Orange Cat Energy Technology Co. Ltd.: evidence indicates no prospectus published

The Federal Financial Supervisory Authority (Bafin) has evidence indicating that Orange Cat Energy Technology Co. Ltd., which has its registered office in Hong Kong, is offering a capital investment that falls within the definition of “other investments” under section 1 (2) no. 7 of the German Capital Investment Act (*Vermögensanlagengesetz – VermAnlG*) to the public in Germany. It involves the rental of power bank charging stations (“device cooperation”). In contravention of section 6 of the *VermAnlG*, a prospectus has not been published for this product.

Background:

In Germany, capital investments may be offered to the public only if a prospectus has been published. This prospectus must be approved by Bafin prior to publication. During the approval process, Bafin checks whether the minimum information required by law is included in the prospectus and whether its content is understandable, coherent and consistent. However, Bafin does not check whether the information contained in the prospectus is correct.

Moreover, it does not check whether the issuer is reliable nor does it examine the product in question. Issuers of capital investments must ensure that this is clearly indicated in their prospectuses. The issuers are liable for the accuracy of the information contained in the prospectus.

You can check whether an approved prospectus for offers of capital investments to the public has been filed with Bafin by consulting the database Prospectuses filed on the [Bafin website](#).
