GREENERGY RENOVBABLES, S.A.

9 October 2026

GREENERGY RENOVBABLES, S.A. (hereinafter, the "COMPANY"), in compliance with the provisions of Article 227 of Law 6/2023 of 17 March on Securities Markets and Investment Services, hereby notifies the National Securities Market Commission of the following

GREENERGY secures financing for 446 MW and 1.8 GWh in Chile for a total of \$457 million

GREENERGY has secured a \$457 million non-recourse senior loan facility, with BNP Paribas as lead arranger and underwriter, and participation from BBVA, J.P. Morgan Chase Bank, MUFG Bank, Santander and The Bank of Nova Scotia. The amount includes \$26 million in credit facilities ("LC Loans").

This financing is linked to Algarrobal, the fifth phase of Oasis de Atacama, with a solar capacity of 242 MW and 1,480 MWh of storage, as well as to the Palmas cluster, comprising a portfolio of projects totaling 204 MW of solar capacity and 289 MWh of storage.

Algarrobal has a 12-year hybrid power purchase agreement (PPA), as reported in 'Other Relevant Information' to the CNMV under registration number 41157, which is due to come into force on 1 January 2028.

Palmas is a cluster of 21 distribution-scale solar projects operating under the stabilized pricing scheme (PMGDs). All projects are currently operational, and six are in the process of incorporating five-hour storage systems (289 MWh).

This transaction includes refinancing 14 of the 21 Palmas projects, the initial financing for which totaled \$85 million and was reported to the CNMV as Inside Information under registration number 661.

Madrid, 9 October 2026.
