OTHER RELEVANT INFORMATION

Pursuant to the provisions of Article 529 *unvicies* of the Royal Decree Law 1/2010 of 2 July, whereby the consolidated text of the Spanish Companies Act was approved ("**LSC**"), the listed companies must disclose publicly any transactions performed with their related parties which, either individually or in aggregate, exceed 5% of their total assets or 2.5% of their annual net income as per their latest consolidated financial statements approved by the General Shareholders' Meeting.

1. Transactions performed by Gestamp Group with Acek.

1.1. Transactions related with services received from Acek.

On March 31, 2017, the Board of Directors of Gestamp, after a favourable report issued by the Audit Committee on 28 March 2017, approved an agreement between Gestamp Servicios, S.A. (“Gestamp Servicios”) and Acek for the latter to render professional services related to accounting consolidation and centralised purchase of software licenses and insurance.

Regarding the accounting consolidation services received, the consideration is based on the cost per employee incurred in the rendering of the services plus a 7% margin in accordance with the related party transactions tax analysis included in the transfer pricing documentation.

As for the purchase of centralised software licenses and insurance, Acek operates as centralised procurement centre for the different subgroups (including Gestamp Group) and bills such services according to specific and objective allocation criteria (number of licenses, insured equity, etc.).

At the time of approval and based on an Audit Committee’s report, the Board established that the transaction was performed at market conditions and in compliance with applicable standards.

The amount of the transactions carried out under this contract from October 1, 2024 until December 31, 2024 is 1,010 thousand euros.

1.2. Transactions related with services rendered to Acek.

On March 31, 2017, Gestamp’s Board of Directors, based on a favourable report issued by the Audit Committee on 28 March 2017, approved an agreement between Acek and Gestamp Servicios for the latter to render professional economic and financial services.

According to the aforementioned agreement, the consideration is based on the cost per employee plus a 7% margin in accordance with the related party transactions tax analysis included in the transfer pricing documentation.

At the time of approval and based on an Audit Committee’s report, the Board established that the transaction was performed at market conditions and in compliance with applicable standards.

The amount of the transactions carried out under this contract from October 1, 2024 until December 31, 2024 is 782 thousand euros.

2. Transactions performed by Gestamp Group with Inmobiliaria Acek Subgroup.

2.1. *Transactions related to the rental of office space of Inmobiliaria Acek Subgroup.*

On 31 March 2017 Gestamp's Board of Directors, based on a positive report issued by the Audit Committee on 28 March 2017, approved a rental agreement between Inmobiliaria Acek and Gestamp Servicios. Specifically, under the aforementioned contract, Gestamp Servicios, as tenant, rents the office from Inmobiliaria Acek at Calle Alfonso XII, nº 16, Madrid, where it runs parts of its corporate business.

The monthly rent for the 1,918.56 m² of rented space updated in accordance with the CPI amounts to 83,745.08 euros plus certain costs assumed by the tenant.

At the time of approval and based on an Audit Committee's report, the Board of Directors established that the transaction was performed at market conditions and in compliance with applicable standards.

Likewise, on 13 October 2021 the valuation company Galtier Franco Ibérica analysed the rent price per square metre taking into account the property location, surface area, urban planning regulations and market prices, concluding that such rent was within the market prices range.

The amount of the lease transactions carried out under this contract from October 1, 2024 until December 31, 2024 is 310 thousand euros, amount that includes regularization of certain utility expenses.

3. Transactions performed by Gestamp Group with Gonvarri Subgroup.

3.1. *Transactions related to the purchase and sale of raw materials and related services received.*

On May 10, 2022 Gestamp's General Shareholders' Meeting, at the proposal of the Board of Directors and based on a previous favourable report issued by the Audit Committee on 6 April 2022, approved a framework agreement whereby Gestamp Group and Gonvarri Subgroup are involved in the sale and purchase of steel products (steel coils, straps and blanks) for the manufacturing of automotive metal parts, as well as in other related services.

Gestamp Group purchases raw materials used for the manufacturing of automation components from Gonvarri Subgroup, which in turn acquires the steel required directly from the steel supplier for subsequent processing (cutting and/or coating), ultimately charging Gestamp Group the added value.

Sometimes Gestamp Group buys the raw material directly from the steel supplier and subsequently delivers it to Gonvarri Subgroup, which is ultimately responsible for processing and selling it back to Gestamp Group charging to the selling price the value added by the raw material processing.

At the time of its proposal to the General Shareholders' Meeting and based on an Audit Committee's report, the Board of Directors established that the transaction was performed at market conditions and in compliance with applicable standards.

The net amount of the purchase and sale of steel and related services carried out from October 1, 2024 until December 31, 2024 is 332,895 thousand euros.

Most of the volume of raw materials purchase transactions is made on a "resale" basis whereby the price for raw material (steel coils) is negotiated directly with the steel supplier by Gestamp Group or by the end customer (Original Equipment Manufacturer, "OEM"). As a result, in the referred cases, raw material price is negotiated between independent parties. Under the resale transactions, Gonvarri Subgroup simply buys the raw materials at the price agreed by Gestamp Group or the end customer (OEM) with the steel supplier without any involvement of Gonvarri Subgroup in the raw material price setting. Specifically, a 56,43% of the amount billed by Gonvarri Subgroup to Gestamp Group for the purchase of raw materials is under this resale regime being the price of the raw materials arranged between independent parties without Gonvarri Subgroup involvement and, therefore, with respect to such volume, there is no conflict of interest whatsoever.

Consequently, considering the abovementioned resale volumes, the actual amount of the transactions reported under this section from October 1, 2024 until December 31, 2024 subject to negotiation between related parties is 145,052 thousand euros.

3.2. Transactions related with asset rental.

3.2.1. Rental by Gestamp Louny S.R.O. of a warehouse owned by Gonvarri Czech S.R.O.

On 6 May 2019, based on a favourable report issued by the Audit Committee issued on the same date, the Board of Directors approved (i) the rental of the warehouse owned by Gonvarri Czech, S.R.O. ("**Gonvarri Czech**") in Minice (Czech Republic) from Gestamp Louny S.R.O. ("**Gestamp Louny**"), for a monthly rent of 175,969 euros (7.15 euros/m²) rent which was increased by 2,500 per month due to refurbishment works, and whose addendum was approved by the Board of Directors following a report from the Audit Committee (published in the communication of other relevant information with registration number 13567 on January 11, 2022).

Subsequently, on 27 February 2024, based on a report of the Audit Committee, the Board of Directors approved a new addendum to the rental contract by which the monthly rent increased by 3,200 per month due to update of the refrigeration system and replacement of the warehouse's exterior doors. As a result, once the refurbishment work on the warehouse has been completed, the monthly rent to be paid by Gestamp Louny since October 2024 amounts to 181,669 euros per month.

The Board of Directors considered, based on the previous report of the Audit Committee, that the above stated transactions were fair and reasonable from the viewpoint of Gestamp and, especially, from the shareholders not involved in the transaction.

The amount of the transactions carried out under this contract from October 1, 2024 until December 31, 2024 is 545 thousand euros.

3.2.2. Lease agreement for the industrial building of Gonvarri Produtos Siderúrgicos, S.A., by Gestamp Aveiro - Indústria de Acessórios Automóveis S.A.

In order to evaluate the economic reasonableness of the operation, the Audit Committee had a comparative study that takes as a reference the rental price per m² in three warehouses in the same industrial park with an equivalent industrial use, being the price per m² offered by Gonvarri Produtos Siderúrgicos lower than the average price obtained in said study.

In this regard, the Board of Directors considered, on the basis of the previous report issued by the Audit Committee, that the transaction was fair and reasonable from the point of view of Gestamp and, in particular, from the point of view of the shareholders other than the related party.

The amount of the transactions carried out under this contract from October 1, 2024 until December 31, 2024 is 64,722 euros.

In this regard, the Board of Directors, at the time of its approval, and based on the report issued by the Audit Committee, concluded that the terms and conditions of the transaction were market terms and conditions and complied with the applicable regulations.

The amount of the lease transactions under this contract from October 1, 2024 until December 31, 2024 is 27,825 euros.

Nonetheless, in order to eliminate any logistic risks (arising from the fact that Gonvauto provided blanking services from its plant in South Carolina) and there being no other alternative supplier, it was agreed that Gestamp Chattanooga would perform the cutting works in its own plants and therefore, would rent the cutting line used to do so from Gonvauto backed with a purchase option.

**REPORT ISSUED BY THE AUDIT COMMITTEE IN CONNECTION WITH
RELATED PARTY TRANSACTIONS SUBJECT TO THE APPROVAL OF THE
BOARD OF DIRECTORS OF GESTAMP AUTOMOCIÓN, S.A.**

1. PURPOSE OF THIS REPORT.

In accordance with the provisions of section 3 of Article 529 *duovicies* of Royal Decree 1/2010, of July 2, which approves the revised text of the Spanish Companies Act (hereinafter “LSC”), the approval by the general shareholders' meeting or by the board of directors of a related-party transaction must be subject to a prior report by the audit committee.

In addition, paragraph 2 of the same article of the LSC establishes that the Board of Directors has the power to approve related-party transactions, subject to a report from the audit committee, provided that the amount of the transaction is less than 10% of total assets.

In this regard, the Board of Directors Gestamp Automoción, S.A. (hereinafter, the “**Company**” or “**Gestamp**”) is expected to approve some operations between Gestamp and a party related to it at its next meeting on December 17th, 2024.

In accordance with the foregoing, the purpose of this report is to comply with the provisions of the aforementioned standard and, consequently, it is prepared by the Company's Audit Committee to justify the approval, if applicable, of the following related-party transaction.

2. RELATED PARTY TRANSACTION CONSIDERATIONS.

The main elements of the related party transaction submitted to the consideration of the Company's Audit Committee are detailed below, relating to: (i) storage, relocation, maintenance and repair of racking services by Dexion Material Handling Ltd, (**‘Dexion’**) to Gestamp Tallent, Ltd. (West Midlands plant) (**‘Gestamp West Midlands’**), and (ii) sensorisation services of a blanking line by Reparaciones Industriales Zaldívar, S.L. (**‘Reparaciones Industriales Zaldívar’**) to Gonvauto Barcelona, S.L. (**‘Gonvauto Barcelona’**).

2.1. Storage, relocation, maintenance and repair of racking services by Dexion to Gestamp West Midlands:

- **Purpose:** Due to space saving reasons and the need for storage for ongoing projects, Gestamp required Dexion's services for the supply of high bay racking at the Gestamp West Midlands plant. In addition to the supply and installation of the racks for the storage of the plant's production, the service also includes maintenance and any on-site repairs that the racks may require.
- **Object of the transaction:** Under this operation, Dexion supplies racking to Gestamp West Midlands and provides maintenance, relocation and repair services.
- **Price:** The supply of storage furniture, as well as its relocation, maintenance and repair, is carried out on a recurring basis throughout the year and according to the needs of Gestamp West Midlands' activity at any given time. The price of the racks varies depending on the size and storage model and is in a very wide range (between [REDACTED] and [REDACTED]).

On the other hand, with regard to the maintenance, relocation and repair services for the racks, the price is calculated by adding to the cost of the material used the cost of labour, whose rate per worker is [REDACTED] per hour.

Therefore, and taking as a basis equivalent costs from previous years, it is estimated that Dexion's services to Gestamp West Midlands imply a total amount of £314,000 per year, plus VAT.

- **Economic reasonableness of the operation:** Four potential suppliers ([REDACTED], [REDACTED], [REDACTED], [REDACTED] and Dexion Material Handling Ltd) have been asked for bids, but only Dexion responded and submitted a bid in terms of price and market conditions and was awarded the contract.

2.2. Sensorisation services of a blanking line by Reparaciones Industriales Zaldibar to Gonvauto Barcelona:

- **Purpose:** Gonvauto Barcelona requires the services of Zaldibar Industrial Repairs for the sensorisation of a blanking line.
- **Object of the transaction:** Under this service provision operation, Reparaciones Industriales Zaldibar will provide sensorisation for a Gonvauto Barcelona blanking line.
- **Price:** The total price is 62,951.06 euros plus VAT, of which [REDACTED] 1 euros corresponds to the cost of materials, [REDACTED] euros to the cost of travel, and [REDACTED] euros to the cost of labour (which includes a total of [REDACTED] working hours plus per diems), including [REDACTED] euros for possible extra work.

This document is a translation into English of an original document drafted in Spanish. This translation is for information purposes only, therefore, in case of discrepancy, the Spanish version shall prevail.

- ***Economic reasonableness of the operation:*** This is a one-off service provided by Reparaciones Industriales Zaldívar to Gonvauto Barcelona due to the need to move one of its blanking lines to another plant. In this respect, the service offered by Reparaciones Industriales Zaldívar is carried out within the scope of its ordinary business and under market conditions, including the same price it would offer to other customers.

3. CONCLUSION.

In view of the aforementioned considerations, the Audit Committee concludes that these transactions are fair and reasonable from the point of view of the Company and, in particular, from the point of view of the shareholders other than the related party.
