

A la Comisión Nacional del Mercado de Valores

Bankinter, S.A. (Bankinter) de conformidad con lo establecido en la legislación del Mercado de Valores, comunica:

Otra información relevante

Bankinter ha sido objeto en 2021 de las pruebas de esfuerzo realizadas por la Autoridad Bancaria Europea (ABE), en cooperación con el Banco Central Europeo (BCE) y la Junta Europea de Riesgo Sistémico (JERS), conocidas como *EBA Stress Test 2021*.

El ejercicio no establece un umbral de aprobado/suspenso, sino que está diseñado como información adicional clave para el proceso de revisión y evaluación supervisora (SREP, por sus siglas en inglés) en 2021. Los resultados permiten valorar, por parte de los supervisores, la capacidad de Bankinter para absorber pérdidas y sostenimiento de su nivel de solvencia ante un escenario de crisis económica grave (escenario adverso) bajo unos supuestos metodológicos comunes que permiten la comparabilidad de resultados entre entidades.

El escenario de estrés adverso fue establecido por el BCE/JERS y cubre un horizonte temporal de 3 años (2021-2023), siendo el escenario adverso planteado en esta ocasión el más severo de la serie histórica que la EBA ha planteado a lo largo del tiempo y que propone una continuación de la depresión económica en los próximos 3 años como consecuencia de una prolongación de la crisis sanitaria ocasionada por el COVID 19. El escenario, por tanto, no puede entenderse como una previsión de los beneficios futuros de Bankinter.

El resultado del ejercicio se mide en base a "*capital depletion*" que supone la reducción observada en la ratio CET1 comparando el punto de partida (diciembre de 2020. 12,29%) con el último año (2023) del escenario adverso, teniendo mejor resultado cuanto menor *capital depletion* se produce. Los resultados de Bankinter se resumen a continuación:

- El capital depletion de Bankinter ha sido de 104 bps, medido tanto en base *fully-loaded* como *phased-in*, dado que Bankinter no aplica ninguno de los ajustes transicionales que permite la CRR para amortiguar los impactos de IFRS9 o la pandemia en capital.
- Bankinter ha proyectado un pay-out del 50% para ambos escenarios y en todos los años de proyección, en línea con su práctica habitual.
- De la muestra de los bancos participantes en el *EBA Stress Test 2021*, Bankinter es el banco español con menor capital depletion del ejercicio y el tercero de la muestra del total bancos europeos participantes en el ejercicio.

Para más información sobre el ejercicio, pueden consultar el sitio web de la EBA (www.eba.europa.eu) o la web corporativa de Bankinter donde se presenta mayor información sobre el resultado (www.bankinter.com/webcorporativa).
