In Madrid, on August 10, 2026.- TR clarifies information published in the press.

Regarding the news reported today in the media concerning the enforcement of guarantees against the joint venture (JV) formed between Técnicas Reunidas, Technip, and Samsung by their client Bapco in connection with the plant currently under construction in Sitra, Bahrain, Técnicas Reunidas states:

- The enforcement of these guarantees was suspended in Spain, France, and South Korea in June; consequently, neither the joint venture nor any of its members has been required to pay these guarantees.
- The joint venture continues to carry out the project and, although it initiated arbitration proceedings to protect its rights, it has been working with the client over the past two months to reach an amicable agreement that satisfies both parties.
- Técnicas Reunidas believes that the outcome of these discussions will not result in any material impacts beyond those already included in our first half financial results.
