

## **Técnicas Reunidas awarded a \$3.394 billion contract in the UAE**

- The amount of the contract is \$3.394 billion. The Spanish company will carry out the project in the UAE.
- The project will consist of the development of upstream facilities and will include offshore activities with the critical process facilities built under modular design.
- The completion of the entire project is estimated to take five years and will require more than 1.2 million engineering man-hours of work. Técnicas Reunidas Madrid Engineering Hub will be leading this project.
