

CIE AUTOMOTIVE ACCELERATES ITS GROWTH AND REACHES €275 MILLION IN NET PROFIT IN THE FIRST NINE MONTHS

With an EBITDA margin of 19% and over €400 million in operating cash flow

Bilbao, 28.10.2026 – CIE Automotive has presented its results for the first nine months of 2026 today, demonstrating its operational strength and consolidating the Company's key profitability and value creation indicators.

During this period, CIE Automotive has achieved record revenues of €3,141 million, representing growth 8 percentage points above the market and continued market share gains.

EBITDA – gross operating profit – stood at €596 million, representing a 19% margin on sales, while EBIT – net operating profit – reached €445 million, representing a 14.3% margin on sales. These solid operating results were accompanied by a net profit of €275 million.

According to Jesús María Herrera, CEO of CIE Automotive, “These results confirm CIE's ability to combine growth and profitability, maintaining margins at exceptional levels in a challenging market environment.”

He continues, “And in this context, I would particularly like to highlight our high and recurring operating cash generation, which allows us to maintain ambitious organic investment plans, finance inorganic growth, and continue with an attractive and growing shareholder remuneration policy, while preserving a stable and controlled level of indebtedness.”
