Notes are not the Most Senior Class of Notes, and (iii) the debit balance to the Class G Principal Deficiency Sub-Ledger corresponding to such Class of Notes (before the distribution of any amounts according to the Interest Priority of Payments on such Payment Date) exceeds 0.00 per cent of the Principal Amount Outstanding of the Class G Notes, the interest on the Class G Notes will not then fall due at item (16) of the Interest Priority of Payments but will instead be paid at item (23) of the Interest Priority of Payments. Any such interest subordination will not constitute an Issuer Event of Default.

In addition, any failure to pay interest on the Most Senior Class of Notes when the same becomes due and payable shall (subject to the delivery to the Management Company of a Notes Acceleration Notice) constitute an Issuer Event of Default under the Notes which shall trigger the end of the Revolving Period or the Normal Redemption Period (as the case may be) and the commencement of the Accelerated Redemption Period.

All of the above circumstances may alter the timing and the amount of cash flows ultimately received by investors under the Notes.

c) Notes euroeligibility risk

It is intended that the Class A Notes will constitute eligible collateral for Eurosystem monetary policy operations.

No assurance can be given that the Class A Notes will be recognised as eligible collateral to the Eurosystem monetary policy operations either upon issuance or at any or all times until the Final Maturity Date. Such recognition will, inter alia, depend upon the European Central Bank being satisfied that the Eurosystem eligibility criteria set out in the European Central Bank Guideline (ECB/2015/510) of 19 December 2014 (as amended) have been met. Such criteria may be amended by the European Central Bank from time to time or new criteria may be added and such amendments or additions may render the Class A Notes non eligible to the Eurosystem monetary policy and intra-day credit operations, as no grandfathering would be guaranteed. If the new requirements are not met, this may cause the Class A Notes to be non-eligible to the Eurosystem monetary policy operations.

None of the Lead Manager, or any of the Transaction Parties nor any of their respective affiliates nor any other parties gives any representation, warranty, confirmation or guarantee to any investor in the Class A Notes that the Class A Notes will, either upon issue, or at all times before the redemption in full, satisfy all requirements for Eurosystem eligibility and be recognised as Eurosystem collateral. Any potential investor in the Class A Notes should make their own conclusions and seek their own advice with respect to whether or not the Class A Notes constitute Eurosystem eligible collateral.

d) Yield and duration risk

Several calculations, such as the average yield, duration and final maturity of the Notes in each Class contained in section 4.10 of the Securities Note are subject to several hypothesis, inter alia, estimates of prepayment rates and delinquency rates that may not be fulfilled.

Those calculations are influenced by several economic and social factors such as market interest rates, the Borrowers' financial circumstances and the general level of economic activity, preventing their predictability. In addition, these calculations may be affected by the Covid-19 outbreak as outlined in section 1.1.b) above.

No guarantee can be given as to the level of prepayments (in part or in full) that the Receivables may experience. Early repayment of the Receivables in rates higher than expected will cause the Issuer to make payments of principal on the Notes earlier than expected and will shorten the maturity of such Notes.

e) Interest Rate Risk

The Receivables comprised in the Preliminary Portfolio include and will include fixed interest payments calculated at interest rates and periods, which are different from the floating interest rates and periods applicable to the interest due in respect of the Class A to Class F Notes, and which are also different from the fixed interest rates and periods applicable to the interest due in respect of the Class G. The weighted average interest rate of the Class A to Class F Notes is 0.287% (assuming an EURIBOR 1 month of -0.555% published on 17 June 2021), the weighted average differential is 0.842% and the weighted average interest of the Initial Receivables is 7.15%, as described in section 2.2.2.1.(e) of the Additional Information.

The Issuer expects to meet its floating rate payment obligations under the Class A Notes to the Class F Notes primarily with the payments relating to the collections. However, the interest component in respect of such payments may have no correlation to the EURIBOR rate from time to time applicable in respect of the Class A Notes to the Class F Notes.

To protect the Issuer from a situation where EURIBOR increases to such an extent that collections are not sufficient to cover the Fund's obligations under the Class A Notes to the Class F Notes, the Fund shall enter into the Interest Rate Swap Agreements with the Swap Counterparty. In addition, the Issuer shall enter into a Swap Guarantee, whereby the Swap Guarantor (i) has agreed to guarantee to the Issuer by way of continuing guarantee the due and punctual payment of all amounts payable by any Swap Counterparty in respect of the relevant Interest Rate Swap Agreement as and when the same shall become due according to the relevant Interest Rate Swap Agreement; and (ii) has agreed that, if and each time the relevant Swap Counterparty fails to make any payments and/or deliveries when payable or, as the case may be, deliverable under the relevant Interest Rate Swap Agreement, the Swap Guarantor must immediately pay to the Issuer the amounts in the currency in which the amounts are payable by the relevant Swap Counterparty or, as the case may be, make delivery of the relevant property.

The Issuer is exposed to the risk that the Swap Counterparty and/or the Swap Guarantor may become insolvent. If the Swap Counterparty and/or the Swap Guarantor fail to provide the Issuer with any amount due from any of them under an Interest Rate Swap Agreement and/or the Swap Guarantee on any Payment Date or if an Interest Rate Swap Agreement is otherwise terminated, the Issuer may have insufficient funds to make payments due on the Class A Notes (with respect to the Class A Interest Rate Swap Agreement) or the Class B Notes (with respect to the Class B Interest Rate Swap Agreement), or the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes (with respect to the Class C/D/E/F Interest Rate Swap Agreement).

In the event that the Swap Counterparty suffers a rating downgrade below the Swap Required Ratings, the Issuer may terminate the Interest Rate Swap Agreements if (i) the Swap Guarantor does not meet the Swap Required Ratings, and (ii) the Interest Rate Swap Counterparty fails, within a set period of time, to take certain actions intended to mitigate the effects of such downgrade. Such actions may include to transfer the Interest Rate Swap Agreements to another entity having at least the Swap Required Ratings. However, there can be no assurance that a replacement swap counterparty will be found.

In the event that the Interest Rate Swap Agreements are terminated by either party or the Swap Guarantor becomes insolvent, the Issuer will endeavour but may not be able to enter into replacement interest rate swap agreements and/or swap guarantee with a replacement interest rate swap counterparty and/or a replacement swap guarantor, as applicable, immediately or at a later date. In these circumstances, the Available Distribution Amount may be insufficient to make the required payments on the Floating Rate Notes and the holders of any

Class of Floating Rate Notes may experience delays and/or reductions in the interest and principal payments on the Floating Rate Notes to be received by them. In addition, a failure to enter into replacement interest rate swap agreements or replacement swap guarantee may result in the reduction, qualification or withdrawal of the then current ratings of the Notes by the Rating Agencies.

If the Interest Rate Swap Agreements are terminated early, the Issuer may be obliged to pay a termination payment to the Interest Rate Swap Counterparty which may rank in priority to payments due on the Notes. Any additional amounts required to be paid by the Issuer as a result of the termination of the Interest Rate Swap Agreement (including any extra costs incurred if the Fund cannot immediately enter into one or more, as appropriate, replacement swap agreements), may also rank in priority to payments due on the Notes. Therefore, if the Issuer is obliged to make a termination payment to the Interest Rate Swap Counterparty or to pay any other additional amount as a result of the termination of the Interest Rate Swap Agreement, this may affect the funds which the Fund has available to make payments on the Notes. For further details, see sections 3.4.7.4 and 3.4.8.1 of the Additional Information.

f) Negative Class A Notes Internal Rate of Return

Since the subscription price of the Class A Notes is above par, the “Internal Rate of Return” (IRR) of the Class A Notes, which refers to the rate of return that makes the net present value of all cash flows (both positive and negative) from the investment in the Class A Notes, as of the date of this Prospectus, is negative as detailed in section 4.10 of the Securities Note.

2. RISKS DERIVED FROM THE ISSUER’S LEGAL NATURE AND OPERATIONS

2.1. Risk related to the Issuer’s nature, financial situation or activity

a) Forced replacement of the Management Company

If the Management Company is declared insolvent or its authorisation to operate as a management company of securitisation of funds is revoked, notwithstanding the effects of such insolvency as described under section 3.7.1.2 of the Additional Information, the Management Company shall find a substitute management company.

In such event, if four months elapse from the occurrence determining the substitution and no new management company has been found willing to take over management, the Issuer shall be liquidated early and the Notes issued by the same shall be amortised early, as provided for in the Deed of Incorporation and in section 4.4.3.1 of the Registration Document of this Prospectus.

b) Limitation of actions

Noteholders and all other creditors of the Issuer shall have no recourse whatsoever against Borrowers who have defaulted on their payment obligations or against BANCO CETELEM. Any such rights shall lie with the Management Company, representing the Issuer, without prejudice to the instructions that can be given to the Management Company by virtue of a resolution of the Meeting of Creditors, as detailed in section 4.11 of the Securities Note.

Noteholders and all other creditors of the Issuer shall have no recourse whatsoever against the Issuer or against the Management Company in the event of non-payment of amounts due by the Issuer resulting from the existence of Receivable default or Prepayments, a breach by the Originator of its obligations or by the counterparties to the transactions entered into for and on behalf of the Issuer, or shortfall of the financial hedging transactions for servicing the Notes in each Class.

Noteholders and all other creditors of the Issuer shall have no recourse whatsoever against the Management Company other than as derives from breaches of its obligations or failure to comply with the provisions of this

Prospectus, the Deed of Incorporation and the other transaction agreements. Those actions shall be resolved in the relevant ordinary declaratory proceedings depending on the amount claimed.

2.2. Risk related to legal and regulatory risks

a) EU Securitisation Regulation: simple, transparent and standardised securitisation

On 12 December 2017, the European Parliament adopted Regulation (EU) 2017/2402 of the European Parliament and of the Council of 12 December 2017 laying down a general framework for securitisation and creating a specific framework for simple, transparent and standardised securitisation, and amending Directives 2009/65/EC, 2009/138/EC and 2011/61/EU and Regulations (EC) No 1060/2009 and (EU) No 648/2012 (as amended, the “**EU Securitisation Regulation**”) which applies to the fullest extent to the Notes.

The transaction envisaged under this Prospectus is intended to qualify as a simple, transparent and standardised securitisation (“**STS-Securitisation**”) within the meaning of article 18 of the EU Securitisation Regulation. Consequently, the transaction meets, as at the date of this Prospectus, the requirements of articles 19 to 22 of the EU Securitisation Regulation and, on or about the Date of Incorporation, the Originator will submit a STS notification to ESMA in order to include such transaction in the list published by ESMA within the meaning of article 27(5) of the EU Securitisation Regulation.

For these purposes, the Seller has used the service of Prime Collateralised Securities (EU) SAS (“**PCS**”), as a verification agent authorised under article 28 of the EU Securitisation Regulation, in connection with an assessment of the compliance with the requirements of articles 19 to 22 of the EU Securitisation Regulation (the “**STS Verification**”). It is important to note that the involvement of PCS as an authorised verification agent is not mandatory and the responsibility for compliance with the EU Securitisation Regulation remains with the relevant institutional investors, originators and issuers, as applicable in each case. The STS Verification will not absolve such entities from making their own assessments with respect to the EU Securitisation Regulation, and the STS Verification cannot be relied on to determine compliance with the foregoing regulations in the absence of such assessments by the relevant entities.

No assurance can be provided that the securitisation transaction described in this Prospectus will receive the STS Verification by PCS (either before issuance or at any time thereafter), and if the securitisation transaction described in this Prospectus does not receive the STS Verification, this shall not, under any circumstances, affect the liability of the Originator and the Fund in respect of their legal obligations under the EU Securitisation Regulation, nor shall it affect the obligations imposed on institutional investors as set out in article 5 of the EU Securitisation Regulation.

None of the Issuer, the Reporting Entity, the Sole Arranger, the Lead Manager, or any other party to the Transaction Documents makes any representation or accepts any liability for the Securitisation to qualify after its notification to ESMA as an STS-Securitisation under the EU Securitisation Regulation.

Non-compliance with the status of an STS-Securitisation may result in higher capital requirements for investors, as well as in various administrative sanctions and/or remedial measures being imposed on the Issuer or the Seller. Any of such administrative sanctions and/or remedial measures may affect the ability of the Issuer to fulfil its payment obligations under the Notes.

b) Risk relating to benchmarks

Class A Notes, Class B Notes, Class C Notes, Class D Notes, Class E Notes, and Class F Notes, and the Interest Rate Swap Agreements are referenced to the EURIBOR, which calculation and determination are subject from 1 January of 2018 to Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the “**Benchmark Regulation**”) which entered into force on 30 June 2016. The Benchmark Regulation applies to “contributors”, “administrators” and “users of” benchmarks (such as Euribor and Libor) in the EU, and, among other things, (i) requires benchmark administrators to be authorised (or, if non-

EU-based, to be subject to an equivalent regulatory regime) and to comply with extensive requirements in relation to the administration of "benchmarks" and (ii) ban the use of benchmarks of unauthorised administrators.

It is not possible to ascertain as at the date of this Prospectus what will be the impact of these initiatives on the determination of EURIBOR in the future, how such changes may impact the determination of EURIBOR for the purposes of the Floating Rate Notes and the Interest Rate Swap Agreements, whether this will result in an increase or decrease in EURIBOR rates or whether such changes will have an adverse impact on the liquidity or the market value of the Floating Rate Notes. Ongoing international and/or national reform initiatives and the increased regulatory scrutiny of benchmarks generally could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any applicable regulations or requirements. Such factors may discourage market participants from continuing to administer or contribute to benchmarks, trigger changes in the rules or methodologies used in respect of benchmarks, and/or lead to the disappearance of benchmarks.

As provided in section 4.8.4 of the Securities Notes, changes in the manner of administration of EURIBOR could result in the base rate on the Floating Rate Notes and the Interest Rate Swap Agreements changing from EURIBOR to an Alternative Base Rate under certain circumstances broadly related to EURIBOR dysfunction or discontinuation. This Alternative Base Rate will be proposed by the Rate Determination Agent and subject to certain conditions being satisfied it will be implemented in substitution of EURIBOR or the then current Reference Rate, as the new Reference Rate applicable of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, the Class F Notes and the Interest Rate Swap Agreements, unless Noteholders representing at least ten (10) per cent. of the Principal Amount Outstanding of the Most Senior Class of Notes do not consent to the Base Rate Modification. If such circumstance arises, then the proposed Base Rate Modification will not be made (unless as indicated under section 4.8.4 of the Securities Note an Ordinary Resolution is passed in favour of such proposed Based Rate Modification in accordance with section 4.11 of the Securities Note (Meeting of Creditors)) and therefore, as set out in paragraph (h) of section 4.8.4 of the Securities Note, the Reference Rate applicable to the Floating Rate Notes and the Interest Rate Swap Agreement will be equal to the last Reference Rate available on the relevant applicable screen rate pursuant to section 4.8.4 of the Securities Notes (paragraph (viii)).

Any the above changes could have a material adverse effect on the value of and return on any such Floating Rate Notes and shall apply to the Interest Rate Swap Agreements for the purpose of aligning the base rate of the Interest Rate Swap Agreements to the Reference Rate of the Class A, Class B, Class C, Class D, Class E and Class F Notes following these changes, unless the Swap Counterparty decides to early terminate the Interest Rate Swaps Agreements as a consequence of a Base Rate Modification in accordance with the Interest Rate Swap Agreement, as provided in section 3.4.2.6.8 (iv) of the Additional Information.

Prospective Noteholders should consult their own independent advisers and make their own assessment about the potential risks imposed by the Benchmarks Regulation reforms in making any investment decision with respect to any Floating Rate Notes referencing a "benchmark".

4.4.1. Date of incorporation of the Issuer

It is expected that the Management Company and BANCO CETELEM will proceed to execute on 23 June 2021 a public deed whereby AUTONORIA SPAIN 2021, FONDO DE TITULIZACIÓN will be incorporated and the Issuer will issue the Notes (the **"Deed of Incorporation"**). As provided for in Article 24 of Law 5/2015, the Deed of Incorporation may be amended, upon request by the Management Company and subject to the requirements established in that article, including without limitation, the consent of all Noteholders and other creditors (excluding non-financial creditors). Once CNMV verifies the compliance of the legal requirements for the amendment of the Deed of Incorporation, the Management Company will execute the relevant deed of amendment and file an authorised copy with CNMV for incorporation into the relevant public register. The amendment of the Deed of Incorporation will be communicated by the Management Company to the Rating Agencies and published by the Management Company in accordance with the provisions set forth in sections 4.2.2 and 4.2.3 of the Additional Information.

The Deed of Incorporation of the Fund may also be amended at the request of CNMV.

4.4.2. Period of activity of the Issuer

The Issuer shall commence its operations on Issuer Incorporation Date.

The Issuer shall be in existence until 31 January 2039 or the following Business Day if that is not a Business Day (the **"Final Maturity Date"**), other than in the event of Early Liquidation of the Issuer before then as set forth in section 4.4.3 of this Registration Document or if any of the events laid down in section 4.4.4 hereof should occur.

4.4.3. Early Liquidation of the Issuer

The Management Company will proceed to carry out the early liquidation of the Issuer (i.e. before the Final Maturity Date or before the Payment Date on which the last outstanding Purchased Receivable is extinguished or written-off) (the **"Early Liquidation"**) on the Payment Date on which the Issuer transfers to (x) the Seller or (y) to any other third parties, as the case may be, all outstanding Purchased Receivables and other existing assets in a single transaction following the occurrence of an Issuer Mandatory Early Liquidation Event or an Issuer Optional Early Liquidation Event as described below (the **"Issuer Liquidation Date"**).

4.4.3.1. Mandatory early liquidation of the Issuer

The Management Company shall carry out the Early Liquidation of the Issuer and thereupon an early redemption of the Notes according to the Accelerated Priority of Payments ("**Early Amortisation**") upon the terms set forth below, in any of the following instances (the "**Issuer Mandatory Early Liquidation Events**"):

1. if as stated in Article 33 of Law 5/2015, four (4) months have elapsed since the occurrence of an event giving rise to the mandatory replacement of the Management Company due to a declaration of insolvency thereof, or in the event of revocation of the authorisation thereof, in either case without a new management company having been found that is prepared to take over management of the Issuer and that is appointed pursuant to section 3.7.1 of the Additional Information; or
2. six (6) months prior to the Final Maturity Date; or
3. when the Management Company has the consent and the express acceptance of the Noteholders as provided for in the Meeting of Creditors, in relation to the payment of the amounts related to the Early Liquidation and the procedure to carry out such Early Liquidation of the Issuer.

Following the occurrence of an Issuer Mandatory Early Liquidation Event (such circumstance constituting an Accelerated Redemption Event) and once CNMV, the Rating Agencies and the Noteholders have been informed in the manner set out in section 4 of the Additional Information, the Management Company will proceed to liquidate the Issuer, and for such purposes shall sell the Receivables at the Portfolio Liquidation Price in accordance with the procedure set forth in section 4.4.3.3 below.

For clarification purposes, notwithstanding the possibility that the Portfolio Liquidation Price as it is determined in section 4.4.3.3 below, together with any other Available Distribution Amount (which for clarification purposes exclude the Liquidity Reserve balance) might not enable the Issuer to redeem in full all outstanding Notes in accordance with the Accelerated Priority of Payments, such circumstance will not prevent the Issuer from carrying out the transfer of all Receivables and their Ancillary Rights at such price.

Upon completion of the sale, the Management Company will deliver an Issuer Liquidation Notice, which will cause the Issuer to redeem the Notes in accordance with the Accelerated Priority of Payments on and from the Payment Date immediately after the Settlement Date on which such Portfolio Liquidation Price has been paid to the Issuer.

4.4.3.2. Optional early liquidation of the Issuer

The Management Company shall carry out the Early Liquidation of the Fund and thereupon an Early Redemption of the Notes according to the Accelerated Priority of Payments upon the terms set forth below, in any of the following instances (the "**Issuer Optional Early Liquidation Events**"):

- 1) when the aggregate Outstanding Principal Balance of the Receivables is lower than ten (10) per cent. of the maximum aggregate Outstanding Principal Balance of the Receivables as of the Issuer Incorporation Date, and the Seller requests the liquidation of the Issuer by delivering to the Management Company a Clean-up Call Notice; or

- 2) **Regulatory Change Event:**

If a Regulatory Change Event has occurred, then the Seller will deliver a Regulatory Change Event Notice and the Management Company, following the instructions received from the Seller, and subject to the fulfillment of conditions under section 4.4.3.3 below, will deliver an Issuer Liquidation Offer to the Seller, which provided nothing extraordinary has occurred must be accepted by the Seller.

"**Regulatory Change Event**" means: (a) a change that is on or after the Issuer Incorporation Date applicable to the Seller and which has the effect of materially adversely affecting the regulatory capital treatment pursuant to Article 244(2) of the CRR made by the Seller of the transactions described in

this Prospectus; or (b) a change in or the adoption of any new law, rule, direction, guidance or regulation which requires the manner in which the Seller is retaining a material net economic interest of not less than five (5) per cent. in the securitisation described in this Prospectus (the “**Retained Exposures**”) to be restructured after the Disbursement Date or which would otherwise result in the manner in which the Retained Exposures to become non-compliant in relation to the Seller or which would otherwise have an adverse effect on the ability of the Seller to comply with the EU Risk Retention Requirements.

3) **Note Tax Event:**

If a Note Tax Event has occurred, then the Management Company will deliver a Note Tax Event Notice and if the Seller has consequently elected to liquidate the Issuer then the Management Company, following the instructions received from the Seller, and subject to the fulfillment of conditions under section 4.4.3.3 below, will deliver an Issuer Liquidation Offer to the Seller, which provided nothing extraordinary has occurred must be accepted by the Seller.

“**Note Tax Event**” means, if, by reason of a change in Spanish tax law or regulation (or the application or official interpretation thereof), which change becomes effective on or after the Issuer Incorporation Date, on the next Payment Date, the Issuer or the Paying Agent would be required to deduct or withhold from any payment of principal or interest on any Class of the Notes any amount for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by Spain or any other tax authority outside Spain to which the Issuer becomes subject in respect of payments made by it of principal and interest on the Notes.

The Management Company will proceed to liquidate the Issuer following the occurrence of an Issuer Optional Early Liquidation Event (such circumstance constituting an Accelerated Redemption Event), once CNMV, the Rating Agencies and the Noteholders have been informed in the manner set out in section 4 of the Additional Information. If an Issuer Optional Early Liquidation Event has occurred, the Management Company having been instructed to do so by the Seller, and subject to the fulfilment of conditions under section 4.4.3.3 below, will deliver an Issuer Liquidation Offer to the Seller (or any entity affiliate to the Seller, including those belonging to BNPP group), which provided nothing extraordinary has occurred must be accepted by the Seller (or any entity affiliate to the Seller, including those belonging to BNPP group). Upon acceptance by the Seller, the Management Company will deliver an Issuer Liquidation Notice, which will cause the Issuer to redeem all of the Notes at their then respective Principal Amount Outstanding (together with interest accrued and unpaid thereon) on and from the Payment Date immediately after the Settlement Date on which such Aggregate Securitised Portfolio Liquidation Price has been paid to the Fund. If for any reason whatsoever the Seller does not accept the Issuer Liquidation Offer, no further offer by the Management Company will be delivered to the Seller nor any other third parties, and the proposed Issuer liquidation will not take place.

For clarification purposes and according to paragraph (iii) under section 4.4.3.3. below, if the Aggregate Securitised Portfolio Liquidation Price together with any other Available Distribution Amounts (which for clarification purposes exclude the Liquidity Reserve balance) do not enable the Issuer to redeem in full all outstanding Notes in accordance with the Accelerated Priority of Payments, then no Issuer Liquidation Offer to the Seller will be delivered by the Management Company, and consequently the transfer of all Receivables and their Ancillary Rights shall not take place and the Issuer shall not be liquidated, and no Issuer Optional Early Liquidation Event shall be deemed to have occurred.

4.4.3.3. Final retransfer and sale of all Receivables by the Issuer after the occurrence of an Issuer Mandatory Early Liquidation Event or an Issuer Optional Early Liquidation Event

Issuer Mandatory Early Liquidation Event

If an Issuer Mandatory Early Liquidation Event has occurred, an Issuer Liquidation Offer shall be delivered by the Management Company to the Seller within a maximum period of thirty (30) Business Days requesting a bid for the acquisition of the Receivables.

The Seller will have a period of five (5) Business Days from the date on which it received the relevant Issuer Liquidation Offer from the Management Company to communicate its decision to acquire the Receivables specifying a proposed acquisition price.

If the Seller does not accept to acquire the Receivables or, if accepting to acquire them, its bid is not sufficient to fully redeem all Notes, then the Management Company shall request binding bids from, at least, three (3) entities, at its sole discretion, among entities that are active in the purchase and sale of similar assets, and obtain any appraisal report it deems necessary from third party entities in order to assess the value of the Receivables. Then the Management Company shall accept the highest bid received for the Receivables (including for such purpose the bid which the Seller might have submitted) (the “**Portfolio Liquidation Price**”).

The above procedure does not entitle the automatic liquidation of the underlying receivables for the purposes of Article 21.4 of the EU Securitisation Regulation.

Issuer Optional Early Liquidation Event

As stated under section 4.4.3.2 above, provided that an Issuer Optional Early Liquidation Event has occurred, an Issuer Liquidation Offer shall be delivered by the Management Company, on behalf of the Issuer, to the Seller, provided that:

- (i) no Issuer Liquidation Offer may be delivered in the event that the Issuer has not received from the Servicer all of information specified in the Servicing Report; and
- (ii) no Issuer Liquidation Offer may be delivered in case of an Issuer Optional Early Liquidation Event, if the Aggregate Securitised Portfolio Liquidation Price together with any Issuer Available Cash (excluding the Liquidity Reserve balance) does not enable the Issuer to redeem in full all outstanding Notes in accordance with the Accelerated Priority of Payments.

For clarification purposes the “**Aggregate Securitised Portfolio Liquidation Price**” means at any time an amount equal to:

- (i) Par Value of the Performing Purchased Receivable at the end of the immediately preceding Calculation Period, plus
- (ii) for Delinquent Purchased Receivable and Defaulted Purchased Receivable, Par Value less any Seller’s IFRS 9 Provisioned Amount allocated with respect to such Receivable matching its book value on the Seller’s balance sheet at the Calculation Date immediately preceding the relevant Payment Date.

“**Par Value**” means at any time the Outstanding Balance of the Receivables together with all accrued but unpaid amounts thereon at the Calculation Date immediately preceding the relevant Payment Date.

In the context of an Issuer Optional Early Liquidation Event, the Issuer Liquidation Offer shall comply with the following requirements:

- i) be delivered on the next Collections Determination Date following the Information Date immediately preceding the second Payment Date which immediately follows the day on which the delivery of a Clean-up Call Notice, a Regulatory Change Event Notice or a Note Tax Event Notice;
- ii) specify a proposed Aggregate Securitised Portfolio Liquidation Price determined on the basis of the information set out in the Servicing Report delivered by the Servicer to the Issuer on the Information Date immediately preceding the date on which such Issuer Liquidation Offer must be delivered;
- iii) if accepted by the Seller (or any entity affiliate to the Seller, including those belonging to BNPP group), the Issuer Liquidation Offer will become effective as of the Calculation Date that served as basis for

the calculation of the Issuer Liquidation Offer. The Seller (or any entity affiliate to the Seller, including those belonging to BNPP group) will have to pay the Aggregate Securitised Portfolio Liquidation Price on or prior the next immediate Settlement Date, less the amount of any collections of principal received by the Issuer after the Calculation Date and up to such Settlement Date.

If for any reason whatsoever the Seller (or any entity affiliate to the Seller, including those belonging to BNPP group) does not accept the Issuer Liquidation Offer, no further offer by the Management Company will be delivered to the Seller nor any other third parties, and the proposed Issuer liquidation will not take place.

The above procedure does not entitle the automatic liquidation of the underlying receivables for the purposes of Article 21.4 of the EU Securitisation Regulation.

4.4.4. Termination of the Issuer

The Issuer shall terminate in any case, and after the relevant procedure is carried out and concluded according to section 4.4.5 below, as a consequence of the liquidation of the Issuer due to any of the following circumstances:

- (i) the Receivables pooled therein and any other assets and securities making up its assets have been fully repaid extinguished or written off, or all its liabilities have been paid in full; or
- (ii) when the Early Liquidation procedure in the context of a mandatory or optional early liquidation as established in section 4.4.3 above is over; or
- (iii) upon the Final Maturity Date (on 31 January 2039 or the following Business Day if that is not a Business Day); or
- (iv) if (i) the provisional credit ratings of the Notes are not confirmed as final (unless they are upgraded) by the Rating Agencies prior or on the Disbursement Date; or (ii) if the Notes Subscription Agreement is fully terminated in accordance with the provisions of section 4.2.3 of the Securities Note. In this event, the Management Company shall cancel the incorporation of the Issuer, the assignment to the Issuer of the Initial Receivables and the issuance of the Notes.

- The Early Redemption of all the Notes pursuant to section 4.4.3 above will be carried out for all outstanding amounts of the Notes on the date in question, plus accrued and unpaid interest from the last Payment Date to the date of Early Redemption provided there are enough Available Distribution Amounts, less any tax withholdings and free of expenses for the holder. All such amounts will, for all legal purposes, be deemed liquid, due and payable on the Early Redemption date.

- Once the Issuer has been liquidated and all scheduled payments have been made pursuant to the Accelerated Priority of Payments contemplated in section 3.4.7.5 of the Additional Information, if there is any remainder or any judicial or notary proceedings pending settlement as a result of non-payment by any Borrower, such remainder as well as the continuation and/or proceeds from such proceedings will be for the benefit of the Seller.
- In any case, the Management Company, acting on behalf of the Issuer, shall not extinguish the Issuer until it has liquidated the Receivables and any other remaining Issuer assets and distributed the Issuer's liquid assets, following the Accelerated Priority of Payments provided for in section 3.4.7.5 of the Additional Information.
- Prior to the Final Maturity Date, and (x) within the calendar year after the liquidation of the Receivables and any other remaining assets of the Issuer and the distribution of the Available Distribution Amounts, or (y) if the Management Company deems it appropriate, within the first three (3) months of the following year, the Management Company will execute a statement before a notary public to the following effect: (a) termination of the Issuer as well as the grounds contemplated in this Registration Document giving rise to such termination, (b) the means for notifying the Noteholders and the CNMV, and (c) the terms of distribution of the Available Distribution Amount from the Issuer following the Accelerated Priority of Payments provided for in section 3.4.7.5 of the Additional Information. In addition, the Issuer will comply with any such further administrative steps as may be applicable at that time. The Management Company will send such notarised statement to the CNMV.

Upon the occurrence of the grounds for termination set forth in section 4.4.4 (iv) above on or prior to the Disbursement Date, the Issuer as well as the issuance of the Notes and the contracts executed by the Management Company on behalf of the Issuer shall be terminated, except for the Start-Up Loan Agreement, out of which the incorporation and issue expenses incurred by the Issuer shall be paid. In the event of termination of the incorporation of the Issuer, and thus the assignment of the Receivables, the obligation of the Issuer to pay the price for the acquisition of the Receivables will be extinguished. Such termination shall be immediately reported to the CNMV, and upon the expiry of one (1) month after from the occurrence of the grounds for termination, the Management Company will execute before a notary public a deed (*acta*) that it will send to the CNMV, Iberclear, AIAF and the Rating Agencies, declaring the termination of the Issuer and the grounds therefor.

BANCO CETELEM shall receive no fee for subscribing for the Notes and shall pay the Issuer on the Disbursement Date (subject to any set-off against the Purchase Price of the Initial Receivables that the Issuer must pay BANCO CETELEM as Seller), for same value date, the total price of the Notes subscribed.

BNP PARIBAS, as the Lead Manager has agreed, on a best efforts basis and upon the satisfaction of certain conditions precedent, to procure subscription for and/or placement during the Subscription Period with qualified investors for the purposes of article 39 of Royal Decree 1310/2005, of the remaining part of Notes not subscribed by BANCO CETELEM at the Issuer Incorporation Date. Any such investors shall pay the total price of the Notes that they have subscribed on the Disbursement Date, for same value date.

BNP PARIBAS shall receive a fee for the placement of Notes with third party qualified investors which will be paid to it directly by the Seller. The obligations of the Lead Manager under the Notes Subscription Agreement is subject to the fulfilment of several conditions precedent, among others, the receipt by the Lead Manager and the Sole Arranger of a confirmation from the Management Company before the start of the Subscription Period that no adverse change, development or event in the condition (financial or otherwise), business, prospects, results of operations or general affairs of the Issuer and the Management Company since the date of the Notes Subscription Agreement which would be likely to prejudice materially the success of the offering and distribution of the Notes or dealing in the Notes in the secondary market or which is otherwise material in the context of the issue of the Notes and the entry into and performance of the Notes Subscription Agreement. Failure to fulfil such

conditions precedent prior to the start of the Subscription Period will cause the termination of the issuance of the Notes, and the termination of the Issuer as determined in section 4.4.4. (iv) of the Registration Document. As described in section 4.13.3 of the Securities Note, the Subscription Period will begin at 9:00 am CET on 24 June 2021 and will end on the same day at 11:00 am CET.

The Notes Subscription Agreement shall be fully terminated on or before the Disbursement Date, thereby causing the termination of the issuance of the Notes, and also the termination of the Issuer as determined in section 4.4.4. (iv) of the Registration Document, upon the occurrence of certain events, among others:

- (i) Breach of obligations: any Party (other than the Lead Manager) fails to perform any of its obligations under the Notes Subscription Agreement; in particular, in case that:
 - (a) Seller elects not to, or otherwise fails to, disburse the subscription price of the Notes which have been subscribed by him on the Issuer Incorporation Date; or
 - (b) Seller and/or BNP Paribas elect not to, or otherwise fail to, subscribe and disburse the subscription price of any remaining Notes (other than those subscribed by BANCO CETELEM on the Issuer Incorporation Date) that the Lead Manager has not procured subscription for by the end of the Subscription Period.
- (ii) Force Majeure: since the date of the Notes Subscription Agreement there has been, in the reasonable opinion of the Lead Manager in consultation with the Seller and the Management Company, an event that could not be foreseen or, even if foreseen, is inevitable rendering it impossible to perform the subscription or disbursement of the Notes or the success of the placement of the Notes pursuant to article 1,105 of the Civil Code (force majeure).

4.2.4. U.S. Risk Retention

Section 941 of the Dodd-Frank Act amended the Exchange Act to generally require the "securitizer" of a "securitization transaction" to retain at least 5 per cent. of the "credit risk" of "securitized assets", as such terms are defined for purposes of that statute, and generally prohibit a securitizer from directly or indirectly eliminating or reducing its credit exposure by hedging or otherwise transferring the credit risk that the securitizer is required to retain. Final rules implementing the Dodd-Frank Act came into effect on 24 December 2016 with respect to non-RMBS securitisations. The U.S. Risk Retention Rules provide that the securitizer of an asset backed securitisation is its sponsor. The U.S. Risk Retention Rules also provide for certain exemptions from the risk retention obligation that they generally impose.

The Seller, as the sponsor under the U.S. Risk Retention Rules, does not intend to retain at least 5 per cent. of the credit risk of the securitised assets for the purposes of the U.S. Risk Retention Rules and the issuance of the Notes was not designed to comply with the U.S. Risk Retention Rules.

The Seller intends to rely on an exemption provided for in Section 20 of the U.S. Risk Retention Rules regarding non-U.S. transactions. Such non-US transactions must meet certain requirements, including that (1) the transaction is not required to be and is not registered under the Securities Act; (2) no more than 10 per cent. of the dollar value (or equivalent amount in the currency in which the "ABS interests" (as defined in Section 2 of the U.S. Risk Retention Rules) are issued) of all classes of ABS interests issued in the securitisation transaction are sold or transferred to Risk Retention U.S. Persons or for the account or benefit of Risk Retention U.S. Persons; (3) neither the sponsor nor the issuer of the securitisation transaction is organised under U.S. law or is a branch located in the United States of a non-US entity; and (4) no more than 25 per cent. of the underlying collateral was acquired from a majority-owned affiliate or branch of the sponsor or issuer organised or located in the United States.

The Notes provide that they may not be purchased by Risk Retention U.S. Persons except with the express written consent of the Seller up to the 10 per cent. Risk Retention U.S. Person limitation under the exemption provided by Section 20 of the U.S. Risk Retention Rules. Prospective investors should note that the definition of "U.S. person" in the U.S. Risk Retention Rules is different from the definition of "U.S. person" under Regulation

S. The definition of U.S. person in the U.S. Risk Retention Rules is excerpted below. Particular attention should be paid to clauses (b) and (h), which are different from comparable provisions in Regulation S.

Prior to any Notes which are offered and sold by the Issuer being purchased by or transferred to, or for the account or benefit of, any Risk Retention U.S. Person, the purchaser of such Notes must first disclose to the Seller and the Lead Manager that it is a Risk Retention U.S. Person and obtain the written consent of the Seller in the form of a U.S. Risk Retention Consent. Prospective investors should note that the definition of "U.S. person" in the U.S. Risk Retention Rules is substantially similar, but not identical, to the definition of U.S. person under Regulation S and that an investor could be a Risk Retention U.S. Person but not a "U.S. person" under Regulation S.

The Aggregate Securitised Portfolio will be comprised of Purchased Receivables and certain Ancillary Rights under or in connection with the Loan Agreements, all of which are or will be originated by the Seller.

Under the U.S. Risk Retention Rules, and subject to limited exceptions, "U.S. person" (and "Risk Retention U.S. Person" in this Prospectus) means any of the following:

- (a) any natural person resident in the United States;
- (b) any partnership, corporation, limited liability company, or other organisation or entity organised or incorporated under the laws of any State or of the United States;
- (c) any estate of which any executor or administrator is a U.S. person (as defined under any other clause of this definition);
- (d) any trust of which any trustee is a U.S. person (as defined under any other clause of this definition);
- (e) any agency or branch of a foreign entity located in the United States;
- (f) any non-discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary for the benefit or account of a U.S. person (as defined under any other clause of this definition);
- (g) any discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary organised, incorporated, or (if an individual) resident in the United States; and
- (h) any partnership, corporation, limited liability company, or other organisation or entity if:
 - (i) organised or incorporated under the laws of any foreign jurisdiction; and
 - (ii) formed by a U.S. person (as defined under any other clause of this definition) principally for the purpose of investing in securities not registered under the Securities Act.

With respect to clause (b), the comparable provision from Regulation S is "(ii) any partnership or corporation organised or incorporated under the laws of the United States."

With respect to clause (h), the comparable provision from Regulation S is "(vii)(B) formed by a U.S. person principally for the purpose of investing in securities not registered under the Securities Act, unless it is organised or incorporated, and owned, by accredited investors (as defined in 17 CFR 230.501(a)) who are not natural persons, estates or trusts."

Consequently, the Notes may not be purchased by any person except for (a) persons that are not Risk Retention U.S. Persons or (b) persons that have obtained a U.S. Risk Retention Consent from the Seller where such purchase falls within the exemption provided by Section 20 of the U.S. Risk Retention Rules.

Each holder of a Note or a beneficial interest acquired in the initial distribution of the Notes, by its acquisition of a Note or a beneficial interest in a Note, will be required to represent and warrant to the Issuer, the Seller and the Arranger and Lead Manager that it (a)(i) is not a Risk Retention U.S. Person or (ii) it has obtained a U.S. Risk Retention Consent, (b) is acquiring such Note or a beneficial interest therein for its own account and not with a view to distribute such Note and (c) is not acquiring such Note or a beneficial interest therein as part of a scheme to evade the requirements of the U.S. Risk Retention Rules (including acquiring such Note through a non-Risk Retention U.S. Person, rather than a Risk Retention U.S. Person, as part of a scheme to evade the 10 per cent. Risk Retention U.S. Person limitation in the exemption provided for in Section 20 of the U.S. Risk Retention Rules described herein).

The Seller has advised the Issuer that it will not provide a U.S. Risk Retention Consent to any investor if such investor's purchase would result in more than 10 per cent. of the dollar value (or equivalent amount in the currency in which the securities are issued) (as determined by fair value under US GAAP) of all Classes of Notes to be sold or transferred to Risk Retention U.S. Persons on the Issue Date. The Seller is under no obligation to provide a U.S. Risk Retention Consent under any circumstances.

There can be no assurance that Risk Retention U.S. Persons will comply with the requirement to disclose their status.

There can be no assurance that the exemption provided for in Section 20 of the U.S. Risk Retention Rules regarding non-U.S. transactions will be available. Failure by the Seller to comply with the U.S. Risk Retention Rules (regardless of the reason for such failure to comply) may give rise to regulatory action which may adversely affect the Notes or their market value. Furthermore, the impact of the U.S. Risk Retention Rules on the securitization market generally is uncertain, and a failure on the part of the Seller to comply with the U.S. Risk Retention Rules (regardless of the reason for such failure to comply) could give rise to regulatory action against the Seller which may adversely affect the Notes and the ability of the Seller to perform its obligations under the Transaction Documents. Furthermore, a failure by the Seller to comply with the U.S. Risk Retention Rules could negatively affect the value and secondary market liquidity of the Notes.

The Lead Manager will fully rely on representations made by potential investors and therefore the Lead Manager or any person who controls it or any director, officer, employee, agent or affiliate of the Lead Manager shall have no responsibility for determining the proper characterisation of potential investors for such restriction or for determining the availability of the exemption provided for in Section 20 of the U.S. Risk Retention Rules, and the Arranger or the Lead Manager or any person who controls it or any director, officer, employee, agent or affiliate of the Arranger or the Lead Manager does not accept any liability or responsibility whatsoever for any such determination or characterisation.

None of the Issuer, the Arranger, the Seller, the Servicer, the Lead Manager nor any other Transaction Party nor any other person makes any representation or warranty to any prospective investor or purchaser of the Notes as to whether the transactions described in this Prospectus comply as a matter of fact with the U.S. Risk Retention Rules on the Issue Date or at any time in the future and no such person shall have any liability to any prospective investor or any other person with respect to any failure by the Seller or of the transaction contemplated by this Prospectus to satisfy the U.S. Risk Retention Rules or any other applicable legal, regulatory or other requirements. Investors should consult their own advisers as to the U.S. Risk Retention Rules. No predictions can be made as to the precise effects of such matters on any investor or otherwise.

4.2.5. Volcker Rule

Under Section 619 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "**Dodd-Frank Act**") and the corresponding implementing rules (the "**Volcker Rule**"), U.S. banks, foreign banks with U.S. branches or agencies, bank holding companies, and their affiliates (collectively, the "Relevant Banking Entities" as defined under the Volcker Rule) are prohibited from, among other things, acquiring or retaining any ownership interest in, or acting as sponsor in respect of, certain investment entities referred to in the Volcker Rule as covered funds, except as may be permitted by an applicable exclusion or exception from the Volcker Rule. In addition, in certain circumstances, the Volcker Rule restricts relevant banking entities from entering into certain credit

exposure related transactions with covered funds. Full conformance with the Volcker Rule is required since 21 July 2015.

Key terms are widely defined under the Volcker Rule, including “banking entity”, “ownership interest”, “sponsor” and “covered fund”. In particular, “banking entity” is defined to include certain non-U.S. affiliates of U.S. banking entities. A “covered fund” is defined to include an issuer that would be an investment company under the Investment Company Act of 1940 but is exempt from registration solely in reliance on section 3(c)(1) or 3(c)(7) of that Act, subject to certain exemptions found in the Volcker Rule’s implementing regulations. An “ownership interest” is defined to include, among other things, interests arising through a holder’s exposure to profits and losses in the covered fund, as well as through any right of the holder to participate in the selection or removal of an investment advisor, manager, or general partner, trustee, or member of the board of directors of the covered fund.

The Issuer has been structured so as not to constitute a “covered fund” for purposes of the Volcker Rule and its implementing regulations. If the Issuer is considered a “covered fund”, the liquidity of the market for the Notes may be materially and adversely affected, since banking entities could be prohibited from, or face restrictions in, investing in the Notes. The Volcker Rule and any similar measures introduced in another relevant jurisdiction may, in addition, have a negative impact on the price and liquidity of the Notes in the secondary market.

There is limited interpretive guidance regarding the Volcker Rule, and implementation of the regulatory framework for the Volcker Rule is still evolving. The Volcker Rule’s prohibitions and lack of interpretive guidance could negatively impact the liquidity and value of the Notes. Any entity that is a “banking entity” as defined under the Volcker Rule and is considering an investment in the Notes should consider the potential impact of the Volcker Rule in respect of such investment and on its portfolio generally. Each purchaser must determine for itself whether it is a banking entity subject to regulation under the Volcker Rule. Neither the Issuer nor the Lead Manager makes any representation regarding the ability of any purchaser to acquire or hold the Notes, now or at any time in the future.

4.2.6. UK Securitisation Regulation

With respect to the UK, relevant UK-established or UK-regulated persons are subject to the restrictions and obligations of Regulation (EU) 2017/2402 as it forms part of the domestic law of the UK as “retained EU law” by operation of the European Union (Withdrawal) Act 2018, as amended (the “EUWA”), and as amended by the Securitisation (Amendment) (EU Exit) Regulations 2019 (the “**Securitisation EU Exit Regulations**”) (and as may be further amended, the “**UK Securitisation Regulation**”). The UK Securitisation Regulation, together with (a) all applicable binding technical standards made under the UK Securitisation Regulation, (b) any EU regulatory technical standards or implementing technical standards relating to the EU Securitisation Regulation (including such regulatory technical standards or implementing technical standards which are applicable pursuant to any transitional provisions of the EU Securitisation Regulation) forming part of UK domestic law by operation of the EUWA, (c) relevant guidance, policy statements or directions relating to the application of the UK Securitisation Regulation (or any binding technical standards) published by the Financial Conduct Authority (the “**FCA**”) and/or the Prudential Regulation Authority (the “**PRA**”) (or their successors), (d) any guidelines relating to the application of the EU Securitisation Regulation which are applicable in the UK, (e) any other transitional, saving or other provision relevant to the UK Securitisation Regulation by virtue of the operation of the EUWA and (f) any other applicable laws, acts, statutory instruments, rules, guidance or policy statements published or enacted relating to the UK Securitisation Regulation, in each case, as may be further amended, supplemented or replaced, from time to time, are referred to in this Prospectus as the “**UK SR Rules**”.

Article 5 of the UK Securitisation Regulation places certain conditions on investments in a “securitisation” (as defined in the UK Securitisation Regulation) (the “**UK Due Diligence Requirements**”) by an “institutional investor”, defined in the UK Securitisation Regulation to include (a) an insurance undertaking as defined in section 417(1) of the Financial Services and Markets Act 2000, as amended (the “**FSMA**”); (b) a reinsurance undertaking as defined in section 417(1) of the FSMA; (c) an occupational pension scheme as defined in section 1(1) of the Pension Schemes Act 1993 that has its main administration in the UK, or a fund manager of such a scheme appointed under section 34(2) of the Pensions Act 1995 that, in respect of activity undertaken pursuant

to that appointment, is authorised for the purposes of section 31 of the FSMA; (d) an AIFM as defined in regulation 4(1) of the Alternative Investment Fund Managers Regulation 2013 which markets or manages AIFs (as defined in regulation 3 of those Regulations) in the UK; (e) a management company as defined in section 237(2) of the FSMA; (f) a UCITS as defined by section 236A of the FSMA, which is an authorized open ended investment company as defined in section 237(3) of the FSMA; and (g) a CRR firm as defined by Article 4(1)(2A) of Regulation (EU) No 575/2013, as it forms part of UK domestic law by virtue of the EUWA. The UK Due Diligence Requirements also apply to investments by certain consolidated affiliates, wherever established or located, of such CRR firms, (such affiliates, together with all such institutional investors, "**UK Affected Investors**").

Prior to investing in (or otherwise holding an exposure to) a "securitisation position" (as defined in the UK Securitisation Regulation), a UK Affected Investor, other than the originator, sponsor or original lender (each as defined in the UK Securitisation Regulation) must, among other things: (a) verify that, where the originator or original lender is established in a third country (i.e. not the UK), the originator or original lender grants all the credits giving rise to the underlying exposures on the basis of sound and well-defined criteria and clearly established processes for approving, amending, renewing and financing those credits and has effective systems in place to apply those criteria and processes to ensure that credit-granting is based on a thorough assessment of the obligor's creditworthiness, (b) verify that, if established in a third country (i.e. not the UK), the originator, sponsor or original lender retains on an ongoing basis a material net economic interest which, in any event, shall not be less than 5 per cent., determined in accordance with Article 6 of the UK Securitisation Regulation, and discloses the risk retention to the UK Affected Investor, (c) verify that the originator, sponsor or the SSPE has, where applicable, made available information which is substantially the same as that which an originator, sponsor or SSPE would have made available as required by Article 7 of the UK Securitisation Regulation (which sets out the UK Transparency Requirements (as defined below)) if it had been established in the UK and has done so with such frequency and modalities as are substantially the same as those with which it would have made information available if it had been established in the UK, and (d) carry out a due-diligence assessment which enables the UK Affected Investor to assess the risks involved, considering at least (i) the risk characteristics of the securitisation position and the underlying exposures, and (ii) all the structural features of the securitisation that can materially impact the performance of the securitisation position.

In addition, while holding a "securitisation position" (as defined in the UK Securitisation Regulation), a UK Affected Investor must also (a) establish appropriate written procedures in order to monitor, on an ongoing basis, its compliance with the foregoing requirements and the performance of the securitisation position and of the underlying exposures, (b) regularly perform stress tests on the cash flows and collateral values supporting the underlying exposures, (c) ensure internal reporting to its management body to enable adequate management of material risks and (d) be able to demonstrate to its regulatory authorities that it has a comprehensive and thorough understanding of the securitisation position and its underlying exposures and has implemented written policies and procedures for managing risks of the securitisation position and maintaining records of the foregoing verifications and due diligence and other relevant information.

Certain temporary transitional arrangements are in effect, pursuant to directions made by the relevant UK regulators, with regard to the UK Due Diligence Requirements. Under such arrangements, until 31 March, 2022, subject to applicable conditions and in certain respects, a UK Affected Investor may be permitted to comply with a provision of the EU Securitisation Regulation to which it would have been subject before the UK Securitisation Regulation came into effect, in place of a corresponding provision of the UK Securitisation Regulation. Notwithstanding the above, prospective investors that are UK Affected Investors should note the differences in the wording, as between the EU Due Diligence Requirements and the UK Due Diligence Requirements, with respect to the provision of information on the underlying exposures and investor reports as between the requirements of Article 5 of the EU Securitisation Regulation (the "**EU Due Diligence Requirements**") and the UK Due Diligence Requirements. There remains considerable uncertainty as to how UK Affected Investors should ensure compliance with certain aspects of the UK Due Diligence Requirements, including in relation to the verification of disclosure of information and whether the information provided to the noteholders in relation to this securitisation is or will be sufficient to meet such requirements, and also what view the relevant UK regulators might take.

Article 6 of the UK Securitisation Regulation imposes a direct obligation on the originator, sponsor or original lender of a securitisation to retain a material net economic interest in the securitisation of not less than 5 per cent. (the “**UK Risk Retention Requirements**”). Certain aspects of the UK Risk Retention Requirements are to be further specified in the technical standards to be adopted by the FCA and the PRA, acting jointly. Pursuant to Article 43(7) of the UK Securitisation Regulation, until these regulatory technical standards apply, certain provisions of Delegated Regulation (EU) 625/2014, as they form part of UK domestic law by virtue of the EUWA, continue to apply in respect of the UK Risk Retention Requirements.

The UK Securitisation Regulation is silent as to the jurisdictional scope of the UK Risk Retention Requirements and consequently, whether, for example, this applies to EU established entities like the Originator. The wording of the UK Risk Retention Requirements is similar to the relevant wording of the EU Risk Retention Requirements, which are also silent as to the jurisdictional scope of the EU Risk Retention Requirements. However, (i) the explanatory memorandum to the original European Commission proposal for legislation that was ultimately enacted as the EU Securitisation Regulation stated that “The current proposal thus imposes a direct risk retention requirement and a reporting obligation on the originator, sponsor or the original lenders... For securitisations notably in situations where the originator, sponsor nor original lender is not established in the EU the indirect approach will continue to fully apply”; and (ii) the EBA, in its “Feedback on the public consultation” section of the final draft of the regulatory technical standards in relation to risk retention published by it on 31 July, 2018 said: “The EBA agrees however that a ‘direct’ obligation should apply only to originators, sponsors and original lenders established in the EU as suggested by the European Commission in the explanatory memorandum” (the “**EBA Guidance Interpretation**”). Although the wording of the UK Securitisation Regulation with regard to the UK Risk Retention Requirements is similar to that with regard to risk retention requirements in the EU Securitisation Regulation, the EBA Guidance Interpretation may be indicative of the position likely to be taken by the FCA in the future in this respect, the EBA Guidance Interpretation is non-binding and not legally enforceable. Furthermore, the FCA has not, at the date of this Prospectus, published or released any guidance or interpretation as to the jurisdictional scope of the direct risk retention obligation under the UK Securitisation Regulation. Notwithstanding the above, the Originator will agree to retain a material net economic interest of at least five (5) per cent. in the securitised exposures in the securitisation transaction described in this Prospectus in accordance with Article 6(3)(a) of the UK Securitisation Regulation, as in effect as at the Issuer Incorporation Date, as described in section 3.4.3 (*Risk Retention Requirement*) of the Additional Information.

Article 7 of the UK Securitisation Regulation (the “**UK Transparency Requirements**”) requires the originator, sponsor and SSPE of a securitisation to provide certain information prior to pricing as well as quarterly portfolio level disclosure reports and quarterly investor reports. Such reports will be required to be provided in accordance with the EU Disclosure RTS in each case in the form required under the EU Disclosure ITS as they form part of the domestic laws of the United Kingdom by operation of the EUWA and in each case as amended by the Technical Standards (Specifying the Information and the Details of a Securitisation to be Made Available by the Originator, Sponsor and SSPE) (EU Exit) Instrument 2020 to each investor, the applicable competent authority and, upon request, to potential investors. Neither the Issuer (as an SSPE incorporated in Spain) nor the Originator (as an entity incorporated in Spain) are considered to be directly subject to the UK Transparency Requirements and therefore do not intend to provide any information to investors in the form required under the UK Securitisation Regulation, provided that in the event that the information made available to investors by the Reporting Entity in accordance with Article 7 of the EU Securitisation Regulation, the EU Disclosure RTS and the EU Disclosure ITS is no longer considered by the relevant UK regulators to be sufficient in assisting UK institutional investors in complying with the UK Due Diligence Requirements, the Originator agrees that it will, in its sole discretion, use commercially reasonable endeavours to take such further reasonable action as may be required for the provision of information to assist any UK Affected Investors in connection with the compliance by UK Affected Investors with the UK Due Diligence Requirements.

There remains considerable uncertainty as to how UK Affected Investors should ensure compliance with the UK Due Diligence Requirements and whether the information provided to the noteholders in relation to the Securitisation transaction by the Reporting Entity in accordance with Article 7 of the EU Securitisation Regulation, the EU Disclosure RTS and the EU Disclosure ITS can be viewed as substantially the same in

substance, and delivered with the appropriate frequency and modalities, and whether this will be sufficient to meet such requirements, and also what view the relevant UK regulator of any UK Affected Investor might take.

Each prospective investor that is a UK Affected Investor is required to independently assess and determine whether the undertaking by the Originator to retain a material net economic interest of at least five (5) per cent. in the securitised exposures in the securitisation transaction described in this Prospectus in accordance with Article 6(3)(a) of the UK Securitisation Regulation, as in effect as at the Issuer Incorporation Date, as described in section 3.4.3 (*Risk Retention Requirement*) of the Additional Information, the other information in this Prospectus and the information to be provided in the relevant reports by the Reporting Entity and otherwise are sufficient for the purposes of complying with the UK Due Diligence Requirements, the requirements of Article 7 of the UK Securitisation Regulation or any additional measures which may be introduced by the FCA and/or the PRA, and none of the Originator, the Issuer or any other party to the transaction described in this Prospectus makes any representation that the information described above or in this Prospectus generally is sufficient in all circumstances for such purpose.

Failure by a UK Affected Investor to comply with the UK Due Diligence Requirements with respect to an investment in the Notes offered by this Prospectus may result in the imposition of a penalty regulatory capital charge on that investment or of other regulatory sanctions by the competent authority of such UK Affected Investor. The UK Securitisation Regulation and any other changes to the regulation or regulatory treatment of the Notes for some or all investors may negatively impact the regulatory position of any UK Affected Investor and have an adverse impact on the value and liquidity of the Notes offered by this Prospectus. Prospective investors that are UK Affected Investors should analyse their own regulatory position, and should consult with their own investment and legal advisers regarding application of, and compliance with, the UK Due Diligence Requirements or any other corresponding national measures which may be relevant and the suitability of the Notes for investment.

4.3. Legislation under which the securities have been created

The incorporation of the Issuer and the issuance of the Notes are subject to Spanish Law and in particular are carried out in accordance with the legal framework provided for by (i) Law 5/2015, (ii) the Securities Market Act and applicable implementing regulations, (iii) Royal Decree 1310/2005, (iv) Prospectus Regulation, (v) Order EHA/3537/2005 of 10 November implementing Article 27.4 of Securities Market Act 24/1988 of 28 July (*Orden EHA/3537/2005, de 10 de noviembre, por la que se desarrolla el artículo 27.4 de la Ley 24/1988, de 28 de julio, del Mercado de Valores*) (matching Article 37.4 of the Securities Market Act), (vi) Royal Decree 878/2015 and (vii) all other legal and regulatory provisions in force and applicable from time to time.

In addition, the requirements set out in the EU Securitisation Regulation shall apply to the Issuer and the Notes.

This Securities Note has been prepared in accordance with Annex 15 of the Prospectus Delegated Regulation.

The Deed of Incorporation, the Notes and the agreements relating to transactions for hedging financial risks and provision of services to the Issuer shall be subject to Spanish Law and shall be governed by and construed in accordance with the laws of Spain, except for the Interest Rate Swap Agreements which shall be subject to French law.

4.4. Indication as to whether the securities are in registered or bearer form and whether the securities are in certificated or book-entry form

The Notes will be exclusively represented by means of book-entries (*anotaciones en cuenta*), and will become such Notes when entered in the relevant records at IBERCLEAR, the institution in charge of the accounting record of the Notes for the purposes of Royal Decree 878/2015. In this connection, and for the record, the Deed of Incorporation shall have the effects prescribed by Article 7 of the Securities Market Act.

The denomination, number of units, nominal value and other characteristics and conditions of the Notes represented in book-entry form are those included in the Deed of Incorporation and this Prospectus.

IBERCLEAR, with place of business at Plaza de la Lealtad, 1, Madrid, shall be the institution designated in the Deed of Incorporation to do the bookkeeping for the Notes in order for the Notes to be cleared and settled in accordance with the operating rules regarding securities admitted to trading on the AIAF and represented by means of book entries, established now or henceforth by IBERCLEAR or AIAF.

Noteholders shall be identified as such when entered in the accounting record kept by the members of IBERCLEAR.

4.5. Currency of the issue

The Notes shall be denominated in Euros.

Pursuant to current legislation in force, the Notes described in this Securities Note do not create any present and/or future political rights for the investor acquiring them in relation to the Fund or its Management Company. This is consistent with the nature of a «FONDO DE TITULIZACIÓN» as a separate estate (patrimonio separado) devoid of legal personality.

The financial rights for Noteholders associated with acquiring and holding the Notes shall be, for each Class, as derived from the terms as to interest rate, yields and redemption terms on which they are to be issued and given in sections 4.8 to 4.10 of this Securities Note. In accordance with the laws in force, the Notes referred to by this Securities Note do not entitle the investor acquiring the same to any present and/or future voting or other non-financial rights in respect of Issuer other than as provided for in the Rules of the Meeting of Creditors or the Management Company.

Noteholders and all other creditors of the Issuer shall have no recourse whatsoever against Borrowers who may have defaulted on their payment obligations or against the Seller. In this regard, the Management Company, as legal representative of the Issuer, will be the person empowered to address any action.

Noteholders and all other creditors of the Issuer shall have no recourse whatsoever against the Issuer or against the Management Company in the event of non-payment of amounts due by the Issuer resulting from the existence of default or Receivable prepayment, a breach by the Seller of its obligations or by the counterparties under the transactions entered into for and on behalf of the Issuer, or shortfall of the financial hedging transactions for servicing the Notes in each Class. Noteholders and all other creditors of the Issuer shall have no recourse against the Management Company other than as derived from a breach of its duties or non-compliance with the provisions of this Prospectus and of the Deed of Incorporation. Those actions shall be resolved in the relevant proceedings for the amount claimed.

If the Management Company convenes a Meeting of Creditors, in accordance with the Meeting of Creditors rules, any decision to be adopted regarding the Issuer or the Notes should be, as the case may be, in accordance with the said rules of the Meeting of Creditors as established in section 4.11 of the Securities Note.

All matters, disagreements, actions and claims arising out of the Management Company establishing, managing and being the authorised representative of AUTONORIA SPAIN 2021, FONDO DE TITULIZACIÓN and the issuance of Notes by the same shall be heard and ruled upon by the competent Spanish Courts and Tribunals in the city of Madrid.

The reference rate applicable to the Floating Class Notes for any Interest Period shall be communicated by the Paying Agent to the Management Company, acting for and on behalf of the Issuer, on each Interest Rate Determination Date subject to the following provisions (the “**Reference Rate**”):

- (i) Prior to the occurrence of any Base Rate Modification Event as determined in section 4.8.4 (a) of the Securities Note below:
 - a. On each Interest Rate Determination Date, the Paying Agent will inform the Management Company of the EURIBOR as it appears on Bloomberg Page EU001M index in the menu BTMMEU (or such replacement page with the service which displays this information) at about 11.00 a.m. (CET) on such Interest Rate Determination Date. Except for the first Interest Rate Determination Date which will be obtained by linear interpolation between Euribor for one (1) week and Euribor for one (1) month deposits in Euro determined on such Interest Rate Determination Date.
 - b. Absent the occurrence of a Base Rate Modification Event, if the definition, methodology, formula or any other form of calculation related to EURIBOR were to be modified (including any modification or amendment derived from the compliance of the Benchmark Regulation), any such modifications shall not prevent from considering the EURIBOR so modified as the applicable Reference Rate for the purpose of this section 4.8.3 (i).
 - c. If, on any Interest Rate Determination Date, the EURIBOR is unavailable at such time and on such date (or such other page as aforesaid), then the rate for any relevant period shall be the arithmetic mean (rounded to four decimal places with the mid-point upwards) of the offered quotations (expressed as a percentage rate per annum) notified to the Paying Agent at its request by each of the principal Euro-zone office of each of the Reference Banks as at the rate at which euro deposits in respect of the relevant period in a respective amount are offered by the Reference Bank to leading banks in the euro-zone interbank for the Reference Rate at approximately 11.00 a.m. (CET) on the Interest Rate Determination Date in question.

If, only two of the Reference Banks provide such quoted rate to the Paying Agent, the relevant rate will be determined on the basis of the average quoted rate of such two Reference Banks able to provide such quotations; or if, at the time, the Reference Rate is unavailable and only one or none of the Reference Banks provides to the Paying Agent with such quotes rate, the rate in effect for the immediately preceding Interest Period will apply or in the absence of such, the immediately preceding Business Day where such Reference Rate is available.

For these purposes, “**Reference Banks**” means the following banks in the euro-zone inter-bank market:

- (i) BNP Paribas, S.A.
 - (ii) Banco Bilbao Vizcaya Argentaria S.A. London Branch
 - (iii) Banco Santander S.A, London Branch
 - (iv) Cecabank, S.A. (London Branch).
- (ii) After the occurrence of any Base Rate Modification Event:
- a. Provided that an Alternative Base Rate has been determined in accordance with section 4.8.4 of the Securities Note below, on each Interest Rate Determination Date the Paying Agent will inform the Management Company of the value of the interest rate corresponding to such Alternative Base Rate.
 - b. If no Alternative Base Rate has been possibly determined in accordance with section 4.8.4 of the Securities Note below, on each Interest Rate Determination Date while such impossibility continues, the Reference Rate applicable on the last Interest Rate Determination Date will be considered as the Reference Rate for such current Interest Rate Determination Date.

As at the date of this Prospectus, EURIBOR is provided and administered by the European Money Markets Institute (“**EMMI**”). EMMI is included on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority (ESMA) pursuant to article 36 of the Benchmark Regulation.

4.8.4. Fallback provisions

 - (iii) a public statement by the EURIBOR administrator or any subsequent Alternative Base Rate administrator that it will cease publishing EURIBOR, or any subsequent Alternative Base Rate (in circumstances where no successor EURIBOR or any subsequent Alternative Base Rate administrator has been appointed that will continue publication of EURIBOR or any subsequent Alternative Base Rate, or will be changed in an adverse manner); or
 - (iv) a public statement by the supervisor of the EURIBOR administrator or the administrator of any subsequent Alternative Base Rate that EURIBOR or any subsequent Alternative Base Rate has been or will be permanently or indefinitely discontinued or will be changed in an adverse manner; or
 - (v) a public statement by the supervisor of the EURIBOR or any subsequent Alternative Base Rate administrator which means that EURIBOR or any subsequent Alternative Base Rate may no longer be used or that its use is subject to restrictions or adverse consequences; or

- (vi) a public announcement of the permanent or indefinite discontinuity of EURIBOR or any subsequent Alternative Base Rate as it applies to Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, the Class F Notes; or
 - (vii) that any of the events specified in sub-paragraphs (i), (ii), (iii), (iv), (v) or (vi) will occur or exist within six (6) months of the proposed effective date of such Base Rate Modification.
- (b) Following the occurrence of a Base Rate Modification Event, the Management Company, in the name and on behalf of the Fund will inform the Seller and the Swap Counterparty of the same and will make its best efforts to appoint a rate determination agent to carry out the tasks referred to in this section 4.8.4 (the “**Rate Determination Agent**”).
- (c) The Rate Determination Agent shall determine an alternative base rate (the “**Alternative Base Rate**”) to be substituted for the then current Reference Rate as the new Reference Rate applicable of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, the Class F Notes and those amendments to the Transaction Documents to be made by the Management Company, in the name and on behalf of the Fund, as are necessary or advisable to facilitate such change (the “**Base Rate Modification**”), provided that no such Base Rate Modification will be made unless the Rate Determination Agent has determined and confirmed to the Management Company in writing (such certificate, a “**Base Rate Modification Certificate**”) that:
- (i) such Base Rate Modification is being undertaken due to the occurrence of a Base Rate Modification Event and, in each case, such modification is required solely for such purpose and it has been drafted solely to such effect; and
 - (ii) such Alternative Base Rate is:
 - (A) a base rate published, endorsed, approved or recognised by the relevant regulatory authority or any stock exchange on which the Notes are listed or any relevant committee or other body established, sponsored or approved by any of the foregoing; or
 - (B) a base rate utilised in a material number of publicly-listed new issues of Euro denominated asset backed floating rate notes prior to the effective date of such Base Rate Modification; or
 - (C) a base rate utilised in a publicly-listed new issue of Euro denominated asset backed floating rate notes where the originator of the relevant assets is BANCO CETELEM or an affiliate of BNP PARIBAS group; or
 - (D) such other base rate as the Rate Determination Agent reasonably determines (and in relation to which the Rate Determination Agent has provided reasonable justification of its determination to the Management Company),

provided that such Alternative Base Rate must comply with the Benchmark Regulation and, for the avoidance of doubt (I) in each case, the change to the Alternative Base Rate will not, in the Management Company’s opinion, be materially prejudicial to the interest of the Noteholders; and (II) for the avoidance of doubt, the Rate Determination Agent may determine an Alternative Base Rate on more than one occasion provided that the conditions set out in this paragraph (c) are satisfied.

By subscribing the Notes, each Noteholder acknowledges and agrees with any amendments to the Transaction Documents made by the Management Company, in the name and on behalf of the Fund, which may be necessary or advisable in order to facilitate the Base Rate Modification.

If the definition, methodology, formula or any other form of calculation related to EURIBOR were modified (including any modification or amendment derived of the compliance of the Benchmark Regulation), the modifications shall be considered made for the purposes of the Reference Rate relating to EURIBOR without the need to modify the terms of the Reference Rate without the need to notify to the Noteholders,

as such references to the EURIBOR rate shall be made to the EURIBOR rate such as this had been modified.

- (d) It is a condition to any such Base Rate Modification that:
- (i) any change to the Reference Rate of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, the Class F Notes results in an automatic adjustment to the relevant rate applicable under the Interest Rate Swap Agreements or that any amendment or modification to the Interest Rate Swap Agreements to align the Reference Rates applicable under the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, the Class F Notes and the Interest Rate Swap Agreements will take effect at the same time as the Base Rate Modification takes effect;
 - (ii) the Seller pays (or arranges for the payment of) all fees, costs and expenses (including legal fees) properly incurred by the Management Company and the Paying Agent and each other applicable party including, without limitation, any of the Transaction Parties, in connection with such modifications. For the avoidance of doubt, such costs shall not include any amount in respect of any reduction in the interest payable to a Noteholder or any change in the amount due to the Swap Counterparty or any change in the mark-to-market value of the Swap Agreement; and
 - (iii) with respect to each Rating Agency, the Management Company has notified such Rating Agency of the proposed modification and, each Rating Agency has confirmed that such modification would not result on itself in (x) a downgrade, withdrawal or suspension of the then current ratings assigned to the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, the Class F Notes by such Rating Agency or (y) such Rating Agency placing the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, the Class F Notes on rating watch negative (or equivalent).
- (e) When implementing any modification pursuant to this section 4.8.4, the Rate Determination Agent, the Management Company and the Seller, as applicable, shall act in good faith and (in the absence of gross negligence or wilful misconduct), shall have no responsibility whatsoever to the Noteholders or any other party.
- (f) If a Base Rate Modification is not made as a result of the application of paragraph (c) above, and for so long as the Management Company (acting on the advice of the Seller) considers that a Base Rate Modification Event is continuing, the Management Company may or, upon request of the Seller, must initiate the procedure for a Base Rate Modification as set out in this section 4.8.4.
- (g) Any modification pursuant to this section 4.8.4 must comply with the rules of any stock exchange on which the Notes are from time to time listed or admitted to trading and may be made on more than one occasion.
- (h) As long as a Base Rate Modification is not deemed final and binding in accordance with this section 4.8.4, the Reference Rate applicable to the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, the Class F Notes and the Interest Rate Swap Agreement will be equal to the last Reference Rate available on the relevant applicable screen rate pursuant to paragraph 4.8.3 (i) (a) above.
- (i) This section 4.8.4 shall be without prejudice to the application of any higher interest under applicable mandatory law.
- (j) The Management Company, acting in the name and on behalf of the Fund, has given at least 10 Business Days' prior written notice of the proposed Base Rate Modification to the Paying Agent before publishing a Base Rate Modification Noteholder Notice.

The Class A Notes Interest Amount, the Class B Notes Interest Amount, the Class C Notes Interest Amount, the Class D Notes Interest Amount, the Class E Notes Interest Amount, the Class F Notes Interest Amount payable in respect of each Interest Period shall be calculated by multiplying the relevant rate of interest according to section 4.8.2 above in this Securities Note, to the Principal Amount Outstanding of the relevant Class of Floating Rate Notes at the commencement of such Interest Period, and multiplying the product of such calculation by the Floating Rate Day Count Fraction, and rounding the resultant figure to the lower cent.

If, on any Payment Date, the Issuer has insufficient funds to make payment in full of all amounts of interest (including any accrued interest thereon) payable in respect of any Class of Notes, after having paid or provided for items of higher priority in the Interest Priority of Payments, then the Issuer will be entitled to defer payment of that amount (to the extent of the insufficiency) until the following Payment Date on which sufficient funds are available to be applied to the payment of such interest (the “**Deferred Interest**”). Such Deferred Interest will not accrue interest, and any such deferral of interest payment with respect to any Class of Notes other than the Most Senior Class of Notes (and in such case, subject to the delivery of a Notes Acceleration Notice) will not constitute an Issuer Event of Default.

If payment of the related amount of principal or any part thereof is improperly withheld or refused, interest will continue to accrue thereon (notwithstanding the existence of any outstanding judgement in relation thereto) at the rate applicable to such Note up to (but excluding) the date on which, payment in full of the related amount of principal, together with the interest accrued thereon, is made by the Issuer.

On or before each Payment Date, the Management Company, acting for and on behalf of the Issuer, will record amounts as appropriate on the Interest Deficiency Ledger on each Payment Date by:

Calculation

On or before each Settlement Date during the Revolving Period and the Normal Redemption Period, the Management Company, acting for and on behalf of the Issuer, will determine, based on the Servicing Report, the amount, if any, of any Interest Deficiency relevant to the next Payment Date.

For clarification purposes, the determination of any such Interest Deficiency relevant to a certain Payment Date will not take into account the existence of any previous Interest Deficiency (ie. the balance of any Interest Deficiency ledger will be deemed to be zero after the application of payments corresponding to any Payment Date) as calculated in any preceding Settlement Date (ie. corresponding to any previous Payment Date).

Application of Available Principal Proceeds to cure an Interest Deficiency and of the Liquidity Reserve to cure a Remaining Interest Deficiency

If the Management Company determines that there is an Interest Deficiency, then the Issuer shall pay or provide for that Interest Deficiency by:

- (a) first, applying an amount of Available Principal Proceeds available and applied pursuant to item (1) of the Principal Priority of Payments in order to pay items (1), (2), (4), (6), (8), (10) and (12), and item (14) to the extent the Class F Notes are the Most Senior Class of Notes, and item (16) to the extent the Class G Notes are the Most Senior Class of Notes in the Interest Priority of Payments in the order that

they appear in the Interest Priority of Payments (the “**Principal Additional Amounts**”) on such Payment Date (and the Management Company shall make a corresponding entry against the Interest Deficiency Ledger); and

- (b) second, if the Management Company determines that the Principal Additional Amounts are insufficient to cure such Interest Deficiency (the “**Remaining Interest Deficiency**”), then the Issuer shall pay or provide for that Remaining Interest Deficiency by applying amounts standing to the credit of the Liquidity Reserve in an amount equal to such Remaining Interest Deficiency in order to pay items (1), (2), (4), (6), (8), (10) and (12) of the Interest Priority of Payments in the order that they appear in the Interest Priority of Payments on such Payment Date.

Corresponding debit entry of the Principal Deficiency Ledger

- (b) after the occurrence of a Sequential Redemption Event, then all Available Principal Proceeds will be applied on each subsequent Payment Date in accordance with the Principal Priority of Payments. The Management Company will calculate the applicable Notes Redemption Amount for each Class of Notes and payments of principal in respect of the Notes will be irrevocably made in sequential order at all times in accordance with the Principal Priority of Payments and therefore the Class B Notes will not be further redeemed for so long as the Class A Notes have not been redeemed in full, the Class C Notes will not be further redeemed for so long as the Class B Notes have not been redeemed in full, the Class D Notes will not be further redeemed for so long as the Class C Notes have not been redeemed in full, the Class E Notes will not be further redeemed for so long as the Class D Notes have not been redeemed in full, the Class F Notes will not be further redeemed for so long as the Class E Notes have not been redeemed in full, and the Class G Notes will not be further redeemed for so long as the Class F Notes have not been redeemed in full.

4.9.6. Accelerated Redemption Period

Following the occurrence of an Accelerated Redemption Event, all Classes of Notes shall be subject to mandatory redemption on each Payment Date on or after the date on which the Accelerated Redemption Event has occurred until the earlier of (x) the date on which the Principal Amount Outstanding of the each abovementioned Class of Notes is reduced to zero, (y) the Issuer Liquidation Date or (z) the Final Maturity Date, in accordance with the applicable Accelerated Priority of Payments.

4.9.7. Determination of the amortisation of the Notes

Class A, Class B, Class C, Class D, Class E, Class F, and Class G Notes shall be redeemed on each Payment Date in an amount equal to the relevant Notes Principal Payment.

Pursuant to the Deed of Incorporation, the Management Company shall calculate, in relation to any Payment Date:

- i. the Notes Redemption Amount for the relevant Class of Notes;
- ii. the Notes Principal Payment due and payable in respect of the relevant Class of Notes; and
- iii. the Principal Amount Outstanding for the relevant Class of Notes.

The Notes Principal Payment in respect of a Class of Note will be equal to (x) the Notes Redemption Amount of such Class divided by the number of outstanding Notes of such class (the result of (x) being rounded down to the nearest euro cent), provided that no Notes Principal Payment shall exceed the Principal Amount Outstanding of a Note of such Class, as calculated by the Management Company before such payment.

Each calculation by the Management Company of the Notes Redemption Amount, the Notes Principal Payment, the Principal Amount Outstanding of a Class of Notes and the Principal Amount Outstanding of a Note of any Class shall in each case (in the absence of wilful default, bad faith or manifest error) be final and binding on all persons.

The Management Company will cause each determination of the Notes Redemption Amount and the Principal Amount Outstanding of a Class of Notes to be notified in writing forthwith to the Paying Agent, the Account Bank and IBERCLEAR, for so long as the Notes are admitted to trading on AIAF.

4.9.8. Optional Redemption of all Notes upon the occurrence of an Issuer Optional Early Liquidation Event

If an Issuer Optional Early Liquidation Event has occurred, the Management Company, following the instructions received from the Seller, and subject to the fulfillment of conditions (i) to (iii) under section 4.4.3.3 of the Registration Document, will deliver an Issuer Liquidation Offer to the Seller (or to any entity affiliate to the Seller), which provided nothing extraordinary has occurred must be accepted by the Seller (or to any entity affiliate to the Seller, including those belonging to BNPP group). If for any reason whatsoever the Seller (or to any entity affiliate to the Seller, including those belonging to BNPP group) does not accept the Issuer Liquidation Offer, no further offer by the Management Company will be delivered to the Seller nor any other third parties, and the proposed Issuer liquidation will not take place.

For clarification purposes and according to paragraph (iii) under section 4.4.3.3. (Issuer Optional Early Liquidation Event) of the Registration Document, if the Aggregate Securitised Portfolio Liquidation Price together with any other Available Distribution Amounts (which for clarification purposes exclude the Liquidity Reserve balance) do not enable the Issuer to redeem in full all outstanding Notes at their then respective Principal Amount Outstanding (together with interest accrued and unpaid thereon) in accordance with the Accelerated Priority of Payments, then no Issuer Liquidation Offer to the Seller (or to any entity affiliate to the Seller, including those belonging to BNPP group) will be delivered by the Management Company, and consequently the transfer of all Receivables and their Ancillary Rights shall not take place and the Issuer shall not be liquidated, and no Issuer Optional Early Liquidation Event shall be deemed to have occurred.

Upon acceptance of the Issuer Liquidation Offer by the Seller (or to any entity affiliate to the Seller, including those belonging to BNPP group), the Management Company shall use the Aggregate Securitised Portfolio Liquidation Price together with any other Available Distribution Amounts (which for clarification purposes exclude any balance of the Liquidity Reserve) to redeem in full all outstanding Notes at their then respective Principal Amount Outstanding (together with interest accrued and unpaid thereon) in accordance with the Accelerated

Priority of Payments on and from the Payment Date falling after such date on which the Aggregate Securitised Portfolio Liquidation Price would have been paid to the Fund by the Seller.

4.9.9. Mandatory Redemption of Class A, Class B, Class C, Class D, Class E, Class F, and Class G Notes upon the occurrence of an Issuer Mandatory Early Liquidation Event

If an Issuer Mandatory Early Liquidation Event has occurred, the Management Company will liquidate the Issuer and, an Issuer Liquidation Offer shall be delivered by the Management Company to the Seller or, pursuant to section 4.4.3.3 of the Registration Document, to any third party, and shall use the Portfolio Liquidation Price together with any other Available Distribution Amounts (which for clarification purposes exclude the Liquidity Reserve balance) in accordance with the Accelerated Priority of Payments to redeem to the extent such Available Distribution Amount allow it to, the Notes at their respective Principal Amount Outstanding (together with interest accrued and unpaid thereon, on and from the Payment Date on which the Portfolio Liquidation Price would have been paid to the Fund by the Seller or, pursuant to section 4.4.3.3 of the Registration Document, to any third party.

4.9.10. No purchase

The Issuer shall not purchase any of the Notes.

4.9.11. Cancellation

All Notes which are redeemed by the Issuer pursuant to this section will be cancelled and accordingly may not be reissued or resold.

4.9.12. Other methods of redemption

The Notes shall only be redeemed as specified above.

4.9.13. Accelerated Redemption

Each of the following events will be treated as an “**Accelerated Redemption Event**”:

- (a) the occurrence of an Issuer Event of Default; or
- (b) an Issuer Liquidation Event has occurred.

If an Accelerated Redemption Event occurs, the Revolving Period or the Normal Redemption Period, as the case may be, shall automatically terminate and the Accelerated Redemption Period shall irrevocably start. All Notes will be redeemed by the Issuer in accordance with the Accelerated Priority of Payments.

4.9.14. Issuer Event of Default

If on any Payment Date, the Issuer defaults in the payment of any interest on the Most Senior Class of Notes when the same becomes due and payable and such default continues for a period of five (5) Business Days, the Management Company will declare the occurrence of an **Issuer Event of Default**.

Following the occurrence of an Issuer Event of Default (and the receipt of a Notes Acceleration Notice by the Management Company), the Revolving Period or the Normal Redemption Period (as the case may be) shall terminate and the Accelerated Redemption Period shall irrevocably start on the Payment Date falling on or immediately after the occurrence of such Accelerated Redemption Event. Accordingly, payments on the Notes shall be made thereon as set out in above (*Accelerated Redemption*). For clarification purposes, the occurrence of an Issuer Event of Default (and the receipt of a Notes Acceleration Notice by the Management Company) do not constitute in and of themselves an Issuer Liquidation Event.

The Management Company shall promptly notify all Noteholders in writing (in accordance with section 4 of the Additional Information) and the other Transaction Parties of the occurrence of an Issuer Event of Default.

4.9.15. Extraordinary subordination of Notes interest

On any given Payment Date during the Revolving Period or the Normal Redemption Period, interest on any Class of Notes other than the Most Senior Class of Notes may be extraordinary subordinated by altering the order of priority within the Interest Priority of Payments, in which such interest shall be paid subject to the following conditions:

To the extent that (i) no prior Accelerated Redemption Event has occurred, (ii) the Class B Notes are not the Most Senior Class of Notes and (iii) the debit balance to the Class B Principal Deficiency Sub-Ledger corresponding to such Class of Notes (before the distribution of any amounts according to the Interest Priority of Payments on such Payment Date) is equal to or exceeding 25 per cent. of the Principal Amount Outstanding of the Class B Notes, the interest on the Class B Notes will not then fall due at item (6) of the Interest Priority of Payments but will instead be paid at item (18) of the Interest Priority of Payments. Any such interest subordination will not constitute an Issuer Event of Default.

To the extent that (i) no prior Accelerated Redemption Event has occurred, (ii) the Class C Notes are not the Most Senior Class of Notes, and (iii) the debit balance to the Class C Principal Deficiency Sub-Ledger corresponding to such Class of Notes (before the distribution of any amounts according to the Interest Priority of Payments on such Payment Date) is equal to or exceeding 25 per cent of the Principal Amount Outstanding of the Class C Notes, the interest on the Class C Notes will not then fall due at item (8) of the Interest Priority of Payments but will instead be paid at item (19) of the Interest Priority of Payments. Any such interest subordination will not constitute an Issuer Event of Default.

To the extent that (i) no prior Accelerated Redemption Event has occurred, (ii) the Class D Notes are not the Most Senior Class of Notes, and (iii) the debit balance to the Class D Principal Deficiency Sub-Ledger corresponding to such Class of Notes (before the distribution of any amounts according to the Interest Priority of Payments on such Payment Date) is equal to or exceeding 25 per cent. of the Principal Amount Outstanding of the Class D Notes, the interest on the Class D Notes will not then fall due at item (10) of the Interest Priority of Payments but will instead be paid at item (20) of the Interest Priority of Payments. Any such interest subordination will not constitute an Issuer Event of Default.

To the extent that (i) no prior Accelerated Redemption Event has occurred, (ii) the Class E Notes are not the Most Senior Class of Notes, and (iii) the debit balance to the Class E Principal Deficiency Sub-Ledger corresponding to such Class of Notes (before the distribution of any amounts according to the Interest Priority of Payments on such Payment Date) is equal to or exceeding 25 per cent. of the Principal Amount Outstanding of the Class E Notes, the interest on the Class E Notes will not then fall due at item (12) of the Interest Priority of Payments but will instead be paid at item (21) of the Interest Priority of Payments. Any such interest subordination will not constitute an Issuer Event of Default.

To the extent that (i) no prior Accelerated Redemption Event has occurred, (ii) the Class F Notes are not the Most Senior Class of Notes, and (iii) the debit balance to the Class F Principal Deficiency Sub-Ledger corresponding to such Class of Notes (before the distribution of any amounts according to the Interest Priority of Payments on such Payment Date) is equal to or exceeding 25 per cent of the Principal Amount Outstanding of the Class F Notes, the interest on the Class F Notes will not then fall due at item (14) of the Interest Priority of Payments but will instead be paid at item (22) of the Interest Priority of Payments. Any such interest subordination will not constitute an Issuer Event of Default.

To the extent that (i) no prior Accelerated Redemption Event has occurred, (ii) the Class G Notes are not the Most Senior Class of Notes, and (iii) the debit balance to the Class G Principal Deficiency Sub-Ledger corresponding to such Class of Notes (before the distribution of any amounts according to the Interest Priority of Payments on such Payment Date) exceeds 0.00 per cent of the Principal Amount Outstanding of the Class G Notes, the interest on the Class G Notes will not then fall due at item (16) of the Interest Priority of Payments but will instead be paid at item (23) of the Interest Priority of Payments. Any such interest subordination will not constitute an Issuer Event of Default.

The subordination of interest shall cease to apply:

- (a) in respect of the Class B Notes, upon the redemption in full of the Class A Notes or when the debit balance of the Class B Principal Deficiency Sub-Ledger corresponding to such Class of Notes become strictly lower than 25 per cent. of the Principal Amount Outstanding of the Class B Notes;
- (b) in respect of the Class C Notes, upon the redemption in full of the Class A Notes and the Class B Notes or when the debit balance of the Class C Principal Deficiency Sub-Ledger corresponding to such Class of Notes become strictly lower than 25 per cent. of the Principal Amount Outstanding of the Class C Notes;
- (c) in respect of the Class D Notes, upon the redemption in full of the Class A Notes, the Class B Notes and the Class C Notes or when as the debit balance of the Class D Principal Deficiency Sub-Ledger corresponding to such Class of Notes become strictly lower than 25 per cent. of the Principal Amount Outstanding of the Class D Notes;
- (d) in respect of the Class E Notes, upon the redemption in full of all Class A Notes, Class B Notes, Class C Notes and Class D Notes or when the debit balance of the Class E Principal Deficiency Sub-Ledger corresponding to such Class of Notes become strictly lower than 25 per cent. of the Principal Amount Outstanding of the Class E Notes;
- (e) in respect of the Class F Notes, upon the redemption in full of all Class A Notes, Class B Notes, Class C Notes, Class D Notes and Class E Notes or when debit balance of the Class F Principal Deficiency Sub-Ledger corresponding to such Class of Notes become strictly lower than 25 per cent. of the Principal Amount Outstanding of the Class F Notes; and
- (f) In respect of the Class G Notes, upon the redemption in full of all Class A Notes, Class B Notes, Class C Notes, Class D Notes, Class E Notes and Class F Notes or when the debit balance of the Class G Principal Deficiency Sub-Ledger corresponding to such Class of Notes become equal to 0.00 per cent. of the Principal Amount Outstanding of the Class G Notes.

4.9.16. Final Maturity Date

After the Final Maturity Date, any part of the principal amount of the Notes or of the interest due on thereon which may remain unpaid shall be automatically cancelled, so that the Noteholders, after such date, shall have no right to assert a claim in this respect against the Issuer, regardless of the amounts which may remain unpaid after the Final Maturity Date.

4.10. Indication of investor yield and calculation method

The average life, yield, term and final maturity of the Notes in each Class depend on several factors, most significant among which are the following:

- i Acquisition by the Issuer of Additional Receivables during the Revolving Period in order to replace the decrease in the amounts of the Receivables.
- ii The repayment schedule of each Receivable established in the relevant Loan Agreements.
- iii The Borrowers' capacity to prepay the Receivables in whole or in part and the aggregate prepayment pace throughout the life of the Issuer. In this sense, Receivable prepayments by Borrowers, subject to continual changes, and estimated in this Prospectus using several performance assumptions of the future effective constant annual early amortisation or prepayment rate (hereinafter also "CPR"), are very significant and shall directly affect the pace at which Notes are amortised, and therefore their average life and duration.
- iv Changes, if any, in Receivable interest rates resulting in every instalment repayment amount differing.

- v Borrowers' default in payment of Receivable instalments and the Servicer's ability in recovering any unpaid amounts due under any such Defaulted Purchased Receivables.

The following assumed values have been used for the above-mentioned factors in calculating the amounts tabled in this section:

- i. The Seller does not repurchase any Purchased Receivable.
- ii. The annualized investment return earned on the Reinvestment Account is -0.5%, consistent with the interest rate that would be applicable as of the date of this prospectus.
- iii. The interest rate of the Initial Receivables is 7.15%.
- iv. The amortisation schedule of the Initial Receivables and the Additional Receivables is based on the contractual amortisation schedule of the Initial Receivables.
- v. The loan prepayment rate remains constant throughout the life of the Notes at the CPR assumed for each scenario.
- vi. The Revolving Period ends at the Revolving Period End Date, and no Revolving Period Termination Event has occurred.
- vii. No Sequential Redemption Event has occurred.
- viii. The annualised default rate (all loans that are once delinquent are considered ultimately becoming defaulted) of the loan portfolio during the lifetime of the transaction is 1.9%.

The resulting cumulative default rate (gross of any recoveries) of the loan portfolio since the incorporation of the fund is respectively 6.10% (assuming CPR: 10%), 5.65% (assuming CPR: 15%), 5.30% (assuming CPR: 20%).

- ix. The cumulative recovery applicable to the defaulted receivables is 15% after 5 years.
- x. An Issuer Optional Early Liquidation Event occurs when the aggregate Outstanding Principal Balance of the Receivables is lower than ten (10) per cent. of the maximum aggregate Outstanding Principal Balance of the Receivables as of the Issuer Incorporation Date.
- xi. The Principal Deficiency Ledger and Interest Deficiency Ledger are debited and credited on each Payment Date in accordance with the description in section 4.8.12.1 of the Securities Note. Neither an Issuer Event of Default occurs nor an interest deferral occurs as no condition for such deferral is triggered as per section 4.9.15 of the Securities Note.
- xii. The Reference Rate applied is equal to -0.555% (fixing rate of EURIBOR 1-month published on 17 June 2021).
- xiii. All calculations have been done by applying the corresponding Priority of Payments during the Revolving Period and the Normal Redemption Period, as per section 3.4.7 of the Additional Information.
- xiv. For the purposes of calculating the IRR under the Notes, the subscription price of the Class A Notes shall be the result of applying a percentage of 101.092% of their nominal amount, and the subscription price of the Class B Notes to Class G Notes is 100.00% of their nominal amount.
- xv. The weighted average life calculation is based on 30/360.

The values corresponding to the proposed annualized default rates and recovery rates, as indicated in paragraphs (viii) and (ix) above, and the values for conditional prepayment rates (CPR) which have been used

to model the cash flows for the Notes in different scenarios, as indicated below, are representative of the historical annual default rate, cumulative recovery rates and CPRs experienced by BANCO CETELEM's auto loan portfolio as shown in section 2.2.7.3 of the Additional Information.

The information corresponding to the debt service of the Notes for the three different scenarios shown in the tables below has been provided by BNP PARIBAS and fundamentally match those that would be obtained by any investor who would input such hypothesis into the cash flow model provided by BNP PARIBAS and made publicly available by BANCO CETELEM on Bloomberg and Intex. BNP PARIBAS, the Management Company and the Seller expressly state that such data are shown for descriptive purposes, such information being merely theoretical and must not be construed as representing any payment obligation by the Issuer, taking into account that the Principal Amount Outstanding of the Notes on each Payment Date, and therefore the interest to be paid on each of them, will depend on any prepayment and non-payment of and on the level of actual default on the Loans

Set forth below are the charts showing the debt service for the three hypotheses described in item xi) above on the Notes for CPR of 10%, 15% and 20%, respectively:

The information included in the following tables is presented for illustrative purposes only and it does not represent the Fund's specific payment obligations to third parties on the dates or periods to which they

correspond. The data has been elaborated under assumptions described above and which are subject to constant change.

As indicated above, in order to produce these tables, three annual constant prepayment rates have been assumed (10, 15 and 20%) for the entire life of the Fund.

Under no circumstances will the terms of the Deed of Incorporation contradict, modify, alter or render null and void the contents of this Prospectus. The Deed of Incorporation will be executed on the Issuer Incorporation Date.

The Management Company will forward (i) a PDF copy of the Deed of Incorporation to the CNMV for filing with the official registers, and (ii) a copy of the Deed of Incorporation to IBERCLEAR.

Issuance of the Notes shall be effected by the Deed of Incorporation on the Issuer Incorporation Date.

By subscribing the Notes, each Noteholder agrees to the terms of the Deed of Incorporation and this Prospectus.

BANCO CETELEM shall partially subscribe for Notes in each Class at the Issuer Incorporation Date as detailed in section 4.2.3 of this Securities Note and, if applicable, BNP PARIBAS and/or BANCO CETELEM may subscribe the Notes not placed during the Subscription Period among qualified investors by the Lead Manager, as detailed in section 4.2.3 of this Securities Note.

Tranches

Each Class is composed of a single placement class.

4.13.2. MIFID II/MIFIR and PRIIPS

The new regulatory framework established by Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU ("MIFID II") and by Regulation 600/2013/EU of the European Parliament and of Council of 15 May

2014 on markets in financial instruments and amending Regulation (EU) No 648/2012 (“**MIFIR**”) has been mainly implemented in Spain through Royal Decree 14/2018, of 28 September and Royal Decree 1464/2018, of 21 December. The potential investors in the Notes must carry their own analysis on the risks and costs which MIFID II/MIFIR or their future technical standards may imply for the investment in Notes.

Solely for the purposes of manufacturer’s (BNP PARIBAS) product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in MIFID II; (ii) who have informed or advance acknowledge and/or experience in financial products; (iii) who can bear losses up to the initially invested capital; (iv) have, among others, the objectives and need of growth or income; (iv) have a long term investment horizon; and (v) all channels for distribution of the Notes are appropriate. Such target market assessment indicates that the Notes are incompatible with the needs, characteristic and objectives of clients which are retail clients (as defined in MIFID II) and accordingly the Notes shall not be offered or sold to any retail clients. Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the manufacturer’s target market assessment. However, a distributor subject to MIFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer’s target market assessment) and determining appropriate distribution channels.

Therefore, the Notes shall not offered, sold or otherwise made available to any retail investor in the European Economic Area (“**EEA**”). For these purposes, a “retail investor” means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MIFID II; or (ii) a customer within the meaning of Directive (EU) 2016/97 (the Insurance Distribution Directive), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MIFID II. Consequently, no key information document (KID) required by Regulation (EU) No 1286 of the European Parliament and of the Council of 26 November 2014 on key information documents for package retail and insurance-based investment products (the “**PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

For the above purposes, the term “offer” includes communication in any form and by any means, of sufficient information on the terms of the offer and on the Notes offered such as enables an investor to decide whether to purchase or subscribe for the Notes.

By subscribing the Notes, each Noteholder agrees to the terms of the Deed of Incorporation and this Prospectus.

4.13.3. Subscription period

The Issuer, through the Management Company, will enter into a Notes Subscription Agreement under which the Lead Manager has agreed, on a best efforts basis and upon the satisfaction of certain conditions precedent, to procure subscription for and/or place the Notes (not subscribed by BANCO CETELEM) during the Subscription Period with qualified investors for the purposes of article 39 of Royal Decree 1310/2005. Despite the fact that no underwriting commitment by the Lead Manager is agreed in the Notes Subscription Agreement, as indicated in section 4.2.3 of the Securities Notes, BANCO CETELEM and/or BNP PARIBAS may subscribe the Notes not placed during the Subscription Period among qualified investors by the Lead Manager.

The Subscription Period will begin at 9:00 am CET on 24 June 2021 and will end on the same day at 11:00 am CET.

Once the Subscription Period has ended, and before 13:00 pm CET on the same day, the Lead Manager will notify BANCO CETELEM, BNP PARIBAS and the Management Company of the number and amount of Notes of each Class that have been placed amongst investors (including those which BANCO CETELEM and/or BNP PARIBAS might have subscribed in case not all Notes would have been placed among qualified investors after the end of the Subscription Period by the Lead Manager).

Once the Subscription Period has elapsed, upon notification of the Management Company, the Paying Agent will duly notify IBERCLEAR a break-down of the subscription of the Notes to be registered in the relevant accounts opened in IBERCLEAR by the corresponding participating entities.

4.13.4. Disbursement date and form

On 28 June 2021 (the “**Disbursement Date**”), BANCO CETELEM shall pay to Issuer through the Paying Agent for the same value date, the subscription price of the Notes that they have subscribed (less the amount of any set off in respect of the Purchase Price corresponding to the Initial Receivables that the Issuer must pay to BANCO CETELEM on such date).

On the Disbursement Date, the Lead Manager will pay to the Issuer before through the Paying Agent for same value date, the subscription price of the remaining Notes not subscribed by BANCO CETELEM.

If BANCO CETELEM and/or BNP Paribas subscribe for and purchase the Notes not placed by the Lead Manager during the Subscription Period, BANCO CETELEM and/or BNP Paribas, as applicable, shall pay to the Issuer on the Disbursement Date, through the Paying Agent for the same value date, the subscription price of such Notes (less, in the case of BANCO CETELEM, the amount of any set-off against the Purchase Price of the Initial Receivables that the Issuer must pay to BANCO CETELEM on such date).

4.14. Restrictions on the free transferability of the securities

There are no restrictions on the free transferability of the Notes. They may be freely transferred by any means admissible at Law and in accordance with the rules of the AIAF where their admission to trading shall be applied for by the Management Company. A transfer in the accounts (book-entry) will convey the ownership of each Note. The effects of entering the conveyance to the transferee in the accounting record shall be the same as handing over the certificates and the transfer shall thenceforth be enforceable on third parties.

4.15. If different from the issuer, the identity and contact details of the offeror of the securities and/or the person asking for admission to trading, including the legal entity identifier (LEI) where the offeror has legal personality.

INTERMONEY TITULIZACIÓN, S.G.F.T., S.A., as the Management Company, on behalf of the Issuer shall request the admission of the issue to trading on the AIAF.

The Management Company's LEI Code is 959800WRDNTXKQPU1358.

5. ADMISSION TO TRADING AND DEALING ARRANGEMENTS

5.1. Indication of the Market where the securities will be traded

The Management Company shall, upon the Notes having been paid up, apply for these Notes to be admitted to trading on AIAF, which is a qualified official secondary securities market pursuant to Article 43.2 d) of the Securities Market Act. The Management Company undertakes to carry out any action that may be necessary in order for that definitive admission to trading be achieved not later than one (1) month after the Issuer Incorporation Date.

The Management Company expressly represents that it is aware of the requirements and terms that must be observed for the Notes to be eligible for being or remain listed and be delisted on the AIAF, in accordance with the laws in force and the requirements of its governing bodies, and the Issuer agrees through its Management Company to abide by the same.

In the event that, by the end of the one (1) month period referred to in the first paragraph of this section, the Notes are not admitted to trading on the AIAF, the Management Company shall forthwith proceed to notify

Noteholders thereof, moreover informing of the reasons preventing such admission to trading, using the extraordinary notice procedure provided for in section 4 of the Additional Information.

It is not expected that there will be an agreement with any entity to provide liquidity for the Notes during the term of the issue.

5.2. Paying agents and depository institutions

5.2.1. Paying Agent

The Notes will be serviced through the Paying Agent. Payment of interest and repayments shall be notified to Noteholders in the events and in such advance as may be provided for each case in section 4 of the Additional Information. Interest and amortisation of principal shall be paid to Noteholders by the relevant IBERCLEAR members and to the latter in turn by IBERCLEAR, the institution responsible for the accounting record.

The Management Company shall, for and on behalf of the Issuer, enter with BP2S into a paying agency agreement (the “**Paying Agency Agreement**”) to service the Notes, the most significant terms of which are given in section 3.4.8.2 of the Additional Information.

5.2.2. Depository institutions

Not applicable.

6. EXPENSE OF THE ADMISSION TO TRADING

6.1. An estimate of the total expenses related to the issuance and admission to trading of the Notes

7.2. Other information in the Securities Note which has been audited or reviewed by auditors or where auditors have produced a report

Not applicable.

7.3. Ratings

Fitch and Moody's have, on the registration date of this Prospectus, assigned the following provisional ratings to the following Note Classes, and expect to assign the same final ratings on or before the Disbursement Date.

Note Class	Moody's	Fitch
Class A	Aa1 (sf)	AAAsf
Class B	Aa2 (sf)	AA+sf
Class C	A2 (sf)	Asf
Class D	Baa2 (sf)	BBB+sf
Class E	Ba2 (sf)	BB+sf
Class F	B1 (sf)	B+sf
Class G	NR	NR

If the Rating Agencies do not assign such ratings as final (unless they are upgraded) this circumstance shall forthwith be notified to the CNMV and be publicised in the manner provided for in section 4 of the Additional Information. Furthermore, this circumstance would result in the termination of the incorporation of the Issuer, the issuance of the Notes, all agreements (except for the Start-Up Loan Agreement in relation to the expenses for the incorporation of the Fund), and the assignment of the Initial Receivables, as provided for in section 4.4.4 (iv) of the Registration Document.

Rating considerations

The meaning of the ratings assigned to the Class A, Class B, Class C, Class D, Class E and Class F Notes by Fitch and Moody's can be viewed at those Rating Agencies' websites: respectively, www.fitchratings.com and www.moodys.com.

As of 31 October 2011, the abovementioned Rating Agencies are registered and authorised by the ESMA as European Union Credit Rating Agencies in accordance with the provisions of Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 on Credit Rating Agencies.

The Rating Agencies' ratings are not an assessment of the likelihood of Borrowers prepaying principal, nor indeed of the extent to which such prepayments differ from what was originally forecast and should not prevent potential investors from conducting their own analyses of the notes to be acquired. The ratings are not by any means a rating of the level of actuarial performance.

The abovementioned credit ratings are intended purely as an opinion and should not prevent potential investors from conducting their own analyses of the securities to be acquired.

The Rating Agencies may revise, suspend or withdraw the final ratings assigned at any time, based on any information that may come to their notice. Those events, which shall not constitute neither an Issuer Mandatory Early Liquidation Event nor Issuer Optional Early Liquidation Event, shall forthwith be notified to both the CNMV and the Noteholders, in accordance with the provisions of section 4 of the Additional Information.

Moody's global long-term rating scale, appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category. Descriptions on the meaning of each individual relevant rating is as follows:

- Aaa(sf): Obligations rated Aaa are judged to be of the highest quality, subject to the lowest level of credit risk.
- Aa(sf): Obligations rated Aa are judged to be of high quality and are subject to very low credit risk.
- A(sf): Obligations rated A are judged to be upper-medium grade and are subject to low credit risk.
- Baa(sf): Obligations rated Ba are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.
- Ba(sf): Obligations rated Ba are judged to be speculative and are subject to substantial credit risk.
- B(sf): Obligations rated B are considered speculative and are subject to high credit risk.
- Caa(sf): Obligations rated Caa are judged to be speculative of poor standing and are subject to very high credit risk.
- Ca(sf): Obligations rated Ca are highly speculative and are likely in, or very near, default, with some prospect of recovery of principal and interest.
- C(sf): Obligations rated C are the lowest rated and are typically in default, with little prospect for recovery of principal or interest.

Fitch's Ratings of structured finance obligations on the long-term scale consider the obligations' relative vulnerability to default. These ratings are typically assigned to an individual security or tranche in a transaction and not to an issuer.

- AAA(sf): Highest Credit Quality. AAA' ratings denote the lowest expectation of default risk. They are assigned only in cases of exceptionally strong capacity for payment of financial commitments. This capacity is highly unlikely to be adversely affected by foreseeable events.
- AA(sf): Very High Credit Quality. 'AA' ratings denote expectations of very low default risk. They indicate very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.

- A(sf): High Credit Quality. 'A' ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.
- BBB(sf): Good Credit Quality. 'BBB' ratings indicate that expectations of default risk are currently low. The capacity for payment of financial commitments is considered adequate, but adverse business or economic conditions are more likely to impair this capacity.
- BB(sf): Speculative. 'BB' ratings indicate an elevated vulnerability to default risk, particularly in the event of adverse changes in business or economic conditions over time.
- B(sf): Highly Speculative. 'B' ratings indicate that material default risk is present, but a limited margin of safety remains. Financial commitments are currently being met; however, capacity for continued payment is vulnerable to deterioration in the business and economic environment.

Within rating categories, Fitch may use modifiers. The modifiers "+" or "-" may be appended to a rating to denote relative status within major rating categories. Such suffixes are not added to 'AAA' ratings and ratings below the 'CCC' category.

The Rating Agencies differentiates structured finance ratings from fundamental ratings (*i.e.*, ratings on nonfinancial corporate, financial institution, and public sector entities) on the long-term scale by adding the suffix (sf) to the structured finance ratings.

ADDITIONAL INFORMATION TO BE INCLUDED IN RELATION TO ASSET-BACKED SECURITIES

(Annex 19 to Prospectus Delegated Regulation)

1. THE SECURITIES

1.1. A statement that a notification has been, or is intended to be communicated to ESMA, as regards simple, transparent and standardised securitisation ('STS') compliance, where applicable

The securitisation transaction described in this Prospectus is intended to qualify as a simple, transparent and standardised securitisation ('STS-Securitisation') within the meaning of article 18 of the EU Securitisation Regulation. Consequently, on or about the Issuer Incorporation Date, BANCO CETELEM, as Originator, will submit a STS notification to ESMA in accordance with Article 27 of the EU Securitisation Regulation (the "**STS Notification**"), pursuant to which compliance with the requirements of Articles 19 to 22 of the EU Securitisation Regulation shall be notified to ESMA with the intention that the securitisation transaction described in this Prospectus is to be included in the list administered by ESMA within the meaning of Article 27(5) of the EU Securitisation Regulation (<https://www.esma.europa.eu/policy-activities/securitisation/simple-transparent-and-standardised-sts-securitisation>). The Management Company, by virtue of a delegation by the Originator, shall notify the CNMV -in its capacity as competent authority-, of the submission of such mandatory STS Notification from the Originator to ESMA, and attaching said notification.

The UK Securitisation Regulation also includes provisions intended to implement the revised securitisation framework developed by the Basel Committee on Banking Supervision (with adjustments) and provides, among other things, for harmonised foundation criteria and procedures applicable to securitisations seeking designation as STS securitisations within the meaning of Article 18(1) of the UK Securitisation Regulation ("**UK STS**").

The transaction described in this Prospectus is not intended to be designated as a UK STS securitisation for the purposes of the UK Securitisation Regulation. However, pursuant to Article 18(3) of the UK Securitisation Regulation as amended by the Securitisation EU Exit Regulations, Article 18 of the UK Securitisation Regulation is effective without the amendments made by regulation 18 of the UK Securitisation EU Exit Regulations in the case of a "relevant securitisation", as defined therein, and consequently a securitisation which meets the requirements for an STS-Securitisation for the purposes of the EU Securitisation Regulation, which is notified to ESMA in accordance with the applicable requirements before the expiry of the period of two (2) years specified in Article 18(3) of the Securitisation EU Exit Regulations, as amended, and which is included in the list of STS-Securitisations administered by ESMA in accordance with Article 27(5) of the EU Securitisation Regulation (the "**ESMA List**") may be deemed to satisfy the "STS" requirements for the purposes of the UK Securitisation Regulation.

1.2. STS compliance

None of the Management Company, on behalf of the Issuer, BANCO CETELEM (in its capacity as Originator), the Sole Arranger, the Lead Manager or any other party to the Transaction Documents gives any explicit or implied representation or warranty as to (i) the inclusion of the securitisation transaction described in this Prospectus in the ESMA List, and (ii) that this securitisation transaction shall be recognized or designated as 'STS', 'STS-Securitisation' or 'simple, transparent and standardised' within the meaning of Article 18 of the EU Securitisation Regulation after the date of notification to ESMA. Investors should conduct their own research regarding the status of the STS Notification on the ESMA website (<https://www.esma.europa.eu/policy-activities/securitisation/simple-transparent-and-standardised-sts-securitisation>). Investors should also note that, to the extent that the securitisation transaction described in this Prospectus is designated as a STS-Securitisation, such designation is not an assessment by any party as to the creditworthiness of such securitisation transaction but is instead a reflection that specific requirements of the EU Securitisation Regulation have been met as regards to compliance with the "STS" requirements set out in the EU Securitisation Regulation.

BANCO CETELEM, as Originator, shall be responsible for compliance of the transaction with the requirements of articles 19 to 22 of the EU Securitisation Regulation and shall immediately notify ESMA and inform its competent authority when the transaction no longer meets the requirements of Article 19 to 22 of the EU Securitisation Regulation.

BANCO CETELEM, as Originator, has used the service of PCS, as a Third Party Verification Agent in connection with an assessment of the compliance of the Notes with the requirements of articles 19 to 22 of the EU Securitisation Regulation (the STS Verification). It is expected that the STS Verification prepared by PCS (i) will be issued on or prior to the Issuer Incorporation Date, and (ii) will be available for investors on the PCS website (<https://www.pcsmarket.org/sts-verification-transactions/>) together with a detailed explanation of its scope at <https://www.pcsmarket.org/disclaimer>.

There can be no assurance that the securitisation transaction described in this Prospectus will receive the STS Verification (either at issuance or at any time thereafter) and if the securitisation transaction described in this Prospectus does receive the STS Verification, this shall not, under any circumstances, affect the liability of the Seller and the Issuer in respect of its legal obligations under the EU Securitisation Regulation, nor shall it affect the obligations imposed on institutional investors as set out in Article 5 of the EU Securitisation Regulation.

The STS Verification is not a recommendation to buy, sell or hold securities, is not investment advice whether generally or as defined under MiFID II (2014/65/UE) and is not a credit rating whether generally or as defined under the CRA Regulation or Section 3(a) of the United States Securities Exchange Act of 1934 (as amended). PCS is not an "expert" as defined in the Securities Act.

Investors should conduct their own research regarding the nature of the STS Verification and must read the information available in <http://pcsmarket.org>. In the provision of STS Verification, PCS bases its decision on information provided directly and indirectly by the Seller. For the avoidance of doubt, the PCS website and the contents thereof do not form part of this Prospectus.

Prospective UK Affected Investors are themselves responsible for analysing their own regulatory position, and should consult their own advisers in this respect and should consider (and where appropriate, take independent advice on) the consequence from a regulatory perspective of the transaction described in this Prospectus not being considered a UK STS securitisation under the UK Securitisation Regulation, or it being deemed to satisfy the STS requirements for the purposes of the UK Securitisation Regulation as a result of meeting the "STS" requirements for purposes of the EU Securitisation Regulation and being so notified and included in the ESMA List. No assurance can be provided that the securitisation transaction described in this Prospectus does or will continue to meet the "STS" requirements or to qualify as an STS-Securitisation under the EU Securitisation Regulation or pursuant to Article 18(3) of the UK Securitisation EU Exit Regulations as at the date of this Prospectus or at any point in time in the future.

1.2.1. CRR Assessment

The Seller has also used the service of PCS in connection with the CRR Assessment. It is expected that the CRR Assessment prepared by PCS will be available on the PCS website (<https://www.pcsmarket.org/sts-verification-transactions/>) together with a detailed explanation of its scope at <https://www.pcsmarket.org/disclaimer>. For the avoidance of doubt, this PCS website and the contents thereof do not form part of this Prospectus.

In addition, for the avoidance of doubt, the Seller has not used the service of PCS, as a verification agent authorised under article 28 of the EU Securitisation Regulation, to prepare the CRR Assessment; therefore, the relevant entities shall make their own assessments with respect to compliance with such provisions of the CRR Regulation.

Furthermore, the PCS Assessments are not an opinion on the creditworthiness of the Notes nor on the level of risk associated with an investment in the Notes. It is not an indication of the suitability of the Notes for any investor and/or a recommendation to buy, sell or hold Notes. Institutional investors that are subject to the EU Due Diligence Requirements or the UK Due Diligence Requirements, as applicable, need to make their own independent assessment and may not solely rely on the PCS Assessments, the STS Notification or other disclosed information. No assessment has been made with respect to compliance with any requirements of the CRR, as it forms part of UK domestic law by virtue of the EUWA and as amended, or with article 7 and 13 of Regulation (EU) 2017/2401 of the European Parliament and of the Council of 12 December 2017 amending Regulation (EU) No 575/2013 on prudential requirements for credit institutions and investment firms, as it forms part of UK domestic law by virtue of the EUWA and as amended.

1.3. The minimum denomination of an issue

The Issuer shall be set up with the Initial Receivables which BANCO CETELEM will assign to the Issuer on the Issuer Incorporation Date upon being established and their total principal shall be equal to or slightly under EUR 1,000,000,000.00, amount which represents the aggregate face value amount of the Class A, Class B, Class C, Class D, Class E, Class F and Class G Notes.

1.4. Confirmation that the information relating to an undertaking/obligor not involved in the issue has been accurately reproduced from the information published by the undertaking/obligor

Not applicable.

2. THE UNDERLYING ASSETS

2.1. Confirmation that the securitized assets backing the issue have characteristics that demonstrate the capacity to produce funds to service any payments due and payable on the securities

Based on the selected loan information supplied by the Seller, the Special Securitisation Report on certain features and attributes of a sample of all of BANCO CETELEM's selected loans from which the Initial Receivables will be taken to be assigned to the Issuer, and the Eligibility Criteria required for the purchase of Additional Receivables, the Management Company and the Seller confirm that, having regard to their contractual characteristics, the flows of principal, ordinary interest and any other amounts to be generated by the securitised Receivables may allow the payments due and payable on the Notes issued to be satisfied.

Nevertheless, in order to cover any potential defaults on payment by the Borrowers of the securitised Receivables, a number of credit enhancement transactions have been arranged allowing the amounts payable on the Notes in each Class to be covered to a different extent. However, in exceptional circumstances, the enhancement transactions could actually fall short. The credit enhancement transactions are described in section 3.4.2 of this Additional Information.

Upon the occurrence of any of the events described in section 4.4.3 of the Registration Document, the Management Company may or shall carry out the Early Liquidation of the Issuer and thereby the Early Amortisation of the Notes.

Not all the Notes issued have the same risk of default. Hence the different credit ratings assigned by the Rating Agencies to the Class A, Class B, Class C, Class D, Class E and Class F Notes, detailed in section 7.5 of the Securities Note.

2.2. Assets backing the issue

The Receivables to be pooled in the Fund comprising the Initial Receivables assigned to the Fund upon being established, and the Additional Receivables later assigned during the Revolving Period shall exclusively consist of Receivables owned by and carried as assets of BANCO CETELEM under auto loans granted to individuals resident in Spain for financing the purchase of New Vehicles, Used Vehicles or Recreational Vehicles originated

at car dealerships, and to finance the insurance premium of the relevant Insurance Policy. “**Recreational Vehicle**” means any automobile or any motorcycle which is primarily intended for recreational and leisure activities such as vacations and camping.

The requirements to be met by the Receivables to be assigned to the Fund, the characteristics of the Initial Receivables and the system for subsequent assignments of Additional Receivables during the Revolving Period, are described below in sections 2.2.2 and 3.3 of this Additional Information in accordance with the provisions of the Deed of Incorporation.

Maximum Receivables Amount

The maximum amount of the Outstanding Principal Balance of Non-Defaulted Purchased Receivables pooled in the Issuer will be equal to EUR 1,000,000,000.00 (the “**Maximum Receivables Amount**”), equivalent to the face value amount of the issue of Class A, Class B, Class C, Class D, Class E, Class F and Class G Notes.

Description of the Ancillary Rights

Pursuant to the terms of the Master Receivables Sale and Purchase Agreement, the Seller will sell and transfer, together with the selected Receivables which are intended to be sold and assigned by the Seller to the Issuer on each Purchase Date, the related Ancillary Rights.

“**Ancillary Rights**” means with respect to each Receivable, (i) any reservation of title; (ii) any personal guarantee; and (iii) any rights derived from the insurance policies with a payment protection plan with BANCO CETELEM as the beneficiary (death, total permanent disability due to accident, temporary disability, unemployment or Guaranteed Auto Protection insurance), if any, related to the Loan Agreements.

Consumer Protection Law and linked contracts under the Law 16/2011

The Issuer may be exposed to the occurrence of credit risk in relation to Borrowers who are individuals acting as consumers for non-business purposes and who have entered into the Loan agreements. Such Borrowers benefit from the protective provisions of the Royal Legislative Decree 1/2007, of November 16, approving the consolidated text of the General Law for the Defence of Consumers and Users and other complementary laws (*Real Decreto Legislativo 1/2007, de 16 de noviembre, por el que se aprueba el texto refundido de la Ley General para la Defensa de los Consumidores y Usuarios y otras leyes complementarias*) (the “**Consumer Protection Law**”) and Law 16/2011, of June 24, on consumer credit agreements (*Ley 16/2011, de 24 de junio, de contratos de crédito al consumo*) (“**Law 16/2011**”).

- (i) Consumers' rights *vis-à-vis* the seller of the Vehicle

In particular, if the Vehicles do not conform to the sale agreement, consumers may (pursuant to Articles 119 and 120 of the Consumer Protection Law) choose to either claim from the seller the repair or to demand the replacement of the Vehicles (both options, free of charge for the consumer), unless either of these two options is objectively impossible or disproportionate.

The options will be considered disproportionate when the forms of remedy, in comparison to the other, impose unreasonable costs on the seller of the Vehicles, taking into account: (i) the value of the Vehicle had it been fully compliant; (ii) the materiality of the lack of conformity; and (iii) whether the alternative remedy may cause less inconveniences for the customer. Costs shall be considered unreasonable when the expenses corresponding to one form of remedy are materially higher than those associated to the other form of remedy.

If the abovementioned measures were not possible, within a reasonable period of time, the customer would be entitled either to a price reduction or contract termination, at the consumer's choice. However, such termination is not an eligible remedy if the lack of conformity is considered minor.

The above remedies are generally available for any lack of conformity arising within 2 years as from the date of delivery. Henceforth, the consumer claims are subject to a 3 year term (as from the delivery date) statute of limitations. Nevertheless, it cannot be ruled out that, in certain circumstances, a Spanish court counts the above terms as from the date when the lack of conformity has become of the public knowledge.

Nevertheless, the above remedies do not preclude the right of customers to be indemnified for damages (if any and provided that they are duly evidenced) caused to them. Such claims for damages are subject to a five (5) year term statute of limitations.

(ii) Linked contracts

Notwithstanding (i) above, if the Loan Agreement is entered into with a consumer (as defined in the Consumer Protection Law and in Law 16/2011), for the sole purpose of acquiring the Vehicle and both agreements (i.e. the Loan Agreement and the sale agreement) objectively constitute a single commercial transaction, the provisions on linked contracts (*contratos vinculados*) pursuant to Article 29 of Law 16/2011 will also apply.

In case the Loan Agreement and the sale agreement in respect of the financed Vehicles are considered linked contracts (*contratos vinculados*), the Borrower will be entitled to raise any objections and defences arising under the sale agreement also against BANCO CETELEM (as lender) to the extent that:

- (1) the purchased Vehicles are not, in whole or in part, compliant with the relevant sale agreement; and
- (2) the consumer has claimed, either on court or out of court, against the seller of the Vehicle without having been duly satisfied by it.

If as a result of the above, the consumer has any claim against BANCO CETELEM (and regardless of BANCO CETELEM's right to, in turn, seek compensation from the seller of the Vehicle), such claim may be set-off by the consumer against amounts due and payable under the Loan. If that were the case, BANCO CETELEM has agreed to indemnify the Issuer for any such set-off amount and, if any offsetable claim by the consumer should exceed the amount due and outstanding under the Loan, BANCO CETELEM has agreed to compensate the Borrower for such excess and hold harmless the Issuer. In case that BANCO CETELEM defaulted under its commitments to maintain the Issuer unharmed, the Issuer might potentially suffer the loss of any amounts so offsetted.

Also, pursuant to the Law 16/2011 (where applicable), in case of termination of a sale agreement, the Loan Agreement linked to the acquisition will also be terminated. In such scenario: (i) as a result of the termination of the sale agreement, the customer shall give back the Vehicle to the dealer/seller who shall in turn reimburse the price to the customer; and (ii) as a result of the termination of the Loan Agreement the customer shall repay the Loan.

These provisions shall also apply to those Loan Agreements which finance the premium of the insurance policy with a payment protection plan in relation to the purchased Vehicle (*i.e.* death, total permanent disability due to accident, temporary disability, unemployment, or Guaranteed Auto Protection insurance). In this case, pursuant to article 29 of Law 16/2011, the borrower may terminate the part of the loan related to the financed premium only if:

- (i) the borrower has exercised its right of withdrawal in relation to the insurance policy, and
- (ii) (1) the insurance company failed to perform any of its obligations under the insurance policy, and
(2) the borrower has claimed judicially or extrajudicially, by any means accredited by law, to said insurance company.

In such scenario: (i) as a result of the termination of the insurance agreement, the insurer shall return to the customer any non consumed portion of any previous insurance premia paid; which the customer will in turn use to repay the Loan for any premia financed.

(iii) Early repayment

Pursuant to article 30.1 of Law 16/2011, the borrower shall be entitled at any time to discharge fully or partially his obligations under the Loan Agreement. In such cases, the borrower shall be entitled to a reduction in the total cost of the credit, even if they had already been paid, such reduction consisting of the interest and the costs for the remaining duration of the contract.

In addition, pursuant to article 30.6 of Law 16/2011, the early repayment of loans that have insurance linked to the repayment of the loan or whose subscription has been conditioned on the granting of the loan or its concession under the conditions offered, will result in the return by the insurance entity to the borrower of that part of the insurance premium not consumed.

If as a result of the above, the consumer has any claim against BANCO CETELEM, such claim may be set-off by the Borrower against amounts due and payable under the Loan. If that were the case, BANCO CETELEM has agreed to indemnify the Issuer for any such set-off amount and, if any offsetable claim by the consumer exceeds the outstanding amount under the corresponding the Loan, BANCO CETELEM has agreed to compensate the Borrower for such excess and hold harmless the Issuer. In case that BANCO CETELEM defaulted under its commitments to maintain the Issuer unharmed, the Issuer might potentially suffer the loss of any amounts so offsetted.

Pursuant to the Master Receivables Sale and Purchase Agreement, on any Collection Settlement Date, the Seller shall deposit in the Reinvestment Account an amount equivalent to any positive Corrected Available Collections which will include the amount was set-off by the Borrower based on the above.

(iv) Abusive clauses

There is an increasing tendency in recent years for Spanish borrowers to file claims against financial institutions, including allegations that certain provisions included in the agreements signed by the consumers are unfair (abusivas) and therefore null and void.

In this regard, there is a strong trend in Spanish case law that leans towards declaring the unfairness of many standard clauses regularly used by financial institutions in the consumer financing market.

Such case law is not static and has changed though the time in certain instances as a consequence of new legal developments and/or the change of position of higher courts; this, in some instances, has caused a variety of different decisions by courts on similar issues throughout time and, ultimately, uncertainty amongst lower courts, borrowers and lenders on the outcome of the disputes.

In relation to the above, the main consequence of a clause in a consumer loan being declared unfair by a court is that such clause will be considered null and void. In practice, this implies that the loan agreement will have to be interpreted as if the clause had never been in the loan agreement, whilst the rest of the clauses in the loan agreement will remain binding for the parties, provided the loan agreement can survive without the unfair clause.

In case of enforcement, if the court assesses the existence of any unfair clause in the loan agreement, the judge will (i) declare the inadmissibility of the enforcement (if the nullity of the clause precludes the enforcement) or (ii) accept enforcement omitting the application of the unfair clause (if the absence of such clause does not preclude the lender initiating enforcement proceedings).

Clauses under challenge can be divided into two main groups:

1. clauses with financial content; and
2. clauses that trigger an event of default and early termination events.

Challenges on clauses with financial content generally affect the loan's ability to generate income (or the amount thereof), whilst clauses governing events of default and early termination clauses are likely to affect the lender's ability to accelerate the loan and recover amounts due through a specific foreclosure or enforcement proceedings.

If a clause generating income for the Issuer is declared null and void, the Issuer will no longer be allowed to apply such clause and it will be required to return to the borrower all amounts unduly collected by the Fund as a result of application of such clause with financial content.

On the other hand, if a clause triggering an event of default or early termination is declared null and void, the Issuer will forego (or limit) its rights to access foreclosure or enforcement proceeding.

Thus, there exists a risk that, should a claim alleging the abusiveness of any of these clauses be made, they end up being declared unfair by the Spanish courts.

Any Spanish court judgment declaring the unfairness of a clause of a loan may instigate other borrowers in similar contracts to initiate claims based on similar grounds.

This could create potential liabilities and, eventually, affect the Issuer's ability to generate income, which in turn, if subject to mass litigation, could have a material adverse effect on the Issuer's business and financial condition

Additional information on Covid-19 Moratoriums

(i) Covid-19 Legal Moratoriums

In order to tackle the Covid-19 crisis, measures under the moratorium established under Royal Decree-Law 11/2020 implied, for persons that provide evidence of circumstances of economic vulnerability: (i) a temporary suspension of the contractual obligations under the relevant loan or credit (i.e. while the moratorium is in force, no principal or interests must be paid under the relevant loan or credit and no interests (either ordinary or default interests) shall be accrued); (ii) an extension of the final maturity of these loans or credits equivalent to the duration of the moratorium (therefore, instalments affected by the moratorium shall not be payable upon the end of the three-month suspension and the remaining instalments must be postponed on the same duration of the moratorium); and (iii) personal guarantors in circumstances of economic vulnerability due to the Covid-19 crisis can benefit from the moratorium, being entitled to request lenders to pursue and exhaust the main debtors' assets before claiming the secured debt from them, even in those cases where the relevant guarantor or security provider has expressly waived the excussion benefit (*beneficio de excusión*) foreseen in Spanish Civil Code.

The deadline for the submissions of requests for these moratoriums was 29 September 2020 as per the Royal Decree-Law 26/2020.

However, on 2 February 2021, the Council of Ministers adopted the Royal Decree-Law 3/2021, which established a new deadline for submissions of requests for these moratoriums until 30 March 2021. In this regard, article 7 of Royal Decree-Law 3/2021 limits the eligibility to those debtors that, for any particular financing, either (i) are requesting a Covid-19 Moratorium (i.e., Covid-19 Legal Moratorium and/or Covid-19 Contractual Moratorium) for the first time, or (ii) that have already exercised one or several Covid-19 Moratoriums (i.e., Covid-19 Legal Moratorium and/or Covid-19 Contractual Moratorium) for a cumulative period not exceeding nine months. Article 8 establishes a limit of nine months as maximum aggregated duration of Covid-19 Moratoriums (i.e., Covid-19 Legal Moratorium and/or Covid-19 Contractual Moratorium) –from 30 September 2020. Notwithstanding the above, those moratoriums granted either (i) before 30 September 2020 or (ii) between 30 September and the entry into force of Royal Decree-Law 3/2021 (i.e. 3 February 2021) will

maintain the conditions and duration originally agreed (*i.e.*, can have a total duration exceeding nine (9) months –provided that these cannot exceed in any case twelve (12) months).

Hereinafter, the above-mentioned moratoriums foreseen in Royal Decree-Law 11/2020 (as amended or complemented by, among others, Royal Decree-Law 26/2020 and Royal Decree-Law 3/2021), together with any future measures (*i.e.*, settlement, suspension of payments, rescheduling of the amortisation plan or other contractual amendments resulting from or arising from mandatory provisions of law or regulation granted in connection with measures in force to tackle the effects of the Covid-19) will be referred to as the “**Covid-19 Legal Moratoriums**”.

(ii) Covid-19 Contractual Moratoriums

In addition to Covid-19 Legal Moratoriums, any party to a loan agreement -and not only those in circumstances of economic vulnerability- could request an additional voluntary moratorium provided that the lender adhered to the provisions of an industry-wide decision. The Seller adhered to the industry-wide decision sponsored by AEB (*Asociación Española de Banca*) on 16 April 2020 on the deferment of financing transactions for clients affected by Covid-19.

The provisions under such industry-wide decision were in line with the guidelines published by the EBA on 2 April 2020, which recognised voluntary moratoriums or deferment of payments arising from credit transactions, when they result from, among others, the agreement of an industry-wide association. Such non-legislative moratorium could be requested until 30 September 2020 and, among other options, implied a temporary suspension of the contractual obligations relating to principal repayment, while payment of interest remained unaffected. However, new guidelines were published by the EBA on 2 December 2020 (EBA/GL/2020/15). In line with the latter guidelines, AEB issued an addendum to the industry-wide decision establishing a new deadline for submissions of requests for these moratoriums until 30 March 2021. Under the addendum, those moratoriums requested by the relevant debtor after 30 September 2020 are subject to a maximum duration of six (6) months –in the event that several moratoriums (*i.e.*, Covid-19 Legal Moratorium and/or Covid-19 Contractual Moratorium) had been previously granted for a period of time lower than six (6) months, then the entity will be able to grant a Covid-19 Contractual Moratorium for an additional period of time that aggregates up to six (6) months.

Hereinafter, such voluntary moratoriums or deferment of payments, together with any future measures (decisions or recommendations of public authorities or conventions, arrangements or recommendations of institutional or industry associations granted in connection with measures in force to tackle the effects of the Covid-19), will be referred to as the “**Covid-19 Contractual Moratoriums**”.

Hereinafter, the Covid-19 Contractual Moratoriums and the Covid-19 Legal Moratoriums will be referred to as the “**Covid-19 Moratoriums**”.

2.2.1. Legal jurisdiction by which the pool of assets is governed

The securitised assets are governed by the Spanish laws. In particular, the securitised Receivables are governed by the Consumer Protection Law, Law 16/2011 (as regards the Additional Receivables, they will be governed by the aforementioned law or any other relevant regulation that might replace them), and Law 28/1998, shall apply, as the case may be. Law 16/2011 does not apply to loans in force on the effective date of such Law as provided for in its Transitional Provision.

The main novelties of Law 16/2011 lie in the definition of consumer credit, information duties, related contracts, the right to withdrawal, and arbitration as a means for resolving disputes. These statutory novelties are the result of the transposition into Spanish Law of Directive 2008/48/EC of the European Parliament and of the Council of 23 April 2008 on credit agreements for consumers and repealing Council Directive 87/102/EEC of the Council.

2.2.2. General characteristics of the borrowers, Receivables and the economic environment, as well as any global statistical data referred to the securitised assets

The assignment by BANCO CETELEM of the Initial Receivables, in an undetermined number of Receivables, the total Outstanding Principal Balance of which will be equal to the Maximum Receivables Amount, *i.e.*, EUR 1,000,000,000.00 or an amount slightly lower and as close as possible to that amount, will be effective from the Issuer Incorporation Date and will be documented by means of the Master Sale and Purchase Agreement, to be executed concurrently with the Deed of Incorporation, which shall itemize each of the Initial Receivables assigned to the Fund, and provide their main features thus allowing them to be identified on an individual basis. The difference between the Maximum Receivable Amount and the amount of the Initial Receivables effectively transferred to the Fund on the Issuer Incorporation Date shall be credited to the Reinvestment Account.

Any Receivables to be offered to the Fund by the Seller as at the Issuer Incorporation Date, will be randomly selected from the Preliminary Portfolio as defined below.

The preliminary loan portfolio from which the Initial Receivables shall be extracted for assignment to the Fund at the Issuer Incorporation Date comprises 97,911 Loan Agreements, with an outstanding principal at 25 May 2021 of EUR 1,108,221,562.15) (the “**Preliminary Portfolio**”).

The outstanding balance (the “**Outstanding Balance**”) of a Receivable means, on any date and in relation to each Loan Agreement, the Outstanding Principal Balance and interest components outstanding under such Loan Agreement.

“**Outstanding Principal Balance**” (“*Saldo Vivo de Principal*”) means, on any date and with respect to each Purchased Receivable, the outstanding principal amount under the corresponding Loan from which such Purchased Receivable derives, as calculated on the basis of the applicable amortisation schedule, the existence of any principal instalments due but unpaid as at such date.

“**Performing Purchased Receivable**” means any outstanding Receivable other than a Defaulted Purchased Receivable or a Delinquent Purchased Receivable or a Written-off Purchased Receivable.

“**Default Amount**” means, on any Settlement Date and with respect to any Receivable which has become a Defaulted Purchased Receivable during the preceding Calculation Period, the Outstanding Principal Balance of such Purchased Receivable on the preceding Calculation Date.

“**Defaulted Purchased Receivable**” means any Purchased Receivable (i) whose full Outstanding Balance has been declared due and payable by the Servicer and/or (ii) has more than five (5) unpaid Instalments and/or (iii) has been transferred to the litigation department of the Servicer because the Purchased Receivable has more than two (2) unpaid Instalments and the corresponding Borrower has made a fraudulent representation on or before the date of signing of the Loan Agreement.

“**Delinquent Purchased Receivable**” means any Receivable in respect of which at least one Instalment is due and unpaid and which is not a Defaulted Purchased Receivable.

“**Written-off Purchased Receivable**” means any Purchased Receivable which has been written-off by the Servicer pursuant to the Servicing Agreement.

Out of the Preliminary Portfolio, 85,783 Loan Agreements, (94.22% in terms of outstanding principal) include a reservation of title clause with respect to the purchased Vehicle for the benefit of BANCO CETELEM, but not all such reservations of title have been entered in the Chattels Register. Where initially provided for in the Loan Agreement, the reservation of title can be registered with the Chattel Register by the Seller after the Loan is arranged if the Borrower shows any sign whatsoever of inconsistency in payment of Loan instalments, and that entry in the Chattel Register shall have the same legal effects as if it had been made upon the loan being arranged (although the effects of registration will only apply once registration has actually been made).

The reservation of title may be formalized in a private document (by means of an official model or not) or as a public document (i.e. notarization), and its registration in the Chattels Register is optional. As established in section 2.2 of the Additional Information, all Loan Agreements of the Preliminary Portfolio, have been formalized in a private document but not all of them contain reservation of title clauses (*reserva de dominio*) in order to secure the Receivables.

All Loan Agreements of the Preliminary Portfolio with the reservation of title clause were executed in the form of the official model provided by the National Association of Credit Financial Institutions (ASNEF) and those representing 45.20% have been registered in the Chattels Register.

Under a reservation of title, title to the Vehicles is not transferred to the Borrower absolutely until (*dominio*) the Borrower has fulfilled all the obligations under the relevant Loan Agreement. Once the Borrower has fulfilled all obligations under the Loan Agreement, absolute title (*dominio*) to the relevant Vehicle shall be acquired by the Borrower, but the Borrower cannot until then dispose of the Vehicle, other than with the consent of the beneficiary of the reservation of title.

If the reservation of title is entered in the Chattels Register, it shall be enforceable as against bona fide third parties following registration.

Upon being entered in the Chattels Register, the reservation of title vests the holder with a number of privileges over other creditors of the Borrower, such as the preference and priority established in Articles 1922 and 1926 of the Civil Code, and the creditor being considered to be have a special privilege, all in terms of Article 16.5 of Law 28/1998 and Article 90.4 of the Insolvency Law. In addition, once the reservation of title has been entered in the Chattels Register, their holder may avail of the specific actions and proceedings provided for in Law 28/1998 and the Civil Procedure Law. There are no plans for the assignment of the Receivables and, concurrently, the benefit of reservations of title, to be entered in the Chattels Register in favour of the Fund. The Chattels Register is interconnected with the Vehicles Register at the Traffic Directorate General, which is a public register the purpose of which is informing as to title to a Vehicle, its specifications, the number of previous owners, its administrative status (whether it is authorised to be used on the roads), the technical Vehicle inspection (MOT) expiry date and charges or liens preventing the Vehicle from being transferred.

In the event that the acquisition agreement is formalized in the official form or as a public document, in accordance with sections 4 and 5 of article 517 of the Spanish Civil Procedure Law, and registered with the Chattels Register, the recovery procedure is made through a notary public.

On the contrary, non-registration of a reservation of title clause involves that the agreement shall exclusively have inter-partes effects (*i.e.*, it would be unenforceable against third party purchasers in good faith, whose acquisition would be valid in any case, without prejudice to Seller's damages actions against the Borrower arising from the latter's failure to abide by the non-disposal covenant).

In the event that a Loan agreement is formalized in a private document (not an official form), it will have no access to the Chattels Register, the procedure for recovering the vehicle and the amounts due would be carried out by means of a declaratory procedure.

BANCO CETELEM's rights under insurance policies with a payment protection plan (death, total permanent disability due to accident, temporary disability, unemployment or Guaranteed Auto Protection insurance), if any, attached to the Loans shall be assigned to the Fund, but compulsory insurance policies taken out for the vehicles are excluded from assignment. In any case, it is not by any means a requirement for Borrowers to take out insurance policies with a payment protection plan.

Review of the selected assets securitised through the Fund upon being established.

Acting as independent third party, DELOITTE has reviewed certain features and attributes, and also the fulfilment of the Eligibility Criteria on a sample of the 97,911 Loans of the Preliminary Portfolio from which the Initial Receivables shall be extracted. Additionally, DELOITTE has verified the data disclosed in the following stratification tables in respect of the Initial Receivables portfolio.

The results, applying a 99% confidence level, are set out in a Special Securitisation Report prepared by DELOITTE for the purposes of complying with article 22.2 of the EU Securitisation Regulation. BANCO CETELEM, as Originator, confirms that no significant adverse findings have been detected.

The Management Company has requested and has been granted from the CNMV the exemption to submitting the special securitisation report according to second paragraph of Article 22.1 c) of Law 5/2015.

2.2.2.2. Additional Receivables

Under the Master Receivables Sale and Purchase Agreement, the Management Company, acting for and on behalf of the Fund and the Seller have agreed, subject to the satisfaction of the conditions precedent listed in section 2.2.2.2.2 of this Additional Information, to sell, transfer and assign Additional Receivables and the related Ancillary Rights on each applicable Subsequent Purchase Date during the Revolving Period.

2.2.2.2.1 Revolving Period

On each Subsequent Purchase Date during the Revolving Period, Available Principal Proceeds may be used by the Issuer to purchase Additional Receivables in accordance with the Principal Priority of Payments. However, following the occurrence of a Revolving Period Termination Event, the Revolving Period will terminate and no Additional Receivables may be sold by the Seller to the Issuer after such date. Available Principal Proceeds will then be distributed in accordance with the terms of the Principal Priority of Payments and used to redeem the Notes in the order of priority set out therein which may lead to the Noteholders receiving redemptions earlier than expected.

Early termination of the Revolving Period:

There will be an early, definitive termination of the Revolving Period on the date on which any of the following circumstances occurs, if applicable (the “**Revolving Period Termination Event**”):

- (a) the Cumulative Defaulted Purchased Receivables Ratio is greater, on the relevant Settlement Date on which such ratio will be calculated by the Management Company, than:
 - a. 1.50 per cent. if such Settlement Date is between the Issuer Incorporation Date and the Settlement Date falling in December 2021 (excluded);
 - b. 2.25 per cent. if such Settlement Date is between the Settlement Date falling in December 2021 and the Settlement Date falling in June 2022 (excluded);

for clarification purposes, the occurrence of this event will also constitute a Sequential Redemption Event;

- (b) a Seller Event of Default has occurred and is continuing;
- (c) a Servicer Termination Event has occurred and is continuing;
- (d) in case that no replacement Swap Counterparty has been found after 30 Business Days have elapsed following the occurrence of an early termination event of any Interest Rate Swap Agreement;
- (e) on any Payment Date after giving effect to the Interest Priority of Payments, there are insufficient Available Interest Proceeds in order to fund the Liquidity Reserve up to the Liquidity Reserve Required Amount;
- (f) on any two consecutive Payment Dates the Issuer Available Cash has exceeded twenty (20) per cent. of the Principal Amount Outstanding of the Notes;
- (g) on any Payment Date the debit balance of the Principal Deficiency Sub-Ledger corresponding to the Most Junior Class of Notes exceeds 0.5% of the Outstanding Principal Balance of the Aggregate Securitised Portfolio as of the immediately preceding Calculation Date. For clarification purposes, the occurrence of this event will also constitute a Sequential Redemption Event; or
- (h) an Accelerated Redemption Event has occurred and is continuing,

provided always that the occurrence of the events referred to in items (a) to (g) shall trigger the commencement of the Normal Redemption Period and the occurrence of the event referred to in item (h) shall trigger the commencement of the Accelerated Redemption Period.

For these purposes:

“Seller Event of Default” means the occurrence of any of the following events:

2.2.2.2.2 Procedure for acquiring Additional Receivables

Subsequent Purchase Dates

On each Subsequent Purchase Date (without prejudice to the substitution of Receivables by Substitute Receivables following the termination of the assignment of any Receivables which may have been found to be Non-Compliant Purchased Receivables) during the Revolving Period and subject to the satisfaction of the Conditions Precedent to the Purchase of Additional Receivables, the Issuer, represented by the Management Company, shall purchase from the Seller Additional Receivables deriving from Loan Agreements.

“**Subsequent Purchase Date**” means either the fourth (4th) Business Day prior to any Payment Date of each month during the Revolving Period, or any date agreed between the Seller and the Management Company falling between the current Collections Settlement Date and the current Payment Date of each month, on which the Seller may sell, transfer and assign Additional Receivables to the Issuer pursuant to the Master Receivables Sale and Purchase Agreement. The first Subsequent Purchase Date will be fourth Business Day prior to the first Payment Date.

Purchase of Additional Receivables

Conditions Precedent to the Purchase of Additional Receivables

Pursuant to the provisions of the Master Receivables Sale and Purchase Agreement, the Issuer may purchase Additional Receivables from the Seller. The Additional Receivables offered will be randomly selected by the Management Company from existing loan receivables held by the Seller as at the Initial Purchase Date and/or from loan receivables originated by the Seller after the Initial Purchase Date. The Management Company, for and on behalf of the Issuer, has agreed to purchase from the Seller the Additional Receivables pursuant to the terms and conditions set forth below.

The Management Company shall verify that the conditions precedent to the purchase of eligible Additional Receivables (the “**Conditions Precedent to the Purchase of Additional Receivables**”) are satisfied on the applicable Subsequent Purchase Date.

Pursuant to the provisions of the Master Receivables Sale and Purchase Agreement, the Conditions Precedent to the Purchase of Additional Receivables on the applicable Subsequent Purchase Date are the following:

- a) no Revolving Period Termination Event has occurred prior to or will occur on the relevant Subsequent Purchase Date;
- b) the Seller has validly made a Purchase Offer of Additional Receivables to the Management Company pursuant to the terms of the Master Receivables Sale and Purchase Agreement;
- c) the selected Additional Receivables comply with the Eligibility Criteria on such applicable Subsequent Purchase Date as per section 2.2.8.3;

- d) the representations and warranties made, and the undertakings given, by the Seller under the Master Receivables Sale and Purchase Agreement remain true and accurate in all material respects on the relevant Subsequent Purchase Date (for the avoidance of doubt, other than the Receivables Warranties made by the Seller);
- e) the Seller has not breached its obligations under section 2.2.9 of this Additional Information in case there has been a breach of the Seller's Receivables Warranties; and
- f) the Seller's latest available financial statements which shall have been audited, have been registered with the CNMV within four months after such date, and the auditor's report does not contain any qualification.

Purchase Procedure of Additional Receivables

Prior to each Subsequent Purchase Date on which it is expected that new Additional Receivables will be purchased by the Issuer from the Seller in accordance with the Master Receivables Sale and Purchase Agreement, the purchase procedure of such new Additional Receivables shall be the following:

- a) Two (2) Business Days before the corresponding Subsequent Purchase Date, the Management Company shall notify the Seller of the estimated Available Purchase Amount.
- b) On the corresponding Subsequent Purchase Date, the Seller shall send to the Management Company a Purchase Offer for the transfer of new Additional Receivables.
- c) Upon receipt of the Purchase Offer, the Management Company shall verify the satisfaction of the Conditions Precedent to the Purchase of Additional Receivables and shall inform the Seller of its acceptance or, as the case may be, its refusal (subject to appropriate motivation) to purchase the Additional Receivables stated in the Purchase Offer of new Additional Receivables.
- d) In case of acceptance of the Purchase Offer, the Management Company shall send to the Seller a Purchase Acceptance Notice.
- e) The Outstanding Principal Balance of new Additional Receivables that may be purchased by the Issuer on the corresponding Subsequent Purchase Date (such balance being referred to the close of business of the immediately Business Day prior to a Subsequent Purchase Date) shall not exceed the Available Purchase Amount which has been notified to the Seller as specified in sub-paragraph (a) above.
- f) The Management Company, acting for and on behalf of the Issuer, shall give the appropriate instructions to the Account Bank for the Purchase Price of the Additional Receivables to be debited from the Reinvestment Account (to the extent of the then Available Principal Proceeds) to be paid to the Seller on the next immediate Payment Date in accordance with the applicable Principal Priority of Payments. The Management Company shall ensure that the Purchase Price of Additional Receivables shall be duly paid by the Issuer to the Seller on the relevant Payment Date in accordance with the applicable Principal Priority of Payments.

Purchase Offer of Additional Receivables

The Seller shall send to the Management Company the electronic files, in the format and with the content agreed as per the Master Receivables Sale and Purchase Agreement, with account by account information related to the provisional eligible pool of Receivables, from which the Management Company will select randomly those Receivables complying with the Eligibility Criteria.

The Seller shall indicate in each purchase offer of Additional Receivables (i) the number of the selected Receivables, (ii) the aggregate Outstanding Principal Balance of the selected Receivables, (iii) the average interest rate of the selected Receivables weighted by their respective Outstanding Principal Balance and (iv) any additional information relating to the related Ancillary Rights (the "**Purchase Offer**").

Purchase Acceptance of Additional Receivables

Upon receipt of a valid Purchase Offer made by the Seller according to the above-mentioned Purchase Procedure of Additional Receivables, the Management Company shall verify the satisfaction of the Conditions Precedent to the Purchase of Additional Receivables.

The Management Company shall be obliged to refuse any Purchase Offer made by the Seller if the Conditions Precedent to the Purchase of Additional Receivables will not be fully satisfied on the relevant Subsequent Purchase Date.

If the Conditions Precedent to the Purchase of Additional Receivables will be satisfied on the relevant Subsequent Purchase Date, the Management Company shall accept any Purchase Offer made by the Seller according to the above-mentioned purchase procedure of Additional Receivables (subject to the existence of enough Available Purchase Amount) and shall inform the Seller by sending a Purchase Acceptance Notice on the relevant Subsequent Purchase Date.

Once such Purchase Acceptance Notice has been received by the Seller, the Management Company shall be bound by the terms of such Purchase Acceptance Notice, the assignment of the selected Receivables listed in the relevant Purchase Offer becoming effective upon its delivery according to the above procedure.

Postponement of Purchase of Additional Receivables

If, for any reason whatsoever, the Seller is unable to sell, assign and transfer, any selected Receivables on any Subsequent Purchase Date, such Seller may sell such selected receivables on any following Subsequent Purchase Date(s) *provided that* the Conditions Precedent to the Purchase of Additional Receivables are satisfied on such following Subsequent Purchase Date(s). In such event, and subject to no Revolving Period Termination Event having occurred, the amounts standing at the Reinvestment Account which would otherwise have been allocated by the Management Company to purchase Additional Receivables on the relevant Subsequent Purchase Date will be kept as part of the Purchase Reserve for the purpose of paying for the purchase of Additional Receivables on any following Subsequent Purchase Dates.

“Purchase Reserve” means the ledger maintained during the Revolving Period by the Management Company on behalf of the Issuer which records on any date any amount (i) credited to the Reinvestment Account on any Payment Date by application of the Available Principal Proceeds remaining prior to application of item (2) according to the Principal Priority of Payments, and (ii) debited from the Reinvestment Account on any Subsequent Purchase Date for the purpose of payment of the Purchase Price of Additional Receivables in the next immediate Payment Date. Upon termination of the Revolving Period, any Purchase Reserve balance will be part of the Available Principal Proceeds (during the Normal Redemption Period) or the Available Distribution Amounts (during Accelerated Redemption Period) to be applied according, as applicable, to the Principal Priority of Payments or the Accelerated Priority of Payments respectively.

2.2.2.2.3 Seller’s Undertakings

Pursuant to the provisions of the Master Receivables Sale and Purchase Agreement the Seller undertakes the following:

1. *General Undertakings:*

- (a) to perform all its undertakings and comply with all its obligations under the Master Receivables Sale and Purchase Agreement and, as the case may be, under the Transaction Documents to which it is a party, in good faith, fully, in a timely manner and more generally, to the best interest of the Issuer;
- (b) to comply with any reasonable directions, orders and instructions that the Management Company may, from time to time, give to it in accordance with the Master Receivables Sale and Purchase Agreement and the Transaction Documents to which it is a party and which would not result in it

committing a breach of its obligations under the Master Receivables Sale and Purchase Agreement or under any of the Transaction Documents to which it is a party or in an illegal act; and

- (c) to carry out, on due date and in full, the undertakings, commitments and other obligations that may be made incumbent upon it by the Transaction Documents relating to the Purchased Receivables and the exercise by the Management Company, acting for and on behalf of the Issuer, of its rights under the Master Receivables Sale and Purchase Agreement and/or any other Transaction Document to which it is a party shall not have the effect of releasing the Seller from such obligations.
2. *Authorisations*: to obtain and maintain all authorisations, approvals, consents, agreements, licences, exemptions and registrations and to make all filings or obtain all documents, including (without limitation) in relation to the protection of personal data, needed at any time for the purposes of:
- (a) the performance of the Master Receivables Sale and Purchase Agreement and the transactions contemplated in the Transaction Documents to which it is a party; and
 - (b) carrying on its activities (to the extent that such authorisations, approvals, consents, agreements, licences, exemptions, registrations, filings or documents are necessary for the Servicer to observe or to perform its obligations under the Transaction Documents to which it is a party).
3. *Identification of the Receivables*: to identify and individualise without any possible ambiguity in its computer and accounting systems each Receivable listed on any Purchase Offer and upon receipt of a Purchase Acceptance Notice from the Management Company, acting for and on behalf on the Issuer, each Receivable sold by it to the Issuer on the corresponding Purchase Date and until the Receivable is fully repaid or repurchased by the Seller (if any), through the recording of such Receivable relating to each Borrower on the relating computer file corresponding to such Borrower as belonging to the Issuer.
4. *Information*: to notify immediately the Management Company, upon becoming aware of the same, of:
- (a) the occurrence of any Seller Event of Default;
 - (b) any inaccuracy of any representation or warranty made, and of any breach of the undertakings given by it under the terms of the Transaction Documents to which it is a party, as soon as it becomes aware of any such inaccuracy or breach;
 - (c) the occurrence of any event which will result in any representation or warranty of the Seller under the Transaction Documents to which the Seller is a party not being true, complete or accurate any longer; or
 - (d) any judicial proceedings initiated against it which might materially and adversely affect the title of the Issuer to, or the interest of the Issuer in, the Receivables.

Further to the above, in order for any Receivables to be assigned to and transferred to the Fund on any Purchase Date (for the purposes of this section, the "**New Receivables**") it is required that:

- i) The New Receivables being the subject of such transfer must meet the Incremental Portfolio Criteria; and
- ii) the Aggregate Securitised Portfolio (including the New Receivables being the subject of such transfer) must meet the Aggregate Securitised Portfolio Criteria.

- (a) the average interest rate of the New Receivables together with those belonging to the Performing Purchased Receivables, weighted by their respective Outstanding Principal Balances *provided that*, for the avoidance of doubt, handling fees and any amounts payable on a monthly basis to any third party different to the Issuer in connection with any New Receivable are excluded), as calculated as specified in the relevant Purchase Offer, shall be at least equal to six (6.00) per cent;

2.2.3. Legal nature of the assets

The selected loans to be securitised through the Fund are loans granted by BANCO CETELEM to individuals resident in Spain to finance the purchase of New Vehicles, Used Vehicles or Recreational Vehicles without special security, other than the reservation of title clause in favour of BANCO CETELEM to the Vehicle purchased, and if applicable any related insurance premia. Out of the Preliminary Portfolio loans at 25 May 2021, 87,085 Loans (94.68% in terms of outstanding principal) have a reservation of title clause.

The assignment of the Receivables to the Fund shall be done directly by means of sale by the Seller and acquisition by the Fund in accordance with the provisions of section 3.3 of the Additional Information.

2.2.4. The expiry or maturity date(s) of the assets

Each Receivable has a final maturity date without prejudice to periodic partial repayment instalments, on the specific terms applicable to each of them.

Borrowers may at any time prepay all or part of the Outstanding Principal Balance corresponding to a Receivable, in which case the accrual of interest on the part prepaid will cease as of the date on which repayment occurs.

The maturity date of any Receivable will not in any case exceed the Final Maturity Date.

2.2.5. The amount of the assets

The Maximum Amount of the Outstanding Principal Balance of the Receivables pooled in the Fund as of the Issuer Incorporation Date will be equal to or slightly lower than the Maximum Receivables Amount.

The Preliminary Portfolio from which the Receivables to be assigned on the Issuer Incorporation Date will be extracted is composed by 97,911 Receivables, with an Outstanding Principal Balance of EUR 1,108,221,562.15 as of 25 May 2021.

2.2.6. Loan to value ratio or level of collateralisation

Receivables will not (at the time of their purchase by the Issuer) benefit from any real estate mortgage security and the information as to the loan to value ratio does not therefore apply.

Regarding those loans belonging to the Preliminary Portfolio which benefit from a reservation of title clause, the level of collateralisation is given by the ratio of (x) the initial loan amount to (y) the financed Vehicle sale value as of the loan origination date.

This information is shown in section 2.2.2.1 table (n).

2.2.7. The method of origination or creation of assets, and for loans and credit agreements, the principal lending criteria and an indication of any loans which do not meet these criteria and any rights or obligations to make further advances

The loans belonging to the Preliminary Portfolio have been granted by BANCO CETELEM following its usual credit risk analysis and assessment procedures for granting loans and credits without mortgage security to individuals for financing motor vehicles.

The underwriting standards pursuant to which the Receivables have been originated and any material changes from prior underwriting standards shall be fully disclosed by BANCO CETELEM to the Management Company who will inform to investors without undue delay.

All Loans belonging to the Preliminary Portfolio have been granted according to the policies described in section 2.2.7.1 below (which are also currently in place at BANCO CETELEM).

The Additional Receivables to be assigned to the Issuer will be granted in accordance with BANCO CETELEM's policies described in the section 2.2.7.1.

BANCO CETELEM undertakes to disclose to the Management Company any material changes occur to policies described in section 2.2.7.1 below as soon as they are approved.

For the purpose of compliance with the requirements stemming from Article 243 of the CRR, at the time of their inclusion in the securitisation, the underlying exposures meet the conditions for being assigned under the Standardised Approach, and taking into account any eligible credit risk mitigation, a risk weight equal to 75% on an individual exposure basis.

2.2.7.1. Criteria and procedures to grant loans; risk management and monitoring

The risk policy for BANCO CETELEM's customers and intermediaries is built upon a number of rules which set the minimum and critical level to comply with and to respect so that our company can meet any regulation applicable to our business as well as its commercial objectives while controlling its risk exposure.

These rules are set after considering and analysing all the internal and external factors that affect the credit risk management of BANCO CETELEM.

These rules are stable and coordinated with BNP PARIBAS risk department. Monthly committees are carried out and the decisions taken are monitored to control any deviation from the expected objective (risk and bookings).

Follow-ups of different indicators are performed, after which measures are adapted if necessary.

CHANNELS FOR CUSTOMERS' ACQUISITION

BANCO CETELEM carries out its consumer credit activity through intermediaries (in case of auto loans through car dealerships) or directly with the final customer. Loans can be oriented to individuals, professionals or companies who need financing either for private or mixed use (mixed and professional).

Within this policy framework ("**BANCO CETELEM Policies**"), funded and reimbursed loans can only be processed in euros.

Customers may be categorized using selection and decision-making process based on BANCO CETELEM's knowledge and their risk profile. The segmentation will be based on the level of the information available in the very moment of granting the loan and on the associated risk.

Customers are divided into two main groups:

- Known customers, with available information in internal and external database (described as follow) ensuring a more accurate granting process.
- Unknown customers, neither internally nor in the market.

Prospects can be approached directly or through intermediaries depending on the prospect's financial needs.

Acquisition through intermediaries (indirect channel):

- In this case, BANCO CETELEM's target is to finance loans, durable goods or services, through physical or online point of sales (ie. car dealerships in case of auto loans), in which the delivery of the goods or services is part of the financing process.
- To do this, merchant partners must be able to sell, explain and create credit applications by meeting the customers and gathering their information and documents. The retailers must have a contract with BANCO CETELEM and be controlled as specified in BANCO CETELEM Policies. The final decision to finance an operation is from BANCO CETELEM.

CREDIT PROCESS: ORIGATION AND UNDERWRITING POLICIES

The principles described below are applied to all business lines of BANCO CETELEM. The decision-making is made in four chronological steps:

Assessment of the credit application:

- The scope of the budget analysis is defined locally according to BANCO CETELEM's legal context and our market. The information required must be appropriate for the loan amount and the acquisition channel used.
- The customer's budget must be assessed in all operations and considered in the decision.

Decision-making, an expert system allows to:

- Control the risk and validate whether it is appropriate or whether the rules are properly implemented.
- Gain in productivity while limiting human intervention.
- Track the decisions for potential audits or changes in BANCO CETELEM Policies.

Financing of the credit requested:

- The operation can be settled after checking that the conditions set during the decision process are still respected at the moment of the clearance.
- Before the disbursement, an anti-fraud check is conducted in order to detect any abnormal activity and dispel any doubt regarding the destination of the funds.

Control and monitoring:

- The following indicators are used in BANCO CETELEM to assess the quality of the production and the portfolio depending on each activity, channel and segment:
 - Demand profile
 - Amount of production and number of contracts
 - Acceptance and transformation rate

- Overridden cases
- Automatic decision rates
- Demand related to a refusal
- Early risk indicators
- Risk indicators of the Portfolio

The compliance with the rules described in these four steps and the measure of its efficiency must be carried out through the early risk monitoring of the production made.

DATA AND INFORMATION GATHERING

BANCO CETELEM gathers as much information as possible regarding the customer and its project, respecting the limits of the practices consented in the local market in order to:

- Assess the risk properly
- Enhance and optimize future scoring models
- Gather as much information as possible to improve the efficiency of collection
- Improve aftersales and marketing actions

In Automobile activity, a statistical validation of the quality of the information is performed using the Retail reliability tool.

The elements to be controlled and the control methods are subject to adapted rules based on:

- The origin of the request
- The acquisition channel
- The amount of the credit
- The record of the previous checks
- The history of the relationship with the customer
- The customer's commitment in agreement with the signed contract
- Cost of access to the external data

Databases consultation:

- Internal: customer database
- External: Equifax Bureau & Score, Social Security Treasury (TGSS), etc.

Other calculation before the authorization:

- Score calculation
- Budget calculation
- Customer profile
- Internal payment behaviour

Identity / Authentication

BANCO CETELEM Spain must authenticate properly the identity of the customer / intermediary, either with the documentation produced by the customer/intermediary themselves or by consulting internal or external databases.

When checking the documentation, is mandatory verifying the customer and company identity, and doing validations of the customer ID and the Number of Social Security Affiliation.

Customer's credit history

The credit track record is performed by consulting internal and external databases: Equifax and Experian negative credit bureaux: they are inquired automatically and systematically for all prospects.

The credit file contains negative bureau information on unpaid transactions reported by their members. Among the members, there are financial institutions, companies offering leasing & service providers or TELCO's.

The judicial file contains information on claims from public information such as the Bank of Spain or bulletins issued by the different provinces, media, Spain's Company Registry. Samples of those claims would be taxes, traffic violation tickets or social security contributions.

Score

BANCO CETELEM uses a scoring system. The Score is a ranking tool which allows ranking requests from the least risky to the riskiest one. The scores employed into the decision are validated by Central Scoring Central team. Each activity has specific scores, built upon past repayment behaviours observed in this very activity. In order to assess whether a definite file is likely to move on to litigation in the future, we have two types of scores:

- The specific Octroi score which ranks an operation according to some socio-demographic information, and which assesses new customers creditworthiness
- There is an Auto classic score, only for individuals & professionals under financing product, companies and leasing operations are excluded
- The outstanding-related score (SQE) is a behavioural score calculated on a monthly basis, based on the past repayment behaviour of customers in order to assess the future risk exposure. It is a unique score from a customer point of view and valid for all activities.

Every six months the Score is reviewed in a committee and monthly controls are made to prevent any type of anomaly.

Monitoring

Risk monitoring following decisions requires a consistent operational alert, analysis and action system. In order to detect a risk alert or credit rule improvements, portfolio performance tracking must be in place. This is a basic component of effective risk management and needs to be based on the key principles stated by the Basel Committee on Banking Supervision. The Local CRO is responsible for ensuring that the risk monitoring system in place complies with those principles.

The monitoring process involves:

- Compliance monitoring in accordance with the regulations in force: which is carried out by Operational Risk Control Department and followed by a second-level control ensured by Risk Department
- Monitoring the transformation rate of credit applications
- Monitoring of the early risk indicators
- Monitoring the performance of the global portfolio

The following indicators are used in BANCO CETELEM to assess the quality of the production and the portfolio depending on each activity, channel and segment:

- Demand profile
- Amount of production and number of contracts
- Acceptance and transformation rate
- Overridden cases
- Automatic decision rates
- Demand related to a refusal
- Early risk indicators

Fraud prevention

3 Levels

- Central level, run by the BNP PARIBAS Risk unit, which has a governance and support function. It establishes the General Policy, the relevance of the development of new tools, and the dissemination of best practices within the Group.
- Local operational level, managed by the countries that are responsible for the implementation and operation of fraud detection systems. The prevention and identification of fraud is the responsibility of the entities, who must organize and operate the permanent monitoring systems implemented in the entity.

Reporting

- Dynamic reporting, dedicated to external fraud on credit risk processes, is performed at the Local and Central levels. These reports are produced monthly and distributed by the central reporting team. They are analyzed by the central fraud team liaising with the local teams.

Procedures

- Organization, monitoring and training of staff
 - Fraud controls in the acceptance process
 - Fraud controls in the card management process
 - Identification of fraud in management tools (severity levels)
 - Charge back and claw back processes
 - Write off, charge off and loss provisioning rules
 - Management of specific fraud cases, such as non-starters for example
- Description of main operational fraud processes

2.2.7.2. Recovery process: arrears and recovery information

The Collections Department of Banco Cetelem is responsible for identifying the most appropriate solutions for problematic customers. All procedures must adapt to any change in the economic and operating context. The focus of the process is finding a solution with the borrower in order to avoid litigation. The aim of the collection process is to recover the amounts in delay and keep a commercial relationship with the customer. This process lasts maximum 4 months.

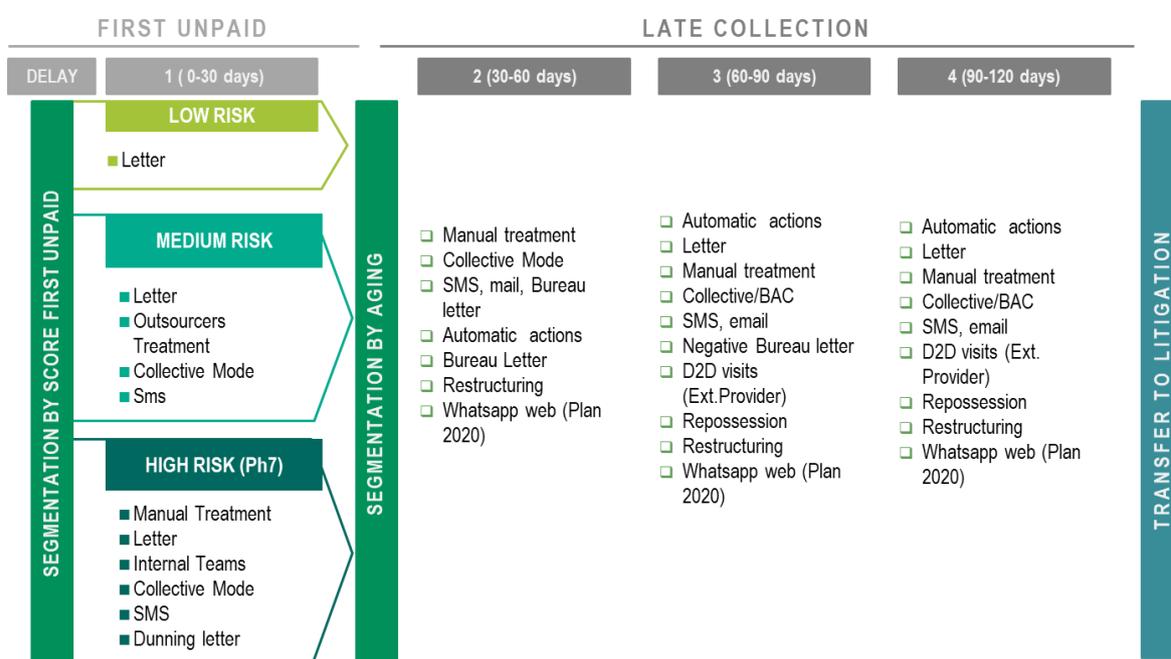

Loans are payable in monthly instalments, either on the 5th (Classical loans contracts) day of each month. The 100% of the portfolio monthly installments are paid by direct debt.

Collection management is based on an extended and expert internal team, divided in several platforms located in Madrid, Seville and Valladolid, and supported in “Door to door” activities by external providers, monitories by internal Manager, offering an add value over collection and repossession activities.

In order to constantly adapt the credit and collections activities to the ever-changing economic context, Banco Cetelem keeps in constant consideration:

- a. the use of all communication tools with customers, looking for the most effective;
- b. organization of the collection management chain so as to maximize the possibility of success at the lowest cost for the company (for this reason it is possible to create customer clusters thanks to a tool that groups the customers with selected characteristics);
- c. the profitability of the collections instruments chosen, trying to pass or share the recovery costs with delinquent borrowers;
- d. Compliance with the rules of ethics: in any phase of the collections and recovery process the management of arrears must comply with principles of ethics issued by BNP Paribas. Compliance with such principles is aimed at avoiding reputational and legal risks.

The collection process starts when a contract unpaid the direct debit: telephone collection specialist teams and the managers carry out daily monitoring and control of the strategies. In that way the results obtained from collection management and the different strategies are reviewed every day, reflected in daily monitoring reports with a continuous comparison of results, objectives, and trends, in order to anticipate any deviation possible to implement as soon as know it, specific short-time plans, based on special communication or several negotiation activities.

Loans are selected and prioritized by the expert system through a special “first unpaid score”, which assesses the probability that the customer will not pay the delayed instalment.

This result of the score will orient to one of the treatments below during the first delay:

- Low Risk - Send a new direct debit
- Medium Risk - Internal Treatment

- High Risk - Phase 7 (specific team)

To reduce the number of files to be managed in Collection, the first type of action is a specific communication SMS/call reminder to the customer immediately after an instalment remains unpaid ("First Unpaid" action). This communications method includes a digital collection tool as a self-cure secure web service, what is used by customers to solve the unpaid installments without interaction with Collection team, updating on a daily basis digital payments done.

Not all loans may go through this expert score system as they may not comply with the conditions established in the current collection procedures, these unpaid instalments may go directly to "Phase 7" or into other phases, main reason is that all Auto loans have a specific collection procedure in order to maximize recovery.

The files transfer from one phase to another one is automatic at the end of month, depending of aging. If the loan is not properly settled, it goes to the right step. This is in line with the methodologies of BNPP PF.

The main collection/recovery methods are described below:

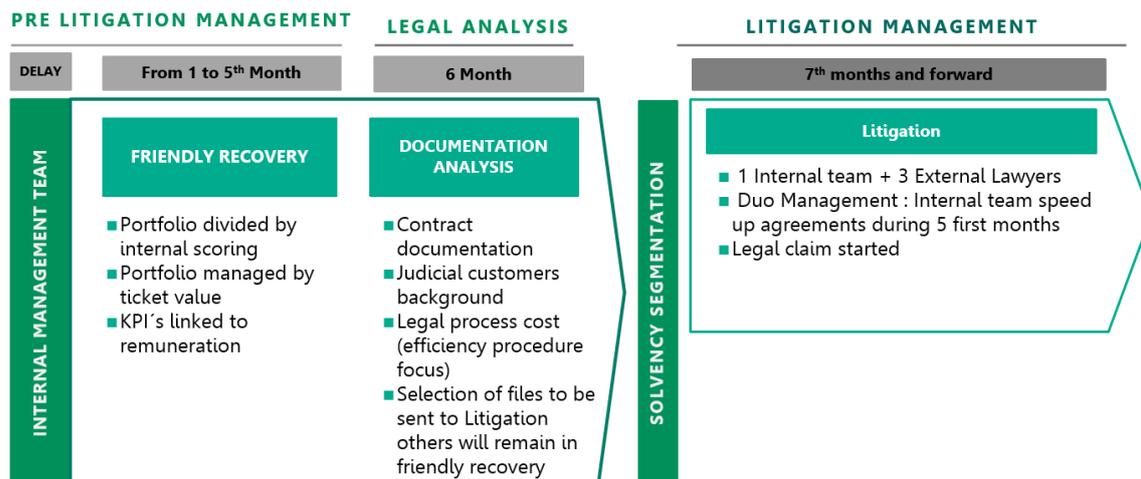

- Cash collection: this should always be the first collection option. The satisfaction of a debt through collection implies the total or partial repayment of that debt.
- Postponements: in the case of customers that cannot afford a total payment in the month, part of the debt could be postponed at the end of the credit. To apply this solution, clients must verify the conditions defined in collection policy that is aligned with the policy approved by BNPP PF.
- Refinancing or Restructuring: operations in which, as a result of the client's current or foreseeable financial difficulties that prevent the client from complying with its applicable contractual conditions, it is necessary to modify or cancel a transaction and/or enter into a new operation under conditions that the client can comply with. In order to apply this solution, debtors must comply with a strict refinancing policy approved by BNPP PF.
- Payment arrangements: in the case of customers experiencing a higher level of impairment, a strategy is defined which must be managed differently precisely because of the advanced level of impairment. This strategy consists of payment agreements under which Banco Cetelem agrees a payment schedule with the client to recover all or part of the investment and thus reduce losses.
- Debt relief: definitive recovery strategies consisting of an agreement between Banco Cetelem and the client whereby the client is exempted from paying part of the amounts due as ordinary interest and/or principal. In order to apply this solution, debtors must comply with all the requisites of a strict policy approved by BNPP PF.

Repossession: "Focus on asset" is the main driver what we introduced as a key in the collection process for portfolio "Auto". In that way, this is a solution that we use as soon as we identify a big difficulty in the customer to solve the unpaid, or a continue degradation of solvency status based on payment behavior. Additionally, an asset market value analysis compared with customer total risk is done case by case, to determine repossession as final or partial solution.

LITIGATION RECOVERY

During the first 4 months, Collection department will try to recover the unpaid balance from the client. If they fail to do so, as of the 5th month in arrears, the file will be transmitted to the LITIGATION department. The client will be required to pay the full loan amount, included interest and penalties commissions according to the contract conditions.

Litigation organization has been set up to optimize work load, stock management and efficiency of cash recovery.

Upon reception of the files, the Litigation department will use a tailored made score system to distribute the files in 4 segments (From 1 the best to 4 the worst) which will allow the teams to prioritize the files according to the probability of recollection. Files can be redirected to internal management (Pre-Litigation process) or proposed to be transferred directly to litigation process.

Internal Management:

The files which are considered with a higher probability of recovery are managed by the Internal Management Teams that try to find the most appropriate solutions to settle the file (repayment plans or settlement agreements). Based upon a total of 2 agencies that negotiate friendly solutions and one double litigation agency that tries to give a solution to clients for whom a legal procedure has been initiated. Internal management is spread across an average period of +/- 5 months variable depending of the sale strategy corresponding to such files. Stress is made on early phases (better contact and efficiency rates) to obtain better results and improve yearly internal productivity per full time employee. Given the difficulties of the collection of this type of transactions, payments agreements are the most used tool. In these agreements, reduction or write-offs of the amounts unpaid may be used to encourage the debtors to repay the amounts due, always following the policy established and approved by BNPP PF. If, for any reasons, Banco Cetelem's recovery activities are not successful, the loan may be sold without recourse according to the internal and external regulations and the guidelines provided by BNPP PF.

Furthermore in order to set a benchmark, optimize productivity and costs savings in the Litigation management, our legal internal agency competes with external lawyers.

All these activities rely upon a strong Back office team, in charge of judicial studies, vehicle impounds, internal and central reporting and controls.

Litigation management:

The Litigation management is managed by external and internal lawyers. The lawyers work under double team litigation management process, which makes possible substantial saving on commissions due to the fact we still manage internally the files during 5 months after the presentation of monitories. All our providers receive a success fee, which is a percentage of commission over cash recovery. From month 6 onwards, external lawyers and internal Litigation team carry on with friendly recovery as well judicial traditional litigation.

However, the Seller shall not be required to provide any such reports, data or other information to the Management Company with respect to the UK Transparency Requirements, provided that in the event that the information made available to investors by the Reporting Entity in accordance with Article 7 of the EU Securitisation Regulation, the EU Disclosure RTS and the EU Disclosure ITS is no longer considered by the relevant UK regulators to be sufficient in assisting UK institutional investors in complying with the UK Due Diligence Requirements, the Originator agrees that it will, in its sole discretion, use commercially reasonable endeavours to take such further reasonable action as may be required for the provision of information to assist any UK Affected Investors in connection with the compliance by UK Affected Investors with the UK Due Diligence Requirements.

2.2.8.4. Seller's Additional Representations and Warranties

Pursuant to the provisions of the Master Receivables Sale and Purchase Agreement, the Seller has represented and warranted to the Management Company, acting for and on behalf of the Issuer, that (the “**Additional Representations and Warranties**”):

- 1) on its corresponding Purchase Date each Receivable shall comply with the Individual Eligibility Criteria set out in sections 2.2.8.3 and 2.2.8.2 above;
- 2) on its corresponding Purchase Date the New Receivables transferred to the Issuer shall comply with the Incremental Portfolio Criteria set out in section 2.2.2.3 above;
- 3) the Aggregate Securitised Portfolio Criteria as set out in section 2.2.2.3 shall be met on the corresponding Purchase Date after giving effect to the intended sale and transfer of New Receivables to the Issuer;
- 4) prior to and including the date of any Purchase Date, no Loan Agreement has been subject to any variation, amendment, modification, waiver or exclusion of time of any kind which in any material way adversely affects the enforceability or collectability of all or a material portion of the Receivables being transferred;
- 5) no procedures adverse to the Issuer were used by the Seller in selecting Receivables from its Loan Global Portfolio;
- 6) no untrue information has been or will be provided by it to the Issuer;
- 7) no Loan Agreement has been entered into as a consequence of any conduct constituting fraud of the Seller and, to the best of the Seller's knowledge, no Loan Agreement has been entered into fraudulently by the relevant Borrower; and
- 8) for the purpose of compliance with the requirements stemming from Article 20(13) of the EU Securitisation Regulation, the repayments to be made to the Noteholders have not been structured to depend predominantly on the sale of the Ancillary Rights attached to the Purchased Receivables.

2.2.9. Substitution of the securitised assets

The Receivables and their respective Ancillary Rights shall be acquired by the Issuer in consideration of the representations, warranties and undertakings given by the Seller on each Purchase Date as to their conformity with the applicable Eligibility Criteria.

When consenting to acquire from the Seller any Receivables on the Initial Purchase Date and on any Subsequent Purchase Date, the Management Company, acting for and on behalf of the Issuer, will take into consideration, as an essential and determining condition for its consent, the Seller's Receivables Warranties and the Seller's Additional Representations and Warranties.

The Management Company may carry out consistency tests on the information provided to it by the Seller and may verify the compliance of certain of the Receivables with the Eligibility Criteria. Such tests will be undertaken

in the manner, and as often as is necessary, to ensure the fulfilment by the Seller of its obligations regarding the sale, transfer and assignment of Eligible Receivables to the Issuer, the protection of the interests of the Noteholders with respect to the Assets of the Issuer, and, more generally, in order to satisfy its legal and regulatory obligations as set out in the relevant regulation. Nevertheless, the responsibility for the sale, transfer and assignment of any Non-Compliant Purchased Receivable by the Seller to the Issuer on each Purchase Date will at all times remain with the Seller only (and the Management Company shall under no circumstance be liable therefore) and the Management Company will therefore rely only on the representations made, and on the warranties given, by the Seller regarding those Receivables.

Breach of the Seller's Receivables Warranties

If the Management Company or the Seller becomes aware that any of the Receivables Warranties was false or incorrect by reference to the facts and circumstances existing on the relevant Purchase Date, the Management Company or the Seller, as applicable, will promptly inform the other party of such breach of the Receivables Warranties.

Such breach of the Seller's Receivables Warranties shall be remedied by the Seller, by pursuing at the option of the Management Company but subject to prior consultation with the Seller, any of the following alternatives:

- (a) to the extent possible, and as soon as practicable, remedy such breach of the Receivables Warranties and ensure that the relevant Receivable complies with the Individual Eligibility Criteria;
- (b) by indemnifying the Issuer provided that upon such indemnification the Seller has undertaken to pay to the Issuer, an amount equal to the aggregate of (i) the Outstanding Principal Balance of such Non-Compliant Purchased Receivable at the date of such indemnification and (ii) any accrued interest outstanding and any other amounts outstanding of principal, interest, expenses and accessories relating to such Non-Compliant Purchased Receivable at the indemnification date; or
- (c) by terminating the assignment of the Non-Compliant Purchased Receivable and substituting such Non-Compliant Purchased Receivable by one or more Eligible Receivables (the "**Substitute Receivable(s)**"), provided that the Seller shall pay to the Issuer an amount equal to the positive difference between:
 - (i) the aggregate of (x) the Outstanding Principal Balance of the Non-Compliant Purchased Receivable and (y) any accrued interest outstanding and any other amounts outstanding of principal, interest, expenses and accessories relating to such Non-Compliant Purchased Receivable at the substitution date; and
 - (ii) the Outstanding Principal Balance of the Substitute Receivable(s).

Such substitution or indemnification of the Issuer by the Seller shall be carried out, at the latest, on the next immediate Collections Settlement Date following the indemnification or substitution request made by the Management Company, provided there are at least 30 days between both dates. Any amounts paid to the Issuer by the Seller pursuant to any rescission of the assignment of the Purchased Receivable shall be treated by the Management Company as Prepayments to be added to the Available Principal Collections.

In the case of a Receivable which did not exist as at its Purchase Date, the Seller will not be obliged to repurchase the relevant Receivable but shall indemnify the Issuer against any loss and all liabilities suffered by reason of the representation or warranty being untrue or incorrect by reference to the facts subsisting on the relevant Purchase Date. The indemnity amount shall be equal to (a) the Outstanding Principal Balance as at the Purchase Date of such Receivable had the Receivable existed and complied with each of the Receivables Warranties as at the relevant Issuer Incorporation Date (in respect of the Initial Receivables) or the relevant Purchase Date (in respect of any Additional Receivables) and (b) any deemed interest accrued on the relevant Receivable at a rate equal to the weighted average interest rate of the Aggregate Securitised Portfolio as determined by the Servicer at the end of the immediately preceding Calculation Period less any amounts received by the Issuer in respect of such Purchased Receivable.

Limitations in case of breach of the Seller's Receivables Warranties

The Seller's Receivables Warranties and the remedies set out in the Master Receivables Sale and Purchase Agreement and the Deed of Incorporation are the sole remedies available to the Issuer in the event of breach of the Receivables Warranties. The Management Company shall not request an additional indemnity from the Seller in respect of the breach of any Seller's Receivables Warranties.

To the extent that any loss arises as a result of a matter which is not covered by those representations and warranties, the loss will remain with the Issuer. In particular the Seller does not guarantee the creditworthiness of the Borrowers nor the effectiveness or the economic value of the Ancillary Rights.

2.2.10. A description of any relevant insurance policies relating to the assets. Any concertation with one insurer must be disclosed if it is material to the transaction

Borrowers, under Receivables representing 15.24% of the Preliminary Portfolio, have purchased insurance policies with a payment protection plan in the event of death, total permanent disability due to accident, temporary disability, unemployment or Guaranteed Auto Protection insurance, with BANCO CETELEM as the beneficiary, and the rights thereunder are assigned to the Fund, as detailed in section 3.3.2 of this Additional Information.

Borrowers may choose to pay such premia in a lump sum either at the date of origination of the corresponding Loan (which amount may or not be financed under the Loan together with any portion of the purchase price paid for the Vehicle), or at the time of payment of the first instalment. As shown in section 2.2.2.1 table k) of the Additional Information considering those policies whose premium is paid up front, those whose premium is financed represent 67.55% of the Preliminary Portfolio, while those that are paid with the first instalment represent 0.01% of the Preliminary Portfolio. Alternatively, Borrowers may choose to pay such premia periodically coinciding with the payment of the instalments under the Loan.

Borrowers' payment of any periodic premia (representing 12.42% of the Preliminary Portfolio) is performed through BANCO CETELEM, which collects such payments and transfers them to the relevant insurers as described below. In practice and as long as the Loan is not considered to be in default, BANCO CETELEM will advance all premia payments to the insurer irrespective of whether it has collected such amounts effectively from the Borrower. BANCO CETELEM has committed to maintain such practice, in the same conditions, in respect of any Receivables assigned to the Issuer during the life of the assignment. The Issuer relies on such undertaking by BANCO CETELEM and does not have any means to know whether such premia is, at any time, being paid or not by the Borrower and/or the Seller. If at some point, any corresponding premia ceased to be paid by both the Borrower and the Seller, that might cause the termination of the applicable insurance policy.

Section 2.2.2.1 (k) of the Additional Information lists the loans with the insurance policies referred to in the preceding paragraph.

As is shown in such section, the following companies of the Cardif group act as insurers under all existing payment protection insurance policies with regards to the Preliminary Portfolio:

- Cardif Assurance Vie, (Spanish Branch) DGSFP inscription number: E-129, and
- Cardif Assurances Risques Divers, (Spanish Branch) DGSFP inscription number: E-130.

Cardif Assurance Vie and Cardif Assurances Risques Divers both are insurance subsidiaries owned at 100% by BNP PARIBAS.

3.3. Description of the method and date of the sale, transfer, novation or assignment of the assets or of any rights and/or obligations in the assets to the Issuer

- (ii) upon the occurrence of any of the following events:

Any cost and expenses arising from the abovementioned notifications of the transfer of the Receivables shall be borne:

- (i) by the Seller if the notification is made pursuant to paragraph (i) above; and
- (ii) by the retiring Servicer if the notification is made pursuant to paragraph (ii) above. Notwithstanding this, in order to avoid any delays, the Management Company, at the expense of the Fund, may advance any such costs and expenses and request subsequently their reimbursement by the retiring Servicer.

3.3.2. Receivable assignment terms

1. The Receivables will be fully and unconditionally assigned for the entire term remaining until maturity of each Loan Agreement.
2. The Seller shall be liable to the Fund for the existence and lawfulness of the Receivables to the same extent laid down in Articles 348 of the Commercial Code and 1,529 of the Civil Code.
3. The Seller shall not bear the risk of default on the Receivables and shall therefore have no liability whatsoever for Borrowers' default on principal, interest or any other amount they may owe in respect of the Loan Agreements. The Seller will also have no liability whatsoever to directly or indirectly guarantee the proper performance of the transaction, and will give no guarantees or security, nor indeed agree to replace or repurchase the Receivables, other than as provided in section 2.2.9 of this Additional Information.
4. The Receivables under each Loan Agreement shall be assigned for all outstanding principal yet to be repaid at the Purchase Date, all ordinary and late-payment interest on each Loan Agreement (including any interest accrued, either due or undue, as of the corresponding Purchase Date), and the Ancillary Rights.

Specifically, for illustration, without limitation, the assignment of the Receivables shall provide the Issuer with the following rights in relation to each Loan Agreement:

- (i) To receive all Loan Agreement principal repayment amounts due, and any Prepayments.
- (ii) To receive all Loan Agreement ordinary interest amounts due.
- (iii) To receive all Loan Agreement late-payment interest amounts due.

The above-mentioned rights will all accrue to the Issuer from the respective Purchase Date of the Receivables. Interest shall moreover include interest accrued and not due since the last interest payment date on each Loan, up to the assignment date.

Loan Agreement returns constituting Fund income shall not be subject to a Corporate Income Tax withholding as established in Article 61.k) of CIT Regulations.

5. The Issuer's rights resulting from the Receivables are linked to the Borrowers' payments and are therefore directly affected by Loan evolution, delays, Prepayments or any other Loan Agreement-related incident.
6. The Issuer shall bear any and all expenses or costs paid by the Seller as Servicer in connection with the recovery actions in the event of default by the Borrowers on their obligations, including bringing the relevant action against the same. The Management Company shall not review or authorize any cost paid by the Seller as Servicer in connection with any recovery actions without prejudice to the fact that the Management Company may request any information or evidence at any time with respect to any such costs declared by the Servicer.
7. In the event of a renegotiation of the Loan Agreements or their due dates pursuant to the Servicing Agreement, any change in the terms shall affect the Issuer's rights under the Receivables.

8. In order to be able to assign Additional Receivables, the Seller's latest available financial statements which shall have been audited, have been registered with the CNMV (no later than 4 months after such date), and the auditor's report does not contain any qualification.
9. The Seller may be declared insolvent and insolvency of the Seller could affect its contractual relationship with the Fund, in accordance with the provisions of the Insolvency Law.

The assignment of the Receivables cannot be the subject of claw-back other than by an action brought by the Seller's receivers, in accordance with the provisions of the Insolvency Law and after proving the existence of fraud in the transaction, as set forth in article 16.4 of Law 5/2015. The Seller has its place of business office in Spain. Therefore, and unless proof in the contrary, it is presumed that the center of main interests is Spain.

In the event that the Seller is declared insolvent, in accordance with the Insolvency Law, the Fund, represented by the Management Company, shall have the right of separation with respect to the Receivables, on the terms provided in articles 239 and 240 of the Insolvency Law; consequently, the Fund shall be entitled to obtain from the insolvent Seller the resulting Receivables amounts from the date on which the insolvency is decreed, being those amounts considered Fund's property and must therefore be transferred to the Fund, represented by the Management Company.

This right of separation would not necessarily extend to the cash received and kept by the insolvent Seller on behalf of the Fund before that date, given the essential fungible nature of money.

Notwithstanding the above, both the Prospectus and the Deed of Incorporation provide for certain mechanism in order to mitigate the aforesaid effects in relation to cash due to its fungible nature as detailed in section 3.7.1 (Servicing and custody of the securitised assets) of the Additional Information.

Section 3.3.1 above provides that the Seller's assignment of the Receivables to the Fund shall not be notified to the Borrowers, except if required by law or upon occurrence of a Servicer Termination Event.

10. In the event of insolvency, liquidation, intervention by the Bank of Spain or substitution of BANCO CETELEM as Seller, or in the event of insolvency or indications thereof, liquidation or the replacement of the Servicer, or if the Management Company considers it to be reasonably justified, following instructions of the Management Company, the Servicer shall require the Seller to notify the Borrowers and the Insurance Companies of the assignment of the outstanding Receivables to the Fund and that the payments derived therefrom will only release the debt if payment is made into the Reinvestment Account opened in the name of the Fund. However, if the Seller has not given the notice to the Borrowers within five (5) Business Days of receipt of the request by the Servicer, or in the case that the Servicer is in insolvency proceedings, the Management Company shall be entitled to instruct the Servicer to notify (or cause to be notified) the Borrowers and the Insurance Companies.

3.3.3. Receivable sale or assignment price

3.3.3.1. Purchase Price of the Receivables

Pursuant to the Master Receivables Sale and Purchase Agreement, the Purchase Price of the Initial Receivables shall be equal to the aggregate of the Outstanding Principal Balance of such Initial Receivables.

Pursuant to the Master Receivables Sale and Purchase Agreement, the Purchase Price of the Additional Receivables on any Subsequent Purchase Date shall be equal to the aggregate of the Outstanding Principal Balance of such Additional Receivables as of the beginning of such day.

3.3.3.2. Purchase Dates

The effective date of the transfer of the Initial Receivables will be the Initial Purchase Date which coincides with the Issuer Incorporation Date. The parties to Master Receivables Sale and Purchase Agreement have agreed that any payments of principal, interest, arrears, penalties and any other related payments received from the Seller from (and including) the Issuer Incorporation Date shall be an asset of the Issuer and shall be transferred by the Seller to the Issuer.

Accordingly, all such payments received by the Seller with respect to the Initial Receivables as from (and including) the Issuer Incorporation Date shall be collected by the Servicer pursuant to the Servicing Agreement.

Accordingly, all such payments received by the Seller with respect to the Additional Receivables as from (and including) such day shall be collected by the Servicer pursuant to the Servicing Agreement.

3.3.3.3. Transfer of the Receivables

Transfer of the Initial Receivables

Under the Master Receivables Sale and Purchase Agreement, the Management Company, acting for and on behalf of the Issuer, and the Seller have agreed to sell, transfer and assign the Initial Receivables and the related Ancillary Rights on the Issuer Incorporation Date. The Seller has warranted and represented that the Initial Receivables will satisfy the Eligibility Criteria applicable on the Issuer Incorporation Date.

Transfer of Additional Receivables

Under the Master Receivables Sale and Purchase Agreement, the Management Company, acting for and on behalf of the Issuer and the Seller have agreed, subject to the satisfaction of the conditions precedent listed in section 2.2.2.2.2 above, to sell, transfer and assign the Additional Receivables and the related Ancillary Rights on each applicable Subsequent Purchase Date during the Revolving Period. The Seller has warranted and represented that the selected receivables and the Performing Purchased Receivables satisfy the Aggregate Securitised Portfolio Criteria.

3.4. Explanation of the flow of funds

3.4.1. How the cash flow from the assets will meet the Issuer's obligations to Noteholders

The amounts received by the Fund deriving from the Receivables will be deposited by the Servicer into the Reinvestment Account. Those amounts will be deposited within one (1) Business Days from their receipt.

The Fund will enjoy additional protection and enhancement mechanisms that are described in section 3.4.2 below. These mechanisms will be applied in accordance with the rules of this Prospectus and their purpose is to ensure that the cash flows of the Fund are sufficient to attend its payment obligations in accordance with the Priority of Payments set forth in section 3.4.7.4 of the Additional Information and the Accelerated Priority of Payments set forth in section 3.4.7.5 of the Additional Information, as applicable.

All payments of principal and interest (and arrears, if any) on the Notes shall be made in accordance with the rules of this Prospectus and the Priority of Payments set forth in section 3.4.7.4 of the Additional Information and the Accelerated Priority of Payments set forth in section 3.4.7.5 of the Additional Information, as applicable.

The weighted average interest rate of the selected Loans as at 25 May 2021, as detailed in section 2.2.2.1 (e) above, amounts to 7.15%, which is higher than the nominal rate of each Classes of Notes.

Once fully disbursed, the Liquidity Reserve Loan Provider will not make any additional disbursements under the Liquidity Reserve Loan.

3.4.2.2.2 Funding and replenishment of Liquidity Reserve up to the Liquidity Reserve Required Amount

The Liquidity Reserve will only be funded on the Disbursement Date through the disbursement of the Liquidity Reserve Loan made by the Liquidity Reserve Loan Provider to the Reinvestment Account on such Date, which the Management Company will credit to the balance of the Liquidity Reserve.

On any Payment Date thereafter, the Liquidity Reserve shall be replenished up to the Liquidity Reserve Required Amount from, and subject to the existence of sufficient Available Interest Proceeds in accordance with item (3) of the Interest Priority of Payments on each Payment Date during the Revolving Period and the Normal Redemption Period.

Class B Interest Rate Swap Agreement

Pursuant to the Class B Interest Rate Swap Agreement, on each Payment Date commencing on the first Payment Date and ending on the date on which the Class B Notes, as applicable, are redeemed in full, the Swap Counterparty shall pay to the Issuer the swap floating amount (the “**Class B Interest Rate Swap Floating Amount**”) and the Issuer shall pay to the Swap Counterparty on each Payment Date, the swap fixed amount (the “**Class B Interest Rate Swap Fixed Amount**”). On each Payment Date, the amounts payable by the Issuer and the Swap Counterparty under the Class B Interest Rate Swap Agreement will be netted so that only a net amount will be due from the Issuer or the Swap Counterparty (as the case may be) on a Payment Date (the “**Class B Interest Rate Swap Net Amount**”).

The floating rate used to calculate the Class B Interest Rate Swap Floating Amount on any Settlement Date will be the maximum between (i) the Reference Rate used to calculate the interest payable on the Class B Notes on the Payment Date immediately following such Settlement Date plus a margin of 0.80 per cent. and (ii) 0.00 per cent.

The fixed rate used to calculate the Class B Interest Rate Swap Fixed Amount under the Class B Interest Rate Swap Agreement (the “**Class B Interest Rate Swap Fixed Rate**”) payable by the Issuer to the Swap Counterparty on any Payment Date is equal to 0.395 per cent.

Class C/D/E/F Interest Rate Swap Agreement

Pursuant to the Class C/D/E/F Interest Rate Swap Agreement, on each Payment Date commencing on the first Payment Date and ending on the date on which the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes have been all redeemed in full, the Swap Counterparty shall pay to the Issuer the swap floating amount (the “**Class C/D/E/F Interest Rate Swap Floating Amount**”) and the Issuer shall pay to the Swap Counterparty on each Payment Date, the swap fixed amount (the “**Class C/D/E/F Interest Rate Swap Fixed Amount**”). On each Payment Date, the amounts payable by the Issuer and the Swap Counterparty under the Class C/D/E/F Interest Rate Swap Agreement will be netted so that only a net amount will be due from the Issuer or the Swap Counterparty (as the case may be) on a Payment Date (the “**Class C/D/E/F Interest Rate Swap Net Amount**”).

The floating rate used to calculate the Class C/D/E/F Interest Rate Swap Floating Amount on any Settlement Date will be the maximum between (i) the Reference Rate used to calculate the interest payable on the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes on the Payment Date immediately following such Settlement Date plus a margin of 1.943 per cent. and (ii) 0.00 per cent.

The fixed rate used to calculate the Class C/D/E/F Interest Rate Swap Fixed Amount under the Class C/D/E/F Interest Rate Swap Agreement (the “**Class C/D/E/F Interest Rate Swap Fixed Rate**”) payable by the Issuer to the Swap Counterparty on any Payment Date is equal to 1.5115 per cent.

3.4.2.6.5 No Additional Payments

If the Issuer must at any time deduct or withhold any amount for or on account of any tax from any sum payable by the Issuer under an Interest Rate Swap Agreement, the Issuer shall not be liable to pay to the Swap Counterparty any such additional amount. If the Swap Counterparty must at any time deduct or withhold any amount for or on account of any tax from any sum payable to the Issuer under an Interest Rate Swap Agreement, the Swap Counterparty shall at the same time pay such additional amount as is necessary to ensure that the Issuer to which that sum is due receives a sum equal to the Interest Rate Swap Net Amount it would have received in the absence of any deduction or withholding. In such event, the Swap Counterparty shall be entitled to substitute any authorised interest rate swap counterparties with appropriate ratings, subject to prior rating confirmation of the then current ratings of the Class A Notes with respect to the Class A Interest Rate Swap Agreement, and Class B Notes with respect to the Class B Interest Rate Swap Agreement and of the then current ratings of the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes with respect to the Class C/D/E/F Interest Rate Swap Agreement.

3.4.2.6.6 The Swap Guarantee

On or prior to the Issuer Incorporation Date, BNP PARIBAS, as Swap Guarantor, will enter into the Swap Guarantee, whereby the Swap Guarantor (i) has agreed to guarantee to the Issuer by way of continuing guarantee the due and timely payment of all amounts payable by the Interest Rate Swap Counterparty in respect of the relevant Interest Rate Swap Agreement as and when the same shall become due according to the relevant Interest Rate Swap Agreement (including the obligation to provide collateral in accordance with the relevant credit support annex); and (ii) has agreed that, if and each time the Interest Rate Swap Counterparty fails to make any payments and/or deliveries when due or, as the case may be, deliverable under the relevant Interest Rate Swap Agreement, the Swap Guarantor, after the Issuer applies any collateral previously posted by the Interest Rate Swap Counterparty, must pay to the Issuer, on first demand sent by the Issuer to the Swap Guarantor pursuant to the terms and conditions set in the Swap Guarantee, the amounts requested in the currency in which the amounts are payable by the relevant Interest Rate Swap Counterparty. Following a Swap Counterparty Change of Control, the Swap Guarantor may procure to find a Replacement Swap Guarantor and the obligations of the Swap Guarantor under the Swap Guarantee are continuing until the later of (i) 30 (thirty) days following the Swap Counterparty Change of Control, or (ii) a Replacement Swap Guarantor having entered into a Replacement Swap Guarantee (such date being the “**Swap Guarantee Calculation Date**”). Immediately following the Swap Guarantee Calculation Date, the Swap Guarantor will be released from any liability (including any present or future and whether actual or contingent liability) to guarantee the payments of the amounts due by the Swap Counterparties under the Interest Rate Swap Agreements.

In the event that the Swap Guarantor ceases to have the Swap Required Rating, then it shall use its best efforts to procure, within 30 (thirty) days from the loss of Swap Required Rating, another person that has at least the Swap Required Rating to become a Replacement Swap Guarantor with any replacement swap guarantee. Immediately following a Replacement Swap Guarantor having entered into a replacement swap guarantee in similar terms as the replaced Swap Guarantee (the “**Replacement Swap Guarantee**”), the Swap Guarantor will be released from any liability (including any present or future and whether actual or contingent liability) to guarantee the payments of the amounts due by the Swap Counterparty under the Interest Rate Swap Agreements.

The Swap Guarantor may terminate the Swap Guarantee by written notice to the Issuer, effective 10 (ten) Business Days following receipt of such written notice by the Management Company, on behalf of the Issuer, or at such later date as may be specified in such written notice. Notwithstanding the foregoing, a termination by the Swap Guarantor will not be effective until a Replacement Swap Guarantor is found by the Swap Guarantor and a Replacement Swap Guarantor has entered into a Replacement Swap Guarantee. Immediately following a Replacement Swap Guarantor having entered into a Replacement Swap Guarantee, the Swap Guarantor will be released from any liability (including any present or future and whether actual or contingent liability) to guarantee the payments of the amounts due by the Swap Counterparty under the relevant Interest Rate Swap Agreements. The Swap Guarantee shall continue in full force and effect with respect to any payment obligation of the Swap Counterparty under the relevant Interest Rate Swap Agreements prior to the effective termination of the Swap Guarantee pursuant to the aforesaid written notice of termination.

The Swap Guarantee and any non-contractual obligations arising out of or in connection therewith are governed by, and shall be construed in accordance with, French law.

3.4.2.6.7 Ratings downgrade of the Swap Counterparty or the Swap Guarantor under the Class A Interest Rate Swap Agreement, the Class B Interest Rate Swap Agreement and the Class C/D/E/F Interest Rate Swap Agreement

In the understanding that the Notes actually obtain the ratings allocated by the Rating Agencies as described in section 7.3 of the Securities Note, the Interest Rate Swap Counterparty and/or the Swap Guarantor complies with the following swap required ratings (*i.e.* First Interest Rate Swap Required Ratings and Second Interest Rate Swap Required Ratings) (the “**Swap Required Ratings**”), which at the date of registration of this Prospectus and according with the provisional ratings allocated by the Rating Agencies to the Rated Notes would be, in particular:

- (i) For the Class A Interest Rate Swap Agreement and the Swap Guarantee in relation to that agreement, the First Interest Rate Swap Required Ratings or the Second Interest Rate Swap Required Ratings, as applicable. For these purposes:
 - a. First Interest Rate Swap Required Ratings means:
 - i. Moody’s Qualifying Collateral Trigger Ratings: a counterparty risk assessment from Moody’s of “Baa1” or above.
 - ii. Initial Fitch Rating: with respect to the Relevant Entity, an IDR equal to at least A or F1, as defined in the relevant Fitch Criteria applicable from time to time.
 - b. Second Interest Rate Swap Required Ratings means:
 - i. Moody’s Qualifying Transfer Trigger Ratings: a counterparty risk assessment from Moody’s of “Baa3” or above.
 - ii. Subsequent Fitch Rating: with respect to the Relevant Entity, an IDR equal to at least BBB or F3, as defined in the relevant Fitch Criteria applicable from time to time.
- (ii) For the Class B Interest Rate Swap Agreement and the Swap Guarantee in relation to that agreement, the First Interest Rate Swap Required Ratings or the Second Interest Rate Swap Required Ratings, as applicable. For these purposes:
 - a. First Interest Rate Swap Required Ratings means:
 - i. Moody’s Qualifying Collateral Trigger Ratings: a counterparty risk assessment from Moody’s of “Baa1” or above.

- ii. Initial Fitch Rating: with respect to the Relevant Entity, an IDR equal to at least A- or F1, as defined in the relevant Fitch Criteria applicable from time to time.
 - b. Second Interest Rate Swap Required Ratings means:
 - i. Moody's Qualifying Transfer Trigger Ratings: a counterparty risk assessment from Moody's of "Baa3" or above.
 - ii. Subsequent Fitch Rating: with respect to the Relevant Entity, an IDR equal to at least BBB- or F3, as defined in the relevant Fitch Criteria applicable from time to time.
- (iii) For the Class C/D/E/F Interest Rate Swap Agreement and the Swap Guarantee in relation to that agreement, the First Interest Rate Swap Required Ratings or the Second Interest Rate Swap Required Ratings, as applicable. For these purposes:
 - a. First Interest Rate Swap Required Ratings:
 - i. Moody's Qualifying Collateral Trigger Rating: a counterparty risk assessment from Moody's of "Baa3" or above.
 - ii. Initial Fitch Rating: with respect to the Relevant Entity, an IDR equal to at least BBB or F2, as defined in the relevant Fitch Criteria applicable from time to time.
 - b. Second Interest Rate Swap Required Ratings:
 - i. Moody's Qualifying Transfer Trigger Ratings: a counterparty risk assessment from Moody's of "Baa3" or above.
 - ii. Subsequent Fitch Rating: with respect to the Relevant Entity, an IDR equal to at least BB+, as defined in the relevant Fitch Criteria applicable from time to time.

"Relevant Entity" means the Swap Counterparty, the Swap Guarantor or any swap guarantor, as applicable, in respect of all of the Swap Counterparty's present and future obligations under the relevant Interest Rate Swap Agreement.

Failure by the Interest Rate Swap Counterparty and/or the Swap Guarantor (i) to maintain the First Interest Rate Swap Required Ratings would constitute a **"First Swap Counterparty Downgrade Event"** in relation to each of the Rating Agencies, and (ii) to maintain the Second Interest Rate Swap Required Ratings, would constitute a **"Second Swap Counterparty Downgrade Event"** in relation to each of the Rating Agencies, that, if not remedied would trigger the termination of the Interest Rate Swap Agreements.

Upon the occurrence of a First Swap Counterparty Downgrade Event and/or the Second Swap Counterparty Downgrade Event, as applicable, in relation to any Rating Agency, the Interest Rate Swap Counterparty must:

- (a) post an amount of collateral as calculated for the relevant Rating Agency in accordance with the provisions of the relevant Credit Support Annex;
- (b) obtain a guarantee from an institution with a credit rating that is acceptable for the relevant Rating Agency;
- (c) transfer its rights and obligations under the relevant Interest Rate Swap Agreement to an assignee swap counterparty that will have to comply with the requirements of each Rating Agency as stated in the relevant Interest Rate Swap Agreement; or

- (d) take such other action in order to maintain the rating of the Notes, or to restore the rating of the Notes to the level it would have been at immediately prior to such First Swap Counterparty Downgrade Event and/or the Second Swap Counterparty Downgrade Event occurred.

For the avoidance of doubt, at the date of this Prospectus the Swap Counterparty is not compliant with the terms required by the relevant Rating Agencies, including the ratings required by such Rating Agencies. Consequently, the Swap Counterparty has entered into the Swap Guarantee on or prior to the Issuer Incorporation Date.

3.4.2.6.8 Termination

Each Interest Rate Swap Agreement may be terminated in accordance with its terms, irrespective of whether or not the Class A, Class B, Class C, Class D, Class E, and Class F Notes have been paid in full prior to such termination, upon the occurrence of a number of events (which may include without limitation):

- (i) certain events of bankruptcy, insolvency, receivership or reorganisation of the Interest Rate Swap Counterparty or the Early Liquidation of the Fund;
- (ii) failure on the part of the Fund or the Swap Counterparty to make any payment under the Interest Rate Swap Agreement after taking into account the applicable grace period or any other foreseen remedies (i.e. the Swap Guarantee);
- (iii) changes in law resulting in illegality;
- (iv) changes on the EURIBOR as a consequence of a Base Rate Modification;
- (v) amendment of any material terms of the Deed of Incorporation without the prior written approval of the Interest Rate Swap Counterparty such that its obligations are further contractually subordinated to the Fund's obligations to any beneficiary or the interests of the Interest Rate Swap Counterparty are otherwise materially prejudiced by any such amendment; and
- (vi) occurrence of a First Swap Counterparty Downgrade Event and/or the Second Swap Counterparty Downgrade Event that are not remedied within the required timeframe pursuant to the Interest Rate Swap Agreement

If an Interest Rate Swap Agreement is terminated because of an event of default or a termination event specified therein, an early termination payment may be due either to the Fund or the Interest Rate Swap Counterparty depending on market conditions at the time of termination. The amount of any such early termination payment could be substantial if market rates or other conditions have changed materially. Any early termination payment payable by the Fund will be payable in accordance with the applicable Priority of Payments.

If an Interest Rate Swap Agreement is terminated prior to repayment in full of the principal of the Class A, Class B, Class C, Class D, Class E, and Class F Notes, as the case may be, the Fund will be required to enter into an agreement on similar terms with a new interest rate swap counterparty within a maximum period of 30 Business Days. Any upfront payment to any replacement swap counterparty under the Interest Rate Swap Agreement payable by the Swap Counterparty will be paid directly to the replacement swap counterparty and not in accordance with the Priorities of Payments. Any costs, expenses, fees and taxes (including stamp taxes) arising in respect of any such transfer will be borne by the Interest Rate Swap Counterparty when such transfer is decided by the Swap Counterparty pursuant to the Interest Rate Swap Agreement.

The Fund will endeavour but cannot guarantee to find a replacement Swap Counterparty upon early termination of the Interest Rate Swap Agreement. Any failure to find any replacement Swap Counterparty will constitute a Revolving Period Termination Event.

3.4.2.6.9 Collateral Arrangements

On the Issuer Incorporation Date, the Management Company, on behalf of the Issuer, and the Swap Counterparty shall enter into a Credit Support Annex (as defined in each Interest Rate Swap Agreement) with respect to each Interest Rate Swap Agreement, which forms part of the relevant Interest Rate Swap Agreement, which sets out the terms on which collateral will be provided by the Swap Counterparty to the Issuer in the event that both the Swap Counterparty and the Swap Guarantor cease to have the Swap Required Ratings, in respect of the relevant Interest Rate Swap Agreement.

Where the Swap Counterparty provides collateral in accordance with the provisions of the relevant Interest Rate Swap Agreement (including the credit support annex thereto), such collateral or interest thereon will not form part of the Available Distribution Amounts (other than the enforcement proceeds from such collateral applied in satisfaction of termination payments due to the Issuer following the designation of an early termination date under the relevant Interest Rate Swap Agreement). If the Swap Counterparty has posted collateral in excess of the required amount under the relevant Interest Rate Swap Agreement, such excess will be directly returned by the Issuer to the Swap Counterparty and will not fall within the relevant Priority of Payments.

The Swap Counterparty may only post collateral in the form of cash under the credit support annex to the Interest Rate Swap Agreement and any Swap Collateral Amount will be credited to the Swap Collateral Account. If the Swap Counterparty does not fulfil its payment obligations under the relevant Interest Rate Swap Agreement, which gives rise to an Event of Default upon termination and close-out of the relevant Interest Rate Swap Agreement, any Swap Collateral Amount which are not returned to the Swap Counterparty pursuant to the Transaction Documents may be used by the Fund to obtain a replacement Interest Rate Swap Agreement or to make payments on the Notes, in accordance with the applicable Priority of Payments. When the Swap Collateral Account will be required, the Management Company, on behalf of the Issuer may approach the Account Bank or any other entity which fulfils the Account Bank Required Ratings criteria at that time for the purpose of opening such account.

3.4.2.6.10 Transfer by the Swap Counterparty

Pursuant to each Interest Rate Swap Agreement, the Swap Counterparty shall be entitled to arrange for the transfer of its rights and obligations under the relevant Interest Rate Swap Agreement with a counterparty that is an Eligible Replacement (as defined in each Interest Rate Swap Agreement), upon prior written notice to the Management Company subject to the conditions set out in the relevant Interest Rate Swap Agreement.

3.4.2.6.11 Governing Law and Jurisdiction

Each Interest Rate Swap Agreement is governed by and shall be construed in accordance with French law. The parties to each Interest Rate Swap Agreement have agreed to submit any dispute that may arise in connection with each Interest Rate Swap Agreement to the exclusive jurisdiction of the competent courts of France.

3.4.3. Risk Retention Requirement

In accordance with (i) paragraph (3)(a) of Article 6 (Risk retention) of EU Securitisation Regulation and Article 5 of the Delegated Regulation (EU) 625/2014, applicable until the new regulatory technical standards to be adopted by the Commission apply pursuant to article 43(7) of the EU Securitisation Regulation and (ii) paragraph 3(a) of Article 6 (Risk retention) of the UK Securitisation Regulation (as in effect on the Issuer Incorporation Date) and Article 5 of Delegated Regulation (EU) 625/2014, as it forms part of UK domestic law by virtue of the EUWA (and as in effect on the Issuer Incorporation Date), as at the Issuer Incorporation Date such interest will take the form of the holding by the Seller of no less than five (5) per cent. of the nominal value of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes, the Class F Notes and the Class G Notes.

In accordance with Article 10.2 of Delegated Regulation (EU) 625/2014, applicable until the new regulatory technical standards to be adopted by the Commission apply pursuant to Article 43(7) of the EU Securitisation Regulation, as it forms part of UK domestic law by virtue of the EUWA (and as in effect on the Issuer

Incorporation Date), and provided that there is no embedded mechanism by which the retained interest at origination would decline faster than the interest transferred, the fulfilment of the retention requirement shall not be deemed to have been affected by the amortisation of the retention via cash flow allocation or through the allocation of losses, which, in effect, reduce the level of retention over time. The Seller shall not be required to constantly replenish or readjust its retained interest to at least 5 % as losses are realised on its exposures or allocated to its retained position.

The Deed of Incorporation will include a representation and warranty and undertaking of the Originator as to its compliance with (i) the requirements set forth in Article 6(1) of the EU Securitisation Regulation and (ii) the requirements set forth in Article 6(1) of the UK Securitisation Regulation (as in effect as at the Issuer Incorporation Date). In addition to the information set out herein and forming part of this Prospectus, the Originator has undertaken to make available materially relevant information to investors so that investors are able to verify compliance with Article 6 of the EU Securitisation Regulation (but not Article 6 of the UK Securitisation Regulation) in accordance with Article 7 of the EU Securitisation Regulation, as set out in section 4.2.1 of this Additional Information. In particular, the quarterly reports shall include information about the risk retained pursuant to Article 6(1) of the EU Securitisation Regulation, including information on which of the modalities of retention has been applied as provided for in Article 6(3) of the EU Securitisation Regulation, pursuant to paragraph 1.(e).(iii) of article 7 of the EU Securitisation Regulation.

Each prospective investor is required to independently assess and determine the sufficiency of the information described above and in this Prospectus generally for the purposes of complying with each of the provisions described above and any corresponding implementing measure which may be applicable, and none of the Management Company, nor the Sole Arranger, the Lead Manager, the Subscribers, or any other parties to the Transaction Documents make any representation that the information described above or in this Prospectus is sufficient in all circumstances for such purposes. In addition, each prospective Noteholder should ensure that they comply with any implementing provisions in respect of the EU Securitisation Regulation or the UK Securitisation Regulation, as applicable.

3.4.4. Details of any financing of subordinated debt finance.

3.4.4.1. Start-up Loan Agreement

The Management Company, on behalf of the Issuer, will enter into a Start-Up Loan Agreement with BANCO CETELEM in the total amount of ONE MILLION EUROS (EUR 1,000,000.00), which will be used for covering:

- (i) the amount of any Initial Expenses to be paid by the Issuer, and
- (ii) the initial temporary mismatch in the first Interest Period (due to the difference which will be generated between the interest on the Receivables charged from the Issuer Incorporation Date through first Payment Date and the interest on the Notes to be paid on the first Payment Date) ("**Initial Interest Period Mismatch**").

All amounts due under the Start-up Loan Agreement corresponding to the principal used for the purposes described above shall be payable on each Payment Date on a monthly basis, as long as the Available Interest Proceeds allow such payment according to item (27) in the Interest Priority of Payments or, as applicable, enough Available Distribution Amount prior to item (20) according to the Accelerated Priority of Payments.

The Start-up Loan will accrue nominal fixed annual interest, calculated for each Interest Period, at a 0.323% rate.

Interest accrued, which should be paid on a particular Payment Date, will be calculated on the basis of (i) the number of days in each Interest Period and (ii) a year containing three hundred and sixty (360) days. Payment of any interest due under the Start-up Loan will be subject to the existence of enough Available Interest Proceeds remaining prior to application of item 27 according to the Interest Priority of Payments or, Available Distribution Amount as applicable prior to item 20 according to the Accelerated Priority of Payments.

Notwithstanding the event of the Issuer being terminated, in accordance with the provisions of section 4.4.5 of the Registration Document, the Start-Up Loan Agreement shall be terminated only after the corresponding disbursement of the amount corresponding to Initial Expenses. Such amount will be used to pay the Issuer Initial Expenses (including any obligations undertaken by the Management Company, on behalf of the Fund, originated upon the Issuer being incorporated) which are due and payable, and its principal repayment shall be deferred and subordinated to satisfaction of those obligations, out of the Fund's remaining resources.

3.4.4.2. Liquidity Reserve Loan Agreement

On the Issuer Incorporation Date, the Management Company, on behalf of the Issuer, will enter into a Liquidity Reserve Loan Agreement with the Liquidity Reserve Loan Provider for an amount of EUR 9,650,000.00, which will be used to fund the Liquidity Reserve on the Disbursement Date.

The amount of the Liquidity Reserve Loan shall be fully disbursed into the Reinvestment Account on or prior to the Disbursement Date. Once disbursed, the Management Company will apply its proceeds to credit the balance of the Liquidity Reserve up to the Liquidity Reserve Required Amount as of the Disbursement Date.

The Liquidity Reserve Loan Agreement will be fully terminated on the earlier of:

- (i) Issuer Liquidation Date;
- (ii) the Final Maturity Date of the Issuer; or
- (iii) as the case may be, the Payment Date on which all the amounts due, either as principal or interest, under the Liquidity Reserve Loan Agreement are satisfied, or
- (iv) if (i) the provisional credit ratings of the Notes are not confirmed as final (unless they are upgraded) prior or on the Disbursement Date; or (ii) if the Notes Subscription Agreement is fully terminated in accordance with the provisions of section 4.2.3 of the Securities Note.

The Liquidity Reserve Loan Agreement is of a subordinated nature, such that the interest amounts owed to the Liquidity Reserve Loan Provider will be subject to the Interest Priority of Payments.

The Fund shall repay the principal amount made available to it under the Liquidity Reserve Loan Agreement (in both cases below, such amounts will not be considered as belonging to the Available Distribution Amounts, and therefore its repayment will not be subject to the rules for application of any such amounts under any of the Priority of Payments):

- a. on each Payment Date up to and including the Final Class E Notes Payment Date, or the occurrence of an Accelerated Redemption Event, by an amount equal to the Liquidity Reserve balance in excess of the Liquidity Reserve Required Amount; and
- b. after the Final Class E Notes Payment Date or during the Accelerated Redemption Period or on the Final Maturity Date (but in any case after the application of the Liquidity Reserve balance towards any Remaining Interest Deficiency existing on such Payment Date), by and amount equal to the current Liquidity Reserve balance.

The Liquidity Reserve Loan will accrue a fixed annual interest, calculated for each Interest Period, at a 0.323% rate. Interest accrued, which should be paid on a particular Payment Date, will be calculated on the basis of (i) the number of days in each Interest Period and (ii) a year containing three hundred and sixty (360) days. Payment of any interest due under the Liquidity Reserve Loan will be subject to the existence of enough Available Interest Proceeds remaining prior to application of item 25 according to the Interest Priority of

Payments or, as applicable, enough Available Distribution Amount prior to item 18 according to the Accelerated Priority of Payments.

The amounts due and unpaid under this Liquidity Reserve Loan will not accrue default interest in favour of the Liquidity Reserve Loan Provider.

Any amounts not paid upon termination of the Liquidity Reserve Loan Agreement shall be cancelled and deemed as a final loss for the Liquidity Reserve Loan Provider.

The Liquidity Reserve Loan Provider specifically and irrevocably waives any right of set-off against the Fund that could otherwise correspond to it by virtue of any agreement entered into with the Fund.

Any and all costs incurred in connection with the Liquidity Reserve Loan Agreement will be borne by the Issuer.

3.4.5. Specification of any investment parameter for the investment of temporary liquidity surpluses and description of the parties responsible for the said investment

3.4.5.1. Reinvestment Account

On the Issuer Incorporation Date and pursuant to the provisions of an account bank agreement to be entered into by and between the Management Company, on behalf of the Fund, and BP2S (the “**Account Bank**”) (the “**Account Bank Agreement**”), the Management Company shall instruct the Account Bank to open the Reinvestment Account.

The amounts standing from time to time to the credit of the Reinvestment Account accrue interest at a rate equal to €STR -0.165%, unless the €STR is negative, in which case accrue interest rate equal to ECB rate. At the date of this Prospectus, based on the prevailing €STR rate, it is expected that the interest rate applicable on the Reinvestment Account on the Issuer Incorporation Date will be the ECB rate (which at the current date is – 0.50%).

The Reinvestment Account will not be allowed to have a negative balance to the detriment of the Issuer and/or the Account Bank. Amounts shall only be withdrawn from the Reinvestment Account to the extent that such withdrawal does not cause the Account Bank to have a negative balance. The Account Bank shall not be under any obligation to monitor the Reinvestment Account for this purpose. No liability shall be attached to the Account Bank if there are insufficient cleared, immediately available funds to make a payment in whole or in part.

The Management Company cannot pledge, assign, delegate or, more generally, give any title or right or create any security interest whatsoever in favour of any third parties over the Reinvestment Account. All monies standing at the credit balance of the Reinvestment Account shall, (i) when considered as Available Distribution Amounts be applied in accordance with the relevant Priority of Payments, or (ii) prior to that time when they are considered Available Distribution Amounts, be kept in the form of cash or invested from time to time in Authorised Investments by the Management Company pursuant to section 3.4.5.4 of this Additional Information. For clarification purposes any monies standing to the credit of the Liquidity Reserve exceeding the Liquidity Reserve Required Amount shall be released and distributed as repayment of principal under the Liquidity Reserve Loan Agreement, regardless the relevant Priority of Payment.

For these purposes, “**Authorised Investments**” means any term deposit with BNP PARIBAS, (i) with a maturity less than thirty (30) days, (ii) bearing a fixed or variable interest rate that be either positive or negative, but in any case not less than the remuneration of the Reinvestment Account; and (iii) to the extent that BNP PARIBAS meets at least the Account Bank Required Ratings. Authorised Investments shall never consist in whole or in part, actually or potentially, of securities including any asset-backed securities, credit-linked notes, swaps or other derivatives instruments, synthetic securities or similar claims. For clarification purposes, Authorised Investments do not include any variable income investment.

For these purposes, “**Account Bank Required Ratings**” means in respect to the Account Bank, the following ratings:

- (a) “Baa3” (or higher) according to the Moody’s long-term deposit rating, and
- (b) A or F1 (or higher) according to the Fitch long-term Deposit Rating if available, otherwise a long-term IDR, and a Fitch short-term senior Deposit Rating if available, otherwise a short-term IDR, respectively,

or such other ratings that are consistent with the then published criteria of the relevant Rating Agency as being the minimum ratings that are required to support the then rating of the Notes.

Remuneration of the Account Bank in relation to the Account Bank Agreement

In consideration for the services to be provided by the Account Bank by virtue of the Account Bank Agreement, the Management Company in the name and on behalf of the Issuer, shall pay to the Account Bank on each Payment Date, and subject to the applicable Priority of Payment, a fee agreed between the Account Bank and the Management Company.

Credit of the Reinvestment Account

The Reinvestment Account will be credited with respect to the following amounts:

- (c) on any Collections Settlement Date with an amount equivalent to any positive Corrected Available Collections;
- (d) on the Disbursement Date, with (i) the proceeds of the issue of the Notes in accordance with the Notes Subscription Agreement (subject to any set-off arrangements agreed between the parties to the Notes Subscription Agreement), (ii) the amount corresponding to the Liquidity Reserve, and (iii) the amount corresponding to Start-up Loan;
- (e) On each Payment Date with any amounts to be received by the Issuer under any Interest Rate Swap Agreement (other than any collateralisation amount), and any amount received by the Issuer under the Swap Guarantee;
- (f) Before each Settlement Date, during Revolving Period and the Normal Redemption Period, and only for so long as no Seller Event of Default has occurred, with the amount from the investment in Authorised Investments;
- (g) On any date, with (i) any early termination amount received from the Swap Counterparty in excess of the amount required and applied by the Issuer to purchase one or more replacement interest rate swap agreements and (ii) any amount received from a replacement interest rate swap counterparty in excess of the amount required and applied to pay any outgoing interest rate swap counterparty; and
- (h) plus (less) the amount of any positive (negative) Financial Income corresponding to the Reinvestment Account and the Authorised Investments.

Debit of the Reinvestment Account

On the Disbursement Date, the Management Company shall give the instructions to the Account Bank for the payment of the Purchase Price of the Initial Receivables to the Seller, in accordance with the Master Receivables

Sale and Purchase Agreement, by debiting the Reinvestment Account (subject to any set-off arrangements agreed between the parties to the Master Receivables Sale and Purchase Agreement).

On any Collections Settlement Date with an amount equivalent to any negative Corrected Available Collections.

On each Payment Date during the Revolving Period and the Normal Redemption Period, the Reinvestment Account shall be debited with respect to the following amounts, following the Management Company's instructions:

On each Payment Date during the Accelerated Redemption Period, the Reinvestment Account shall be debited by the Available Distribution Amount which will be allocated in accordance with the Accelerated Priority of Payments.

On any given day (i) to enter the Spanish Treasury withholdings made on the interest accrued by the Notes and, where appropriate, when the return of the withholdings is appropriate already practiced; and (ii) when it is necessary for the payment of fees, taxes and invoices that must be paid on a date other than the Payment Date, always in accordance with the relevant Priority of Payments.

3.4.5.2. Rating Agencies Criteria for the Account Bank

In the event that the Account Bank in which the Reinvestment Account is opened ceases to have the Account Bank Required Ratings at any time during the life of the Notes, the Management Company shall, within no more than sixty (60) calendar days from the day of the occurrence of any of these events, after notifying the Rating Agencies, perform one of the following remedial actions:

- (a) Obtain from an institution:

The Servicer will not pay, in any case, any amount to the Fund that the Servicer has not previously received from the Borrowers or any other third party in respect of the Loans.

In the event of delinquencies of the Borrowers, the Servicer will take the actions described in section 3.7.2 of the Additional Information section of this Prospectus, and will carry out the same measures that it would have carried out if it continued to be the owner of the Receivables, and provided that such actions do not negatively affect the management of the Fund nor the rating assigned to the Rated Notes.

Control of the deposited amounts arising from the Receivables

Each month, on the corresponding Information Date, the Servicer will provide to the Fund the Servicing Report as determined in section 3.7.2.6 of the Additional Information in this Prospectus.

In the event of disagreements between the Servicer and the Management Company regarding any such differences, both parties will try to resolve such disagreements prior the Collection Determination Date. However, if no agreement is reached prior to the Collection Determination Date, the Servicer will provisionally transfer into the Reinvestment Account the amount determined by the Management Company with sufficient justification, without prejudice to subsequent agreements to adjust this amount in the context of Corrected Available Collections.

The “**Collections Determination Date**” is defined as the second (2nd) Business Day immediately preceding a Collections Settlement Date. On such date, the Management Company and the Servicer will determine the amounts which have been effectively deposited into the Reinvestment Account (or the account that replaces it) corresponding to the Collection Period immediately prior to the specific Collection Determination Date, and the extent, if any, of any difference in respect to the amounts that should have been deposited in accordance with each of the Loan Agreements corresponding to the Loans from which the Receivables assigned to the Fund derive, and the information provided by the Servicer in the Servicing Report.

“**Corrected Available Collections**” means, with respect to any Collection Period and on any Collection Determination Date, all amounts subject to any adjustment of the Available Collections with respect to the previous Collection Periods, including any collections which might have been subject to any set-off between the corresponding Borrowers and the Seller (including set-off of those claims that the Borrowers may have against BANCO CETELEM deriving from a partial or total cancellation of the underlying commercial transaction and/or payment protection insurance, in the context specified in paragraphs (ii) and (iii) of section 2.2 in the Additional Information), and which the Seller has agreed to pay to the Issuer.

The “**Collections Settlement Date**” is defined as the fifteenth (15th) of each month or the immediately preceding Business Day, except for the first Collections Settlement Date, that will take place on 15 July 2021, on which any differences (positive or negative) as determined by the Management Company on such Collections Determination Date must be settled between the Servicer and the Fund. In the case of any positive Corrected Available Collections the Servicer must transfer such amount to the Reinvestment Account.

If the Servicer has failed to provide the Management Company with the Servicing Report, the Management Company shall determine or estimate the amount of theoretical collections on the basis of the latest information received from the Servicer pursuant to the Servicing Agreement, as applicable, and the outstanding balance of the Reinvestment Account deposited at the end of the Collection Period immediately prior to a Payment Date, in order to make payments in accordance with the relevant Priority of Payments.

If on any relevant Payment Date, the Available Distribution Amount is not sufficient to pay, or redeem any amount then due and payable (or any amount to be transferred or to be redeemed or retained), such shortfall shall constitute arrears which will become due and payable by the Fund on the next following Monthly Payment Date, at the same rank, but in priority to the payment of the amounts of same nature in the applicable Priority of Payments and such amounts in arrears shall not bear interest.

3.4.7.7. Variable Fee

BANCO CETELEM is entitled to receive a variable fee (the “**Variable Fee**”) on each Payment Date equal to the difference between (i) all interest proceeds derived from the Receivables plus the interest accrued under the Reinvestment Account and any other return that might correspond to the Issuer; minus (ii) all the Issuer’s expenses, including the Ordinary and Extraordinary Expenses and any interest from any financing such as the Liquidity Reserve Loan Agreement, those necessary for its incorporation and operation, and the coverage of any defaults of the Receivables.

The Management Company will pay the Variable Fee subject to such Variable Fee being positive, on each Payment Date, in accordance with the Interest Priority of Payments and the Accelerated Priority of Payments, and once all items prior to such Variable Fee on the Interest Priority of Payments and the Accelerated Priority of Payments, respectively, have been paid.

Once the Issuer has been liquidated and all the payments have been made pursuant to the Accelerated Priority of Payments, if there is any remaining amount, such remaining amount will also be paid to the Seller as Variable Fee.

If applicable, BANCO CETELEM will be responsible for the payment of all taxes related to the payment of the Variable Fee. In the event that such payments give rise to the mandatory imposition of any tax, the amount to be paid shall be reduced to the extent required so that, once increased by the tax incurred, there is no change in the agreed consideration, which shall be deemed for these purposes as a total amount including any taxes applicable to the Issuer.

BANCO CETELEM may assign, transfer, replace or subrogate the rights and obligations derived from this right provided it has the prior consent from the Management Company.

3.4.7.8. Fund Expenses

The Fund will pay the Initial Expenses, the Ordinary Expenses and the Extraordinary Expenses that accrue throughout its life.

1. “**Initial Expenses**” means any expense related to Fund incorporation, the issuance and admission to trading (listing) of the Notes, as well as any other expense to be paid by the Fund before the first monthly Payment Date.

Although the actual amount of Ordinary Expenses cannot be determined in advance as it will depend among other on fixed and variable factors linked to the Outstanding Principal Balance of the Purchased Receivables, a 0,135% of the Outstanding Principal Balance of the portfolio is an estimate of said yearly expenses in which the Fund could incur in the future.

For these purposes,

Remuneration of the Management Company

3.4.8. Other arrangements upon which payments of interest and principal to investors are dependent

3.4.8.1. Interest Rate Swap Agreements

The main terms and conditions of the Swap Agreements are described in section 3.4.2.6 of this Additional Information.

3.4.8.2. Paying Agency Agreement

The Management Company shall, for and on behalf of the Fund, enter into on the Issuer Incorporation Date, and maintain thereafter, a paying agency agreement with the Paying Agent for the purposes of settlement and delivery of the Notes upon their issuance by the Fund, and for the payment of interest and principal thereafter on any Payment Date (the **“Paying Agency Agreement”**).

As of the date of this Prospectus BP2S has been selected by the Seller to act as Paying Agent on and from the Issuer Incorporation Date.

Obligations of the Paying Agent

On each Payment Date, the Paying Agent, in accordance with the instructions from the Management Company, will make payments of interest and principal on the Notes through IBERCLEAR, after deducting, as the case may be, the total amount of the interim interest tax withholding applicable to the Notes in accordance with applicable tax laws.

Obligations in case of the credit rating downgrade

In the event that the Paying Agent ceases to have the Paying Agent Required Rating, the Management Company shall, within not more than sixty (60) calendar days from the day of the occurrence of any of these events, after notifying Moody's, perform one of the following remedial actions:

- (a) Obtain from an institution with a long-term deposit rating of "Baa3" from Moody's, an unconditional, irrevocable and first demand guarantee securing for the Issuer, merely upon the Management Company so requesting, the performance of the commitments made by the Paying Agent for such time as the Paying Agent fails to comply with the Paying Agent Required Rating condition;
- (b) revoke the appointment of the Paying Agent, and proceed to appoint another institution with a long-term deposit rating of "Baa3" from Moody's, to replace it before terminating the Paying Agency Agreement. Should BP2S be replaced as Paying Agent, the Management Company shall be authorised to modify the fee payable to the substitute institution, which may be higher than the one agreed with BP2S in the Paying Agency Agreement.

In this regard, the Paying Agent shall irrevocably agree to notify the Management Company, upon the occurrence of any change, downgrading or removal of its rating by Moody's.

For these purposes, "**Paying Agent Required Rating**" means in respect to the Paying Agent, "Baa3" according to the Moody's long-term deposit rating, or such other ratings that are consistent with the then published criteria of Moody's as being the minimum ratings that are required to support the then rating of the Notes.

All costs, expenses and taxes incurred in connection with doing and arranging for the above replacement shall be borne by the Issuer.

Termination

The Paying Agency Agreement shall be fully terminated (i) in the event that the Rating Agencies do not confirm the provisional ratings assigned to the Notes as final ratings (unless they are upgraded), prior to or on the Disbursement Date or (ii) if the Notes Subscription Agreement is fully terminated in accordance with the provisions of section 4.2.3 of the Securities Note.

In addition, the Paying Agent may resign its role as Paying Agent by giving at least two (2) months' prior notice to the Management Company or may be replaced by the Management Company in compliance with the terms established in the Paying Agency Agreement, provided that another entity with similar financial characteristics whose rating satisfies the Paying Agent Required Ratings condition, and accepted by the Management Company, replaces the Paying Agent as regards the duties undertaken by virtue of Paying Agency Agreement.

In the case of replacement due to the resignation of the Paying Agent, any costs resulting from the replacement as well as the fee for the new Paying Agent will be considered Extraordinary Expenses of the Fund.

The resignation or removal, as well as the appointment of the substitute Paying Agent, will be notified by the Management Company to the CNMV and the Rating Agencies.

Neither the resignation of the Paying Agent nor the replacement of the Paying Agent by the Management Company, will have any effect until the appointment of the substitute paying agent takes place.

Remuneration of the Paying Agent in relation to the Paying Agency Agreement

In consideration of the services to be provided by the Paying Agent by virtue of the Paying Agency Agreement, the Management Company, for and on behalf of the Fund, shall pay on each Payment Date during the term of the agreement, and subject to the applicable Priority of Payment, a fee agreed between the Paying Agent and the Management Company.

This fee shall be paid on each Payment Date, provided that the Fund has sufficient liquidity and in the Priority of Payments.

In the event that, in the Priority of Payments, the Fund does not have sufficient liquidity to pay the full fee on a Payment Date, the unpaid amounts accrued shall be aggregated without any penalty whatsoever with the fee falling due on the following Payment Date, unless that absence of liquidity should continue, in which case the amounts due shall build up until fully paid on the Payment Date on which they are settled, in the Priority of Payments or, as the case may be, upon liquidation of the Fund in the Priority of Payments.

- (ii) The Management Company may in no event resign from its duties until and unless all requirements and formalities have been complied with in order for the entity replacing it to take over its duties.

- (iii) The replacement expenses originated shall be borne by the resigning management company and may in no event be passed on to the Issuer.

Forced replacement.

- (i) In the event that the Management Company is adjudged insolvent and/or has its licence to operate as a securitisation fund management company revoked by the CNMV, in accordance with articles 33 and 27 of Law 5/2015, it shall find a substitute management company, in accordance with the provisions of the previous section.
- (ii) If four (4) months have elapsed from the occurrence of the event (as provided for in the preceding paragraph) determining the forced replacement of the Management Company, and no new management company has been found willing to take over management, this event will be considered an Issuer Mandatory Early Liquidation Event which will trigger the Early Amortisation of the Notes, in accordance with the provisions of the Deed of Incorporation and this Prospectus.

The Management Company agrees to execute such public and private documents as may be necessary for it to be replaced by another management company, in accordance with the system provided for in the preceding paragraphs of this section. The replacing management company shall be replaced in the Management Company's rights and duties under this Prospectus. Furthermore, the Management Company shall hand to the replacing management company such accounting records and data files as it may have to hand in connection with the Issuer.

3.7.1.3. Subcontracting

The Management Company shall be entitled to subcontract or subdelegate to solvent and reputable third parties the provision of any of the services it has to provide as the servicer and authorised representative of the Issuer, as established in this Prospectus, provided that the subcontractor or delegated party waives the right to take any action holding the Management Company or the Seller liable.

3.7.2. Servicing and custody of the securitised assets

Notwithstanding the obligations of servicing and management of the Receivables corresponding to the Management Company in accordance with article 26.1.b) of Law 5/2015, on the Issuer Incorporation Date, the Management Company, on behalf of the Issuer, shall enter into a servicing agreement with the Seller by virtue of which the Issuer will contract with the Seller the servicing of the Purchased Receivables (the "**Servicing Agreement**"). Relations between BANCO CETELEM as Servicer and the Issuer, represented by the

Management Company, in relation to the servicing and management of the Purchased Receivables, shall be governed by the Servicing Agreement.

The above shall all be construed without prejudice to the Management Company's responsibilities in accordance with Article 26.1 b) of Law 5/2015.

BANCO CETELEM or any other entity that may substitute it in the future (as servicer, the "**Servicer**") will service and administer the Purchased Receivables and collect payments due in respect of such Purchased Receivables in accordance with its customary and usual BANCO CETELEM Policies for servicing auto loan receivables comparable to the Purchased Receivables. The Servicer shall also administer and enforce (if any) the Ancillary Rights.

The Servicer confirms it has the relevant expertise as an entity being active in the consumer loans market from at least 5 years.

3.7.2.1. Undertakings and Duties of the Servicer

3.7.2.2. General Representations and Undertakings of the Servicer

Pursuant to the Servicing Agreement, the Servicer has represented and undertaken:

- (a) to service and administer the Purchased Receivables pursuant to (i) the provisions of the Servicing Agreement and (ii) the BANCO CETELEM Policies generally used by him in such circumstances and for this type of loan receivables, such BANCO CETELEM Policies being, *inter alia*, subject to changes pursuant to the Consumer Protection Law or in any applicable laws, as well as to some directives or regulations issued by any regulatory authority;
- (b) to service, administer, collect and recover the Purchased Receivables with the same level of care and diligence it usually provides in relation to the auto loan receivables comprising sales finance loan receivables of similar nature that it owns and which have not been transferred to the Issuer, or otherwise securitised, and to use procedures at least equivalent;
- (c) to service, administer, collect and recover the Purchased Receivables in a commercially prudent and reasonable manner in such way in order to minimise losses and maximise recoveries in compliance with all applicable laws and regulations;
- (d) on a daily basis to transfer to the Reinvestment Account any Available Collections received in respect of any Purchased Receivables; and
- (e) to ensure that its employees or agents or any third parties which may be appointed by the Servicer pursuant to the Servicing Agreement, which are or will be involved in the administration, servicing and collection of the Receivables and to the extent that such employees or agents or any third parties are informed or are made aware of the fact that the Receivables have been sold by the Seller to the Issuer, will apply the same level of care and diligence they usually provide in relation to the auto loan receivables which have not been transferred to the Issuer, or otherwise securitised, and to use procedures at least equivalent.

The most relevant terms of the Servicing Agreement are given in the following paragraphs of this section.

3.7.2.3. Specific Representations and Undertakings of the Servicer

The Servicer has agreed to provide the Management Company with the same level of care and diligence for the servicing, recovery and collection of the Purchased Receivables as the level of diligence it usually provides for its other similar auto loan receivables and to use procedures at least equivalent to those it usually uses.

Under the Servicing Agreement, the Servicer is appointed by the Management Company on behalf of the Issuer to manage and, if the case arises, to ensure the forced execution (if any) of the Ancillary Rights guaranteeing the payment of the Receivables.

When exercising the Ancillary Rights or liquidating any of the collateral guaranteeing the Loans whose proceeds shall be transferred by the Seller as Servicer to the Issuer as part of the rights assigned under the Purchased Receivables, it may be necessary to apply time limits laid down in the laws or regulations applicable to such procedures. This may cause certain delays in the payments to the Issuer, for which the Servicer cannot be liable.

3.7.2.5. Custody and Safekeeping of the underlying documents

Pursuant to the terms of the Servicing Agreement, BANCO CETELEM, in its capacity as Servicer of the Receivables shall ensure the safekeeping of the underlying documents relating to the Receivables and their Ancillary Rights.

The Servicer (i) shall be responsible for the safekeeping of the Loan Agreements and any other documents evidencing or relating to the Receivables and the related Ancillary Rights and (ii) shall establish appropriate documented custody procedures and an independent internal on-going control of such procedures, and (iii) at the request of the Management Company, the Servicer shall forthwith provide to Management Company, or any other entity designated by Management Company, the underlying documents relating to the Receivables.

3.7.2.6. Servicing Report

Under the Servicing Agreement, the Servicer has agreed to provide the Management Company with certain information relating to (i) principal payments, interest payments and any other payments received on the Receivables and (ii) any enforcement of the Ancillary Rights securing the payment of such Receivables. For this purpose, the Servicer shall provide the Management Company with the Servicing Report on each Information Date in the correct format to fulfil the reporting requirements of article 7 of the EU Securitisation Regulation. The Servicing Report will be provided with the content and in the form as set out in the Servicing Agreement.

3.7.2.7. Additional Information

Under the Servicing Agreement, the Servicer has agreed to provide the Management Company with all information that may reasonably be requested by it in relation to the Receivables or that the Management Company may reasonably deem necessary in order to fulfil its obligations, but only if such information is to (i) enable the Management Company to verify that the Servicer has duly performed its obligations pursuant to the Servicing Agreement, (ii) allow the Management Company to preserve the rights of the Noteholders over the Assets of the Issuer or (iii) enable the Management Company to perform its legal duties pursuant to the relevant provisions of the Law 5/2015, its designation as Reporting Entity for the purposes of the EU Securitisation Regulation, and any other applicable laws and regulations.

In particular, the Servicer shall provide in a timely manner to the Management Company, acting on behalf of the Fund insofar as acting as Reporting Entity, any reports, data and other information in the correct format to fulfil the reporting requirements of article 7 of the EU Securitisation Regulation. However, the Servicer shall not be required to provide any such reports, data or other information to the Management Company with respect to the UK Transparency Requirements, provided that in the event that the information made available to investors by the Reporting Entity in accordance with Article 7 of the EU Securitisation Regulation, the EU Disclosure RTS and the EU Disclosure ITS is no longer considered by the relevant UK regulators to be sufficient in assisting UK institutional investors in complying with the UK Due Diligence Requirements, the Originator agrees that it will, in its sole discretion, use commercially reasonable endeavours to take such further reasonable action as may be required for the provision of information to assist any UK Affected Investors in connection with the compliance by UK Affected Investors with the UK Due Diligence Requirements.

3.7.2.8. Renegotiations, Waivers or Arrangements Affecting the Receivables

3.7.2.8.1 Introduction

The Servicer may amend the terms of the Loan Agreements from which derive the Receivables and subject to and in accordance with the Servicing Agreement.

3.7.2.8.2 Judicial Renegotiations

If, in relation to any Purchased Receivable, a payment of any amount has not been made by the relevant Borrower and such breach has not been remedied and a claim has been made to the court, the Servicer may agree or be compelled by the court to waive some of the rights or to amend some of the terms under any Purchased Receivable.

3.7.2.8.3 Amicable or Commercial Renegotiations and Servicer's Undertakings

(i) Amicable or Commercial Renegotiations

Under the Servicing Agreement, the Servicer may proceed with an Amicable or Commercial Renegotiation of any Purchased Receivable which is neither a Defaulted Purchased Receivable nor subject to any current or previous Recovery Procedure.

The Servicer shall be entitled to carry out an Amicable or Commercial Renegotiation in respect of any Receivable which is neither a Defaulted Purchased Receivable nor subject to any current or previous Recovery Procedure only if on the date of such Amicable or Commercial Renegotiation and taking into account the effect of such Amicable or Commercial Renegotiation, such Amicable or Commercial Renegotiation is a Permitted Variation.

For clarification purposes, an "**Amicable or Commercial Renegotiation**" means any amicable renegotiation (including, for the avoidance of doubt, negotiations of actions that may take place in accordance with the Servicer Policies).

For clarification purposes, "**Recovery Procedure**" means a recovery procedure with respect to a Purchased Receivable which is in arrears, or related to a Borrower which is declared insolvent, or is the borrower under any other due and unpaid debt not included in the Fund, and which is made by the Servicer in accordance with the Servicer Policies.

(ii) Servicer's Undertakings

Pursuant to the Servicing Agreement, the Servicer has represented and warranted to the Management Company (on behalf of the Issuer) that it will not carry out any Amicable or Commercial Renegotiations in respect of any Purchased Receivable if, as a result of such Amicable or Commercial Renegotiations, such Amicable or Commercial Renegotiation is a Non-Permitted Variation.

For clarification purposes, a "**Non-Permitted Variation**" means any change to a Loan Agreement that relates to a Purchased Receivable which has the effect of:

- (a) writing-off the Outstanding Principal Balance; or
- (b) reducing its applicable interest rate; or
- (c) extending the initial contractual term of the Purchased Receivable more than twenty-four (24) additional months; or
- (d) changing the payment frequency,

but in the case of items (a), (b), (c) and (d) above, shall not, for the avoidance of doubt, include any action taken with respect to the Servicer's credit and arrears management process in accordance with the Servicer Policies

for managing arrears in relation to Defaulted Purchased Receivables, or otherwise in the context of a Recovery Procedure in respect of items (b) and (c).

Breach of Servicer's Undertakings and Remedies

If the Servicer has made a Non-Permitted Variation, the Servicer will, with the prior consent of the Management Company, decide to proceed either:

- (a) by indemnifying the Issuer *provided that* upon such indemnification the Servicer has undertaken to pay to the Issuer, represented by the Management Company, an amount equal to the Non-Compliant Purchased Receivables Rescission Price;
- (b) by terminating the assignment of the Non-Compliant Purchased Receivable and substituting such Non-Compliant Purchased Receivable by one or more Eligible Receivables (the “**Substitute Receivable(s)**”), provided that, if the Outstanding Principal Balance of the Substitute Receivable(s) is less than Outstanding Principal Balance of the Non-Compliant Purchased Receivable, the Seller shall pay to the Issuer an amount equal to the difference between:
 - (i) the Non-Compliant Purchased Receivables Rescission Price; and
 - (ii) the Outstanding Principal Balance of the Substitute Receivable(s).

“**Non-Compliant Purchased Receivable**” means any Purchased Receivable which does not meet the Eligibility Criteria on the relevant Purchase Date or which is affected by a Non-Permitted Variation.

For clarification purposes, the “**Non-Compliant Purchased Receivables Rescission Price**” means, in respect of a Non-Compliant Purchased Receivable, an amount, calculated by the Seller, equal to the aggregate of:

- (a) the Outstanding Principal Balance of the Non-Compliant Purchased Receivable; plus
- (b) any accrued interest outstanding and any other amounts outstanding of principal, interest, expenses and accessories relating to such Non-Compliant Purchased Receivable.

Such substitution or indemnification of the Issuer by the Servicer shall be carried out, at the latest, within the next Settlement Date following the indemnification or substitution request made by the Management Company, provided there are at least 30 days between such dates. All amounts paid to the Issuer by the Servicer pursuant to any rescission of the assignment of the Receivable shall be treated as Prepayments under the Deed of Incorporation. The amounts paid by the Servicer to the Issuer shall be added to the Available Principal Collections.

For the purposes of this section 3.7.2.8 and section 3.7.2.4 above, the Management Company as responsible for servicing and managing the Receivables pursuant to article 26.1.b) of Law 5/2015, shall grant in the Deed of Incorporation a power of attorney as broad as permitted by law in favour of the Servicer, so that the Servicer, acting through any of its attorneys duly empowered for such purpose, as instructed by the Management Company, in the name and on behalf of the latter, or in its own name albeit on behalf of the Management Company, as the authorised representative of the Fund, demand any Borrower in or out of court to pay the debt and take any legal action against the same, and if applicable to the guarantor or the insurance company, in addition to any other powers required for the performance of its duties as Servicer. These powers may also be granted under a separate from the Deed of Incorporation or may be expanded and modified, if necessary, for the performance of such duties.

3.7.2.9. Delegation – Sub-contract

The Servicer may sub-contract to any credit institution of its choice or to any authorised services providers part (but not all) of the services to be provided by it under the Servicing Agreement, *provided that*:

- (a) the delegated functions shall be limited to the management of the Receivables and the enforcement (if any) of the Ancillary Rights;
- (b) notwithstanding any provisions to the contrary (including, without limitation, in the contractual arrangements between the Servicer and the appointed third party), the appointment of such third parties shall not in any way exempt the Servicer from its obligations under the Servicing Agreement, for which it shall remain responsible for the collection of the Receivables, the enforcement of the Ancillary Rights (if any) and any delegate's action towards the Issuer, as represented by the Management Company as if no such sub-contract had been made;
- (c) the Issuer shall have no liability to the appointed third party whatsoever in relation to any cost, claim, charge, damage or expense suffered or incurred by the third parties;
- (d) the appointment of any such third party shall be subject to such third party has agreed to give Servicer the same representations, warranties and undertakings as those given by the Servicer to the Issuer;
- (e) each appointment of any such third party shall be subject to the prior consent of the Management Company, acting for and on behalf of the Issuer (save when the appointment is made in compliance with BANCO CETELEM Policies or is legally required) which consent shall be delivered by the Management Company as soon as practically possible and shall not be unreasonably withheld;
- (f) any third party will perform its services and duties with the appropriate care and level of diligence;
- (g) the Servicer shall have ensured that the appointment of any such third party shall not result in the downgrading of any of the then current ratings of the Notes (or to such ratings being on negative creditwatch); and
- (h) in no case will such subcontracting entail any additional cost or expense for the Issuer.

3.7.2.10. Personal Data relating to the Borrowers with respect to the Receivables

Pursuant to the Servicing Agreement, within three (3) calendar months following the Initial Purchase Date and thereafter on each Information Date, the Servicer shall send to the Management Company a computer file in encrypted form including the relevant personal data of the Borrowers of the Receivables (the "**Encrypted Data File**"). The sole purpose of such Encrypted Data File is to enable the Management Company to notify the Borrowers if (i) the Servicer has to be replaced in accordance with the terms of the Servicing Agreement or (ii) the Servicer has become subject to any resolution actions (*medidas de resolución*).

Pursuant to the terms of the Servicing Agreement, a Spanish Public Notary shall hold the Decoding Key which is required to decrypt the information relating to personal data of the Borrowers with respect to the Receivables contained in the Encrypted Data File.

3.7.2.11. Substitution of the Servicer

The services will be provided by BANCO CETELEM until all obligations assumed by BANCO CETELEM in relation to the servicing of the Purchased Receivables are extinguished without prejudice to the possible early revocation of its mandate.

In the case of the occurrence of a Servicer Termination Event, the Management Company on behalf of the Issuer, after prior consultation to the Rating Agencies, may take one of the following actions:

- (i) replace the Servicer with another entity that, in the opinion of the Management Company, has the suitable legal and technical capacity, provided that the rating of the Rated Notes is not adversely affected;

- (ii) require the Servicer to subcontract, delegate or have the performance of such obligations guaranteed by another entity that, in the opinion of the Management Company, has the suitable legal and technical capacity, provided that the rating of the Notes is not adversely affected.

For the purposes of replacing the Servicer, the Management Company, in its capacity as Back-Up Servicer Facilitator, will use its best efforts to search for a new servicer so that within thirty (30) days such Substitute Servicer may replace BANCO CETELEM as the Servicer.

In case a delegation is foreseen, the Management Company will take into account the proposals made by the Servicer both in connection with the subcontracting, delegation or appointment of the Substitute Servicer for the fulfilment of its obligations, and in connection with the entity that could guarantee the fulfilment of such obligations.

Notwithstanding the foregoing, the final decision as regards the appointment of the Substitute Servicer and any of the aforementioned actions will correspond to the Management Company, acting in the name and on behalf of the Fund.

Such Substitute Servicer must be duly licensed to conduct such activity. Each Borrower and the relevant insurance companies shall be jointly notified of such substitution by the Servicer being replaced, and the Management Company. In order to deliver such notification, the Management Company may enlist the assistance of any third party designated by it (including any substitute service provider as may be appointed from time to time by the Management Company in connection with such notification).

In case a Servicer Termination Event, the Servicer makes the following undertakings to the Management Company:

- To make available upon the Management Company's request the most up to date version of Encrypted Data File, and the latest direct debit instructions file necessary to issue collection orders to Borrowers or to have served on Borrowers the notice referred to below.

The communication and use of such data shall be limited and in any event subject to compliance with the Organic Law 3/2018, of 5 December, on Personal Data Protection and guarantee of digital rights or law replacing, amending or implementing the same (the "**Data Protection Law**"), and the Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (the "**General Data Protection Regulation**").

- To assist the Management Company using all reasonable efforts in the substitution process and, as the case may be, notify the Borrowers and the insurance companies.
- As soon as reasonably practicable, to deliver and make available to the Management Company (or any person appointed by it) any underlying documentation delivered to it by the Seller (if different from the Servicer), copies of all records (including, without limitation, computer records and books of records), correspondence, and documents in its possession or under its control relating to the relevant Receivables assigned to the Fund and any sums and other assets, if any, then held by the Servicer on behalf of the Management Company; and
- to do such things and execute such contracts as shall require the Servicer's involvement in order for functions to be effectively transferred to the Substitute Servicer.

The Servicer may, in turn, voluntarily resign its duties as Servicer of the Purchased Receivables, if permitted by laws in force from time to time, and provided that (i) it is authorized by the Management Company, (ii) the Management Company has appointed a Substitute Servicer which has effectively accepted to start carrying out its duties, (iii) the Servicer has indemnified the Fund for any damages caused to the Fund by the resignation

and replacement (including any additional cost, will not be charged to the Fund), and (iv) the rating of the Notes is not adversely affected.

No substitution of the Servicer will become effective until a Substitute Servicer has been appointed by the Management Company and has agreed to assume the initial Servicer's duties, responsibilities and obligations.

3.7.2.12. Notification of the Borrowers

The assignment will not be initially notified to the Borrowers, except to the Borrowers of the Autonomous Communities of Valence and Castilla La Mancha, (i) according to Law 6/2019, of March 15, of the Generalitat, amending Law 1/2011, of March 22, approving the Statute of consumers and users of the Valencian Community, in guarantee of the right of consumer information on mortgage securitization and other credits and certain business practices, and (ii) to the extent required by Law 3/2019, of March 22, approving the Statute of Consumers in Castilla La Mancha, respectively, unless otherwise required by the applicable law.

Notwithstanding with the notifications that may subsequently be served, in accordance with the relevant laws of the Autonomous Communities from time to time.

Any costs and expenses arising from this notifications shall be borne by the Seller.

The Borrowers shall be notified of the assignment, sale and transfer of the Receivables by the Seller to the Issuer upon:

- (a) the appointment of a Substitute Servicer by the Management Company pursuant to the Servicing Agreement;
- (b) the occurrence of a Servicer Termination Event; or
- (c) in the event of insolvency, liquidation, intervention by the Bank of Spain or substitution of Banco Cetelem, as Seller, or in the event of insolvency or indications thereof, liquidation or the replacement of the Servicer, or if the Management Company considers it to be reasonably justified, following instructions of the Management Company.

If any of the above-mentioned events occurs, following instructions from the Management Company, the Servicer shall require the Seller to notify (or cause to be notified) the Borrowers and the Insurance Companies of the assignment, sale and transfer of the Receivables by the Seller to the Issuer and to change Receivables' payment instructions. For these purposes, in any of the abovementioned scenarios, and in particular if the Seller fails to fulfill the request to notify made to him by the Servicer within five (5) Business Days of receipt of the request, the Management Company shall be entitled to instruct the Servicer to notify (or cause to be notified) the Borrowers and the Insurance Companies, to which end the Management Company may request the Spanish Public Notary to provide the Decoding Key of the Encrypted Data File in order to be able to access to the data included herein.

Any cost and expenses arising from the abovementioned notifications of the transfer of the Receivables shall be borne by the retiring Servicer. Notwithstanding this, in order to avoid any delays, the Management Company, at the expense of the Fund, may advance any such costs and expenses and request subsequently their reimbursement by the retiring Servicer.

3.7.2.13. Actions in relation to Defaulted Purchased Receivables

Optional Transfer of Receivables which have become Defaulted Purchased Receivables

As part of the Servicer Policies, and pursuant to the Servicing Agreement, the Servicer may from time to time arrange on behalf of the Fund, for the sale and transfer of any Defaulted Purchased Receivables to any Authorised Transferees against payment of the transfer price to the Issuer,

As part of such arrangement, the Servicer shall proceed according to the Servicer Policies, and as it would usually do if such Receivables would be owned by the Servicer, to request bids, or negotiate with any potential Authorised Transferees in order to obtain the best possible price available.

Any transfer will be subject to confirmation from the Rating Agencies that such transfer does not adversely affect any of the then current ratings of the Class A Notes to the Class F Notes.

The Management Company will be entitled to request and receive from the Servicer all information in relation to the determination by the Servicer of the Authorised Transferee and the transfer price to be paid by such Authorised Transferee to the Issuer.

Unless an extraordinary circumstance has arisen which in the justified opinion of the Management Company (acting on behalf of the Issuer), should prevent it, the Management Company (acting on behalf of the Issuer) will proceed to execute such sale as recommended and arranged for by the Servicer pursuant to the Servicing Agreement.

The Management Company (acting on behalf of the Issuer), or the Servicer acting on behalf of the Management Company (if needed, through any power of attorney as may be required to be granted), shall enter into an assignment agreement with the Authorised Transferee.

For these purposes, “**Authorised Transferee**” means the following entities different from the Seller and any affiliate of the Seller (including those belonging to BNPP group) and which will have been identified by the Servicer: (a) any credit institution licenced or passported in Spain; (b) any financing company licenced or passported in Spain; (c) any securitisation fund; (d) any financing Vehicle other than a securitisation fund or similar entity; (e) any other entity which is legally authorised to purchase receivables.

Transfer Date and Payment of the Transfer Price

The payment of the transfer price must be received by the Issuer on or before the corresponding Settlement Date in order for such payment to be applied in the next immediate Payment Date according to the relevant Order of Priority of Payments.

The transfer date will be the Calculation Date immediately preceding the Payment Date on which the transfer price may be applied as per the previous paragraph. Therefore in case that any collections are received by the Fund corresponding to any such transferred Receivables after the transfer date, they will be returned by the Fund to the purchaser (or alternatively, be used to set-off up the transfer price amount up to such amount).

3.7.2.14. Set-off

In case any Borrower has a net, due and payable credit right against the Servicer, and, a Loan Agreement is fully or partially set-off against that Receivable, the Servicer, if not being the same as the Seller, shall proceed to pay to the Issuer the amount set off plus accrued interest which would have been payable to the Issuer until the date on which payment is made, calculated on the terms applicable to the relevant Loan Agreement.

If on the contrary, the Seller is also acting as Servicer, the Seller shall proceed to remedy such breach according to section 2.2.10 or section 3.4.2.3.2 of the Additional Information of this Prospectus, as applicable.

3.7.2.15. Borrowers' death, disability, unemployment and Guaranteed Auto Protection insurance

Part of the Loan Agreements originated by BANCO CETELEM have insurance policies attached thereto with a payment protection plan in the event of death, total permanent disability due to accident, temporary disability, unemployment or Guaranteed Auto Protection insurance.

The Servicer shall claim to the corresponding Insurance Companies on behalf of the Issuer, any compensations derived from insurance policies whose rights have been assigned to the Issuer together with the Purchased Receivables, paying any indemnification amounts so received to the Issuer as the beneficiary.

BANCO CETELEM, as Servicer, shall:

- (i) notify the Issuer as soon as it becomes aware of the existence of any Insurance indemnifications payable under the Insurance Policies; and
- (ii) receive on account of the Issuer any amounts paid by any Insurance Company in respect with any Insurance Policy, and shall transfer such to the Reinvestment Account within one (1) Business Days after receipt in the relevant Seller's accounts, unless such Insurance indemnifications have been effectively and directly credited to the Reinvestment Account by the Insurance Companies.

3.7.2.16. Award of properties
