

Results Presentation

**For the nine-month period ended
30 September 2025**

29 October 2025

Disclaimer

This report shows the most important data concerning Aena S.M.E., S.A. and its subsidiaries ('Aena' or 'the Company') and its management during the first nine months of 2025, including the most relevant information on all business areas, the main figures and the lines of action that have guided the management of the Company.

Any form of use or exploitation of the contents of this presentation, as well as the use of the brand signs, trademarks and logos contained therein, and any type of reproduction, distribution, transfer to third parties, public communication or transformation, through any type of instrument or medium, for commercial purposes, is expressly prohibited without the prior and express authorisation of Aena S.M.E., S.A. Failure to comply with this restriction may constitute a sanctionable violation under applicable law.

Neither Aena S.M.E., S.A., nor its subsidiaries or other companies of the Aena group or affiliated companies of Aena S.M.E., S.A., nor directors, nor executives, nor employees assumes responsibility of any kind, regardless of whether or not they are negligent, for any damages or losses that may arise from any use of this document or its contents.

* This presentation has not been approved or registered by the National Securities Market Commission (CNMV) or any other authority.

* This document does not constitute an offer or invitation to purchase or subscribe shares, in accordance with the provisions of (i) Act 6/2023, of 6 March, on the Securities Markets and investment services; (ii) Regulation (EU) 2017/1129 of the European Parliament and of the Council, of 14 June 2017, on the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market, and repealing Directive 2003/71/EC; (iii) Royal Decree-Law 5/2005, of 11 March, on urgent reforms to boost productivity and improve public procurement; (iv) Royal Decree 814/2023, of 8 November, on financial instruments, admission to trading, registration of marketable securities and market infrastructures; and (v) their development regulations.

* Neither this document nor any part thereof is contractual in nature, nor may they be used to integrate or interpret any contract or any other type of commitment.

* Aena S.M.E., S.A. considers the estimates contained herein to be reasonable, forward-looking expectations and projections, although investors and holders of Aena S.M.E., S.A. shares are cautioned that forward-looking information and statements are subject to risks and uncertainties, many of which are difficult to foresee and beyond the control of Aena S.M.E., S.A. These risks could cause actual results and performance to differ substantially from expectations that may result from or which may be implied in the information contained in this presentation.

Factors of a macroeconomic nature, the market situation, legal or regulatory amendments, movements in domestic and international stock markets, and any other element that may affect the actual performance of the estimates contained in this presentation are unknown or unforeseeable variables, or where there is uncertainty about their development and/or their potential impacts, they may cause the results to differ substantially from those described in the forecasts and estimates.

* The forward-looking assertions or statements contained in this presentation refer exclusively to the date on which they are stated, do not constitute any guarantee of future results and have not been reviewed by the auditors of Aena S.M.E., S.A., or by any independent third party. Except to the extent required by applicable law, Aena S.M.E., S.A. assumes no obligation—even if new data is published or new events transpire—to publicly update its statements or to review the information with forward-looking statements.

All forward-looking assertions or statements reflected in or relating to this document issued by Aena S.M.E., S.A. or by any of its directors, executives, employees or representatives are expressly subject to the advisories stated.

* Past financial statements and previous growth rates are not a guarantee of the actual performance, future results or share price and performance (including earnings per share).

* In light of the advisories stated, it is recommended that decisions not be made based on forward-looking assertions or statements.

Whoever may want to buy any stock, at any time, should only do so following their own judgment about the suitability of the same for their purpose, in exclusive compliance with the public information contained in the documentation prepared and recorded by the issuer in the context of the specific offer or issue that corresponds, having received appropriate professional advice, if deemed necessary or appropriate under the circumstances, and not based on the information contained in this presentation.

Those persons or entities that may have to make decisions or prepare or disseminate opinions regarding securities issued by Aena S.M.E., S.A. and, in particular, analysts and investors who handle this presentation, must take into account the advisories stated, with it being advisable that they consult the documentation and public information communicated or registered by Aena S.M.E., S.A. with the National Securities Market Commission. In particular, please note that this document contains unaudited financial information.

Appendices

Key highlights

Traffic: Aena Group¹: 294.1 million (+4.1%). Spanish Network: 247.1 million (+3.9%).

Total revenue: €4,785.2m (+€388.4m, +8.8%). **EBITDA:** €2,882.7m (+€219.4m, +8.2%).

EBITDA margin: 60.2% (60.6% in 9M 2024). **Net profit:** €1,579.4m (+€129.6m, +8.9%).

Commercial activity: total sales: +8.7%. Total sales per passenger: +4.7%. Revenue from fixed and variable rents invoiced: +14.7%.

Tenders in 9M 2025: The MAG rents awarded in specialty shops represent an overall recovery of 133% of those from 2024 in 2025 and 140% in 2026. In food and beverage: recovery of 119% of those from 2024 in 2025 and 120% in 2026.

The food and beverage tender at the J.T. Barcelona-El Prat Airport, which accounts for approximately 20% of the total volume of revenue from this business line and represents 98% of the airport's food and beverage activity, has been put out to tender. It is expected to be awarded in February 2026.

¹ Total passengers in the Spanish airport network, London Luton Airport, the six airports of the Northeast Brazil Airport Group (ANB) and the traffic of the Block of Eleven Airports in Brazil (BOAB). Not including traffic at airports of non-consolidated affiliates.

Key highlights

Real estate services: total revenue: +13.7%, mainly due to improved revenue from the cargo business line (+6.6%) and real estate operations (+33.6%).

The simultaneous tender process for the first hotel developments at A.S. Madrid-Barajas and J.T. Barcelona-El Prat airports has begun. This tender consists of the award of a 75-year surface right for the construction and operation of an airport hotel.

International activity: total revenue: €655.3m (excluding IFRIC impact: €530.9m). EBITDA €306.9m.

DORA III: on 18 September, the investment proposal for the 2027-2031 period was presented, totalling €12,888m, of which €9,991m correspond to regulated investments.

Key highlights

Passengers¹ (m): +4.1%

Total Revenue (€m): +8.8%

Spanish Network:

Markets: Domestic: +0.0%. International: +5.7%.

Countries: United Kingdom: +4.1%; Germany: +2.1%; Italy: +9.3%

Airports: A.S. Madrid-Barajas: +2.5%.

J.T. Barcelona-El Prat: +4.1%.

M.H. Alicante-Elche: +8.7%

Gran Canaria: +5.4%.

Airlines: Ryanair, +4.7% (21.8% share of total).

Vueling, +2.1% (15.3%)

Iberia, -1.2% (6.7%)

Driven by greater volumes of traffic, improved commercial activity and increased construction services (IFRIC 12).

The percentage growth in total revenue excluding the effect of IFRIC 12 would be +6.9%.

¹ Total passengers in the Spanish airport network, London Luton Airport, the six airports of the Northeast Brazil Airport Group (ANB) and the traffic of the Block of Eleven Airports in Brazil (BOAB). Not including traffic at airports of non-consolidated affiliates.

² Other operating revenue, Región de Murcia International Airport and adjustments.

Key highlights

OPEX¹ Aena Group (€m): +10.3%

Excluding the impact of the amount for construction services in Brazil (IFRIC 12; +€86.3m), the increase in the Group's OPEX would be +5.5%.

Group: Group staff costs (+10.8%).

Other operating expenses (+11.1%)

Spanish Network: Electricity (+16.1%), Maintenance (+8.6%), Security (+8.1%), PRM (+5.3%) and VIP Lounges (+30.9%).

OPEX¹ breakdown for Aena² (excluding Luton, ANB and BOAB) (€m): +6.6%

Staff costs (+10.9%) derived mainly from salary reviews, headcount growth and adjustments to variable remuneration.

¹ OPEX includes: Supplies, Staff costs and Other operating expenses.

² Including Región de Murcia International Airport.

In the first nine months of 2025, there was a dilution of €97.1m (€124.2m in 9M 2024)

¹ Excluding Región de Murcia International Airport.

² OPEX includes: Supplies, Staff costs and Other operating expenses.

Key highlights

Investment proposal for the 2027-2031 period

- **Significant investments in the terminals of the main airports** for different reasons: capacity, quality or adaptation to safety regulations
- **High investments in areas** that already started to become important in the 2022-2026 period: cybersecurity, digital transformation, resilience and sustainability.
- **Investments in older infrastructures** that require more significant actions: runway resurfacing, replacement of electromechanical installations, etc.

Total and regulated investment volumes envisaged for the period:

<i>Figures in € million</i>	Total investment	Regulated investment (*)
Total Aena	12,888	9,991

(*) Investment included in the DORA 2027-2031 proposal

Key highlights

Significant actions are planned for the following airports in the coming years

In the planning stage:

- Adolfo Suárez Madrid-Barajas Airport
- Barcelona-El Prat Josep Tarradellas Airport (T1 and T2)
- Tenerife Sur Airport
- Tenerife Norte-Ciudad de La Laguna Airport
- César Manrique-Lanzarote Airport
- Alicante-Elche Airport
- Málaga-Costa del Sol Airport
- Ibiza Airport
- Menorca Airport
- Melilla Airport

In pre-project stage (functional design):

- Valencia Airport
- Bilbao Airport

The DORA III proposal will also take into account investments required by the rest of the Spanish airports.

Key highlights

Regulated investments is processed in accordance with the provisions of Law 18/2014

Cash and cash equivalents	(1,753)	(1,821)
Net financial debt	5,127	5,498
Net financial debt/EBITDA ¹	1.37x	1.57x

¹ Consolidated accounted net financial debt calculated as: Financial debt (current and non-current) less Cash and cash equivalents. EBITDA of the last 12 months.

Luton

Passengers (m): +4.8%

EBITDA (£m): +44.2%

EBITDA
margin

40.5%

55.6%

Excluding the impact of the insurance compensation for the reconstruction of the fire-damaged car park, EBITDA would reflect an increase of 10.1% (+£10.9m) and the EBITDA margin increase would be 42.5% (40.5% 9M 2024).

Revenue (£m): +5.1%

Aeronautical revenue:
+11.5% (up to £135.1m).
Commercial revenue*:
+9.0% (up to £144.5m).

- In 2024, insurance compensation (£35.0 million for lost profits and incremental operating costs related to the fire at Terminal Car Park 2-TCP2) was recorded as commercial revenue. In 2025, revenue from this item is recorded under "Other operating revenue" (£5.9 million). Excluding compensation for incremental operating costs, commercial income would be \$144.5 million (\$132.6 million in 9M 2024). The insurance agreement has already been finalized and the parking lot reconstruction work has been completed.

Northeast Brazil Airport Group (ANB)

Passengers (m): +5.3%

Revenue (R\$m): -9.5%

Aeronautical: +11.5%, (R\$316.4m).
Commercial: +23.0%, (R\$166.0m).
Construction services revenue (IFRIC 12): -84.9%, (R\$20.6m).

EBITDA (R\$m): +21.4%

Excluding revenue from construction services (IFRIC 12), the EBITDA margin would be 62.7% (59.5% in 9M 2024).

Capex (€m)¹: -37.7%

¹ The data in R\$ is converted at 5.70 for 9M 2024 and 6.32 for 9M 2025 (a variation of -9.8%).

Block of Eleven Airports in Brazil (BOAB)

Passengers (m): +5.5%

Revenue (R\$m): +100.7%

Aeronautical: +14.5%, (R\$530.7m).
Commercial: +12.6%, (R\$259.9m).
Construction services revenue (IFRIC 12): +839.8%, (R\$766.1m).

EBITDA (R\$m): +19.5%

Excluding revenue from construction services (IFRIC 12), the EBITDA margin would be 64.5% (61.5% in 9M 2024).

Capex (€m)¹: n/a

Works are continuing at all airports, with completion scheduled for June 2026 at 10 terminals and June 2028 at Congonhas. At this airport, the expansion of the remote boarding area has been completed (from 1,400 m² to 3,300 m² and the commercial offering has been increased from 2 to 11 points).

¹ The data in R\$ is converted at 5.70 for 9M 2024 and 6.32 for 9M 2025 (a variation of -9.8%).

Appendix: Other shareholdings: Trend in passenger traffic (m)

GAP⁽¹⁾: +4.0%

Aerocali⁽²⁾: -10.9%

¹ Includes traffic at Sangster International Airport in Montego Bay and Kingston Airport (Jamaica).
² The concession ended on 31 August 2025. Comparing the cumulative values for the eight-month period, the change in passenger traffic would be -0.3%.

Appendix. Alternative Performance Measures

In addition to the financial information prepared under the International Financial Reporting Standards adopted by the European Union (IFRS-EU), the reported financial information includes certain alternative performance measures (APM) in order to comply with the guidelines on alternative performance measures published by the European Securities and Markets Authority (ESMA) on 5 October 2015, as well as non-IFRS-EU measures.

The performance measures included in this section rated as APM and non-IFRS EU measures have been calculated using Aena's financial information, but are not defined or detailed in the applicable financial reporting framework.

These APM and non-IFRS-EU measures have been used to plan, control and assess the Group's evolution. We believe that these APM and non-IFRS measures are useful for management and investors as they facilitate the comparison of operating performance and financial position between periods. Although it is considered that these APM and non-IFRS EU measures allow a better assessment of the evolution of the Group's businesses, this information should be considered only as additional information, and in no case does it replace the financial information prepared according to the IFRS. Moreover, the way in which the Aena Group defines and calculates these APM and non-IFRS EU measures may differ from the way in which they are calculated by other companies that use similar measures and, therefore, may not be comparable.

The APM and non-IFRS measures used in this document can be categorised as follows:

1. Operating Performance Measures

- **EBITDA or reported EBITDA:** EBITDA (Earnings Before Interest, Tax, Depreciation and Amortisation) is an indicator that measures the company's operating margin before deducting financial results, income tax and amortisation/depreciation. This is calculated as Operating profit plus amortisations (consolidated under IFRS and individual under General Accounting Plan). By disregarding the financial and tax figures, as well as

amortisation and depreciation accounting expenses that do not entail cash outflow, it is used by Management to assess the operating profit of the company and its business segments over time, allowing them to be compared with other companies in the sector.

In the note relating to the financial information by business segment of the annual report, it is indicated that the Chairman and Chief Executive Officer assess the performance of the operating segments based on EBITDA.

- **Adjusted EBITDA:** The adjusted EBITDA is calculated as EBITDA + Fixed asset impairments + earnings from fixed asset disposals. The reconciliation of both EBITDA and adjusted EBITDA with the consolidated earnings also appears in the note relating to financial information by business segment in the annual report.
- **EBITDA margin:** The EBITDA margin is calculated as the quotient of EBITDA over total revenue and is used to measure the profitability of the company and its business lines.
- **EBIT margin:** The EBIT margin is calculated as the quotient of EBIT over total revenue. EBIT (Earnings Before Interest and Taxes) is an indicator that measures the company's operating margin before deducting financial results and income tax. It is used to measure the company's profitability.
- **OPEX:** This is calculated as the sum of Supplies, Staff costs and Other operating expenses and is used to manage operating or running expenses.

Appendix. Alternative Performance Measures

2. Measures of the financial position

- **Net Debt:** Net Debt is the main APM used by Management to measure the Company's level of indebtedness.

It is calculated as the total 'Financial Debt' (Non-current Financial Debt + Current Financial Debt) that appears in the Consolidated Statement of Financial Position (see Note 10 of the condensed consolidated financial statements) less the 'Cash and cash equivalents' that also appear in said Consolidated Statement of Financial Position (for the individual statement, it is calculated under the General Accounting Plan).

The definition of the terms included in the calculation is as follows:

Financial Debt: this means all financial debt with a financial cost as a result of:

- a. loans, credits and commercial discounts;
- b. any amount due for bonds, obligations, notes, debts and, in general, similar instruments;
- c. any amount due for rental or leasing which, according to the applicable accounting regulations, should be treated as financial debt;
- d. financial guarantees assumed by AENA that cover part or all of a debt, excluding those guarantees related to debts of consolidated companies; and
- e. any amount received by virtue of any other kind of agreement that has the effect of commercial financing and which, according to the applicable accounting regulations, should be treated as financial debt.

Cash and cash equivalents: definition contained on p. 7 of IAS 7 'Cash flow statement'.

- **Net Financial Debt Ratio/EBITDA** It is calculated as the quotient of the Net Financial Debt divided by the EBITDA for each calculation period. In the event that the calculation period is less than the annual period, the EBITDA of the last 12 months will be taken.
- The Group monitors capital structure based on this debt ratio.

The numerical reconciliation of these APMs has been included in the corresponding section of the Consolidated Management Report.

Consolidated Interim Management Report

For the nine-month period
ended 30 September 2025

1. Executive summary

The Aena Group recorded 294.1 million **passengers** in the first nine months of 2025, representing year-on-year growth of 4.1%:

- The number of passengers in the Spanish airport network¹ reached 247.1 million, which represents a year-on-year increase of 3.9%.
- London Luton Airport recorded 13.4 million passengers, representing a year-on-year increase of 4.8%.
- The traffic at the six airports of Northeast Brazil Airport Group (ANB) reached 12.4 million passengers, posting year-on-year growth of 5.3%.
- The 11 airports at the Bloco de Onze Aeroportos do Brasil (BOAB) recorded 21.2 million passengers, which represents a year-on-year increase of 5.5%.

The passenger traffic guidance for the Spanish airport network in 2025, announced by Aena on 25 February, remains unchanged (up 3.4% and approximately 320 million).

Total consolidated revenue reached €4,785.2 million. This is an increase of 8.8% year-on-year and €388.4 million.

Revenue from Aena's aeronautical activity amounted to €2,556.2 million (+5.5% year-on-year and +€132.6 million). Commercial revenue reached €1,466.1 million (+10.8% year-on-year and +€142.7 million) and revenue corresponding to real estate services reached €98.2 million (+13.7% year-on-year and +€11.8 million).

Revenue from international activity amounted to €655.3 million (+18.2% year-on-year and +€100.9 million). Excluding construction services (IFRIC 12) recorded in relation to concessions in Brazil, revenue amounted €530.9 million (+2.8% and +€14.7 million).

Aena's commercial activity has improved significantly compared to 2024 and this performance can be seen in practically all business lines. Total sales increased by 8.7% year-on-year and total sales per passenger grew by 4.7%. The renovation of retail spaces (duty free, food and beverage, and specialty shops) with new brands, new units and more space, increased sales in mobility lines (car rental and car parks), and strong demand for VIP lounges continues to drive commercial activity growth above traffic growth.

Revenue from Aena's commercial and real estate business (fixed and variable rents and MAG) has increased by 13.0% year-on-year and revenue per passenger has risen by 8.8% to €6.07 (€5.58 in the nine-month period of 2024).

Consolidated operating expenses amounted to €2,533.8 million. This is an increase of 7.0% year-on-year and €165.7 million.

Operating expenses (supplies, staff costs and other operating expenses) rose to €1,929.4 million. This is a year-on-year increase of 10.3% (+€180.7 million).

Other operating expenses reached €1,300.4 million, having increased by 11.1% year-on-year (+€129.9 million). For Aena, other operating expenses reached €986.5 million, having increased by 5.5% year-on-year (+€51.7 million). Excluding the cost of electricity, which rose by 16.1% year-on-year (€13.6 million) due to price increases, and the effect of an extraordinary provision for liabilities recognised in the first half of 2024 (€14.1 million), other operating expenses increased by 6.2% year-on-year (+€52.2 million).

Consolidated EBITDA amounted to €2,882.7 million and has increased by 8.2% year-on-year (+€219.4 million). The EBITDA margin stood at 60.2% (60.6% at 30 September 2024). Excluding construction services (IFRIC 12) recognised in relation to concessions in Brazil, the Group's EBITDA margin would be 61.9% (61.1% at 30 September 2024).

Profit before tax reached €2,151.4 million (+10.9% year-on-year and +€211.9 million) and the period ended with a **net profit** of €1,579.4 million (+8.9% year-on-year and +€129.6 million).

Net cash generated by operating activities reached €2,525.6 million (+7.3% year-on-year and +€172.8 million).

A total of €716.6 million has been allocated to the payment of the **investment** programme. Of this amount, €483.3 million corresponds to the Spanish airport network, €73.1 million to London Luton Airport, €9.0 million to ANB and €151.2 million to BOAB. The Group allocated €623.4 million as at 30 September 2024.

The **dividend** distribution approved by the shareholders at the Annual General Meeting of Aena S.M.E., S.A. on 9 April, charged to net profit for 2024, amounted to €1,464.0 million (€1,149.0 million in 2024).

Regarding the Aena Group's **financial position**, the net financial debt to EBITDA ratio has decreased to 1,37x (1,57x at 31 December 2024). The net financial debt to EBITDA ratio of Aena S.M.E., S.A. has also improved to 1,39x (1,59x at 31 December 2024).

¹ This includes the airports of Aena S.M.E., S.A. (Aena or the 'Company') and the Región de Murcia International Airport (AIRM).

The Aena Group's available cash and credit facilities amount to €4,272.5 million (€4,629.5 million at 31 December 2024).

On 30 September, Moody's rating agency upgraded the long-term and EMTN programme rating of Aena S.M.E., S.A. from 'A3' to 'A2' and changed the outlook from positive to stable. As indicated in section 10 (Subsequent events), on 22 October, Fitch Ratings has affirmed the long-term and EMTN programme rating at 'A', and the company's short-term rating at 'F1'. The outlook on the long-term is stable.

With regard to the **Airport Regulation Document for the 2022-2026 period** (DORA II), Aena's Board of Directors, at its meeting held on 29 July 2025, approved the charge proposal applicable as of 1 March 2026, setting the adjusted annual maximum revenue per passenger (IMAAJ) for 2026 at €11.03 per passenger, which is a change of 6.5% compared to the IMAAJ of 2025 (€10.35 per passenger). This proposal will be reviewed by the National Commission for Markets and Competition (CNMC) in the exercising of the functions attributed to it by Law 3/2013, of 4 June.

On 1 July 2025, the Council of Ministers approved an additional investment of €351 million to that already planned in the current DORA II programme. These are investments that could not be foreseen prior to the approval of this DORA II, and which bring forward necessary actions that would in any case be carried out in the next DORA III period (from 2027 to 2031).

In relation to the **Airport Regulation Document for the 2027-2031 period** (DORA III), the investment proposal approved by the Company's Board of Directors was publicly announced on 18 September, which includes a total investment of €12,888 million, of which €9,991 million relate to regulated investments and the rest to non-regulated actions (associated with commercial activity).

The proposal for regulated investments that is finally included in the Airport Regulation Document (DORA), after being processed, which includes the consultation period with the associations representing users, will be submitted for approval by the Council of Ministers, in accordance with that set out in Law 18/2014, of 15 October.

In compliance with the resolutions passed by the shareholders at the Annual General Meeting of Aena S.M.E., S.A. on 9 April, it should be noted that on 19 June **the total number of shares in the Company's share capital was split** at a ratio of 10 new shares for each existing share. The split was carried out by reducing the par value of each share from €10 to €1, without changing the share capital figure, resulting in an increase in the number of shares outstanding.

Aena's **share price** has fluctuated throughout the period, ranging from a minimum of €19.55 to a maximum of €25.71 (taking into account the share value adjustment). The share price closed at €23.27 at 30 September 2025, which represents a revaluation in the share price of 17.9% since 31 December 2024, lower than the performance of the IBEX 35, which rose by 33.5% in the same period.

2. Activity figures

2.1. Spanish airport network²

In the first nine months of 2025, airports in Spain have registered 247.1 million passengers, representing a year-on-year increase of 3.9% and reflecting a moderation in the upward trend of last year.

Passenger volume grew by 4.7% year-on-year in the first quarter, 4.3% in the second quarter and 3.0% in the third quarter. It is worth recalling that the first quarter of 2024 included the Easter dates and, with last year being a leap year, February contained 29 days, unlike this year.

The passenger traffic guidance for the Spanish airport network in 2025, announced by Aena on 25 February, remains unchanged (up 3.4% and approximately 320 million).

However, factors such as macroeconomic and geopolitical uncertainty, supply chain issues, or potential disruptions on the air supply side, could affect the behaviour of air traffic.

Data on passenger traffic by airports and airport groups³

Airports and Airport groups	Passengers			Aircraft			Cargo		
	Millions 9M 2025	% Year-on-year change ¹	Share 9M 2025	Thousands 9M 2025	% Year-on-year change ¹	Share 9M 2025	Tonnes 9M 2025	% Year-on-year change ¹	Share 9M 2025

Data of passenger traffic by geographic area

International traffic has grown by 5.7% year-on-year while domestic traffic has decreased by 0.1%. As a result of this trend, the share of international traffic has increased from 68.6% in the nine-month period of 2024 to 69.8% in the nine-month period of 2025.

Region	Passengers (millions)		% Change	Share

Data on passenger traffic by airline

Ryanair and IAG Group transported 121.4 million passengers (+1.8% year-on-year). They reached a combined share of 49.1% (50.1% in the nine-month period of 2024).

The IAG Group's passenger traffic volume (67.6 million passengers) fell by 0.3%.

Airline	Passengers (millions)		% Change	Share	
	9M 2025	9M 2024	Year-on-year	9M 2025	9M 2024
Ryanair	53.8	51.4	4.7%	21.8%	21.6%
Vueling	37.8	37.0	2.1%	15.3%	15.6%
Iberia	16.7	16.9	-1.2%	6.7%	7.1%
EasyJet	14.2	13.3	6.6%	5.7%	5.6%

Iberia Express	9.2	10.2	-10.4%	3.7%	4.3%
Binter Group	9.0	8.1	10.3%	3.6%	3.4%
Jet2.Com	8.2	7.9	4.6%	3.3%	3.3%
Air Nostrum	7.5	7.1	6.0%	3.0%	3.0%
Eurowings	7.2	6.7	6.6%	2.9%	2.8%
Total Top 10	177.0	172.0	2.9%	71.5%	72.3%

Low-cost airlines recorded 153.3 million passengers and a 4.2% year-on-year growth. They accounted for 62.0% of the total passenger volume in the nine-month period of 2025 (61.8% in the nine-month period of 2024).

Winter Season 2025

Airlines have scheduled 137.6 million seats and 788,400 commercial flights at the Spanish airport network for the winter season, which runs from 26 October 2025 until 28 March 2026. This represents a 3.5% increase in seat capacity and a 3.3% increase in operations compared to that scheduled for the same season in 2024.

In geographical terms, the European market stands out with over 77 million seats, 5.8% more than the previous winter season, and the domestic market with 44.5 million seats, 3.8% less. The markets with the highest percentage growth are Asia- Pacific, with a growth of 33.3% and over 1.1 million scheduled seats, and the Middle East with 2.4 million seats (+28%).

After Spain, with 44.5 million seats on offer, the countries where airlines have scheduled the largest number of seats are: United Kingdom, with 17.8 million (+5.7%); Germany, with 10.8 million (-2.2%); Italy, with 9.7 million (+6.4%); France, with 6.6 million (+6.2%) and the Netherlands, with 4.2 million scheduled seats (+2.2%).

Among major destinations, the ones with the highest percentage growth are China (+47.6%), Turkey (+33.7%), United Arab Emirates (+32.5%), Brazil (+29.7%) and Poland (+26.7%).

2.2. International shareholdings

Aena's shareholdings outside Spain, through its subsidiary Aena Desarrollo Internacional S.M.E., S.A. (ADI) include 32 airports as of 30 September 2025: 1 in the UK, 17 in Brazil, 12 in Mexico and 2 in Jamaica. The Company also held ownership interest in Cali Airport in Colombia up until 31 August 2025.

Company	Passengers (millions)		% Change ¹	% Shareholding	
	9M 2025	9M 2024	year-on-year	Direct	Indirect
London Luton Airport (United Kingdom)	13.4	12.8	4.8%	51.0%	
Northeast Brazil Airport Group (ANB)	12.4	11.7	5.3%	100.0%	
Bloco de Onze Aeroportos do Brasil (BOAB)	21.2	20.1	5.5%	100.0%	
Grupo Aeroportuario del Pacífico (GAP) (Mexico and Jamaica) ²	47.8	46.1	3.6%		6.4%
Alfonso Bonilla Aragón International Airport (Cali, Colombia) - AEROCALI ³	4.5	5.0	-10.9	50.0%	
TOTAL	99.3	95.8	3.7%		

¹ The percentage change is calculated in passengers.

² ADI has an ownership interest in GAP through Aeropuertos Mexicanos del Pacífico, S.A.P.I. de CV (AMP), of which ADI is the operating partner and owner of 33.33% of the share capital. AMP, which in turn is the strategic partner of GAP, holds a 19.28% interest in its share capital.

³ The Cali Airport concession arrangement ended on 31 August 2025 and, therefore the data for 9M 2025 relates to the passenger volume up until that day.

2.2.1 Subsidiaries

London Luton Airport

The airport recorded 13.4 million passengers, representing a year-on-year increase of 4.8%, due to the greater capacity offered by airlines and the improvement in the load factor (+0.4% compared to the nine-month period of 2024).

The commencement of Jet2's operations has contributed significantly to the increase in capacity offered. This airline has contributed 0.3 million additional passengers compared to the nine-month period of 2024.

However, since June, there has been a slowdown in traffic due to the conflict in Israel, which affects four airlines operating direct routes: El Al, Israir, Wizz Air and easyJet.

The airport has therefore recovered 96.9% of the passenger volume of 2019, with the occupancy factor 2.5% lower than in 2019.

In aircraft movements, 102,989 operations were recorded (+2.0% year-on-year).

The cargo volume recorded was 22,446 tonnes of cargo (-3.3% year-on-year).

Future capacity expansion

On 3 April, the British Secretary of State for Transport approved the expansion of airport capacity from the current 19 million passengers to 32 million.

In May, the Luton and District Association for the Control of Aircraft Noise (LADACAN), together with other groups, filed an appeal for judicial review of the DCO (Development Consent Order), which was granted leave to proceed. The Supreme Court will hear the case on 4 and 5 November and is expected to hand down a judgement around March 2026.

Concession term

On 17 November 2021, the London Luton Airport Sustainable Recovery Agreement with Luton Borough Council was formalised to compensate for the loss of activity resulting from the pandemic. The agreement envisages an extension of the concession of 16.5 months (31 March 2031 to 15 August 2032). The traffic levels recorded in 2024 have led to the concession being extended until at least September 2032.

ANB

Airport	Passengers (millions)		% Change ¹
	9M 2025	9M 2024	year-on-year
Recife	7.3	7.1	3.1%
Maceió	2.2	1.9	12.1%
João Pessoa	1.4	1.2	19.5%
Aracaju	1.0	0.9	8.1%
Juazeiro do Norte	0.4	0.4	-5.3%
Campina Grande	0.1	0.2	-49.8%
TOTAL	12.4	11.7	5.3%

¹ The percentage change is calculated in passengers.

The traffic at ANB's six airports reached 12.4 million passengers, representing year-on-year growth of 5.3%.

In aircraft movements, 112,430 operations were recorded (-5.9% year-on-year).

The cargo volume recorded reached 50,472 tonnes of cargo (+18.1% year-on-year).

Concession term

The concession has a term of 30 years as from the date on which the contract became fully effective (9 October 2019).

BOAB

Airport	Passengers (millions)		% Change ¹
	9M 2025	9M 2024	year-on-year
Congonhas-São Paulo	17.95	16.94	6.0%
Campo Grande	1.19	1.11	8.1%
Uberlândia	0.78	0.77	1.5%
Santarém	0.37	0.39	-4.3%
Marabá	0.29	0.28	2.0%
Montes Claros	0.27	0.27	2.0%
Carajás	0.19	0.16	17.3%
Altamira	0.07	0.08	-17.7%
Uberaba	0.06	0.07	-11.1%
Corumbá	0.03	0.02	22.7%
Ponta Porã	0.02	0.03	-30.7%
TOTAL	21.2	20.1	5.5%

¹ The percentage change is calculated in passengers.

BOAB's 11 airports recorded 21.2 million passengers, which represents a year-on-year increase of 5.5%.

In 2024, traffic at Congonhas-Sao Paulo Airport was affected by the closure of Porto Alegre Airport since 22 May, due to flooding in the state of Rio Grande do Sul which impacted all air traffic in Brazil. Activity of this route resumed in October.

In aircraft movements, a total of 222,625 operations were recorded (-8.3% year-on-year).

The cargo volume recorded was 46,470 tonnes of cargo (+19.9% year-on-year).

Concession term

The concession has a term of 30 years as from the date on which the contract became fully effective (5 June 2023).

2.2.2 Associates and jointly controlled entities

Grupo Aeroportuario del Pacífico (GAP)

This airport recorded 47.8 million passengers, representing a year-on-year reduction of 3.6%.

The passenger volume grew by 4.0% year-on-year at the Group's 12 airports in Mexico and by 0.6% at the 2 airports in Jamaica.

The year-on-year change was due to the recovery and growth in domestic traffic by 6.4%, as a result of the increase in the supply of seats in line with the completion of the preventive overhaul of the Pratt & Whitney engines of the A320neo and A321neo family, used by Volaris, GAP's largest customer and the airline that has been most affected in Mexico. International traffic has increased slightly by 0.3%.

During the first nine months, the recovery of aircraft after the overhaul has allowed for a gradual increase in the supply of seats. This means that the main airlines affected, Volaris and Viva Aerobús, are increasing their capacity as engine and aircraft inspections are completed.

On 6 June 2025, GAP announced the conclusion of the regular review process of the maximum passenger charges and committed investments included in the Investment Development Programme for Kingston Airport in Jamaica for the period 2026-2030.

Alfonso Bonilla Aragón International Airport (Cali, Colombia)

This airline recorded 4.5 million passengers from 1 January until the end of the concession arrangement on 31 August 2025, representing a decrease of 0.3% compared to the same period last year.

By segment, domestic traffic decreased by 0.4% year-on-year and international traffic was down 0.1% in the first eight months of 2025 compared to the same period last year.

Negotiations with the authorities for the development of a public-private partnership (PPP) are ongoing.

3. Business lines

The Aena Group carries out its business activities based on the following classification:

- **Airports:** this segment includes the Aena's operations as manager of the airports that form part of its network in Spain, and which are identified in the aeronautical activity. Likewise, the Airports segment includes the activity of managing the commercial spaces in the airport terminals and the network of car parks, which are identified under as Commercial activity.
- **Real estate services:** essentially includes Aena's operation of the industrial and real estate assets that are not located inside the airport terminals.
- **Región de Murcia International Airport (AIRM):** this corresponds to the revenue and expenses related to the operation of this airport under a concession model by the subsidiary Sociedad Concesionaria del Aeropuerto Internacional de la Región de Murcia S.M.E., S.A. (SCAIRM).
- **International:** the operations of the subsidiary Aena Desarrollo Internacional S.M.E., S.A. correspond to the Group's international development activity, which consists of investments in other airport managers. Within this segment, a detailed breakdown is provided of the operations carried out in the period by each of the airport infrastructure concessions located outside Spain and managed by subsidiaries: London Luton Airport, Northeast Brazil Airport Group (ANB) and Bloco de Onze Aeroportos do Brasil (BOAB).

3.1 Airports Segment

3.1.1 Aeronautical activity

Airport Regulation Document 2017-2021 (DORA I)

Request for the modification of DORA 2017-2021

Regarding the request for the modification of DORA I, the Directorate General of Civil Aviation (DGAC), in its Resolution of 24 September 2025, agreed not to initiate the procedure for modifying DORA 2017-2021 as it does not consider that all the necessary requirements have been met to give rise to the exceptional causes on the terms of Article 27, and in any case, no elements have been observed in the DORA where the compensation requested by the operator could arise from the modification.

Aena will file an appeal.

Airport Regulation Document 2022-2026 (DORA II)

Airport charges 2025

On 28 November 2024, the National Commission for Markets and Competition (CNMC) issued its resolution on the supervision of airport charges for 2025, stating that the adjusted annual maximum revenue per passenger (IMAAJ) to be applied is €10.35, which results in a 0% change in the charge compared to the IMAAJ for 2024.

Airport charges 2026

At its meeting held on 29 July 2025, Aena's Board of Directors approved the charge proposal applicable as of 1 March 2026, setting the adjusted annual maximum revenue per passenger (IMAAJ) for 2026 at €11.03 per passenger, which is a change of 6.5% compared to the IMAAJ of 2025 (€10.35 per passenger).

This proposal will be reviewed by the CNMC in the exercising of the functions attributed to it by Law 3/2013, of 4 June.

In August 2025, IATA, Ryanair and ALA brought a dispute regarding the charges before the CNMC against the approval of the 2026 airport charges. Aena submitted its arguments to the CNMC on 25 September 2025.

Judicial proceedings against the airport charges

With regard to the proceedings against the airport charges for 2022, the administrative appeals filed by IATA and Ryanair were dismissed in their entirety by the National Appellate Court in rulings handed down on 28 March 2025, which were subsequently appealed.

As indicated in section 10 (Subsequent events), Ryanair has lodged appeals to the Supreme Court against the rulings handed down, which were granted leave to proceed by the Supreme Court on 1 October and 7 October, with the appeals having yet to be formally filed.

The Management of the Group considers that the resolution of the appeals will not have a significant impact on its financial statements.

With regard to the proceedings against the airport charges for 2023 and 2024, there are no changes to the situation described in Note 23.2 to the consolidated financial statements for 2024.

In relation to the approval of the airport charges for 2025, Ryanair DAC, IATA and ALA brought a dispute regarding the charges before the CNMC. On 12 December 2024, the CNMC issued a resolution regarding this issue, partially upholding the disputes and setting the IMAAJ for 2025 at €10.35 in line with the 2025 Charge Resolution it had issued on 28 November 2024. On 28 January 2025, Aena filed a contentious-administrative appeal against the CNMC's resolutions on the supervision of charges and dispute. The appeals have been granted leave to proceed. Ryanair and IATA have appeared in the proceedings to resolve the dispute. On 17 October 2025, Aena filed a lawsuit as part of the contentious-administrative proceeding against the CNMC's resolution on the supervision of charges, as indicated in section 10 (Subsequent events).

In addition, on 18 September 2025, Aena was summoned as an interested party in the contentious-administrative proceeding brought by Ryanair against the CNMC Resolution of 28 November 2024 on the supervision of the charges applicable by Aena in 2025 and the CNMC Resolution of 12 December 2024 on the cumulative disputes brought by IATA, Ryanair and ALA against the Agreement of the Aena Board of Directors of 30 July 2024 setting the charges for 2025. Aena has entered an appearance at the proceeding on 3 September 2025.

The Management of the Group considers that the rulings on these appeals will not have a significant impact on its consolidated financial statements.

Key figures

Thousands of euros	9M 2025	9M 2024	Year-on-year change	% Year-on-year change

Recovery of COVID-19 costs	1	6,944	-6,943	-100.0%
Other airport services	73,899	69,245	4,654	6.7%
Other operating revenue	41,306	30,974	10,332	33.4%
Total revenue	2,556,200	2,423,599	132,601	5.5%
Total expenses (including depreciation and amortisation)	-1,721,649	-1,637,828	83,821	5.1%
EBITDA	1,286,293	1,246,707	39,586	3.2%

The majority of Aena's revenue from aeronautical activity comes from the aeronautical services provided, mainly for the use of airline and passenger airport infrastructures.

The 'Airport Charges' are regulated and are set within the scope of the regulatory framework (Airport Regulation Document [DORA]). 'Other airport services' includes those services rendered whose charges are subject to private or non-regulated prices (check-in counters, use of 400 Hz airbridges, firefighting service, consignments and other sources of revenue).

In January and February, revenue from airport charges reflected the 5.97% rate increase applied from 1 March 2024 to 29 February 2025, excluding the recovery of COVID costs.

On 1 March, the 2025 charges went into effect, which reflects a 0% change from the 2024 IMAAJ.

The effect of the annual change to the charges was €22.9 million.

In the nine-month period of 2025, there was a dilution in regulated revenue for the amount of €97.1 million (€124.1 million in the nine-month period of 2024).

Commercial incentives have resulted in a lower revenue of €11.4 million (€13.7 million in the nine-month period of 2024).

Rebates for connecting passengers amount to €53.6 million (€55.5 million in the nine-month period of 2024).

The change in "Other operating revenue" mainly reflects the reversal of excess provisions recognised in previous years (€9.4 million) after updating the quantification and classification of the risk associated, as indicated in section 8 (Main legal proceedings).

EBITDA reached €1,286.3 million (+3.2% year-on-year and €+39.6 million) and the EBITDA margin stood at 50.3% (51.4% in the nine-month period of 2024).

3.1.2 Commercial activity

Key figures

Thousands of euros	9M 2025	9M 2024	Year-on-year change	% Year-on-year change
Ordinary revenue	1,452,421	1,313,318	139,103	10.6%
Other operating revenue	13,669	10,122	3,547	35.0%
Total revenue	1,466,090	1,323,440	142,650	10.8%
Total expenses (including depreciation and amortisation)	-323,443	-298,469	24,974	8.4%
EBITDA	1,219,207	1,101,574	117,633	10.7%

The EBITDA margin was 83.2% (83.2% in the nine-month period of 2024).

Revenue by commercial activity

Ordinary commercial revenue	1,452,421	1,313,318	139,103	10.6%

¹ Includes various commercial operations, such as banking services, baggage wrapping machines, vending machines and regulated services (pharmacies, tobacconists, lottery vendors). It also includes revenue from the recovery of utility expenses.

Revenue for the period (Commercial and Real Estate Services) includes the items summarised in the following table:

Commercial and Real Estate Services Millions of euros	Revenue		Year-on-year change	
	9M 2025	9M 2024	€ million	%
Total business activity	1,496.1	1,323.7	172.4	13.0%
Revenue from Fixed and Variable Rents invoiced	1,343.0	1,171.3	171.7	14.7%
Revenue from MAG ¹	153.1	152.4	0.7	0.5%
Straight-line deferrals and other adjustments	53.6	75.2	-21.6	-28.7%
TOTAL	1,549.7	1,398.9	150.8	10.8%

¹ Minimum annual guaranteed rent.

Revenue from Aena's commercial and real estate business (fixed and variable rents and MAG) has increased by 13.0% year-on-year and revenue per passenger has risen by 8.8% to €6.07 (€5.58 in the nine-month period of 2024). Commercial activity has improved significantly compared to 2024 and this performance can be seen in practically all business lines. Total sales increased by 8.7% year-on-year and total sales per passenger grew by 4.7%.

Breakdown of revenue (Commercial and Real Estate Services) by commercial activity

The following is a breakdown by activity of the revenue items shown in the table above for Total Business, Fixed and Variable Rents Invoiced, and MAG Revenue:

Commercial activities

Duty-free shops

Sales have increased by 16.3% year-on-year, driven by the completion of works on a vast majority of the main shops, especially at Adolfo Suárez Madrid-Barajas Airport, Barcelona-El Prat Josep Tarradellas Airport (walk-through shop in T1) and Palma de Mallorca Airport (approximately operating 4,400 m² of the new walk-through shop), and by the opening of new complementary features (such as gourmet bars and luxury shops) and the consolidation of new product categories introduced.

In the context of tourist airports, it is noteworthy that sales have increased notably at Alicante-Elche Miguel Hernández and Málaga-Costa del Sol, and among airports specialising in city breaks, those in Seville and Valencia. It is also important to note the strong performance of the hub airports (Adolfo Suárez Madrid-Barajas Airport and Barcelona-El Prat Josep Tarradellas Airport). Among the Canary and Balearic Islands, the Fuerteventura, Tenerife Sur, César Manrique-Lanzarote, Ibiza and Menorca airports stand out. Sales at the Palma de Mallorca Airport have grown slightly, despite the fact that, due to the works on the new functional design, the former walk-through shop closed in November 2024 and the new one partially opened to the public in April (230 m² yet to be completed).

At 30 September 2025, the variable rents invoiced corresponding to the contracts of the Canary Islands, Andalusia-Mediterranean, Balearic Islands and Northern airport groups have exceeded the MAG.

Food and beverage

Sales have increased by 5.4% year-on-year, mainly favoured by the good performance of the new brands. Year-on-year increases stand out at Adolfo Suárez Madrid-Barajas Airport, Barcelona-El Prat Josep Tarradellas Airport and Valencia Airport, and at tourist airports such as Málaga-Costa del Sol Airport and Alicante-Elche Airport.

On 9 September 2025, the new food and beverage tender for the Barcelona-El Prat Josep Tarradellas Airport was published. This is an exceptional call for tenders, as it represents 98% of the airport's food and beverage activity and offers operators contracts of between 8 and 12 years. The tender includes a total of 49 units organised in 29 lots. The total surface area amounts to 20,188 m², an increase of almost 30% compared to the previous tender. The deadline for submitting bids is 11 November.

Specialty shops

Sales have increased by 2.9% year-on-year, although this growth is affected by the works being carried out at Palma de Mallorca Airport. Excluding this effect, sales grew by 6% as a result of an attractive commercial and brand mix. Sales at Adolfo Suárez Madrid-Barajas Airport, Valencia Airport and at tourist airports stand out: Alicante-Elche Airport, Gran Canaria Airport and Tenerife Sur Airport.

Revenue from this business line in the period includes an adjustment to the straight-line deferrals of future rents due to the early termination of the WHSmith contract at Palma de Mallorca Airport, which resulted in a €2.0 million reduction in revenue.

Commercial operations

Currency exchange and VAT refund activities have accounted for 79.5% of the revenue reflected in this heading, which are increasingly being eroded by competition between Fintech companies and traditional banks.

Car rental

Sales grew 7.6% year-on-year. This increase mainly reflects the rise in the number of contracts (+2.3%) and the increase in the average ticket price (+5.3%).

The year-on-year increases at Menorca Airport, Ibiza Airport, Fuerteventura Airport, Bilbao Airport, Barcelona-El Prat Josep Tarradellas Airport, Santiago de Compostela-Rosalía de Casto Airport, Las Palmas Airport and Valencia Airport are particularly noteworthy.

The entry into force of new contracts in November 2024, with higher fixed and variable rents, is also reflected in the increase in the revenue for this line.

Car parks

Revenue from this activity has increased by 8.2%, driven by the optimisation of available parking spaces and improved pricing policies. These levers have allowed the revenue of this line to be increased at all airports in the network.

The year-on-year growth of the Barcelona-El Prat Josep Tarradellas Airport, Adolfo Suárez Madrid-Barajas Airport, Valencia Airport, Málaga-Costa del Sol Airport and Alicante-Elche Airport is noteworthy.

VIP services

Revenue from this line has increased by 31.8% year-on-year, mainly due to higher revenue from the VIP lounges.

Revenue from VIP lounges, which accounts for more than 80% of this business line's revenue, has grown due to the greater number of users (+16%) and average price (+14%). The growing demand for this service has resulted in a penetration rate of 2.0% (+11% year-on-year).

Breakdown of MAG and committed fixed rents⁴

The MAG and committed fixed rents for the first half of 2025 (Commercial and Real Estate Services) for the 2025-2027 period are broken down below by activity:

Millions of euros	2025	2026	2027
Retail:	956.0	922.7	890.8
Duty-free shops	473.8	491.2	510.9
Food and beverage	307.7	280.9	253.1
Specialty shops	124.1	118.5	97.8
Commercial operations	50.3	32.1	29.0
Mobility:	118.7	121.6	123.9
Car rental	118.7	121.6	123.9
VIP services	7.2	7.5	7.1
Advertising	23.6	21.9	20.5
Leases	37.8	38.2	38.6
Real estate services	115.2	116.0	116.0
TOTAL	1,258.5	1,227.9	1,196.9

- In food and beverage activity, 50 tenders (72 premises) have been published in the first nine months of 2025, of which 15 tenders (19 premises) have been awarded. The MAG from the awarding of these tenders represent an overall increase in the 2024 MAG of 19% in 2025 and 20% in 2026 (including rents from the new premises).
- In specialty shop activity, 22 tenders (26 premises) have been published in the first nine months of 2025, of which 17 tenders (21 premises) have been awarded. The MAG from the awarding of these tenders represent an overall increase in the 2024 MAG of 33% in 2025 and 40% in 2026.

⁴ Including Región de Murcia International Airport (AIRM).

Real Estate (Leases and Financial Services):

- For contracts subject to CPI, an increase of 1% has been assumed.
- For contracts associated with high turnover assets (offices/warehouses) necessary to support other airport activities, it has been assumed that they remain at the same current contract volume.

3.2 Real estate services segment

Key figures

Thousands of euros	9M 2025	9M 2024	Year-on-year change	% Year-on-year change
Ordinary revenue	97,297	85,601	11,696	13.7%
Other operating revenue	881	768	113	14.7%
Total revenue	98,178	86,369	11,809	13.7%
Total expenses (including depreciation and amortisation)	-39,308	-31,659	7,649	24.2%
EBITDA	71,913	67,444	4,469	6.6%

The activity of the real estate services segment of Aena centres around the leasing or transfer of use of land (developed or undeveloped), office buildings, warehouses, hangars and cargo storage facilities to airlines, air cargo operators, handling agents and other airport service providers in supporting the activity and in developing complementary services.

The revenue from this segment mainly reflects the growth in revenue from the lease of new assets (facilities and surface rights) related to the air cargo activity.

The change in EBITDA reflects the effect of extraordinary revenue in 2024 corresponding to the collection of compensation received amounting to €8.0 million and recognised under 'Otras ganancias / (pérdidas) – netas' of the income statement. Excluding this effect, the change in EBITDA would reflect an increase of €12.5 million (+21.0% year-on-year).

The EBITDA margin stood at 73.2% (78.1% in the nine-month period of 2024). Excluding the above effect, the EBITDA margin in the nine-month period of 2024 would be 68.8%.

As regards the development of the **Airport Cities**, the last few months have been particularly significant:

- On 30 September, the Aena Board of Directors approved the tender for the hotel projects at Adolfo Suárez Madrid-Barajas Airport (T123) and Barcelona-El Prat Josep Tarradellas Airport (T2). Participants will have until 29 January 2026 to submit their bids.
- In terms of the development of logistical assets, a surface right for a 5-hectare plot at Barcelona-El Prat Josep Tarradellas Airport was arranged for construction and operation over a period of 50 years. The development is in the stage where the successful bidder is defining the technical projects.
- Progress is being made on the technical and urban planning works necessary to launch Area 1 of the Adolfo Suárez Madrid-Barajas Airport City.

3.3 Región de Murcia International Airport

The AIRM segment includes the revenue and expenses related to the operation of this airport under the concession model, which is held by the subsidiary Sociedad Concesionaria del Aeropuerto Internacional de la Región de Murcia S.M.E., S.A. (SCAIRM).

In the nine-month period of 2025, this airport recorded 767,115 passengers and 5,910 aircraft movements, representing a year-on-year change of +2.3% and +5.4%, respectively.

Key figures

Thousands of euros	9M 2025	9M 2024	Year-on-year change	% Year-on-year change
Ordinary revenue	11,571	11,138	433	3.9%
Other operating revenue	53	64	-11	-17.2%
Total revenue	11,624	11,202	422	3.8%
Total expenses (including depreciation and amortisation)	-12,756	-11,922	834	7.0%
EBITDA	-628	-295	333	112.9%

Concession term

The concession has a period of 25 years from the execution of the concession contract (24 February 2018).

3.4 International segment

Key figures

Thousands of euros	9M 2025	9M 2024	Year-on-year change	% Year-on-year change
Ordinary revenue	648,381	554,304	94,077	17.0%
Other operating revenue	6,967	95	6,872	7233.7%
Total revenue	655,348	554,399	100,949	18.2%
Total expenses (including depreciation and amortisation)	-439,580	-391,347	48,233	12.3%
EBITDA	306,931	248,885	58,046	23.3%

The international segment includes the consolidation of the subsidiaries London Luton Airport, Aeroportos do Nordeste do Brasil (ANB) and Bloco de Onze Aeroportos do Brasil (BOAB), and the advisory services to international airports provided by Aena Desarrollo Internacional S.M.E., S.A. (ADI).

- The consolidation of London Luton Airport has resulted in a contribution of €326.9 million in revenue and €181.8 million in EBITDA.
- The consolidation of ANB has resulted in a contribution of €79.6 million in revenue and €47.9 million in EBITDA.
- The consolidation of BOAB contributed €246.4 million in revenue and € 80.7 million in EBITDA.

The EBITDA margin was 46.8% (44.9% in the nine-month period of 2024).

Excluding the impact of construction services (IFRIC 12) recorded in concessions in Brazil and the insurance compensation received by London Luton Airport for the reconstruction of Terminal Car Park 2-TCP2 following the fire that occurred in October 2023, the international segment's EBITDA would be €264.0 million (+15.1 million and +6.1% year-on-year). The EBITDA margin would be 49.7% (48.2% in the nine-month period of 2024).

London Luton Airport

Thousands of euros	9M 2025	9M 2024	Year-on-year change	% Year-on-year change
Ordinary revenue:	319,951	310,756	9,195	3.0%
Aeronautical revenue	158,801	142,286	16,515	11.6%
Commercial revenue	161,150	168,470	-7,320	-4.3%
Other operating revenue	6,915	-	6,915	-%
Total revenue	326,866	310,756	16,110	5.2%
Staff costs	-60,301	-52,189	8,112	15.5%
Losses on, impairment of and change in allowances for trade receivables	-103	57	-160	-280.7%
Other operating expenses	-127,440	-132,694	-5,254	-4.0%
Depreciation and amortisation of fixed assets	-49,203	-43,644	5,559	12.7%
Profit/(loss) on disposal of fixed assets	42,773	68	42,705	-62801.5%
Total expenses	-194,274	-228,402	-34,128	-14.9%
EBITDA	181,795	125,998	55,797	44.3%
Operating profit/(loss)	132,592	82,354	50,238	61.0%

Euro/Pound exchange rate: 0.8506 in 9M 2025 and 0.8514 in 9M 2024.

In local currency, total revenue from London Luton Airport (£278.0 million) increased by 5.1% year-on-year (+£13.5 million).

- Aeronautical revenue (£135.1 million) increased by 11.5% year-on-year (+£13.9 million) due to increased traffic and updated charges.
- Commercial revenue (£137.1 million) reflects a year-on-year change of -4.4% (£-6.4 million) due to insurance settlements (compensations for lost profits and for incremental operating costs related to the fire at Terminal Car Park 2 (TCP2) on 10 October 2023), which were recognised under this heading in 2024 and under 'Other operating revenue' in 2025 (£5.9 million). Taking into account compensation for lost profits, commercial revenue would be £144.5 million (£132.6 million in the nine-month period of 2024) and the year-on-year change would be +9.0% and + £11.9 million.
 - In the retail lines, revenue from duty-free shops and food and beverage grew by +10.0% and +21.3%, respectively. The increase in the food and beverage business was driven by the opening of Sanfords Diner & Loft Bar in February.
 - Revenue from car parks (including insurance compensation for lost profits) has grown by 9.6% thanks to the commercial optimisation of the new Pick Up & Drop Off zone and the price management of the various car park products.

The new TCP2 car park reopened on 23 September. It has a Drop Off zone, a Drop & Go priority parking area and 1,900 parking spaces.

Operating expenses (staff costs and other operating expenses) reached £159.7 million, having increased by 1.5% year-on-year (+£2.3 million).

- Staff costs have risen by £6.9 million, mainly due to the salary increase agreed with the unions, the increase in social security costs, and the increase in security staff as a result of a higher volume of traffic and the implementation of next-generation systems.
- Other operating expenses decreased by £4.6 million, mainly due to lower operating expenses incurred as a result of the fire. Excluding this effect, other operating expenses increased by £1.1 million, reflecting the higher costs for equipment (mainly IT licenses), maintenance, the car park sales channel, and marketing and promotional activities. In addition, the expense for concession fees has risen £5.9 million (from £46.9 million in the nine-month period of 2024 to £52.8 million in the nine-month period of 2025) due to the increase in the number of passengers and as a result of being updated in line with the price index applicable in April. However, there has been a reduction in supply costs, due to lower energy and gas prices, and consultancy costs, due to lower DART (Direct Air-Rail Transit) management costs.

'Profit/(loss) on disposals of fixed assets' includes the insurance compensation for the reconstruction of the TCP2 car park (£36.5 million).

EBITDA reached £154.6 million (+44.2% year-on-year and +£47.4 million) and the EBITDA margin stood at 55.6% (40.5% in the nine-month period of 2024).

Excluding the impact of insurance compensation for the reconstruction of TCP2, EBITDA would be £118.1 million (+10.1% year-on-year and +£10.9 million) and EBITDA margin would be 42.5% in the nine-month period of 2025.

An agreement was reached in July 2025 with the insurance companies for total compensation of £112,5 million, which has been paid in full.

ANB

Thousands of euros	9M 2025	9M 2024	Year-on-year change	% Year-on-year change
Ordinary revenue:	79,588	97,347	-17,759	-18.2%

Profit/(loss) on disposal of fixed assets	8	-6	-14	-233.3%
Total expenses	-55,384	-77,950	-22,566	-28.9%
EBITDA	47,870	43,714	4,156	9.5%
Operating profit/(loss)	24,204	19,465	4,739	24.3%

Euro/Brazilian Real exchange rate: 6.319 in 9M 2025 and 5.702 in 9M 2024.

In local currency, ANB's total revenue (R\$502.9 million) decreased by 9.5% year-on-year (R\$-52.5 million) due to less revenue from construction services (IFRIC 12) as a result of completing the mandatory work of Phase IB of the concession arrangement in 2024. Excluding revenue from construction services, total revenue would be 15.1% higher than the nine-month period of 2024 (+R\$63.4 million).

- Revenue from aeronautical activity (R\$316.4 million) grew by 11.5% year-on-year (+R\$32.7 million) as a result of updating charges in line with inflation (harmonised index of consumer prices (HICP) of 4.76%), the increase in traffic and the change in its composition (higher share of point-to-point domestic and international traffic, which has a higher charge, compared to connecting traffic, which has a lower charge).
- Commercial revenue (R\$166.0 million) increased by 23.0% (+R\$31.1 million), driven by improvements in commercial offering following the completion of the Phase IB works, which have added new retail spaces and attracted new commercial operators, and is also due to the increased activity of VIP lounges and car rental activities.

Operating expenses (staff costs and other operating expenses) reached R\$199.6 million, having decreased by 34.9% year-on-year (-R\$106.9 million) mainly due to the decrease in construction services (IFRIC 12). Excluding construction service expenses (with a neutral effect on EBITDA), operating expenses would be R\$179.0 million, with a year-on-year increase of 5.3% (+R\$9.0 million), due to the increase in:

- Staff costs (+4.0% year-on-year and +R\$2.1 million) due to an increase in the headcount and salary increase in accordance with the collective agreement.
- Other operating expenses (+5.9% year-on-year and +R\$6.9 million) due mainly to the increase in the cost of firefighting services, and inflation.

EBITDA reached R\$302.5 million (+21.4% year-on-year and +R\$53.2 million) and the EBITDA margin stood at 60.1% (44.9% in the nine-month period of 2024).

Excluding the effect of construction services (IFRIC 12), the EBITDA margin would be 62.7% (59.5% in the nine-month period of 2024).

BOAB

Thousands of euros	9M 2025	9M 2024	Year-on-year change	% Year-on-year change

EBITDA	80,743	74,905	5,838	7.8%
Operating profit/(loss)	62,565	57,081	5,484	9.6%

Euro/Brazilian Real exchange rate: 6.319 in 9M 2025 and 5.702 in 9M 2024.

In local currency, BOAB's total revenue (R\$1,556.9 million) increased by 100.7% year-on-year (+R\$781.1 million) due to higher construction services (IFRIC 12) associated with the progress on the mandatory works of Phase IB of the concession arrangement and other improvement works. Excluding revenue from construction services, total revenue would be R\$790.8 million (+13.9% year-on-year and +R\$96.5million).

- Revenue from aeronautical activity (R\$530.7 million) grew by 14.5% year-on-year (+R\$67.3 million) mainly as a result of updating charges in line with inflation (HICP of 4.76%), the increase in traffic and the change in its composition (higher share of point-to-point domestic traffic, which has a higher charge, compared to connections, which have a lower charge).
- Commercial revenue (R\$259.9 million) increased by 12.6% (+€29.1million), mainly driven by the strong performance of food and beverage activities, car rental, real estate revenue and advertising.

Operating expenses (staff costs and other operating expenses) amounted to R\$1,043.7 million and rose by 200.5% year-on-year (+R\$696.4 million) as a result of the increase in construction services (IFRIC 12). Excluding construction service expenses (with a neutral effect on EBITDA), operating expenses would be R\$277.7 million, with a year-on-year increase of 4.4% (+R\$11.8 million), due to the increase in:

- Staff costs (+10.2% year-on-year and +R\$6.9 million) due to an increase in the headcount and salary increase in accordance with the collective agreement.
- Other operating expenses (+2.5% year-on-year and +R\$4.9 million) as a result of adapting resources to Aena's activity levels and service standards, inflation, and the effect of the property tax (IPTU) not incurred in 2024.

EBITDA reached R\$510.2 million (+19.5% year-on-year and +R\$83.1 million) and the EBITDA margin stood at 32.8% (55.0% in the nine-month period of 2024).

Excluding the effect of construction services (IFRIC 12), the EBITDA margin would be 64.5% (61.5% in the nine-month period of 2024).

Associates and jointly controlled entities

Below is a breakdown of the contribution to the profit/loss for the period:

Thousands of euros	9M 2025	9M 2024	Year-on-year change	Monetary units per euro	9M 2025	9M 2024	% Year-on-year change
AMP (Mexico)	24,423	23,599	824	MXN	21.8	19.3	12.9%
SACSA (Colombia)	-804	3,411	-4,215	COP	4,616.9	4,327.8	6.7%
AEROCALI (Colombia)	839	4,466	-3,627	COP	4,616.9	4,327.8	6.7%
Total Income from associates	24,458	31,476	-7,018				

In relation to SACSA, on 29 February 2024, the concession of Rafael Núñez International Airport (Cartagena de Indias, Colombia), managed through this Company, came to an end.

Regarding AEROCALI, as indicated in section 2.2.2 (Associates and jointly controlled companies), the concession arrangement ended on 31 August 2025.

The Group updated the impairment test at 30 September 2025 on investments accounted for using the equity method, resulting in a provision of the impairment of the shareholding in SACSA amounting to €766 thousand and a provision of the impairment of the shareholding in AEROCALI amounting to €2,419 thousand (€3,185 million in total).

Consolidated profit/(loss) for the period	1,621,238	1,472,620	148,618	10.1%
Profit/(loss) for the period attributable to non-controlling interests	41,806	22,781	19,025	83.5%
Profit/(loss) for the period attributable to shareholders of the parent company	1,579,432	1,449,839	129,593	8.9%

Main changes

Total revenue reflects a year-on-year increase of €388.4 million (+8.8%). The evolution of the different segments of the Group's business is detailed in section 3 (Business lines).

As indicated in section 3.4 (International segment), concessions in Brazil have posted revenue from construction services (IFRIC 12) of €124.5 million in the nine-month period of 2025 (€38.2 million in the nine-month period of 2024). Excluding revenue from construction services, the Group's total revenue would have increased by €302.2 million (+6.9%).

Operating expenses (supplies, staff costs and other operating expenses) amounted to €1,929.4 million, with a year-on-year increase of €180.7 million (+10.3%):

- Staff costs (€507.7 million) grew by €49.3 million (+10.8%).

For Aena (€421.1 million), they increased by €41.7 million (+11.0%) mainly as a result of the salary review for the year (+2.5%), the provision for other salary items, the increased headcount, and the higher social security cost of these increases.

The changes in the subsidiaries London Luton Airport, ANB and BOAB are explained in section 3.4 (International segment).

- Other operating expenses (€1,300.4 million) have increased by €129.9 million (+11.1%). As indicated in section 3.4 (International segment), concessions in Brazil recognised €124.5 million in construction service expenses (IFRIC 12) in the nine-month period of 2025, with a neutral effect on EBITDA (38.2 million in the nine-month period of 2024). Excluding construction service expenses, the Group's total other operating expenses would have increased by €43.7 million (+3.9%).

For Aena (€986.5 million), there has been an increase of €51.7 million (+5.5%). Excluding the cost of electricity, which rose by 16.1% year-on-year (€13.6 million) due to price increases, and the effect of an extraordinary provision for liabilities recognised in the first half of 2024 (€14.1 million), other operating expenses increased by €31.7 million (+5.3%).

As shown in the table on the next page, the expense items that reflect higher percentage growth are: the management costs of the VIP lounges and car parks, maintenance, security, and cleaning due to the increase in activity and the fact that the new contracts include a higher cost and scope of services.

The 'Other' category reflects the decrease resulting from the extraordinary provision for liabilities recognised in 2024.

The changes in the subsidiaries London Luton Airport, ANB and BOAB are explained in section 3.4 (International segment).

'Losses on, impairment of and change in provisions for commercial operations' mainly reflects the impairment of Aena's trade receivables.

'Profit/(loss) on disposals of fixed assets' includes the insurance compensation for the reconstruction of the TCP2 car park at London Luton Airport (€42.9 million) explained in section 3.4 (International segment). Conversely, there was a decrease in border control equipment replaced at Aena in compliance with the new European Entry/Exit System regulations (€5.9 million).

The Group conducted an analysis of the 'Impairment of intangible assets, property, plant and equipment and real estate investments' as at 30 June 2025, which showed that there was no indication of impairment on any of the cash-generating units (CGUs) included in the heading. With regard to the real estate segment, the net impairment provision recorded amounted to €28 thousand (€397 thousand at 30 June 2024).

The change in 'Other profit/(loss) – net' mainly reflects the effect of extraordinary revenue corresponding to the collection of various types of compensation received in 2024.

The financial results reflect a decrease in net expenses of €3.8 million, due to the following changes:

- Finance income: decreased by €25.6 million, mainly as a result of the reduction in average balances in deposits and current accounts at Aena, together with a lower average rate of remuneration, partially offset by higher revenue from the placement of ANB and BOAB cash surpluses.
- Finance expenses: decreased by €7.5 million, mainly as a result of the reduction in Aena's average debt and the drop in average interest rates, partially offset by the change in the derivative instrument of ADI that hedges exchange differences and the expenses associated with the commercial paper issued by BOAB in May 2025.
- Other net finance income/(expenses): reflects a decrease in expenses of €14.3 million, corresponding mostly to the change caused by differences in the net exchange rate recorded, mainly in the valuation of the financing granted by ADI London Luton Airport and to BOAB (denominated in Pounds sterling and Brazilian reais, respectively).

Consolidated EBITDA amounted to €2,882.7 million and has increased by 8.2% year-on-year (+€219.4 million). The EBITDA margin stood at 60.2% (60.6% at 30 September 2024). Excluding construction services (IFRIC 12) recorded in relation to concessions in Brazil, the Group's EBITDA margin would be 61.9% (61.1% at 30 September 2024).

The contribution from equity-accounted investees reflects the profit/(loss) for the period of non-controlling interests and the impairment loss on the shareholdings in SACS and AEROCALI, as detailed in section 3.4 (International segment).

Regarding Corporate income tax, expenses amounting to €530.2 million have been recorded, mainly as a result of the profit/(loss) for the year.

'Profit/(loss) for the period attributable to shareholders of the parent company' ended the year with a net profit of €1,579.4 million.

Breakdown of Aena's other operating expenses

5. Investments

The total amount of the investment paid in the nine-month period of 2025 (property, plant and equipment, intangible assets and real estate investment) amounted to €716.6 million (€623.4 million in the nine-month period of 2024).

5.1 Spanish airport network⁵

The investment paid amounted to €483.3 million (€565.4 million in the nine-month period of 2024), of which €1.0 million corresponds to AIRM (€963.0 thousand in the nine-month period of 2024).

The investment executed at Aena stood at €454.0 million. An investment volume of €798.0 million is expected for 2025.

The distribution of the investment paid across areas of activity is shown below:

Airport Regulation Document 2022-2026 (DORA II)

Additional investment

On 1 July 2025, the Council of Ministers approved an additional investment of €351 million to that already planned in the current DORA II programme. These are investments that could not be foreseen prior to the approval of this DORA II, and which bring forward necessary actions that would in any case be carried out in the next DORA III period (from 2027 to 2031).

Airport Regulation Document 2027-2031 (DORA III)

The investment proposal approved by the Company's Board of Directors was publicly announced on 18 September, which includes a total investment of €12,888 million, of which €9,991 million relate to regulated investments and the rest to non-regulated actions (associated with commercial activity).

The proposal for regulated investments that is finally included in the Airport Regulation Document (DORA), after being processed, which includes the consultation period with the associations representing users, will be submitted for approval by the Council of Ministers, in accordance with that set out in Law 18/2014, of 15 October.

5.2. International shareholdings

London Luton Airport

The investment paid during the nine-month period of 2025 amounted to €73.1 million.

This corresponds to the maintenance investment commitment of the concession arrangement and, in particular, to the reconstruction work on the TCP2 car park, which came into operation on 23 September. To a lesser extent, it includes investments for the construction of a new taxiway (Taxiway Alpha) and runway resurfacing works.

⁵ Including Aena and AIRM airports.

ANB

The investment paid during the nine-month period of 2025 amounted to €9.0 million.

Work continues on the refurbishment of the fire-fighting facilities at several airports, new special vehicles have been acquired for several airports, the process of modernising and improving the boarding bridges at Recife and Maceió airports has begun, and progress continues to be made on Phase II of the air-conditioning project at Recife Airport.

BOAB

The investment paid during the nine-month period of 2025 amounted to €151.2 million.

The investment programme has continued to make progress in executing Phase IB of the concession arrangement, which envisages a total investment of R\$4.5 billion (equivalent to €721.0 million at the closing exchange rate) in the group's 11 airports, of which approximately R\$2 billion (equivalent to €320.4 million at the closing exchange rate) will be allocated to Congonhas Airport.

The most notable actions taken during the period at Congonhas Airport include the completion of the remote boarding area (enlarged from 1,400 m² to 3,300 m² with an increase in the commercial offering from 2 to 11 establishments) and the start of the renovation of the terminal signage, while work continues on the Pick-up Plaza to enhance the airport's road mobility.

The equipment (boarding bridges, baggage handling system and security equipment) for Phase IB is progressing according to plan.

6. Statement of financial position

Thousands of euros	9M 2025	31/12/2024 Restated	Change	% Change
ASSETS				
Non-current assets	14,600,962	14,460,124	140,838	1.0%
Current assets	2,786,224	2,803,246	-17,022	-0.6%

Total equity and liabilities	17,387,186	17,263,370	123,816	0.7%

The breakdown of the items comprising each of the headings of the Statement of Financial Position is shown in section 12 (Financial statements).

Accounting policies, changes in accounting estimates and errors

As indicated in Note 2.1 a) to the interim condensed consolidated financial statements for the six-month period ended 30 June 2025, as a result of the capital increase carried out by Aena in 2011 through the contribution by Enaire of the assets and rights of the airport operations business segment, the Initial Public Offer (IPO) of 49% of Aena's shares in 2015, and the corresponding taxation of the capital gain in Enaire, it is considered that AENA S.A. is entitled to recover the tax revaluation of the assets received in the contribution of the business unit for an amount of €1,271 million.

The difference between the carrying amount and tax base of the assets affected generates a deferred tax asset that, in light of subsequent events, should have been recognised in the income statement of previous years at its higher estimated value as a reduction in the corporate income tax expense.

Therefore, based on the provisions of paragraph 42 of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors, the parent company has restated the comparative figures corresponding to the consolidated financial statements for 2024 included in the financial information for 2025. The effect of the accounting treatment of deferred tax assets has been reflected in the interim consolidated financial statements from the earliest fiscal year for which information is available.

Shown below is the effect of the corrections made to the comparative figures in the interim consolidated financial statements:

Thousands of euros	31 December 2024	Adjustment	31 December 2024 Restated
ASSETS			
Non-current assets			
Deferred tax assets	46,805	288,006	334,811

Total assets	16,975,364	288,006	17,263,370
Equity and liabilities			
Equity attributable to owners of the parent company			
Retained earnings/(losses)	5,917,746	288,006	6,205,752
Total equity	8,208,200	288,006	8,496,206
Total equity and liabilities	16,975,364	288,006	17,263,370

6.1 Main changes

Current assets increased by €140.8 million as a result of the following effects:

- 'Intangible assets' increased by €148.1 million, mainly due to the following:
 - Additions during the period amounted to a total of €224.3 million, mostly corresponding to investments in ANB, BOAB and London Luton infrastructures, and in Aena's computer software.
 - This effect is partially offset by the amortisation recognised for the period associated with intangible assets (€96.5 million).
 - The increase in the valuation of intangible assets at the reporting date by a net amount of €25.9 million as a result of the effect of the translation differences associated with the assets of the subsidiaries as a result of the appreciation of the Brazilian real with respect to the euro by €35.9 million, an effect that was offset by the depreciation of the pound sterling against the euro with an impact of -€10.0 million.
- 'Property, plant and equipment' decreased by €31.7 million mainly as a result of the net effect of the factors detailed below:
 - Disposals during the year amounted to a total of €12.8 million.
 - The negative impact on the valuation of fixed assets as a result of translation differences (€13.9 million).
 - Although additions in the first nine months of 2025 reached €521.5 million, this figure is almost entirely offset by the depreciation charges recognised in the same period (€520.6 million). The most significant volume of investment is in the Spanish airport network, in order to comply with the regulated investments committed in the DORA II, and respond to infrastructure security, quality and capacity standards.
- 'Investments in associates and jointly controlled entities' decreased by €15.9 million, mainly as a result of the approval of dividend distributions in two of the investees (€25.7 million) and the decrease in the value of the shareholding in AMP as a result of the effect of the change in equity of its investee GAP (€11 million). This effect is offset by the contribution of the profit of equity-accounted investees (€28.5 million).
- The derivatives recognised on the balance sheet correspond to interest rate hedging transactions, exchange rate hedging transactions and a hedge on the price of electricity (VPPA) arranged in April 2025. The valuation of these contracts as at 30 September 2025 resulted in the recognition of non-current and current assets of €3.4 million and €58.4 million, respectively (a total of €61.8 million). At 31 December 2024, the valuation resulted in the recognition of non-current and current assets of €13.8 million and €68.9 million, respectively (€82.7 million in total).
- 'Other non-current assets' increased by €65.9 million, mostly due to the recognition on a straight-line basis of the revenue corresponding to the rents from the commercial and real estate leases (€53.7 million).

Current assets decreased by €17.0 million, mainly as a result of the following:

- Decrease in 'Cash and cash equivalents' of €68.2 million, as explained in section 7 (Cash flow).
- Increase in 'Customers and other current assets' of €61.7 million, mainly due to:

- The balance of Aena's trade receivables increased by €76.6 million, mainly due to the revenue from MAG accrued during the first nine months of 2025, partially offset by the net decrease of €63 million in the balance of customers, which was mainly due to the collection of invoices issued in December 2024 and in 2025.
- The decrease in receivables from public authorities of €25 million, mainly due to the reduction in VAT receivables for both Aena and Luton (€19 million), and the grants received by Aena (€3 million).

The increase in **equity** of €147.3 million is mainly due to the net effect of the following:

- Profit for the period attributable to shareholders of the parent company (€1,579.4 million).
- The payment of Aena's dividend for 2024 (€1,464.0 million).
- The increase in translation losses incurred (€20.0 million) mainly due to the appreciation of the Brazilian real against the euro (€21.2 million).

The decrease in **non-current liabilities** by €67.7 million is mainly due to the following:

- This reduction in 'Financial debt' by €29.6 million is due to the reclassification to short-term debt of €285 million of Aena's debt to ENAIRE and €227 million of Aena's debt to credit institutions. This effect has been partially offset by new long-term debt with credit institutions by Aena for €460 million. London Luton Airport refinanced its debt and signed new long-term loans for £95 million (approximately €111.7 million), cancelling long-term loans in the amount of £28.5 million (approximately €33.2 million) ahead of schedule and reclassifying short-term debt of £48 million (approximately €56.4 million). The net effect of these changes is almost entirely offset by the depreciation of the pound against the euro (-€18.2 million).
- 'Provisions for other liabilities and expenses' decreased by €11.2 million due mostly to the reclassification to short-term provisions for other contingencies (€28.2 million), the use of a provision recognised in previous years as a result of a claim from an aeronautical customer following the publication of the corresponding ruling (€12 million) and the reversal due to excess provisions recognised in previous years (€9.4 million) after updating the quantification and classification of the associated risk. This effect was offset by the increase in provisions related to actions taken regarding sound insulation and soundproofing of residential areas (€8 million).

Current liabilities increased by €44.2 million, mostly due to the following changes:

- 'Current tax liabilities' increased by €366.5 million, due to the provisions recognised for the corporate income tax expense of the Group companies for the nine-month period of 2025. At 31 December 2024, the balance of this heading was significantly lower as a result of prepayments made in the last quarter of the year.
- 'Suppliers and other accounts payable' increased by €60.9 million mainly due to the provision recognised for local taxes (€82.5 million) and the increase in customer advances (€21 million), offset by the net decrease in payable to suppliers of fixed assets and trade payables (€16.4 million), adjustments for deferred income accrued (€11.8 million) and the parent company's indirect tax payables to the tax authorities (approximately €20 million).
- Current financial debt was reduced by €408.7 million mainly due to the repayment of Aena's debts to credit institutions (€700 million) and the debt of London Luton Airport (£76 million, approximately €89 million), and the repayment according to the contractual schedule of Aena's debt to Enaire (€297.8 million). This decrease is offset by the effect of:
 - Reclassifications from long-term to short-term debt relating to Aena's debt to Enaire (€285 million) and to credit institutions (€227 million), and London Luton's debt to credit institutions (€56.4 million, equivalent to £48 million at the average exchange rate for the period).
 - The issuance of commercial paper by BOAB totalling R\$570 million (approximately €91.3 million).
 - Recognition of interest accrued on bond issues by Aena (€15.9 million) and BOAB (€4.5 million, equivalent to R\$28.7 million at the average exchange rate for the period).

6.2 Evolution of net financial debt

The Aena Group's consolidated net financial debt stood at €5,127.5 million at 30 September 2025. This amount includes €380.9 million from the consolidation of the net financial debt of London Luton Airport, €156.7 million of ANB and €32.2 million of BOAB.

The Aena Group's net financial debt to EBITDA ratio is as follows:

Thousands of euros	9M 2025	2024
Gross financial debt	6,880,559	7,318,872
Cash and cash equivalents	1,753,101	1,821,283
Net financial debt	5,127,458	5,497,589
Net financial debt/EBITDA	1.37x	1.57x

The net financial debt of Aena S.M.E., S.A. stood at €4,637.8 million at 30 September 2025, in accordance with the Spanish General Accounting Plan (PGC).

The net financial debt to EBITDA ratio of Aena S.M.E., S.A. is as follows:

Thousands of euros	9M 2025	2024
Gross financial debt	6,102,100	6,613,181
Cash and cash equivalents	1,464,288	1,565,265
Net financial debt	4,637,812	5,047,916
Net financial debt/EBITDA	1.39x	1.59x

The total debt of Aena S.M.E., S.A. includes €3,978.8 million, which requires the company to meet certain financial covenants that are reviewed every year in June and December. At 30 September 2025, both ratios were largely met and no difficulties in achieving compliance at the next revisions are expected.

In the nine-month period of 2025, Aena has repaid €997.9 million in accordance with the payment schedule established in the contract (€297.8 million corresponds to the principal of Aena's debt to ENAIRE and €700.0 million to bilateral debt with credit institutions).

At 30 September 2025, Aena's cash balance rose to €1,464.3 million (€1,565.3 million at 31 December 2024).

In addition, the Company has €445.0 million in financing available (€760.0 million at 31 December 2024) and €2,000 million available in a sustainable syndicated credit facility (ESG-linked RCF), (€2,000 million at 31 December 2024).

The available cash and credit facilities total €3,909.3 million (€4,325.3 million at 31 December 2024).

The average interest rate of Aena's debt was 2.34% during the nine-month period of 2025 (2.54% at 31 December 2024).

On 30 September, Moody's rating agency upgraded the long-term and EMTN programme rating of Aena S.M.E., S.A. from 'A3' to 'A2' and changed the outlook from positive to stable. As indicated in section 10 (Subsequent Events), on 22 October, Fitch Ratings has affirmed the long-term and EMTN programme rating at 'A', and the company's short-term rating at 'F1'. The outlook on the long-term is stable.

The Aena Group's available cash and credit facilities amount to €4,272.5 million (€4,629.5 million at 31 December 2024).

The average interest rate of the Group's debt in the nine-month period of 2025 was 2.82% (2.51% at 31 December 2024).

London Luton Airport

In June 2025, London Luton Airport completed the refinancing of its bank debt. On 18 June, it repaid loans amounting to £80 million (equivalent to €91.6 million at the closing exchange rate) ahead of schedule and cancelled the credit facility amounting to £40 million (equivalent to €45.8 million at the closing exchange rate). These transactions were refinanced by signing loans for £95 million (equivalent to €108.8 million) with an average maturity exceeding the amortised debt, a credit facility of £25 million (equivalent to €28.6 million) and a new credit line of £40 million (equivalent to €45.8 million). The credit facility and line are fully available as of 30 September 2025.

At 30 September 2025, the net financial debt amounted to €380.9 million (€53.1 million corresponds to shareholder loans and the rest to debt with third parties) and the cash balance to €54.8 million.

The financing agreements of London Luton Airport establish financial covenants that must be complied with on a half-yearly basis. At 30 September 2025, the ratios were sufficiently met and no difficulties in achieving compliance at the next revisions are expected.

The average interest rate of the debt in local currency in the nine-month period of 2025 was 4.44% (3.90% at 31 December 2024), excluding the debt with shareholders of Aena Group.

ANB

At 30 September 2025, the net financial debt amounted to €156.7 million and its cash balance amounted to €75.6 million (€176.6 million and €47.5 million, respectively, at 31 December 2024).

The Company has financing agreements subject to compliance with financial covenants that are revised at the end of each year. The Group does not expect to have any difficulties in complying with these financial covenants at the end of 2025.

During the nine-month period of 2025, ANB repaid its debt to credit institutions amounting to R\$8.0 million (equivalent to €1.2 million).

The average interest rate of the debt in local currency in the nine-month period of 2025 was 9.9% (9.4% at 31 December 2024).

BOAB

In May 2025, BOAB issued commercial paper worth R\$570 million (equivalent to €91.3 million) maturing in June 2026.

As of 30 September 2025, the net financial debt amounted to €32.2 million and its cash balance amounted to €63.5 million (-€101.8 million and €101.8 million, respectively, at 31 December 2024).

The average interest rate of the debt in local currency in the nine-month period of 2025 was 14.4%, excluding the debt with shareholders of Aena Group.

7. Cash flow

Thousands of euros	9M 2025	9M 2024	Variation	% Variation
Net cash from operating activities	2,525,555	2,352,728	172,827	7.3%
Net cash used in investing activities	-667,023	-630,623	36,400	5.8%
Net cash flows from/(used in) financing activities	-1,929,031	-1,871,926	57,105	3.1%
Cash and cash equivalents at the beginning of the fiscal year	1,821,283	2,363,125	-541,842	-22.9%
Effect of foreign exchange rate fluctuations	2,317	-28,228	30,545	-108.2%
Net increase/(decrease) in cash and cash equivalents	-68,182	-178,049	-109,867	-61.7%
Cash and cash equivalents at the end of the fiscal year	1,753,101	2,185,076	-431,975	-19.8%

The breakdown of the items comprising each of the headings of the statement of cash flows is shown in section 12 (Financial statements).

Main changes

During the first six months of 2025, the Group's cash decreased by €68.2 million, mainly due to the payment of Aena's dividend amounting to €1,464.0 million, the decrease in gross financial debt amounting to €438.3 million, and negative cash flows from investments made in airport infrastructure amounting to €716.6 million. This decrease has been mostly offset by positive operating cash flows generated in the amount of €2,525.6 million from the volume of traffic and the performance of commercial activity at the Group's airports.

Net cash from operating activities

Positive cash flow from operating activities amounted to €2,525.6 million, reflecting the performance of traffic and commercial activity at the Group's airports.

The positive operating flows are generated primarily as a result of the pre-tax profit as of 30 September 2025 (€2,151.4 million).

Working capital shows a negative change of €31.2 million, mainly as a result of the following:

- The negative change in 'Debtors and other receivables' of €89.1 million is largely due to the revenue from MAG accrued during the first nine months of 2025 (€149.6 million), partially offset by, among other factors, the net increase in trade receivables during the same period (€63 million).
- The positive change in 'Creditors and other payables' (€58.0 million) is mainly due to the accounting of Aena's local taxes (€82.5 million) for 2025, which are accrued in full at the beginning of the year, and to the advances from aeronautical customers received by Aena (+€21 million). This effect is partially offset by a net decrease in trade payables and suppliers of fixed assets (-€16.4 million), adjustments for deferred income accrued (-€11.8 million), and in the parent company's indirect tax payables to the tax authorities (approximately €20 million).

Net cash used in investing activities

The cash flow used in investing activities amounted to €667.0 million, mainly reflecting the payments for the investments in 'Acquisitions of property, plant and equipment', 'Acquisitions of intangible assets' and 'Acquisitions of real estate investments', which totalled €716.6 million (see section 5. Investments).

'Payments for acquisitions of other financial assets' of €19.2 million were also made, mostly corresponding to guarantees deposited with the regional housing institutes for the commercial leases entered into by Aena in 2025 (€12 million), and tax credits arising for BOAB (€7 million) as a result of investments in fixed assets.

In addition, €42.8 million were received from transactions related to property, plant and equipment mainly as a result of insurance compensation for the reconstruction of the TCP2 (£36.5 million). Dividends from investments in associates amounting to €25 million were also received.

Net cash flows from/(used in) financing activities

The cash flows used in financing activities amounted to €1,929.0 million and corresponded to:

- Dividends paid by the Group totalling €1,475.5 million, of which €1,464.0 million corresponds to the dividend paid by Aena charged to net profit for 2024 and £9.8 million (€11.5 million at the average exchange rate for the period) for the payment of the London Luton dividend to non-controlling interests.
- The repayment of debts with credit institutions amounting to €813.2 million, mainly corresponding to the maturity of Aena's loans (€700 million) and to the early repayment of London Luton Airport's debt (€110.8 million), mostly as a result of the refinancing transaction described above.
- The repayment of Aena's debt to Enaire amounted to €297.8 million, in accordance with the payment schedule set out in the contract.
- The new financing with credit institutions for an amount of €571.8 million (€460 million corresponding to Aena and €111.8 million to London Luton Airport).
- The issuance of commercial paper by BOAB totalling R\$570 million (equivalent to €91.3 million).
- 'Other income' and 'Other payments' include amounts received of €49.6 million and payments of €49.7 million, which mainly arose from the arrangement and reimbursement of deposits and guarantees received in the operations of the aeronautical and commercial business.

8. Main legal proceedings

As indicated in Note 11.1 to the interim consolidated financial statements for the six-month period ended 30 June 2025, on 24 February 2025 Aena was notified of Ruling no. 275/2025 of the Civil Chamber of the Supreme Court that hands down a decision on the appeal to the Supreme Court filed by the Company against the judgment of the Provincial Appellate Court of A Coruña, which confirmed the lower court decision in one of the lawsuits on the application of the DF7. This is the first of the cases mentioned in which the Supreme Court has had the opportunity to rule on this dispute, although it has done so in order to declare that it lacks jurisdiction, on the grounds that the contractual relationship between Aena and the commercial operator must be classified as a service concession contract and that the civil courts therefore lack jurisdiction to hear the action brought by the commercial operator. As a result, without entering the merits of the matter, the ruling agrees to render all the legal proceedings since the claim was admitted null and void.

After conducting an analysis of the identity of cause between the case decided by the Supreme Court and the other similar cases pending before the civil courts, Aena has informed the courts and tribunals hearing the proceedings in which this identity of cause has been identified of the content of the ruling handed down by the Supreme Court.

However, given that, for the time being, the Supreme Court's ruling has only had an impact on a few legal proceedings, apart from the one mentioned above, in which the decision rendering the proceedings null and void has been declared final, and that

the number of proceedings affected by the ruling is therefore very small in comparison with the total volume of current litigation, it is not possible to assess the overall impact that the Supreme Court's ruling may have on the total number of contracts and proceedings underway.

As regards provisions for liabilities, after updating the quantification and classification of the risk associated with provisions from previous years, a reversal of €9.4 million has been recorded for excess provisions, as indicated in section 3.1.1 (Aeronautical activity) of this management report.

In relation to Note 11.2 to the interim consolidated financial statements for the six-month period ended 30 June 2025, there have been no significant changes regarding legal proceedings against Aena's airport charges, except for those detailed in section 3.1.1 (Aeronautical activity) of this management report.

9. Stock market performance

In compliance with the resolutions passed by the shareholders at the Annual General Meeting of Aena S.M.E., S.A. on 9 April, on 19 June **the total number of shares in the Company's share capital was split** in the ratio of 10 new shares for each existing share. The split was carried out by reducing the nominal value of each share from €10 to €1, without changing the share capital figure, resulting in an increase in the number of shares outstanding.

Aena's share price has fluctuated throughout the period, ranging from a minimum of €19.55 to a maximum of €25.71 (taking into account the share value adjustment). The share price closed at €23.27 at 30 September 2025, which represents a revaluation in the share price of 17.9% from 31 December 2024, lower than the performance of the IBEX 35 which rose by 33.5% in the same period.

02/01/2025 - 30/09/2025

Aena (MSE) 23.27 IBEX 35 15,475.00

Main data on the performance of Aena's share on the continuous market of the Madrid Stock Exchange:

30 de septiembre de 2025	AENA.MC
Total traded volume (number of shares)	361,128,067
Average daily traded volume for the period (number of shares)	1,890,723
Capitalisation (€)	34,905,000,000
Closing price (€)	23.27
Number of shares	1,500,000,000
Free Float (%)	49%
Free Float (shares)	735,000,000

As regards the acquisition and disposal of treasury shares, Aena did not hold any treasury shares at 30 September 2025 and, therefore, there was no impact on the yield obtained by the shareholders or on the value of the shares.

10. Subsequent events

From 30 September and up to the date of drawing up this management report, no significant events have occurred that might affect it other than those mentioned below:

- With regard to the proceedings against the airport charges for 2022, Ryanair has lodged appeals to the Supreme Court against the rulings handed down by the National Appellate Court, which were granted leave to proceed by the Supreme Court on 1 October and 7 October, with the appeals having yet to be formally filed.
- On 17 October 2025, Aena filed a lawsuit as part of the contentious-administrative proceeding against the CNMC's resolution on the supervision of charges for 2025.
- On 22 October, Fitch Ratings has affirmed the long-term and EMTN programme rating at 'A', and the company's short-term rating at 'F1'. The Outlook on the long-term is stable.

11. Alternative Performance Measures (APM)

In addition to the financial information prepared under the International Financial Reporting Standards adopted by the European Union (IFRS-EU), the reported financial information includes certain alternative performance measures (APM) in order to comply with the guidelines on alternative performance measures published by the European Securities and Markets Authority (ESMA) on 5 October 2015, as well as non-IFRS EU measures.

The performance measures included in this section rated as APM and non-IFRS EU measures have been calculated using the Group's financial information but are not defined or detailed in the applicable financial reporting framework.

These APM and non-IFRS EU measures have been used to plan, control and assess the Group's evolution. The Group believes that these APM and non-IFRS EU measures are useful for management and investors as they facilitate the comparison of operating performance and financial position between periods. Although it is considered that these APM and non-IFRS EU measures allow a better assessment of the evolution of the Group's businesses, this information should be considered only as additional information, and in no case does it replace the financial information prepared according to the IFRS. Moreover, the way in which the Aena Group defines and calculates these APM and non-IFRS EU measures may differ from the way in which they are calculated by other companies that use similar measures and, therefore, may not be comparable.

The APM and non-IFRS EU measures used in this document can be categorised as follows:

Operating Performance Measures

EBITDA or reported EBITDA

EBITDA (Earnings Before Interest, Tax, Depreciation and Amortisation) is an indicator that measures the company's operating margin before deducting financial results, income tax and amortisation/depreciation. This is calculated as Operating profit plus amortisations (consolidated under IFRS and individual under General Accounting Plan). By disregarding the financial and tax figures, as well as amortisation/depreciation accounting expenses that do not entail cash outflow, it is used by Management to assess the operating profit of the company and its business segments over time, allowing them to be compared with other companies in the sector.

EBITDA margin

The EBITDA margin is calculated as the quotient of EBITDA over total revenue and is used to measure the profitability of the company and its business lines.

EBIT margin

The EBIT margin is calculated as the quotient of EBIT over total revenue. EBIT (Earnings Before Interest and Taxes) is an indicator that measures the company's operating margin before deducting financial results and income tax. It is used to measure the company's profitability.

OPEX

This is calculated as the sum of Supplies, Staff costs and Other operating expenses and is used to manage operating or running expenses.

Measures of the financial position

Net Financial Debt

This the main APM used by Management to measure the Company's level of indebtedness.

It is calculated as the total 'Financial Debt' (Non-current Financial Debt + Current Financial Debt) that appears in the accompanying consolidated statement of financial position less the 'Cash and cash equivalents' that also appear in the statement of financial position (in the case of the individual statement, it is calculated under PGC).

The definition of the terms included in the calculation is as follows:

- Financial Debt: this means all financial debt with a financial cost as a result of:
 - loans, credits and commercial discounts;
 - any amount due for bonds, obligations, notes, debts and, in general, similar instruments;
 - any amount due for rental or leasing which, according to the applicable accounting regulations, should be treated as financial debt;
 - financial guarantees assumed by Aena that cover part or all of a debt, excluding those guarantees related to debts of consolidated companies; and
 - any amount received by virtue of any other kind of agreement that has the effect of commercial financing and which, according to the applicable accounting regulations, should be treated as financial debt.
- Cash and cash equivalents: Definition contained in p. 7 of IAS 7 'Cash flow statement'.

Net Financial Debt Ratio/EBITDA

It is calculated as the quotient of the Net Financial Debt divided by the EBITDA for each calculation period. In the event that the calculation period is less than the annual period, the EBITDA of the last 12 months will be taken.

The Group monitors capital structure based on this debt ratio.

The numerical reconciliation between the most directly reconcilable line item, total or subtotal, presented in the financial statements and the APM used is presented below:

Aena Group (Thousands of euros)	30 September 2025	2024	30 September 2024
