# Highlights of the main molecules

Very positive evolution with excellent performance in both direct sales and Licences

## Bilastine

**112.4 M€**

The strong performance we saw in the first half of the year continues, with growth of **+11%** and positive results in all areas, particularly in our international subsidiaries.

## Calcifediol

**47.2 M€**

Sales growth for the molecule of **+15%** mainly driven by the performance of licensing sales and those of the international subsidiaries , as well as strong performance in Portugal.

## Mesalazine

**17.0 M€**

Mesalazine is the molecule with the highest percentage growth of **+59%** compared to 2024. In this case, growth is driven by the strong performance of the product licence in Poland.

Rounded data

# Pharma business, solid growth in all lines

## Total Pharma revenues: 399.5 M€ +13%

/01

### IBERIA +8%

Growth sustained mainly by prescription. The incorporation in June of Laboratorio Edol, offset part of the slowdown in Portugal's growth.

/02

### INTERNACIONAL +19%

Of note was the good performance of **LATAM +16%** and **ROW +23%** with overall growth in all markets, and the incorporation of SIFI in September.

/03

### LICENSES +17%

Driven by the strong performance of **Bilastine +8%** with better-than-expected performance in Eastern European and Asia-Pacific countries , together with growth in **Other licences +55%**.

# Pharma Iberia, sustained growth in prescription

## Iberia revenues: 170.7 M€ +8%

/01

### SPAIN +1%

**Prescription grew +4%** with positive evolution especially in **bilastine +11%** thanks to new formats and the **respiratory franchise** which grew double digit **+19%** gaining competitiveness.

This growth offsets the slowdown in **Healthcare & consumer (-5%)**, In this area, a new strategy is being rolled out with a focus on priority brands to recover from this decline.

/02

### PORTUGAL +44%

Growth mainly in prescription **+11%**, offsetting the performance of some Healthcare products.

Incorporation in June of Laboratorio Edol, progressing at a good pace.

## Revenues of Pharma Iberia in M€

### Spain

### Portugal

# Pharma International, Latam as the growth engine

## International revenues: 129.6 M€, +19%

/01

### LATAM +16%

**Colombia +25%, Ecuador +31% and Peru +25% y México +19%** continued to perform very positively, with strong growth, based on the strategy of maximising the growth of our strategic products, bilastine and hidroferol. **Chile +6%** growth in the retail market is growing in a good pace, offsetting the drop in the price of bilastine due to the strong presence of generics. **Central America-Caribbean** grew **+8%**, reflecting the successful implementation of the action plan launched in the middle of the year.

/02

### ROW (Rest of the World) +23%

The effects of seasonal sales are diluted in this quarter, which will result in incremental revenue in subsequent quarters.

Completion of the acquisition of SIFI in September, adding one month of revenue.

## Revenues of Pharma International in M€

### LATAM

### Rest of the world\*

\*Including one month of SIFI

## Licences revenues: 99.2 M€ +17%

/01

### BILASTINE +8%

**Bilastine** maintains the solid growth rate seen in previous quarters. The main drivers continue to be Eastern Europe and Asia-Pacific.

/02

### OTHER LICENCES +55%

Performance in this area has been exceptional, driven mainly by strong growth in **Mesalazine**, which has consolidated its leadership in Poland with a 50% market share, as well as a notable increase in the Nordic countries.

Meanwhile, **Calcifediol** continues to expand strongly in Eastern Europe, exceeding initial forecasts, and has been successfully launched in new strategic markets such as Greece and Australia, both of which have high growth potential.

## Licences revenues in M€

### Bilastine

### Other Licences

# Animal nutrition and health

**FARM Faes revenues: 57.8 M€ +48%**

/01

Significant growth in revenue, with the **ISF** business as the main driver, with revenue continuing to exceed expectations.

FARM Faes strengthens its leadership in animal nutrition, especially in the piglet segment, thanks to the new ISF plant.

At the sector level, Chinese tariffs are putting downward pressure on the price of Spanish pork, adjusting the margins between selling price and production cost.
