Disclosure of Other Relevant Information

Enagás increases its stake in Teréga by 18% to 49.5% of its share capital

Madrid, 13 November 2026.

Enagás, through its subsidiary Enagás Internacional, S.L.U., has signed an agreement with EDF Invest, a division of Electricité de France SA (EDF), to acquire an 18% stake in the share capital of the French company Teréga Holding S.A.S ("Teréga") for a total of 311 million euros.

Following the transaction, Enagás, which already holds a 31.5% stake in Teréga, will increase its shareholding to 49.5% of Teréga's share capital.

The remainder of Teréga's share capital is held by Snam SpA, which owns 40.5%, and Predica, a subsidiary of the French banking group Crédit Agricole Assurances, which holds the remaining 10%.

This transaction is part of the asset rotation process announced by the Company in its 2025-2030 Strategic Update, which sets out decarbonisation and the strengthening of long-term security of supply in Spain and Europe as key priorities.

The increased stake in Teréga will benefit both companies and strengthen cooperation and security of supply between the French and Spanish energy systems, while fully preserving Teréga's operational independence. The combination of both companies' technical capabilities and expertise will support the efficient management of energy infrastructure and the development of cross-border decarbonisation projects between neighboring TSOs.

The transaction is expected to close before the end of 2026. Once completed, the transaction will not result in any change of control or modification to the governance arrangements set out in Teréga's Shareholders' Agreement. The stake will continue to be accounted for using the equity method.
