Morningstar DBRS Confirms Credit Ratings on BBVA Consumer Auto 2024-1 FT

AUTO

DBRS Ratings GmbH (Morningstar DBRS) confirmed its credit ratings on the notes (the Rated Notes) issued by BBVA Consumer Auto 2024-1 FT (the Issuer), as follows:

- Class A Notes confirmed at AA (sf)
- Class B Notes confirmed at A (high) (sf)
- Class C Notes confirmed at A (low) (sf)
- Class D Notes confirmed at B (low) (sf)
- Class Z Notes confirmed at BBB (high) (sf)

The credit rating on the Class A Notes addresses the timely payment of interest and the ultimate repayment of principal by the legal final maturity date in March 2038. The credit ratings on the Class B, Class C, and Class D Notes address the ultimate payment of interest and the ultimate repayment of principal by the legal final maturity date. The credit rating on the Class Z Notes addresses the ultimate payment of interest and principal by the legal final maturity date.

The confirmations follow an annual review of the transaction and are based on the following analytical considerations:

- Portfolio performance, in terms of delinquencies and defaults, as of the June 2025 payment date.
- Probability of default (PD), loss given default (LGD), and expected loss assumptions on the remaining receivables, and
- Current available credit enhancement to the rated notes to cover the expected losses at their respective credit rating levels.

The transaction is a static securitisation of Spanish auto loan contracts originated and serviced by Banco Bilbao Vizcaya Argentaria, S.A. (BBVA). The portfolio comprises loans granted to individuals residing in Spain for the purchase of new or used vehicles through BBVA's car dealer network. The transaction closed in September 2024 with an initial collateral balance of EUR 1.0 billion.

PORTFOLIO PERFORMANCE

As of the June 2025 payment date, loans that were 30 to 60 days and 60 to 90 days delinquent represented 0.8% and 0.5% of the portfolio balance, respectively, while loans more than 90 days delinquent amounted to 0.4%. The gross cumulative default ratio was 0.3% of the aggregate initial portfolio balance, with cumulative recoveries of 8.2% to date.

PORTFOLIO ASSUMPTIONS AND KEY DRIVERS

Morningstar DBRS conducted a loan-by-loan analysis of the remaining pool of receivables and maintained its base case PD and LGD assumptions at 3.8% and 59.0%, respectively.

CREDIT ENHANCEMENT

The subordination of the junior notes provides credit enhancement to the Class A through Class D Notes, while the Class Z Notes benefit solely from the excess spread (to the extent available). As of the June 2025 payment date, the Class A, Class B, Class C, and Class D Notes' credit enhancement remained unchanged since issuance at 8.0%, 4.0%, 0.8%, and 0.0%, respectively, because of the pro rata amortisation of the notes. If a sequential redemption event is triggered, the principal repayment of the notes will become sequential and nonreversible.

The transaction benefits from a cash reserve providing liquidity support. Funded at closing to EUR 5.0 million using the proceeds from the Class Z Notes issuance, the reserve amortises to a target amount equal to 0.5% of the aggregate outstanding Class A and Class B Notes balance, subject to a floor of EUR 2.0 million. As of the June 2025 payment date, the reserve was at its target level of EUR 4.1 million. The reserve is available to cover senior fees and expenses as well as interest payments on the Class A and Class B notes.

BBVA acts as the account bank for the transaction. Based on BBVA's reference credit rating of AA (low), which is one notch below its Morningstar DBRS Long Term Critical Obligations Rating (COR) of AA, the downgrade provisions outlined in the transaction documents, and other mitigating factors inherent in the transaction structure, Morningstar DBRS considers the risk arising from the exposure to the account bank to be consistent with the credit ratings assigned to the Rated Notes, as described in Morningstar DBRS' "Legal and Derivative Criteria for European Structured Finance Transactions" methodology.

BBVA also acts as the swap counterparty for the transaction. Morningstar DBRS' COR of AA on BBVA is consistent with the first credit rating threshold as described in Morningstar DBRS' "Legal and Derivative Criteria for European Structured Finance Transactions" methodology.

Morningstar DBRS' credit ratings on the notes address the credit risk associated with the identified financial obligations in accordance with the relevant transaction documents. Where applicable, a description of these financial obligations can be found in the transaction press release at issuance.

Morningstar DBRS' long-term credit ratings provide opinions on risk of default. Morningstar DBRS considers risk of defaults to be the risk that an issuer will fail to satisfy the financial obligations in accordance with the term under which a long-term obligation has been issued.

ENVIRONMENTAL, SOCIAL, AND GOVERNANCE CONSIDERATIONS

There were no Environmental/Social/Governance factors that had a significant or relevant effect on the credit analysis.

A description of how Morningstar DBRS considers ESG factors within the Morningstar DBRS analytical framework can be found in the Morningstar DBRS Criteria: Approach to Environmental, Social, and Governance Factors in Credit Ratings at <https://dbrs.morningstar.com/research/454196/>.

Morningstar DBRS analysed the transaction structure in Intex DealMaker.

Notes:

All figures are in euros unless otherwise noted.

The principal methodologies applicable to the credit ratings are the "Master European Structured Finance Surveillance Methodology" (4 February 2025) <https://dbrs.morningstar.com/research/447080>.

Other methodologies referenced in this transaction are listed at the end of this press release.

Morningstar DBRS has applied the principal methodology consistently and conducted a review of the transaction in accordance with the principal methodology.

A review of the transaction legal documents was not conducted as the legal documents have remained unchanged since the most recent credit rating action.

For a more detailed discussion of the sovereign risk impact on Structured Finance credit ratings, please refer to "Appendix C: The Impact of Sovereign Credit Ratings on Other Morningstar DBRS Credit Ratings" of the "Global Methodology for Rating Sovereign Governments" at: <https://dbrs.morningstar.com/research/457952>.

The sources of data and information used for these credit ratings include transaction reports provided by Europea de Titulización, S.A., S.G.F.T. and loan-level data provided by the European DataWarehouse GmbH.

Morningstar DBRS did not rely upon third-party due diligence in order to conduct its analysis.

At the time of the initial credit ratings, Morningstar DBRS was supplied with third-party assessments. However, this did not impact the credit rating analysis.

Morningstar DBRS considers the data and information available to it for the purposes of providing these credit ratings to be of satisfactory quality.

Morningstar DBRS does not audit or independently verify the data or information it receives in connection with the credit rating process.

The last credit rating action on this transaction took place on 19 September 2024, when Morningstar DBRS finalised its provisional credit ratings on the Class A, Class B, Class C, Class D, and Class Z Notes at AA (sf), A (high) (sf), A (low) (sf), B (low) (sf), and BBB (high) (sf), respectively.

The lead analyst responsibilities for this transaction have been transferred to Daniel Rakhamimov.

Information regarding Morningstar DBRS credit ratings, including definitions, policies, and methodologies, is available on <https://dbrs.morningstar.com>.

Sensitivity Analysis: To assess the impact of changing the transaction parameters on the credit ratings, Morningstar DBRS considered the following stress scenarios as compared with the parameters used to determine the credit ratings (the base case):

- Morningstar DBRS expected a lifetime base case PD and LGD for the pool based on a review of the current assets. Adverse changes to asset performance may cause stresses to base case assumptions and therefore have a negative effect on credit ratings.
- The base case PD and LGD of the current pool of loans for the Issuer are 3.8% and 59.0%, respectively.

Class A Risk Sensitivity:

- 25% increase in LGD, expected credit rating of AA (low) (sf)
- 50% increase in LGD, expected credit rating of A (high) (sf)
- 25% increase in PD, expected credit rating of AA (low) (sf)
- 50% increase in PD, expected credit rating of A (sf)
- 25% increase in PD and 25% increase in LGD, expected credit rating of A (sf)
- 25% increase in PD and 50% increase in LGD, expected credit rating of A (low) (sf)
- 50% increase in PD and 25% increase in LGD, expected credit rating of BBB (high) (sf)
- 50% increase in PD and 50% increase in LGD, expected credit rating of BBB (sf)

Class B Risk Sensitivity:

- 25% increase in LGD, expected credit rating of A (sf)
- 50% increase in LGD, expected credit rating of BBB (high) (sf)
- 25% increase in PD, expected credit rating of A (sf)
- 50% increase in PD, expected credit rating of A (low) (sf)
- 25% increase in PD and 25% increase in LGD, expected credit rating of BBB (high) (sf)
- 25% increase in PD and 50% increase in LGD, expected credit rating of BBB (low) (sf)
- 50% increase in PD and 25% increase in LGD, expected credit rating of BBB (sf)
- 50% increase in PD and 50% increase in LGD, expected credit rating of BB (high) (sf)

Class C Risk Sensitivity:

- 25% increase in LGD, expected credit rating of BBB (sf)
- 50% increase in LGD, expected credit rating of BB (high) (sf)
- 25% increase in PD, expected credit rating of BBB (high) (sf)
- 50% increase in PD, expected credit rating of BBB (sf)
- 25% increase in PD and 25% increase in LGD, expected credit rating of BBB (low) (sf)
- 25% increase in PD and 50% increase in LGD, expected credit rating of BB (high) (sf)
- 50% increase in PD and 25% increase in LGD, expected credit rating of BB (high) (sf)
- 50% increase in PD and 50% increase in LGD, expected credit rating of BB (low) (sf)

Class D Risk Sensitivity:

- 25% increase in LGD, expected credit rating below B (low) (sf)
- 50% increase in LGD, expected credit rating below B (low) (sf)
- 25% increase in PD, expected credit rating below B (low) (sf)
- 50% increase in PD, expected credit rating below B (low) (sf)
- 25% increase in PD and 25% increase in LGD, expected credit rating below B (low) (sf)
- 25% increase in PD and 50% increase in LGD, expected credit rating below B (low) (sf)
- 50% increase in PD and 25% increase in LGD, expected credit rating below B (low) (sf)
- 50% increase in PD and 50% increase in LGD, expected credit rating below B (low) (sf)

Class Z Risk Sensitivity:

- 25% increase in LGD, expected credit rating of BBB (sf)
- 50% increase in LGD, expected credit rating of BBB (low) (sf)
- 25% increase in PD, expected credit rating of BBB (sf)
- 50% increase in PD, expected credit rating of BBB (low) (sf)
- 25% increase in PD and 25% increase in LGD, expected credit rating of BBB (low) (sf)

- 25% increase in PD and 50% increase in LGD, expected credit rating of BB (high) (sf)
- 50% increase in PD and 25% increase in LGD, expected credit rating of BB (high) (sf)
- 50% increase in PD and 50% increase in LGD, expected credit rating of BB (sf)
