

THE CNMV PUBLISHES NEW Q&A ON THE REGIME FOR PROSPECTUSES TO BE PUBLISHED IN PUBLIC OFFERINGS AND ADMISSIONS TO TRADING ON REGULATED MARKETS

28 October 2026

The CNMV has published the new ["Q&A on the regime for prospectuses to be published in public offerings and admissions to trading on regulated markets"](#) document.

The original document was published in 2021, and since then it has been partially updated several times with new information of interest for the market.

This latest update is a complete revision of the document, incorporating new material that may be of interest to issuers and those involved in drawing up prospectuses. The new content is based on both the Listing Act and CNMV initiatives to facilitate access to capital markets. Some of the new content provides details of the Easy Access process for admission to trading, the option of preparing a prospectus as separate documents for stock market flotations and green bonds.

Through this publication, the CNMV has accomplished one of the initiatives set out in its 2026 Activity Plan to improve the competitiveness of Spanish markets.
