For credit ratings that are derived exclusively from an existing credit rating of a program, series, category/class of debt, support provider or primary rated entity, or that replace a previously assigned provisional rating at the same rating level, Moody's publishes a rating announcement on that series, category/class of debt or program as a whole, on the support provider or primary rated entity, or on the provisional rating, but often does not publish a specific rating announcement on each subsequent bond or note for which the credit rating is derived from the existing credit rating. Rating announcements are usually press releases classified as Rating Actions on www.moodys.com. Please refer to the Research tab on the Issuer/entity page for the rating announcement.
