Morningstar DBRS Upgrades and Confirms Credit Ratings on BBVA Consumer Auto 2020-1 FT

AUTO

DBRS Ratings GmbH (Morningstar DBRS) took the following rating actions on the notes (the Rated Notes) issued by BBVA Consumer Auto 2020-1 FT (the Issuer):

- Series A confirmed at AA (sf)
- Series B upgraded to AA (sf) from A (high) (sf)
- Series C upgraded to A (high) (sf) from A (low) (sf)
- Series D upgraded to A (low) (sf) from BBB (low) (sf)

The credit rating actions follow an annual review of the transaction and are based on the following analytical considerations:

- Portfolio performance, in terms of delinquencies and defaults, as of the April 2026 payment date.
- Probability of default (PD), loss given default (LGD), and expected loss assumptions on the remaining receivables, and
- Current available credit enhancement to the Rated Notes to cover the expected losses at their respective credit rating levels.

The transaction is a securitisation of Spanish auto loan contracts originated and serviced by Banco Bilbao Vizcaya Argentaria, S.A. (BBVA). The portfolio comprises loans granted to individuals residing in Spain for the purchase of new or used vehicles through BBVA's car dealer network. The transaction closed in June 2020 and had an initial 18-month revolving period, which ended on the January 2022 payment date.

PORTFOLIO PERFORMANCE

As of the April 2026 payment date, loans that were 30 to 60 days and 60 to 90 days delinquent represented 0.8% and 0.6% of the portfolio balance, respectively, while loans more than 90 days delinquent amounted to 0.3%. Cumulative defaults amounted to 2.2% of the aggregate original portfolio balance, with cumulative recoveries of 35.5% to date.

PORTFOLIO ASSUMPTIONS AND KEY DRIVERS

Morningstar DBRS conducted a loan-by-loan analysis of the remaining pool of receivables and maintained its base case PD and LGD assumptions at 4.3% and 59.8%, respectively.

CREDIT ENHANCEMENT

The subordination of the junior notes provides credit enhancement to the Rated Notes. As of the April 2026 payment date, the Series A, Series B, Series C, and Series D notes' credit enhancement remained unchanged since issuance at 14.0%, 11.5%, 8.5%, and 5.0%, respectively, because of the pro rata amortisation of the

Rated Notes. If a sequential redemption event is triggered, the principal repayment of the Rated Notes will become sequential and nonreversible.

The transaction benefits from a cash reserve providing liquidity support, currently at its floor level of EUR 1.5 million as of the April 2026 payment date. The cash reserve is available to cover senior fees and expenses as well as interest payments on the Series A, Series B, and Series C notes.

BBVA acts as the account bank for the transaction. Based on BBVA's reference credit rating of AA (low), which is one notch below its Morningstar DBRS Long Term Critical Obligations Rating (COR) of AA, the downgrade provisions outlined in the transaction documents, and other mitigating factors inherent in the transaction structure, Morningstar DBRS considers the risk arising from the exposure to the account bank to be consistent with the credit ratings assigned to the Rated Notes, as described in Morningstar DBRS' "Legal and Derivative Criteria for European and Asia-Pacific Structured Finance Transactions" methodology.

BBVA also acts as the swap counterparty for the transaction. Morningstar DBRS' COR of AA on BBVA is consistent with the first credit rating threshold as described in Morningstar DBRS' "Legal and Derivative Criteria for European and Asia-Pacific Structured Finance Transactions" methodology.

Morningstar DBRS' credit ratings on the Rated Notes address the credit risk associated with the identified financial obligations in accordance with the relevant transaction documents. Where applicable, a description of these financial obligations can be found in the transaction press release at issuance.

Morningstar DBRS' long-term credit ratings provide opinions on risk of default. Morningstar DBRS considers risk of defaults to be the risk that an issuer will fail to satisfy the financial obligations in accordance with the term under which a long-term obligation has been issued.

ENVIRONMENTAL, SOCIAL, AND GOVERNANCE CONSIDERATIONS

There were no Environmental/Social/Governance factors that had a significant or relevant effect on the credit analysis.

A description of how Morningstar DBRS considers ESG factors within the Morningstar DBRS analytical framework can be found in the Morningstar DBRS Criteria: Approach to Environmental, Social, and Governance Factors in Credit Ratings at <https://dbrs.morningstar.com/research/454196>.

Morningstar DBRS analysed the transaction structure in Intex DealMaker.

Morningstar DBRS has applied the principal methodology consistently and conducted a review of the transaction in accordance with the principal methodology.

A review of the transaction legal documents was not conducted as the legal documents have remained unchanged since the most recent credit rating action.
