Additional information	<p>This investment scam is an example of a “comparison website scam”, where fraudsters set up a website purporting to help consumers find and compare different investment or savings products. Consumers looking to make an investment enter their details (i.e. contact information, amount to invest) into an online form and are later contacted by the fraudsters via phone or email. These fraudsters claim to be from well-known banks and offer investment opportunities in fake investments in the form of Fixed Income Deposits. The fraudsters will often share official-looking brochures using the name and branding of these well-known banks.</p>
