

GREENERGY

NOTIFICATION OF OTHER RELEVANT INFORMATION

GREENERGY RENOVABLES, S.A.

March 12, 2026

GREENERGY RENOVABLES, S.A. (from now on, "**GREENERGY**"), in accordance with the provisions of Article 227 of Law 6/2023 of 17 March on Securities Markets and Investment Services, hereby notifies the Spanish National Securities Market Commission (Comisión Nacional del Mercado de Valores) of the following notification of Other Relevant Information:

Greenergy secures capacity contracts for storage projects in the UK (760 MWh)

Greenergy has secured capacity contracts for 4 energy storage projects (with a combined nominal capacity of 190 MW) in the latest auction organised by NESO (National Energy System Operator), the United Kingdom's electricity system operator.

These capacity contracts will begin contributing to the stability of the electricity grid from October 2029 and will have a duration of 15 years.

These services will be remunerated at a fixed price (indexed to CPI) of GBP 27.10/kWh for the 15-year period, implying for Greenergy a minimum economic allocation exceeding €40m.

Capacity revenues constitute one component of the expected revenue stack for each project. These are expected to be complemented by revenues derived from energy trading activities, as well as from participation in all available electricity markets, including ancillary services markets.

Madrid, 12th March 2026.

D. David Ruiz de Andrés

Chairman of the Board of Directors and Chief Executive Officer
