- **Serie B: AA (low) (sf)** (anterior **A (high) (sf)**)

Se adjunta la comunicación emitida por DBRS.

Madrid, 22 de junio de 2026

Morningstar DBRS Upgrades Credit Ratings on BBVA RMBS 23 FT

RMBS

DBRS Ratings GmbH (Morningstar DBRS) upgraded its credit ratings on the notes issued by BBVA RMBS 23 FT as follows:

- Class A Notes to AA (high) (sf) from AA (sf)
- Class B Notes to AA (low) (sf) from A (high) (sf)

The upgrades follow an annual review of the transaction and are based on the following analytical considerations:

- Portfolio performance, in terms of delinquencies and defaults, as of the June 2026 payment date;
- Updated portfolio default rate (PD), loss given default (LGD), and expected loss assumptions on the outstanding collateral pool; and
- The credit enhancement available to the rated notes to cover the expected losses at their respective credit rating levels.

BBVA RMBS 23 FT is a static securitisation of first-lien residential mortgage loans originated and serviced by Banco Bilbao Vizcaya Argentaria S.A. (BBVA), Catalunya Banc S.A. (CX), and UNIMM Banc (UNIMM). CX and UNIMM are currently owned by BBVA. The mortgage loans are secured over residential properties located in Spain. The transaction closed in June 2024 with an initial portfolio balance of EUR 5.45 billion.

PORTFOLIO PERFORMANCE

The performance of the transaction remains within Morningstar DBRS' expectations. As of the June 2026 payment date, loans more than three months delinquent represented 0.05% of the portfolio balance. The cumulative default ratio was 0.06% of the original portfolio balance, with cumulative recoveries of 50.5% to date.

PORTFOLIO ASSUMPTIONS AND KEY DRIVERS

Morningstar DBRS conducted a loan-by-loan analysis on the remaining pool of receivables and updated its base case PD and LGD assumptions to 0.8% and 6.4%, respectively, at the B (sf) credit rating level.

CREDIT ENHANCEMENT

The Class A Notes benefit from the subordination of the Class B Notes and the reserve fund, which is available to cover senior expenses as well as interest and principal payments on the Class A Notes until paid in full, at which point it will start to provide support also to the Class B Notes. As of the June 2026 payment date, credit enhancement to the Class A Notes was 8.6%, up from 7.7% twelve months ago. The credit enhancement to the Class B Notes was 6.1%, up from 5.5%.

The reserve fund amortises with a target balance equal to the lower of EUR 272.5 million and 10.0% of the outstanding balance of the Class A and Class B Notes, subject to a floor of EUR 136.25 million. The reserve fund will not amortise if certain performance triggers are breached. As of the June 2026 payment date, the reserve fund was at its target amount of EUR 272.5 million.

Class A Notes benefit from full sequential amortisation whereas principal on the Class B Notes is not paid until the Class A Notes have been redeemed in full. Additionally, the Class A Notes principal is senior to the Class B Notes interest payments in the priority of payments.

BBVA acts as the account bank for the transaction. Based on the account bank reference rating of AA (low) on BBVA, which is one notch below the Morningstar DBRS Long Term Critical Obligations Rating (COR) of AA, the downgrade provisions outlined in the transaction documents, and other mitigating factors inherent in the transaction's structure, Morningstar DBRS considers the risk arising from the exposure to the account bank to be consistent with the credit ratings assigned to the notes, as described in Morningstar DBRS' "Legal and Derivative Criteria for European and Asia-Pacific Structured Finance Transactions" methodology.

BBVA also acts as the swap counterparty for the transaction. Morningstar DBRS' Long-Term COR of BBVA of AA is above the First Rating Threshold as described in Morningstar DBRS' "Legal and Derivative Criteria for European and Asia-Pacific Structured Finance Transactions" methodology.

Morningstar DBRS' credit ratings on the applicable classes address the credit risk associated with the identified financial obligations in accordance with the relevant transaction documents. Where applicable, a description of these financial obligations can be found in the transaction press release at issuance.

Morningstar DBRS' long-term credit ratings provide opinions on risk of default. Morningstar DBRS considers risk of default to be the risk that an Issuer will fail to satisfy the financial obligations in accordance with the terms under which a long-term obligation has been issued.

ENVIRONMENTAL, SOCIAL, GOVERNANCE CONSIDERATIONS

There were no Environmental/Social/Governance factors that had a significant or relevant effect on the credit analysis.

A description of how Morningstar DBRS considers ESG factors within the Morningstar DBRS analytical framework can be found in the "Morningstar DBRS Criteria: Approach to Environmental, Social, and Governance Factors in Credit Ratings" at <https://dbrs.morningstar.com/research/454196>.

Morningstar DBRS analysed the transaction structure in Intex DealMaker.

Notes:

All figures are in euros unless otherwise noted.

The principal methodology applicable to the credit rating is the "Master European and Asia-Pacific Structured Finance Surveillance Methodology" (10 March 2026), <https://dbrs.morningstar.com/research/476049>.

Other methodologies referenced in this transaction are listed at the end of this press release.

Morningstar DBRS has applied the principal methodology consistently and conducted a review of the transaction in accordance with the principal methodology.

A review of the transactions legal documents was not conducted as the legal documents have remained unchanged since the most recent credit rating action.

For a more detailed discussion of the sovereign risk impact on Structured Finance credit ratings, please refer to "Appendix C: The Impact of Sovereign Credit Ratings on Other Morningstar DBRS Credit Ratings" of the "Global Methodology for Rating Sovereign Governments" at: <https://dbrs.morningstar.com/research/457952>.

The sources of data and information used for these credit ratings include reports and information provided by Europea de Titulización, S.A., S.G.F.T. (the Management Company) and loan-level data provided by the European DataWarehouse GmbH.

Morningstar DBRS did not rely upon third-party due diligence in order to conduct its analysis.

At the time of the initial credit ratings, Morningstar DBRS was supplied with third-party assessments. However, this did not impact the credit rating analysis.

Morningstar DBRS considers the data and information available to it for the purposes of providing these credit ratings to be of satisfactory quality.

Morningstar DBRS does not audit or independently verify the data or information it receives in connection with the credit rating process.

Morningstar DBRS expects Structured Finance issuers and originators of Structured Finance products to make all relevant information regarding these products available to investors to conduct their own analyses. The last credit rating action on this transaction took place on 20 June 2025, when Morningstar DBRS confirmed its credit ratings on the Class A and Class B Notes at AA (sf) and A (high) (sf), respectively.

Information regarding Morningstar DBRS credit ratings, including definitions, policies, and methodologies is available at dbrs.morningstar.com.

To assess the impact of changing the transaction parameters on the credit ratings, Morningstar DBRS considered the following stress scenarios as compared with the parameters used to determine the credit ratings (the base case):

- Morningstar DBRS expected a lifetime base case PD and LGD for the pool based on a review of the current assets. Adverse changes to asset performance may cause stresses to base case assumptions and therefore have a negative effect on credit ratings.
- The base case PD and LGD assumptions for the collateral pool are 0.8% and 6.4%, respectively.
- The Risk Sensitivity overview below illustrates the credit ratings expected if the PD and LGD increase by a certain percentage over the base case assumption.

Class A Notes Risk Sensitivity:

- 25% increase in LGD, expected credit rating of AA (high) (sf)
- 50% increase in LGD, expected credit rating of AA (high) (sf)

- 25% increase in PD, expected credit rating of AA (high) (sf)
- 50% increase in PD, expected credit rating of AA (high) (sf)
- 25% increase in PD and 25% increase in LGD, expected credit rating of AA (high) (sf)
- 25% increase in PD and 50% increase in LGD, expected credit rating of AA (high) (sf)
- 50% increase in PD and 25% increase in LGD, expected credit rating of AA (high) (sf)
- 50% increase in PD and 50% increase in LGD, expected credit rating of AA (high) (sf)

Class B Notes Risk Sensitivity:

- 25% increase in LGD, expected credit rating of AA (low) (sf)
- 50% increase in LGD, expected credit rating of AA (low) (sf)
- 25% increase in PD, expected credit rating of AA (low) (sf)
- 50% increase in PD, expected credit rating of A (high) (sf)
- 25% increase in PD and 25% increase in LGD, expected credit rating of AA (low) (sf)
- 25% increase in PD and 50% increase in LGD, expected credit rating of AA (low) (sf)
- 50% increase in PD and 25% increase in LGD, expected credit rating of A (high) (sf)
- 50% increase in PD and 50% increase in LGD, expected credit rating of A (high) (sf)
