### OTHER RELEVANT INFORMATION

Pursuant to the provisions of Article 529 *unvicies* of the Royal Decree Law 1/2010 of 2 July, whereby the consolidated text of the Spanish Companies Act was approved (“**LSC**”), the listed companies must disclose publicly any transactions performed with their related parties which, either individually or in aggregate, exceed 5% of their total assets or 2.5% of their annual net income as per their latest consolidated financial statements approved by the General Shareholders’ Meeting.

Acek Group performs, among others and in addition to the manufacturing and selling of metal pieces and components for the automotive sector activity performed through Gestamp Group, the following activities through the subgroups specified below:

- a) Holding Gonvarri, S.L. and its subsidiaries (hereinafter, “**Gonvarri Group**”), which manufactures, transforms and trades metal products, including both steel service centres and the manufacturing of renewable energies structures (such as wind turbine shafts, infrastructures for photovoltaic farms and solar thermal plant elements).

## **1. Transactions performed by Gestamp Group with Acek.**

### ***1.1. Transactions related with services received from Acek.***

Regarding the accounting consolidation services received, the consideration is based on the cost per employee incurred in the rendering of the services plus a 7% margin in accordance with the related party transactions tax analysis included in the transfer pricing documentation.

As for the purchase of centralised software licenses and insurance, Acek operates as centralised procurement centre for the different subgroups (including Gestamp Group) and bills such services according to specific and objective allocation criteria (number of licenses, insured equity, etc.).

At the time of approval and based on an Audit Committee’s report, the Board established that the transaction was performed at market conditions and in compliance with applicable standards.

The amount of the transactions carried out under this contract from January 1 to March 31, 2026 is 2.970 thousand euros.

### ***1.2. Transactions related with services rendered to Acek.***

On March 31, 2017, Gestamp’s Board of Directors, based on a favourable report issued by the Audit Committee on 28 March 2017, approved an agreement between Acek and Gestamp Servicios for the latter to render professional economic and financial services.

According to the aforementioned agreement, the consideration is based on the cost per employee plus a 7% margin in accordance with the related party transactions tax analysis included in the transfer pricing documentation.

At the time of approval and based on an Audit Committee’s report, the Board established that the transaction was performed at market conditions and in compliance with applicable standards.

The amount of the transactions carried out under this contract from January 1 to March 31, 2026 is 29 thousand euros.

## **2. Transactions performed by Gestamp Group with Inmobiliaria Acek Subgroup.**

### ***2.1. Transactions related to the rental of office space of Inmobiliaria Acek Subgroup.***

As communicated through other relevant information (reference number 39985), on 16 December 2025, the Board of Directors of Gestamp, following a favourable report from the Audit Committee approved a new lease agreement for the corporate offices located at Alfonso XII, 16, with the aim of reducing the floor space previously used by Gestamp Servicios. Accordingly, from 1 January 2026, under the new contract, the monthly rent for the aforementioned offices is 13,029.89 euros plus VAT.

At the time of approval and based on an Audit Committee's report, the Board of Directors established that the transaction was performed at market conditions and in compliance with applicable standards. Likewise, Galtier Franco Ibérica analysed the rent price per square metre taking into account the property location, surface area, urban planning regulations and market prices, concluding that such rent was within the market prices range.

The total amount of transactions under this lease from January 1 to March 31, 2026 is 39 thousand euros.

## **3. Transactions performed by Gestamp Group with Gonvarri Subgroup.**

### ***3.1. Transactions related to the purchase and sale of raw materials and related services received.***

As communicated through other relevant information (reference number 13567), on May 10, 2022 Gestamp's General Shareholders' Meeting, at the proposal of the Board of Directors and based on a previous favourable report issued by the Audit Committee on 6 April 2022, approved a framework agreement whereby Gestamp Group and Gonvarri Subgroup are involved in the sale and purchase of steel products (steel coils, straps and blanks) for the manufacturing of automotive metal parts, as well as in other related services.

Gestamp Group purchases raw materials used for the manufacturing of automation components from Gonvarri Subgroup, which in turn acquires the steel required directly from the steel supplier for subsequent processing (cutting and/or coating), ultimately charging Gestamp Group the added value.

Sometimes Gestamp Group buys the raw material directly from the steel supplier and subsequently delivers it to Gonvarri Subgroup, which is ultimately responsible for processing and selling it back to Gestamp Group charging to the selling price the value added by the raw material processing.

At the time of its proposal to the General Shareholders' Meeting and based on an Audit Committee's report, the Board of Directors established that the transaction was performed at market conditions and in compliance with applicable standards.

The net amount of the purchase and sale of steel and aluminium and related services carried out from January 1 to March 31, 2026 is 348,707 thousand euros.

Most of the volume of steel and aluminium purchase transactions is made on a “resale” basis whereby the price for raw material (steel coils) is negotiated directly with the steel supplier by Gestamp Group or by the end customer (Original Equipment Manufacturer, “OEM”). As a result, in the referred cases, raw material price is negotiated between independent parties. Under the resale transactions, Gonvarri Subgroup simply buys the raw materials at the price agreed by Gestamp Group or the end customer (OEM) with the steel supplier without any involvement of Gonvarri Subgroup in the raw material price setting. Specifically, a 58.83% of the amount billed by Gonvarri Subgroup to Gestamp Group for the purchase of raw materials has been under this resale regime during the quarter that is the subject of this communication, being the price of the raw materials arranged between independent parties without Gonvarri Subgroup involvement and, therefore, with respect to such volume, there is no conflict of interest whatsoever.

Consequently, considering the abovementioned resale volumes, the actual amount of the steel and aluminium purchase transactions from January 1 to March 31, 2026 subject to negotiation between related parties is 163,892 thousand euros.

Additionally, the Sideacero, S.L. Sub-group (Gescrap) – a sub-group belonging to the Gestamp Group – has purchased scrap and related services from the Gonvarri Subgroup from January 1 to March 31, 2026 for an amount of 15,037 thousand euros.

In this regard, the Board of Directors considered, on the basis of the previous report issued by the Audit Committee, that the transaction was fair and reasonable from the point of view of Gestamp and, in particular, from the point of view of the shareholders other than the related party.

The amount of the transactions carried out under this contract from January 1 to March 31, 2026 is 64,722 euros.

Gonvauto was initially selected to supply the blanks stamped by Gestamp Chattanooga in the Chattanooga II plant. Nonetheless, in order to eliminate any logistic risks (arising from the fact that Gonvauto provided blanking services from its plant in South Carolina) and there being no other alternative supplier, it was agreed that Gestamp Chattanooga would perform the cutting works in its own plants and therefore, would rent the cutting line used to do so from Gonvauto backed with a purchase option.
