ArcelorMittal Europe reports operating loss of €23 million for Q3 2015

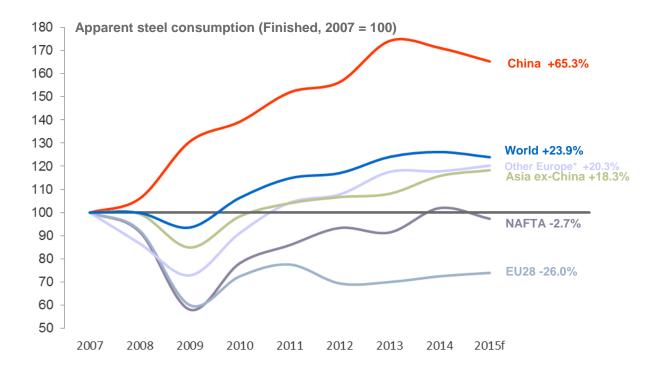

6 November 2015 - ArcelorMittal Europe today announced its results for the third quarter ended 30 September 2015. While Ebitda for the quarter was €496 million, the segment recorded an operating loss of €23 million, compared with an operating profit of €125 million for Q3 2014.

Record levels of imports, particularly from China and the CIS, have placed significant downward pressure on European steel prices. As a result, the segment's operating profit for the third quarter was negatively impacted by a €256 million exceptional charge related to the write-down of inventory following the rapid decline of international steel prices.

ArcelorMittal Europe sales also decreased by -5.7 per cent to €6.9 billion this quarter, from €7.3 billion in the corresponding quarter last year, as a result of lower average selling prices and marginally lower steel shipments. Steel shipments in the third quarter decreased by -1.9 per cent to 9.6 million tonnes, compared with Q3 2014.

Commenting, Aditya Mittal, CEO ArcelorMittal Europe, said: "Record, and still rising, levels of imports are materially impacting steel prices. Certain EU anti-dumping investigations are underway, but the process is slow and needs to be more efficient in order to effectively and fairly protect European steel producers from unfair trade. The ongoing price deterioration has led us to book a €256 million exceptional charge for the quarter, meaning we have reported an operating loss for the first time in seven quarters.

"Outlook for European steel demand remains positive, and we forecast apparent steel consumption in 2016 at similar levels to the +2 per cent we have seen for this year. However, given imports into the European market are forecast to remain at high levels, we anticipate pricing pressure to continue into 2016, which will make it challenging for European steelmakers to benefit from the ongoing demand recovery."

The European economy is on course for a continued gradual acceleration in 2016, supported by monetary stimulus, a competitive euro, falling commodity prices, and pent-up demand. Consumers are benefitting from low inflation and a steady recovery in employment. Better profitability, improved credit conditions and rising capacity utilisation, should help the modest investment recovery gain some momentum in 2016.

About ArcelorMittal

ArcelorMittal is the world's leading steel and mining company, with a presence in 60 countries and an industrial footprint in 19 countries. Guided by a philosophy to produce safe, sustainable steel, we are the leading supplier of quality steel in the major global steel markets including automotive, construction, household appliances and packaging, with world-class research and development and outstanding distribution networks.

Through our core values of sustainability, quality and leadership, we operate responsibly with respect to the health, safety and wellbeing of our employees, contractors and the communities in which we operate.

For us, steel is the fabric of life, as it is at the heart of the modern world from railways to cars and washing machines. We are actively researching and producing steel-based technologies and solutions that make many of the products and components people use in their everyday lives more energy efficient.

We are one of the world's five largest producers of iron ore and metallurgical coal and our mining business is an essential part of our growth strategy. With a geographically diversified portfolio of iron ore and coal assets, we are strategically positioned to serve our network of steel plants and the external global market. While our steel operations are important customers, our supply to the external market is increasing as we grow.

In 2014, ArcelorMittal had revenues of US\$79.3 billion and crude steel production of 93.1 million tonnes, while own iron ore production reached 63.9 million tonnes.

ArcelorMittal is listed on the stock exchanges of New York (MT), Amsterdam (MT), Paris (MT), Luxembourg (MT) and on the Spanish stock exchanges of Barcelona, Bilbao, Madrid and Valencia (MTS).
