

Madrid, 7 October 2026

Pursuant to Article 226 of Law 6/2023 of 17 March on Securities Markets and Investment Services, Aena S.M.E., S.A. (the "Company") reports the following:

INSIDE INFORMATION

Today, the credit rating agency Fitch Ratings (Fitch) upgraded the Company's Long-Term Issuer Default Rating (IDR), as well as the rating of its senior unsecured EMTN debt programme, from 'A' to 'A+'. Fitch affirmed the Company's Short-Term IDR at 'F1'. The Outlook remains Stable.

Fitch explains in its report that:

"The upgrade reflects Aena's sustained traffic growth in recent years, leading to strong operating performance in both aviation and non-aviation segments. The approval of DORA III in September 2026 increases visibility on cash flow, in the context of a step-up in regulated investments in line with Fitch expectations. Under our rating case, net leverage averages 1.9x over 2026-2030, commensurate with an 'A+' rating."

The report is available for consultation on our website (<http://www.aena.es>), under "Shareholders and Investors", within "Financial Information", subsection "Rating".
