In compliance with the provisions of Article 227 of Law 6/2023, of March 17, of the Securities Market and Investment Services, TSK Electrónica y Electricidad, S.A. ("TSK" or the "Company") hereby reports the following:

INSIDE INFORMATION

On 17 July 2026, the Panamanian company Avanzalia Panama, S.A. successfully issued and settled the Senior Series A under its Revolving Corporate Bond Program registered with the Latin American Securities Exchange (Latinex). As a result of the issuance and settlement of such Senior Series A, TSK has received, with value date 17 July 2026 after the market closed, an amount of eighty-two million United States dollars (USD 82,000,000) as repayment of the financing granted by the Company in previous years to Avanzalia Panama, S.A. for the commissioning and operation of a renewable energy generation 150 MW photovoltaic project in Panama.

The funds received will be fully allocated to strengthening the Company's cash position and represent a highly significant milestone for TSK in the execution of its strategic plan.

The Company has received an aggregate amount of approximately USD 109 million (USD 109,000,000) since September 2024 in connection with the financing provided and, in addition, a further amount of eight million United States dollars (USD 8,000,000), together with the corresponding accrued interest, is expected to be received over the coming months in connection with the same financing arrangement.

Gijón, 20 July 2026
